Therefore, it is ordered, That the Respondent's request for a hearing is granted. In accordance with 49 CFR 386.54(a), I hereby appoint an Administrative Law Judge to be designated by the Chief Administrative Law Judge of the Department of Transportation, as the Presiding Judge in this matter. The Judge appointed is authorized to perform those duties specified in 49 CFR 386.54(b).

Dated: July 19, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of David Salinas

[Docket No. R6-90-20]

Final Order

This matter comes before me upon request of the Regional Director, Region 6, Office of Motor Carrier Safety for a Final Order finding the facts to be as alleged in a Notice of Claim dated March 6, 1990, and assessing a penalty of $500 (not $1,500 as requested incorrectly in the motion).

Respondent has not requested a hearing and settlement negotiations were unsuccessful. Having reviewed the Motion and the supporting documents appended thereto, I find that the evidence supports the charges and specifications in the Notice of Claim relating to violations of the Federal Motor Carrier Safety Regulations (FMCSRs).

Therefore, it is ordered, That the Motion for a Final Order is granted and the Respondent is directed to pay $500 the amount of assessed penalty to the Regional Director within 30 days of the date of this Order.

Dated: July 13, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers

In the Matter of Wisconsin Protein Carriers, Inc.

[Docket No. R5-90-07 (Formerly R5-89-140)]

Final, Order, in Part and Order Appointing Administrative Law Judge

This matter comes before me upon request of the Respondent for a hearing. This request originates in a Notice of Claim dated October 31, 1989. The Regional Director, Office of Motor Carrier Safety, Region 5, raises no objection to the hearing and asks for the expedited appointment of an Administrative Law Judge.

The Notice of Claim alleges violations of the Federal Motor Carrier Safety Regulations (FMCSRs) in three areas: (1) 49 CFR 387.7(a), failing to have the requisite level of insurance; (2) § 395.8(e), false entries upon a record of duty status; and (3) § 395.8(k)(1), failing to preserve record of duty status.

Respondent has a long involvement with this Agency and its regulations. There can be no excuse based on inadequate knowledge of the requirements of the regulations. There is ample case law to establish that a commercial entity is deemed to have knowledge of regulatory violations if the means were present to detect the violation, see *Rise & Co.* v. *U.S.* 262 F. 2d 245, 250 (9th Cir., 1958) and *U.S.* v. Time-DC. Inc., 381 F. Supp. 730, 739 (W.D. Va., 1374).

Respondent admits to the transportation as alleged in Count 1, but denies knowingly transporting cargo requiring public liability insurance in the amount required. Such knowledge is fundamental to successful business operations. It is simply not enough to say that such a violation was inadvertent. It is my fervent hope that most violations are inadvertent. To assume that any violation is deliberate is callous and in such instance criminal action, not civil, would be warranted. Therefore, I can find no material factual issue here. Respondent transported materials in violation of the requirement. The forfeiture penalty assessed at $1,000 is reasonable.

With respect to the alleged violations in the second count, the falsification violations, Respondent contends that although there are inconsistent records, it denies that the payroll and toll records are necessarily accurate. This is a novel contention in terms of this violation, however, in the absence of any contest by petitioner, I am appointing an Administrative Law Judge to examine these counts, to hear the evidence and to make a judgment concerning the validity of the alleged violations.

With respect to the alleged violations in the third count, failure to preserve a driver's duty record, I am in a quandry as to the underlying claim. Respondent contends that each of these counts involves an exception under the rules and that although not retained, all required records have been prepared. In addition, Respondent contends these same records have been prepared (and apparently disposed of) in exactly the same manner for over 20 years. In that time and through a number of audits, no previous violations of this regulation have been alleged.

These averments stand uncontested by Petitioner. This is different than factual issues in dispute. Either Respondent is within the exception, or not. Either the records are prepared or they are not. If, in fact this has been the mode of operation, and violations have not been discovered or discussed previously, I am giving the Respondent the benefit of the doubt. No *prima facie* violations are established by the material before me. If Petitioner feels that there are substantive violations here, I suggest that it discuss its concerns with Respondent and document its case for any future audits. These counts are dismissed.

Respondent also raises serious concerns with the process of assessment. Obviously, Petitioner feels that serious violations have been discovered. This is a carrier with a fairly long history of involvement with the Agency. I would welcome th Judge's review of the assessment process in this case and any recommendations which would guide Petitioner in the future in applying the statutory requisites to its penalty assessments in the face of Respondent's contentions.

Therefore, it is ordered, That Respondent's request for a Hearing on the matter of transporting material without the proper insurance is denied and Respondent shall pay to the Regional Director the sum of $1,000 within 30 days. Alleged violation counts 18–34, failing to preserve driver's records are dismissed as discussed above.

I am appointing an Administrative Law Judge to hear testimony and consider evidence for counts 2–17, the alleged violations of requiring or permitting a driver to make false entries upon a record of duty status. I am appointing the Judge in accordance with 49 CFR 386.54(a), to be designated by the Chief Administrative Law Judge of the Department of Transportation, to be the Presiding Judge in this matter. The Judge appointed is authorized to perform those duties. specified in 49 CFR 386.54(b).

Dated: July 10, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of Edgar J. Anderson

[Docket No. R6–90–225]

Final Order

This matter comes before me upon request of the Regional Director, Region 6, Office of Motor Carrier Safety for a Final Order finding the facts to be as alleged in a Notice of Claim dated February 6, 1990, and assessing a penalty of $1,500.

Respondent has not requested a hearing and settlement negotiations were unsuccessful. Having reviewed the Motion and the supporting documents appended thereto, I find that the evidence supports the charges and specifications in the Notice of Claim relating to violations of the Federal Motor Carrier Safety Regulations (FMCSRs).

Therefore, it is ordered, That the Motion for a Final Order is granted and the Respondent is directed to pay $1,500 the amount of assessed penalty to the Regional Director within 30 days of the date of this Order.

Dated: July 10, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of Kenworth of Tennessee, Inc.

[Docket No. 89–TN–031–SA]

Final Order

This matter comes before me upon request for a Hearing by Respondent and Motion for Final Order by Petitioner. Petitioner (Regional Director, Office of Motor Carrier Safety, Region 4) has alleged 10 violations of the Federal Motor Carrier Safety Regulations (FMCSRs). These alleged violations were discovered during a Compliance Review of Respondent.

The violations involve 49 CFR 391.51(c) and (d) and 395.8(i). Respondent admits to certain of the violations but denies others on the basis of a jurisdictional challenge. Respondent argues that some of its drivers are not primarily drivers, are intermittent drivers only, or are not regularly employed. Accordingly, Respondent contends they are not covered by the applicable regulation allegedly violated.

Respondent also contests Agency jurisdiction under the 100 air-mile radius exemption in § 395.8(l) and the imposition of a maximum penalty of $500 for each count. Petitioner has sought to clarify its authority in these very areas through widely disseminated interpretations. There appear to be no factual issues left in dispute. Jurisdictional challenges are not countenanced in the regulations governing these hearings and there is no reason for me to appoint an Administrative Law Judge. Respondent's recourse is in the Courts.

With respect to the imposition of the penalty, I have stated on many occasions that the Regional Director is in the best position to make the original assessment. Only where the circumstances warrant will I intervene to change such an assessment. Respondent has not made a clear

showing that the number of counts is unjustified; Respondent has not convinced the Regional Director that willing compliance will be implemented in the future; Respondent has not substantiated its allegations that it is being treated differently than similar organizations in this Region.

Therefore, it is ordered, That Respondent's Request for a Hearing is denied and petitioner's Motion for a Final Order is granted. Respondent shall pay the sum of $5,000 to the Regional Director within 30 days of the date of this Order.

Dated: July 5, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of Tonawanda Tank Transport Service, Inc.

[Docket No. R1–90–130]

Final Order

This matter comes before me upon request of the Regional Director, Office of Motor Carrier Safety, Region 1, for a Final Order. In its original response to the Notice of Claim, Respondent requested an informal settlement conference and reserved its right to request an administrative hearing. Such a request has not been perfected, and in any case would not be granted as Respondent admits the violations. Respondent has requested mitigation and we will address that point herein. Mitigation alone is not a material factual issue in dispute subject to hearing.

A Notice of Claim issued in September, 1988 following an audit in July, 1988 alleged 18 violations of the Federal Motor Carrier Safety Regulations (requiring or permitting false logs). A penalty assessment of $13,500 was levied. The parties have been unable to resolve this matter informally.

Between June, 1985 and July, 1988 Respondent was the subject of three audits. The audit previous to the one at issue here resulted in a penalty settlement of $9,000 for alleged hours of service and false records of duty status violations.

In its reply to the Notice of Claim, Respondent notes these facts. Respondent then goes on to discuss in detail the many actions taken to stem the tide, including cautioning drivers of the consequences of continuing violations, computerization of log monitoring, hiring of new personnel and maintenance of a strong safety training program. Its brief states: "* * * has simply spent too much time and money in attempting to bring its company into full compliance to risk substantial fines and penalties in the future due to a lack of effort of its employees."

Respondent notes that time was compressed between the settlement for the violations in the 1987 audit and the follow-up audit which resulted in the documentation of these violations. Respondent contends it would have been "more equitable appropriate" to conduct a follow-up audit after the computer system became fully operational.

Petitioner responds to these arguments by applauding any efforts to improve safety, but dismisses the efficacy of Respondent's implemented plans. Petitioner states that it is unsure of the success of such program even if in fact it has been implemented.

The record does' not indicate that the program is now in place, there is no discussion of the success or failure of the program if it is in place, nor is there any indication of the likelihood of a new audit soon.

The violations have been admitted. I would like to state for the record that even had Respondent contested the allegations on the basis of not knowing or requiring the violations, there is ample case law to establish that a corporate entity is deemed to have knowledge of regulatory violations if the means were present to detect the violations, see *Riss & Co.* v. *U.S.*, 282 F.2d 245, 250 (8th Cir., 1958) and *U.S.* v. *Time-DC, Inc.*, 381 F. Supp. 730, 739 (W.D. Va., 1974). I make these observations by way of stating that in the case of Respondent, its present averments should put any such arguments to rest in the future as regards its circumstances.

Judge Kolko, in a recent opinion in the matter of *Drotzmann. Inc.*, Docket No. R10–89–11, indicated that an effective safety program may have an effect on certain types of alleged violations. The effectiveness of such a program is indicated by the presence or absence of continuing violations. Mitigation could accordingly be given where an established program is showing results. I have no such information before me. However, the age of this case and these violations, the upgrading of programs to detect these violations and eliminate them and the Respondent's contention that the passage of so little time between audits worked to its disadvantage, warrant a slight reduction in the assessment.

At the same time, it appears that sufficient time has elapsed for a follow-up audit to ascertain the efficacy of the proferred improvements. The Regional Director should work with the Respondent to select an appropriate time for such an audit. If violations are continuing, then a clear pattern case will have been established. Further action will be predicated on Respondent's good faith implementation and continuation of a program to eliminate these violations.

Therefore, it is ordered, That Petitioner's Motion for A Final Order is granted. However, for the reasons discussed above, the penalty is reduced to $10,000. Respondent shall pay this amount to the Regional Director within 30 days of the date of this Order.

Dated: July 5, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of Corey Brothers, Inc.

[Docket No. R3–90–06 (Formerly R3–90–066)]

Order Appointing Administrative Law Judge

This matter comes before me upon request of the Respondent (Corey Brothers, Inc.) for a hearing and opposition thereto and request for a Final Order by Petitioner (Regional Director, Office of Motor Carrier Safety, Region 3). The request for a hearing is occasioned by receipt of a Notice of Claim, dated December 18, 1989, alleging 35 documented violations of the Federal Motor Carrier Safety Regulations (FMCSRs). Petitioner seeks the imposition of a civil penalty in the amount of $16,200.

Respondent replied to the Notice of Claim on January 15, 1990. That reply addressed each claim, denied its allegations and added specific notations, where it deemed appropriate. The reply also noted that a key staff member was apparently incapacitated at the time of the audit, which accounts for some missing documentation. Certain assertions are of little consequence in this proceeding. The fact that most of the transportation provided is at the local level does not affect the jurisdiction of this agency. Respondent does transport in interstate commerce and is subject to the FMCSRs.

Petitioner opposes the request for a hearing and states that Respondent's request contains only general denials. Such is not the case. Statements such as Respondent's answer to Claim 3, to wit, "Corey Brothers, Inc., denies all of the allegations contained in this paragraph and asserts that it maintained the required records in the files * * *", seem to indicate the presence of a fairly specific factual issue in dispute. Petitioner seeks to support its claim by referencing the documentary evidence in appendix B. Without a specific recitation of that evidence, I cannot

agree with the Petitioner. I will note that Respondent contests that allegation that it did not report an accident by stating that no accident occurred. The record before me does seem to provide evidence of a truck, in an accident, with a report, insurance claim and photos as verification. However, being of a relatively open minded disposition, I am willing to allow respondent to explain this discrepancy to an Administrative Law Judge. Respondent also seizes on an apparent typographical error in one count, involving a trip from Charleston, West Virginia, to Bland, WV, and claims no interstate transport was involved. Possibly there is a Bland in both West Virginia and Virginia. Respondent will have to convince the Judge of this.

Counsel for the Petitioner should stand advised that I will not make his argument for him. In the future, if Counsel believes that the documents substantiate an argument, these documents shall be properly referenced and described in the pleading. Counsel for the Respondent should stand advised that this Agency places the highest priority on highway safety. The FMCSRs have been promulgated in furtherance of Congressional objectives to that end. The allegations levied here are serious. Corey Brothers protests its innocence of any violation. Corey Brothers seeks an opportunity to put forth its arguments. I shall grant Corey Brothers that opportunity. However, Respondent should be counseled that I will not countenance frivolous pleadings where highway safety is at stake. The Judge appointed by this Order is hereby requested to examine each of the arguments in this matter and to determine if any pleadings are, in fact, frivolous, and I would welcome any recommendations on further action.

Therefore, it is ordered, That I hereby appoint, in accordance with 49 CFR 386.54(a), an Administrative Law Judge to be designated by the Chief Administrative Law Judge of the Department of Transportation, as the Presiding Judge in this matter. The Judge appointed is authorized to perform those duties specified in 49 CFR 386.54(b).

Dated: June 22, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of Drotzmann, Inc.

[Docket No. R10-89-11 (Formerly R10-89-39)]

Final Order

Upon request of the Respondent this matter was assigned to an Administrative Law Judge for hearing. That hearing took place on April 5, 1990. At the close of the evidentiary and argumentation portion of the hearing, the Judge found and concluded that the agency had made out a prima facie case, that it (the agency) had carried its burden of proof with regard to the fact that the violations had occurred, and that the respondent had permitted the violations to occur.

Of particular interest to me was the Judge's discussion on the establishment of a pattern of violations and the interrelationship between a safety program and proof of pattern. The Judge indicated that *an effective safety program* may have an effect on pattern arguments. In this matter, however, although the Judge would not call the Respondent's safety program at the time of the violations a sham, he did state that the program had no teeth in it.

The effectiveness, or lack thereof, was demonstrated by the evidence of continuing violations. The Judge concluded that it was this continuation of violations which establish a pattern.

The Judge then went on to recommend a reduction of the penalty. This recommendation relies on the apparent beginning of effectiveness of the respondent's safety program. The Judge found evidence of actual termination of drivers, whom he characterized as recidivist violators who just won't listen to letters or warnings.

The Judge articulated the reasoning underlying his recommendation as follows:

> I'm doing so in the hope * * * that a future safety audit by the Highway Administration will indicate that the teeth in the enforcement program have finally had some effect upon the pattern of violations, because otherwise, chances are we will be back in another proceeding at some point, and at that point, the respondent will have had its one bite at the apple, because I can't imagine either myself or some future judge reducing the penalty one more time if the program is not working.

The Judge also underscored the establishment of a pattern in noting that when a company has half of its drivers violating the law, this goes beyond the lone ranger theory, and the ability of a company to control a driver. In the Judge's words, "These are not individual driver violations * * * this is a company violation".

The Agency has appealed the Judge's reduction of the penalty and means of payment set forth. In its Appeal Memorandum, the Agency contests the Judge's recommendation for a lower penalty. In so doing, many prior statements of mine are cited. These statements all reference the wide latitude given to the Regional Director in establishing the amount of a civil penalty. I will underscore those statements here; nevertheless, I have also said that the Administrative Law Judge is free to make a recommendation on the amount of the penalty based on the facts presented at the hearing, and I will accept or modify that recommendation. Reference to the *N. L. Industries, Inc.*, v. *FAA* case is not dispositive here. Any final decision on penalties is resident in my office. If I make no modification in a recommended penalty within the 45 day period it becomes my penalty decision. If I do modify the penalty, that remains within my authority. The delegated authority of the Regional Director never supercedes that authority.

At this point, I see no reason to withdraw my offer to the Administrative Law Judges to recommend penalty terms.

Having said this, I partly accept Judge Kolko's recommendation in reducing the amount of the penalty to provide an incentive to compliance. I do not agree with that part of his recommendation stretching out the payments for six months. In view of the sharp reduction in the amount of the penalty, the agency is entitled to receive the amount due as expeditiously as possible.

Therefore, it is ordered, That the decision of Judge Kolko is accepted and affirmed, except as modified above. In addition, in keeping with the spirit of the Judge's ruling, the Regional Director is directed to reaudit Respondent within 6 months. If the pattern of violations continues, then the Agency is directed to prepare an action sufficient to compel compliance. Payment of the assessed civil penalty is to be made to the Regional Director within 30 days of the date of this Order.

Dated: June 20, 1990.

Attschment

(Transcript Pages from Judge Kolko's Hearing).

Richard P. Landis,

Associate Administrator for Motor Carriers.

There's testimony today that they hired someone who wasn't doing her job, and yet Mr. Kelley nor Mr. Drotzmann was supervising closely enough to figure out that that was the case.

Judge Kolko: Okay. That concludes the evidentiary and argument portion of this, and the case is ripe for decision, which is as follows:

I find and conclude that the government has not only made out a *prima facie* case, it has carried its burden of proof with regard to the fact that the violations occurred—that actually was established before this proceeding started this morning—and that the respondent permitted those driver violations to occur.

How did it permit those to occur? I think we had ample testimony from the government

witnesses, principally Ms. Phillips and Mr. Arnold, with regard to what a better safety program would be, one that actually had teeth in it, and from all of the government's witnesses with regard to the lack of effectiveness of merely jumping up and down and screaming at your drivers or writing them letters, that an effective safety program, even coupled with a training program, has to go past stern looks and words, and that this was a safety program that had no teeth in it.

Whether or not it was a sham, I don't need to find. It may well have been evidence introduced in good faith by the respondent, but nevertheless, by virtue of the fact that after repeated visits from the government—nevertheless, it was a safety program that really had no clout to it, and that clout was—that absence of clout was reflected by the fact that there were continuing violations, continuing violations which, up to the point of this notice of claim, do establish a pattern of violations, as alleged and as I find proven by the government. And those were the matters which the Associate Administrator set this proceeding for hearing to determine and which I so find.

The bottom line, then, comes, what is the sanction to be effected? Ordinarily, given the overwhelming amount of proof which the government has introduced, I would go along with the fine, as suggested in the very persuasive document of Ms. Taylor—I think it's Exhibit P–13; it is Exhibit P–13—in which, for very cogent reasons, she recommended a fine of $15,000, but she also indicated in her examination that that was based upon information which was up to the then most current audit, and not based upon information that—of a more recent nature.

More recently, it appears, and unbeknownst, apparently, to the government, there have been, finally, some actions taken by the respondent which indicate that it is starting to do the very thing that the government witnesses suggest, which is, if you want to run a responsible program, one that makes an impression on the other employees, you start to terminate people who are recidivist violators and just won't listen to your letters and warnings.

And in Exhibit R–1, there are examples of six such terminations, which occurred in December of 1989. Let me ask Mr. Kelley a question, who's still under oath, even though he's not on the witness stand right now. Have any of those drivers been rehired?

Mr. Kelley: By me? No one.

Judge Kolko: By Drotzmann?

Mr. Kelley: No.

Judge Kolko: Very well. So, as I say, ordinarily, up to the date of the notice of claim, a $15,000 fine would be eminently in order, given that a pattern of violation has occurred, and the Highway Administration was quite understandably frustrated in the fact that it was escalating the fines, and nothing was happening.

It now appears that something is finally starting to happen. We don't know all the details yet, because pursuant to its policy of not auditing a respondent while a previous case is ongoing, a safety audit has not been conducted, but we do have indications that six terminations occurred in one month when, during the prior period of time involved in this and the previous notices of claim that established a pattern of violation, there was no termination.

And so for that reason, and that reason alone, I'm going to reduce the amount of the penalty by $1,000 for each of those drivers terminated and establish a penalty of $9,000, since R–1 indicates six terminations. I'm doing so in the hope, Mr. Kelley, that a future safety audit by the Highway Administration will indicate that the teeth in the enforcement program have finally had some effect upon the pattern of violations, because otherwise, chances are we will be back in another proceeding at some point, and at that point, the respondent will have had its one bite at the apple, because I can't imagine either myself or some future judge reducing the penalty one more time if the program is not working.

I am impressed that it may be working based upon the fact that six—which is a very impressive number of terminations, given that there were zero before, and so for that reason, I reduce the penalty.

Just so that you understand, by the way, in response to the argument which you have—the respondent has stoutly maintained, that it really can't control its drivers, when you have half your drivers violating the law, this goes beyond the lone ranger theory of violating the law. These are not individual driver violations, gentlemen; this is a company violation. And as I say, I may be going out on a limb, reducing this penalty, but I am impressed by the fact that the very recommendations which have been made to you off the record and this morning on the record by the Highway Administrations people are finally starting to be implemented, and solely for that reason, because otherwise, I'm very impressed with the Highway Administration's case and very unimpressed with your defense—solely for that reason am I reducing the penalty by $1,000 for each of those terminations.

The result is that each side has a right of appeal, because nobody has won fully, and I might as well read that to you, as I indicated earlier I would.

"The decision of the Administrative Law Judge," which I have just issued, "becomes the final decision of the Associate Administrator 45 days after it is served, unless a petition or motion for review is filed under 49 CFR 386.62. The decision shall be served on all parties and the Associate Administrator." Since it's an oral decision you've just been served, the Associate Administrator will be notified by virtue of the transcript arriving in the docket section.

There are further regulations which deal with the petition for review. I won't read them into the record. I just cited it to you. It's 49 386.62. So if you wish to appeal to the Associate Administrator, you have 45 days to do so, and what you have to do is contained in 386.62.

Is there anything else to occupy us?

Mr. Hanf: Just one point of clarification, Your Honor. When would that penalty be due?

Judge Kolko: That penalty would be due in 30 days, unless the respondent and the government wish to work out a payment schedule, which I have done in other enforcement proceedings for other agencies. It's a payment schedule that's still meant to have some teeth in it, and I would think that six payments of $1,500 would be the most stretching out that I would countenance.

Mr. Hanf: I guess I didn't understand, Your Honor. Are you asking us to work it out, or are you saying that that's an acceptable payment schedule?

Judge Kolko: Well, that's acceptable to me, if you—

Mr. Hanf: It's—

Judge Kolko:—if the respondent wishes to do that. What other agencies do is enter into a promissory note arrangement with the respondent, with the schedule indicated in that note.

Mr. Hanf: Your Honor, our position has to be that you reduce the fine $9,000, as you viewed, appropriately, but that that reduction alone is enough to satisfy Drotzmann, Incorporated and that since—given the fact they have this large line of credit, and they are a large corporation, I mean, relatively speaking—over $3 million a year—that the $9,000 be due in 30 days.

Judge Kolko: Well, I'll tell you why sometimes—I hear what you're saying, I don't necessarily disagree, Mr. Hanf. There are two theories of this. One is which—that writing any large several-digit check hurts and has the required effect upon bringing the mind to bear on the part of the person who's writing that check as to why he's writing it. On the other hand, having to write a check six times, albeit for a smaller amount, has a similar effect. Each time Mr. Leonard sits down and writes that check, he's going to remember why he's writing it, and you could argue it either way as to which has the greater punitive/remedial effect, both, both of which I'm charged to implement. So while I hear what you're saying and don't necessarily disagree, I would like the respondent to be continuously reminded for six more months as to just what has happened, and I think writing that check will do it.

Mr. Hanf: Is it possible to get interest on that money, then, Your Honor?

Judge Kolko: I don't think it works that way. I think, since it all goes to the General Treasury anyway—I don't recall—

Mr. Hanf: Actually, it goes in the Highways Trust Fund.

Judge Kolko: It does go to the Highway Trust Fund? Okay. Well, we certainly could use it.

But, in any event, I'm basically doing this because I want the respondent to—the same as you do, to feel the bite. We just have different avenues of coming at it, and I don't want them to just write a check and walk away from this proceeding.

Anything else to come before us?

Mr. Hanf: Thank you, Your Honor.

Judge Kolko: All right. We're adjourned. Thank you all. You all did a fine job, and, Mr. Leonard, for somebody who's not a lawyer, you might want to consider going to law school; you did pretty good.

Mr. Leonard: Thank you.

(Whereupon, at 2:55 p.m., the hearing in the above entitled matter was closed.)

In the Matter of Schaffner Mfg. & Sales Corp.

Docket No. R1-90-063

Final Order

This matter comes before me upon request of the Regional Director, Office of Motor Carrier Safety, Region 1 for a Final Order finding the violations to be as alleged and imposing a civil penalty in the amount of $9,500. Respondent has answered with a plea for reduction in the amount of the penalty.

There are several salient points presented by this case. Respondent is a small manufacturer of kitchen cabinets who delivers its own products. Trucking is not its primary operation. The trucking part of the business is ancillary to its operations, however, it appears to provide an essential component of its profitability.

In many previous decisions, I have stated that smallness of size is no excuse for violation of the safety regulations. That continues to be my position. At the same time, however, it must be noted that some distinction needs to be made between those in the transportation services area and those in the manufacturing area, with a distribution sideline. The expanded coverage of the law and regulations is bringing new operators within the scope of coverage. The addition of new investigators means that identification of trucking operations is now more proficient and the possibility of multiple visits to those rated less than satisfactory has increased.

How should the programmatic directions laid out in the guidelines reflect these considerations? Firstly, it is absolutely essential that a degree of decorum be instilled in the process. I recognize that small operations are often pressed for time and personnel. Government requirements for recordkeeping are onerous and seemingly unimportant when viewed in the context of a balance sheet or payroll. Nonetheless, there is no reason to subject the Government's auditors to personal or professional abuse. This record reflects some degree of ridicule, which can easily be translated into noncooperation.

Secondly, the Government has an obligation to schedule its reviews of these smaller operations in such a manner as to ease the scheduling burden. Great care must be taken to impart a sense of understanding, both of the role the regulations provide in enhancing safety and the role we play in ensuring compliance with the regulations.

Respondent has been visited several times in the past 15 years. Enough times, in fact, to know the requirements of the regulations and their importance. The record indicates that on one visit, our investigator was told something to the effect of "give me 6 months and I will be in compliance." Well, more than 6 months has passed since that visit and the Respondent is still in disarray.

Respondent asserts that it has a small, reliable driver force and that it seeks no immunity from Government safety regulations. What the Respondent now needs is to incorporate recordkeeping into its business transaction records. All businesses need to maintain records. The addition of safety records for these few drivers cannot be considered unduly burdensome.

The record indicates that the violations did occur. The Regional Director has already reviewed the record and reduced the original assessment. No hearing is warranted on the issue of penalty alone.

Therefore, it is ordered, That Respondent's request for a hearing is denied. Petitioner's request for a Final Order is granted. I am imposing a civil penalty in the amount of $9,500 as requested. However, I am directing the Regional Director to revisit Schaffner Mfg. & Sales Corp. in 30 days. I expect that by this visit, a proper recordkeeping system will be in place. I am also directing that Schaffner be revisited within 1 year from this Order. If the records are in place and properly maintained, this penalty will be dismissed. However, if the records are not in order, then the full amount is due. In addition, should Respondent remain in noncompliance at that 1 year review, the Regional Director shall institute such action as to compel the cessation of violations.

Dated: June 12, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of D & N Bus Service, Inc.

[Docket No. R3-90-107]

Final Order

This matter comes before me upon request of the Respondent for an oral hearing and the Regional Director's (Petitioner) opposition thereto and request for a Final Order. These motions originate in a Notice of Claim dated February 20, 1990, alleging 19 violations of the Federal Motor Carrier Safety Regulations (FMCSRs) and assessing a penalty of $300 for each alleged violation for a total of $5,700.

Respondent, through Counsel, has replied in a somewhat innovative, if not legally correct manner. Respondent contests the jurisdiction of the Federal Highway Administration (FHWA) in this matter on the grounds that it is, by virtue of a contract with the State of Delaware, an "arm of the State of Delaware." Although Respondent may be contractually responsible to the State of Delaware, the Congress has empowered the FHWA to enforce the FMCSRs, which apply to the transportation of material and passengers, as specified by statute, in interstate commerce. An administrative hearing is not the proper forum for the explication of unsound, even though innovative legal theories.

I fail to understand the thrust of Respondent's defense. The transportation of passengers is a sacred duty; should that transportation involve schoolchildren the burden is of even greater weight. It is of no consequence to this Agency whether Respondent complied with its contractual requirements to the State of Delaware.

With respect to the charge that this action has been the result of selective enforcement, discriminatory enforcement or otherwise prejudicial enforcement, the record establishes that such charges are pure bunkum. The Affidavit of Mr. Harlan Tull, the State Transportation Supervisor for the Delaware State Board of Education states explicitly that Respondent is not an agency or department of the State of Delaware, nor is it an agent of the Board. Respondent is properly characterized as a contract carrier of passengers.

The Affidavit of Mr. Walter H. Johnson, Jr., establishes that there have been other enforcement actions against carriers transporting school children in interstate commerce pursuant to contracts with State and local governments.

These arguments of Respondent do not constitute material factual issues in dispute. It is not enough to say that the facts of each individual violation will be addressed at hearing. The regulations are clear and specific: to get to the hearing stage, all material factual issues in dispute must be identified. Respondent's pleading has not met this basic test.

On the other hand, the record before me substantiates that there was transportation in interstate commerce and that the alleged violations did take place.

Therefore, it is ordered, that Respondent's request for a hearing is denied and Petitioner's request for a Final Order is granted. Respondent is directed to pay the amount of $5,700 to

the Regional Director within 30 days of the date of this Order. In addition, Respondent should note that the Notice of Claim also provides a Notice of Abatement. The Regional Director is hereby directed to ascertain immediately if the Notice of Abatement has been followed. If Respondent has not complied with the Notice of Abatement, further action to compel compliance should be brought immediately.

Dated: June 12, 1990.

Richard P. Landis

Associate Administrator for Motor Carriers.

In the Matter of Johnny D. Secrest Driver Qualification

[Docket No. 89-03D]

Order Appointing Administrative Law Judge

This matter comes before me upon petition filed by Johnny Dean Secrest, petitioner, requesting review of the Determination of Qualification issued by the Acting Director, Office of Motor Carrier Standards, Federal Highway Administration (FHWA). In support of his request, petitioner submits for our consideration additional information and arguments; and expresses his belief that the Federal Motor Carrier Safety Regulations (FMCSRs) should be changed or revised to permit the interstate operation of commercial motor vehicles by low vision and monocular drivers. Such a change in the regulations is not to be considered as part of this proceeding. Rather, petitioner's physical qualifications to operate a commercial motor vehicle is the matter at hand. Petitioner should note that the FHWA will be considering changes to its regulations, including issues relating to low vision and monocular drivers.

Having carefully reviewed the record, I find that there is a material issue in dispute in this case. The issue is whether petitioner use of an Ocutech Lens System will correct his vision to at least 20/40 in each eye, and whether such a lens system constitutes "corrective lenses" within the meaning of 49 CFR 391.41(b)(10) and 392.9a (1989). Although the second part of the issue appears to be more of a legal issue than one of fact, it is invested with factual characteristics.

It must be determined whether the Ocutech Lens System is something different from glasses or contact lenses and thus, not contemplated in the cited regulation, or whether it is merely a sophisticated or technologically advanced set of glasses. This is a matter of factual proof, including the possible review of technical or medical evidence. The record is replete with reference by all parties to different lens systems—Ocutech, bioptic, telescope types—but there is a lack of substantial information on these systems. Even the type of lens to be used by petitioner was in question. The Acting Director determined that bioptic telescopes are not corrective lenses authorized by the FMCSRs. Petitioner argues that his doctor examined his vision using a Ocutech lens system, which, he alleges, is not a bioptic or telescope type lens.

In view of the above and in fairness to the parties in this case, I have determined that the material factual issue in dispute be submitted to an Administrative Law Judge for additional proceedings. The Judge appointed shall, in addition to the authority cited below, specifically address the matters discussed above and should review the record, oral arguments and briefs prior to making recommendations. Petitioner should be aware that the burden of proof in this proceeding will rest upon him, 49 CFR 391.49(e) (1989).

Therefore, it is ordered, that I hereby appoint an Administrative Law Judge in accordance with 49 CFR 386.54(a) (1989) to be designated by the Chief Administrative Law Judge of the Department of Transportation as the Presiding Judge. The Judge appointed is authorized to perform those duties specified in 49 CFR 386.54(b) (1989).

Dated: May 31, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of A. Weinfeld & Sons, Inc.

Order Denying Petition for Reconsideration and Stay

This matter comes before me upon Petition of Respondent for Reconsideration of a Final Order and Motion for Stay of such Order. The Final Order, issued on March 1, 1990, discussed in detail the reasons for not granting a hearing or other relief as requested by Respondent. This matter involves documented allegations of violations of the regulations. The Respondent has had similar violations in the past. Therefore, this is not a case of first impression for this Respondent.

Respondent's present motion for reconsideration breaks no new ground. Once again, Respondent would like to shift the burden for noncompliance onto an allegedly recalcitrant union. This is not a material factual issue in dispute. For whatever reason, Respondent has violated the regulations. Collective bargaining problems, while they may be real problems for an employer, do not override the safety of the public. The Federal Motor Carrier Safety Regulations are intended to protect the safety of the public.

Petitioner opposes the Motion. Its argument is based on the absence of material factual issues in dispute and the fact that the Respondent was informed in 1988 of the need to establish these files. Yet some 18 months later, Respondent still relies on the excuse that it has labor difficulties.

Although these arguments may be considered in mitigation of a proposed penalty, I find that no further mitigation is warranted. Congress has directed this Agency to secure compliance. In the case of reluctant, recalcitrant or unconvinced carriers, the penalty authority has been increased and strengthened.

With respect to the request for a Stay in the Final Order, I find that no compelling legal or factual argument has been advanced by Respondent. There will be no irreparable harm to Respondent through the imposition of this penalty, there appears to be little chance of success on the merits in a legal action against this Agency, should Respondent wish to pursue that course of action, and whatever public interest considerations are involved must lie in favor of public safety. In this case, the Respondent has been in violation for far too long. The public interest will best be served by the timely resolution of this matter. Respondent has not shown that the Agency has departed in any way from established practice.

Therefore, it is ordered, That Respondent's Motion for Reconsideration and Stay is denied. The terms of the Final Order are to be complied with as written.

Dated: May 7, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of D & D Transportation Co., Inc.

[Docket No. RI-89-276]

Final Order

This matter comes before me upon request of the Regional Director, Office of Motor Carrier Safety, Region 1, for a Final Order finding the facts to be as alleged in a Notice of Claim dated November 15, 1989, and assessing a penalty of $4,800.

The Notice of Claim alleges 10 instances of failing to maintain a complete driver qualification file (49 CFR 391.51) and 6 instances of failing to require a driver to prepare a vehicle inspection report (49 CFR 396.11). Each of the documented instances involves

separate drivers. The Notice of Claim follows an Enforcement Report/ Compliance Review and a Safety Compliance Review. Little appears to have been done in the way of corrective action and the carrier is rated unsatisfactory.

Respondent has not requested a hearing and appears only casually to dispute the allegations in contending that the drivers lease their equipment to Respondent on a trip lease basis and that they are regularly employed by other motor carriers. I do not find Respondent's answers to be either responsive or dispositive of this action.

The record supports the allegations and I am granting the Motion for Final Order.

Therefore, it is Ordered, That the Motion for a Final Order is granted and Respondent is directed to cease operating in violation of the regulations immediately and to pay to the Regional Director the sum of $4,800 within 30 days of the date of this Order.

Dated: May 7, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of Abbey Metal Corporation

[Docket No. R1-90-04 (Formerly R1-90-032)]

Final Order, in Part, and Order Appointing Administrative Law Judge, in Part

This matter comes before me upon Motion for a Final Order filed by the Regional Director, Office of Motor Carrier Safety, Region 1 (Petitioner), and Request for Hearing filed by Respondent. This matter arises out of allegations in a Notice of Claim, dated February 9, 1990, alleging 12 violations of the Federal Motor Carrier Safety Regulations (FMCSRs).

The alleged violations include three cases of using a driver physically unqualified under the regulations, three violations of failing to maintain driver qualification files, and 6 violations of failing to require drivers to prepare vehicle inspection reports.

Respondent employs one driver and makes only occasional trips out of state. Informal discussions resulted in no conclusion to this matter. Respondent contends that its driver, a long-term employee of the company is due to retire in September, 1990, that he is examined on a regular basis by a doctor and that inspection reports have been found.

Having reviewed the record before me, I find that the facts support Petitioner's request for a Final Order with respect to the usage of an unqualified driver in interstate commerce. The driver acknowledges that he has not had "a DOT physical" and that he is an insulin controlled diabetic. Three trips are documented.

With respect to the allegations of failing to maintain a qualification file for each driver used or employed, there is no argument that such file is not kept. However, as there is only one driver, I find that Petitioner's request for a Final Order on this count is supported by the record, but the penalty is reduced to one count—for a file not kept at the time of the audit.

The allegations of failing to require a driver to prepare a vehicle inspection report appear to be a matter of factual dispute. Respondent contends misunderstanding as to what was meant by vehicle inspection report at the time of the audit. The record now contains copies of drivers' daily vehicle condition reports. Petitioner stands prepared tocontest the authenticity of these documents.

Therefore, it is ordered, That the Motion for a Final Order is granted as follows: with respect to the three alleged violations of using a physically unqualified driver, $300 for each (total $900); with respect to the three alleged violations of failing to maintain driver qualification files, $300 for one violation (total $300). Respondent is directed to establish files for each driver now and in the future and to cease using an unqualified driver in Interstate commerce. Respondent is further directed to pay to the Regional Director the sum of $1,200 as discussed above within 30 days of the date of this Order.

To determine the remaining 6 alleged violations, I hereby appoint, in accordance with 49 CFR 386.54(a), an Administrative Law Judge to be designated by the Chief Administrative Law Judge of the Department of Transportation, as the Presiding Judge in this matter. The Judge appointed is authorized to perform those duties specified in 49 CFR 386.54(b).

Dated: April 30, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of Rig Runner Express, Inc.

[Docket No. R6-89-11]

Final Order

This matter comes before me upon request of the Regional Director, Region 6, Office of Motor Carrier Safety for a Final Order finding the facts to be as alleged in a Notice of Claim dated February 13, 1989 [not September 5, 1989, as referenced in Motion for Final Order] and assessing a penalty of $10,500.

Respondent has not requested a hearing and settlement negotiations were unsuccessful. Having reviewed the Motion and the supporting documents appended thereto, I find that the evidence supports the charges and specifications in the Notice of Claim relating to violations of the Federal Motor Carrier Safety Regulations (FMCSRs).

Therefore, it is ordered, That the Motion for a Final Order is granted and the Respondent is directed to pay $10,500 the amount of assessed penalty to the Regional Director within 30 days of the date of this Order.

Dated: April 30, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of Alamo Distributing Service, Inc.

[Docket No. R6-89-63]

Final Order

This matter comes before me upon request of the Regional Director, Region 6, Office of Motor Carrier Safety for a Final Order finding the facts to be as alleged in a Notice of Claim dated September 5, 1989, and assessing a penalty of $11,000.

Respondent has not requested a hearing and settlement negotiations were unsuccessful. Having reviewed the Motion and the supporting documents appended thereto, I find that the evidence supports the charges and specifications in the Notice of Claim relating to violations of the Federal Motor Carrier Safety Regulations (FMCSRs).

Therefore, it is ordered, That the Motion for a Final Order is granted and the Respondent is directed to pay $11,000 the amount of assessed penalty to the Regional Director within 30 days of the date of this Order.

Dated: April 30, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of Uncle Bo's Equipment Company

[Docket No. R6-89-15]

Final Order

This matter comes before me upon request of the Regional Director, Office of Motor Carrier Safety, Region 6, for a Final Order finding the facts to be as alleged in a Notice of Claim dated April 7, 1989, and assessing a penalty of $4,500.

The Notice of Claim issued on April 7, 1989, alleges violations of the Financial Responsibility Regulations. Three

violations alleging operations without the requisite level of insurance and failure to have an MCS–90 indicating the proper levels of insurance were discovered during a Safety Audit conducted on November 21, 1988. All three trips were entirely within Houston, Texas.

Respondent has not denied the violations and has not requested a hearing. Settlement negotiations were unsuccessful. Respondent indicates that it did not have the required insurance as a result of the economic climate surrounding this business. Insurance of $500,000 rather than the required $750,000 has been maintained.

No evidence of an MCS–90 is in the record. No evidence as to Respondent's current compliance is in the record. The record does substantiate the allegations and Petitioner is entitled to a Final Order. Nevertheless, this does not satisfy the requirements of the regulations.

Therefore, it is ordered, That Petitioner's request for a Final Order is granted. Respondent is directed to pay the sum of $4,500 to the Regional Director within 30 days of the date of this Order, unless it can produce an MCS–90 for the required amount of insurance. If the MCS–90 is produced, this penalty will be reduced to $1,500. In the absence of an MCS–90 under the terms of this Order, Respondent is directed to cease operating in violation of these regulations. The Director will take whatever actions are necessary to ensure compliance herewith.

Final Order

This matter comes before me upon request of the Regional Director, Region 6, Office of Motor Carrier Safety for a Final Order finding the facts to be as alleged in a Notice of Claim dated September 5, 1989, and assessing a penalty of $11,000.

Respondent has not requested a hearing and settlement negotiations were unsuccessful. Having reviewed the Motion and the supporting documents appended thereto, I find that the evidence supports the charges and specifications in the Notice of Claim relating to violations of the Federal Motor Carrier Safety Regulations (FMCSRs).

Therefore, it is ordered, That the Motion for a Final Order is granted and the Respondent is directed to pay $11,000 the amount of assessed penalty to the Regional Director within 30 days of the date of this Order.

Dated: April 30, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of Plating Products Co., Inc.

[Docket No. R1–90–008]

Final Order

This matter comes before me upon request of the Regional Director, Office of Motor Carrier Safety, Region 1, for a Final Order finding the facts to be as alleged in a Notice of Claim dated January 18, 1990, and assessing a civil penalty of $4,200. Respondent has replied with a letter which for the most part denies the violations.

Once again, we find that we have encountered a problem common to small, private carriers subject to our regulations, but obviously unaware of the importance of keeping proper files and documentation. Petitioner makes the point that the size of the operation is not necessarily relevant to the alleged violations, as set forth in previous decisions. This is true.

Nevertheless, the enforcement actions of this Agency must reflect some relationship to the ultimate goal of the laws and regulations—to wit, safe operations of carriers in interstate commerce. The facts surrounding this matter are striking. Respondent is a small operation, with one driver and two trucks, making limited runs from its home base to Philadelphia. Petitioner acknowledges that for most out of state business common carriers are used. Petitioner does not dispute the fact that throughout the long history of this business there are no known accidents, spills or other life threatening occurrences involving Respondent's trucks or driver.

If we put these alleged violations on a grid and use a simple form-book approach, there can be no denying that violations do exist. If I grant this Order and impose a fine of $4,200, can we be assured that the violations will cease? Can we be assured that the safety of the traveling public will be enhanced?

I would rather that the Agency makes every effort in its power to educate Respondent as to the requirements of the law and regulations and their reason for being. If this means that we sit down with management and carefully articulate the need for records and go so far as to show management how to keep records, then so be it. Only in those instances where management appears not concerned, recalcitrant or refuses to comply with the regulations should we bring an action with a fine of this magnitude, when dealing with these

small one or two truck private operations.

As there are documented violations here, I am granting the motion for a Final Order. However, with respect to the violation of § 391.51 failure to maintain a complete qualification file for each driver, I find that one violation exists and I am assessing the penalty at $100 for this count. For the violation of § 395.8 not requiring the driver to make and submit a record of duty status, again one violation assessed at $300. For the violation of § 396.11 not preparing a vehicle inspection report, one violation assessed at $200. For the violation of § 172.301 one violation at $300. The total assessed amount for these violations is $1,000.

At the same time I am directing the Regional Director to revisit Respondent and to assure himself that Respondent has a complete understanding of our regulations and programs and the need therefore. Once having done this, the revelation of future violations through audits should result in an Order of Cessation or injunctive action if necessary.

Therefore, it is ordered, That the alleged violations having been documented as discussed above, I am granting the request for a Final Order and direct the Respondent to pay the assessed civil penalty in the amount of $1,000 to the Regional Director within 30 days of the date of this Order. Respondent, Plating Products Co., Inc., should further be aware of the fact that although I recognize the difficulty of operating in the economic environment surrounding its business, if it continues to operate in interstate commerce then the rules and regulations of this Agency apply. It is far more economical for a business of its size to take the time to know what is required and to adopt practices which will ensure compliance than to receive a civil assessment penalty for each and every violation.

Dated: April 2, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of Dretzmann, Inc.

[FHWA Docket No. R10-89-11 (Motor Carrier Safety)]

Order Granting Partial Summary Judgment

By motion dated March 14, 1990, the Regional Director (Claimant) moves for summary judgment pursuant to 49 CFR 386.36 and Rule 56 of the Federal Rules of Civil Procedure. As grounds for that request it states that no genuine issues of material fact exist and that it is entitled to judgment as a matter of law. In the alternative, Claimant requests partial summary judgment.

In support of its motion, the Regional Director states that Respondent's answers to its request for admissions establish that the violations of 49 CFR 395.3(a) (1) and 395.3(b) alleged in the Notice of Claim [1] occurred. Furthermore, it argues, the violations were committed by Drotzmann employees acting in the scope of their employment and in furtherance of the company's business. Therefore, it concludes, Respondent "permitted or required" the violations and summary judgment is appropriate. Claimant also contends that the violations constitute a "pattern" within the meaning of the regulations and seeks summary judgment on that issue. Further, it asserts that summary judgment should be granted on the issue of the amount of the fine proposed. It contends that the penalty proposed is not a material issue in dispute and should not be altered absent a showing of abuse of discretion.

Respondent answered the motion and acknowledges that the violations alleged did occur but denies that it required or permitted them within the meaning of the regulations. It also denies that the company's actions have constituted a "pattern" within the meaning of FHwA rules and contends that the proposed fine is excessive. Claimant filed a response to Respondent's motion, asserting that Respondent's answer did not raise any genuine issues of material fact.[2]

I grant summary judgment for Claimant on the issue of whether Droztmann drivers committed the violation alleged in the Notice of Claim. Respondent has admitted these allegations and I find that they took place. However, viewing (as I must) all the evidence and inferences to be drawn therefrom in the light most favorable to the nonmoving party, see *Adickes* v. *Kress & Co.*, 398 U.S. 144 (1970), I find that genuine issues of material fact exist as to whether Respondent "required" or "permitted" these violations and whether a "pattern" of violations exists. While these issues may be legal in nature and thus *prima facie* amenable to a summary judgment motion, Respondent's answers to Claimant's request for admissions and its answer to the summary judgment motion dispute the facts alleged in support of these charges and set out genuine issues of fact for trial.[3] I therefore deny Claimant's motion for summary judgment on these issues and will hear evidence on the question of whether Respondent "required" or "permitted" the violations and whether a "pattern" of violations exists.

My action moots the request for summary judgment as to the level of penalty, since the penalty amount will flow from the proof to be adduced at the hearing. In this connection, the Regional Director's assertion that upon proof the penalty amount cannot be altered absent a showing of an abuse of discretion is a fundamental misconstruction of our respective roles in proceedings under 49 CFR part 386. Complainant's proposed standard of review suggests that it is an adjudicatory entity. Claimant, however, acts only as the prosecutor in these proceedings. It brings charges but plays no role in deciding their legal effect on Respondents. Determination of the penalty by the prosecutor would deprive Respondents of a fair and impartial hearing. Such a practice would run afoul of elementary tenets of due process.

Moreover, my power to preside over these proceedings derives from the Administrative Procedure Act (APA), 5 U.S.C. 551 *et seq.* which forbids prosecutorial and judicial functions to mix.[4] Additionally, FHwA's own

---

[1] The Notice of Claim, dated May 17, 1988, sets out 25 violations of § 395.3(a)(1)—which prohibits "permitting or requiring" a driver to drive more than ten hours without eight consecutive hours off duty or in a sleeper berth—and 5 counts of violating § 395.3(b), which prohibits "permitting or requiring" a driver to be on duty for more than 70 hours in eight consecutive days. It seeks a civil penalty of $10,000 for the alleged violations of § 395.3(a)(1) and $5,000 for those pertaining to § 395.3(b), for a total fine of $15,000.

[2] I need not consider Claimant's response, since Rules of Practice, 49 CFR part 386, do not provide for replies to answers. Claimant has not moved for leave to file its response or sought other appropriate relief from the rules. I have nonetheless decided to consider the document, noting that it raises no new substantive issues.

[3] Respondent states, for example, that it requires its drivers daily to report in their activities, and attempts by various means to bring into line those drivers who fail to follow the rules. These alleged facts are relevant to the level of penalty at the very least, to the separate but related question of whether and to what extent a "pattern" of violations exists, and to the question of whether Respondent "permitted or required" the violations committed by its drivers as found herein. While on the latter issue Complainant as a matter of law may have established a *prima facie* case, Respondent is entitled to present evidence in an effort to meet its burden of going forward to overcome that *prima facie* case.

[4] See *In the Matter of Woodbury House Transportation Inc.*, FHwA Docket No. R3-88-1, Order served June 13, 1989, p. 5, in which the presiding judge found, in accordance with Regional Counsel's view in that proceeding, that he held authority under the APA which enabled the entry of summary judgment. Here, as there, my power to rule on a motion for summary judgment derives from my power to preside pursuant to the APA.

precedent—including a ruling made in the instant proceeding—permits me to alter the Regional Director's suggested penalty. The Associate Administrator order appointing an ALJ pointedly noted, in response to Claimant's objections, that the Judge is free to recommend a penalty modification based on his determination of the facts, citing *In the Matter of Emnire Gas*, R187–87 (February 24, 1989). Finally, FHwA's own rules enable me to modify Claimant's penalty recommendation. The rules provide that the administrative law judge has the power "to ensure a fair and impartial hearing" (49 CFR 386.54(b)). I would be remiss in my responsibilities under that section were I to submit to Regional Director's proposed level of penalty without affording Respondent its right, here literal as well as figurative, to be heard.

Burton S Kolko,

Administrative Law Judge.

In the Matter of Service Bus Company, Inc.

[Docket No. RI–89–05 (Formerly RI–88–137)]

Denial of Petition for Review of the Decision of the Administrative Law Judge

This matter comes before me upon Petition of the Respondent for review of the Decision of the Administrative Law Judge entered on October 6, 1989. The Regional Director has opposed this Petition.

Having reviewed the record and the Decision of the Judge, I find that Respondent has advanced no valid reason, either in fact or in law to change, alter or amend the Decision in any form. The record and the Decision provide adequate basis on which to sustain the original assessment.

Therefore, it is ordered, that the Decision of the Administrative Law Judge is adopted as written and Respondent is directed to comply with the terms thereof immediately.

Dated: March 26, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of Bower Tiling Service, Inc.

[Docket No. R5–90–03 (Formerly R5–89–106)]

Order Appointing Administrative Law Judge

This matter comes before me upon request for a hearing filed by Respondent in response to a Notice of Claim, originally dated September 28, 1989, as amended by Notice of Claim dated December 1, 1989. The amended Notice alleges one violation of 49 CFR 396.7(a) and assesses a civil penalty of $3,000.

Respondent has denied the violation and asserts that some person or persons unknown loosened certain brake assemblies to facilitate removal of the vehicle in question. Respondent also asserts that said brake assemblies were operable and properly adjusted.

There is an obvious material factual in dispute here, acknowledged by Petitioner.

Therefore, it is ordered, that in accordance with 49 CFR 386.54(a), I hereby appoint an Administrative Law Judge to be designated by the Chief Administrative Law Judge of the Department of Transportation, as the Presiding Judge in this matter. The Judge appointed is authorized to perform those duties specified in 49 CFR 386.54(b).

Dated: March 22, 1990.

Final Order

This matter comes before me upon request of the Regional Director, Office of Motor Carrier Safety, Region 3, for a Final Order finding the facts to be as alleged in a Notice of Claim dated December 20, 1988, and assessing a civil penalty of $5,400.

Respondent has not requested a hearing. Petitioner's Motion indicates that there were compromise discussions which took place over a considerable period of time. No compromise having been reached, Petitioner seeks this Order. All references to the compromise discussions have been deleted from the record and Petitioner seeks to have any consideration thereof excluded. Although petitioner is free to delete such discussions from the record, the record submitted should be complete in its documentation of the allegations and the reasoning underlying its penalty request. In this matter, the amount requested in the Motion differs from that stated in the Notice of Claim. Am I to divine that notwithstanding the deletion of discussions between the parties and in view of the request that such discussions be given no weight that the new sum in the Motion is the result of a mistake on Petitioner's part? Or perhaps a newfound sense of justice or overweaning development of mercy has taken hold in the administrative process. Petitioner cannot have it both ways. The record is to be supplemented with the reasoning underlying both its allegations and its recommended resolution, or I shall try to develop an understanding of the matter based on what is before me.

Respondent is obviously a marginal operation. This enforcement action arises out of a safety review. The facts and happenstances surrounding these alleged violations are thoroughly documented. Respondent employs three drivers, himself included, however, the last name of one of these drivers appears to be unknown. Produce is hauled in the mid-Atlantic Region. The records, at least as included herein, appear to be at a fairly unsophisticated level.

Having said this, Respondent clearly made a number of interstate trips without the required levels of insurance. Whether these trips were limited to the 6 documented or more is neither discussed nor is its relevance ascertained. Respondent did secure the requisite insurance subsequent to this action. I have no idea if Respondent continues to operate with insurance or is even solvent.

The premium for insurance for this Respondent is in excess of $17,000. The Petitioner has requested a penalty of an additional $5,400, which is coincidentally about the amount of one insurance payment. The record does not indicate if Respondent has had any accidents. The record does not indicate if Respondent is flagrantly abusive. On the contrary, it appears that Respondent is trying to accommodate the requirements of the regulations and at the same time keep its head above the swirling financial waters engulfing its operations.

I cannot ascertain the impact imposition of this penalty will have on Respondent's business or his attitude towards compliance. These violations have occurred. They should not occur in the future. It should be noted that the letter sent to Respondent relating to the Financial Responsibility regulations states, in part, "If the minimum level of financial responsibility has not been obtained for your fleet, you are directed to cease your trucking operation."

As I am unable to fathom the efficacy the requested penalty will have with regard to this Respondent, I am going to reduce it. Some penalty appears warranted, therefore, I am dismissing the $400 claim for not having the form in the file and assessing half the request of the Petitioner in the Notice of Claim. If Respondent is found to be operating in the future without the required insurance then an injunction against his operations appears to be the proper remedy.

Therefore, it is ordered, that the Motion for a Final Order is granted.

modified above. Respondent shall pay to the Regional Director the sum of $3,000 within 30 days of the date of this Order.

Dated: March 12, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of Warehouse Exports, trading as Continental Imports, Inc.

[Docket No. R3-89-031]

Final Order

This matter comes before me upon Motion for a Final Order filed by the Regional Director, Office of Motor Carrier Safety, Region 3, finding the facts to be as alleged in a Notice of Claim dated March 31, 1989, and assessing a penalty of $6,300.

The Notice of Claim alleged 21 violations of the Federal Motor Carrier Safety Regulations (FMCSRs), all involving failure to maintain a driver's qualification file. Respondent sought to resolve this matter through a negotiated settlement, however, it appears no resolution was possible. The record does not indicate any perfected request for a hearing.

The record indicates three significant sets of facts to me. First, the Respondent is a relatively small operation, employing 3 drivers and operating within the 100 mile radius provision of the regulations. The alleged violations involve the records for two drivers, with the number of allegations being a composite of trips documented and made by these drivers. Second, Respondent may have been recalcitrant at the time of the initial review. Third, it appears that with certain personnel changes and a new attitude, Respondent now realizes the importance of keeping the required files.

In several earlier cases, particularly, *Continental Petroleum & Energy Co.*, R3-89-068, *Continental Tank Lines, Ltd.*, R3-89-069, and *Coco Chemical Corporation*, R3-89-106, I addressed the documentation of multiple violations in record and files cases. Because of the small, localized nature of the operations and the apparent willingness of management to institute the necessary controls to ensure compliance, I find that violations have occurred. However, as the files were incomplete at the time of the audit, I find that there is one violation in the case of each driver. Each of these violations is substantiated by the record and will be assessed at $500.

Therefore, It is Ordered, That Petitioner's Motion for a Final Order is hereby granted, except as modified above. Respondent shall pay the sum of $1,000 to the Regional Director within 30 days of the date of this Order and shall take all appropriate steps to ensure that the files are placed and maintained in order.

Dated: March 8, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of Arthur Shelley, Inc.

[Docket No. R3-89-034]

Final Order

This matter comes before me upon request of the Respondent for a hearing and a Motion in Opposition Thereto and for a Final Order submitted by Petitioner. Petitioner, the Regional Director, Office of Motor Carrier Safety, Region 3, opposes the request of Respondent on the grounds that no specific factual issues have ever been identified.

This case has a rather detailed history. The Respondent was sent a Notice of Claim on March 20, 1989, alleging 9 "serious pattern of safety violations" for violations of the regulations governing the duty time of drivers. Specifically, Respondent was alleged to have required or permitted drivers to drive after having been on duty more than 70 hours. The civil forfeiture claim was assessed at $900 per violation.

Respondent replied to the Notice by denying the alleged violations, at first specifically denying knowledge of the violations (leased drivers), then averring that if knowledge were to be imputed to Respondent that it wished to contest the amount of the claim. I have discussed the knowledge issue in several recent cases, see, *Trinity Transportation, R9-90-001*, and *Horizon Transportation R3-89-114*. In summary, I will only state here that knowledge, in the circumstances presented in this civil forfeiture claim, is imputed. The case law is clear on this point and is referenced in those Orders.

Respondent also met with Petitioner to discuss settlement of this claim. No settlement was made. Respondent offered up the institution of a monitoring system and disciplinary action to prevent the recurrence of such violations in the future. This was done by way of mitigation. Respondent also contends that it has had no similar penalty actions against it and that it was operating with a satisfactory rating.

There are a number of concerns which I would like to address here. It appears that Respondent acknowledged that violations have occurred. I have expressed a sense of unease with respect to pattern violations in previous cases. In those in which Respondent has provided information of an existing monitoring and disciplinary system, I have called the matter for hearing. In those in which the Respondent made no vigorous protestation, could show no system in place or merely contested the amount of the penalty, I have issued Final Orders.

This case presents a middle ground. The record indicates that the violations documented in the Notice were a mere sampling of violations discovered. Normally, to sustain a pattern violation, I would like to see a significant number of violations documented. However, here it appears that Respondent has come to a recognition of possible deficiencies and is now instituting a system to address these deficiencies. This is a situation which appears to meet the standards established by the Congress for just such "middle violations." The penalty provided was designed to positively reinforce compliance.

Petitioner has taken into account Respondent's actions. Petitioner further has revealed that Respondent, contrary to its assertions has been the subject of previous enforcement action and did not have a satisfactory rating. Nevertheless, in an effort to encourage compliance, a substantial reduction of the civil assessment reducing the claim from $5,100 to $5,300 was offered. This reduction is not considered sufficient by Respondent.

In discussing the issue of penalty assessments in previous cases, I have repeatedly stated that the local judgment of the Regional Director is the standard guiding these matters. The amount of the penalty is not a material issue in dispute and therefore not entitled to hearing status. I will modify the assessment where warranted, but not as a matter of routine. In this case, the reduced penalty requested by Petitioner in his motion appears fair and supportable on the record. Respondent's intransigence is not sustained by the record. Violations have occurred; it appears that Respondent's previous position was, if not acceptance thereof, then a fatalism about their occurrence or reoccurrence. Respondent's new attitude, in instituting a monitoring system and disciplinary action is a positive step in the right direction. The Congressional remedy in this instance appears to be right on the mark.

The record disposes of the matter of material factual issues in dispute. As discussed above, I find that the record supports the allegation that violations have occurred.

Therefore, it is ordered, That Respondent's Request for a Hearing is denied. Respondent's request for a

reduction in the amount of the penalty is likewise denied. Petitioner's request for a Final Order is granted. Respondent shall pay to the Regional Director the sum of $5,300 within 30 days of the date of this Order.

Dated: March 5, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of Chemical Commodities, Inc.

[Docket No. R7-90-02 (Formerly R7-89-053)]

Order Appointing Administrative Law Judge

This matter comes before me upon request for a hearing filed by Respondent and Opposition Thereto and Request for a Final Order filed by Petitioner. Petitioner, the Regional Director, Office of Motor Carrier Safety, Region 7, alleged, in a Notice of Claim dated June 14, 1989, violations of the Hazardous Materials regulations and assessed a civil penalty of $5,000. Respondent replied to the Notice on June 28, 1989, requested a hearing and stated that Respondent did not believe that the allegations are accurate or applicable and denied any violations of the regulations.

I have withheld ruling on Motions at the request of Petitioner on the basis that settlement was possible. Such has not been the case.

Petitioner argues that Respondent's request for a hearing should be denied for failure to admit or deny the alleged violations, for failure to list material factual issues in dispute, and for failure to provide a Certificate of Service as required by the regulations.

Respondent's letter clearly and specifically denies any violation of the law. The contention that the allegations are not accurate or applicable appears to constitute a rejoinder to Petitioner's allegations. In sum, Respondent is putting Petitioner to the proof. The record before me is insufficient to dispose of this matter. As there is a clear issue of fact in this case, I am appointing an Administrative Law Judge to hear the matter.

Therefore it is ordered, That Petitioner's Motion for a Final Order is denied and Respondent's Request for a Hearing is granted. In accordance with 49 CFR 386.54(a), I hereby appoint an Administrative Law Judge to be designated by the Chief Administrative Law Judge of the Department of Transportation, as the Presiding Judge in this matter. The Judge appointed is authorized to perform those duties specified in 49 CFR 386.54(b).

Dated: March 2, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of A. Weinfeld & Sons, Inc.

[Docket No. R3-90-002]

Final Order

This matter comes before me upon request of the Respondent for a hearing, Motion for Final Order and in Opposition to the Request for Hearing filed by Petitioner and Answer thereto filed by Respondent. Petitioner, the Director, Office of Motor Carrier Safety, Region 3, initiated a Notice of Claim, dated November 20, 1989, alleging 24 violations of the Federal Motor Carrier Safety Regulations (FMCSRs) and assessing a penalty of $68,400.

The parties have apparently met to discuss settlement of this case but have been unable to reach agreement.

Petitioner's Motion cites in its support the failure of Respondent to articulate any specific factual issues in dispute failure to present in writing mitigating evidence, and the fact that Respondent was the subject of a prior Safety Review during which similar violations were pointed out.

Respondent's answer avers everything but factual matters in dispute. Respondent contends it has not received documentation or information pertaining to the audit; that it is not legally responsible for the alleged violations; that there are extenuating and mitigating circumstances which would preclude liability; that it is not legally required to present its case at this time; and that the investigator's biased view of the facts is heresay.

The regulations governing the grant of a hearing are clear and straightforward. 49 CFR 386.14(b)(2) states in pertinent part "* * * A request for a hearing must contain a listing of all material factual issues believed to be in dispute * * *." I fail to understand the mystery in Respondent's inability to comply therewith. An administrative hearing under these regulations is a factual hearing. If there are no factual differences, then there can be no hearing. If Respondent has a problem with the legality of the regulation, then its remedy will lie in a legal action following the conclusion of the administrative action. See: *In the Matter of Alan Party Rental, Inc.* Docket No. 89-185.

Respondent has been visited in the past, and received the benefit of a Safety Review. It was given an unsatisfactory rating based on the discovery of similar violations. Respondent is familiar with the requirements of the regulations. The alleged violations all involve failure to have required records in the files. This does not appear a difficult matter in which to identify factual differences. Either the records are in the file, or they are not. If they are not, then they are not because of an act of God, man or mystery of nature. The Notice of Claim specifies the missing records. Respondent cannot rely on the lack of "documentation" as a reason for its inability to articulate factual differences.

There are, therefore, no facts before me upon which determine a difference. The regulations clearly require factual differences for the appointment of an Administrative Law Judge. Respondent has not met this basic test. On the other hand, the record before me clearly establishes that Respondent is subject to the regulations, has knowledge of this and has been audited previously, that similar violations were documented, and that there are no mitigating circumstances before me upon which to reduce the amount of the assessment. The violations stand without controverting opposition.

Therefore, it is ordered, That Respondent's request for a Hearing is denied and Petitioner's Motion for A Final Order is granted and a penalty in the amount of $68,400 is assessed. The penalty shall be paid to the Regional Director within 30 days of the date of this Order.

Dated: March 1, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of Arizona Freight Systems, Inc.

[Docket No. R9-89-052]

Final Order

This matter comes before me upon request of the Regional Director, Office of Motor Carrier Safety, Region 9, for a Final Order finding the facts to be as alleged in a Notice of Claim dated August 24, 1989, and assessing a civil penalty of $6,750. The Notice of Claim alleged nine documented counts of transporting a shipment of hazardous materials not accompanied by a properly prepared shipping paper (49 CFR 177.817(a)).

The Respondent has not requested a hearing and has not denied the violations. Rather, Respondent takes the approach that the violations were the result of incorrect preparation by others, that it has taken action to bring about compliance in the future, that its past actions indicate a posture of

cooperative, voluntary compliance and that the fine is excessive and punitive.

The actions detailed by Respondent have not been disputed. Following a prior visit by the Agency, Respondent hired a motor carrier safety compliance expert, employed a safety supervisor and embarked upon a program to obtain safety compliance. Although Respondent is commended for these actions, it cannot help but raise the question in my mind why this level of noncompliance in the present matter?

Respondent has had ample notice of its responsibilities under the regulations. The violations have been documented, and notwithstanding the actions of the Respondent to prevent their reoccurrence, petitioner has substantiated its case.

Turning to the amount of the penalty, the reasons therefore and the Agency's posture on these matters, I would like to cite a recent study printed by the Senate Committee on Commerce, Science, and Transportation, entitled *Motor Carrier Safety and the Federal Highway Administration's Education and Enforcement Efforts: Options Intended to Improve an Overloaded Program*, S. Print 101–30 (April, 1989). This report noted that the motor carrier safety program is a multi-faceted, essential education and enforcement effort. Education is noted as being useful when motor carriers take significant actions to comply with the regulations. However, the report notes that operational improvement often follows only after the institution of an enforcement action.

In its discussion of enforcement, the report notes that the agency considers the penalty action to be one of several methods to improve compliance. There is a necessarily subjective and judgmental element to penalty actions. Many factors are involved.

In addressing hazardous materials, the report is critical of the Agency for not devoting the level of attention to such transport as is necessary.

Keeping in mind the above thoughts, the report correctly states the Agency philosophy as follows: "FHMA maintains that the purpose of a civil penalty imposed on a motor carrier is not to cripple its operations or financial stability. By getting the attention of management, the penalty is supposed to promote future compliance." The report also discusses the effects of penalties and states: "Too low a penalty sends the unwanted message to industry that noncompliance with the * * * regulations is tolerated by FHMA. Furthermore, low or insignificant penalty actions tend to have adverse impact on the morale of FHWA safety investigators. For some carriers, FHMA's penalties might be considered part of the expected costs of doing business." This is prelude to admonishing the Agency over the need to assess penalties of a sufficiently meaningful magnitude to encourage voluntary compliance.

Whether the policy of an enforcement audit without penalty action, the so-called "freebie", is effective or not, there is no guarantee that a carrier can expect to receive a visit without penalty for each and every alleged violation. The Agency attempts to notify the carrier community of the applicability of the regulations, then visits to check compliance and advises of shortcomings. The institution of penalty proceedings depends on many factors.

In this matter before me, there can be no argument that the Respondent has received the benefit of an Agency audit. The Respondent avers it has taken positive compliance actions. Yet, there can be no arguing that these actions have left gaps. Hazardous materials transport has been approached somewhat casually, particularly in view of the presence on the payroll of a safety supervisor.

I have addressed the issue of penalty assessment in many previous matters. My view is that penalty assessment is best left to the recommendation of the Regional Director, as this person is closer to the audit, the carrier and the considerations of the investigating officer. Nevertheless, I have also indicated that this does not constrain my ability to modify the penalty requested if the facts and circumstances presented warrant such action.

Respondent is obviously trying to reach compliance. Respondent is also obviously in violation of the regulations. It is my belief that Respondent has gotten a clear message from these proceedings of the importance of compliance. In Petitioner's Motion, these factors are noted. Petitioner notes that of the nine violations, three contain improper hazard class designations, which are viewed as particularly serious. Petitioner states: "In the event of a hazardous material accident, the response team effort to contain a hazardous material spill is often dependent upon the correct designation of hazard class." The remaining six violations involve improper shipping names and sequence. The record appears to indicate that many of these violations were discovered-only these few were documented.

The violations considered significant have been properly assessed. The others appear not to warrant the imposition of a penalty based upon Respondent's actions to come into and remain in compliance.

Therefore, it is ordered, That the Motion for a Final Order is hereby granted finding the Respondent to be in violation of the regulations as alleged and assessing a penalty of $3,000 for the three violations of improper hazard class designations. All other penalty assessments are dismissed. Respondent shall pay the sum of $3,000 to the Regional Director within 30 days of the date of this Order.

In the Matter of Trinity Transportation, Inc.

[Docket No. R9-90-001 (FORMERLY R9-89-061)]

Order Appointing an Administrative Law Judge

This matter comes before me upon request of the Regional Director, Office of Motor Carrier Safety, Region 9, for a Motion for A Partial Final Order, which in part states opposition to a request for a Hearing made by Respondent and in part agrees that a Hearing appears necessary on some issues. Respondent has countered with a Motion in Opposition to this request and a Motion for Dismissal or in the alternative for Hearing as originally requested.

These proceedings are occasioned by a Notice of Claim letter dated August 14, 1989, alleging that Respondent has violated the Federal Motor Carrier Safety Regulations (FMCSRs). The original allegations of violation included a 7-count pattern violation assessed at $750 for each count, a 6-count pattern violation assessed at $600 for each count and 14 alleged recordkeeping violations assessed at $400 for each count. A total assessment of $15,650 was levied in that letter. Subsequent thereto, as a result of information apparently uncovered in the pleadings, 2 counts have been dismissed and Petitioner agrees to the necessity for a hearing on 3 others, thus modifying the present assessment to $12,500. I have tried to add and subtract these assessments three different ways and cannot arrive at the sum of $12,500. The closest I come is $12,550.

I state this by way of pointing out that I find the original Notice of Claim to be abstruse at best and difficult for a layperson to understand at least. Perhaps the intransigence of the parties in this matter is explained by the difficulty in deciphering the intent of the Notice. In the future, Petitioner should set forth clearly, in tabular form, if necessary, for multiple count violation allegations, the violation and assessment next to each other.

I also fail to understand how it is that the parties could have communicated with each other over the telephone and in correspondence, yet Petitioner waited until the pleading stage to dismiss counts alleged in error. The informal negotiation process is designed to function in such a matter as to clarify and crystallize the issues. Obviously, in this matter the parties talked but did not communicate.

The substantive issues presented here are significant. Allegations of patterns of violation are relatively new and no body of decision or hearing law is available for review. There is, on the other hand, a long history of recordkeeping violation allegation materials available. There are some significant basic facts which I would like to discuss here.

Respondent states, apparently without contradiction, that it was incorporated in late 1987 and began operations in January, 1988. A Safety Review was conducted within 6 months of commencement of operations. Several recommendations were made at the time, and apparently were followed. A Compliance Review was conducted one year later. This is approximately 18 months after commencement of operations.

Each side quotes from the statute or Congressional Report concerning the nature of the violations and the need to account for a totality of circumstances in determining whether an enforcement matter is present. Each side is partially correct in its arguments. Respondent raises some interesting points to consider, i.e., the alacrity with which it was rated and the surveyed for compliance, the necessity to consider a number of factors in making an assessment and the necessity to consider the attitude of the Respondent.

Petitioner correctly points out that Congress has directed stronger enforcement efforts, that patterns of violation cannot be tolerated as simply a way of doing business and that knowledge of the regulations and the behavior of one's employees is imputed to an employer.

Having established these points the trail of this case leads us into the thickets of both legal and factual argument. Respondent contends that it has in place a vigorous system of discovering and taking action against violators. Therefore, Respondent contends it should not be faulted with a violation of the regulations. Petitioner contends that there was no or an inadequate system of review and that violations occurring over as long as a three month stretch before the imposition of disciplinary action constitute clear violations of the regulations, in fact, so clear as to constitute an identifiable pattern.

Respondent argues that its system militates against a finding of "knowing or requiring" violations. Petitioner resorts to the reasoning expressed in *Rias & Co.* v. *U.S.*, 282 F 2d 245,250 (8th Cir., 1958) and *U.S.* v. *Time-DC, Inc.*, 381 F. Supp. 730, 739 (W.D.Va., 1974). Under the holding of these cases, long adhered to by the FHWA a corporate entity is deemed to have had knowledge of regulatory violations if the means were present by which the company could have detected the infractions. Were this a case involving a respondent with a history of regulatory contacts with the Agency or at least an established operating history, I would have no trouble agreeing with Petitioner. The Respondent contends that it has had a monitoring system in place and that it takes disciplinary action. The documentation of violations in such a situation would be sufficient to find a violation of the "knowing or permitting" standard.

Such is not the case here. This Respondent has offered mitigating reasons. It appears that Respondent has had in place some type of monitoring system as drivers have been terminated. The record indicates the Safety Director has taken an active stance in such matters. Petitioner contends that the system was not functioning or has broken down. Time periods as long as three months with records violations have been discovered before the institution of disciplinary action. These are all factual matters.

Under other circumstances I might consider granting a split motion, sending the pattern violations to hearing and issuing an Order for the recordkeeping violations. However, due to the relative newness of Respondent's operations, the

speed with which the Agency has completed both a Safety Review and a Compliance Review, the Respondent's apparent attempts to comply with the regulations and the guidance given at the Rating review and the Agency's stated position that its goal is compliance and that punitive actions will usually only be taken where the record indicates that such encouragement is needed, I am appointing an Administrative Law Judge to hear the arguments in this matter, to sort out the facts and to make recommendations to me.

I am particularly interested in the pattern violations. Has the Petitioner established that a pattern in fact exists? What constitutes a pattern? Are two documented violations of the same section sufficient? Is it necessary to show a history of enforcement actions? Can Respondent show mitigation through vigorous action such as terminating violating drivers? Is mitigation sufficient to rebut the violation or should it be applied only to the amount of the penalty? Similar questions must be answered for the recordkeeping violations where the Respondent can show a program in operation.

Therefore, it is ordered, That Petitioner's Motion is denied in part wherein requesting a Final Order and granted in part for a hearing. Respondent's Motion is similarly denied in requesting dismissal of this action and granted in part for a hearing. In accordance with 49 CFR 386.54(a), I hereby appoint an Administrative Law Judge to be designated by the Chief Administrative Law Judge of the Department of Transportation, as the Presiding Judge in this matter. The Judge appointed is authorized to perform those duties specific in 49 CFR 386.54(b).

Dated: February 20, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of Horizon Transportation, Inc.

[Docket No. R3-89-114]

Final Order

This matter comes before me upon request of Horizon Transportation, Inc. (Respondent) for a hearing and Motion in Opposition thereto and for Final Order filed by the Regional Director, Office of Motor Carrier Safety, Region 3 (Petitioner). Respondent seeks a hearing on the alleged violations of the Federal Motor Carrier Safety Regulations (FMCSRs) and the penalty assessed therefore in a Notice of Claim dated August 4, 1989.

The Notice documented 24 alleged violations of 49 CFR 395.8(e) for requiring or permitting drivers to make false entries upon driver records. The record before me indicates that this is not the first instance in which Respondent has been audited, nor is it the first time such violations have been called to its attention.

In a letter of January 26, 1990, Respondent sets forth the basis of its request for a hearing on the grounds that it did not require or permit such violations, as construed in light of the Webster's Dictionary definition of those terms. Respondent also calls attention to the fact that it, along with other old line carriers is struggling to survive the effects of deregulation. Respondent points out the difficulty of paying high fines and assessments and of keeping qualified help in such an environment. Similar sentiments are expressed in an earlier letter dated August 18, 1989.

I am not unmindful of the burdens raised in Respondent's letters. At the same time, I must point out that the burdens imposed upon the industry in the interests of operating safely will not decrease. I would also like to point out that under no circumstances must economics be allowed to overrule safety needs and requirements. I have pointed out over and over in my Orders the stringency of Congressional mandates, the need to know and keep abreast of regulatory developments, and the requirement to be aware of the legal operating framework of the industry. Anyone who reads the newspapers, trade journals or general media should be aware that operations in a modern, technological society such as ours are demanding and maybe even burdensome. The rewards for those who operate successfully are high. The risks, which are shared by the public at large, can be devastating. It is hard to explain to someone who has just lost a loved one in an accident that it is difficult to operate in compliance with safety regulations in a deregulated environment.

All this is preface to consideration of the request before me. I have granted the request for a hearing in several previous instances on the question of whether the knowing or permitting requirement had been violated. In these cases, i.e., *Woodbury Horse Transportation, Inc.*, R1-88-01; *Drotzmann, Inc.*, R1D-89-11; and, *Transformer Services, Inc.*, 88-34, Respondent had made a vigorous representation as to why it should not be found to be in violation. The presence of disciplinary programs, actions and even terminations as well as review procedures and the like were all presented and provided a basis on which to find material factual issues in dispute. We do not as of this writing have any guidance from an Administrative Law Judge on this subject.

In the present case, no such information is forthcoming. Reliance on a Dictionary definition is misplaced. This is a legal proceeding. The regulations have been promulgated in a regulatory, therefore legalistic setting. Lay arguments may provide some insight in the absence of legal reasoning, but such is not the case here.

Within the context of these regulations, employers are liable for the actions of employees. This is standard concept from the basic law of agency. The mental state or intent element is not part of the burden faced by an auditing agency in enforcing civil penalty statutes. There is a considerable body of case law along this line, see *United States* v. *Sawyer Transportation*, 337 F. Supp. 29 (D. Minn. 1971), *Riss Co.* v. *U.S.*, 262 F. 2d 245 (8th Cir., 1958), and *Steer Tank Lines* v. *U.S.*, 330 F. 2d 719 (5th Cir., 1963). The fact that the drivers were employed by Respondent at the time of violation, and that Respondent had been put on notice about the regulations and this type of violation previous to this enforcement action are sufficient to establish culpability.

In fact, the Exhibits clearly show that during a prior compliance audit Respondent was advised of the need to institute a progressive system of disciplinary action for hours of service violations and falsification of records of duty status. Obviously, no such system is in place. There is no basis for Respondent's avoiding liability for the actions of its drivers by shifting the burden to their noncompliance. The regulations do not condone a carrier's violations because its drivers do not comply with the requirements.

In the absence of particularized information indicating a vigorous effort on the part of Respondent to educate and discipline its drivers and to review and organize its records in such a manner as to understand the shortcomings of its operations, I must deny the request for a hearing.

Therefore, it is ordered, That Respondent's request for a hearing is denied and Petitioner's request for a Final Order finding the facts to be as alleged in the Notice of Claim dated August 4, 1989, and imposing a civil penalty of $9,600 is granted. Respondent shall pay that amount to the Regional Director within 30 days of the date of this Order.

Dated: February 20, 1990.
Richard P. Landis,
Associate Administrator for Motor Carriers.

In the Matter of John T. Lesnak

[Docket No. R3-89-023]

Order

This matter comes before me upon request of the Regional Director, Office of Motor Carrier Safety, Region 3, for a Final Order finding the facts to be as alleged in a Notice of Claim dated March 1, 1988, and assessing a penalty of $1,000.

The Notice alleged that Respondent violated the regulations by driving in interstate commerce without having a currently valid medical examiner's certificate. The Notice alleges that the certificate in Respondent's possession was forged.

Having reviewed the motion and the documents appended thereto, Petitioner's allegations are substantiated by the record. Nevertheless, this case is now quite old. No purpose will be served by imposing the full penalty requested, to wit, $1,000, assessed on the basis of $250 for each of 4 documented violations. Many more probably could have been substantiated.

The crux of the matter is whether Respondent has in fact corrected the violation. I have these questions:

1. Is Respondent still employed in a position where he drives a motor vehicle in interstate commerce? If so, does he possess a currently valid medical examiner's certificate?

2. If Respondent is found to be operating a motor vehicle in interstate commerce without possessing a currently valid medical examiner's certificate, why has such activity gone without challenge?

The Regional Director is directed to examine this case and determine whether Respondent is still operating in interstate commerce. If the finding is that Respondent is still operating in interstate commerce, the application of a penalty will have some validity. If Respondent has not come into compliance additional action is necessary to bring about compliance.

Therefore, it is ordered, That Petitioner's motion for a Final Order is granted in part. The record supports the allegations and Respondent is found to have violated the regulations as charged. Respondent is directed to pay the sum of $250 for such violation, if he is still employed in a position where he operates motor vehicles in interstate commerce. If Respondent no longer drives in interstate commerce, the penalty is waived. If Respondent still drives in interstate commerce and remains in violation of the regulations, he is ordered to cease and desist from all violating activity immediately. Any penalty due under this Order is to be paid to the Regional Director within 60 days of the date of the Order.

Dated: February 20, 1990.
Richard P. Landis,
Associate Administrator for Motor Carriers.

In the Matter of A.T. Pinto, Inc.

[Docket No. R3-90-006]

Reconsideration of Final Order

On December 7, 1989, I issued a Final Order in this matter. Relying on the absence of written motions or pleadings from Respondent I found that violations had occurred as alleged. The record indicated that the parties were unable to settle this matter and I therefore granted the request imposing a full penalty of $5,100.

On January 10, 1990, I received a letter from Respondent. No service list was attached. The letter was couched in terms of a simple appeal for relief. The Director, Office of Motor Carrier Safety, Region 3, upon being informed of the letter from Respondent, has filed a Motion in Opposition. That Motion correctly points out that there are many procedural irregularities in Respondent's request.

Ordinarily, I would have no problems granting Petitioner's Motion in Opposition. However, there are certain factual allegations raised in Respondent's letter which provide me with an opportunity to discuss this process. Respondent indicates that he met with Program Officials in the Regional Office. At that meeting, the Agency apparently agreed to some reduction in the amount of the penalty. Respondent's counter offer was rejected as too low. Respondent then alleges that he was told the Regional Office had no authority to reduce the penalty by more than 25 percent. Respondent's letter next states:

> I told him that I would like to appeal to higher authority. * * * indicated that the matter would automatically be brought to your attention (in 5 to 6 months) and that I could appeal to you.

Respondent next admits that in fact violations were present but that corrective actions have been taken. What disturbs me is the casualness which appears to surround this entire process. It is this that I would like to address.

There are several concerns in this regulatory program. The highest concern is to provide a safe highway environment for the entire public. We try to achieve this through the promulgation of rules and regulations implementing congressional laws. Compliance with these regulations is necessary to avoid penalty. Education is a necessary part of the process. Throughout the entire process, however, procedural regularity is required, both for Respondent and Petitioner.

All audited carriers must first be informed of the applicability of the regulations. When a Notice of Claim is sent, the regulations should again be prominently mentioned. The Respondent has an obligation to read the regulations and to conform thereto. In discussing the violations and regulations, Petitioner should advise Respondent of the necessity for procedural regularity. Petitioner must not dispense casual advice as to general nature of the regulatory process and must clarify procedural rights for the Respondent.

In this case, if Respondent is correct he was misled. His appeal to higher authority on the amount of a penalty claim is not provided by right in the regulations. The amount of the penalty is not a material issue in fact entitled to a hearing. Negotiations, if at an impasse, must proceed along the line of enforcement authority. That channel includes the Regional Director and the Director of the Office of Motor Carrier Safety Field Operations. These matters should not be automatically brought to my attention.

Respondent has an obligation to participate in the administrative process fully and in accordance with the regulations. Somewhere in the chain of command note will be taken of his arguments and operations, if documented. I have repeatedly stated that the assessment of the penalty is best left to those closest to the alleged violations. I have also stated that I reserve the right to alter a penalty assessment if the record warrants such change. But I am not the disburser of financial good will in this process.

This program must not become a wooden, bureaucratic regimen, hiding behind such strictures as the 25 percent rule. Penalties should be assessed in line with the violations alleged. Reductions in settlement should rely upon the presentation of good information. Failure of the parties to agree indicates that either the penalties are assessed too high, there has been a breakdown in communications in the enforcement chain of command, or the respondent is not aware of the seriousness of violations and the necessity for high penalties.

I have faith that the Agency's Program Officials are carrying out their responsibilities in a positive, good-faith

BEST COPY AVAILABLE

manner. We have embarked on a relatively new process here. Everything in that process is underscored by the requirement for procedural regularity. That is the minimum requirement.

It appears to me that Respondent has in fact taken considerable effort to achieve a satisfactory level of compliance. It also appears that the Regional Director was willing to settle this claim for less than originally assessed. For whatever reason, Respondent was misdirected in his attempt to further resolve this matter. Respondent is cautioned that he should remain in compliance, follow procedural requirements and inform himself of his procedural rights.

Therefore, it is ordered, That upon reconsideration of the information as presented to me I am modifying my Order of December 7, 1989. Respondent shall pay the sum of $4,000 to the Regional Director within 30 days of the date of this Order.

Dated, February 20, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of American Bulk Transport Co., Inc.

[FHWA Docket No. R7-89-08 (Motor Carrier Safety)]

Order of Civil Penalty and Order Canceling Hearing

By motion dated January 17, 1990, FHMA Regional Counsel requests that final decision be entered in the form of an order of civil penalty. In support of its motion, Regional Counsel states that:

1. On September 19, 1989; Requests for Admission were served on Respondent, by and through its counsel, Robert B. Zeldin, Suite 240, 8330 Ward Parkway, Kansas City, Missouri 64114 * * *.

2. Said requests for Admission requested Respondent to admit or deny every material issue of fact alleged in the Notice of Claim served on Respondent on November 22, 1988 * * *.

3. Said Requests for Admission required Respondent to respond within 20 days of receipt thereof.

4. Respondent has failed to respond to said Requests for Admission within the prescribed time, and has still failed to respond despite the passage of 60 days at the time of the filing of this Motion.

5. Pursuant to the Rules of Practice for Motor Carrier Safety and Hazardous Materials Proceedings, 49 CFR 386.44, "[t]he matter is admitted unless within 15 days after service of the request, the party to whom the request is directed serves upon the party requesting the admission to written answer signed by the party or his/her attorney." (See also Rule 36(a), Federal Rules of Civil Procedure).

6. The Admission of the information contained in the Requests for Admission leaves no material issue of fact in dispute between the parties.

7. There being no material issues of fact in dispute, a hearing on the matter is unnecessary.

8. Findings of Facts based on the Notice of Claim and supporting documents are warranted.

No answer to the motion has been received. Accordingly, pursuant to 49 CFR 386.44 and 49 CFR 386.61, I enter a decision that upholds the allegations in the Notice of Claim dated October 26, 1988 and enters a civil penalty in the amount of $10,500. Pursuant to 49 CFR 386.61 and 62, if no petition for review is filed within 45 days from the date of service herein, this decision and order becomes the final order of the Associate Administrator.[1]

Burton S. Kolko,

Administrative Law Judge.

In the Matter of Channel Solvents and Chemicals, Inc.

[Docket No. R6-88-41]

Final Order

This matter comes before me upon request for a Final Order submitted by the Regional Director, Office of Motor Carrier Safety, Region 6. This motion requests that we find that the allegations of violation of the regulations as set forth in a Notice of Claim issued on July 12, 1988, be established and that a civil penalty of $3,000 be imposed. Respondent (Channel Solvents and Chemicals, Inc.) has not replied. I find that there has been no request for a hearing and that Respondent has not denied the violations as charged.

Nevertheless, it appears that some evidence of Respondent's having the required insurance was produced after somewhat lengthy and protracted attempts on the part of the Regional Director to resolve this matter.

Having reviewed the Motion and the supporting documents attached thereto, it appears that the Respondent did not have in its files as required the Form MCS-90. This is a violation. The Director, in recognition of the fact that the insurance coverage appeared to be in place, but that the documents were not in order in the files as required, offered to resolve this matter on payment of a $1,500 civil penalty.

Therefore, it is ordered, That the Motion for a Final Order is granted. The civil forfeiture penalty is established at $1,500 which Respondent is directed to pay to the Regional Director within 30 days of the date of this Order.

[1] In view of the foregoing, the hearing scheduled for March 13, 1990 is cancelled.

Dated: January 30, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of Williams Bus Excursions

[Docket No. R3-88-015]

Final Order

This matter comes before me upon request of the Regional Director, Region 3, for a Final Order finding the facts to be as alleged in a Notice of Claim dated February 16, 1988.

Having reviewed the Motion and the supporting documents appended thereto, I find that although informal contacts were made by telephone, no formal written response or request for hearing has ever been made. The evidence stands uncontroverted and therefore supports the charges and specifications in the Notice of Claim relating to violations of the regulations requiring that Respondent maintain proof of financial responsibility at its principal place of business.

Therefore, it is ordered, That Respondent is directed to pay the penalty of $1,000, as requested in the Motion for Final Order. This sum is to be paid to the Regional Director within 60 days of the date of this Order.

Dated: January 30, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of Medi-Call Ambulance Services, Inc.

[Docket No. R3-89-202]

Final Order

This matter comes before me upon request of the Regional Director, Office of Motor Carrier Safety, Region 3, for a Final Order finding the facts to be as alleged in a Notice of Claim dated September 25, 1989, and assessing a penalty of $750.

The Notice of Claim alleged a violation of 49 CFR 387.31(d), failing to maintain proof of financial responsibility at the principal place of business. The Respondent has not requested a hearing.

Petitioner alleges that only a blank MCS-90B, attached to an insurance policy, was in the files at the time of the audit. The petitioner alleges that an incorrect endorsement would nullify the coverage required.

Respondent argues that the deficient MCS-90B attached to the policy was sufficient, that a FAX copy provided to the investigator would have cured any irregularity, that there was no violation. Respondent argues that it has never

operated without maintaining the proper coverage.

The record indicates that this is not the first time Respondent has encountered an investigator or the requirement of the regulation. The regulation is clear. It states: "Proof of the required financial responsibility shall be maintained at the motor carrier's principal place of business." The regulation does not state that the proof shall accord with industry practices or that the carrier could decide where to keep the form.

Our audits are designed to ensure compliance with the regulations. The regulations have been promulgated to ensure highway safety. The field agents are to have access to certain documents to ensure that the required information is available. There is then a deficiency here. It may be technical, but it is not petty. The Respondent had prior notice and its records should have been in order.

Therefore, it is ordered, That Petitioner's motion for a Final Order is granted. The record supports the allegations. However, the request for a final order is modified to reduce the assessed penalty to $100. The Respondent shall pay the sum of $100 to the Regional Director within 30 days of the date of this Order.

Dated: January 24, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of Vend-Rite Service Corporation

[Docket No. R3-90-050]

Final Order

This matter comes before me upon Motion for Final Order and in Opposition to a Request for Hearing filed by the Regional Director, Office of Motor Carrier Safety, Region 3. This Motion was filed in response to a letter from Vend-Rite Service Corporation (Respondent) which was in turn a reply to a Notice of Claim dated December 4, 1989. The Notice of Claim alleged 16 violations of the Federal Motor Carrier Safety Regulations (FMCSRs) and assessed a penalty of $5,600.

The letter from Respondent reserved the right to request an administrative hearing and contested the Notice of Claim. Respondent advances as reasons for contesting the Claim that it was aware of no other vending companies subject to an audit and that it was not sure that the regulations applied in its case.

Petitioner argues that Respondent is not entitled to a hearing as no material factual issues have been identified as required by the regulations, 49 CFR 386.14(b)(2).

It is unclear from Respondent's letter whether it is in fact requesting a hearing at this time, however, we will review the pleadings as if such a request has been made. Respondent contends that it is not clear in the regulations as to the applicability of the FMCSRs to its case. Respondent cites to § 383.5 in support of its contention

The citation in and of itself provides evidence of some familiarity with the regulations. When viewed together with the evidence in the record of prior contacts (1984 letter and Safety Review in 1988), it appears that Respondent is attempting to hold Petitioner responsible for its own misreading of the regulations. The regulations state in the definition section, § 390.5 under Commercial Motor Vehicle, that the regulations are applicable to vehicles with weight ratings of 10,001 or more pounds. Denial of the allegations on the basis of confusion over the regulations cannot support a hearing in light of the prior experience of this carrier.

Respondent also contends that because no other vending company is familiar with the regulations, it is unfair to hold it to the requirements of the FMCSRs. I do not know whether any other vending companies have ever been audited or cited for violations but if Respondent will provide us with a list of names and addresses, I will be happy to include them in the number of businesses to be audited within the near future. Nevertheless, Respondent should be aware of the fact that we are operating in an atmosphere of heightened enforcement. The Congress has directed this Agency to upgrade its efforts to ensure the safety of the traveling public and many businesses not formerly within the reach of our limited program resources are finding themselves subject not only to the regulations but also to safety audits.

I find that Respondent advances no good reasons either in law or equity to excuse these violations completely. However, as the Regional Director did recognize efforts of Respondent to come into compliance and offered a reduction of the penalty, I find that to encourage a positive compliance posture in the future I will accept the reduced amount quoted in Respondent's letter.

Therefore, it is ordered, that Respondent has not complied with the requirements of the regulations and that no hearing can be granted. Petitioner's Motion to Deny Hearing is granted. Petitioner has requested a Final Order assessing the full amount of the penalty, $5,600. For the reasons set forth above, I am granting the Motion for a Final Order in the amount of $4,200. Respondent shall pay that amount to the Regional Director within 30 days of the date of this Order.

Dated: January 24, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of M & T Trucking Services, Inc. V. I. Gas, Inc., Challenger's Trucking Inc.

[Consolidated Docket No 89-41]

Final Order

This matter comes before me upon request of the Respondents for an Administrative Hearing on the claims against them for failing to comply with the required minimum levels of financial responsibility regulations, 49 C.F.R. part 387. The Regional Director, Office of Motor Carrier Safety, does not contest the unavailability of insurance in the Virgin Islands.

It appears that each of the carriers maintains insurance coverage at the limits available to them. Therefore, following the reasoning set forth in the matter of *Empire Gas, Inc.*, the companies will be found to be in technical violation of the regulations. The Regional Director will periodically monitor the situation with respect to the availability of the required amounts of insurance in the Virgin Islands.

Therefore, it is ordered, that no material issues of fact existing, no cause for a hearing has been shown and the request is denied. However, as there is no insurance available in the required amounts in the Virgin Islands at the time of violation, I find that a technical violation exists and the Respondent carriers shall pay the amount of $1.00 each to the Regional Director within 30 days of the date of this Order.

Dated: January 24, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of White's Bus Rental, Inc.

[Docket No. R3-90-039]

Final Order

This matter comes before me upon request of the Regional Director, Office of Motor Carrier Safety, Region 3, for a Final Order finding the facts to be as alleged in a Notice of Claim dated November 27, 1989, and assessing a penalty of $9,750.

Respondent has not requested a hearing and the parties have been unable to reach any compromise agreement. The Notice of Claim alleged serious violations, including a substantial health and safety violation for operating a motor vehicle (bus) in

such condition as to be likely to cause an accident or breakdown.

Having reviewed the Motion and the supporting documents attached thereto, I find that the evidence supports the charges and specifications therein.

Therefore, it is ordered, That Respondent is directed to pay to the Regional Director the sum of $8,750 within 30 days of the date of this Order.

Dated: January 23, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of Stenger Gas Corp.

[Docket No. R3-89-185]

Final Order

This matter comes before me upon request of the Director, Office of Motor Carrier Safety, Region 3, for a Final Order finding the facts to be as alleged in a Notice of Claim dated September 11, 1989, and assessing a penalty of $9,000.

The Notice of Claim alleged 15 violations of the Federal Motor Carrier Safety Regulations (FMCSRs). The record indicates that the Respondent has had prior notification of the applicability of the regulations and that there has been prior contact with the Agency. Although there has been some ostensible contact on this Notice of Claim, no request for a hearing has been made and no indication of material issues in dispute is present. Upon review of the record, I find adequate documentation to support the findings and allegations of violations.

Therefore, it is ordered, That the Motion for a Final Order is granted and Respondent is directed to pay the full assessed amount of $9,000 to the Regional Director within 30 days of the date of this Order.

Dated: January 23, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of Stanford & Inge, Inc.

[Docket No. R3-89-211]

Reconsideration

This matter comes before me upon request for Reconsideration filed by Counsel on behalf of Respondent. In its petition, Respondent avers that it is a small corporation, that it had no intent to purposely avoid or evade the regulations, that it is now in full compliance with the regulations and that it will suffer financial hardship if required to pay the amount levied in the Final Order.

The Regional Director, Office of Motor Carrier Safety, Region 3, has responded to the Motion for Reconsideration. No procedural objections have been raised and I will therefore accept the Petition.

I cannot, however, grant the full relief requested by Respondent. It appears from the record that Respondent has had prior contacts with the Agency and should have been familiar with the requirements of the regulations. Respondent's silence throughout the course of these proceedings speaks of the relatively low importance Respondent apparently considers the regulations, their enforcement and the role of the Agency. It is not until a fairly painful penalty was assessed that the seriousness of this matter came home to Respondent.

I have recently addressed the plight of small, private carriers in complying with the regulations in another case, *In the Matter of Action Metal Co., Inc.* I am attaching a copy of that Final Order. Its contents apply here, except for the final paragraph in the main text.

The regulations are important, the process of determining compliance and enforcing is important, and casualness towards safety is not acceptable. We must make our judgments on the basis of a record review. Employees of this Agency must make determinations based upon the record. As stated in *Action Metal,* the Regional Director is closer to the operations of Respondent. Generally speaking, cogent reasons for the mitigation of a penalty will be brought out in the process of negotiations or discussions surrounding compliance actions.

I cannot find any evidence in the record supporting a major reduction of this penalty. Respondent contends it is now in full compliance. Respondent should have been in full compliance prior to this action based upon its earlier contacts with the Agency. Nevertheless, I am aware of the difficulties faced by smaller entities. As the Regional Director has indicated a willingness to accept a reduced penalty, provided additional evidence is presented supporting the request, I will reduce the penalty assessed subject to the presentment of that evidence to the Regional Director within 30 days of the date of this Order. Further, I will accept a schedule of payments over a period of not to exceed 90 days to be worked out between the parties.

Therefore, it is ordered, That the Final Order issued on November 21, 1989, is modified to the extent accepted by the Regional Director after review of additional information to be presented by the Respondent within 30 days of the date of this Order. Failing the production of such information, the Final Order will apply in its entirety.

Attachment: Final Order In the Matter of Action Metal Co., Inc., Docket No. RI-89-244.

Dated: January 22, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of Industrial Nuclear Company, United States Testing Company, Inc.

[Docket No. R9-90-002]

Order Granting Extension of Time

This matter comes before me upon Motion of Respondent for Additional Time to Respond to a Notice of Claim and also a request for records under the Freedom of Information Act. The Notice of Claim was issued on December 20, 1989, and alleges 7 violations of the Hazardous Materials Transportation Regulations for which a civil assessment of $70,000 is made.

Counsel for the Director, Office of Motor Carrier Safety, Region 9 (Petitioner), does not object to the grant of additional time. The Respondent will be provided with a copy of the Agency investigation report and Petitioner avers that 30 days from receipt should suffice.

Respondent's Motion requests the investigation report and other related materials under the Freedom of Information Act. Such a request is not properly made in a Motion under 49 CFR part 386. However, as Petitioner is providing the investigation report, it is unnecessary for us to discuss this issue further.

As both parties agree that additional time to respond is necessary, I am granting Respondent's Motion. Respondent requested until March 15, 1990, or 30 days after receipt of the requested materials. No good reason having been advanced for the necessity of establishing receipt and determining a 30 day future period, the March date appears to satisfy all requisites of these proceedings.

Therefore, it is ordered, That Respondent's Motion for Additional Time to Respond is granted. The new reply date for the Notice of Claim is March 15, 1990.

Dated: January 19, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of Strong Trucking (Ashbell & Mary Strong, d/b/a)

[Docket No. R3-88-081]

Order

On November 24, 1989, I issued an Order setting forth several questions which I wanted Petitioner to consider. Petitioner was instructed to review this

matter and file an amended request or withdraw the motion.

On December 27, 1989, Petitioner filed a Motion Requesting Withdrawal of the Motion for Final Order. It appears that further investigation has revealed that the carrier has gone out of business and that no tangible assets remain.

It is therefore ordered, That this matter is dismissed.

Dated: January 12, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of Krug Trucking Co. (Michael Krug d/b/a)

[Docket No. R3-89-125]

Final Order

This matter comes before upon request of the Regional Director, Region 3, Office of Motor Carrier Safety (Petitioner) for a Final Order finding the facts to be as alleged in a Notice of Claim dated July 28, 1989. That Notice alleged that 11 violations of the Federal Motor Carrier Safety Regulations (FMCSRs) and Financial Responsibility requirements had been documented.

Respondent did not request a hearing and in his correspondence reply asserted corrective actions had been taken, requested a compromise offer and requested time to pay any penalty based on financial status.

Petitioner has taken into account Respondent's requests and now asks for a penalty of $3,000.

Therefore, it is ordered, That in the absence of any material factual issues in dispute and any request for hearing, the alleged violations are supported by the record. Respondent shall pay the Regional Director the sum of $3,000 within 30 days of the date of this Order.

Dated: January 29, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of Action Metal Co., Inc.

[Docket No. RI-89-244]

Final Order

This matter comes before me upon request of Action Metal Co., Inc. (Respondent), for a hearing and Motion in Opposition thereto and request for a Final Order filed by the Regional Director, Region 1, Office of Motor Carrier Safety (Petitioner). Petitioner alleges that Respondent has committed 9 violations of the Federal Motor Carrier Safety Regulations (FMCSRs). There has been previous contact with the Respondent, earlier violations have been found of a similar nature, and the Respondent has been given a copy of the applicable regulations governing this matter.

Respondent is a small, private carrier, and asserts that it carries only its own steel. The total distance driven is 48 miles one way. The Respondent, through its President asserts that 9 violations of the same charge is unfair and that only one violation and penalty should be charged.

This case presents us with an interesting set of facts and propositions. Many smaller businesses are now falling within the scope of the FMCSRs. The Agency's increased enforcement has reached many businesses not formerly visited by an investigator. We hear quite often that the charges are unfair, the fines too high and due process is unavailable. The Congress has passed stringent laws and has directed the Agency to upgrade its enforcement efforts. The end purpose is a safer highway environment. Smaller businesses are just as culpable as larger entities. The fines imposed may have a greater impact on the bottom line, but a fatality resulting from a violation by a smaller business is just as dead as one resulting from a violation by a larger business.

This Agency operates on a relatively decentralized chain of command. Those officials closest to the audits and violations are in the best position to determine the amount of the fine. We have stated this premise over and over. There are several levels of review, culminating with the potential for administrative review. If there are sufficient, cogent reasons supporting the reduction of a fine, they will be brought out in the process, considered and acted upon.

At the same time, there are rules, regulations and Procedures in place which must be followed to ensure impartiality and equity of treatment and application. It is not sufficient that a business feels it is small and therefore should be held to a lesser standard. It is not sufficient that a business feels it should receive a $10 penalty as if these violations were traffic citations. Human life is sacred. The laws of this Country are important. The regulations of this Agency must be followed. Any company which does less, or believes less places the public at risk and itself at risk. The penalties assessed are designed to create an awareness of the necessity for compliance. Obviously, some entities comply faster than others.

There is not the slightest evidence of any good faith attempt to comply with the regulations here. An attitude of casualness permeates the Respondent's filings. No facts are placed in evidence; only peevish excuses. Such are not enough.

Therefore, it is ordered, That Respondent having failed to comply with the requirements of the regulations governing this process, has not made a valid request for hearing and his request is denied. Petitioner has provided evidence of violations and no reason supporting a request for reduction of the penalty has been substantiated. Petitioner's request for a Final Order is granted and Respondent is directed to pay to the Regional Director within 30 days of the date of this Order the sum of $2,700.

Dated: January 10, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of J.R. Chestnut

[Docket No. RI-89-123]

Final Order

This matter comes before me upon request of the Director, Region 1, Office of Motor Carrier Safety (Petitioner) for a Final Order finding the facts to be as alleged in a Notice of Claim dated September 20, 1989. Respondent has requested a hearing and Petitioner objects thereto on the basis that Respondent's request fails to comport with regulatory requirements.

The Notice of Claim alleges numerous violations of incomplete files, excess hours and false entries upon the record of duty status. These violations have been substantiated by a Compliance Review and report thereof. This is not the Respondent's first contact with the Agency or the regulations. In fact, there have been previous violations.

In its initial reply and request for a hearing, Respondent generally denied the allegations and submitted that its drivers did not engage in "serious" violations. Respondent also stated that the Notice of Claim does not provide the complete factual situation. Respondent then stated that at the hearing it intends to submit its position that there are material factual issues in dispute.

Respondent followed up with a second filing taking umbrage at Petitioner's Motion and objecting on the basis that a denial would limit its right to cross-examination. Without such, Respondent contends, it is unable to be more specific and precise.

Perhaps Respondent and its Counsel should read the regulations. 49 CFR 386.14 clearly requires that each reply must contain an admission or denial and a concise statement of facts and each request for a hearing must contain a listing of all material factual issues

believed to be in dispute. It is not for Respondent to determine violations are "serious" and which are not. The law, the regulations and the administration thereof by this Agency will determine if a violation has taken place and will assess a penalty based on the seriousness of that violation.

The regulations nowhere contemplate the use of the administrative hearing process as a fishing expedition. Surely, if Respondent wishes to advance the argument that its alleged violations are not of a serious nature it should have ample facts readily available to list those material factual issues needing a determination. It boggles the mind to try to understand the claim that violations have not occurred, are not serious, but the specifics to support these contentions are unavailable without cross-examination.

Respondent requested an opportunity to meet informally with Petitioner to resolve these matters. Surely, if there was anything unclear about the alleged violations, the audit report or the hearing process, a simple question to Petitioner would have clarified the entire matter.

The regulations do not contemplate dilatory tactics, lack of preparation or carelessness on the part of pleaders in knowing the basic requirements governing the process.

Of a more substantive nature, examination of the pleadings and the documents appended thereto establish that there have been violations, that these violations are serious and that they stand not controverted by Respondent.

Therefore, it is ordered, That Respondent's request for a hearing fails to meet the basic requirements of the regulations and is hereby denied. Petitioner's motion for a Final Order finding the facts to be as alleged in the Notice of Claim and imposing a civil penalty is hereby granted. Respondent is directed to pay the amount of $22,000 to the Regional Director within 30 days of the date of this Order.

Dated: December 20, 1989.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of Calgon Corporation

[Docket No. R3-89-171]

Final Order

This matter comes before me upon request of Calgon Corporation (Respondent) for a hearing on the alleged violations charged in a Notice of Claim dated August 29, 1989. The Regional Director, Region 3, Office of Motor Carrier Safety, does not object to the request for a hearing.

The Notice of Claim alleges four violations of the regulations: one is for violation of the Financial Responsibility requirements in that Respondent did not have a copy of an MCS-90 in the files; three are for failure to retain written reports of visual inspections of a cargo tank in the files for two years after the date of inspection. The latter three violations involve only two tanks, however, three interstate trips have been made.

Respondent has corresponded several times with the Director. Respondent denies the alleged violations and has presented a Certificate of Insurance from an insurance agency showing the required level of insurance and a statement of visual inspection from a mechanic, accompanied by proof thereof.

With respect to the violation of the Financial Responsibility regulations, § 387.7(d) specifically requires that a Form MCS-90, issued by the insurer be maintained in the files. Respondent, even now presents only a Certificate of Insurance. Although seemingly innocuous and overly technical, it is only through perusal of the MCS-90 that the Agency can be assured that all requisite insurance coverage, including environmental restoration, is in place. There is a violation, the violation has been proven and the violation is continuing. Respondent shall take all necessary action to obtain the MCS-90 immediately.

With respect to the three violations of the regulations, failing to retain written reports of each visual inspection of a cargo tank for a period of two years, Respondent has provided statement to the effect that the inspections were performed, that there are written inspection reports and that these reports were in the files at the time of the audit. The Director has failed to respond to this information. There are no statements or affidavits from the reviewing agents rebutting this information, nor is there any indication in the record that these forms are in some way inadequate. There is more than a material factual issue in dispute here, there is a failure to prove and substantiate the allegation.

Therefore, it is hereby ordered, That Respondent's request for a hearing is denied. The violation of § 387.7(d) has been established and Respondent shall pay to the Director $750 within 30 days of the date of this Order. The alleged violations of § 177.824(b) are dismissed.

Dated: December 28, 1989.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of Wonder Chemical Company

[Docket No. R3-88-073]

Order Appointing Administrative Law Judge

This matter comes before me upon a Request for Determination On Agreed Statement of Facts submitted by the Director, Region 3, Office of Motor Carrier Safety. The agreed Statement of Facts has been jointly signed by attorneys for both parties.

On September 25, 1989, a Notice of Claim was issued to Wonder Chemical Company (Respondent) by the Director (Petitioner) alleging 6 violations of 49 CFR 387.7(a) failing to maintain the minimum levels of financial responsibility. The Agreed upon Statement of Facts establish that there were at least 6 trips within the scope of the regulations; that the involved vehicles were leased; that the lessor did have the required financial responsibility coverage; that Respondent had in its possession an MCS-90 in the name of lessor; that the insurance company issued a Certificate of Accord stating that Wonder was covered by the policy issued to lessor; that Wonder did not have an MCS-90 in its own name while operating the vehicles at the time of the alleged violations.

Throughout the discussions between the parties leading up to this request for a determination, Respondent has maintained that it (a) did have the required level of financial responsibility under the regulations, and (b) that the MCS-90 issued to its lessor was sufficient to comply with the regulations There are two subsections of the regulation involved here. In § 387.7(a) motor carriers are required to obtain and have in effect the minimum levels of financial responsibility set forth. In § 387.7(d) it is required to maintain proof thereof at the principal place of business (Form MCS-90 issued by an insurer).

The Agreed upon Statement of Facts do not resolve this matter. There remain two significant material issues in dispute here. Firstly, does the acknowledgement by the insurer that Respondent is covered by the insurance policy issued to the lessor meet the requirements of the regulations, specifically § 387.7(a). Respondent contends it has the required levels of insurance and has proferred proof of such through this Certificate of Accord issued by the insurer. Petitioner apparently contends no insurance or

less than the required level of insurance has been shown to exist.

Secondly, notwithstanding the establishment of the required levels of insurance, it appears that there is a dispute as to whether Respondent has an MCS-90 as required. Respondent has an MCS-90 albeit issued in the name of its lessor. Petitioner has failed to allege a violation of the regulations, to wit § 387.7(d). However, the answer to this question has a bearing on the alleged violation and the quantum of the penalty.

Notwithstanding the Agreed upon Statement of Facts there are material factual issues to be established sufficient for me to assign this matter to an Administrative Law Judge (ALJ) for additional proceedings. The ALJ assigned shall, in addition to the authority below, specifically address the matters above and should review both the record presented, oral argument and briefs prior to making his or her recommendation to me, including the quantum of any assessment if a violation is found.

Therefore, it is ordered, That I hereby appoint an Administrative Law Judge in accordance with 49 CFR 386.54(a) (1985) to be designated by the Chief Administrative Law Judge of the Department of Transportation as the Presiding Judge. The judge appointed is authorized to perform those duties specified in 49 CFR 386.54(b) (1985).

Dated: December 2, 1988.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of Leroy Randolph

[Docket No. R3-88-030]

Final Order

This matter comes before me upon request of the Regional Director, Region 3, Office of Motor Carrier Safety, for a Final Order finding the facts to be as alleged in a Notice of Claim dated December 7, 1988, and assessing a penalty of $700.

It is alleged that Respondent violated 49 CFR 391.15(a) by operating a motor vehicle on two trips while his license was suspended. Although there has been correspondence between the Respondent and Director, no request for a hearing has been made. The facts are clear: Respondent knowingly violated the regulation. It is unfortunate that such occurrences take place; they should not. This is not a case of reasonable doubt or ostensible excuse. It is a flagrant violation and I am unable to find any rationale warranting a reduction of the amount assessed.

Therefore, it is ordered, That the evidence supports the charges and specifications as set forth in the Notice of Claim and Respondent is directed to pay the sum of $700 to the Regional Director within 60 days of the date of this Order.

Dated: December 21, 1988.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the matter of John Steven Johnson, in his Individual Capacity as President of Steve Johnson and Sons Trucking, Inc., and Steve Johnson & Sons Trucking, Inc., a Corporation

[Docket No. R3-80-058]

Denial of Petition For Reconsideration

On October 20, 1988, Respondent submitted a Motion for Reconsideration of the Final Order issued on September 20, 1988. Respondent makes an elaborate argument that his Request should not be denied on procedural grounds for dilatory filing. Without attempting to sort out the facts advanced by Respondent we will accept the Petition for purposes of review.

Notwithstanding this review, we find no reason to recall or otherwise modify the Final Order. To recap briefly, the Final Order found that no request for a hearing had ever been made in this matter, that communications received from the Respondent were querulous and admitted culpability, disclaimed responsibility for the actions of others, to wit, employees, and denied knowledge of the requirements of the regulations despite past encounters with this Agency.

Now suddenly, through Counsel, Respondent recognizes the foolhardiness of venting his spleen in the bizarre manner originally chosen. Respondent seeks another bite of the apple in this Petition. Nevertheless, the basic thrust of his arguments has not changed. There has not been established a request for a hearing in compliance with the regulations. There continues to be a disavowal of the responsibility to manage this business in accord with the regulations, which includes the responsibility to know of the misfeasances or malfeasances of employees by reviewing the record. The issue is not, as Respondent would have it, whether he should require his employees to change any statements after the fact. The issue is: did the corporation or its employees violate the regulations. Clearly in this case, such violation is present.

No letter or communication from Respondent has been responsive. I still have difficulty reading, let alone understanding, the filings of Respondent and Counsel in this matter. The law and regulations do not tolerate financial, legal or administrative shuffleggery. This business has been run in a sloppy manner, legal violations have been documented, and no proper defense has been raised. I will state for the record that the silence of petitioner in this matter is a dangerous and unfounded precedent. This matter is clear for us and we find no difficulty in reaching the conclusions reached. However, Counsel is cautioned that lest he find himself in the same Position as Respondent in the future, he should support his case with filed pleadings.

Therefore, it is ordered, That the Petition for Reconsideration is denied and the terms of the Final Order remain in effect.

Dated: December 20, 1988.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of Williams Bus Excursions

[Docket No. R3-88-015]

Final Order

This matter comes before me upon request of the Regional Director, Region 3, for a Final Order finding the facts to be as alleged in a Notice of Claim dated February 18, 1988.

Having reviewed the Motion and the supporting documents appended thereto, I find that although informal contacts were made by telephone, no formal written response or request for hearing has ever been made. The evidence stands uncontroverted and therefore supports the charges and specifications in the Notice of Claim relating to violations of the regulations requiring that Respondent maintain proof of financial responsibility at its principal place of business.

Therefore, it is ordered, That Respondent is directed to pay the penalty of $1,000, as requested in the Motion for Final Order. This sum is to be paid to the Regional Director within 30 days of the date of this Order.

Dated: December 15, 1988.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of Hunter Oil Company, Inc.

[Docket No. R3-88-038]

Interim Order

This matter comes before me upon request of the Regional Director for a Final Order and his stated opposition to the request of Respondent for a hearing.

On November 30, 1988, Respondent was sent a Notice of Claim alleging 20 violations of the regulation requiring drivers to make daily records of duty status. All of the alleged violations involved one driver. The Notice assessed a penalty of $450 for each of the 20 alleged violations for a total of $9,000.

Respondent (Hunter Oil) in its answer to the Motion for Final Order submits a letter of December 15, 1988, which was in response to the Notice of Claim. This letter requested a hearing and set forth a statement of facts and explanation of the facts. This letter was inexplicably Omitted from the Regional Director's filing.

Discussions between the parties have not resolved the outstanding issues. Nevertheless, the record appears to reveal that there was a technical deficiency of the regulations present here. The facts, as set forth in a letter of February 10, 1989, from Respondent, not controverted by the Director, appear to be that Respondent is a small, family owned business with three drivers. Deliveries appear to be for the most part local in nature. The driver in question has had a change in status with the company. There is no indication in the record of transgressions in the past of the same or similar nature.

Respondent has taken efforts to correct the technical deficiency alleged and contends that there was a compliance in spirit, if not letter with the regulations.

It is my feeling that matters of this nature are capable of resolution at the local level. The transportation of hazardous materials requires an extraordinary degree of caution. Strict compliance is expected by the law and regulations. At the same time, smaller business entities may feel disadvantaged by the onerous requirements placed upon them, and to some degree they are. It is our intent to secure a safe driving environment for the public. This means that carriers subject to our regulations must operate in a climate of compliance.

It does not mean, however, that such entities will or should be subjected to high penalty amounts unless the record clearly shows that the violations are of a magnitude as to warrant high assessments. The Regional Director and his staff are commended for the diligence of effort to visit with, review the record of and document the violations of all carriers in the Region. Such efforts are not to be minimized.

Care must be taken to completely and thoroughly document the reasoning underlying penalty assessments. In the absence of such materials in the record, the thought process remains a matter for dispute. The record here indicates 20 short trips made by a driver with a long-standing record of employment with the carrier, with no apparent noncompliance. Without additional information, I choose to view this as a single infraction, easily correctable. The Director should work with the carrier to reach an understanding of what record-form is acceptable.

As I have indicated in the past, it is only with great reluctance that I will interfere in the assessment of a penalty. The Regional Director is closer to the alleged violation and the circumstances surrounding the carrier's operations. Notwithstanding this reluctance, I do exercise the option of altering the penalty assessment where warranted. A violation exists or it does not exist. The penalty therefore, if proven, is more subjective. My aim in this Order is to ensure the future compliance of the carrier. I cannot find within the four corners of the documents submitted to me a justification for this magnitude of penalty. If there be such it is lost in the mists of bureaucracy.

Therefore, it is ordered, That Respondent is in technical violation of the regulation, although there are factual differences present which could alter this conclusion. There are two choices before me at this time. Respondent may pay a penalty of $450 within 30 days of the date of this Order to the Regional Director and work with the Director to arrive at a mutually agreeable form to bring about complete compliance; or 2. I shall appoint an Administrative Law Judge to determine whether the facts support the establishment of the alleged violations (20 at $9,000). As option 1 is self-executing, payment of the penalty as set forth will terminate this matter. Option 2 needs additional communication before it will be effected. If Respondent still wants a hearing before an Administrative Law Judge, he must forward a letter to the Docket and all parties on the Service List within the 30 day period.

Dated: December 19, 1990.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of E.L. Lawson Trucking, Inc.

[Docket No. R1-89-015 (Formerly RI-89-245)]

Final Order and Order Appointing Administrative Law Judge

This matter arises out of a Notice of Claim, dated October 6, 1989, issued by the Regional Director, Region 1 (hereafter referred to as Petitioner or Director). The Notice of Claim alleges that E. L. Lawson Trucking, Inc. (hereafter referred to as Respondent) violated the Federal Motor Carrier Safety Regulations (FMCSRs). It is alleged that four separate regulations have been violated: 49 CFR 391.15; 49 CFR 394.9; 49 CFR 395.3; and 49 CFR 395.8. The alleged violations for two of these regulations, constituting 9 separate alleged violations, have been brought as substantial health and safety violations, which incur much higher penalties.

The Respondent has contested these allegations and has requested an administrative hearing. Among the requirements governing the request for a hearing two elements which must be strictly complied with are the requirement that the request must be accompanied by a denial and concise statement of facts and a listing of all material factual issues believed to be in dispute.

With respect to the alleged violations of § 391.15, Respondent contends that it did not know the driver's license had been suspended and that he was disqualified. The ambiguity surrounding the alleged violation allows the simple statement that knowledge was not present to meet the requirements of the regulation. There are material factual issues in dispute. However, this is not to say that Respondent's reply would have met the test under all circumstances. Could Respondent have been the victim of circumstances by timing or failure of the driver to notify him of the suspension? Was Respondent careless in review of the required files? What is there in this particular violation that constitutes a substantial health and safety violation? Was the Respondent's behavior such that it could be characterized as negligent or wanton? Were the transgressions underlying the disqualification significant in that they involved alcohol or drugs or gave rise to a fear that the motoring public was in jeopardy? The Administrative Law Judge must make two determinations here: 1. Has a violation of the regulation been established? 2. If so, can it be supported that there was something in this violation that raised the threshold of the penalty? If the ALJ finds in the affirmative on question 1, but negative on number 2, then it will be necessary for the Notice of Claim to be amended.

With respect to the alleged violations of § 394.9, it has been documented that Respondent failed to report accidents. Respondent replies he had no knowledge that he was required to report all accidents. The regulations are clear on what must be reported. Respondent has been involved in prior matters with the Petitioner and is

charged with knowing the requirements of the regulations. I am denying the request for a hearing on these violations and issuing a Final Order herein assessing a penalty of $1,500 for three violations ($500 for each violation).

With respect to the alleged violations of § 395.3 requiring or permitting a driver to drive after having been on duty more than 70 hours in 8 consecutive days, Respondent denies the violation and contends drivers were instructed to stop driving. This is sufficient to call the question for hearing. The ALJ should focus on how the drivers were so instructed. Was disciplinary action taken against any driver? Has any driver ever been suspended or terminated for continued driving? How did the Respondent monitor this situation? Neither an oral warning nor even a memorandum without some threat of disciplinary action is sufficient to constitute a complete defense to this charge. Further, in view of the unreported accidents of Respondent and prior enforcement actions in this area, a prima facie case has been made for substantial health and safety violations if the basic violation is established.

With respect to the alleged violations of § 395.8 requiring or permitting false entries upon a record of duty status, Respondent denies the allegations and contends that "when the employer had knowledge of false entries, the employee was told to correct the entries before he would receive his weekly pay check." This reply is sufficient to call the matter for hearing. The ALJ must be convinced that Respondent had a proper review mechanism in place and that its efforts were sufficient to shift the onus of responsibility elsewhere. Respondent is required to comply with the regulations and this requirement includes knowledge or constructive knowledge of the records.

Therefore it is ordered, That Respondents request for a hearing is granted on the issues of compliance with 49 CFR 391.15; 395.3; and 395.8. However, the request is denied for those violations alleged and as found above, proved, for § 394.9. Respondent is directed to pay the Regional Director $1,300 within 30 days of the date of this Order.

To determine the other questions, I hereby appoint an Administrative Law Judge in accordance with 49 CFR 386.54(a)(1985), to be designated by the Chief Administrative Law Judge of the Department of Transportation as the Presiding Judge. The Judge appointed is authorized to perform those duties specified in 49 CFR 386.54(b)(1985).

Dated: December 14, 1989.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of A.T. Finto, Inc.

[Docket No. R3-89-008]

Final Order

This matter comes before me upon request of the Regional Director, Region 3, for a Final Order finding the facts to be as alleged in a Notice of Claim dated October 16, 1989.

Having reviewed the Motion and supporting documents appended thereto, I find that no valid request for a hearing has been made. I find that the evidence supports the charges and specifications in the Notice of Claim relating to violations of the Federal Motor Carrier Safety Regulations (FMCSRs).

Therefore, it is ordered, That Respondent is directed to satisfy the penalty assessment by paying to the Regional Director the full amount of $8,100 within 30 days of the date of this Order.

Dated: December 7, 1989.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of Rent-A-Stretch, Inc.

[Docket No. 89-196]

Final Order

This matter comes before me upon request of the Respondent for a hearing and Motion in Opposition thereto and for a Final Order submitted by the Regional Director, Office of Motor Carrier Safety, Region 1. At issue are allegations that Respondent has violated the required minimum level of financial responsibility regulation (49 C.F.R. 387.31).

The Petitioner bases these allegations on the results of an audit which established that Respondent has been operating with public liability coverage of only $500,000 rather than the required coverage of $1,500,000 (not $5,000,000 as stated in the Motion for Final Order, see § 387.33). There has been a prior enforcement case against Respondent for previous violations of this section.

In requesting a hearing, Counsel for Respondent avers that Respondent has attempted to comply in good faith with the spirit and intent of the regulations. It is argued that a violation, if any, is the result of the actions of third parties.

This is not the first time that Respondent has been charged with this alleged violation. What good faith attempt to comply has been made? Counsel has not brought forth evidence of a general inability of Respondent and those similarly situated to obtain the requisite coverage. Counsel has failed to identify any material issues in dispute. The facts appear to be: Respondent is operating in interstate commerce without the required level of insurance.

There can be no good faith compliance in this matter. Respondent has the insurance or does not. Respondent operates in interstate commerce or does not. Am I to assume that some conspiracy lurks behind these allegations? Is it an insurance company cabal which is depriving Respondent of its insurance coverage? Counsel's request reads as a script from Godzilla swallows Manhattan.

Respondent must cease operation until such time as proof of compliance is obtained. There is no valid reason proferred for any other determination. There is no good cause in these motions upon which I can send the matter to hearing.

Therefore, it is ordered, That Respondent's request for a hearing is denied and Petitioner's Motion for a Final Order is granted. Respondent is directed to pay to the Regional Director the full amount of $10,000 within 30 days of the date of this Order. The Regional Director is directed to ascertain whether the Respondent has obtained the required levels of insurance. If not, such action shall be taken as necessary to compel Respondent to cease and desist from noncomplying behavior.

Dated: November 28, 1989.

Richard P. Landis,

Associate Administrator for Motor Carriers.

In the Matter of C & W Enterprises

[Docket No. R3-89-084]

Final Order

This matter comes before me upon request of the Regional Director, Region 3, for a Final Order finding the facts to be as alleged in a Notice of Claim dated August 4, 1989.

Having reviewed the Motion and supporting documents appended thereto, I find that no valid request for a hearing has been made. I find that the evidence supports the charges and specifications in the Notice of Claim relating to violations of the Federal Motor Carrier Safety Regulations (FMCSRs).

Therefore, it is ordered, That Respondent is directed to satisfy the penalty assessment by paying to the Regional Director the full amount of $4,000 within 30 days of the date of this Order.

Dated: November 20, 1989.
Richard P. Landis,
Associate Administrator for Motor Carriers.

In the Matter of Gussie O. Harlow

[Docket No. FI-89-38]

Final Order

This matter comes before me upon request for a hearing and opposition thereto arising out of a Notice of Claim issued by the Regional Director, Office of Motor Carriers, Region 6.

The Notice of Claim, dated June 9, 1989, alleges one documented violation of the Federal Motor Carrier Safety Regulations (FMCSRs), falsifying records of duty status. The Respondent does not deny that the violation occurred. Rather he makes a plea for understanding based upon many years of good driving service and recognition of the practical realities of the industry.

I accept Mr. Harlow's representations as to his driving record. The fact that it is difficult to comply with the regulations in every instance and still make commercial ends meet cannot be denied. The FMCSRs, however, take priority over these arguments as the safety of the traveling public, and indeed, the drivers themselves is involved. Enforcement is not, as Mr. Harlow represents, merely a matter of going by the book. We also have families, we also must pay our bills, we also must meet rules and regulations in our everyday lives, some of which appear onerous. This does not constitute an excuse or rationalization for violation of the rules.

The violations are present; they have been documented. Respondent makes no compelling case for granting a hearing. I would like to assure him that notwithstanding this denial of his request and the imposition of a penalty his arguments have been heard and considered.

Therefore, it is ordered, That Respondent's request for a hearing is hereby denied. Petitioner's request for a Final Order is granted, with the modification the penalty is reduced to $100. This penalty must be paid to the Regional Director within 45 days of the date of this Order.

Dated: November 20, 1989.
Richard P. Landis,
Associate Administrator for Motor Carriers.

Service Bus Company, Inc.

[Docket No. FI-89-05 (Motor Carrier Safety—FHWA)]

Decision of Administrative Law Judge Burton S. Kolko

Served: October 6, 1989.

Complainant Assistant Regional Counsel, Federal Highway Administration (FHWA), charged Respondent Service Bus Company, Inc., a motor carrier, with thirty violations of the Federal Motor Carrier Safety Regulations, 49 CFR part 350 *et seq.*, which are issued under the authority of 49 U.S.C. 3102. The Government's Notice of Claim initiating this proceeding, dated October 3, 1988, cited four counts of failing to maintain driver qualification files for drivers employed, as required by 49 CFR 391.51; twenty-one counts of failing to require drivers to make and submit a record of duty status under 49 CFR 395.8(a); and five counts of requiring or permitting part-time drivers to operate without obtaining from the driver a signed statement regarding duty hours for the previous seven days (49 CFR 395.8(j)(2)). Pursuant to 49 U.S.C. 521(b), FHWA seeks the maximum civil penalty assessment of $500 per count for a total assessment of $15,000.

Respondent denied the charges and requested a hearing. I was appointed to preside over the action under 49 CFR 386.54. The hearing was held May 30, 1989 in New York City, and the parties filed briefs on June 26, 1989. After careful consideration, I find the violations as charged and assess a civil penalty of $15,000.

The Notice of Claim arose from an investigation undertaken by FHWA Safety Investigator Donald Moruzzi. Moruzzi first appeared at Respondent's principal place of business in Yonkers, N.Y. on July 20, 1988 and asked to see certain records to be maintained by interstate motor carriers under federal law. He specifically sought drivers' logs, dispatch sheets, and charter contracts. The President of Service Bus, Salvatore DiPaolo, told him that the company no longer operated in interstate transportation and therefore was not subject to federal requirements (Tr. 22–23). He explained that Service Bus no longer kept such records because it had no need (Tr. 23). Investigator Moruzzi returned the following day and repeated his request. DiPaolo then produced charter contracts involving local transportation but no other documents. He again stated that he no longer kept drivers' logs or dispatch sheets, but this time added that some records might be found at another location used by Service Bus (Tr. 24). Moruzzi was then directed to dispatcher Arnold Jeffries at the second location. Jeffries, who had begun work at the carrier about a week earlier (Tr. 70–71, 79), told Moruzzi that the records and files at the second location were "in a bad disarray" and that nothing could be found (Tr. 73–74).

Shortly thereafter Investigator Moruzzi obtained proof that, contrary to DiPaolo's representations, Service Bus had indeed operated in interstate transportation during relevant time periods. Atlantic City casino records confirmed that Service Bus operated on many occasions between Yonkers, New York and Atlantic City, New Jersey (Tr. 25, 27, 33, 36-37). Confronted with this proof, DiPaolo produced various driver qualification files and records of duty status (drivers' logs) (Tr. 25–26).

A driver qualification file for a regularly employed driver must include a medical examiner's certificate of his physical qualification to drive a motor vehicle; an annual review of his driving record; a copy of his driver's license or certification of road test; an inquiry into the driver's driving and employment records during the previous three years; and the driver's application for employment (49 CFR 391.51; Tr. 27–28). The driver's record of duty status, formerly known as a driver's log, requires a driver to report his duty status for every 24-hour period on a grid divided into four descriptions, (1) Off duty; (2) Sleeper berth; (3) Driving; and (4) On-duty not driving. A regular driver would submit one for each day of the month (See 49 CFR 395.8; Tr. 29–30). Intermittent drivers (as defined in the regulations) must submit a statement showing the total duty time during the previous seven days and the time at which the driver was last released from duty prior to the current assignment (49 CFR 395.8(j)(2); Tr. 30).

Upon reviewing the proffered records of Service Bus, Moruzzi discovered that driver qualification files for four drivers were missing.[1] The company also lacked record-of-duty status files and seven-day statements for various dates between March 7 and July 18, 1988. Moruzzi drew up a checklist of his findings which DiPaolo signed (Exh. 5; Tr. 28, 58).

DiPaolo offered various reasons for the state of his records. He testified that the records had in fact been maintained by Service Bus, but that a former employee charged with maintaining them had left the company in May 1988 coincident with their disappearance (Tr. 43, 58–59, 62). He also claimed that the files may have been located in another office (Tr. 63). DiPaolo also stated that one of the drivers cited for lacking any driver qualification files, Louis Gomez,

[1] A fifth driver alleged to have no qualification file, Joseph Monaco, was not named in the complaint. DiPaolo stated that he was not a driver but a company mechanic who had rented a bus (Exh. 5; Tr. 46).

had actually rented a bus from Service Bus and was therefore not an employee subject to FHWA requirements (Tr. 45–46, 54, 65–66).[2] Additionally, DiPaolo claimed that he required drivers to turn in their logs or else forfeit their pay (Tr. 44–45), implying that it was unlikely that drivers would fail to turn in their records of duty status. This account was confirmed by one of his drivers (Tr. 89–90, 93–94). In sum, DiPaolo maintains that he was in full compliance with all requirements cited by Complainant at all times.[3]

I find the violations as charged. Mr. DiPaolo signed the checklist confirming the findings of Investigator Moruzzi which are the subject of this action. He thereby acknowledged that Moruzzi's findings, with the exception of the status of Gomez, were correct. I need go no further in determining whether the alleged violations which were not contested occurred.

DiPaolo's claims in mitigation of these findings were vague and unsubstantiated, and I do not credit them. He stated that the files may have been stolen, but never offered to show Inspector Moruzzi a police record of such theft (Tr. 36). Nor did he explain why a former employee would make off with these files. Furthermore, while it was also suggested that the files may have been located at a place other than Service Bus' headquarters, dispatcher Jeffries indicated that the records at the second location (assuming they were pertinent) were in disarray and effectively available. The regulations in any event generally require records to be maintained at the motor carrier's "principal place of business" (49 CFR 391.51(f))

Finally, DiPaolo's claim that Louis Gomez was a lessee rather than an employee driver strains credibility. No written lease was executed between Gomez and Service Bus; the company carried the insurance; and the company paid for the gas without reimbursement (Tr. 65–66). Those circumstances are not consistent with a rental agreement. In keeping with the overwhelming weight of the evidence, I find that Gomez was a driver employed by Service Bus and consequently also find the violations alleged with respect to him.[4]

My decision is also grounded in the fact that I have accorded greater weight to the evidence offered by Inspector Moruzzi than to that offered by Mr. DiPaolo. While I see no reason to question Moruzzi's findings and testimony, DiPaolo's credibility suffered by his initial claim that Service Bus made no interstate trips. Only when confronted with written evidence to the contrary did he acknowledge that that claim was untrue. He later stated that the reason he had told Moruzzi that he no longer operated interstate was because he was too "busy" to know where all his buses traveled (Tr. 47; see also Tr. 49). But that claim is of dubious believability in view of the 32 Atlantic City trips undertaken by Service Bus' fleet of only 7–11 buses between March and July 1988 (Exh. 5; Tr. 21, 48). Moreover, DiPaolo acknowledged that some of his drivers operated exclusively to and from Atlantic City (Tr. 60). Against this background, DiPaolo's credibility in this action cannot be accorded the same weight as Morvzzi's.

Under 49 U.S.C. 521(b), Service Bus is liable for a civil penalty not to exceed $500 for each violation. The determination of the amount of any civil penalty is based on

> * * * the nature, circumstances, extent, and gravity of the violation committed and, with respect to the violator, the degree of culpability, history or prior offenses, ability to pay, effect on ability to continue to do business, and such other matters as justice and public safety may require. In each case, the assessment shall be calculated to induce further compliance.

49 U.S.C. 521(b)(2)(c). The agency seeks the maximum penalty of $500 per violation. It stated that its determinations take into account the carrier's past record and ability to pay (Tr. 40–41).

Service Bus has been the subject of four previous safety audits since 1979. The 1979 audit cited 52 violations (Exh. 2; Tr. 13–14); a 1980 audit listed 51 (Exh. 3; Tr. 15–16).[5] No sanctions were sought on these two occasions. Rather, written recommendations were made to the carrier which essentially set out a program for ensuring compliance. In each case the agency report containing these recommendations was delivered to and signed by Salvatore DiPaolo as President of Service Bus (Tr. 14, 16). As a result of a third audit conducted in 1982, the agency issued a Notice of Claim against Respondent on June 15, 1983 citing eight counts of failing to retain on file driver's daily logs. The claim resulted in a civil penalty assessment of $4,000 (Exhs. 4, 6; Tr. 16–21).

I agree with the recommendation of agency counsel and hereby set a penalty of $15,000 for the violations. I do not arrive at this figure casually. Service Bus has been cited on three previous occasions for the same or similar problems. The responsible company officials have not changed during this period. Service Bus has been more than suitably apprised of the need to comply. The record shows that it has failed in its responsibilities.

These are not mere record-keeping violations. They affect the safety of the traveling public. Failure to adhere to them undermines the integrity of the Congressionally-mandated enforcement program, public confidence in motor carrier safety, and ultimately the safety of motor carriers themselves. The Motor Carrier Safety Regulations are not to be lightly regarded.

---

[2] DiPaolo conditioned his signing of Moruzzi's checklist by this claim. See Exh. 5, p. 2.

[3] Tr. 52–56. Respondent also states in support of his case that on September 13, 1988 he was found in compliance with applicable regulations of the state of New York (Tr. 58, 60, 72, 74–75, 84). This claim, however, is irrelevant to the matter before me. No showing was made regarding the New York requirements, the nature and extent of the inspection there made, or the standards utilized in arriving at that result. Indeed, the New York inspection makes reference to the compliance of the company's *school* buses, another operation and not the subject of this action (Tr. 9–10, 79–80). Moreover, even if New York's program and enforcement standards were identical to FHWA's, the State's September 13 findings have no probative value for the findings made at FHWA's earlier July 20–August 5 inspection. Indeed, I rejected Respondent's proffer of two exhibits reflecting New York State's findings and permitted these documents to accompany the record only as an offer of proof. See Tr. 74–83.

[4] The Notice of Claim alleges that Service Bus did not maintain for Gomez a driver qualification file (violation #4) and failed to require him to make and submit a record of duty status for a July 10, 1988 Yonkers-Atlantic City trip (violation #23). See Notice of Claim dated October 3, 1988.

[5] The 1979 safety audit cited the following violations (the number found follows in parentheses): failure to maintain driver qualification files (two); requiring or permitting drivers to drive more than ten hours (two); failure to require drivers to prepare appropriate daily log (forty); failure to require a driver to forward each day the original of his log (seven); and failure to retain vehicle condition reports (one). The 1980 audit cited a failure to maintain driver qualification files (three); missing items from driver qualification files (four); permitting driver to drive more than ten hours (three); permitting driver to drive after having been on duty 15 hours (six); failure to require driver to make a daily log (ten); failure to require driver to prepare an appropriate daily log (twenty-five). See Tr. 13–16.

The statute requires that the penalty be calculated "to induce further compliance". Against the background I have described, I believe the maximum assessment is the only penalty which will fulfill the statutory goal. Additionally, there has been no showing that the carrier lacks the ability to pay.

Service Bus Company, Inc. is hereby ordered to pay a civil penalty in amount of $15,000 for violating Federal Motor Carrier Safety Regulations 49 CFR 391.51, 395.8(a), and 395.8(j).

This decision is issued pursuant to 49 CFR 386.61. This decision becomes the final decision of the Associate Administrator 45 days after it is served unless a petition or motion for review is filed under 49 CFR 386.62.

Barton S. Kolko,

Administrative Law Judge.

Small Airplane Airworthiness Review Program Amendment No. 5; Final Rule

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Parts 23, 91, and 135

[Docket No. 25812; Amendment Nos. 23-41, 91-230, 135-26]

RIN 2120-AC14

Small Airplane Airworthiness Review Program Amendment No. 5

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This final rule amends the airworthiness standards for equipment, systems, and installations and establishes airworthiness standards for the installation of electronic display instrument systems in normal, utility, acrobatic, and commuter category airplanes. It also provides alternative airworthiness standards for the instrument configuration for general, air taxi and commercial operations. This amendment updates the airworthiness and operating requirements to reflect advanced technology being incorporated in current designs while maintaining an acceptable level of safety.

EFFECTIVE DATE: November 26, 1990.

FOR FURTHER INFORMATION CONTACT: Ervin Dvorak, Standards Office (ACE-112), Small Airplane Directorate, Aircraft Certification Division, Central Region, Federal Aviation Administration, 601 East 12th Street, Kansas City Missouri 64106, telephone (816) 426-5688.

SUPPLEMENTARY INFORMATION:

Background

This amendment is based on Notice of Proposed Rulemaking, Notice No. 89-6, published on March 6, 1989 (54 FR 9338). All comments received in response to Notice No. 89-6 have been considered in adopting this amendment.

Related Activity

The FAA announced its Small Airplane Airworthiness Review Program in Notice No. CE-83-1 (48 FR 4290, January 31, 1983) and invited all interested persons to submit proposals for consideration. The goal of the review program was to provide an opportunity for the public to participate in improving, updating, and developing the airwothiness standards applicable to small airplanes, as set forth in part 23 of the Federal Aviation Regulations (FAR). Where applicable, the review program was extended to the new commuter category requirements because that commuter category incorporated existing small airplane requirements, as set forth in Amendment 23-34 (52 FR 1806, January 15, 1987).

In Notice No. CE-83-1A (48 FR 20623, June 9, 1983), the FAA extended the period for submission of review proposals, invited by Notice No CE-83-1, to May 3, 1984. Approximately 500 proposals were received in response to Notices No. CE-83-1 and CE-83-1A.

Following receipt of the proposals, the FAA published Notice No. CE-83-1 (49 FR 30053, July 25, 1984) containing the availability of agenda, compilation of proposals, and announcement of the Small Airplane Airworthiness Review Program Conference. That conference was held October 22-26, 1984, in St. Louis, Missouri. A copy of the transcript of all discussions held during the conference is filed in FAA Regulatory Docket No. 23494.

After reviewing the proposals and the public comments received at the conference, the FAA's first related rulemaking action concentrated on updating safety standards related to cabin safety and improved crashworthiness. On December 12, 1986, the FAA published Notice No. 86-19, titled, "Small Airplane Airworthiness Review Notice No. 1" (51 FR 44878). Notice No. 86-19 proposed to upgrade the standards for cabin safety and occupant protection during emergency landing conditions, which included dynamic testing requirements for the seat/restrain systems of small airplanes. The proposals from Notice No. 86-19 were adopted in Amendment 23-36 (53 FR 30802, August 15, 1988).

From the Small Airplane Airworthiness Review Program, Notices No. 2 and 5 were published in the **Federal Register** as Notices No. 89-5 and 89-6, respectively. These two notices, No. 89-5 and 89-6, were published March 6, 1989 (54 FR 9276 and 54 FR 9338). Action on Notice No. 89-5 will be accomplished in a separate final rulemaking document. This final rulemaking action, resulting from Notice No. 89-6, has been prepared with the consideraion of all comments received on that notice.

The proposals to amend §§ 91.205 and 135.159 are the result of the petitions for rulemaking action that the FAA has received and were not specifically discussed at the Small Airplane Airworthiness Review Conference. These proposals are related to the proposals for §§ 23.1309, 23.1311, and 23.1321, therefore, this notice was expanded to include these proposals.

Discussion of Comments

General

Interested persons were invited to participate in the development of these final rules by submitting written data, views, or arguments to the regulatory docket on or before July 5, 1989. Five commenters responded to Notice No. 89-6. Minor technical and editorial changes have been made to the proposed rules based on both relevant comments received and further review by the FAA. Two of these commenters strongly support the adoption of these proposals.

One commenter believes that ongoing rulemaking actions have resulted in a continuing increase in the cost and complexity of certification requirements for general aviation airplanes. This commenter cites, as an example of this increased cost, the "dynamic testing of an airplane to prove it will meet the new certification requirements," and states that "For a small airplane, this test would mean the destruction of a minimum of 3 to 9 fuselages costing a total of from one to two million dollars." Consequently, this commenter expresses support for the primary category rulemaking (54 FR 9738, March 7, 1989) and urges expeditious adoption of that rulemaking action.

Proposals in this rulemaking action respond to changes in design technology that were not envisioned in the current airworthiness standards and provide an acceptable level of safety for that new technology. Any additional airplane costs that may occur from these proposed new requirements are the result of an airplane manufacturer's selection of the technology for a new airplane design. In regard to the commenter's example of dynamic testing requirements that would require the destruction of several fuselages, the FAA has not been able to identify dynamic requirements that would require destruction of a single fuselage. The FAA believes that this comment refers to the recently adopted dynamic seat testing requirements of Amendment 23-36. The new seat design and dynamic testing needed to establish compliance may exceed the cost of the seat design and static test needed to show compliance with older requirements; however, the net benefits to be realized from the reduction in occupant fatalities and injuries are expected to exceed the increase in cost. Finally, this commenter's recommendation on the expeditious adoption of the proposed primary category aircraft rule is beyond the scope of this notice.

Discussion of Comments to Specific Sections of Parts 23, 91, and 135

The following comments and discussion are keyed to like-numbered proposals in Notice No. 89-6.

Proposals 1, 5, 7. These proposals contain the authority citations for parts 23, 91, and 135. No comments were received on these proposals.

Proposal 2. This proposal would retain the existing reliability requirements of current § 23.1309 for airplane equipment, systems, and installations that are not complex and do not perform safety-critical functions. For those cases where the applicant finds it necessary or desirable to include complex, safety-critical systems, this proposal also would provide additional requirements for identifying such equipment, systems, and installations and would define additional requirements needed for their certification. This proposal would permit the approval of more advanced systems having the capability to perform critical functions and whose failure condition would prevent the continued safe flight and landing of the airplane.

Two commenters offer comments on proposed § 23.1309. One of these commenters concurs with the concept of updating the reliability requirements applicable to airplanes not limited to Visual Flight Rules (VFR) flight, but does not concur with this updating for all airplanes. As discussed in Notice No. 89-6, this proposal addresses the systems installed on airplanes and is not limited to the operations approval of the airplane. The airworthiness standards, as adopted in § 23.1309(a), are based on single-fault or fail-safe concepts and experience based on service-proven designs and engineering judgment. These requirements should be used for airplanes whose systems are not complex and do not perform safety-critical functions. Therefore, § 23.1309(a) is structured to allow the use of existing procedures for simple airplane system designs.

If the design of the airplane includes equipment, systems, and installations that perform functions whose failure condition would prevent continued safe flight and landing of the airplane, the occurrence of each failure conditions must be extremely improbable. In addition, on airplanes designed for any type of operation not limited to VFR, the systems whose failure conditions would significantly reduce the airplane's capability, or the ability of the crew, to cope with the adverse operating conditions must be improbable. It was recognized that any failure would reduce the airplane's or crew's capability by some degree, but that reduction may not be of the degree that would make operation of the airplane potentially catastrophic. The intent of § 23.1309(b) is to require that systems whose failure would be catastrophic or potentially catastrophic be evaluated using the latest available analysis techniques.

Although future airplane designs limited to VFR operations are not likely to include equipment, systems, and installations whose failure condition would prevent continued safe flight and landing of the airplane, the applicability of this requirement, as discussed above, will provide airworthiness standards if the applicant elects to include such systems in the airplane's design. Therefore, the applicability of this requirement has not been revised as suggested by this commenter.

One commenter suggests that the critical environmental system considered in § 23.1309(c) would be better defined by removing the words "such as" from the proposed paragraph and replacing them with the word "including." The FAA agrees that the suggested wording more accurately identifies the intent of this paragraph, as discussed in this notice. The wording of paragraph (e) of § 23.1309 has been revised accordingly.

This same commenter notes that there are proposals being considered for a new §§ 25.1315 and 15.1317, which deal with the effects of lightning and external high energy radiated electromagnetic fields, and suggests that similar actions be considered for part 23 rules. Although this comment is beyond the scope of the actions proposed in Notice No. 89-6, the FAA recognizes the desirability of having the various airworthiness standards address like requirements in the respective sections and will consider this comment in future rulemaking actions.

Proposal 3. This proposal adds a new § 23.1311 to provide the requirements for the installation of an electronic display instrument system. It provides a separate section to address the airworthiness standards for those indicators. A significant number of electronic display systems have been approved for installation in part 23 airplanes by means of special conditions.

One commenter asks if the wording of proposed § 23.1311(c), concerning electronic display indicators with features that make isolation and independence between powerplant instrument systems impractical, will be supported by an appropriate amendment to require such isolation. As discussed in Notice No. 89-6, the current requirements of part 23 address powerplant instruments that could provide the required data only by using individual instruments. Accordingly, the isolation and independence referred to in § 23.1311(c) are currently required in § 23.903(c). The objective of this regulation is to allow the use of electronic display indicators that will not provide the isolation and independence considered in the current requirements. The FAA is not considering an additional amendment to address this issue.

Proposal 4. This proposal would revise § 23.1321 to provide that flight instruments to be used by any required pilot be located so that only minimal eye and head movement are needed to monitor the airplane's flight path and these instruments. This proposal would also extend the T-arrangement of the flight instruments to all airplanes that are certificated for flight under instrument flight rules (IFR) and would provide for electronic display indicators to be located in this T-arrangement. No comments were received on this proposal and it is adopted as proposed.

Proposal 6. This proposal would revise § 91.205 to permit the operation of all airplanes with the installation of a third attitude instrument system instead of the gyroscopic rate-of-turn indicator, providing that the instrument and installation comply with the requirements of § 121.305(j). [Part 91 was reorganized and its sections renumbered (54 FR 34284, August 18, 1989). The original proposal would have revised § 91.33, but that section is renumbered as § 91.205.] No comments were received on this proposal and it is adopted as proposed.

Proposal 8. This proposal would revise § 135.149 to establish uniformity in installation requirements when a third attitude instrument system is installed. No comments were received on this proposal and it is adopted as proposed.

Proposal 9. This proposal would revise § 135.150 to permit part 135 operation of any airplane, with the installation of a third attitude instrument system instead of a gyroscopic rate-of-turn indicator, that is substantially the same as airplanes, similarly equipped, that are permitted in part 121 operation. No comments were received on this proposal and it is adopted as proposed.

Regulatory Evaluation Summary

Introduction

This section summarizes the full regulatory evaluation prepared by the

FAA that provides more detailed estimates of the economic consequences of this regulatory action. This summary and the full evaluation quantify, to the extent practicable, estimated costs to the private sector, consumers, Federal, State, and local governments, as well as anticipated benefits.

Executive Order 12291, dated February 17, 1981, directs Federal agencies to promulgate new regulations or modify existing regulations only if potential benefits to society for each regulatory change outweigh potential costs. The order also requires the preparation of a Regulatory Impact Analysis of all "major" rules except those responding to emergency situations or other narrowly defined exigencies. A "major" rule is one that is likely to result in an annual increase in consumer costs, a significant adverse effect on the economy of $100 million or more, a major increase in consumer costs, a significant adverse effect on competition, or is highly controversial.

The FAA has determined that this rule is not "major" as defined in the executive order; therefore, a full regulatory analysis, which includes the identification and evaluation of cost-reducing alternatives to this rule, has not been prepared. Instead, the agency has prepared a more concise document, termed a "regulatory evaluation", that analyzes onl this rule without identifying alternatives. In addition to a summary of the regulatory flexibility determination required by the Regulatory Flexibility Act and an International Trade Impact assessment. If more detailed economic information is desired, the reader may refer to the full regulatory evaluation contained in the docket.

Economic Evaluation

The regulatory evaluation examines the effect of a final rule to amend parts 23, 91, and 135. The amendments to parts 91 and 135 contained in this rule allow the installation of a third attitude indicator instead of the currently required rate-of-turn indicator. Flight instrument systems now being proposed for installation need not include the rate-of-turn function. Allowing an additional attitude indicator with a dedicated power supply relieves the burden on the manufacturer and allows safer operations because of the greater utility of third attitude indicators.

The amendments to Part 91 and 135 impose no cost on the aviation community or other persons, but rather, include provisions for an alternative.

The amendments to part 23 contained in this rule upgrade airworthiness standards to include design requirements for complex systems critical for safety in small airplanes. These upgraded standards, which are based on proposals submitted at the Small Airplane Airworthiness Review Conference in St. Louis, apply only to aircraft for which an application for a type certificate under part 23 is made after the effective date of this rule. The amendments require examination of systems and equipment for their criticality to continued safe flight and landing of the airplane, require reliability of such systems based on their criticality and set forth standards for installation of instrument systems utilizing electronic display indicators.

Current computer and instrumentation technology has resulted in systems and equipment being available for small airplanes that are novel and unusual relative to what was envisioned and considered when the previous part 23 requirements were promulgated. Therefore, the FAA found it necessary to issue special conditions and expend significant resources to assure adequate airworthiness standards for these systems.

The amendments to part 23 are cost-relieving because they eliminate the need for special conditions processing, which often involves costly and unnecessary delays. In addition, these amendments are optional in the sense that the manufacturers are not being directed to incorporate the newest technology in their future models, but instead are being afforded a set of regulations to observe should they choose the new equipment.

Furthermore, it was concluded that an undetermined measure of safety benefits could be attributed to the three amendments to part 23. These benefits are based on: (1) The reduction in accidents that might otherwise occur under the "single fault" or "fail safe" analysis of failure potential for both complex, safety critical systems and multi-function electronic instrument displays, and (2) the reduction in accidents that could be afforded by the use of these advanced systems and displays.

The gross value of these benefits was estimated to range between $2.14 million and $2.46 million, depending on the assumptions concerning equipage rates and accident reduction effectiveness. However, it should be noted that this estimate measures the isolated effect on the regulatory amendments in and of themselves. Future airplane designs with advanced systems and instrument displays could be evaluated without these amendments through the special conditions process of § 21.16. Therefore, only a portion of the gross safety benefit estimate actually will be realized. The net benefit would be determined by the extent to which these amendments, as compared to the special conditions procedures, expedite the development of airplanes that employ advanced systems and instrument displays and improve the analysis of their safety and reliability.

International Trade Impact Analysis

The provisions of this rule will have little or no impact on trade for both U.S. firms doing business in foreign countries and foreign firms doing business in the United States. In the United States, foreign manufacturers would have to meet U.S. requirements, and, thus, they would gain no competitive advantage. In foreign countries, U.S. manufacturers would not be bound by part 23 requirements and could, therefore, implement the provisions of the rule solely on the basis of competitive considerations.

Regulatory Flexibility Determination

The FAA has determined that the rule changes will not have a significant economic impact on a substantial number of small entities. The FAA's criteria for a small airplane manufacturer is one with fewer than 75 employees. A substantial number is a number that is not fewer than 11 and that is more than one-third of the small entities subject to the rule.

A review of domestic general aviation manufacturing companies indicates that only two companies meet the size threshold of 75 employees or fewer. Therefore, the amendments to parts 23, 91, and 135 will not affect a substantial number of small entities.

Federalism Implications

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Conclusion

This document amends the airworthiness standards for complex, safety-related critical systems and the installation of electronic display systems. These standards provide design options to the manufacturer that are not available under existing regulations. This document concerns rules that do not impose a burden, but merely afford an alternative, and they will not result in an annual increase in consumer costs or have an adverse

effect on the economy. The FAA has determined that this amendment is not major as defined in Executive Order 12291. For the same reason, this amendment is not considered to be significant as defined in Department of Transportation Regulatory Policies and Procedures (44 FR 11034, February 26, 1979). Since there are no small entities affected by this rulemaking, it is certified, under the criteria of the Regulatory Flexibility Act, that this amendment will not have a significant economic impact, positive or negative, on a substantial number of small entities. In addition, these final rules will have little or no impact on trade opportunities for U.S. firms doing business overseas or for foreign firms doing business in the United States. A copy of the regulatory evaluation prepared for this project may be examined in the Rules Docket or obtained from the person identified under the caption "FOR FURTHER INFORMATION CONTACT."

List of Subjects

14 CFR Parts 23, 91, and 135

Aircraft, Air transportation, Aviation safety, Safety.

The Amendment

In consideration of the foregoing, the Federal Aviation Administration amends parts 23, 91, and 135 of the Federal Aviation Regulations (14 CFR parts 23, 91 and 135) as follows:

PART 23—AIRWORTHINESS STANDARDS: NORMAL, UTILITY, ACROBATIC AND COMMUTER CATEGORY AIRPLANES

1. The authority citation for part 23 continues to read as follows:

Authority: 49 U.S.C. 1344, 1354(a), 1355, 1421, 1423, 1425, 1428, 1429, 1430; 49 U.S.C. 106(g).

2. Section 23.1309 is revised to read as follows:

§ 23.1309 Equipment, systems, and installations.

(a) Each item of equipment, each system, and each installation:

(1) When performing its intended function, may not adversely affect the response, operation, or accuracy of any—

(i) Equipment essential to safe operation; or

(ii) Other equipment unless there is a means to inform the pilot of the effect.

(2) In a single-engine airplane, must be designed to minimize hazards to the airplane in the event of a probable malfunction or failure

(3) In a multiengine airplane, must be designed to prevent hazards to the airplane in the event of a probable malfunction or failure.

(b) The design of each item of equipment, each system, and each installation must be examined separately and in relationship to other airplane systems and installations to determine if the airplane is dependent upon its function for continued safe flight and landing and, for airplanes not limited to VFR conditions, if failure of a system would significantly reduce the capability of the airplane or the ability of the crew to cope with adverse operating conditions. Each item of equipment, each system, and each installation identified by this examination as one upon which the airplane is dependent for proper functioning to ensure continued safe flight and landing, or whose failure would significantly reduce the capability of the airplane or the ability of the crew to cope with adverse operating conditions, must be designed to comply with the following additional requirements:

(1) It must perform its intended function under any foreseeable operating condition.

(2) When systems and associated components are considered separately and in relation to other systems—

(i) The occurrence of any failure condition that would prevent the continued safe flight and landing of the airplane must be extremely improbable; and

(ii) The occurrence of any other failure condition that would significantly reduce the capability of the airplane or the ability of the crew to cope with adverse operating conditions must be improbable.

(3) Warning information must be provided to alert the crew to unsafe system operating conditions and to enable them to make appropriate corrective action. Systems, controls, and associated monitoring and warning means must be designed to minimize crew errors that could create additional hazards.

(4) Compliance with the requirements of paragraph (b)(2) of this section may be shown by analysis and, where necessary, by appropriate ground, flight, or simulator tests. The analysis must consider—

(i) Possible modes of failure, including malfunctions and damage from external sources;

(ii) The probability of multiple failures, and the probability of undetected faults;

(iii) The resulting effects on the airplane and occupants, considering the stage of flight and operating conditions; and

(iv) The crew warning cues, corrective action required, and the crew's capability of determining faults.

(c) Each item of equipment, each system, and each installation whose functioning is required by this chapter and that requires a power supply is an "essential load" on the power supply. The power sources and the system must be able to supply the following power loads in probable operating combinations and for probable durations:

(1) Loads connected to the power distribution system with the system functioning normally.

(2) Essential loads after failure of—

(i) Any one engine on two-engine airplanes; or

(ii) Any two engines on an airplane with three or more engines; or

(iii) Any power converter or energy storage device.

(3) Essential loads for which an alternate source of power is required, as applicable, by the operating rules of this chapter, after any failure or malfunction in any one power supply system, distribution system, or other utilization system.

(d) In determining compliance with paragraph (c)(2) of this section, the power loads may be assumed to be reduced under a monitoring procedure consistent with safety in the kinds of operations authorized. Loads not required in controlled flight need not be considered for the two-engine-inoperative condition on airplanes with three or more engines.

(e) In showing compliance with this section with regard to the electrical power system and to equipment design and installation, critical environmental and atmospheric conditions, including radio frequency energy and the effects (both direct and indirect) of lightning strikes, must be considered. For electrical generation, distribution, and utilization equipment required by or used in complying with this chapter, the ability to provide continuous, safe service under foreseeable environmental conditions may be shown by environmental tests, design analysis, or reference to previous comparable service experience on other airplanes.

(f) As used in this section, "system" refers to all pneumatic systems, fluid systems, electrical systems, mechanical systems, and powerplant systems included in the airplane design, except for the following:

(1) Powerplant systems provided as part of the certificated engine.

(2) The flight structure (such a wing, empennage, control surfaces and their systems, the fuselage, engine mounting, and landing gear and their related primary attachments) whose requirements are specific in subparts C and D of this part.

(3) A new § 23.1311 is added under the heading "Instruments: Installation" to read as follows:

§ 23.1311 Electronic display instrument systems.

(a) Electonic display indicator requirements in this section are independent to each pilot station required by the airworthiness standards or by the applicable operating rules for each airplane that is to be approved for operation in IFR conditions.

(b) Electronic display indicators required by § 23.1301(a), (b), and (c) must be independent of the airplane's electrical power system.

(c) Electronic display indicators, including those with features that make isolation and independence between powerplant instrument systems impractical must—

(1) Be easily legible under all lighting conditions encountered in the cockpit, including direct sunlight, considering the expected electronic display brightness level at the end of an electronic display indicator's useful life. Specific limitations on display system useful life must be addressed in the Instructions for Continued Airworthiness requirements of § 23.1529;

(2) Not inhibit the primary display of attitude, airspeed, altitude, or powerplant parameters needed by any pilot to set power within established limitations, in any normal mode of operation;

(3) Not inhibit the primary display of engine parameters needed by any pilot to properly set or monitor powerplant limitations during the engine starting mode of operation;

(4) Have independent secondary attitude and rate-of-turn instruments that comply with § 23.1321(a) if the primary electronic display instrument system for a pilot presents this information. Instrument displays that are located in accordance with § 23.1321(d) are considered the primary displays. A rate-of-turn instrument is not required if a third attitude instrument system is installed in accordance with the instrument requirements prescribed in § 121.305(j) of this chapter.

(5) Incorporate sensory cues for the pilot that are equivalent to those in the instrument being replaced by the electronic display indicators; and

(6) Incorporate visual displays of instrument markings, required by §§ 23.1541 through 23.1553, or visual displays that alert the pilot to abnormal operational values or approaches to established limitation values, for each parameter required to be displayed by this part.

(d) The electronic display indicators, including their systems and installations, and considering other airplane systems, must be designed so that one display of information essential for continued safe flight and landing will remain available to the crew, without need for immediate action by any pilot for continued safe operation, after any single failure or probable combination of failures.

(e) As used in this section, "instrument" includes devices that are physically contained in one unit, and devices that are composed of two or more physically separate units or components connected together (such as a remote indicating gyroscopic direction indicator that includes a magnetic sensing element, a gyroscopic unit, an amplifier, and an indicator connected together). As used in this section, "primary" display refers to the display of a parameter that is located in the instrument panel such that the pilot looks at it first when wanting to view that parameter.

4. Section 23.1321 is amended by removing the word "and" at the end of paragraph (d)(3); by removing the period at the end of paragraph (d)(4) and replacing it with "; and"; by revising paragraphs (a) and (b) introductory text and by adding a new paragraph (d)(5) to read as follows:

§ 23.1321 Arrangement and visibility.

(a) Each flight, navigation, and powerplant instrument for use by any required pilot during takeoff, initial climb, final approach, and landing must be located so that any pilot seated at the controls can monitor the airplane's flight path and these instruments with minimum head and eye movement. The powerplant instruments for these flight conditions are those needed to set power within powerplant limitations.

* * * * *

(d) For each airplane certificated for flight under instrument flight rules or of more than 6,000 pounds maximum weight, the flight instruments required by § 23.1303, and, as applicable, by the operating rules of this chapter, must be grouped on the instrument panel and centered as nearly as practicable about the vertical plane of each required pilot's forward vision. In addition:

* * * * *

(5) Electronic display indicators may be used for compliance with paragraphs (d)(1) through (d)(4) of this section when such displays comply with requirements in § 23.1311.

PART 91—GENERAL OPERATING AND FLIGHT RULES

5. The authority citation for part 91 continues to read as follows:

Authority: 49 U.S.C. 1301(7), 1303, 1344, 1348, 1352 through 1355, 1401, 1421 through 1431, 1471, 1472, 1502, 1510, 1522, and 2121 through 2125; Articles 12, 29, 31, and 32(a) of the Convention on International Civil Aviation (61 Stat. 1180); 42 U.S.C. 4321 *et seq.*; E.O. 11514; 49 U.S.C. 106(g).

§ 91.205 [Amended]

6. Section 91.205(d)(3)(i), is amended by removing the word "Large", by capitalizing the following word to read "Airplanes", and by adding the words "the instrument requirements prescribed in" after the words "in accordance with".

PART 135—AIR TAXI OPERATORS AND COMMERCIAL OPERATORS

7. The authority citation for part 135 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1355(a), 1421 through 1431, and 1502; 49 U.S.C. 106(g).

8. Section 135.149 is amended by revising paragraph (c) to read as follows:

§ 135.149 Equipment requirements: General.

* * * * *

(c) For turbojet airplanes, in addition to two gyroscopic bank-and-pitch indicators (artificial horizons) for use at the pilot stations, a third indicator that is installed in accordance with the instrument requirements prescribed in § 121.305(j) of this chapter.

* * * * *

9. Section 135.150 is amended by redesignating paragraphs (a)(1) and (a)(2) as (a)(2) and (a)(3), respectively; and by adding a new paragraph (a)(1) to read as follows:

§ 135.150 Equipment requirements: Carrying passengers under VFR at night or under VFR over-the-top conditions.

* * * * *

(a) * * *

(1) Airplanes with a third attitude

instrument system usable through flight attitudes of 360 degrees of pitch-and-roll and installed in accordance with the instrument requirements prescribed in § 121.305(j) of this chapter.

* * * * *

Issued in Washington, DC on October 22, 1990.

James B. Busey,

Administrator.

Title 3—

The President

Proclamation 6214 of October 24, 1990

World Population Awareness Week, 1990

By the President of the United States of America

A Proclamation

If current projections prove accurate, the present global population of more than 5 billion will likely double by the year 2025. It may reach 14 billion by the end of the next century. In many areas of the world, particularly in less developed countries, populations are increasing without concomitant economic growth. In other, more developed nations, however, birthrates are so low that populations are not replacing themselves. The implications of both trends merit careful study and consideration—as experience has clearly shown us, there is a significant relationship between demographic change, economic development, the use of resources, and environmental management.

The United States has long recognized that population growth, in and of itself, is a neutral phenomenon. As we noted during the 1984 International Conference on Population, because human beings are producers as well as consumers, population growth may be an asset or a liability depending on such factors as government economic policies, agricultural practices, and a nation's ability to put men and women to work. Demographic change can become problematic when a nation fails to anticipate or to accommodate growth. Increases in population can pose difficulties when the creation of housing and health facilities does not keep pace or when valuable resources such as arable land, forests, and water are used without regard to future needs. Population growth may also be viewed as a threat in countries where centralized economic planning and government price controls eliminate incentives for farmers and other workers to produce.

Many governments, private organizations, and concerned individuals around the world have been studying population trends and working to meet the challenges and opportunities those trends create. Over the years, the United States has been a leader in efforts to focus attention on population issues; to promote international cooperation; and to develop and implement population programs that are consistent with individual dignity and human rights. For example, in addition to supporting voluntary family planning activities, we have strived to promote environmental conservation and sustainable economic development in poor countries. We have also steadfastly advocated the political and economic freedom that is vital to the advancement of individuals and nations.

The United States believes that population programs must be truly voluntary, that they must not only recognize the rights and responsibilities of individuals and families but also respect their religious and cultural values. When population programs are conducted in accordance with this view, when they affirm and enhance the dignity and potential of the individual, they can and do promote the health of mothers and children, the stability of families, and, subsequently, the strength and well-being of entire nations.

The Congress, by Senate Joint Resolution 158, has designated the week of October 21 through October 27, 1990, as "World Population Awareness Week" and has authorized and requested the President to issue a proclamation in observance of this week.

NOW, THEREFORE, I, GEORGE BUSH, President of the United States of America, do hereby proclaim the week of October 21 through October 27, 1990, as World Population Awareness Week. I invite all Americans to observe this week with appropriate programs and activities.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-fourth day of October, in the year of our Lord nineteen hundred and ninety, and of the Independence of the United States of America the two hundred and fifteenth.

George Bush

Proclamation 6215 of October 24, 1990

Eating Disorders Awareness Week, 1990

By the President of the United States of America

A Proclamation

Anorexia nervosa and bulimia, collectively known as eating disorders, are emotional disorders that can lead to serious physical illness and even death. Anorexia nervosa is expressed in deliberate self-starvation, which is manifested in an extreme aversion to food. It is closely related to, and often accompanied by, bulimia, which is marked by binge eating and purging.

Experts who have studied eating disorders estimate that one out of every 100 women between the ages of 12 and 25 suffers from anorexia nervosa, and that one of every seven women in the same age group develops bulimia. However, they also note that nearly 10 percent of all patients referred to eating disorder clinics are men.

Although the causes of anorexia nervosa and bulimia are still unknown, researchers believe that a combination of psychological, environmental, and physiological factors contribute to the development of one or both of these disorders. Treatment for anorexia and bulimia entails a combination of medical care and psychotherapy for the patient, as well as counseling for parents, spouses, and siblings. The patient's participation in a self-help group is an adjunct to medical and psychiatric care.

Advances in our understanding of anorexia nervosa and bulimia have been made possible through the concerted efforts of scientists, physicians, and counselors, as well as victims and their families. Researchers at the National Institute of Mental Health and the National Institutes of Health are working to discover the causes of these disorders and are using a multidisciplinary approach to diagnose and treat them. Private voluntary organizations such as the American Anorexia/Bulimia Association, the National Anorexic Aid Society, and the National Association of Anorexia Nervosa and Associated Disorders offer information regarding treatment centers, hospitals, clinics, and doctors specializing in eating disorders.

To recognize the importance of such efforts and to enhance public awareness of the dangers of eating disorders, the Congress, by House Joint Resolution 214, has designated the week beginning October 22, 1990, as "Eating Disorders Awareness Week" and has authorized and requested the President to issue a proclamation in observance of this week.

NOW, THEREFORE, I, GEORGE BUSH, President of the United States of America, do hereby proclaim the week of October 22, 1990, as Eating Disorders Awareness Week. I invite all Americans to join with concerned health care professionals and government officials in observing this week through appropriate programs and activities directed toward the prevention and cure of anorexia nervosa and bulimia.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-fourth day of October, in the year of our Lord nineteen hundred and ninety, and of the Independence of the United States of America the two hundred and fifteenth.

George Bush

LIST OF PUBLIC LAWS

Note: No public bills which have become law were received by the Office of the Federal Register for inclusion in today's List of Public Laws.

Last List October 23, 1990

VOL 55 ISS 208 OCT 26 1990 UMI

Public Laws

are now available for the 101st Congress, 2nd Session, 1990

Pamphlet prints of public laws, often referred to as slip laws, are the initial publication of Federal laws upon enactment and are printed as soon as possible after approval by the President. Legislative history references appear on each law. Subscription service includes all public laws, issued irregularly upon enactment, for the 101st Congress, 2nd Session, 1990.

(Individual laws also may be purchased from the Superintendent of Documents, Washington, DC 20402-9328. Prices vary. See Reader Aids Section of the Federal Register for announcements of newly enacted laws and prices).

Guide to Record Retention Requirements

in the Code of Federal Regulations (CFR)

GUIDE: Revised January 1, 1989
SUPPLEMENT: Revised January 1, 1990

The GUIDE and the SUPPLEMENT should be used together. This useful reference tool, compiled from agency regulations, is designed to assist anyone with Federal recordkeeping obligations.

The various abstracts in the GUIDE tell the user (1) what records must be kept, (2) who must keep them, and (3) how long they must be kept.

The GUIDE is formatted and numbered to parallel the CODE OF FEDERAL REGULATIONS (CFR) for uniformity of citation and easy reference to the source document.

Compiled by the Office of the Federal Register, National Archives and Records Administration.

Order from Superintendent of Document , U.S. Government Printing Office, Washington, DC 20402–9325.

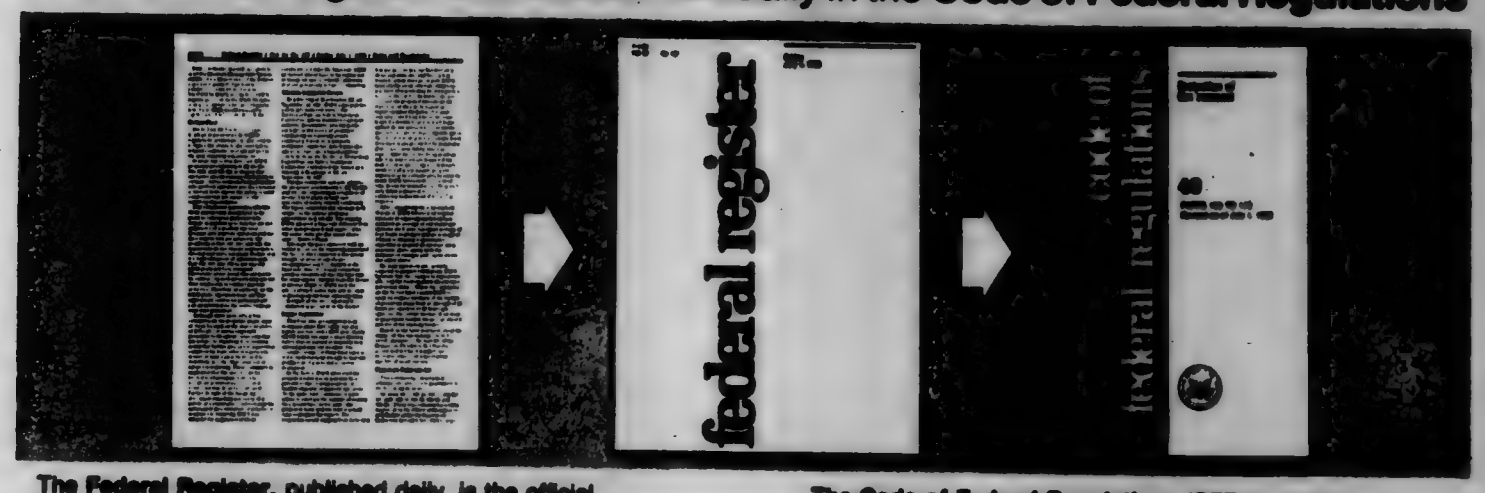
Order from Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402-9325.

(Rev. 9-4-90)

The Federal Register

Regulations appear as agency documents which are published daily in the **Federal Register** and codified annually in the **Code of Federal Regulations**



The **Federal Register**, published daily, is the official publication for notifying the public of proposed and final regulations. It is the tool for you to use to participate in the rulemaking process by commenting on the proposed regulations. And it keeps you up to date on the Federal regulations currently in effect.

Mailed monthly as part of a **Federal Register** subscription are: the LSA (List of CFR Sections Affected) which leads users of the **Code of Federal Regulations** to amendatory actions published in the daily **Federal Register**; and the cumulative **Federal Register** Index.

The **Code of Federal Regulations** (CFR) comprising approximately 196 volumes contains the annual codification of the final regulations printed in the **Federal Register**. Each of the 50 titles is updated annually.

Individual copies are separately priced. A price list of current CFR volumes appears both in the **Federal Register** each Monday and the monthly LSA (List of CFR Sections Affected). Price inquiries may be made to the Superintendent of Documents, or the Office of the Federal Register.

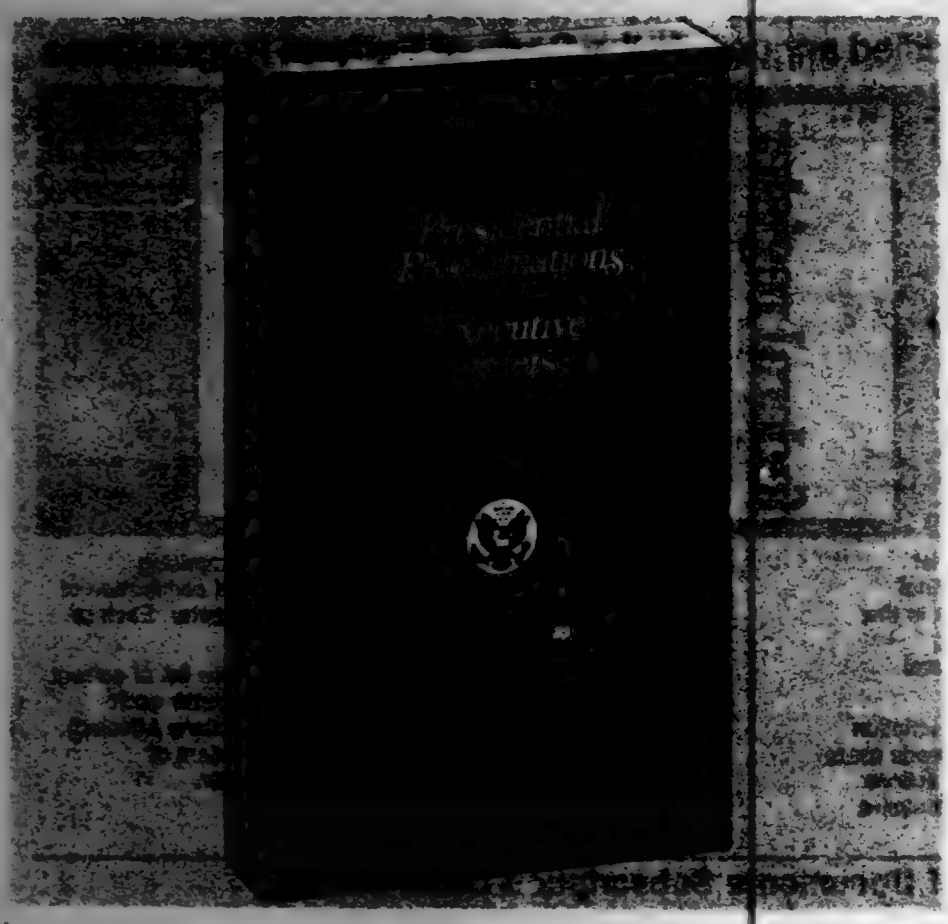
New edition .... Order now !



For those of you who must keep informed about Presidential Proclamations and Executive Orders, there is a convenient reference source that will make researching these documents much easier.

Arranged by subject matter, this edition of the *Codification* contains proclamations and Executive orders that were issued or amended during the period April 13, 1945, through January 20, 1989, and which have a continuing effect on the public. For those documents that have been affected by other proclamations or Executive orders, the codified text presents the amended version. Therefore, a reader can use the *Codification* to determine the latest text of a document without having to "reconstruct" it through extensive research.

Special features include a comprehensive index and a table listing each proclamation and Executive order issued during the 1945–1989 period—along with any amendments—an indication of its current status, and, where applicable, its location in this volume.

Published by the Office of the Federal Register, National Archives and Records Administration

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The Federal Register provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The seal of the National Archives and Records Administration authenticates this issue of the Federal Register as the official serial publication established under the Federal Register Act. 44 U.S.C. 1507 provides that the contents of the Federal Register shall be judicially noticed.

The Federal Register will be furnished by mail to subscribers for $340 per year in paper form; $195 per year in microfiche form; or $37,500 per year for the magnetic tape. Six-month subscriptions are also available at one-half the annual rate. The charge for individual copies in paper or microfiche form is $1.50 for each issue, or $1.50 for each group of pages as actually bound, or $175.00 per magnetic tape. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, or charge to your GPO Deposit Account or VISA or Mastercard.

There are no restrictions on the republication of material appearing in the Federal Register.

How To Cite This Publication: Use the volume number and the page number. Example: 55 FR 12345.

Title 3—

The President

Proclamation 6218 of October 25, 1990

Yosemite National Park Centennial Year, 1990–1991

By the President of the United States of America

A Proclamation

One hundred years ago, on October 1, 1890, President Benjamin Harrison signed into law an act establishing Yosemite National Park. Located in the Sierra Nevada Mountains of California, Yosemite is the Nation's third oldest national park and one of its greatest natural treasures. During this centennial year all Americans can be grateful for the vision and foresight of those who advocated the preservation of this magnificent portion of our country. They not only saved a priceless legacy for succeeding generations, but also provided an enduring model of environmental stewardship for all Americans to emulate.

Almost 3 decades before the legislation signed by President Harrison established Yosemite as the Nation's third national park, the beautiful and majestic lands it now encompasses helped to animate the environmental conservation movement. On June 30, 1864, President Lincoln signed into law an act granting Yosemite Valley and the Mariposa Grove of Giant Sequoias to the State of California, to "... be held for public use, resort, and recreation ... inalienable for all time." Known as the Yosemite Grant, this act was the first law to set aside lands for the preservation of their unique characteristics and extraordinary scenic value. In fact, the historic Yosemite Grant laid the foundation for the development of national parks, the first of which became a reality in 1872 with the establishment of Yellowstone. Uniquely American, the concept of national parks—and the preservation ethic they affirm and inspire—has spread worldwide.

Today, spanning more than 750,000 acres or approximately 1,190 square miles, Yosemite National Park is acclaimed for its spectacular scenery, exotic plants, and wide array of wildlife. The glacially carved Yosemite Valley contains two of the world's highest waterfalls. El Capitan is one of the largest exposed monoliths of granite in the world, and it is one of the many magnificent granite formations in the park. Half Dome itself is a geographic feature recognized around the world. The three groves of giant sequoias found in the park astound visitors with their breathtaking beauty and sheer size—the Grizzly Giant is the fifth largest tree in the world. Yosemite also contains more than 1,300 species of flowering plants, many of them rare. The wildlife inhabiting the park includes several rare and/or endangered species, among them the bald eagle and the peregrine falcon.

Yosemite's unparalleled beauty, abundant wildlife, and other natural resources enrich us in many ways. Each year thousands of people from around the Nation and the world visit the park for recreation and renewal. Families on leisurely visits explore Yosemite as eagerly as students and professionals, all of them embarked, to one degree or another, on great adventures in learning. Indeed, Yosemite is a wonderful place to study not only the earth's development and fragile ecosystems but also the history of the peoples who have inhabited this great land through the ages. Native peoples occupied the region that is now Yosemite as many as 4,000 or more years ago, and the known prehistoric trade routes through the region are among the most important in the Sierra Nevada mountain range. The park also contains a wealth of artifacts and historic sites that tell the story of more recent inhabitants, such

as the explorers and traders who flocked to the region during the California gold rush era.

Designated a World Heritage Site in 1984 by the United Nations Educational, Scientific, and Cultural Organization (UNESCO), Yosemite is one of the most beautiful and fascinating places on the North American continent and, indeed, the entire planet. This year we proudly celebrate its centennial and express our appreciation for all those who have maintained the park during the past 100 years.

By House Joint Resolution 398, the Congress has recognized and commemorated the 100th anniversary of Yosemite National Park and has authorized and requested the President to issue a proclamation in observance of this occasion.

NOW, THEREFORE, I, GEORGE BUSH, President of the United States of America, do hereby proclaim the year beginning October 1, 1990, as Yosemite National Park Centennial Year. I encourage the people of the United States and their elected representatives at the Federal, State, and local level to observe this year with appropriate programs and activities.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-fifth day of October, in the year of our Lord nineteen hundred and ninety, and of the Independence of the United States of America the two hundred and fifteenth.

George Bush

Presidential Documents

Proclamation 6217 of October 25, 1990

Ending Hunger Month, 1990

By the President of the United States of America

A Proclamation

The United States has long been a leader in efforts to end world hunger. Through a number of public and private programs, the American people have given generously of this Nation's abundant agricultural goods. We have also provided economic and technical assistance to foreign countries to help them increase their food production and promote needed economic development.

Despite these and other efforts, however, hunger and malnutrition remain chronic problems in many countries. While famines arouse deep and widespread concern, the problem of chronic hunger often receives far less attention, even though it affects more people. It is estimated that some 700 million people in developing countries—up to 60 percent of the population in the world's poorest countries—are affected by chronic hunger.

The problem of chronic hunger is as large and complex as it is compelling. Its causes vary. Some countries lack sufficient food supplies because of inadequate agricultural production—a problem readily attributed to adverse weather patterns, but one that is, in fact, often caused by centralized government planning, which eliminates farmers' incentives to produce bountiful crops. In countries where adequate food supplies may be available, political strife and civil war often disrupt or prevent their distribution. Moreover, in a number of developing countries, the natural resource base on which sustainable agriculture depends is being degraded. Forests are being destroyed, and soils are being depleted through erosion. Such losses pose a major long-term risk to the ability of those countries to feed their citizens.

While the causes of chronic hunger vary, its effects are always the same: hunger and malnutrition contribute to a vicious cycle of poverty and limited human development. Without adequate nutrition, good health is impossible. Without good health, man cannot maintain high levels of learning and productivity. Alleviating hunger is thus vital to the well-being of both individuals and nations.

The United States is working to help developing countries increase their food production through market-oriented, sustainable agricultural and rural development activities. We continue to share our agricultural surpluses with hungry people overseas through our Food for Peace and other assistance programs, such as the World Food Program. America is the largest donor of food aid, contributing annually more than 8 million tons of food worth more than $1.7 billion to hungry people overseas. Because any effective answer to chronic hunger must include measures to promote broad-based, sustainable economic growth, we are also encouraging the development of market-oriented policies that harness the creative power of individual initiative and free enterprise.

In addition to efforts abroad, the United States is also engaged in hunger relief activities at home. Government officials, health care professionals, educators, and religious congregations, as well as members of community groups and other private voluntary organizations, have been working to promote public awareness of the extent of chronic hunger, its causes, and its consequences. This year the U.S. Government is providing nearly $25 billion worth of food assistance to needy Americans—many of whom are children. Individual

volunteers and private donors are generously supporting canned food drives, food banks, and soup kitchens for the homeless. For example, this fall the Boy Scouts of America—recently recognized with a Presidential End Hunger Award—will be conducting a canned food drive that is expected to yield nearly 100 million items of food for people in need.

As an expression of our collective commitment to the fight against hunger, the United States joined 150 other countries in observing World Food Day on October 16, 1990. Related educational activities have been, and will continue to be, conducted throughout the month.

The Congress, by Senate Joint Resolution 342, has designated October 1990 as "Ending Hunger Month" and has authorized and requested the President to issue a proclamation in observance of this month.

NOW, THEREFORE, I, GEORGE BUSH, President of the United States of America, do hereby proclaim October 1990 as Ending Hunger Month. I call upon the people of the United States to observe this month with appropriate ceremonies and activities.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-fifth day of October, in the year of our Lord nineteen hundred and ninety, and of the Independence of the United States of America the two hundred and fifteenth.

George Bush

Rules and Regulations

Federal Register
Vol. 55, No. 209
Monday, October 29, 1990

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 910

[Lemon Reg. 741]

Lemons Grown in California and Arizona; Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation establishes the quantity of California-Arizona lemons that may be shipped to domestic markets during the period from October 28 through November 3, 1990. Consistent with program objectives, such action is needed to balance the supplies of fresh lemons with the demand for such lemons during the period specified. This action was recommended by the Lemon Administrative Committee (Committee), which is responsible for local administration of the lemon marketing order.

EFFECTIVE DATE: Regulation 741 (7 CFR part 910) is effective for the period from October 28 through November 3, 1990.

FOR FURTHER INFORMATION CONTACT: Beatriz Rodriguez, Marketing Specialist, Marketing Order Administration Branch, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture (Department), room 2524–S, P.O. Box 96456, Washington, DC 20090–6456; telephone: (202) 475–3551.

SUPPLEMENTARY INFORMATION: This final rule is issued under Marketing Order 910 (7 CFR part 910), as amended, regulating the handling of lemons grown in California and Arizona. This order is effective under the Agricultural Marketing Agreement Act of 1937, as amended, hereinafter referred to as the Act.

This final rule has been reviewed by the Department in accordance with Departmental Regulation 1512–1 and the criteria contained in Executive Order 12291 and has been determined to be a "non-major" rule.

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the Administrator of the Agricultural Marketing Service (AMS) has considered the economic impact of this action on small entities as well as larger ones.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are approximately 70 handlers of lemons grown in California and Arizona subject to regulation under the lemon marketing order and approximately 2,000 lemon producers in the regulated area. Small agricultural producers have been defined by the Small Business Administration (13 CFR 121.2) as those having annual receipts of less than $500,000, and small agricultural service firms are defined as those whose annual receipts are less than $3,500,000. The majority of handlers and producers of California-Arizona lemons may be classified as small entities.

The California-Arizona lemon industry is characterized by a large number of growers located over a wide area. The Committee's estimate of the 1990–91 production is 42,140 cars (one car equals 1,000 cartons at 38 pounds net weight each), compared to 37,881 cars during the 1989–90 season. The production area is divided into three districts which span California and Arizona. The Committee estimates District 1, central California, 1990–91 production at 6,000 cars compared to the 4,156 cars produced in 1989–90. In District 2, southern California, the crop is expected to be 24,709 cars compared to the 24,292 cars produced last year. In District 3, the California desert and Arizona, the Committee estimates a production of 10,940 cars compared to the 9,436 cars produced last year. According to the National Agricultural Statistics Service, 1990–91 lemon production is expected to total 40,200 cars, 6 percent above the 1989–90 season and 1 percent more than the crop utilized in 1989–90.

The three basic outlets for California-Arizona lemons are the domestic fresh, export, and processing markets. The domestic (regulated) fresh market is a preferred market for California-Arizona lemons. Based on its crop estimate of 42,140 cars, the Committee estimates that about 42.5 percent of the 1990–91 crop will be utilized in fresh domestic channels (17,900 cars), compared with the 1989–90 total of 16,800 cars, about 44 percent of the total production of 37,881 cars in 1989–90. Fresh exports are projected at 20.1 percent of the total 1990–91 crop utilization compared with 22 percent in 1989–90. Processed and other uses would account for the residual 37.4 percent compared with 34 percent of the 1989–90 crop.

Volume regulations issued under the authority of the Act and Marketing Order No. 910 are intended to provide benefits to growers and consumers. Reduced fluctuations in supplies and prices result from regulating shipping levels and contribute to a more stable market. The intent of regulation is to achieve a more even distribution of lemons in the market throughout the marketing season and to avoid unreasonable fluctuations in supplies and prices.

Based on the Committee's marketing policy, the crop and market information provided by the Committee, and other information available to the Department, the costs of implementing the regulations are expected to be more than offset by the potential benefits of regulation.

Reporting and recordkeeping requirements under the lemon marketing order are required by the Committee from handlers of lemons. However, handlers in turn may require individual growers to utilize certain reporting and recordkeeping practices to enable handlers to carry out their functions. Costs incurred by handlers in connection with recordkeeping and reporting requirements may be passed on to growers.

The Committee submitted its marketing policy for the 1990–91 season to the Department on June 19. The marketing policy discussed, among other things, the potential use of volume and

size regulations for the ensuing season. The Committee considered the use of volume regulation for the season. This marketing policy is available from the Committee or Ms. Rodriguez. The Department reviewed that policy with respect to administrative requirements and regulatory alternatives in order to determine if the use of volume regulations would be appropriate.

The Committee met publicly on October 23, 1990, in Newhall, California, to consider the current and prospective conditions of supply and demand and unanimously recommended that 325,000 cartons is the quantity of lemons deemed advisable to be shipped to fresh domestic markets during the specified week. The marketing information and data provided to the Committee and used in its deliberations were compiled by the Committee's staff or presented by Committee members at the meeting. This information included, but was not limited to, price data for the previous week from Department market news reports and other sources, the preceding week's shipments and shipments to date, crop conditions, weather and transportation conditions, and a reevaluation of the prior week's recommendation in view of the above.

The Department reviewed the Committee's recommendation in light of the Committee's projections as set forth in its 1990-91 marketing policy. This recommended amount is 15,000 cartons above the estimated projections in the Committee's current shipping schedule.

During the week ending on October 20, 1990, shipments of lemons to fresh domestic markets, including Canada, totaled 308,000 cartons compared with 300,000 cartons shipped during the week ending on October 21, 1989. Export shipments totaled 186,000 cartons compared with 191,000 cartons shipped during the week ending on October 21, 1989. Processing and other uses accounted for 293,000 cartons compared with 200,000 cartons shipped during the week ending on October 21, 1989.

Fresh domestic shipments to date for the 1990-91 season total 3,666,000 cartons compared with 3,509,000 cartons shipped by this time during the 1989-90 season. Export shipments total 1,655,000 cartons compared with 1,828,000 cartons shipped by this time during 1989-90. Processing and other use shipments total 2,772,000 cartons compared with 1,748,000 cartons shipped by this time during 1989-90.

For the week ending on October 20, 1990, regulated shipments of lemons to the fresh domestic market were 308,000 cartons on an adjusted allotment of 346,000 cartons which resulted in net undershipments of 38,000 cartons. Regulated shipments for the current week (October 21 through October 27, 1990) are estimated at 315,000 cartons on an adjusted allotment of 361,000 cartons. Thus, undershipments of 46,000 cartons could be carried over into the week ending on November 3, 1990.

The average f.o.b. shipping point price for the week ending on October 20, 1990, was $13.06 per carton based on a reported sales volume of 307,000 cartons compared with last week's average of $13.48 per carton on a reported sales volume of 306,000 cartons. The 1990-91 season average f.o.b. shipping point price to date is $13.15 per carton. The average f.o.b. shipping point price for the week ending on October 20, 1989, was $13.15 per carton; the season average f.o.b. shipping point price at this time during 1989-90 was $14.67 per carton.

The Department's Market News Service reported that, as of October 23, the demand for lemons is "fairly light" and the market is "about steady". At the meeting, one Committee member commented that the overall demand for and movement of lemons is good. There is some price discounting and inventory build-up on choice grade fruit sized 115 to 165. Another Committee member emphasized the need for volume regulation with the increase of lemons in storage and the transition between districts. The Committee unanimously recommended volume regulation for the period from October 28 through November 3, 1990.

Based upon fresh utilization levels indicated by the Committee and an econometric model developed by the Department, the California-Arizona 1990-91 season average fresh on-tree price is estimated at $8.83 per carton, 107 percent of the projected season average fresh on-tree parity equivalent price of $8.24 per carton. The California-Arizona 1989-90 season average fresh on-tree price is estimated at $9.02, 121 percent of the projected season average fresh on-tree parity equivalent price of $7.47 per carton.

Limiting the quantity of lemons that may be shipped during the period from October 28 through November 3, 1990, would be consistent with the provisions of the marketing order by tending to establish and maintain, in the interest of producers and consumers, an orderly flow of lemons to market.

Based on considerations of supply and market conditions, it is found that this action will tend to effectuate the declared policy of the Act.

Based on the above information, the Administrator of the AMS has determined that issuance of this rule will not have a significant economic impact on a substantial number of small entities.

Pursuant to 5 U.S.C. 553, it is further found and determined that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice and engage in further public procedure with respect to this action and that good cause exists for not postponing the effective date of this action until 30 days after publication in the **Federal Register**. This is because there is insufficient time between the date when information became available upon which this regulation is based and the effective date necessary to effectuate the declared policy of the Act.

In addition, market information needed for the formulation of the basis for this action was not available until October 23, 1990, and this action needs to be effective for the regulatory week which begins on October 28, 1990. Further, interested persons were given an opportunity to submit information and views on the regulation at an open meeting, and handlers were apprised of its provisions and effective time. It is necessary, therefore, in order to effectuate the declared purposes of the Act, to make this regulatory provision effective as specified.

List of Subjects in 7 CFR Part 910

Lemons, Marketing agreements, and Reporting and recordkeeping requirements.

For the reasons set forth in the preamble, 7 CFR part 910 is amended as follows:

1. The authority citation for 7 CFR part 910 continues to read as follows:

Authority: Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674.

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

2. Section 910.1041 is added to read as follows:

Note: This section will not appear in the Code of Federal Regulations.

§ 910.1041 Lemon Regulation 741.

The quantity of lemons grown in California and Arizona which may be handled during the period from October 28 through November 3, 1990, is established at 325,000 cartons.

Dated: October 24, 1990.

Robert C. Keeney,

Deputy Director, Fruit and Vegetable Division.

[FR Doc. 90-25528 Filed 10-26-90; 8:45 am]

BILLING CODE 3410-02-M

Farmers Home Administration

7 CFR Part 1900

Delegation of Authority

AGENCY: Farmers Home Administration, USDA.

ACTION: Final rule.

SUMMARY: The Farmers Home Administration (FmHA) is implementing a Field Office Specialization Project (FOSP) in 14 States. The effect of this Project will be to improve credit quality and portfolio management of its Single-Family Housing and Farmer Program loans. This Project creates new job titles not mentioned in existing regulations. FmHA is therefore amending the delegation of authorities to provide for delegation of certain responsibilities to new positions.

EFFECTIVE DATE: October 29, 1990.

FOR FURTHER INFORMATION CONTACT: Don R. Peterson, Project Manager, Office of the Administrator, Farmers Home Administration, USDA, South Agriculture Building, room 5049, Washington, DC 20250, Telephone: (202) 475–4618.

SUPPLEMENTARY INFORMATION: This final rule has been reviewed under USDA procedures established in Departmental Regulation 1512–1 which implements Executive Order 12291, and since this action has no impact on FmHA borrowers or other members of the public, it has been determined to be exempt from those requirements because it involves only internal Agency management. It is the policy of this Department that rules relating to public property, loans, grants, benefits, or contracts, shall be published for comments notwithstanding the exemption in 5 U.S.C. 533 with respect to such rules. This action, however, is not published for proposed rulemaking since it involves internal Agency management and publication for comment is unnecessary.

Background Information

For some time FmHA has been concerned about the lack of separation of duties by staff in its field offices. That is, the same individual takes loan applications, determines eligibility, processes loans, appraises security property, provides closing instructions, services the loan, determines when liquidation is necessary, and manages and sells any acquired property. The Field Office Specialization Project (FOSP) consists of 3 types of specialized staffs: Appraisal, Underwriting, and Servicing and Inventory. Six States will have Appraisal Staffs, 12 will have Underwriting Staffs, and 14 will have Servicing and Inventory Staffs. In some States, the Appraisal and Underwriting Staffs will be combined.

This Project is anticipated to separate duties by having the appraisals either made or obtained by contract by the Appraisal Staffs, by having the Underwriting staffs review all loan dockets before approval, and by having the Servicing and Inventory Staffs take over seriously delinquent loans for servicing, oversee the liquidation of loans, and manage and sell the acquired property. More uniform appraisals will be obtained. Credit quality will be enhanced by the Underwriter review prior to approval of loans. Seriously delinquent loans should be serviced more timely and effectively. Inventory property will be managed more uniformly and efficiently to maximize the financial recovery.

As part of the internal management of the Agency it may sometimes be expedient to have different personnel under the supervision of the State Director to perform functions which are different from those specifically identified in regulation. Thus, the State Director needs authority to assign personnel to carry out duties and responsibilities under various programs and activities in order to effectively carry out the mission of the Agency. Such reassignment of responsibilities to perform certain functions of the Agency will not change any rights or opportunities of the public to benefit from Agency activities. For example, the State Directors may find it expedient to assign activities relating to appraisals to a specialized staff or another office.

Programs Affected

These changes affect the following FmHA programs/activities listed in the Catalog of Federal Domestic Assistance (CFDA) under Nos.:

10.404 Emergency Loans
10.406 Farm Operating Loans
10.407 Farm Ownership Loans
10.410 Low-Income Housing Loans
10.416 Soil and Water Loans
10.417 Very Low-Income Housing Repair Loans and Grants

Intergovernmental Consultation

For the reasons set forth in the Final Rule related Notice(s) to 7 CFR part 3015, subpart V, the following programs are excluded from the scope of Executive Order 12372 which requires Intergovernmental consultation with State and local officials: 10.404—Emergency Loans, 10.406—Farm Operating Loans, 10.407—Farm Ownership Loans, 10.410—Low-Income Housing Loans, 10.416—Soil and Water Loans, and 10.417—Very Low-Income Housing Repair Loans and Grants. The following programs are subject to intergovernmental consultation with State and local officials: 10.405—Farm Labor Housing Loans and Grants, 10.411—Rural Housing Site Loans, 10.414—Resource Conservation and Development Loans, 10.415—Rural Rental Housing Loans, 10.418—Water and Waste Disposal Systems for Rural Communities, 10.419—Watershed Protection and Flood Prevention Loans, 10.421—Indian Tribes and Tribal Corporation Loans, 10.422—Business and Industrial Loans, 10.423—Community Facility Loans, and 10.427—Rural Rental Assistance Payments.

Environmental Impact Statement

This document has been reviewed in accordance with 7 CFR part 1940, subpart G, "Environmental Program." It is the determination of the FmHA that this action does not constitute a major Federal action significantly affecting the quality of the human environment, and in accordance with the National Environmental Policy Act of 1969, Public Law 91–90, an Environmental Impact Statement is not required.

List of Subjects in 7 CFR Part 1900

Appeals, Credit, Loan programs—housing and community development.

Therefore, chapter XVIII, title 7, Code of Federal Regulations is amended as follows:

PART 1900—GENERAL

1. The authority citation for part 1900 continues to read as follows:

Authority: 7 U.S.C. 1989; 42 U.S.C. 1480; 5 U.S.C. 301; 7 CFR 2.23; 7 CFR 2.70.

Subpart A—Delegations of Authority

§ 1900.3 [Amended]

2. Section 1900.3 is amended by inserting in the list of employees, after "Chief, Community and Business Programs/Specialist;" the following positions: "Chief, Appraisal Staff/Appraiser; Chief, Underwriting Staff/Underwriter; Chief, Underwriting and Appraisal Staff; Chief, Servicing and Inventory Staff/Credit Management Specialist/Realty Specialist;".

3. Section 1900.5 is redesignated as § 1900.6, and a new § 1900.5 is added to read as follows:

§ 1900.5 Assignment of cases.

The State Director may, in writing, assign responsibilities and functions to a different office or staff position within the FmHA State organizational structure other than that referred to in regulations,

provided no benefits, rights, or opportunities of the public are changed.

Dated: October 17, 1990.

La Verne Ausman,

Administrator, Farmers Home Administration.

[FR Doc. 90-25447 Filed 10-26-90; 8:45 am]

BILLING CODE 3410-07-M

DEPARTMENT OF JUSTICE

Immigration and Naturalization Service

8 CFR Parts 242 and 287

[INS Number: 1294-90]

Apprehension, Custody and Detention; Issuance of Service Detainers (Form I-247); Field Officers; Powers and Duties

AGENCY: Immigration and Naturalization Service, Justice.

ACTION: Interim rule with request for comments.

SUMMARY: This interim rule will remove the restriction prohibiting a Service officer from placing a detainer (Form I-247) against an alien who is an applicant or is eligible to apply for Legalization or for Special Agricultural Worker (SAW) status, if amenable to exclusion or deportation from the United States. This will ensure that aliens who are applicants for Legalization or SAW status incarcerated in correctional institutions be turned over to the Immigration and Naturalization Service if deemed deportable from the United States. As a result of this rule, aliens who are criminals and ineligible for Legalization or SAW status will not be free in the community, but instead, will be taken into custody by the Immigration and Naturalization Service to face possible exclusion or deportation from the United States.

EFFECTIVE DATE: This interim rule is effective October 22, 1990. Written comments must be received on or before November 28, 1990.

ADDRESSES: Please submit written comments, in triplicate, to the Director, Policy Directives and Instructions Branch, Immigration and Naturalization Service, room 5304, 425 I Street NW., Washington, DC 20536. Please include INS number 1294-90 on the mailing envelope to ensure proper handling.

FOR FURTHER INFORMATION CONTACT: Ira L. Frank, Senior Special Agent, Investigations Division, Immigration and Naturalization Service, 425 I Street NW., room 2207, Washington, DC 20536, Telephone: (202) 514-0747.

SUPPLEMENTARY INFORMATION:

A provision was placed in 8 CFR 242.2(a)(1) and 8 CFR 287.7(a)(1), restricting the placement of detainers on an alien illegally or unlawfully in the United States but who is eligible to apply, or has applied, for Legalization or SAW status under the provisions of section 245A or 210 of the Immigration and Nationality Act (the Act), unless the Service has denied, or issued notice of intent to deny, the benefit for which the alien has applied.

This has effectively prevented the Service from placing detainers against aliens who are prima facie ineligible for Legalization or S. AW status under the above-stated sections of the Act. Section 242(a)(2) of the Act mandates that any alien convicted of an aggravated felony as defined under section 101(a)(43) of the Act, be held without bond upon completion of his or her sentence pending deportation proceedings and removal from the United States. The Immigration Reform and Control Act (IRCA) prohibits the actual deportation of an applicant for Legalization or SAW status who has filed a prima facie or nonfrivolous application until a final determination has been made on the application. It does not prohibit the Service from placing a detainer on an applicant for Legalization or SAW status during the pendency of the application nor does it prohibit the commencement of deportation proceedings. A detainer does not effect an alien's deportation. The detainer is merely a notice to an alien's custodian that the Service is interested in assuming custody of the alien when he is released from his incarceration. Thus, placing a statement against an incarcerated SAW or Legalization applicant does not violate the stay of the alien's deportation.

The Attorney General is not to deport incarcerated aliens until they have completed their sentences in accordance with section 242(h) of the Act. He must, however, begin proceedings against an alien deportable because of a criminal conviction "as expeditiously as possible" as required by section 242(i). Placing detainers against aliens helps effectuate section 241(i) by making it reasonably likely that the Service will be notified of an alien's imminent release. Early notice will permit the Service to begin proceedings immediately upon the alien's release. With this amendment to the regulations, the Service will not be restricted from placing a detainer against an alien who has applied for Legalization or SAW status. Aliens who are criminals generally will be taken into Service custody to face exclusion or deportation from the United States rather than be allowed back into the community after release from a correctional institution. Aggravated felons as defined by section 101(a)(43) of the Act, will be taken in custody and held without bond as required by section 242(a)(2) of the Act.

In accordance with 5 U.S.C. 605(b), the Commissioner certifies that this rule will not have a significant economic impact on a substantial number of small entities. This is not a major rule within the meaning of section 1(b) of E.O. 12291, nor does this rule have federalism implications warranting the preparation of a Federal Assessment in accordance with E.O. 12612.

The Immigration and Naturalization Service is invoking the "good cause" exception to the notice of proposed rulemaking requirement of 5 U.S.C. 553(b). The justification for waiving notice of proposed rulemaking is as follows: Notice of this rule and relevant public procedure would be contrary to the public interest and the intent of the statute. This rule is necessary in order to ensure that aliens who are subject to exclusion or deportation from the United States are released from correctional institutions to the custody of the Service. Some of these aliens are "aggravated felons" as defined in section 101(a)(43) of the Act and in accordance with section 242(a), must be held by the Service in custody without bond. The changes are designed to ensure the integrity of the expulsion process and protect the public interest and safety. Therefore, the Service believes the public interest is served by invoking the "good cause" exception to the notice of proposed rulemaking and the 30-day effective date requirements of 5 U.S.C. 553 (b) and (d), and by implementing this rule effective with a 30-day comment period.

List of Subjects

8 CFR Part 242

Administrative practice and procedure, Aliens, Apprehension, custody, and detention, Crime.

8 CFR Part 287

Administrative practice and procedure, Aliens, Apprehension, custody, and detention, Crime.

Accordingly, chapter I of title 8 of the Code of Federal Regulations is amended as follows:

PART 242—PROCEEDINGS TO DETERMINE DEPORTABILITY OF ALIENS IN THE UNITED STATES: APPREHENSION, CUSTODY, HEARING, AND APPEAL

1. The authority citation for part 242 is revised to read as follows:

Authority: 8 U.S.C. 1103, 1182, 1186a, 1251, 1252, 1254, 1362; 8 CFR part 2.

2. In § 242.2, paragraph (a)(1) is revised to read as follows:

§ 242.2 Apprehension, custody and detention.

(a) *Detainers in general.* (1) Only an immigration officer as defined in section 101(a)(18) of the Act, or § 103.1(q) of this chapter is authorized to issue a detainer. Detainers may be issued only in the case of an alien who is amenable to exclusion or deportation proceedings under any provision of law.

* * * * *

PART 287—FIELD OFFICERS; POWERS AND DUTIES

3. The authority citation for part 287 continues to read as follows:

Authority: 8 U.S.C. 1103, 1182, 1225, 1226, 1251, 1252, 1357; 8 CFR part 2.

4. In § 287.7, paragraph (a)(1) is revised to read as follows:

§ 287.7 Detainer provisions under section 287(d)(3) of the Act.

(a) *Detainers in general.* (1) Only an immigration officer as defined in section 101(a)(18) of the Act, or § 103.1(q) of this chapter is authorized to issue a detainer. Detainers may be issued only in the case of an alien who is amenable to exclusion or deportation proceedings under any provision of law.

BILLING CODE 4410-10-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 520

Oral Dosage Form New Animal Drugs Not Subject To Certification; Enrofloxacin Tablets

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations to reflect approval of a supplemental new animal drug application (NADA) filed by Mobay Corp., Animal Health Division. The supplemental NADA provides for the use of enrofloxacin tablets for the treatment of dermal infections in cats caused by susceptible bacterial pathogens.

EFFECTIVE DATE: October 29, 1990.

FOR FURTHER INFORMATION CONTACT: Sandra K. Woods, Center for Veterinary Medicine (HFV-114), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-3420.

SUPPLEMENTARY INFORMATION: Mobay Corp., Animal Health Division, P.O. Box 390, Shawnee Mission, KS 66201, is the sponsor of NADA 140-441 which currently provides for the use of Baytril® (enrofloxacin) Tablets to treat susceptible bacterial dermal, respiratory, and urinary tract infections in dogs. The supplement provides for the use of the enrofloxacin tablets in cats for the treatment of dermal infections caused by susceptible strains of *Pasteurella multocida, Staphylococcus aureus*, and *Staphylococcus epidermidis*. The supplement is approved as of October 22, 1990, and the regulations are amended in § 520.812(c) to reflect the approval. The basis for approval is discussed in the freedom of information summary.

As provided under the Generic Animal Drug and Patent Term Restoration Act of 1988 and section 512(c)(2)(F)(iii) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360b(c)(2)(F)(iii)), this supplemental approval qualifies for 3 years of marketing exclusivity beginning October 22, 1990, because a new clinical investigation was required.

In accordance with the freedom of information provisions of part 20 (21 CFR part 20) and § 514.11(e)(2)(ii) [21 CFR 514.11(e)(2)(ii)), a summary of safety and effectiveness data and information submitted to support approval of this application may be seen in the Dockets Management Branch (HFA-305), Food and Drug Administration, rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857, from 9 a.m. to 4 p.m., Monday through Friday.

The agency has carefully considered the potential environmental effects of this action. FDA has concluded that the action will not have a significant impact on the human environment, and that an environmental impact statement is not required. The agency's finding of no significant impact and the evidence supporting that finding, contained in an environmental assessment, may be seen in the Dockets Management Branch (address above) between 9 a.m. and 4 p.m., Monday through Friday.

List of Subjects in 21 CFR Part 520

Animal drugs.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs and redelegated to the Center for Veterinary Medicine, 21 CFR part 520 is amended as follows:

PART 520—ORAL DOSAGE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

1. The authority citation for 21 CFR part 520 continues to read as follows:

Authority: Sec. 512 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360b).

2. Section 520.812 *Enrofloxacin tablets* is amended by redesignating paragraph (c)(2) as paragraph (c)(2)(i), by adding a new paragraph (c)(2)(ii), and by revising paragraph (c)(3) to read as follows:

§ 520.812 Enrofloxacin tablets.

* * * * *

(c) * * *

(2) * * *

(ii) Cats for treatment of the following bacterial infections: dermal infections (wounds and abscesses) caused by susceptible strains of *Pasteurella multocida, Staphylococcus aureus*, and *Staphylococcus epidermidis*.

(3) *Limitations.* Treatment should be continued for 2 to 3 days beyond cessation of clinical symptoms. Do not use for more than 10 days. Safe use in breeding female cats has not been established. Federal law restricts this drug to use by or on the order of a licensed veterinarian.

Dated: October 19, 1990.

Richard H. Teske,

Deputy Director, Center for Veterinary Medicine.

21 CFR Part 558

New Animal Drugs for Use in Animal Feeds; Monensin

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration is amending the animal drug regulations to reflect approval of a supplemental new animal drug application (NADA) filed by Elanco

Products Co. The supplemental NADA provides for the use of monensin in feedlot cattle for the prevention of coccidiosis caused by *Eimeria bovis* and *E. zuernii*.

EFFECTIVE DATE: October 29, 1990.

FOR FURTHER INFORMATION CONTACT: Dianne T. McRae, Center for Veterinary Medicine (HFV–135), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–6713.

SUPPLEMENTARY INFORMATION: Elanco Products Co., a Division of Eli Lilly & Co., Lilly Corporate Center, Indianapolis, IN 46285, filed supplemental NADA 95–725 which provides for the use of a Type A medicated article containing 90 grams (g) of monensin per pound to manufacture a Type C medicated feed containing between 10 and 20 g of monensin per ton. Depending upon body weight, this medicated feed is intended to provide not less than 100 nor more than 360 milligrams of monensin per day per head of feedlot cattle, for the prevention and control of coccidiosis due to *Eimeria bovis* and *E. zuernii*. It is intended to be fed continuously during periods of exposure to coccidia or when coccidiosis is likely to be a hazard.

The supplemental NADA is approved as of October 22, 1990, and 21 CFR 558.355(f)(3) is amended to reflect the approval. The basis for approval is discussed in the freedom of information summary. Under section 512(c)(2)(F)(iii) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360b(c)(2)(F)(iii)), this supplemental approval qualifies for 3 years of exclusive marketing privilege beginning October 22, 1990, because the sponsor submitted new clinical trials to support the approval.

In accordance with the freedom of information provisions of part 20 (21 CFR part 20) and § 514.11(e)(2)(ii) (21 CFR 514.11(e)(2)(ii)), a summary of safety and effectiveness data and information submitted to support approval of this application may be seen in the Dockets Management Branch (HFA–305), Food and Drug Administration, rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857, from 9 a.m. to 4 p.m., Monday through Friday.

The agency has carefully considered the potential environmental effects of this action. FDA has concluded that the action will not have a significant impact on the human environment, and that an environmental impact statement is not required. The agency's finding of no significant impact and the evidence supporting that finding, contained in an environmental assessment, may be seen in the Dockets Management Branch (address above) between 9 a.m. and 4 p.m., Monday through Friday.

List of Subjects in 21 CFR Part 558

Animal drugs, Animal feeds.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs and redelegated to the Center for Veterinary Medicine 21 CFR part 558 is amended as follows:

PART 558—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

1. The authority citation for 21 CFR part 558 continues to read as follows:

Authority: Secs. 512, 701 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360b, 371).

§ 558.355 [Amended]

2. Section 558.355 is amended by adding paragraph (f)(3)(vii) to read as follows:

§ 558.355 Monensin.

* * * * *

(f) * * *

(3) * * *

(vii) *Amount per ton.* Monensin, 10 to 30 grams.

(*a*) *Indications for use.* For the prevention and control of coccidiosis caused by *Eimeria bovis* and *E. zuernii*.

(*b*) *Limitations.* Feed continuously to feedlot cattle during periods of exposure to coccidia or when coccidiosis is likely to be a hazard. Feed at the rate of not less than 100 nor more than 360 milligrams of monensin per head per day depending on the body weight of the cattle.

BILLING CODE 4160-01-M

INTERNATIONAL DEVELOPMENT COOPERATION AGENCY

Agency for International Development

22 CFR Part 212

Regulations Implementing the Freedom of Information Act

AGENCY: Agency for International Development (A.I.D.), International Development Cooperation Agency (IDCA).

ACTION: Final rule.

SUMMARY: The Agency for International Development is revising its Freedom of Information (FOIA) regulations in their entirety. The principal revisions are to: Implement the provisions of Executive Order 12600 dated June 23, 1987; delete the citizenship requirement in §§ 212.25 and 212.33; and change the "Appeals Officer" from the Administrator to the Assistant Administrator, Bureau for External Affairs in § 212.2.

EFFECTIVE DATE: October 29, 1990.

FOR FURTHER INFORMATION CONTACT: James Harper, Director, Office of Public Inquiries Bureau for External Affairs, Agency for International Development, room 4889, Washington, DC, (202) 647–1850.

SUPPLEMENTARY INFORMATION: A.I.D. received no comments to the proposed rule published in the Federal Register on May 3, 1990 [55 FR 18620–26].

List of Subjects in 22 CFR Part 212

Freedom of information.

Dated: October, 25, 1990.

James L. Harper,

Director, Office of Public Inquiries.

22 CFR Part 212 is revised to read as follows:

PART 212—PUBLIC INFORMATION

Subpart A—General

Sec.

212.1 Statement of policy.

Subpart B—Publication in the Federal Register

212.11 Materials to be published.
212.12 Effect of nonpublication.
212.13 Incorporation by reference.

Subpart C—Availability of Information for Public Inspection and Copying

212.21 Public records.
212.22 Protection of personal privacy.
212.23 Current index.
212.24 Effect of noncompliance.
212.25 Procedures for obtaining materials under this subpart.

Subpart D—Access to Agency Records

212.31 Availability of Agency records.
212.32 Identification of records.
212.33 Procedure for making requests.
212.34 Procedure for responding to requests for records.
212.35 Schedule for fees and methods of payment for services rendered.
212.36 Denial of request for access to records.
212.37 Procedures for Agency consideration of appeals.
212.38 Predisclosure notification procedures for confidential commercial information.

Subpart E—Exemptions from Disclosure

212.41 Exemptions from the publication and disclosure requirements of Subparts B, C, and D of this part.
212.42 Exemption from 5 U.S.C. 552.

Subpart F—Opening of Records for Nonofficial Research Purposes

212.31 General policy.

Authority: 22 U.S.C. 2381; 5 U.S.C. 552; E.O. 12600 of June 23, 1987, 52 FR 23781, 3 CFR, 1987 Comp., p. 235.

Subpart A—General

§ 212.1 Statement of policy.

(a) It is the policy of the International Development Cooperation Agency (I.D.C.A.) and the Agency for International Development (A.I.D.) that information about its objectives and operations be freely available to the public in accordance with the provisions of Public Law 89-487 (80 Stat. 250), as amended by Public Law 93-502. The Assistant Administrator for External Affairs for A.I.D. and the Assistant Director, Office of Legislative and Public Affairs, for I.D.C.A. are responsible for administration of the provisions of the regulations of this part.

(b) All records of the International Development Cooperation Agency and the Agency for International Development shall be made available to the public upon compliance with the procedures established in this regulation except to the extent a determination is made to withhold a record exemptable under 5 U.S.C. 552(b), as amended. Such a determination shall be made pursuant to procedures set forth in §§ 212.36, 212.37 and 212.38.

(c) *Record* includes all books, papers, maps, photographs, or other documentary material, or copies thereof, regardless of physcial form or characteristics, made in or received by the International Development Cooperation Agency or the Agency for International Development (including its Missions abroad), and preserved as evidence of its organization, functions, policies, decisions, procedures, operations, or other activities. It does not include copies of the records of other Government agencies, foreign governments, international organizations, or non-governmental entities.

(d) *Agency* refers to either the International Development Cooperation Agency or the Agency for International Development..

(e) *Freedom of Information Officer* means the Assistant Director for Legislative and Public Affairs for I.D.C.A. and the Assistant Administrator for External Affairs for A.I.D. or his/her designee.

(f) *Appeals Officer* means the Assistant Administrator, Bureau for External Affairs as designated by the head of the Agency.

Subpart B—Publication in the Federal Register

§ 212.11 Materials to be published.

(a) The Agency separately states and currently publishes in the Federal Register for the guidance of the public:

(1) Descriptions of its central and field organizations and the established places at which, the officers from whom, and the methods whereby, the public may secure information, make submittals or requests, or obtain decisions;

(2) Statements of the general course and method by which its functions are channelled and determined, including the nature and requirements of all formal and informal procedures available;

(3) Rules of procedure, descriptions of forms available or the places at which forms may be obtained, and instructions as to the scope and contents of all papers, reports, or examinations;

(4) Substantive rules of general applicability adopted as authorized by law, and statements of general policy or interpretations of general applicability formulated and adopted by the Agency; and

(5) Every amendment, revision or repeal of the foregoing.

(b) A.I.D. Public Notice No. 1 and the A.I.D. Regulations published in chapter II of title 22 and in subtitle A, Chapter 7 of title 41 of the Code of Federal Regulations, implement the provisions of this section.

§ 212.12 Effect of nonpublication.

Except to the extent that a person has actual and timely notice of the terms thereof, no person shall in any manner be required to resort to, or be adversely affected by any, I.D.C.A. or A.I.D. matter required to be published in the Federal Register and not so published.

§ 212.13 Incorporation by reference.

For purposes of this subpart B, I.D.C.A. and A.I.D. matters which are reasonably available to the class of persons affected thereby is deemed to be published in the Federal Register when it has been incorporated by reference therein with the approval of the Director of the Federal Register.

Subpart C—Availability of Information for Public Inspection and Copying

§ 212.21 Public records.

In accordance with this subpart, I.D.C.A. and A.I.D. make the following information and materials available for public inspection and copying:

(a) All final opinions (including concurring and dissenting opinions), and all orders made in the adjudication of cases;

(b) Those statements of policy and interpretations which have been adopted by the Agency and are not published in the Federal Register; and

(c) Administrative staff manuals and instructions to staff that affect any member of the public.

§ 212.22 Protection of personal privacy.

To the extent required to prevent a clearly unwarranted invasion of personal privacy, the Agency may delete identifying details when it makes available or publishes an opinion, statement of policy, interpretation, or staff manual or instruction, and will, in each such case, explain in writing the justification for the deletion.

§ 212.23 Current index.

The Agency maintains and makes available for public inspection and copying a current index providing identifying information for the public as to any matter which is issued, adopted, or promulgated after July 4, 1967, and which is required by § 212.21 to be made available or published. Publication of an index is deemed both unnecessary and impractical. However, copies of the index are available upon request for a fee per § 212.35.

§ 212.24 Effect of noncompliance.

No final order, opinion, statement of policy, interpretation, or staff manual or instruction that affects any member of the public will be relied upon, used, or cited as precedent by the Agency against any private party unless it has been indexed and either made available or published as provided by this subpart, or unless that private party shall have actual and timely notice of the terms thereof.

§ 212.25 Procedures for obtaining materials under this subpart.

(a) The materials required to be made available for public inspection and copying in accordance with this subpart are available to members of the public at the International Development Cooperation Agency and the Agency for International Development, Department of State Building, 21st and Virginia Ave., NW., Washington, DC (20523) from 8 a.m. to 5 p.m., Monday through Friday, except on weekends and holidays.

(b) Requests for materials which are available under this subpart should follow the procedures under subpart D.

(c) The costs of any necessary duplication will be charged in accordance with the fee schedule set forth in § 212.35.

(d) The USAID Missions in countries abroad are not responsible for the maintenance of the index and materials available under this subpart. However, in so far as they do have these materials, they will make them available upon application either in person or writing to the Director, USAID c/o American Embassy in the applicable country.

Subpart D—Access to Agency Records

§ 212.31 Availability of Agency records.

Upon receiving a request for a record, which reasonably describes such a record, and which is made in accordance with the provisions of this subpart, the Agency will make such records promptly available to any person, except the following:

(a) Matters published in the Federal Register pursuant to Subpart B of this part;

(b) Matters made available to the public pursuant to Subpart C of this part; and

(c) Matters exempt from disclosure pursuant to § 212.41 and § 212.42.

§ 212.32 Identification of records.

The request for a record by a member of the public must contain a reasonable description of the record sought so that an officer of the Agency who is familiar with the subject may be able to locate the record with a reasonable amount of effort. A description that includes as much information as possible, such as the subject matter, format, approximate date, and where pertinent, the name of the country or person involved, will facilitate the search for the requested record.

§ 212.33 Procedure for making requests.

(a) Requests for reasonably described records may be made by a member of the public either in person or by writing to the Assistant Director For Legislative and Public Affairs, International Development Cooperation Agency, Washington, DC 20523 and the Director, Office of Public Inquiries, Agency for International Development, Washington, DC 20523. The request and the envelope should be plainly marked "FOIA Request". Requests may be made in person by going to the International Development Cooperation Agency and the Agency for International Development, Department of State Building, 21st and Virginia Ave., NW., Washington, DC from 9 a.m. to 5 p.m. Monday through Friday, except on weekends and holidays. Telephonic requests cannot be accepted.

(b) Requests for reasonably described records may be made directly to USAID missions abroad in person or in writing to the Director, USAID, care of the American Embassy in the applicable country. Any written request and its envelope should be plainly marked "FOIA Request".

(c) If a request not properly marked "FOIA Request" is inadvertently delayed in reaching the Freedom of Information Officer, or is erroneously sent to a USAID mission abroad, it will not be deemed received by the Agency until actually received by the Freedom of Information Officer. In such event, the person making the request will be furnished a notice of the effective date of receipt.

§ 212.34 Procedure for responding to a request for records.

(a) Upon receipt of the request by the Freedom of Information Officer, a maximum of 10 working days will normally be taken to determine to what extent the Agency can provide the information requested, and upon the making of the determination, the person making the request will be immediately informed. Copies of the releasable documents shall be made available promptly thereafter upon receipt of appropriate fees as set forth in § 212.35.

(b) In some circumstances, the Agency may not be able to determine the availability of the requested documents within 10 working days. In which event, the person making the request will be informed by written notice of the delay, the reasons for the delay and the date on which a determination may be expected. The maximum time in making a determination of availability will be 20 working days from receipt of the request. A time extension for unusual circumstance will be used as reasonably necessary for a particular request in the following instances:

(1) When there is a need to search for and collect the requested records from field facilities or other establishments that are separate from the office processing the request;

(2) When there is a need to search for, collect, and appropriately examine a voluminous amount of separate and distinct records which are demanded in a single request; or

(3) When there is a need for consultation, which shall be conducted with all practicable speed, with another agency having a substantial interest in the determination of the request or among two or more components of the agency having substantial subject matter interest therein.

(c) If a request is made to this Agency for material that is controlled or held by another agency, the person making the request will be immediately notified that this Agency does not have or control the requested material and he/she will be advised of the controlling agency and the address from which the material may be requested, unless the other agency has, by public regulation, delegated the release authority to this Agency. If release authority has been delegated, this Agency will follow the procedures authorized by the delegation in determining whether to release the information. If a request for material is referred to this Agency from another agency, the time period for determination will not start until the request is received by the Freedom of Information Officer. The person making the request will be immediately notified of the referral and the date the request was received in this Agency. This Agency will not accept referral of requests unless and until the Freedom of Information Officer determines that the material requested is actually within the scope and control of the release authority of the Agency for International Development or the International Development Cooperation Agency.

(d) If only a part of a record is exempt from disclosure, any reasonably segregable portion of such record shall be furnished after deletion of the portions which are exempt, provided that the segregable portion constitutes an intelligible record which is not distorted out of context or contradictory to the substance of the entire record before segregation.

§ 212.35 Schedule of fees and methods of payment for services rendered.

(a) *Definitions.* (1) *Direct costs* means those expenditures which the Agency actually incurs in searching for and duplicating (and in the case of commercial requesters, reviewing) documents to respond to a FOIA request.

(2) *Search* includes all time spent looking for material that is responsive to a request, including page-by-page or line-by-line identification of material within documents. Line-by-line search will not be done when duplicating an entire document would prove the less expensive and quicker method of complying with a request. "Search" is distinguished from "review" (see paragraph (a)(4) of this section).

(3) *Duplication* refers to the process of making a copy of a document available to the FOIA requester. Copies can take a form of paper copy, microfilm, audio-visual materials among others and will be in a form that is reasonably usable by requesters.

(4) *Review* refers to the process of examining documents located in response to a commercial use request (see paragraph (a)(5) of this section) to determine whether any portion of any document located is permitted to be withheld. It also includes processing any documents for disclosure, *e.g.* doing all that is necessary to excise them and otherwise prepare them for release. Review does not include time spent resolving general legal or policy issues regarding the application of exemptions.

(5) *Commercial use request* refers to a request from or on behalf of one who seeks information for a use or purpose that is related to commerce, trade, or profit interest of the requester or the person on whose behalf the request is made. In determining whether a requester properly belongs in this category, the Agency will determine the use to which a requester will put the documents requested. Where the Agency has reasonable cause to doubt the use to which a requester will put the records sought, or where that use is not clear from the request itself, the Agency may seek additional clarification before assigning the request to a specific category.

(6) *Educational institution* refers to a preschool, a public or private elementary or secondary school, an institution of graduate higher education, an institution of undergraduate higher education, an institution of professional education, and an institution of vocational education, which operates a program or programs of scholarly research.

(7) *Non-commercial scientific institution* refers to an institution that is not operated on a "commercial" basis as that term is referenced in paragraph (a)(5) of this section and which is operated solely for the purpose of conducting scientific research the results of which are not intended to promote any particular product or industry.

(8) *Representative of the news media* refers to any person actively gathering news for an entity that is organized and operated to publish or broadcast news to the public. The term "news" means information that is about current events or that would be of current interest to the public. Examples of news media entities include television or radio stations broadcasting to the public at large, and publishers of periodicals (but only in those instances when they can qualify as disseminator of "news" who make their products available for purchase or subscription by the general public). These examples are not intended to be all-inclusive. Moreover, as traditional methods of news delivery evolve (e.g. electronic dissemination of newspapers through telecommunications services), such alternative media would be included in this category. In the case of "freelance" journalists, they may be regarded as working for a news organization if they can demonstrate a solid basis for expecting publication through that organization, even though not actually employed by it. A publication contract would be the clearest proof, but the Agency may also look to the past publication record of the requester in making this determination.

(b) *Fees to be charged.* The following specific fees shall be applicable with respect for services rendered as outlined below:

(1) *Commercial use requesters.* Fees will cover the full direct costs of searching for, reviewing for release, and duplicating the records requested. Search costs are $11.00 per hour. Review costs are $24.00 per hour. Duplicating costs are 20¢ per page. Search costs will be assessed even though no records may be found or, after review, there is no disclosure of records.

(2) *Educational and non-commercial scientific institution requester.* The Agency will provide documents to requesters in this category for the cost of duplication alone (20¢ per page), excluding charges for the first 100 pages. To be eligible for inclusion in this category, requesters must show that a request is being made under the auspices of a qualifying institution and that the records are sought in furtherance of scholarly (if the request is from an educational institution) or scientific (a non-commercial scientific institution) research. Requesters eligible for free search must reasonably describe the records sought.

(3) *Requesters who are representatives of the news media.* The Agency will provide documents to requesters in this category for the cost of reproduction alone (20¢ per page) excluding charges for the first 100 pages. To be eligible for inclusion in this category a requester must meet the criteria in paragraph (a)(8) of this section, and his or her request must not be made for commercial use. In reference to this class of requesters, a request for records supporting the news dissemination function of the requester shall not be considered to be a request that is for a commercial use. Requesters eligible for free search must reasonably describe the records sought.

(4) *All other requesters.* The Agency will charge requesters who do not fit into any of the categories in paragraphs (b) (1), (2), and (3) of this section fees which recover the full direct cost of search, and for reproducing records that are responsive to the request, except that the first 100 pages and the first two hours of search time shall be furnished without charge. The hourly rates outlined in paragraph (b)(1) of this section will prevail. Requesters must reasonably describe the records sought. Moreover, requests from subjects for records filed in the Agency's Privacy Act System of Records will continue to be treated under the fee provisions of the Privacy Act of 1975 except that the 100 pages of reproduction will be furnished without charge.

(c) *Non Payment of fees.* (1) The Agency will begin assessing interest charges on the 31st day following the day in which the requester is advised of the fee charged. Interest will be at the rate prescribed in 31 U.S.C. 3717.

(2) Where a requester has previously failed to pay a fee charged in a timely fashion (i.e. within 30 days of the billing date), the Agency will require the requester to pay the full amount owed plus any applicable interest as provided above, and to make an advance payment of the full amount of the estimated fee before the Agency begins to process a new request or a pending request from the requester.

(3) When the Agency acts under paragraph (c) (1) or (2) of this section the administrative time limits prescribed in subsection (a)(6) of the FOIA (i.e., 10 working days from receipt of initial request and 20 working days from receipt of appeals from initial denial plus permissible extentions of these time limits) will begin only after the Agency has received fee payments described above.

(d) *Advance payments.* Where the Agency estimates or determines that allowable charges that a requester may be required to pay are likely to exceed $250.00 the Agency will require a requester to make an advance payment of the entire fee before continuing to process the request.

(e) *Waiving or reducing fee.* In accordance with section (4)(A)(ii) of the FOIA the Agency will furnish documents without charge or at reduced charges if disclosure of the information is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the Government and is not primarily in the commercial interest of the requester.

(f) *Restrictions on assessing fees.* With the exception of requesters seeking documents for a commercial use, section (4)(A)(iv) of the FOIA, as amended, requires agencies to provide the first 100 pages of duplication and the first two hours of search time without charge.

BEST COPY AVAILABLE

Moreover, this section prohibits agencies from charging fees to any requester, including commercial use requesters, if the cost of collecting a fee would be equal to or greater than the fee itself. These provisions work together so that, except for commercial use requesters, the Agency will not begin to assess fees until after providing the free search and reproduction. For example, for a request that involved two hours and ten minutes of search time and resulted in 105 pages of documents, the Agency will determine the cost of only 10 minutes of search time and only five pages of reproduction. If this cost is equal to or less than the cost of processing the payment instrument (currently $15.00), there will be no charge to the requester.

(g) *Other provisions*—(1) *Charges for unsuccessful search.* The Agency will assess charges for time spent searching, even if the Agency fails to locate the records or if records located are determined to be exempt from disclosure.

(2) *Aggregating requesters.* When the Agency reasonably believes that a requester or group of requesters is attempting to break a request down into a series of requests for the purpose of evading the assessment of fees, the Agency will aggregate any such requests and charge accordingly.

(3) *Effect of the Debt Collection Act of 1982 (Pub. L. 97-365).* The Agency will use the authorities of the Debt Collection Act, including disclosure to consumer reporting agencies and use of collection agencies, where appropriate, to encourage repayment.

(4) *Remittances.* (i) Remittances will be in the form of either a personal check or bank draft drawn on a bank in the United States, a money order, or cash.

(ii) Remittances shall be made payable to the order of the U.S. Treasurer and mailed to the Director, Office of Public Inquiries, Bureau for External Affairs, Agency for International Development, Washington, DC 20523. The Agency will assume no responsibility for cash which is lost in the mail.

(iii) A receipt for fees paid will be given only upon request.

(iv) Where it is anticipated that the fees chargeable under this section will amount to more than $25.00, and the requester has not indicated in advance a willingness to pay fees as high as are anticipated, the requester will be promptly notified of the amount of the anticipated fee or such portion thereof as can readily be estimated. In appropriate cases an advance deposit may be required. The requester is at any time welcome to confer with knowledgeable Agency personnel in an attempt to formulate the request in a manner which will reduce the fee and meet the needs of the requester.

(v) When no specific fee has been established for a service, for example, when the search involves computer time or special travel, transportation or communications costs, the FOI Officer or his/her designee is authorized to determine the direct costs of the service and include such costs in the fees chargeable under this section.

§ 212.36 Denial of request for access to records.

(a) If it is determined that the Agency cannot comply with all or part of a request for records, the person making the request shall be immediately notified of the determination, the reasons for the determination, the name and title of each officer responsible for the denial, and the right of the person to appeal the adverse determination.

(b) The denial of a request for records may be made only by the Freedom of Information Officer or his or her designee. The Office of the General Counsel may be consulted by the Office of Public Inquiries prior to a decision to deny access.

(c) Any person who has been denied access to records pursuant to this section may appeal the adverse decision not later than 60 days after the date of the notification of denial or, in the case of a partial denial, after the date the releasable documents are actually furnished the person making the request, whichever is later. The appeal should be in writing addressed to (for I.D.C.A.) Director or Deputy Director, International Development Cooperation Agency, or (for A.I.D.) the Appeals Officer, Agency for International Development, 21st and Virginia Ave., NW., Washington, DC 20523. In order to make a timely response to the appeal, both the appeal and the envelope should be plainly marked "FOIA Appeal". The appeal should contain a reasonable description of the record sought and withheld, a copy of the initial decision to deny access and any other information that will enable the Appeals Officer to make the final decision.

§ 212.37 Procedure for Agency consideration of appeals.

(a) Upon receipt of the appeal by the Appeals Officer, a maximum of 20 working days will normally be taken to decide the appeal. In unusual circumstances, as defined in § 212.34, the 20 working days may be extended by 10 working days.

(b) If the appeal is granted, the person making the appeal shall be immediately notified and copies of releasable documents shall be made available promptly thereafter upon receipt of appropriate fees as set forth in § 212.35. If the appeal is denied in whole or part, the person making the appeal shall be immediately notified of the decision and the provisions for judicial review of the Agency's denial.

(c) In the event a determination is not issued within the appropriate time limit and the person making the appeal chooses to sue the Agency, the determination process shall continue and the Appeals Officer will review any initial denial of the requested records.

(d) If appeals not properly marked "FOIA Appeal" on the appeal and envelope are inadvertently delayed in reaching the Appeals Officer, they will not be deemed received by the Agency until actually received by the Appeals Officer. In such event, the person making the appeal will be furnished a notice of the effective date of receipt.

§ 212.38 Predisclosure notification procedures for confidential commercial information.

(a) *In General.* Confidential commercial information provided to the Agency shall not be disclosed pursuant to a Freedom of Information Act request except in accordance with this section. For purposes of this section, the following definitions apply:

(1) *Confidential Commercial Information* means records provided to the Agency by a submitter that arguably contain material exempt from release under Exemption 4 of the Freedom of Information Act, 5 U.S.C. 552(b)(4), because disclosure could reasonably be expected to cause substantial competitive harm.

(2) *Submitter* means any person or entity who provides confidential commercial information to the Agency. The term "submitter" includes, but is not limited to, corporations, state governments and foreign governments.

(b) *Notice to submitters.* Whenever the Agency receives a Freedom of Information Act request for confidential commercial information and, pursuant to paragraph (c) of this section, the submitter is entitled to receive notice of that request. The Agency shall promptly notify the submitter that it has received the request, unless such a notice is excused under paragraph (g) of this section. The notice shall be in writing and either describe the exact nature of the confidential commercial information requested or provide a copy of the records or portion of the records containing the confidential commercial information. The notice shall be

BEST COPY AVAILABLE

addressed to the submitter and mailed, postage prepaid, first class mail, to the submitter's last known address. Where notice is required to be given to a voluminous number of submitters, in lieu of mailing, the notice may be posted or published in a manner and place reasonably calculated to provide notice to the submitters.

(c) *When notice is required.* (1) For confidential commercial information submitted prior to January 1, 1988, the Agency shall provide a submitter with notice of a receipt of a Freedom of Information Act request whenever:

(i) The records are less than ten [10] years old and the information has been designated by the submitter as confidential commercial information; or

(ii) The Agency has reason to believe that the disclosure of the information could reasonably be expected to cause substantial competitive harm.

(2) For confidential commercial information submitted to the Agency on or after January 1, 1988, the Agency shall provide a submitter with notice of receipt of a Freedom of Information Act request whenever:

(i) The submitter has designated the information as confidential commercial information pursuant to the requirements of this section; or

(ii) The Agency has reason to believe that the disclosure of the information could reasonably be expected to cause substantial competitive harm.

(3) Notice of a request for confidential commercial information falling within paragraph (c)(2)(i) of this section shall be required for a period of not more than ten [10] years after the date of submission unless the submitter provides reasonable justification for a designation period of greater duration.

(4) A submitter shall use good-faith efforts to designate by appropriate markings, either at the time a record is submitted to the Agency or within a reasonable period of time thereafter, those portions of the record which it deems to contain confidential commercial information. The designation shall be accompanied by a certification made by the submitter, its agent or designee, that to the best of the submitter's knowledge, information and belief, the record does, in fact, contain confidential commercial information that theretofore has not been disclosed to the public.

(5) Whenever the Agency provides notice to the submitter in accordance with paragraph (c) of this section, the Agency shall at the same time provide written notice to the requester that it is affording the submitter a reasonable period of time within which to object to the disclosure, and that, therefore, the Agency may be required to enlarge the time within which it otherwise would respond to the request.

(d) *Opportunity to object to disclosure.* To the extent permitted by law, the notice required by paragraph (c) of this section shall afford a submitter a reasonable period of time within which the submitter or its authorized representative may provide the Agency with a written objection to the disclosure of the confidential commercial information and demonstrate why the submitter believes that the records contain confidential commercial information. Except where a certification already had been made in conformance with the requirements of paragraph (c)(4) of this section, the objection shall be accompanied by certification made by the submitter, its agent or designee, that to the best of the submitter's knowledge, information and belief, the record does, in fact, contain confidential commercial information that theretofore has not been disclosed to the public. Information provided by a submitter pursuant to this paragraph may itself be subject to disclosure under the Freedom of Information Act.

(e) *Notice of intent to disclose.* (1) The Agency shall give careful consideration to objections made by a submitter pursuant to paragraph (d) of this section prior to making any administrative determination of the issue. Whenever the Agency decides to disclose information over the objeciton of a submitter, the Agency shall forward to the submitter a written notice which shall include:

(i) A statement of the reasons for which a submitter's disclosure objections were not sustained;

(ii) A description of the information to be disclosed; and

(iii) A specified disclosure date.

(2) To the extent permitted by law, the notice required to be given by paragraph (e)(1) of this section shall be provided to the submitter a reasonable number of days prior to the specified disclosure date.

(3) Whenever the Agency provides notice to the submitter in accordance with paragraphs (e) (1) and (2) of this section, the Agency shall at the same time notify the requester that such notice has been given and the proposed date for disclosure.

(f) *Notice of lawsuit.* Whenever a requester brings suit seeking to compel the disclosure of information for which notice is required pursuant to paragraph (c) of this section, the Agency shall promptly notify the submitter that such suit has been filed.

(g) *Exceptions to notice requirements.* The notice requirements of this section shall not apply if:

(1) The Agency determines that the information should not be disclosed;

(2) The information has been published or has been officially made available to the public;

(3) Disclosure of the information is required by a Agency rule that;

(i) Was adopted pursuant to notice and public comment;

(ii) Specifies narrow classes of records submitted to the agency that are to be released under the Freedom of Information Act; and

(iii) Provides in exceptional circumstances for notice when the submitter provides written justification, at the time the information is submitted or a reasonable time thereafter, that disclosure of the information could reasonably be expected to cause substantial competitive harm;

(5) The information requested was not designated by the submitter as exempt from disclosure in accordance with paragraph (c) of this section, when the submitter had an opportunity to do so at the time of submission of the information or a reasonable time thereafter, unless the Agency has substantial reason to believe that disclosure of the information would result in competitive harm; or

(6) The designation made by the submitter in accordance with paragraph (c) of this section appears obviously frivolous; except that, in such case, the Agency must provide the submitter with written notice of any final administrative disclosure determination within a reasonable number of days prior to the specified disclosure date.

Subpart E—Exemptions From Disclosure

§ 212.41 Exemptions from the publication and disclosure requirements of subparts B, C, and D.

None of the provisions of subparts B, C, and D which provide for publication and disclosure of certain information and records shall be applicable to matters that are:

(a)(1) Specifically authorized under criteria established by an Executive Order to be kept secret in the interest of national defense or foreign policy and

(2) Are in fact properly classified pursuant to such Executive Order;

(b) Related solely to the internal personnel rules and practices of the Agency;

(c) Specifically exempted from disclosure by statute;

(d) Trade secrets and commercial or financial information obtained from a person and privileged and confidential;

(e) Interagency or intra-agency memorandums or letters which would not be available by law to a party other than an agency in litigation with the agency;

(f) Personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy;

(g) Records or information compiled for law enforcement purposes, but only to the extent that the production of such law enforcement records or information:

(1) Could reasonably be expected to interfere with enforcement proceedings;

(2) Would deprive a person of a right to a fair trial or an impartial adjudication;

(3) Could reasonably be expected to constitute an unwarranted invasion of personal privacy;

(4) Could reasonably be expected to disclose the identity of a confidential source, including a State, local or foreign agency or authority or any private institution which furnished information on a confidential basis, and, in the case of a record or information compiled by a criminal law enforcement authority in the course of a criminal investigation, or by an agency conducting a lawful security intelligence investigation, information furnished by a confidential source;

(5) Would disclose techniques and procedure for law enforcement investigations or prosecutions if such disclosure could reasonably be expected to risk circumvention of the law; or

(6) Could reasonably be expected to endanger the life or physical safety of any individual.

(h) Contained in or related to examination, operating, or condition reports prepared by, on behalf of, or for the use of any agency responsible for the regulation or supervision of financial institutions; and

(i) Geological and geophysical information and data (including maps) concerning wells.

§ 212.43 Exemption from 5 U.S.C. 552.

Whenever a request is made which involves access to records described in paragraph (g) of § 212.41 and the investigation or proceeding involves a possible violation of criminal law; and there is reason to believe that the subject of the investigation or proceeding is not aware of its pendency, and disclosure of the existence of the records could reasonably be expected to interfere with enforcement proceedings, the Agency may, during only such time as that circumstance continues, treat the records as not subject to the requirements of 5 U.S.C. 552 and this subpart.

Subpart F—Opening of Records for Nonofficial Research Purposes

§ 212.51 General policy.

(a) A.I.D. and I.D.C.A. will open their records on an equitable basis to all individuals engaged in private research as soon as such action may be taken without adversely affecting the national security, the maintenance of friendly relations with other nations, the efficient operation of the agency, and the administrative feasibility of servicing requests for access to such records.

(b) Access for research in the classified foreign policy records in I.D.C.A.'s or A.I.D.'s custody will be governed by the regulations of the Department of State in respect thereto, as set forth in part 171, chapter I of title 22 of the Code of Federal Regulations. Application will be made to the Freedom of Information Officer at the addresses listed in § 212.33(a). The Freedom of Information Officer, in consultation with the Director, Historical Office, Department of State, will determine the action to be taken and advise the researcher.

Dated: October 18, 1990.

James Harper,

Director, Office of Public Inquiries.

BILLING CODE 8116-01-M

DEPARTMENT OF DEFENSE

Office of the Secretary

32 CFR Part 199

[DoD 6010.8-R]

Civilian Health and Medical Program of the Uniformed Services (CHAMPUS); Multiple Updates to DoD 6010.8-R

AGENCY: Office of the Secretary, DoD.

ACTION: Final rule.

SUMMARY: This final rule incorporates multiple revisions to DoD 6010.8-R (32 CFR part 199) regarding CHAMPUS. Incorporation of these revisions updates the Regulation and clarifies Program guidelines.

EFFECTIVE DATE: This rule is effective October 29, 1990. That portion of the rule extending the dental contract for the Dependents Dental Plan to Guam is retroactively effective to August 1, 1990.

ADDRESSES: Office of the Civilian Health and Medical Program of the Uniformed Services (OCHAMPUS), Office of Program Development, Aurora, CO 80045-6900.

FOR FURTHER INFORMATION CONTACT: Rose Sabo, M.P.A., Health Care Policy Analyst, Office of Program Development, OCHAMPUS, telephone (301) 361-4014.

SUPPLEMENTARY INFORMATION: In FR Doc. 77-7694, appearing in the Federal Register on April 4, 1977 (42 FR 17872), the Office of the Secretary of Defense published its regulation, DoD 6010.8-R, "Implementation of the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS)," as part 199 of this title. 32 CFR part 199 (DoD 6010.8-R) was reissued in the Federal Register on July 1, 1988 (53 FR 26036).

I. Background

On February 28, 1990, we published a proposed rule offering the opportunity for public comment on the CHAMPUS proposal to make multiple revisions to the regulation for the purpose of clarifying, updating and incorporating previously omitted provisions. Primary changes in the proposal included:

• Incorporation of a definition for abortions and updating that section to reflect current legislative restrictions. This revision also incorporates into the Regulation the recommendation of the DoD Inspector General to require a signed certification by the attending physician that the abortion was performed because a life-endangering condition existed. The definition of abortion and the benefit language was formulated based on the legislative provision, following an extensive review of the legislative history on abortions. It was clear that Congress intended that federal funds be extended for abortions only in those cases where the mother's life was in danger. Language which would have permitted coverage of abortions for fetal deformities or for a mental or physical impairment of the mother was discussed but not adopted by Congress.

• Clarification that the exclusion for artificial insemination encompasses in-vitro fertilization and gamete intrafallopian transfer and all other noncoital reproductive technologies. With the recent technological advances in the area of infertility, other types of noncoital reproductive techniques have been developed such as in-vitro fertilization and gamete intrafallopian transfer. On numerous occasions, CHAMPUS has been asked to provide clear guidance on coverage policy for these new technologies. We have interpreted our current exclusion on artificial insemination to apply to these

new noncoital reproductive techniques since, as with artificial insemination, they do not treat or cure the patient's underlying condition. At the time the original exclusion of artificial insemination was published, it was the only noncoital reproductive technology in general use. This change is intended to clarify the original intent to exclude all such noncoital reproductive technologies and update the exclusion consistent with current medical technology.

• Elimination of undue financial hardship created by cost-sharing of emergency room charges on an outpatient basis when the beneficiary dies prior to formal admission. This change allows inpatient cost-sharing of emergency room charges in situations where emergency room services are provided by a hospital, and the intent was to admit the patient once stabilized, but death occurred before the patient was formally admitted. We are making this change to allow for inpatient cost-sharing by deleting the last sentence of the current definition of "inpatient."

• Inclusion of the geographical area of Guam within the Dependents Dental Plan. The geographical area is being expanded to include Guam so dependents stationed in that area can have access to the Dependents Dental Plan.

• Revisions identifying peer review organizations (PROs) as sources of initial denial determinations of CHAMPUS claims. These are corollary changes based on a previous amendment to the Regulation identifying PROs as sources of initial denial determinations of CHAMPUS claims.

• Expansion of the definition of "attending physician" to include other authorized individual professional providers. This will allow for other authorized individual professional providers such as podiatrists, clinical psychologists, oral surgeons, etc., to be treated as an attending physician, as long as the provider is operating within the confines of the scope of practice of that particular discipline.

• Expansion of the definition of "surgical assistant." This revision will allow a dentist or podiatrist to assist when the surgery is of sufficient complexity to warrant an assistant.

• Clarification that the requirement for preauthorization could apply to any or all mental health services. Currently the Regulation discusses preauthorization and the type of documentation required. Preauthorization is a decision issued by the Director, OCHAMPUS, or a designee, that CHAMPUS benefits are payable for certain services that a beneficiary has not yet received. This revision identifies mental health care as a type of care for which preauthorization could be required. It also removes the provision limiting the initial preauthorization to 30 days of inpatient care.

• Updating of several provisions to clarify that individual authorized professional providers can receive CHAMPUS reimbursement for providing certain services within the Regulation, as long as acting within the scope of their licensure. This revision will preclude denial of services when otherwise covered and ordered by an authorized provider acting within the scope of his or her particular discipline. For example, physical therapy when medically necessary and ordered by a podiatrist would be covered.

• Clarification of the CHAMPUS requirement that all providers be licensed or certified by the state or locality in which they practice. CHAMPUS has always required that all providers meet the licensing or certification provided in their particular locality. This requirement pertains in all cases even if the certification/licensure is offered on a voluntary basis by the state. The requirement also applies for those categories of providers that would otherwise be exempt by the state because the provider is working in a non-profit, state-owned or church setting. Licensure/certification is mandatory for a provider to become a CHAMPUS-authorized provider.

• Clarification that the exclusion for counseling services encompasses nutritional counseling, diabetic self-help counseling, diabetic self-education programs, stress management, life style modification, etc.

• Clarification that CHAMPUS does not cover self-help courses or items or charges related to exercising or relaxation, such as spas, whirlpools, hot tubs, swimming pools, and other such items. Even though these items may have some therapeutic value, they are not medical in nature and are not intended to be included within the scope of medical benefits of CHAMPUS.

• Clarification that a freestanding ambulatory surgical center is not authorized by CHAMPUS to provide childbirth services unless also authorized as a CHAMPUS-approved birthing center. Recently a question was raised as to whether an ambulatory surgery center authorized under the criteria contained in § 199.6(b)(4)(x)(B)(1) would have to also meet the criteria at 199.6(b)(4)(xi) as an authorized birthing center in order to provide non-emergency childbirth services. In order to avoid any uncertainty as to the intended role of the freestanding ambulatory surgery center and the birthing center institutional provider within the CHAMPUS benefit structure, a clarification has been added to the ambulatory surgery provider certification section. This provision explains that a childbirth procedure provided by a CHAMPUS-approved freestanding ambulatory surgical center shall not be cost-shared unless the surgical center is also a CHAMPUS-approved birthing center. It is the intent of the institutional provider certification provisions of the CHAMPUS regulation to limit institutional charges related to a childbirth procedure to the institutional provider hospital and birthing center categories. This limitation is consistent with the limited circumstances within which delivery as an ambulatory procedure is appropriate.

I. Clarifications

It has been our policy that whether licensure/certification is available on an optional or mandatory basis, that it be obtained by those who want to become a CHAMPUS authorized provider. As an example, if a state does not have specific licensure/certification for a marriage, family, or pastoral counselor or mental health counselor, but offers licensure under a general category such as a licensed professional counselor, CHAMPUS requires the provider obtain the licensure that the state offers. State licensure/certification is one of the limited means CHAMPUS has to determine whether a provider meets minimal professional standards. It allows for an official networking system for identifying providers that have been sanctioned by the state. It also adds protection to the beneficiary who may seek relief through a malpractice action. A recent report by the General Accounting Office (GAO) reiterated the importance of ensuring providers meet state-licensure standards.

This requirement exists even if the state exempts certain non-profit or other categories of providers (such as pastoral counselors). This exemption is generally intended to apply to ministers or clergymen of any religious denomination or sect when performing activities within the scope of the performance of their religious or specialized ministerial duties and no separate charge is made, or when performing, whether with or without charge, under the sponsorship of an established and legally cognizable church under which the person rendering the service remains accountable to its established authority. Pastoral settings appear to consist of work done for parishioners who belong

to a particular church as part of a pastor's duties and teaching of Biblical doctrine. For the purpose of submitting billings for psychotherapy, CHAMPUS has determined that all individuals in every provider category must be licensed/certified by the state when licensure/certification is available if the provider wants authorization under CHAMPUS. Not to require licensure/certification of pastoral counselors would be inconsistent with the policy of always requiring licensure/certification, and would create administrative entanglements for the CHAMPUS contractor which would be placed in a position of having to screen claims to see if the beneficiary was an active member of the parish for which the pastor was responsible.

In the case of marriage, family, pastoral and mental health counselors, as in the case of all other individual professional providers, state licensure is required, whether it's offered on a voluntary basis by the state or mandated by the state. Some states have licensure that is specific for designated counselor groups such as marriage and family counselors or mental health counselors. Other states offer licensure/certification for professional counselors in general. This latter category is a general, all-inclusive one, encompassing all areas of mental health counseling. When either general or specific licensure is offered, we require that the counselor obtain that licensure. It is within the province of the state legislative process as to whether it chooses to offer general or specific licensure. It is also up to the state to determine which providers it will consider under a given category of licensure. If a state is willing to provide licensure/certification (including for otherwise exempted categories of providers), CHAMPUS requires that licensure/certification be obtained as a prerequisite to CHAMPUS authorization.

As a result of reviewing our proposed rule and the comments it generated, it appears this requirement may not have been clearly stated for certain categories of providers. Specifically, language was modified in the regulation in 1988 stipulating that anyone in the counselor category was mandated to seek licensure/certification in any jurisdiction that provided for it, whether or not it was mandated by the state or offered on a voluntary basis. CHAMPUS will be revalidating counselors for the requirement of licensure and certification approximately one year from the date of this amendment. We are providing this grade period in order not to discriminate against those counselors for whom the policy was not clear and to avoid inadvert prejudice to anyone. As discussed above, the state exemption for pastoral counselors may have mislead this group into thinking licensure was not required. The same situation may have occurred with the other counselor categories where licensure was either not mandated by the state or was provided under a more general category of "professional counselors." The one-year grace period will provide counselors who are impacted by this clarification the opportunity to obtain state licensure/certification. Any counselor who is not licensed/certified in the state in which he/she is practicing by August 1, 1991, will be terminated under the provisions of Section 199.9 of this part. This opportunity for delayed certification/licensure for providers in the situations outlined above is limited to the counselor category and only to those counselors who are already CHAMPUS-certified as of the date this rule is published. The language in all of the other provider categories has been consistent and unmodified from the time each of the other provider categories was added. It does not change any of the other existing provider requirements which remain in effect; they remain in effect.

The dental contractor is required to provide dental contract coverage of Guam under the Dependents Dental Plan effective August 1, 1990. We are, therefore, making that portion of this amendment retroactively effective.

II. Public Comments

We received several comments on the proposed rule. Four were from national associations and one was from an attorney representing a national residential treatment center association. Below we provide an analysis of the comments and our responses.

Comment—Recommend that CHAMPUS take this opportunity to specify that its requirements for licensing and credentialing of individual providers apply only to those individual professional providers who are billing CHAMPUS for their separate services on an individual basis. The licensing and certification requirements should not affect in any way the payments made to institutions or the certification status of institutions who employ unlicensed or uncredentialed individuals.

Response—The requirement for state licensure/certification of all providers, whether employed by an institution or in independent practice, has existed for a long time. We are requiring staff who have direct responsibility for primary therapies, i.e., individual, group and family therapy, to be qualified to perform that modality. This means that they are not only licensed, but also trained, in the modality. CHAMPUS is committed to ensuring that its beneficiaries have the same access to qualified providers on an inpatient, as well as on an outpatient basis.

Comment—The commenter states that the Medicare program has always allowed payment for services provided by individuals "incident to" physician services even though the individual providing such services might not be eligible for payment by Medicare if the services were not rendered in conjunction with and at the direction of a physician.

Response—The Medicare provision covering "services incident to a physician's service" is neither comparable nor analogous. The provision applies in office-based practice and covers the services of nurses and technicians performing, in fact, services incident to the primary service. In an RTC, primary individual, group and family psychotherapy is hardly incident to the primary service. They are the primary service and must be performed by qualified staff.

Comment—The commenter argues that prior to the implementation of the all-inclusive rate regulation governing RTC services, many individual professional providers billed CHAMPUS separately for services provided by them to patients residing in residential treatment centers. With implementation of the all-inclusive rate, the commenter states that some RTCs began employing masters level social workers who were not immediately eligible for state certification, to assist in providing psychotherapy. The commenter argues that the RTC should be permitted to provide such services to CHAMPUS patients and receive CHAMPUS payment for such services.

Response—The claim made by the RTCs to justify re-basing the rates was that re-basing was required due to their increased costs to provide a high-level professional staff. It is incongruent, after succeeding in their re-basing argument to obtain higher rates to pay for high-level professional staffing, to attempt to treat CHAMPUS patients with an unqualified staff. CHAMPUS payment will be denied to any RTC found using unqualified staff to provide psychotherapy, and the RTC will be terminated as a CHAMPUS-authorized provider.

Comment—The commenter is arguing that CHAMPUS should not require a

treatment plan prior to a patient being admitted to a residential treatment center, unless CHAMPUS is prepared to pay for the costs of such preadmission activities. The commenter states that CHAMPUS has allowed completion of the treatment plan after the admission of a patient to an RTC.

Response—The portion of the amendment the commenter is referring to has been consistently in effect since promulgation of the Regulation in 1977. It was only repeated as other language in that paragraph was being amended. RTC care is always elective. For that reason and in the child's best interest, there must be an assessment prior to admission in order to determine the need for RTC care. Current CHAMPUS requirements state that there must be a preliminary plan of treatment identified, based on the assessment data at the time of admission. While it is acknowledged that additional assessments and evaluations might be required which can be furnished after admission, there should be sufficient assessment and evaluation data available to justify admission to a residential level of care at the time the admission is being requested.

Comment—One commenter objected to the exclusion for abortion services. The commenter felt that it was unduly harsh to limit payment for an abortion to those circumstances where the life of the woman would be endangered if the fetus were carried to term. The commenter also objected to the restrictions against abortions performed for mental health reasons and for suspected or confirmed fetal abnormality.

Response—The restriction on abortion is statutory, not one in which there is agency discretion. Congress has determined that public funds should not be expended for abortions except in a single limited circumstance—that is, the circumstance when the mother's life would be endangered if she carried the baby to term. The legislative history of the pertinent legislative enactments make it clear that this language was to be narrowly construed. Various proposals to authorize funding of abortion on the basis of physical or psychological health considerations have repeatedly been rejected by Congress. The Department of Defense is committed to enforcing Congressional intent.

Comment—A national organization suggested revision of the physician certification statement to minimize the likelihood of attempted abuse or evasion of the regulation prohibiting abortion. The requested revision reads as follows: "Physician certification is required attesting that the abortion was performed because the woman suffered from a grave physical disorder or disease which would, with reasonable medical certainty, cause the death of that woman if an abortion is not performed."

Response—To ensure compliance with the intent of Congress, the physician certification statement will continue to contain the actual language used in the law.

Comment—One commenter suggested clarification be added advising that reimbursement is not available for services involving preparation for, or normal follow-up to, a disallowable abortion.

Response—We agree and have incorporated this language in the final rule.

Comment—One commenter supported the exclusion of funding for in-vitro fertilization as consistent with that of other federally funded health programs and appropriate due to the ethical problems associated with current IVF practices.

Response—Comment noted, and no change required.

Comment—A few comments were received concerning the revision throughout the regulation extending recognition to authorized individual professional providers under CHAMPUS to provide certain services to include the diagnosis and treatment of a patient. The commenter felt that only physicians have the education, training and experience to diagnose and treat medical illness and thereby have the primary responsibility for the medical treatment and diagnosis of patients.

Response—This revision merely allows a provider to practice within the scope of the license permitted by the state licensing authorities. Much of the concern was directed at the definition revision for "attending physician." Because of these concerns, we have dropped that revision from this final rule. This action will not affect recognition of other independent authorized providers such as a podiatrist or dentist acting as a primary or assistant surgeon.

Comment—One commenter supported the authorization for the doctor of podiatric medicine to serve both as attending physician and as an assistant surgeon, to order medically necessary physical therapy services and to prescribe necessary medications. The commenter did feel that a change authorizing podiatrists to order medically necessary lab services was also needed.

Response—As indicated in the previous response, the attending physician definition is dropped. Other changes throughout the Regulation will allow the podiatrist to order medically necessary lab services which are considered appropriate within a podiatric scope of license.

Comment—The commenter wanted a variety of other definitions changed to include a reference to the podiatrist. These include anesthesia, orthopedic shoes and resident.

Response—Program benefits for podiatrists will not be affected by altering the definition of orthopedic shoes and resident. Currently, anesthesia may only be provided under the supervision of a dentist or physician. Before we alter this definition, we feel additional research and information is needed on the safety and efficacy of a podiatrist supervising a nurse anesthetist. We invite followup comments in this area.

Comment—One commenter was very concerned about allowing independent billing of services on a fee-for-service basis for those individuals who, absent any state licensure or certification, must only be eligible for full clinical membership in the appropriate national or professional association that sets standards for the profession of which the provider is a member. The commenter is concerned about the quality of care provided to CHAMPUS program beneficiaries by individuals who are not licensed or certified by the state.

Response—We share the commenter's concern about the importance of requiring state licensure or certification and have reaffirmed our position in this final rule despite some protest. Providers who practice in a state where licensure or certification is optional are required to obtain that licensure or certification to become authorized under CHAMPUS. If a state does not have licensure/certification in the general or specific area the provider practices in, then the provider is required to provide documentation that he/she meets the standards for full clinical membership in the appropriate recognized national or professional association that sets standards for the profession of which the provider is a member. Meeting full clinical membership standards is only acceptable if the state licensing agency does not have a certification or licensure process under which it is able or willing to evaluate a particular provider. Other requirements must still be met to include graduation from an accredited college in an appropriate field, followed by satisfactory completion of post-graduate requirements under designated

supervision in an appropriate clinical setting.

Comment—Two organizations commented on the requirement for preauthorization. One organization felt that requiring preauthorization for mental health services was discriminatory, stigmatized patients and might act as a barrier for the delivery of needed care.

Response—The Director of the Office of CHAMPUS has always had the authority to require preauthorization, and does not restrict this requirement to mental health. The purpose of preauthorization is not to direct treatment decisions, but to give providers and patients advance information on what benefits will be available. It can be financially devastating to a beneficiary to have costly care retroactively denied. An elaborate appeals system exists by which denials can be disputed. The current system does not require certification prior to admission. Certification can be requested within two days before to two days after admission. Cases can also be reviewed retrospectively.

Comment—One commenter objected to the "unauthorized practice of medicine by non-physician health professionals." The commenter reviewed the differences in education, training and experiences of psychiatrists and non-physician mental health professionals and the likely impact of inappropriately expanding medical diagnostic and treatment functions to such non-physicians. The commenter pointed out the danger inherent in misdiagnosis of patients' illnesses and that major medical illnesses remain undiagnosed. Patients are labeled as "psychosomatic" at an alarming rate. Illnesses in these patients far surpass the expected rate found in the general population. The commenter quoted studies which concluded that psychological symptomatology does not necessarily represent a psychiatric disorder and that psychotherapy should not be blindly applied. The commenter stated that 9 to 18 percent of mental disorders are caused solely by physical illness and that 48 percent of mental disorders are significantly aggravated by physical illness. The commenter questions how psychologists, social workers, mental health counselors or phychiatric nurses, uneducated and untrained in the diagnosis of physical illness and lacking the ability to rule out physical causes through physical and lab examination, can be expected to provide equal or superior diagnostic expertise equal or superior to that of a physician?

Response—The scope of practice is an area that reats within the province of state licensing authorities. CHAMPUS requires that providers practice within the limitations established by the licensing state. The categories of providers who may be reimbursed independent of physician referral and supervision has been legislatively mandated, and CHAMPUS must follow Congressional mandate. Over the last several years, Congress has mandated, through legislation, that CHAMPUS grant independent provider status to clinical social workers, nurse practitioners and phychiatric nurse specialists. The only mental health category which still requires physician referral and supervision is the category of counselors, including marriage, family, pastoral, and mental health counselors. Currently, Congress is discussing removing the requirement for physician referral and supervision for the counselor category. If this change is enacted, we will announce it through future rulemaking action.

This final rule does not impose information collection requirements. Therefore, it does not need to be reviewed by the Executive Office of Management and Budget under the authority of the Paperwork Reduction Act of 1980 (44 U.S.C. 3501–3511).

List of Subjects in 32 CFR Part 199

Claims, Handicapped, Health Insurance, and Military Personnel.

PART 199—[AMENDED]

Accordingly, 32 CFR part 199 is amended as follows:

1. The authority citation for part 199 continues to read as follows:

Authority: 10 U.S.C. 1079, 1086, 5 U.S.C. 301, Pub. L. 101–165, section 9100.

2. Section 199.1 is amended by revising the first sentence of paragraph (p)(1)(i) to read as follows:

§ 199.1 General provisions.

* * * * *

(p) * * *

(1) * * *

(i) The external partnership agreement is an agreement between a military treatment facility Commander and a CHAMPUS-authorized institutional provider, enabling Uniformed Services health care personnel to provide otherwise covered medical care to CHAMPUS beneficiaries in a civilian facility. * * *

* * * * *

3. Section 199.2 is amended by adding the definition of abortion in alphabetical order and revising the following definitions to read as follows:

§ 199.2 Definitions.

* * * * *

(b) * * *

Abortion. Abortion means the intentional termination of a pregnancy by artificial means done for a purpose other than that of producing a live birth. A spontaneous, missed or threatened abortion or termination of an ectopic (tubal) pregnancy are not included within the term "abortion" as used herein.

* * * * *

Allowable charge. The CHAMPUS-determined level of payment to physicians, other individual professional providers and other providers, based on one of the approved reimbursement methods set forth in § 199.14 of this part. Allowable charge also may be referred to as the CHAMPUS-determined reasonable charge.

Allowable cost. The CHAMPUS-determined level of payment to hospitals or other insitutions, based on one of the approved reimbursement methods set fourth in § 199.14 of this part. Allowable cost may also be referred to as the CHAMPUS-determined reasonable cost.

* * * * *

Durable medical equipment. Equipment for which the allowable charge is over $100 and which:

(1) Is medically necessary for the treatment of a covered illness or injury;

(2) Improves the function of a malformed, diseased, or injured body part, or retards further deterioration of a patient's physical condition;

(3) Is primarily and customarily designed and intended to serve a medical purpose rather than primarily for transportation, comfort, or convenience;

(4) Can withstand repeated use;

(5) Provides the medically appropriate level of performance and quality for the medical condition present (that is, nonluxury and nondeluxe);

(6) Is other than spectacles, eyeglasses, contact lenses, or other optical devices; hearing aids; or other communication devices; and

(7) Is other than exercise equipment, spas, whirlpools, hot tubs, swimming pools or other such items.

* * * * *

External Partnership Agreement. The external partnership agreement is an agreement between a military treatment facility commander and a CHAMPUS authorized institutional provider, enabling Uniformed Services health care personnel to provide otherwise covered

medical care to CHAMPUS beneficiaries in a civilian facility under the Military-Civilian Health Services Partnership Program. Authorized costs associated with the use of the facility will be financed through CHAMPUS under normal cost-sharing and reimbursement procedures currently applicable under the basic CHAMPUS.

* * * * *

Inpatient. A patient who has been admitted to a hospital or other authorized institution for bed occupancy for purposes of receiving necessary medical care, with the reasonable expectation that the patient will remain in the institution at least 24 hours, and with the registration and assignment of an inpatient number or designation. Institutional care in connection with in and out (ambulatory) surgery is not included within the meaning of inpatient whether or not an inpatient number or designation is made by the hospital or other institution. If the patient has been received at the hospital, but death occurs before the actual admission occurs, an inpatient admission exists as if the patient had lived and had been formally admitted.

* * * * *

Laboratory and pathological services. Laboratory and pathological examinations (including machine diagnostic tests that produce hard-copy results) when necessary to, and rendered in connection with medical, obstetrical, or surgical diagnosis or treatment of an illness or injury, or in connection with well-baby care.

* * * * *

Surgical assistant. A physician (or dentist or podiatrist) who assists the operating surgeon in the performance of a covered surgical service when such assistance is certified as necessary by the attending surgeon, when the type of surgical procedure being performed is of such complexity and seriousness as to require a surgical assistant, and when interns, residents, or other house staff are not available to provide the surgical assistance services in the specialty area required.

* * * * *

4. Section 199.4 is amended by revising paragraph (a)(11)(ii); redesignating (a)(11)(iii) as paragraph (a)(11)(iv) and adding a new paragraph (a)(11)(iii); revising (c)(3)(iii) introductory text, (c)(3)(vi), (c)(3)(ix) introductory text and first sentence to paragraph (c)(3)(x)(A); (d)(1) introductory text; (d)(3)(ii)(A) introductory text; (d)(3)(vi) introductory text; (e)(2); (e)(3)(i)(B)(*3*); second sentence of paragraph (f)(2)(i)(D); (g)(34) and (39); and adding new paragraphs (g)(42) and (43) to read as follows:

§ 199.4 Basic program benefits.

* * * * *

(a) * * *

(11) * * *

(ii) *Admissions to authorized institutions requiring preauthorization.* When the Director, OCHAMPUS, requires preauthorization to an inpatient facility, the request for preauthorization is processed by OCHAMPUS or a designee. If the beneficiary elects to proceed with an admission prior to receiving written preauthorization from OCHAMPUS, authorization may be requested subsequently. If the stay in the institution is determined to be appropriate under the provisions of this Regulation, the Director, OCHAMPUS, or a designee, shall authorize benefits retroactively to the date of admission to the institution. If the stay is determined not to qualify under the provisions of this Regulation, the Director, or a designee, shall deny benefits as of the date the care failed to meet the requirements for coverage.

(iii) *Documentation for preauthorization—approved treatment plan.* A request for preauthorization described in paragraph (a)(11) of this section, requires submission of a detailed treatment plan, in accordance with guidelines and procedures issued by the Director, OCHAMPUS.

* * * * *

(c) * * *

(3) * * *

(iii) *Need for surgical assistance.* Surgical assistance is payable only when the complexity of the procedure warrants a surgical assistant (other than the surgical nurse or other such operating room personnel), subject to utilization review. In order for benefits to be extended for surgical assistance service, the primary surgeon may be required to certify in writing to the nonavailability of a qualified intern, resident, or other house physician. When a claim is received for a surgical assistant involving the following circumstances, special review is required to ascertain whether the surgical assistance service meets the medical necessity and other requirements of paragraph (c) of this section.

* * * * *

(vi) *Inpatient care, concurrent.* Concurrent inpatient care by more than one individual professional provider is covered if required because of the severity and complexity of the beneficiary's condition or because the beneficiary has multiple conditions that require treatment by providers of different specialities. Any claim for concurrent care must be reviewed before extending benefits in order to ascertain the condition of the beneficiary at the time the concurrent care was rendered. In the absence of such determination, benefits are payable only for inpatient care rendered by one attending physician or other authorized individual professional provider.

* * * * *

(ix) *Treatment of mental disorders.* CHAMPUS benefits for the treatment of mental disorders are payable for beneficiaries who are outpatients or inpatients of CHAMPUS-authorized general or psychiatric hospitals, RTCs, or specialized treatment facilities, as authorized by the Director, OCHAMPUS, or a designee. All such services are subject to review for medical or psychological necessity and for quality of care. The Director, OCHAMPUS, reserves the right to require preauthorization of mental health services. Preauthorization may be conducted by the Director, OCHAMPUS, or a designee.

* * * * *

(x) * * *

(A) *Physical therapy.* To be covered, physical therapy must be related to a covered medical condition. If performed by other than a physician, a physician (or other authorized individual professional provider acting within the scope of their license) shall refer the patient for treatment and supervise the physical therapy. * * *

* * * * *

(d) * * *

(1) *General.* Benefits may be extended for the allowable charge of those other covered services and supplies described in paragraph (d) of this section, which are provided in accordance with good medical practice and established standards of quality by those other authorized providers described in § 199.6 of this Regulation. Such benefits are subject to all applicable definitions, conditions, limitations, or exclusions as otherwise may be set forth in this or other chapters of this Regulation. To be considered for benefits under paragraph (d) of this section, the described services or supplies must be prescribed and ordered by a physician. Other authorized individual professional providers acting within their scope of licensure may also prescribe and order these services and supplies unless otherwise specified in paragraph (d) of this section. For example, durable medical equipment and

cardiorespiratory monitors can only be ordered by a physician.

* * * * *

(3) * * *

(ii) * * *

(A) *Scope of benefit.* Subject to the exceptions in paragraphs (B) and (C) below, only durable medical equipment (DME) which is ordered by a physician for the specific use of the beneficiary, and which complies with the definition of "Durable Medical Equipment" in § 199.2 of this part, and which is not otherwise excluded by this Regulation qualifies as a Basic Program benefit.

* * * * *

(vi) *Prescription drugs and medicines.* Prescription drugs and medicines that by U.S. law require a physician's or other authorized individual professional provider's prescription (acting within the scope of their license) and that are ordered or prescribed by a physician or other authorized individual professional provider (except that insulin is covered for a known diabetic, even though a prescription may not be required for its purchase) in connection with an otherwise covered condition or treatment, including Rh immune globulin.

* * * * *

(e) * * *

(2) *Abortion.* The statute under which CHAMPUS operates prohibits payment for abortions with one single exception—where the life of the mother would be endangered if the fetus were carried to term. Covered abortion services are limited to medical services and supplies only. Physician certification is required attesting that the abortion was performed because the mother's life would be endangered if the fetus were carried to term. Abortions performed for suspected or confirmed fetal abnormality (e.g., anencephalic) or for mental health reasons (e.g., threatened suicide) do not fall within the exceptions permitted within the language of the statute and are not authorized for payment under CHAMPUS.

Note: Covered abortion services are limited to medical services or supplies only for the single circumstance outlined above and do not include abortion counseling or referral fees. Payment is not allowed for any services involving preparation for, or normal followup to, a noncovered abortion. The Director, OCHAMPUS, or a designee, shall issue guidelines describing the policy on abortion.

* * * * *

(3) *Family planning.* * * *

(i) * * *

(B) * * *

(*3*) Services and supplies related to noncoital reproductive technologies, including but not limited to artificial insemination (including any costs related to donors or semen banks), in-vitro fertilization and gamete intrafallopian transfer.

* * * * *

(f) * * *

(2) * * *

(i) * * *

(D) * * * Such deductible certificate must be attached to the current claim being submitted for benefits. * * *

* * * * *

(g) * * *

(34) *Noncoital reproductive procedures including artifical insemination, in-vitro fertilization, gamete intrafallopian transfer and all other such reproductive technologies.* Services and supplies related to artificial insemination (including semen donors and semen banks), in-vitro fertilization, gamete intrafallopian transfer and all other noncoital reproductive technologies.

* * * * *

(39) *Counseling.* Educational counseling, nutritional counseling, vocational counseling, and counseling for socio-economic purposes. Counseling services that are not medically necessary in the treatment of a diagnosed medical condition, e.g., diabetic self-education programs, stress management, life style modification, etc. Services provided by a marriage, family, pastoral or mental health counselor in the treatment of a mental disorder are covered only as specifically provided in § 199.6. Services provided by alcoholism rehabilitation counselors are covered only when rendered in a CHAMPUS-authorized alcohol rehabilitation facility and only when the cost of those services is included in the facility's CHAMPUS-determined allowable cost-rate.

* * * * *

(42) *Education or training.* Self-help, academic education or vocational training services and supplies, unless the provisions of § 199.4, paragraph (b)(1)(v) relating to general or special education, apply.

(43) *Exercise/relaxation/comfort devices.* Exercise equipment, spas, whirlpools, hot tubs, swimming pools, health club membership or other such charges or items.

* * * * *

5. Section 199.6 is amended by redesignating paragraphs (b)(3)(iii), (iv) and (v) as (b)(3)(iv), (v) and (vi) and adding a new paragraph (b)(3)(iii); adding a new paragraph (b)(4)(x)(B)(*1*)(*v*); and revising the introductory text of (c)(1) and paragraph (c)(1)(i); (c)(3)(iii)(A); (c)(3)(iii)(G)(*2*); (c)(3)(iv)(A)(*4*)(*i*) and (c)(3)(iv)(A)(*6*); and adding a new paragraph (c)(3)(iv)(A)(*7*) to read as follows:

§ 199.6 Authorized providers

* * * * *

(b) * * *

(3) * * *

(iii) *Notice of peer review rights.* All health care facilities subject to the DRG-based payment system shall provide CHAMPUS beneficiaries, upon admission, with information about peer review including their appeal rights. The notices shall be in a form specified by the Director, OCHAMPUS.

* * * * *

(4) * * *

(x) * * *

(B) * * *

(*1*) * * *

(*v*) A childbirth procedure provided by a CHAMPUS-approved free-standing ambulatory surgical center shall not be cost-shared by the CHAMPUS unless the surgical center is also a CHAMPUS-approved birthing center institutional provider as established by the birthing center provider certification requirement of this Regulation.

* * * * *

(c) * * *

(1) *General.* Individual professional providers of care are those providers who bill for their services on a fee-for-service basis and are not employed or contracted with by an institutional provider. This category also includes those individuals who have formed professional corporations or associations qualifying as a domestic corporation under § 301.7701–5 of the Internal Revenue Service Regulations. Such individual professional providers must be licensed or certified by the local licensing or certifying agency for the jurisdiction in which the care is provided; or in the absence of state licensure/certification, be a member of or demonstrate eligibility for, full clinical membership in the appropriate national or professional certifying association that sets standards for the profession of which the provider is a member. Services provided must be in accordance with good medical practice and prevailing standards of quality of care and within recognized utilization norms.

(i) *Licensing/certification required, scope of license.* Otherwise covered services shall be cost-shared only if the individual professional provider holds a current, valid license or certification to practice his or her profession in the jurisdiction where the service is rendered. Licensure/certification must be at the full clinical practice level. The services provided must be within the

scope of the license, certification or other legal authorization. Licensure or certification is required to be a CHAMPUS authorized provider if offered in the jurisdiction where the service is rendered, whether such licensure or certification is required by law or available on a voluntary basis. The requirement also applies for those categories of providers that would otherwise be exempt by the state because the provider is working in a non-profit, state-owned or church setting. Licensure/certification is mandatory for a provider to become a CHAMPUS-authorized provider.

* * * * *

(3) * * *

(iii) * * *

(A) *Clinical psychologist.* For purposes of CHAMPUS, a clinical psychologist is an individual who is licensed or certified by the state for the independent practice of psychology and:

(*1*) Possesses a doctoral degree in psychology from a regionally accredited university; and

(*2*) Has has 2 years of supervised clinical experience in psychological health services of which at least 1 year is post-doctoral and 1 year (may be the post-doctoral year) is in an organized psychological health service training program; or

(*3*) As an alternative to paragraphs (c)(3)(iii)(A)(*1*) and (*2*) of this section is listed in the National Register of Health Service Providers in Psychology.

* * * * *

(G) * * *

(*2*) Has at least a master's degree in nursing from a regionally accredited institution with a specialization in psychiatric and mental health nursing; and

* * * * *

(iv) * * *

(A) * * *

(4) * * *

(*i*) Recognized graduate professional education with the minimum of an earned master's degree from a regionally accedited educational institution in an appropriate behavioral science field, mental health discipline.

* * * * *

(*6*) These providers must also be licensed or certified to practice as a marriage and family counselor, pastoral counselor or mental health counselor by the jurisdiction where practicing. If specific licensure is not available in the state, then licensure under general provisions, where available, is required. If the jurisdiction does not provide for licensure or certification either in a specific or general counselor category, the provider must be certified by or eligible for full clinical membership in the appropriate national professional association that sets standards for the specific profession.

(*7*) Grace period for counselors in states where licensure/certification is optional. CHAMPUS is providing a grace period for those counselors who did not obtain optional licensure/certification in their jurisdiction, not realizing it was a CHAMPUS requirement for authorization. The exemption by state law for pastoral counselors may have misled this group into thinking licensure was not required. The same situation may have occured with the other counselor categories where licensure was either not mandated by the state or was provided under a more general category such as "professional counselor." This grace period only pertains to the licensure/certification requirement, applies only to counselors who are already approved as of October 29, 1990, and only in those areas where the licensure/certification is optional. Any counselor who is not liecensed/certified in the state in which he/she is practicing by August 1, 1991, will be terminated under the provisions of § 199.9 of this part. This grace period does not change any of the other existing requirements which remain in effect. During this grace period, membership or proof of eligibility for membership in a recognized professional association is required for those counselors who are not licensed or certified by the state. The following organizations are recognized for counselors at the level indicated: full clinical member of the American Association of Marriage and Family Counselors; membership at the fellow or diplomate level of the American Association of Pastoral Counselors; and membership in the National Academy of Certified Clinical Mental Health Counselors. Acceptable proof of eligibility for membership is a letter from the appropriate certifying organization. This opportunity for delayed certification/licensure is limited to the counselor category only as the language in all of the other provider categories has been consistent and unmodified from the time each of the other provider categories were added. The grace period does not apply in those states where licensure is mandatory.

* * * * *

6. Section 199.10 is amended by redesignating paragraph (a)(1)(i)(C) through (E) as paragraphs (D) through (F) and adding a new paragraph (a)(1)(i)(C); revising paragraphs (a)(1)(ii); first sentence to paragraph (a)(7)(iv)(C); (a)(8) introductory text, (a)(8)(i) introductory heading, (a)(8)(i) (A) and (B); (b) introductory text; (b)(1) through (b)(3); (b)(4) introductory text; and (c) to read as follows:

§ 199.10 Appeal and hearing procedures.

* * * * *

(a) * * *

(1) * * *

(i) * * *

(C) CHAMPUS peer review organizations shall notify providers and fiscal intermediaries of a denial determination on a claim.

(ii) *Effect of initial determination.* The initial determination is final unless appealed in accordance with this chapter, or unless the initial determination is reopened by OCHAMPUS, the CHAMPUS contractor, or the CHAMPUS peer review organization.

* * * * *

(7) * * *

(iv) * * *

(C) At least one of the claims so combined has had a reconsideration decision issued by OCHAMPUSEUR, a CHAMPUS contractor, or a CHAMPUS peer review organization.

* * * * *

(8) *Levels of appeal.* The sequence and procedures of a CHAMPUS appeal vary, depending on whether the initial determination was made by OCHAMPUS, OCHAMPUSEUR, a CHAMPUS contractor, or a CHAMPUS peer review organization.

(i) *Appeal levels for initial determination made by OCHAMPUSEUR, CHAMPUS contractor, or CHAMPUS peer review organization.* (A) Reconsideration by OCHAMPUSEUR, CHAMPUS contractor, or CHAMPUS peer review organization.

(B) Formal review by OCHAMPUS (except for CHAMPUS peer review organization reconsiderations).

* * * * *

(b) *Reconsideration.* Any part to the initial determination made by OCHAMPUSEUR, the CHAMPUS contractor, or a CHAMPUS peer review organization may request a reconsideration.

(1) *Requesting a reconsideration*—(i) *Written request required.* The request must be in writing, shall state the specific matter in dispute, and shall include a copy of the notice of initial determination (such as the CEOB form) made by OCHAMPUSEUR, the CHAMPUS contractor, or the CHAMPUS peer review organization.

(ii) *Where to file.* The request shall be submitted to the office that made the initial determination (i.e., OCHAMPUSEUR, the CHAMPUS contractor, or the CHAMPUS peer review organization) or any other CHAMPUS contractor designated in the notice of initial determination.

(iii) *Allowed time to file.* The request must be mailed within 90 days after the date of the notice of initial determination.

(iv) *Official filing date.* A request for a reconsideration shall be deemed filed on the date it is mailed and postmarked. If the request does not have a postmark, it shall be deemed filed on the date received by OCHAMPUSEUR, the CHAMPUS contractor or the CHAMPUS peer review organization.

(2) *The reconsideration process.* The purpose of the reconsideration is to determine whether the initial determination was made in accordance with law, regulation, policies, and guidelines in effect at the time the care was provided or requested, or at the time of the initial determination and/or reconsideration decision involving a provider request for approval as an authorized provider under CHAMPUS. The reconsideration is performed by a member of the OCHAMPUSEUR, CHAMPUS contractor, or CHAMPUS peer review organization staff who was not involved in making the initial determination and is a thorough and independent reveiw of the case. The reconsideration is based on the information submitted that led to the initial determination, plus any additional information that the appealing party may submit or OCHAMPUSEUR, the CHAMPUS contractor, or CHAMPUS peer review organization may obtain.

(3) *Timeliness of reconsideration determination.* OCHAMPUSEUR, the CHAMPUS contractor, or CHAMPUS peer review organization normally shall issue its reconsideration determination no later than 60 days from the date of receipt of the request for reconsideration by OCHAMPUSEUR, the CHAMPUS contractor, or the CHAMPUS peer review organization.

(4) *Notice of reconsideration determination.* OCHAMPUSEUR, the CHAMPUS contractor, or the CHAMPUS peer review organization shall issue a written notice of the reconsideration determination to the appealing party at his or her last known address. The notice of the reconsideration must contain the following elements:

* * * * *

(c) *Formal review.* Except as explained in this paragraph, any party to an initial determination made by OCHAMPUS, or a reconsideration determination made by the CHAMPUS contractor may request a formal review by OCHAMPUS if the party is dissatisfied with the initial or reconsideration determination unless the initial or reconsideration determination

(1) Is final under paragraph (b)(5) of this section;

(2) Involves the sanctioning of a provider by the exclusion, suspension or termination of authorized provider status;

(3) Involves a written decision issued pursuant to § 199.9, paragraph (h)(1)(iv)(A) regarding the temporary suspension of claims processing; or

(4) Involves a reconsideration determination by a CHAMPUS peer review organization. A hearing, but not a formal review level of appeal, may be available to a party to an initial determination involving the sanctioning of a provider or to a party to a written decision involving a temporary suspension of claims processing. A beneficiary (or an authorized representative of a beneficiary), but not a provider, may request a hearing, but not a formal review, of a reconsideration determination made by a CHAMPUS peer review organization.

BILLING CODE 3810-01-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 271

[FRL-3856-2]

Minnesota: Schedule of Compliance for Modification of Minnesota's Hazardous Waste Program

AGENCY: Environmental Protection Agency.

ACTION: Notice of Minnesota's compliance schedule to adopt a program modification.

SUMMARY: On September 22, 1986, U.S. EPA promulgated amendments to the deadlines for State program modifications, and published requirements for States to be placed on a compliance schedule to adopt necessary program modifications if the State cannot meet the prescribed deadlines. U.S. EPA is today publishing a compliance schedule for Minnesota to modify its program, for one rule, in accordance with 40 Code of Federal Regulations § 271.21(g).

EFFECTIVE DATE: October 29, 1990.

FOR FURTHER INFORMATION CONTACT: Christine Klemme, Minnesota Regulatory Specialist, Office of RCRA, U.S. EPA, Region V, 230 South Dearborn Street, 5HR-JCK-13, Chicago, Illinois 60604, (312) 886-3715, (FTS 8-886-3715).

SUPPLEMENTARY INFORMATION:

A. Background

Final authorization to implement the Federal hazardous waste program within a State is granted by U.S. EPA, if the Agency finds that the State program: (1) Is "equivalent" to the Federal program; (2) is "consistent" with the Federal program and other State programs; and (3) provides for adequate enforcement (section 3006(b), 42 U.S.C. 6926(b)). U.S. EPA regulations setting forth these standards for final authorization appear at 40 CFR 271.1-271.25. In order to retain authorization, a State must revise its program to adopt new Federal requirements by the cluster deadlines and procedures specified in 40

CFR 271.21. See 51 FR 33712, September 22, 1986, for a complete discussion of these procedures and deadlines.

B. Minnesota

Minnesota received final authorization of its hazardous waste program on February 11, 1985 (see 50 FR 3756, January 28, 1985), and subsequent revisions on September 18, 1987 (see 52 FR 27199, July 20, 1987), June 23, 1989 (see 54 FR 16361, April 24, 1989) and August 14, 1990 (see 55 FR 24232, June 15, 1990). Today U.S. EPA is publishing a compliance schedule for Minnesota to complete a program revision for the Federal double liner regulations (50 FR 28702, July 15, 1985). The adoption deadline under 40 CFR 271.21 for this Federal regulation was July 1, 1989.

Minnesota had intended to adopt the July 15, 1985, double liner regulation by the July 1, 1989 deadline by incorporating this rule with other applicable proposed rules. However, these proposed rules were never finalized. The State will complete the required revision to its authorized program by presenting the double liner rule to the Minnesota Pollution Control Agency in September 1990; the rule will become effective by December 31, 1990. Minnesota expects to submit an application to U.S. EPA for authorization of the above mentioned program revision by July 1, 1991.

Authority: This notice is issued under authority of sections 2002(a), 3006, and 7004(b) of the Solid Waste Disposal Act, as amended by the RCRA of 1976, as amended, 42 U.S.C. 6912(a), 6926, and 6974(b).

David A. Ullrich,

Acting Regional Administrator.

BILLING CODE 6560-50-M

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

43 CFR Public Land Order 6810

[OR-943-00-4214-10; GPO-105; OR-19124, OR-19822(WASH)]

Partial Revocation of the Executive Order Dated December 6, 1918; Oregon and Washington

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This order revokes an Executive order insofar as it affects 361.70 acres of land withdrawn for the Bureau of Land Management's Powersite Reserve No. 725. The withdrawal is no longer needed. This action will open approximately 237.88 acres to surface entry, and of the balance, 80 acres have been conveyed out of United States ownership and approximately 43.82 acres are included in other existing withdrawals.

EFFECTIVE DATE: November 28, 1990.

FOR FURTHER INFORMATION CONTACT: Champ Vaughan, BLM Oregon State Office, P.O. Box 2965, Portland, Oregon 97208, 503-280-7171.

By virtue of the authority vested in the Secretary of the Interior by Section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751; 43 U.S.C. 1714, it is ordered as follows:

1. The Executive order dated December 6, 1918, is hereby revoked insofar as it affects the following described lands:

Willamette Meridian, Oregon

T. 6 N., R. 46 E.,
Sec. 17, lots 1, 2, 3, and 4.

Wallowa National Forest

T. 6 N., R. 47 E.,
Sec. 15, lot 1.

The areas described aggregate 241.70 acres in Wallowa County.

Willamette Meridian, Washington

T. 7 N., R. 46 E.,
Sec. 12, NE¼NE¼ and SW¼NE¼.
T. 8 N., R. 47 E.,
Sec. 7, NE¼NE¼.

The areas described aggregate 120 acres in Asotin County.

2. The NE¼NE¼ of Sec. 12, T. 7 N., R. 46 E., and the NE¼NE¼ of Sec. 7, T. 8 N., R. 47 E., have been conveyed out of United States ownership and will not be opened to operation of the public land laws.

3. Those portions of the NE¼NE¼ and SW¼NE¼ of Sec. 12, T. 7 N., R. 46 E., and the NE¼NE¼ of Sec. 7, T. 8 N., R. 47 E., within the boundary of the Snake Wild and Scenic Study River withdrawal remain closed to operation of the public land laws generally, including the mining laws.

4. Lot 1 of Sec. 15, T. 6 N., R. 47 E., remains closed to operation of the public land laws generally, including the mining and mineral leasing laws by the Hells Canyon National Recreation Area withdrawal.

5. At 8:30 a.m., on November 28, 1990, the lands described in paragraph 1, except as provided in paragraphs 2, 3, and 4, will be opened to operation of the public land laws generally, subject to valid existing rights; the provisions of existing withdrawals; where applicable, the provisions of Section 24 of the Federal Power Act; any segregations of record; and the requirements of applicable law. All valid applications received at or prior to 8:30 a.m., on November 28, 1990, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

Dated: October 19, 1990.

Dave O'Neal,

Assistant Secretary of the Interior.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 285

[Docket No. 70365-71271]

Atlantic Tuna Fisheries

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Notice of closure.

SUMMARY: NOAA issues this notice to close the fishery for Atlantic bluefin tuna conducted by vessels angling for young school, school, or medium sized bluefin tuna. Closure of this segment of the fishery is necessary because the annual quota for this category has been attained. The intent of this action is to prevent overharvest of the quota established for this fishery.

EFFECTIVE DATE: The closure is effective from 0001 hours local time, October 27, 1990, through December 31, 1990.

FOR FURTHER INFORMATION CONTACT: Kathi L. Rodrigues, 508-281-9324.

SUPPLEMENTARY INFORMATION: Regulations promulgated under the authority of the Atlantic Tunas Convention Act (16 U.S.C. 971-971h), regulating the harvest of Atlantic bluefin tuna by persons and vessels subject to U.S. jurisdiction, were published in the **Federal Register** on October 25, 1985 (50 FR 43396).

Section 285.22(e) of the regulations provides for an annual quota of 139 short tons (st) (126 mt) of young school, school and medium sized Atlantic bluefin tuna to be harvested from the Regulatory Area by anglers. The Assistant Administrator for Fisheries, NOAA (Assistant Administrator), is authorized under § 285.20(b)(1) to monitor the catch and landing statistics and, on the basis of these statistics, to project a date when the total catch of Atlantic bluefin tuna will equal any quota under § 285.22. The Assistant Administrator is further authorized under § 285.20(b)(1) to prohibit the fishing for, or retention of, Atlantic bluefin tuna by the category of gear subject to the quotas. The Assistant Administrator has determined, based on the reported catch, that the annual quota of Atlantic bluefin tuna for the Angling category will be attained by the effective date. Fishing for, and retention of, any young school, school, or medium Atlantic bluefin tuna harvested under § 285.22(e) must cease at 0001 local time on October 27, 1990.

Other Matters

Notice of this action will be mailed to all Atlantic bluefin tuna dealers, several industry publications, associations and state agencies. This action is taken under the authority of 50 CFR 285.20, and is taken in compliance with E.O. 12291.

Proposed Rules

Federal Register
Vol. 55, No. 209
Monday, October 29, 1990

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Stabilization and Conservation Service

7 CFR Part 735

Cotton Warehouses—United States Warehouse Act

AGENCY: Agricultural Stabilization and Conservation Service, USDA.

ACTION: Proposed rule; reopening of the comment period.

SUMMARY: On August 21, 1990, the Agricultural Stabilization and Conservation Service (ASCS) published a proposed rule (55 FR 34021) which would amend the regulations governing cotton warehouses licensed pursuant to the U.S. Warehouse Act 7 U.S.C. 241 *et seq.* The proposed rule contained amendments which would allow federally licensed cotton warehouses to issue negotiable warehouse receipts for reginned cotton motes and to include certain language relating to the applicability of warehouse liens in their schedule of warehouse charges. The comment period provided in the proposed rule ended on October 22, 1990.

During the comment period, ASCS received requests to have the comment period extended to allow more time to provide comments. In response to those requests, comments concerning this proposed rule will be accepted on or before November 9, 1990.

DATES: Comments due on or before November 9, 1990.

ADDRESS: Interested parties are invited to submit comments to: Director, Licensing Authority Division, ASCS, U.S. Department of Agriculture (USDA), P.O. Box 2415, Room 5962–S, Washington, DC 20013, Telephone (202) 447–2121.

FOR FURTHER INFORMATION CONTACT: Lynda Moore, Agricultural Marketing Specialist, ASCS–USDA, telephone: (202) 382–8004.

Signed in Washington, DC on October 23, 1990.

Keith D. Bjerke,

Administrator, Agricultural Stabilization and Conservation Service.

BILLING CODE 3410–05–M

Agricultural Marketing Service

7 CFR Parts 1106, 1120, 1126, 1132, and 1138

[Docket Nos. AO–335–A34, et al.; DA–89–033]

Milk in the Rio Grande Valley and Certain Other Marketing Areas; Recommended Decision and Opportunity to File Written Exceptions on Proposed Amendments to Tentative Marketing Agreements and to Orders

7 CFR Parts	Marketing area	Docket Nos.
1138	Rio Grande Valley	AO–335–A34
1106	Southwest Plains	AO–210–A50
1120	Lubbock–Plainview, Texas.	AO–329–A28
1126	Texas	AO–231–A58
1132	Texas Panhandle	AO–362–A36

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This decision recommends that the marketing areas of the Rio Grande Valley; Lubbock-Plainview, Texas; and the Texas Panhandle orders be merged under one order. The merged area also would be expanded to include all of the unregulated territory in the State of New Mexico and Lipscomb and Parmer Counties, Texas. The regulatory provisions of the recommended "New Mexico-West Texas" marketing order are patterned after the adjacent Southwest Plains order, including that order's payment plan, but with modifications in other provisions. One modification would regulate a distributing plant located in the marketing area under the order even if a greater proportion of its fluid milk sales is made in another Federal order marketing area.

The decision also provides for some price restructuring that would increase the Class I price by 15 cents in eastern New Mexico (Clovis). In addition, the decision provides for reducing the Texas order Class I differential by 12 cents per hundredweight and for establishing a minus 21-cent location adjustment in Zone 6 of the marketing area. Other conforming location adjustment changes are recommended for the Texas and Southwest Plains orders to recognize the pricing structure of the recommended order.

The recommended changes, which are based on industry proposals considered at a public hearing held December 6–8, 1989, in El Paso, Texas, are necessary to reflect current marketing conditions and to assure orderly marketing in the respective areas.

DATES: Comments are due not later than November 28, 1990.

ADDRESSES: Comments (five copies) should be filed with the Hearing Clerk, room 1083, South Building, United States Department of Agriculture, Washington, DC 20250.

FOR FURTHER INFORMATION CONTACT: John F. Borovies, Marketing Specialist, USDA/AMS/Dairy Division, Order Formulation Branch, room 2968, South Building, P.O. Box 96456, Washington, DC 20090–6456, (202) 447–2089.

SUPPLEMENTARY INFORMATION: This administrative action is governed by the provisions of sections 556 and 557 of Title 5 of the United States Code and, therefore, is excluded from the requirements of Executive Order 12291.

The Regulatory Flexibility Act (5 U.S.C. 601–612) requires the Agency to examine the impact of a proposed rule on small entities. Pursuant to 5 U.S.C. 605(b), the Administrator of the Agricultural Marketing Service has certified that this action will not have a significant economic impact on a substantial number of small entities. The amendments would promote orderly marketing of milk by producers and regulated handlers.

Prior document in this proceeding:

Notice of Hearing: Issued November 21, 1989; published November 27, 1989 (54 FR 48753).

Preliminary Statement

Notice is hereby given of the filing with the Hearing Clerk of this recommended decision with respect to proposed amendments to the tentative marketing agreements and the orders regulating the handling of milk in the respective marketing areas. This notice

is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR part 900).

Interested parties may file written exceptions to this decision with the Hearing Clerk, U.S. Department of Agriculture, Washington, DC, 20250, by the 30th day after publication of this decision in the Federal Register. Five copies of the exceptions should be filed. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposed amendments set forth below are based on the record of a public hearing held at El Paso, Texas, on December 6–8, 1989, pursuant to a notice of hearing issued November 21, 1989 (54 FR 48763).

The material issues on the record of hearing relate to:

1. Interstate commerce, merger of marketing areas under one order, and expansion of the marketing area.

2. Provisions of the merged order with respect to:

(a) Milk to be priced and pooled;

(b) Classification of milk, class prices and other uniform provisions;

(c) Distribution of proceeds to producers; and

(d) Administrative provisions.

3. Location adjustments under the merged order and the Texas and Southwest Plains orders.

Findings and Conclusions

The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. *Interstate commerce, merger of marketing areas under one order and expansion of the marketing area.* The handling of milk in the proposed merged and expanded marketing area is in the current of interstate commerce and directly burdens or obstructs interstate commerce in milk and milk products. Interstate commerce is involved in both the procurement and sale of fluid milk and dairy products by handlers operating plants in the proposed marketing area.

The proposed merged and expanded marketing area, designated as the New Mexico-West Texas" marketing area, includes the present adjacent marketing areas of Order 120 (Lubbock-Plainview, Texas), Order 132 (Texas Panhandle), and Order 138 (Rio Grande Valley), and presently unregulated territory in the States of New Mexico and Texas. The marketing area includes territory in three states (the entire State of New Mexico, 43 counties in the State of Texas and three counties in the State of Colorado).

Associated Milk Producers, Inc. (AMPI), proposed the marketing area merger and expansion that is adopted herein. AMPI operates a manufacturing plant at El Paso that is pooled under Order 138 and represents virtually all of the dairy farmers who would be producers under the merged order. AMPI also supplies all of the plants operating in the area that would be regulated under the order.

AMPI testified that the area constitutes a single fluid milk market and that all handlers should be subject to the same terms and provisions. AMPI noted that there are significant differences with respect to definitions, pooling, payment and administrative provisions of the three orders. AMPI contended that, because of different diversion limitations and pooling provisions, it is administratively difficult to keep milk moving from a common New Mexico production area to plants that are regulated under different orders.

AMPI testified that a primary reason for merging the markets is to provide for a broader sharing of the reserve milk supplies among all producers who supply distributing plants regulated under the separate orders. Because of different pooling standards and the small size of the Order 120 and Order 132 markets, AMPI testified that it is difficult to apportion reserve milk supplies among the separate markets. AMPI testified that the consequences of pooling reserve milk supplies of each market on the Order 138 market have the result of reducing the Order 138 blend price in relation to the blend prices for Orders 120 and 132.

For example, AMPI noted that the Class I utilization during the first nine months of 1989 was about 86 percent under Order 120 and 76 percent under Order 132. During the same period, Order 138 experienced about a 57 percent Class I use. During this period the blend prices under Orders 120 and 132 averaged $13.86 and $13.65 per hundredweight, respectively, compared to a blend price of $11.13 under Order 138. AMPI testified that these announced blend price differences present difficulties for the cooperative in explaining the basis for the reblended payments that are made to its producer members in a common production area.

AMPI's proposal to merge the marketing areas was supported by a number of interested parties. There was no opposition expressed to the merger by any party, either at the hearing or in briefs.

A relatively small amount of milk is regulated under each of the three separate orders, although Orders 120 and 132 are substantially smaller than Order 138. Currently, about 10 million pounds of milk per month is regulated under Order 120 and about seven million pounds under Order 132. Of these amounts, in excess of 85 percent is used in Class I under Order 120 (about 8.5 million pounds per month) and over 77 percent is used in Class I under Order 132 (about 5.3 million pounds per month). Over 50 million pounds of producer milk per month is regulated under Order 138 with less than 58 percent being priced in Class I (about 28.8 million pounds per month). Combined, these averages reflect about 67 million pounds per month of producer receipts and a Class I utilization of about 64 percent (about 43 million pounds per month.) Additional quantities of milk and Class I sales, however, would be regulated under the merged order because a plant that is now regulated under the Texas order (Order 126) would be regulated under the merged order. Elimination of these smaller volume markets, through consolidation, will tend to promote a greater degree of marketing stability throughout the marketing area.

A structural relationship exists among the markets to be merged in terms of both overlapping sales and procurement areas. In fact, such a relationship extends beyond the boundaries of the proposed marketing area to include neighboring Federal order markets. Such a situation exists because of the ever-increasing sales areas exhibited by a number of milk processing plants. Also, AMPI, as the primary supplier of raw milk supplies for plants in the three markets, operates throughout a number of other Federal order markets included in its Southern Region that extends well beyond the area in question. However, there is a sufficient association among the three markets to warrant the proposed consolidation as a step in recognizing the regionalization of milk marketing activities that has been occurring.

Two distributing plants located in Lubbock that are operated by Borden and Dean Foods are regulated under Order 120. The Bordan plant has fluid milk sales in nonfederally regulated territory and within the marketing areas of Order 126 (Texas) and Order 132. The Dean plant has distribution into the marketing areas of Orders 132 and 138. Within the Order 120 marketing area, the two plants account for more than 85

percent of the total route disposition. Plants regulated under Orders 126 and 132 also have sales in the Order 129 marketing area with Order 126 accounting for more than 10 percent of the total in-area route disposition and Order 132 accounting for the remaining route disposition.

Two distributing plants located in Amarillo that are operated by Borden and Plains Creamery were regulated under Order 132 at the time of the hearing. Both plants had sales into the Order 136 marketing area. The Plains Creamery plant also had fluid milk sales into Order 120, the marketing areas of Orders 106 (Southwest Plains), 126, and 137 (Eastern Colorado) and in nonfederally regulated territory. For the most recent month for which data is available, the two regulated plants accounted for about two-thirds of the total route disposition in the Order 132 marketing area. Remaining route disposition in the Order 132 marketing area originates from plants regulated under Orders 106 (about 17 percent, Order 126 (over 12 percent), and Order 120 (about four percent). The sales relationship between plants regulated under Orders 120 and 132 is likely to increase as a result of the closing of the Borden plant at Amarillo in December 1989.

Five distributing plants are currently regulated under Order 136. Three of the plants are located in El Paso and are operated by Borden, Dean and Farmers Dairies. Two plants, operated by Borden and Dean, are located in Albuquerque. None of these plants have sales in other Federal order marketing areas although all of the plants, except for Borden at El Paso, have sales in nonfederally regulated territory. The five regulated plants account for about 77 percent of total route disposition in the Order 136 marketing area. The plants that are regulated under Orders 120 and 132, combined, account for a little more than 5 percent of route disposition in the marketing area. Other plants regulated under Orders 126, 131 (Central Arizona), 134 (Western Colorado) and 137 account for about 7 percent of route disposition in the marketing area. In addition, nine producer-handlers that are regulated under the order account for more than 9 percent of route disposition in the marketing area.

One additional distributing plant that is located in Clovis, New Mexico, (Gold Star) is regulated under Order 126. Although located within the Order 136 marketing area, it has been regulated under Order 126 since it began operating in February 1989 because a greater proportion of its distribution is in that marketing area. The Gold Star plant is a specialized operation that markets a relatively limited fluid milk product line that is distributed in corrugated boxes through warehouse distribution centers. The distribution area of the plant, which extends through the warehouses that it supplies, covers a broad territory that includes population centers in Louisiana, Texas, New Mexico, Colorado and Oklahoma. Regulation of the plant under the merged order, for reasons set forth under a following issue, will result in regulated plants having a greater proportion of total route disposition in the marketing area than is suggested by record data.

Arrangements for supplying the raw milk needs of distributing plants are made primarily by AMPI. As previously stated, AMPI supplies each of the distributing plants operating in the area with all or part of their fluid milk needs. Milk supplies that are excess to the needs of distributing plants are processed at AMPI's El Paso manufacturing plant that is regulated under Order 136. Milk production that is in excess of all plant capacity in New Mexico and western Texas is shipped by AMPI to distant plants located outside the proposed marketing area for processing. Thus, AMPI performs a major function in supplying and balancing the fluid milk needs of distributing plants and marketing milk that is in excess of fluid milk needs and available plant capacity in the area.

In total, milk production within the proposed order area is surplus to plant needs, although milk production is not distributed uniformly throughout the area. The western Texas areas in Orders 120 and 132 are deficit milk-producing areas whereas a substantial surplus exists in New Mexico. New Mexico represents a primary source of supply for all of the distributing plants operating in the area. This is indicated by the sources of producer milk data for each of the orders for the months of May and September during the years 1985 through 1989.

During May 1985, about 50 percent of the milk pooled on Order 120 originated in New Mexico and 50 percent originated in the western Texas counties in the Order 120 marketing area. The reliance on New Mexico production increased substantially to the point where such production represented more than 91 percent of the milk pooled under the order during May and September 1989. Most of this New Mexico production originated in the eastern counties of the State, particularly the counties of Chaves and Lea. In addition to AMPI, Southern Milk Sales (SMS), a cooperative association that represents several producers, began supplying one of the Order 120 distributing plants in July 1989. Such milk also originated in eastern New Mexico.

New Mexico production has also been a significant supply source for Order 132 distributing plants. During the month of May for the years through 1989, New Mexico production has represented as much as 84 percent and as little as 30 percent of the Order 132 milk supply. During the month of September, New Mexico production represented as much as 70 percent (1988) and as little as 7 percent (1989) of the Order 132 milk supply. The data for September 1989 reflect a restructuring of the milk supplies as well as a decline in the amount of milk pooled under the order. Most of the New Mexico production originated in the eastern counties of the State, particularly the counties of Chaves and Roosevelt.

The primary source of supply for Order 136 handlers is New Mexico and El Paso County, Texas, which is in the Order 136 marketing area. A small amount of milk also originates in two Colorado counties that are within the marketing area. New Mexico production consistently represents in excess of 80 percent of total producer milk while El Paso represents from about 11 to 18 percent of milk pooled under the order.

There are three major production areas in the Order 136 marketing area. The heaviest concentration of production is in the southern part of the marketing area in the two adjacent counties of Dona Ana in New Mexico and El Paso in Texas. More than 43 million pounds of milk was produced in these two counties in September 1989 and more than 48 million pounds in May 1989. Milk produced in these counties is regulated under Orders 136 and 126.

Another primary production area includes the eastern New Mexico counties of Chaves, Lea and Roosevelt. Production in these three counties exceeded 39 million pounds in September and May of 1989. Milk from this three-county area is regulated under each of the orders to be merged as well as Orders 106 and 126.

A third concentration of production is located in the center of New Mexico and includes the three counties of Bernalillo, Socorro and Valencia. Milk production in this area exceeded 17 million pounds in September 1989 and 18 million pounds in May 1989. Milk from this area was regulated under Orders 136 and 106 during May and also Order 126 during September.

Total milk production in the eight counties cited above exceeded 100 million pounds in September and 106 million pounds in May. Such production is substantially in excess of the total amount of producer milk pooled under the three orders. About 80 million pounds of producer milk was pooled under the three orders in September and about 70 million pounds in May, indicating a surplus of production over producer receipts of about 40 million pounds in September and 36 million pounds in May. In terms of producer milk in Class I use for the three orders (46 million pounds in September and 43 million pounds in May), there was about 34 million pounds of surplus production in September and 63 million pounds of surplus production in May originating in this eight-county area. Milk in excess of the fluid milk and plant requirements was pooled under Orders 106 and 126.

There are five counties within the current three marketing areas that had a 1987 population in excess of 100,000. These include three West Texas counties of Potter, which includes Amarillo (105,000), Lubbock (228,000) and El Paso (573,000). In New Mexico, the greatest population is in Bernalillo County, which includes Albuquerque (466,000) and Dona Ana County, which includes Las Cruces (129,000). All of the milk plants that would be fully regulated under the merged order are located in these population centers with the exception of the Gold Star plant at Clovis (Curry County).

Merger of the three marketing areas under one order will tend to promote a greater degree of marketing stability simply by the formation of a larger volume market. The announcement of a single blend price that reflects the utilization of milk over a broader area will be more meaningful and less confusing to producers in a common production area than the announcement of three blend prices that are not entirely reflective of marketing conditions. In fact, absent a merger of marketing areas, statistical information would not be available for release under Order 132 as a result of the December closing of the Borden plant at Amarillo. Furthermore, a merger will recognize the structural relationship among the markets that is exhibited by the overlapping of sales and procurement areas that exists. The three separate orders are no longer viable in view of the marketing practices of handlers and suppliers of raw milk that extend beyond current marketing area boundaries. The application of one order will promote marketing and administrative efficiencies by applying the same terms and provisions to regulated handlers.

In addition to a consolidation of the three marketing areas, the marketing area should be expanded to include currently unregulated territory in New Mexico and western Texas. The marketing area should include the two western Texas counties of Lipscomb and Parmer and the five New Mexico counties of Catron, Cibola, Colfax, Hidalgo and Union. All of the counties are relatively sparsely populated, with the greatest population being in Cibola County (21,000). The territory in this county was formerly a part of Valencia County, which has been a part of the Order 130 marketing area since the inception of the order. Thus, its inclusion within the marketing area will not add any territory that was not previously included in the marketing area.

The six remaining counties that should be added to the marketing area are either adjacent to or completely surrounded by Federally regulated territory. Colfax and Union Counties are located in the northeastern corner of New Mexico while Catron and Hidalgo are in the southwestern area of the State. Lipscomb County is in the northeastern corner of the panhandle area of Texas while Parmer County is on the western border of the State and is surrounded by the current marketing area of Orders 120, 132 and 138.

There are no known processing plants operating in any of the added territory. Inclusion of this territory will simplify the administration of the order and the recordkeeping and reporting requirements of regulated handlers who have sales in these counties. Currently, plants with sales in these counties must designate such sales as route disposition that is made outside the marketing boundaries. Such information is necessary for determining pool plant status. The inclusion of these counties within the marketing area will alleviate the need for this additional sales area data with respect to these counties.

The merged order adopted herein continues the use of the part number for the present Rio Grande Valley order, part 1138. The amended part 1138, upon issuance, would supersede parts 1120 and 1132.

Although the present three orders would no longer exist upon effectuation of the New Mexico-West Texas order, this merger action is not intended to preclude the completion of those procedures that would otherwise have existed under the separate orders with respect to milk handled prior to the effective date of the merger. Such procedures, which would need to be carried out after the merger date, include the announcement of certain class prices and butterfat differentials, submission of reports, computation of uniform prices, payment of obligations and verification activities. The provisions of the merged order would apply only to that milk handled after the effective date of the merger.

2(a) *Milk to be priced and pooled.* It is necessary to designate what milk and which persons would be subject to the merged order. This is accomplished by providing definitions to describe the persons, plants and milk to which the applicable provisions of the order relate.

The definitions included in the order serve to identify the specific types of milk and milk products to be subject to regulation and the persons and facilities involved with the handling of such milk and milk products. Definitions relating to handling and facilities are "route disposition," "plant," "distributing plant," "supply plant," "pool plant," and "nonpool plant." Definitions of persons include "handler," "producer-handler," "producer," and "cooperative association." Definitions relating to milk and milk products include "producer milk," "other source milk," "fluid milk product," "fluid cream product," "filled milk," and "product prices."

Only two of the definitions were of particular issue at the hearing, the pool plant definition (as it relates to plants located in the marketing area that meet the pooling standards of more than one order) and the producer-handler definition. All of the remaining definitions are patterned after the adjacent Southwest Plains order. Official notice of the final decision setting forth the need and basis of such provisions in the Southwest Plains order was taken at the hearing. Also, each of these definitions is contained in one or more of the current orders to be merged. Although there are some differences in style and form, the substance of the definitions is basically the same and is carried out in the merged order. A discussion of those definitions that were of particular issue at the hearing, as well as those that involve substantive modifications, is set forth below.

Pool plants. Essential to the operation of a marketwide pool is the establishment of minimum performance standards to distinguish between those plants substantially engaged in serving the fluid needs of the regulated market and those plants that do not serve the market in a way or to a degree that warrants their sharing in the Class I utilization of the market. The pooling standards that are contained in the

attached order would carry out this concept under present marketing conditions.

The pooling standards contained herein were proposed by AMPI and were not opposed by any party. The pooling standards provide for three categories of pool plants: Distributing plants, supply plants and plants located in the marketing area that are operated by cooperative associations that supply the market. All three of the current orders provide for pooling distributing plants and supply plants while the Rio Grande Valley order provides for pooling cooperative association plants.

With respect to distributing plants, each of the three current orders provides two measures to determine whether the performance of such plants in supplying the fluid market is sufficient to warrant their inclusion in the marketwide pool. One standard reflects a plant's overall performance in distributing fluid milk products while a second standard reflects each plant's performance in distributing fluid milk products within the marketing area. Each order, however, specifies the degree of performance in different ways and relies on different measures of milk receipts.

For example, the Lubbock-Plainview order defines a pool distributing plant as one from which there is route disposition (a delivery of a fluid milk product) that is equal to not less than 50 percent of the Grade A milk received at the plant from dairy farmers and from a cooperative association that is a handler for milk received at the plant unless the volume disposed of in the marketing area is less than 15 percent of such receipts. The Texas Panhandle order specifies that a volume of Class I milk be disposed of on routes that is not less than 50 percent of receipts of Grade A milk from dairy farmers, cooperative association handlers, and from other plants, and that not less than 15 percent of such receipts is disposed of in the marketing area. The Rio Grande Valley order specifies that route disposition in the marketing area be equal to not less than 15 percent of the total Class I sales of the plant and that the total quantity of Class I milk be not less than 50 percent of such plant's receipts of Grade A milk, including milk diverted from the plant to a nonpool plant of the handler operating the plant.

The pooling standards for distributing plants contained herein provide for the use of a plant's total route disposition and route disposition in the marketing area as a percentage of such plant's milk receipts. However, the 50 percent overall requirement and the 10 percent in-area requirement should be based on the plant's total receipts of fluid milk products rather than the varying limited receipts of milk that are specified in the current orders. Reliance on a plant's total receipts of fluid milk products, including producer milk diverted from the plant, represents a better measure of a plant's performance in supplying the fluid milk needs of the market than the current pooling standards of the three orders. The term "fluid milk product" encompasses the receipts that collectively are currently specified under the three orders (milk from dairy farmers, cooperative association handlers and other pool and nonpool plants). Milk that is diverted from the plant, either by the plant operator or by a cooperatives association, also represents a supply of milk that is associated with the weekly or seasonal requirements of the particular plant's needs for fluid milk. As such, it is appropriate to utilize such receipts of milk in determining whether the plant should be pooled under the order. Likewise, milk that may be received by diversion from another pool plant is an integral part of the receiving plant's milk requirements.

A plant that distributes less than 10 percent of its receipts inside the marketing area should not be a fully regulated plant under the merged order. A plant with a limited association with the market is not a major competitive factor for fully regulated handlers whose sales are primarily in the marketing area. Only three partially regulated plants were identified as having sales within the consolidated marketing area. One of these plants is located in Kansas and two are located in California. Full regulation of such plants is not necessary to assure the orderly marketing of milk in the proposed market. Payment provisions that are currently applicable to such plants are contained in the merged order to assure that route disposition in the marketing area from such plants is treated in such a way as to minimize any buying advantage on raw milk relative to fully regulated handlers. Such payment provisions have been applicable under each of the three orders for many years.

A distributing plant that is located in the marketing area, and which meets the pooling standards of the merged order and another order, should be regulated under the merged order regardless of the quantity of fluid milk products distributed in any other order marketing area. However, such pool plant status should be accorded only as long as the merged order's Class I price at the plant location is not less than the Class I price that would be applicable at the plant if it were regulated under the provisions of another Federal order in which the plant has greater route disposition.

This provision to "lock" a plant into regulation under the merged order was proposed by AMPI and was opposed by several handlers who operate a number of plants that are regulated under either the three orders to be merged or adjacent Federal orders. The issue of determining the order under which a plant should be regulated centered on the marketing conditions that arise as a result of the operation of the Gold Star distributing plant located in Clovis, New Mexico. As indicated under a previous issue, the Gold Star plant is principally a fluid milk processing plant that has a wide distribution area. The plant is currently regulated under the Texas order since it has a greater proportion of its fluid milk sales in that marketing area than in any other Federal milk marketing area.

AMPI testified that even with a consolidation of the three marketing areas, it is anticipated that the plant would continue to have a greater proportion of its sales in the Texas marketing area. AMPI contends that the plant should be regulated under the merged order since it competes for supplies of milk in a common procurement area with other plants that would be regulated under the merged order, particularly plants that are located at Amarillo and Lubbock. Thus, AMPI contends that regulation under the merged order would assure that producers in the same production area would receive the same price. Furthermore, AMPI contends that regulation under the merged order would facilitate the shifting of milk supplies as needed among the Clovis, Amarillo and Lubbock plants. Currently, milk of producers who supply Lubbock and Amarillo plants cannot be shifted to the Clovis plant during certain months of the year because of certain provisions of the Texas order relating to the movement of producer milk supplies among markets.

A number of the handlers contended that the Gold Star plant should not be subject to pooling under the merged order if a greater proportion of its fluid milk sales is made in another Federal order marketing area. They maintain that plants should be regulated under the order where most of its sales are made so that the handler operating the plant is subject to the same terms and provisions as other handlers who are the primary competitors for sales of fluid milk products. They testified that the need to make an exception to such a policy (such as frequent shifts in regulation among orders as a result of

minor sales changes) is not evident with respect to Gold Star since the primary population centers served by the plant are located in the Texas marketing area. Handlers further maintained that regulating Gold Star under the merged order would result in removing a significant quantity of Class I sales from the Texas pool. The handlers maintained that Class I sales in the Texas marketing area should accrue to the benefit of all dairy farmers who are producers under the Texas order rather than dairy farmers who are producers under the merged order.

Regulation of the Gold Star plant under the merged order rather than the Texas order would have no impact on Gold Star's cost for milk at minimum order class prices. The Class II and Class III prices would be identical under both orders and the Texas order Class I price adjusted to the Clovis, New Mexico, location would be the same as the New Mexico-West Texas order Class I price at the same location. Currently, the Texas order recognizes the Class I prices that are established under the Rio Grande Valley order and provide for a minus $1.08 per hundredweight location adjustment at Clovis. Such location adjustment is the difference between the Texas order Class I differential of $3.28 and the $2.20 Class I differential that currently applies at Clovis under the Rio Grande Valley order. Recognition of the merged order's Class I price at Clovis would be continued under the Texas order, although the price levels under both orders would be modified to some extent as set forth under Issue No. 3. Since the classified use value of milk would be the same whether the plant is regulated under the merged order or the Texas order, a primary consideration is the difference in minimum order blend prices to producers that would be applicable under the respective orders at Clovis.

A Federal order blend price reflects the marketwide utilization of all producer milk associated with the market. The application of different order blend prices that reflect different supply and demand conditions to plants that rely on a common production area for a source of milk raises the potential for unstable marketing conditions in that the delivery of adequate supplies of milk for fluid use may be jeopardized. This would be expected since, all other factors being equal, dairy farmers would prefer to supply the plant at which the higher price applies. Consequently, the plant at which the lower blend price applies may have difficulty attracting a supply of milk even though identical class prices may apply.

It is not possible at this time to predict the blend price differences that may occur between the Texas and merged order. As previously stated, blend prices reflect a number of economic factors that influence supply and demand conditions in a given market. In addition, it is not possible to predict the amount of reserve milk supplies that will be pooled under the respective orders. With all the different factors involved, it would be extremely unlikely that the Texas order and merged order blend prices adjusted to the Clovis location would be the same.

The Rio Grande Valley order blend price has continually exceeded the Texas order blend price at Clovis since the location adjustment provisions of the Texas order were amended on September 1, 1986, to conform with the Class I differentials that were mandated in the 1985 Farm Bill. The Rio Grande Valley order blend price exceeded the Texas order blend by as much as 84 cents and by as little as 25 cents per hundredweight during September 1, 1986 through October 1989. It is not known if the Rio Grande Valley blend during this period is indicative of the blend prices that will result in the future. However, the Rio Grande Valley order is the largest and lowest Class I use market of the three orders that are being merged. Consequently, the blend price of the merged order, all other things being equal, would have exceeded the Texas blend at Clovis by somewhat greater amounts than previously indicated.

The Gold Star plant at Clovis is located deep within the proposed marketing area. The supplies of milk for the plant are primarily located in eastern New Mexico counties that are also a source of supply for other distributing plants at Amarillo and Lubbock that would be regulated under the merged order. As a result, this plant should be regulated under the merged order rather than under another order where most of its sales of fluid milk products are made. This will provide greater assurances that prices established at all plant locations (both class prices to handlers and blend prices to producers) will establish sufficient incentives for the delivery of milk for fluid use. There would be no assurance that regulating the plant under the order where it has the most sales would result in a price at such plant that is sufficient to attract milk to a specific location under the marketing conditions depicted.

The order should also provide shipping standards for pooling supply plants under the order on the basis of actual shipments of milk from such plants to distributing plants. The attached order provides for pooling a supply plant that transfers at least 50 percent of its receipts of milk during the month to pool distributing plants. The supply plant's receipts of milk would include the total quantity of milk received from dairy farmers and cooperative association handlers. Milk received from dairy farmers would include milk that is diverted from the supply plant as producer milk but would exclude milk received by diversion from another plant at the supply plant. Any supply plant that qualifies as a pool plant during each of the immediately preceding months of September through January should continue to qualify as a pool plant in each of the following months of February through August.

Each of the current orders that are being merged provides for pooling supply plants. However, there are no supply plants pooled under any of the orders and there is no recent history of supply plant activity in any of these markets. The production area is characterized by the existence of large dairy farms from which milk is moved directly to plants for processing without any need for the consolidation of milk supplies at supply plants. However, the merged order should provide for pooling supply plants in the event that any such plant should become associated with the market. In the event that such a plant were to become associated with the merged order, its performance should be based entirely on transfers of milk from such plant to pool distributing plants. No recognition should be given to milk that may be diverted from a supply plant to a distributing plant in determining whether the supply plant should be pooled under the order. Milk that is diverted from a supply plant to a distributing plant is essentially direct-shipped milk that, in effect, negates the necessity for the existence of the supply plant. Although some marketing efficiencies can result by basing the pooling performance in part on diverted milk, depending on the locations of the dairy farms relative to supply and distributing plants, there is no history of supply plant activity in these markets on which such a decision can be made. Consequently, in the absence of specific marketing conditions, the pooling standards for supply plants should be based on transfers of milk to recognize the traditional function of supply plants. In conjunction with the pooling standard, the supply plant definition contained herein also is restricted to

recognize transfers of milk to distributing plants.

The merged order should continue to provide for pooling cooperative association plants that are located in the marketing area as is currently provided under the Rio Grande Valley order. Such a provision recognizes the important function performed by cooperative associations in balancing the fluid milk needs of distributing plants.

Currently, there is only one manufacturing plant, operated by AMPI at El Paso, that is pooled under the Rio Grande Valley order. Such plant processes milk supplies that are in excess of the fluid milk needs of distributing plants. It is pooled under the order on the basis of AMPI's total performance in supplying the market.

Such a plant is currently pooled under the order if at least 50 percent of the milk delivered during the month by producers who are members of the cooperative association operating the plant is delivered to pool plants operated by other handlers. AMPI proposed that this overall pooling standard be reduced to 35 percent even though about 70 percent of its producer milk supply under the Rio Grande Valley order is delivered to pool plants. The lower pooling standard was proposed because AMPI anticipates that the substantial production increases that have occurred in New Mexico are likely to continue.

The Class I utilization of producer milk under the Rio Grande Valley order has declined from a yearly average of 72 percent in 1987 and 68 percent in 1988 to a ten-month average of 58 percent in 1989. However, the Class I utilization of producer milk under the order is not indicative of the milk production that is available in New Mexico. As previously stated, a substantial quantity of New Mexico production is pooled under the Southwest Plains and Texas orders. Consequently, the reduced pooling standard for cooperative association plants seems appropriate in view of marketing conditions.

The 35 percent pooling standard for a cooperative association plant that is located in the marketing area should be based on the total quantity of producer milk that is marketed by the cooperative association, not just the milk of members of the cooperative association. A true measure of the cooperative's overall performance must include all milk that is marketed. Also, the 35 percent standard should relate to shipments of milk to pool distributing plants, rather than shipments to pool plants of other handlers, in order to recognize the extent to which the cooperative association supplies the fluid milk needs of the market.

The pooling standards of the merged order for supply plants and cooperative association plants also provide for adjustments of up to 10 percentage points in the shipping standards by the Director of the Dairy Division. The opportunity to increase or decrease the shipping standards, if adjustments are needed to obtain additional shipments or to prevent uneconomic shipments, provides additional flexibility of the order to adjust to changes in supply and demand conditions.

The pool plant provisions of the order also specify that certain types of plants should not be pool plants. In addition to applying to "producer-handler" plants, such provisions basically pertain to distributing plants and supply plants that meet the pooling standards of other Federal orders. Such provisions are necessary to help eliminate the conflict that would otherwise exist if plants meet the pooling standards of more than one order.

Nonpool plants. A "nonpool plant" definition is provided to facilitate formulation of the various provisions of the order as they apply to such a plant. The three separate orders contain comparable nonpool plant definitions except that the Lubbock-Plainview order defines a "state institution plant" as a nonpool plant. It is also noted that the Rio Grande Valley order treats a governmental agency plant as a producer-handler.

The nonpool plant definition of the merged order includes the first four categories of nonpool plants that are contained in the three separate orders. This definition includes an "other order plant," a "producer-handler plant," a "partially regulated distributing plant," and an "unregulated supply plant." In addition, the merged order would include a "Governmental agency plant" as a nonpool plant, which basically incorporates a "State institution plant" that is currently defined in the Lubbock-Plainview order. Such a plant would be exempt from only the pricing and pooling provisions of the order, rather than from all order provisions as was proposed by AMPI. Such treatment would carry out the current regulatory treatment of the Rio Grande Valley order for a governmental agency plant. In addition, the merged order contains an "exempt plant" definition.

An exempt plant is defined as a plant that has a monthly route disposition of 150,000 pounds or less. The handler operating the plant would be exempt from the pricing and pooling provisions of the order, but would be required to file reports and maintain adequate books and records to allow the market administrator to verify the exempt status.

The exemption was proposed by AMPI on the grounds that a plant with such a limited volume of sales would not be a major competitive factor in the market. AMPI testified that one plant that was operating at the time the proposal was submitted would have qualified for the proposed exemption, but such plant ceased operations before the hearing was held.

It is noted that the 150,000-pound monthly size limitation for an exempt plant is substantially less than the average size of producers that are currently associated with these markets. Consequently, it would appear that a plant of such size would not be a disruptive factor in the market either in terms of sales of fluid milk products or in the procurement of raw milk supplies. Thus, the proposal, which was not opposed by any party, is adopted in the merged order.

Handler. The impact of regulation under an order is primarily on handlers. The handler definition identifies persons who will have responsibility for filing reports and making payments for milk under the merged order. The degree of regulatory responsibility of the various categories of handlers is specified in other provisions as is currently provided under the separate orders. The attached order designates handler status for the following persons:

(1) Any person who operates a pool plant;

(2) A cooperative association with respect to milk of producers that is diverted for its account;

(3) A cooperative association with respect to bulk tank milk of producers that is picked up at the farm for delivery to the pool plant of another handler;

(4) The operator of a partially regulated distributing plant;

(5) A producer-handler and any person who operates an exempt plant or a governmental agency plant; and

(6) The operator of an other order plant from which milk is disposed of in the marketing area and the operator of an unregulated supply plant.

The attached handler definition is a composite of the handler definitions of the three orders being merged and the definition proposed by AMPI. The AMPI proposal is similar to the current three orders, but excluded persons who operate other order plants and unregulated supply plants. No testimony or reasons were provided as to why such persons should be excluded from the handler definition. Since such persons are currently defined as

BEST COPY AVAILABLE

handlers and in the event that reports of milk receipts and disposition are needed from such persons by the market administrator, the merged order provides for a continuation of such designation. Also, the merged order identifies as handlers persons who operate an exempt plant or a governmental agency plant since such categories of nonpool plants are recognized under the order.

The AMPI proposal provided for a modification of the cooperative association bulk tank handler provision that is incorporated in the merged order. Each of the current orders provides that a cooperative association can be the handler on milk that is picked up at the farm for delivery to the pool plant of another handler in a tank truck owned and operated by or under the control of the cooperative association. However, two of the orders provide the cooperative association with the option to not be the handler on such milk by notifying both the market administrator and the handler operating the pool plant.

The attached order permits the pool plant operator to be the responsible handler on such milk if both the cooperative association and the pool plant operator notify the market administrator prior to the milk movement that they have agreed to this handling arrangement. The plant operator would also have to agree to purchase the milk on the basis of weights and tests determined at the farm. Under this arrangement the pool plant operator would be responsible for the milk in the same manner as producer milk received from individual producers at the plant directly from the farm. If the cooperative association and the pool plant operator do not agree on this handling arrangement, then the cooperative association would be the handler on such milk.

Producer-handler. The merged order provides for the exemption of a "producer-handler" from the pooling and pricing provisions of the order. The definition of a producer-handler that is contained in the merged order is the definition that is currently contained in the Rio Grande Valley order. Such definition is modified slightly to remove language that is no longer necessary and to specifically provide for the use of nonfat dry milk to fortify fluid milk products.

Each of the current orders being merged contains a producer-handler definition. The three definitions are significantly different in both construction and substance. The only relevant definition of the three, however, is the Rio Grande Valley order definition since there are no producer-handlers operating under the Lubbock-Plainview or Texas Panhandle orders.

In general terms, the Rio Grande Valley order defines a producer-handler as a person who processes and packages his or her own farm's milk production for route distribution in the marketing area. A producer-handler cannot receive fluid milk products from other dairy farms or from any source other than a pool plant. Purchases of fluid milk products from pool plants are limited to 11,000 pounds per month. The order also provides that a person who desires to qualify as a producer-handler must furnish proof to the market administrator that the care and management of all the dairy animals and other resources necessary to produce the fluid milk products handled is the personal enterprise of and at the personal risk of such person. The order also provides that the operation of the processing and distribution business must also be the personal enterprise of and at the personal risk of the same person.

The Rio Grande Valley order also defines a governmental agency plant and dairy farmers who produce and market "certified" milk as producer-handlers. These two aspects of the definition are deleted from the merged order definition since a governmental agency plant is handled under another provision and because there are no longer any certified milk producers.

AMPI testified that all persons operating plants that have route disposition in the marketing area should either be fully or partially regulated by the merged order. However, AMPI also testified that if it is the policy of the Department to provide an exemption from full regulation of persons who basically distribute only their own farm production on routes in the marketing area, then the producer-handler definition contained in the hearing notice should be adopted.

AMPI's proposed producer-handler definition contains substantial regulatory language that is designed to specify in greater detail than current provisions those criteria which the market administrator must consider in determining whether a person qualifies as a producer-handler. Generally, AMPI testified that the detailed provisions address the issue of whether the production, handling and distribution functions are attributable to the same person and whether such persons interact with other producers or handlers. Basically, AMPI testified that the proposed definition carries out the concept of the current definitions by requiring that a producer-handler exercise complete and exclusive control over the operation, both at the plant and farm level. Also, a producer-handler would be prohibited from being directly or indirectly associated with the business or management of, or having a financial interest in, any other handler's or producer's operation. In addition, the proposal would limit a producer-handler's purchases from pool plants to the lesser of 5 percent of Class I disposition or 5,000 pounds per month.

Two handlers that operate fully regulated plants supported AMPI's position with respect to producer-handlers. One handler testified that producer-handlers who are big enough to be a factor in the market should be fully regulated. The other handler testified that producer-handlers have a competitive advantage over fully regulated handlers since producer-handlers are not required to pay at least the minimum order Class I price for milk disposed of in fluid milk products. Also, the handler testified that the area is characterized by the existence of large production units, both among producers and current producer-handlers. Consequently, the handler testified that the producer-handler definition should continue to limit the amount of milk that producer-handlers can purchase from other handlers. The handler basically expressed the view that if producer-handlers were able to purchase unlimited supplies of milk from pool plants, they would have an advantage in competing with regulated handlers for fluid milk accounts because they are not fully subject to classified pricing.

Five producer-handlers that are currently regulated under the Rio Grande Valley order opposed the producer-handler definition proposed by AMPI. As an alternative, they proposed that the producer-handler definition of the Southwest Plains order be implemented in the merged order. They contend that the permitted purchases from pool plants (both in the AMPI proposal and the current Rio Grande Valley order) are overly restrictive for a producer-handler operation. They contend that producer-handlers are in general becoming a lesser factor in Federal order markets, even in those markets where there are no limits on the amount of regulated milk that producer-handlers can purchase. Furthermore, they argue that since purchases from pool plants accrue to the benefit of all producers who supply the market, there need not be any restriction on such purchases.

The producer-handlers also testified that they do not have a competitive advantage over regulated handlers because of the costs associated with

producing and balancing their own supplies of milk. Furthermore, they contend that they can only service certain types of accounts because their own farm production cannot be easily increased or decreased to meet varying sales volumes. Thus, the producer-handlers maintain that they are not able to compete with regulated handlers for sales to institutions, schools, or large-volume accounts whose demand for fluid milk products may fluctuate substantially.

The marketing of milk by producer-handlers in a regulated market has the potential of creating disorderly marketing conditions. When milk of a producer-handler is sold in a Federal milk marketing area, such milk is not priced by the order. In such case, the order does not provide uniform regulated pricing among competing handlers since fully regulated handlers must pay the minimum order Class I price for milk in fluid uses while producer-handlers are not required to do so. This raises the potential for competitive inequities among handlers. Furthermore, there is not an equal sharing among all dairy farmers in the market of the returns from the sale of all milk in all uses since producers whose milk is being priced under the order do not share in the Class I sales of producer-handlers.

The potential for producer-handler activity in a regulated market to be disruptive is minimized to the extent that they are required to be self-sufficient in their operations by order provisions. Generally, producer-handlers do not have a demonstrated advantage in a market in their capacity as either handlers or producers as long as they are solely responsible for their production and processing facilities and assume essentially the entire burden of balancing their production with their fluid milk needs. The degree to which producer-handlers must bear the risk of their total operations, including distribution activities, is a function of market characteristics and is the primary issue involved with respect to the producer-handler definition of the merged order.

Producer-handlers have historically represented a significant proportion of the fluid milk products distributed in the Rio Grande Valley marketing area. The nine producer-handlers regulated under the order during the most recent four months for which data is available (July-October 1989) represented as much as 9.7 percent and as little as 9.2 percent of route disposition in the marketing area.

Over time, the number of producer-handlers has gradually declined from 14 in January 1985 to the nine that are currently operating. During this time period, the proportion of sales each month by producer-handlers has generally tended to increase from about 7 or 8 percent in 1985 to 9 or 11 percent in 1989.

In view of the influence of producer-handlers in the Rio Grande Valley market, the producer handler definition of the merged order should not be relaxed to allow unlimited purchases from pool plants as proposed by producer-handlers. The Southwest Plains order definition that they proposed is not appropriate for the merged order. The marketing conditions of the Southwest Plains order are significantly different from those of the Rio Grande Valley order. Producer-handlers are an insignificant factor in terms of the Southwest Plains market in that such handlers represent less than 1 percent of sales in that marketing area. In addition, the producers who supply the Southwest Plains market are on average substantially smaller than those who supply the Rio Grande Valley market. In terms of the average daily deliveries per producer, producers who supply the Rio Grande Valley market are about 10 times larger than those who supply the Southwest Plains market. If any of these larger producers should acquire producer-handler status, they could represent a significant volume of fluid milk sales that would not be priced under the order.

In view of the production characteristics and the role played by producer-handlers in the Rio Grande Valley market, the producer-handler definition of the merged order should continue to require that producer-handlers bear a significant proportion of the risk of their total operations in order to be exempt from the pricing and pooling provisions of the order. Unlimited purchases from pool plants would amount to a reduction of the risk currently required of producer-handlers, even though such purchases would accrue to the benefits of all producers. Unlimited purchases from pool plants, in effect, results in nothing more than allowing producer-handlers to transfer a portion of the cost of balancing their milk supplies to other producers who supply the market. In order to assure that producer-handlers are bona fide operations that assume essentially all of the risk, the Rio Grande Valley order has restricted purchases from pool plants to 11,000 pounds per month since the inception of the order in 1962.

The Rio Grande Valley order producer-handler definition differs from that of the Southwest Plains in another significant manner. The Rio Grande Valley order requires that the distribution business, as well as the production and processing facilities, must be the personal enterprise of and at the personal risk of the same person. The Southwest Plains order does not address the distribution activities in its definition. This aspect of the Rio Grande Valley order has also been included since the order's inception. The continuation of this requirement in the merged order essentially encompasses the major criteria for acquiring producer-handler status under the AMPI proposal, but without the unnecessary order language contained in that proposal.

The current Rio Grande Valley order producer-handlers have operated under that order's definition for a number of years. Thus, they are knowledgeable of the current requirements to maintain their exemption from the pricing and pooling provisions of the order. To the extent that they currently satisfy the requirements for producer-handler status, they would be expected to continue to retain their current status under the same provision in the merged order.

Producer-handlers should not be subject to the administrative assessment applied under the order to defray the cost of administering the order as was proposed by AMPI. None of the orders being merged apply such an assessment to producer-handlers. The principal beneficiaries of the market administrator's activities with respect to producer-handlers are the regulated parties in the market. They are assured that producer-handlers are operating in accordance with the order requirements for attaining a partial exemption from the order.

Producer and producer milk. The "producer" and "producer milk" definitions of the merged order identify those dairy farmers who constitute the regular source of supply for the merged market and the milk that would be priced and pooled under the order. Generally, the producer definition identifies those dairy farmers who can or cannot be producers while the producer milk definition sets forth greater details on the ways that such milk can be handled and be subject to pricing under the order. The three current orders carry out the same concept although the construction of the regulatory language differs among the three orders and two of the orders contain in the producer definition the different handling methods that will be specified in the producer milk definition. Both definitions provided herein follow closely the definitions proposed by AMPI, except for a few modifications.

"Producer" status under the merged order is provided for any dairy farmer who produces milk approved by a duly constituted regulatory agency for disposition in the marketing area and whose milk is received at a pool plant directly from the dairy farmer or received by a cooperative association as a bulk tank handler. Producer status is also accorded to a dairy farmer who has established an association with the market and whose milk is diverted to nonpool plants on occasion for surplus disposal by cooperatives or pool plant operators. Such standards for producer status are currently specified under each of the three orders.

The merged order also provides that certain categories of operations should be excluded from the producer definition. Such exemption applies to producer-handler operations, exempt plants and plants operated by a governmental agency. Since these operations are exempt from the pricing and pooling provisions of the order, milk which is excess to the needs of such operators should not be treated as producer milk when it is moved directly from the farms of such operators to a pool plant. Any such milk delivered to a pool plant from such operations would be other source milk.

In addition, the merged order precludes the possibility of a dairy farmer being a producer under two orders with respect to the same milk. This is currently provided under each of the current orders.

AMPI proposed that producer status should not be provided to any person who delivers milk to or receives milk from a producer-handler, an exempt plant or who has disposition of fluid milk products to consumers at the farm in excess of 110 pounds per day during the month. Such a provision is not contained in any of the current orders and is not necessary under the merged order.

Provisions discussed previously excluded producer-handler, governmental agency and exempt plants from being pool plants. Thus, any dairy farmers who ship milk from the farm to a governmental agency or exempt plants would not be producers under the order. Furthermore, producer-handlers cannot receive milk from dairy farmers without losing their exempt status. A producer-handler that receives milk from another dairy farmer would become a pool plant under the order and, consequently, the dairy farmer supplier would qualify as a producer. Also, milk shipped from any such facility to another person who operates a pool plant would be treated as other source milk.

The proposed provision appears to be directed primarily to a hypothetical relationship between these exempt operations and another dairy farmer. The situation would involve the movement of milk from the exempt operation to a dairy farmer who has producer status under the order. Apparently, AMPI is concerned that such a subterfuge would allow an exempt handler to obtain the order bland price for milk that is surplus to the fluid milk needs of the handler's operations.

With respect to a producer-handler, such a movement of milk would represent a transfer of a portion of the risk associated with the operation since other dairy farmers would be bearing a portion of the costs of balancing the milk supplies for the producer-handler. In the absence of bearing the total risk, the requirements of the producer-handler definition in the merged order would not be met. In any event, there was no evidence presented, or any suggestion of the existence of such a marketing problem with respect to any of these exempt operations. Likewise, there is no indication that dairy farmers may be selling unprocessed milk directly to consumers. In the absence of evidence of a marketing problem, these aspects of the AMPI proposal are denied.

Producer milk is generally that milk which is received by the operator of a pool plant, milk that is received by a cooperative association as a bulk tank handler for delivery to a pool plant, and milk that is diverted to a nonpool plant. This is the case with respect to each of the orders being merged and such definition is continued in the merged order as proposed by AMPI. Modifications that were also proposed by AMPI are also incorporated in the merged order. The modifications concern the treatment of milk that is in transit at the end of a month, the amount of milk that may be diverted to nonpool plants, the degree of association with the market required of individual producers, the manner of accommodating excess diversions to nonpool plants, and the pricing point for diverted milk. In addition, the merged order contains a procedure to deal with diversions of milk that would otherwise result in depooling a distributing plant.

The attached order provides for pooling producer milk under the order during the month in which it is picked up at the farm, even if such milk is not received at a plant until the following month. Under this procedure, such milk would be included in the responsible handler's end-of-month inventory and will be priced at the location of the plant where the milk is physically received in the following month. A uniform application of pooling milk in the month in which it is picked up at the farm will simplify accounting procedures and is consistent with the regulatory treatment of such milk in adjacent orders that also regulate handlers who will be operating plants under the merged order.

The merged order should continue to provide for the pooling of milk that is associated with the market but which may not be needed at fluid milk plants during certain days of the week or seasons of the year. The most efficient way of handling such milk is to allow it to be moved directly from the farm to nonpool plants for processing. Allowing milk to be diverted to plants other than where it would normally be received, either by a cooperative association or the pool plant operator, minimizes hauling and handling problems that may otherwise be associated with the marketing of milk that exceeds the need for milk at pool plants.

The diversion limitations proposed by AMPI, and which are adopted herein, are less restrictive than those of the current orders and are more reflective of current marketing conditions. In order for a dairy farmer's milk to be eligible for diversion to nonpool plants during the months of September through January, at least one day's production of milk must be received at a pool plant during each of these months. Such requirement recognizes the months of the year when supply/demand conditions are relatively tighter and assures that a producer's milk is eligible for use in fluid milk products. During other months, the milk of a producer need not be received at a pool plant.

In addition to the individual producer requirement, pool plant operators would be allowed to divert to nonpool plants a quantity of milk that does not exceed the total quantity of milk that is physically received at pool plants of the handler as producer milk. Cooperative associations would be able to divert a quantity of milk that does not exceed the quantity of producer milk that the cooperative association caused to be delivered to and physically received at pool plants during the month. Such overall diversion limitations would apply during each month.

Any milk diverted in excess of the prescribed limits would not be producer milk. In such event, the diverting handler may designate the dairy farmer deliveries that should not be producer milk. If the handler fails to make a designation, then milk diverted on the last day of the month, then the second-

to-last day of the month, and so on, should be excluded until all diversions in excess of the prescribed limits are accounted for.

The merged order provides that milk may be diverted from pool plants to nonpool plants by both cooperative associations and the operator of the pool plant. With more than one handler diverting milk from the same plant, it is possible that a plant might not meet the order pooling standards. This could occur because diverted milk is considered to be a receipt of milk at the plant from which it is diverted. Consequently, the order should provide that the quantity of diverted milk that would cause a plant to lose its pooling status not be producer milk. Such excess diversions should be prorated among the diverting handlers.

All diverted milk should be priced at the location of the plant where the milk is physically received. The application of consistent pricing of milk at the plant of physical receipt is consistent with the requirement that the order establish prices that are uniform among handlers, subject to the location at which the milk is received.

2(b) *Classification of milk, class prices and other uniform provisions.* Each of the three orders being merged have the same classification plan. Such a uniform classification plan was implemented in these and most other orders on August 1, 1974. The need and basis for the implementation of uniform classification provisions is set forth in the Assistant Secretary's final decision issued on February 19, 1974, and published March 6, 1974 (39 FR 8712). In addition to providing for the uniform classification of milk according to use, the plan includes rules for determining the classification of milk that is moved from one plant to another and the procedure for allocating a handler's receipts of milk and milk products from various sources to the utilization of such receipts in each class.

The officially noticed classification decision also provided for a uniform butterfat differential to producers and definitions of "fluid milk product," "fluid cream product," and "filled milk." The fluid milk product definition was further amended on August 1, 1975, on the basis of a final decision issued on July 11, 1975, and published July 17, 1975 (40 FR 30119). The application of these uniform provisions will be continued under the merged order.

Other provisions that are the same in each of the three orders and most other orders would also be continued under the merged order. These provisions concern the obligations of a partially regulated distributing plant and the minimum order class prices to handlers. Each of the three orders provide for the same basic formula price, which is the Class III price for the month, and the same Class II price. The Class II price as well as the definitions of "product prices" and the "basic Class II formula price," are based on a final decision issued July 8, 1981, and published on July 14, 1981 (46 FR 36151). The procedure for announcing and determining the Class II price was modified in the three orders being merged and 36 other orders on December 4, 1989, on the basis of a tentative decision issued on November 8, 1989, and published on November 15, 1989 (54 FR 47527). The final decision, issued on March 23, 1990, and the order amendments issued were unchanged from the tentative decision.

The determination of the Class I price for the three orders, as well as all other orders, is also the same and will be continued in the merged order. The announced Class I price will be the basic formula price for the second preceding month plus a fixed differential. The current Rio Grande Valley order Class I differential of $2.35 will be continued as the announced Class I price under the merged order. Also, the $2.49 Class I differential that is currently applicable to plants regulated under the Lubbock-Plainview and Texas Panhandle orders will also be continued under the merged order in the form of location adjustments to the announced Class I price.

With the exception of the Class I price level and location adjustments, AMPI proposed a continuation of all those provisions that are uniform among a large number of orders and the three orders being merged. There was no opposition to a continued implementation of any of these uniform provisions or any testimony to consider a need to deviate from uniform procedures. There was also no opposition to or any proposed alternative to the method of determining the Class I price for the merged order. The only area of controversy concerned the intramarket and intermarket alignment of Class I pricing. The discussion of this issue, as well as the basis for continuing the current Class I differentials, is set forth under issue No. 3. Consequently, a continued application of the uniform provisions will not result in any change in regulation for currently regulated handlers.

2(c) *Distribution of proceeds to producers.* The merged order, as well as the three separate orders, provides for distributing among all producers who supply the market the total proceeds derived from the use of their milk by handlers. Essential to the operation of the order is the requirement that handlers report their total receipts and utilization of milk each month. The total value of all milk at the minimum order class prices is combined by the market administrator to compute the average or uniform price payable to producers. Handlers whose use value of milk exceeds the average use value for the market pay the difference into the producer-settlement fund that is maintained by the market administrator for distribution to handlers whose use value is less than the marketwide use value. Through this procedure, all producers who supply the market are able to share equally in the proceeds from the sale of all milk in all its uses. This concept of the payment procedure is continued in the merged order. Additional provisions that pertain to the dates when payment obligations to the market administrator and producers are required vary somewhat from the current orders. These modifications would not affect the total obligation required of handlers under the order at class prices for milk.

The major change from the current payment plans contained in the three orders that is incorporated in the merged order pertains to additional regulatory incentives for handlers to make prompt and timely payments to producers. This payment plan, which is currently operational in the adjacent Southwest Plains order, specifies that any handler who is more than three days late in meeting any payment obligation under the order is required to make all payments to the market administrator for three consecutive months. During such period, the market administrator makes payments directly to producers and cooperative associations as would otherwise be required of the handler.

AMPI testified that any handler who fails to make payments by the due dates specified is in violation of the order. However, AMPI also testified that it is often difficult to initiate and complete enforcement action in a timely manner to deal with late-payment issues.

AMPI testified that the Southwest Plains order payment plan has been successful in encouraging handlers to make payments on time. The plan establishes an economic incentive and a business practice motive to make timely payments. Any delinquent handler (one who is more than three days late in making any payment) is required to make payments to the market administrator. Thus, a delinquent handler forfeits the right to pay individual producers and cooperative

associations for three consecutive months for milk receipts. Also, such payments to the market administrator are required to be made one day earlier than they would otherwise be due so that the market administrator is able to make the payments to producers on the due dates specified in the order.

The failure of a handler to make timely payments deprives dairy farmers of the use of their income and affects their ability to meet their economic obligations. Furthermore, late payments by a handler affects the uniformity of the application of the regulatory program among competing handlers. Those handlers who make payments in accordance with the order provisions are disadvantaged relative to handlers whose obligations are paid late.

The proposed payment plan should be adopted to promote timely payments by handlers. The plan will not have an impact on handlers who continue to make their payment obligations by the dates specified in the merged order.

The dates for payments under the order are predicated on receiving handlers' reports of their receipts and utilization of milk on the seventh day of the month. This is the same day on which reports are due under the current Texas Panhandle order and the adjacent Southwest Plains order that served as a model for the proposed payment plan. The uniform price is to be announced on the 12th day of the month, which is the same as the current date for the Rio Grande Valley order. Payments to the producer-settlement fund would be required on the 14th day of the month while payments from the producer-settlement fund to handlers would be due on the 15th of the month. The final payment by handlers to producers would be due on the 17th of the month while payments to a cooperative association would be due two days earlier. Such payment procedures and the dates for making payments are the same as those provided under the Southwest Plains order. The only deviation from the Southwest Plains order is that the uniform price announcement date is the 12th of the month rather than the 11th. The use of the 12th of the month, however, provides for the same two-day duration between the uniform price announcement and the date for making payments to the producer-settlement fund that exists under two of the orders being merged and an additional day from what the Rio Grande Valley order provides. All of these dates were proposed by AMPI and they were not opposed by any regulated handler.

The order should also provide for a partial payment to producers for milk delivered during the first 15 days of the month as is currently provided by each of the three orders being merged. The partial payment rate should be the uniform price for the preceding month as is provided by the Rio Grande Valley order. The partial payment should be due on the last day of the month as is currently required under the three orders being merged for milk received from producers.

AMPI proposed that the partial payment be due on the 25th day of the month for milk received from producers and two days earlier for milk received from cooperative associations. AMPI testified that the partial payment date should be earlier than the current dates to get money to producers at an earlier date.

For milk received by a handler from producers who are members of a cooperative association, the proposed partial payment date (23rd of the month) would be three days earlier than what is provided under the Lubbock-Plainview and Texas Panhandle orders and three to six days earlier than what is provided by the Rio Grande Valley order. On the other hand, the proposed final payment date would be one to two days later than the dates provided by the current order. Thus, the proposed payment dates are somewhat in conflict with the stated purpose of earlier payments to producers. Also, AMPI, which represents virtually all the producers who supply the markets, already pays its members a partial payment on the 23rd and a final payment on the 12th or 13th of the month. Consequently, changing the partial payment date would not appear to have any significant effect in meeting the stated objective.

AMPI's proposal would compress the payment schedule to provide eight days between the final payment for the previous month and the partial payment for the current month. Providing for a partial payment at the end of the month would provide as few as 11 and as many as 14 days between the final and partial payments. Thus, the adopted partial payment date would seem to provide for a more even distribution of proceeds to producers and workload for handlers. Also, such partial and final payment dates would be identical to those of the Southwest Plains order and result in greater uniformity of payment schedules throughout the region.

AMPI also proposed additional regulatory language to specify in greater detail the rate and manner for making payments to a cooperative association that is the handler on milk supplied to pool plants and for milk that is purchased by a handler from a pool plant operated by a cooperative association. Under the proposal, the partial payment would be at the uniform price for the previous month, although purchases from cooperative association pool plants could be adjusted by the butterfat differential for the previous month to better reflect the butterfat content of such purchases. The proposed final payment would be at the current month's blend price for milk purchased from a cooperative association handler and at class prices for milk purchased from a cooperative association pool plant. Such payment provisions are identical to those contained in the Southwest Plains order and should be equally appropriate for the merged order.

At the hearing, AMPI revised its proposal to distinguish between bulk fluid milk and bulk fluid cream products purchased from a cooperative association pool plant. AMPI suggested that the partial payment for bulk fluid cream products should be at the Class II price with a permitted adjustment for butterfat content.

The proposed modification would not change the total obligation for purchases from pool plants. Consequently, it does not appear necessary to complicate the payment provisions to differentiate between purchases of bulk fluid milk and cream purchases from cooperative association pool plants. Such a distinction is not recognized in any of the three orders being merged or adjacent Federal order markets.

2(d) Administrative provisions. A number of administrative provisions that are contained in the three orders must of necessity be continued in the merged order. Also, the separate funds that have been accumulated under each of the orders to defray the cost of administration and providing marketing services to producers, as well as the producer-settlement fund reserves, should be consolidated under the merged order. Consolidation of these funds provides an effective and equitable way of avoiding an interruption of services and regulations in the area. Any liabilities of such funds under the current orders should be paid from the appropriate new fund under the merged order. Similarly, any obligations that are due to the several funds under the individual orders should be paid to the appropriate combined fund under the merged order.

Each of the three orders provides for a maximum administrative assessment of five cents per hundredweight and

maximum marketing service deduction of six cents per hundredweight. Such rates should be continued under the merged order. Both the administrative assessment (which is paid by handlers) and the marketing service assessment (which is paid by producers) are established at maximum rates that can be reduced as circumstances warrant. The producer-settlement fund reserve of each of the three orders is maintained by deducting not less than four cents nor more than five cents per hundredweight in the uniform price computation each month while one-half of the unobligated balance in such fund is added to the price computation each month. Such process is continued in the merged order although a procedure is established to allow for a reduction to the producer-settlement fund reserve. This is accomplished by specifying that no more than five cents can be deducted in the uniform price computation. This procedure, as well as the continuation of the current assessment rates and the consolidation of the funds mentioned previously, were proposed by AMPI and were not opposed.

A proposal by AMPI to establish a charge on overdue accounts under the merged order should also be adopted. Such a charge is currently applicable under the Lubbock-Plainview and Texas Panhandle orders. Under the merged order, such charge on any unpaid obligation of a handler should be increased by one percent. The charges should apply on the first day the payment is past due and on the same day of each succeeding month until the obligation is paid. Payments subject to the charge would be those due from handlers to the producer-settlement fund, to producers and cooperative associations, for order administration, for marketing services and for audit adjustments.

Any obligation that was determined at a date later than that prescribed by the order because of a handler's failure to submit a report to the market administrator when due should be considered to have been payable by the date it would have been due if the report had been filed when due. Also, the order provides that all late-payment charges shall accrue to the administrative expense fund.

A charge on overdue accounts is necessary to maintain a sufficient incentive for handlers to meet their financial obligations in accordance with the payment dates specified in the order. Effective administration of the order cannot be maintained if funds are not made available on a timely basis to meet all financial obligations associated with the administration of the order and payments for milk received from producers and cooperative associations. Late payments by handlers disrupt the operation of the order, disrupt the financial obligations of other parties, and result in inequities among handlers. Although handlers who pay late are subject to enforcement proceedings, the late-payment charge, in conjunction with the payment provisions adopted herein, may serve to lessen the need for such actions.

AMPI proposed that any late-payment charges that are applied should accrue to the fund to which the payments apply. This aspect of the proposal, however, should not be adopted. Rather, all charges on overdue accounts should accrue to the administrative fund since it is this fund that is used by the market administrator to enforce the payment provisions of the order on all handlers.

3. *Location adjustments under the merged order and the Texas and Southwest Plains orders.* The location adjustment provisions of the merged New Mexico-West Texas order should incorporate, for the most part, the pricing structure within the marketing area that currently exists under the three separate orders. The only pricing change that is necessary in the merged marketing area is the elimination of a minus 15-cent location adjustment in four eastern New Mexico counties that currently applies under the Rio Grande Valley order. No location adjustments should apply to milk that is priced under the merged order but which may be received at plants located outside the marketing area. Also, in order to recognize the creation of the merged order, conforming changes are necessary in the location adjustment provisions of the adjacent Southwest Plains and Texas orders. Both orders reference the three separate orders in their respective location adjustment provisions, and, thus, such provisions must be modified to reflect the marketing area consolidation and marketing area name change.

In conjunction with the 15-cent pricing change in eastern New Mexico, the Texas order Zone 1 Class I differential should be reduced by 12 cents per hundredweight. Such pricing change will reduce the entire price level for the Texas market since Class I prices paid by handlers and blend prices payable to producers for milk received at plants in all other pricing zones in the marketing area are specified as either plus or minus adjustments to the Zone l price. These pricing changes will result in reducing the difference in Class I prices between eastern New Mexico (Clovis) and the Texas market by 27 cents per hundredweight. Such pricing change will reflect the appropriate intermarket alignment of pricing that is necessary to recognize the cost of hauling milk from a common surplus production area to alternative outlets for Class I use. These pricing changes refine the west to east alignment of pricing that currently exists under the separate orders. In order to further recognize the increasing prices from west to east, a minus 21-cent location adjustment should be established in Zone 6 (San Angelo) of the Texas marketing area. Such zone is the westernmost zone in the marketing area and its western boundary is adjacent to the lower-priced eastern New Mexico production area.

The current Rio Grande Valley order utilizes a zone pricing system for establishing location adjustments for Class I prices paid by handlers and blend prices payable to producers. The order specifies three pricing zones although only two price levels are provided. Zone 1, which is the base zone for announcing Class I prices to handlers and blend prices to producers, includes El Paso county, Texas and most of the New Mexico territory (20 counties) in the marketing area. Zone 1 includes the major population centers in the marketing area and all of the distributing plants that are currently regulated under the order are located in such zone. No location adjustment applies to milk received at plants in Zone 1. Thus, the Class I price is the basic formula price for the second preceding month plus a Class I differential of $2.35 per hundredweight.

Zone 2 includes San Juan County in New Mexico and the three southwestern Colorado counties that are in the marketing area. A minus 15-cent location adjustment, or a $2.20 Class I differential, applies to such area, although there were no longer any fully regulated plants located in the area at the time of the hearing.

A minus 15-cent location adjustment also applies to Zone 3 of the marketing area, which includes seven eastern New Mexico counties. The Gold Star plant at Clovis and the Roswell production area are located in this Zone. As previously stated, the Gold Star plant is currently regulated under the Texas order and a $2.20 Class I differential is applicable at such plant under the Texas order as well as under the Rio Grande Valley order.

The Lubbock-Plainview order currently provides for a $2.40 Class I differential and no location adjustments are applicable within the marketing area. The Texas Panhandle order also provides for a $2.40 Class I differential.

The location adjustment provisions provide for reducing the Class I and blend prices by 1.5 cents per ten miles for plants that are located 100 miles or more from Amarillo. Such adjustment, however, is not applicable to any regulated plants. The Class I differentials for the two orders were increased to $2.40 effective May 1, 1986, as mandated by the Food Security Act of 1985. Prior to such date, the Lubbock-Plainview Class I differential was $2.42 and the Texas Panhandle Class I differential was $2.25.

The Texas order currently utilizes a pricing structure that provides for 13 pricing zones in the marketing area. Zone 1 (which includes the Dallas/Ft. Worth metropolitan area) is the basing point for announcing the Class I price to handlers and the blend price payable to producers each month. No location adjustment is applicable to milk received at plants in such zone, thus the order Class I differential of $3.28 is directly applicable in establishing monthly Class I prices. Monthly Class I and blend prices for milk received in all other zones are established by location adjustments to the Zone 1 price.

A minus 25-cent location adjustment applies to Zone 1A, which is northwest of Zone 1. Zones 2 and 6 are located east and west, respectively, to Zone 1 and currently no location adjustments are applied to milk received at plants in such zones. In effect, the $3.28 Class I differential is applicable in such zones and extends across the State of Texas from the western Louisiana border to the eastern New Mexico border. On the east the $3.28 Class I differential abuts with an identical differential under the Greater Louisiana order while on the west the $3.28 differential abuts with the $2.20 Class I differential that is applicable under the Rio Grande Valley order.

The current Texas order Class I differential was implemented on May 1, 1986, as a result of the 1985 Farm Bill and represents a 96-cent increase from the $2.32 Class I differential that existed previously. The previous Texas order Class I differential was three cents per hundredweight less than the Rio Grande Valley order Zone 1 differential that was not modified by the 1985 Farm Bill. The significant change in the east-west price relationship, which currently provides for a $1.08 per hundredweight difference between the Texas order and eastern New Mexico Class I differentials ($3.28–2.20), is the focal point for the price changing proposals considered at this hearing. It is noted that the pricing issue was previously considered at a regional hearing that was held on proposals to amend the location adjustment provisions of these orders to conform with the Class I differentials mandated by the Food Security Act of 1985. On the basis of that hearing, the Zone 6 plus 25-cent location adjustment was eliminated. The final decision setting forth the reasons for this and other pricing changes was issued on October 30, 1986 (51 FR 40176).

The remaining zones in the Texas marketing area are south of Zones 1, 2, and 6. Plus location adjustments are applicable to milk received at plants in such zones. The purpose of the higher prices in the southern zones of the marketing area is to compensate producers for the economic service they provide to handlers by hauling milk from northern production areas to the deficit milk producing area in the south for fluid use. A detailed explanation for the need and purpose of this pricing structure is set forth in the previously noticed final decision.

Resolution of the pricing issue involves a consideration of both the intramarket pricing structure for the merged marketing area as well as the intermarket pricing structure between the merged order and the Texas order. AMPI's location adjustment proposal was directed primarily towards the pricing structure within the merged marketing area. However, AMPI's proposed pricing change for the eastern New Mexico area would lessen the current price differences between Clovis and the Texas market. Handler proposals, on the other hand, focused primarily on the intermarket price relationship and were intended to reduce the price difference by a greater amount than would be provided by AMPI's proposal. Summaries of the various proposals, as well as the testimony presented as to the need and basis for the proposals, are as follows. Also, testimony in opposition to various aspects of the proposals, as well as testimony in opposition to any pricing change, is presented.

AMPI proposed that the zone pricing structure of the Rio Grande Valley order be extended to the merged marketing area, but with some price modifications. AMPI proposed that Zone 1 of the marketing area include El Paso County, Texas, and six southwestern New Mexico counties. For such zone AMPI proposed a $2.36 Class I differential, or five cents below the current price level applicable in the area. Zone 2 would include the same counties currently included in Zone II of the Rio Grande Valley order, with a minus location adjustment of 16 cents per hundredweight. Thus, the proposal would provide for the same price level that currently exists in such area and would reflect a Class I differential of $2.20.

All remaining territory in New Mexico would be included in Zone 3 with a plus five-cent location adjustment, resulting in a $2.35 Class I differential. This would result in maintaining the current price level in Albuquerque and increasing the price level at Clovis in eastern New Mexico by 15 cents per hundredweight. The proposal would also provide for including all remaining Texas territory in Zone 4 with a plus 14-cent location adjustment, or a $2.34 Class I differential. This would result in a 5-cent per hundredweight price decrease from the current price level at Amarillo and Lubbock.

AMPI testified that the 15-cent increase in eastern New Mexico is necessary to help bear the cost of hauling milk to the Gold Star plant at Clovis. AMPI testified that most of the milk supply for the plant originates in Chaves County (Roswell) and that the distance from the center of the production area to Clovis is about 100 to 110 miles. Thus, the implied hauling rate is about 1.5 cents per 10 miles. Also, AMPI testified that the nine-cent higher price at Lubbock, relative to Clovis, is necessary to reflect the additional 60-mile distance to haul milk to Lubbock from Roswell versus hauling the milk to Clovis. Such rate also equates to 1.5 cents per 10 miles.

AMPI also testified that the 1.5-cent rate was used because it is the rate for establishing location adjustments that is currently used under the three orders being merged. AMPI testified that actual hauling costs are in excess of 3.0 cents per hundredweight per 10 miles. In addition, AMPI testified that milk production in the Roswell area is utilized to supply milk to plants at Clovis and Lubbock and on occasion for plants at Amarillo and Albuquerque. Overall, AMPI testified that the pricing changes were intended to result in approximately the same amount of total dollars being paid to producers for milk under the merged order that exists currently under the three separate orders.

AMPI's proposed price increase at Clovis, to cover some of the cost of hauling milk from Roswell to Clovis, would result in reducing the difference between the Class I prices at Clovis and the Texas market by 15 cents per hundredweight. AMPI opposed all other proposals that would reduce the price difference between the two areas by greater amounts. AMPI testified that its proposed 93-cent price difference

between Dallas and Clovis ($3.28 Class I differential at Dallas minus the proposed $2.35 Class I differential at Clovis) is essentially the same over the 425 miles between the two locations as the current price difference between Hillsboro, Kansas, and Dallas. AMPI also noted that for a plant located at a similar distance to the east of Dallas the Class I price would be seven cents higher than at Dallas. As a result, AMPI concluded that a number of different pricing relationships exist and that it would appropriate to establish handler prices on the basis of competitive prices that exist in their areas of distribution. Such prices, AMPI contends, should be based on the price level that is necessary to attract a supply of milk to plant locations for Class I use.

AMPI further argued that the current price relationship in the western and southern parts of the country are superior to the pricing alignment that existed prior to the May 1986 implementation of the Congressionally mandated Class I differentials. As a result, AMPI testified that any action to reduce the Texas order Class I differential would disrupt the improved price relationship between the Texas market and other Federal order markets. In addition, AMPI testified that any such price reduction would not be warranted in view of the supply/demand relationship exhibited for the Texas market.

The Dairy Products Institute of Texas (DPIT) proposed that the Class I price difference between Clovis and the Texas market should be reduced by 50 cents per hundredweight through a combination of a price increase at Clovis and a price decrease at Dallas. DPIT testified that the mandated Class I differentials destroyed the Class I price alignment that existed previously between the Texas and Rio Grande Valley orders. It argued that the price relationship that existed previously (Dallas was 12 cents higher than Clovis) was superior to its proposed pricing changes but that its proposal would alleviate some of the inequity that currently exists. DPIT testified that under the current pricing structure, the Class I price differences between Clovis and Texas order distributing plants at San Angelo, San Antonio and Corpus Christi reflect alignment rates of 3.8 cents, 3.0 cents, and 2.7 cents per hundredweight, respectively, over the distances involved. DPIT argues that such price differences are excessive and represent a significant misalignment of prices. Under its proposal, DPIT testified that the price alignments would reflect a rate of about 2.0 cents per hundredweight between Clovis and the three Texas locations.

DPIT testified that a misalignment of prices can have at least two different disruptive impacts on distributing plants. In the first instance, a plant may not be able to obtain a sufficient supply of milk if it is competing with other plants at which higher prices apply. In such case, the plant operator would have to increase the price it pays to obtain a milk supply. On the other hand, DPIT testified that a plant that has a sufficient milk supply may not be able to compete successfully in selling fluid milk products in competition with other plants whose procurement costs are significantly lower.

DPIT maintains that the statute authorizing milk orders requires that prices for milk be uniform among regulated handlers and that an administered pricing system should minimize any misalignment of prices that creates inequities among handlers or causes handlers to go out of business. Basically, DPIT maintains that the present pricing structure is misaligned to the extent that competition among regulated handlers is inequitable and disorderly. It contends that operators of distributing plants in the Texas marketing area are unable to compete effectively with the Clovis distributing plant for sales of fluid milk products in the Texas marketing area because the minimum order Class I price that is applicable to the Clovis plant is substantially lower than the Class I prices that apply to plants in the Texas marketing area.

DPIT further testified that a price reduction is warranted for the Texas market. DPIT maintains that a price reduction is appropriate in view of the significant increase in milk production that has occurred in Texas. As a result of the production increase, DPIT testified that substantial quantities of Texas production must be hauled to distant manufacturing plants located outside Texas for surplus disposal. In addition, DPIT notes that a number of suspension actions have been taken in response to production increases to accommodate the marketing of Texas milk that is surplus to the needs of the market.

MorningStar Foods, Inc., and Hygeia Dairy Company supported the DPIT proposal to reduce the Class I price difference between eastern New Mexico and the Texas order by 50 cents per hundredweight. The two handlers, which account for seven distributing plants that are regulated under the Texas order and two nonpool plants at which regulated milk is received, also proposed location adjustment changes for areas within the Texas marketing area that are located north and east of Dallas. Such changes are conditioned on the extent to which the Texas order Class I differential is reduced in response to the DPIT proposal. For the area north of Dallas, which encompasses Zone 1A of the Texas marketing area (Burkburnett), the handlers proposed that the current minus location adjustment be revised to result in a Class I differential that continues to be one-half of the difference between the Dallas and Oklahoma City Class I differentials. For east Texas areas included in Zones 2 and 4 of the marketing area, the handlers proposed a price increase if the Dallas Class I differential is reduced by more than 20 cents. For each one-cent reduction beyond 20 cents, the handlers proposed that the Zone 2 and 4 plus location adjustments be increased by one cent. Also, for each one-cent drop in the Dallas Class I differential beyond 16 cents, the handlers proposed a plus one-cent location adjustment for a proposed Zone 8–A that would include Jefferson and Orange counties. The handlers testified that these location adjustment changes for east Texas locations are necessary to establish a reasonable price alignment between the prices established in such areas under the Texas order and the prices established in adjacent Louisiana territory under the Greater Louisiana order. These price modification proposals were also proposed and supported by Borden, Inc., which operates seven distributing plants that are regulated under the Texas order.

A witness for MorningStar and Hygeia testified that the current price difference between eastern New Mexico and Texas is excessive. As an example, the witness testified that the Clovis distributing plant has a $1.50 per hundredweight Class I price advantage over the MorningStar plant located at San Antonio. The witness testified that such price difference over the 500 miles between Clovis and San Antonio equates to a disadvantage of three cents per hundredweight per 10 miles.

The witness also testified that the Texas market is no longer a deficit market. The witness maintained that production increases in Texas have resulted in a surplus of production over the milk needs of the market. The witness noted that Texas order provides a transportation credit to handlers for costs incurred in hauling milk to plants outside Texas for surplus disposal. During the last half of December 1988 and June 1989, the witness noted that 26

and 35 million pounds of Texas production, respectively, qualified for the transportation credit.

Under these marketing conditions, the witness testified that there is no basis for the continuation of the current pricing structure that encourages the movement of packaged milk into the Texas marketing area from New Mexico. Basically, the witness maintained that current prices provide a competitive advantage to the distant Clovis plant over Texas plants while a surplus of milk production already exists in the Texas market.

The witness also supported a modification of AMPT's zoning proposal for the merged order. The modification would include Curry county (where the Gold Star plant at Clovis is located) and four other eastern new Mexico counties in the same pricing zone as Amarillo and Lubbock and at the same price level that currently exists for plants in these west Texas cities. Such a modification would result in a $2.49 Class I differential value being applicable at Clovis, a 29-cent increase from the current differential. The witness testified that this would result in including all directly competing fluid milk processing plants located in the Panhandle area and eastern New Mexico in the same pricing zone. Also, the witness testified that the distributing plants at these three locations form a triangle where all the plants are about 100 miles from each other. With a 29-cent increase at Clovis, the Texas order Class I differential would have to be decreased by 21 cents to establish the 50-cent pricing realignment.

The witness further testified that bulk raw milk can be hauled for about $1.60 per loaded mile. Such cost represents a hauling rate of about 3.3 cents per hundredweight per 10 miles for a 48,000-pound load. The witness testified that historically the cost of hauling packaged milk has exceeded the cost of hauling bulk milk. However, the witness maintained that this situation may no longer be true because of the advent of new distribution methods. The witness contended that the distribution of packaged fluid milk products in one-way corrugated boxes, with the availability of backhaul revenues, reduces hauling costs to one-half of the cost of hauling packaged milk in milk cases. Under these circumstances, the witness maintained that price differences should not exceed more than the two cents per hundredweight per 10 miles that would be provided by the DPTT proposal.

As previously stated, MorningStar, Hygeia and Borden, Inc., also proposed location adjustment changes for north and east Texas pricing zones to conform with the proposal to realign prices between eastern New Mexico and Texas. The handlers proposed that the minus location adjustment for Zone 1A (Burkburnett), which is north of the Dallas-Fort Worth base zone, continue to be one-half of the difference between the Class I differentials at Dallas and Oklahoma City. Currently, the Texas order provides for a minus 25-cent location adjustment for Zone 1A, which is about half of the 51-cent difference between the $2.77 Class I differential at Oklahoma City and the $3.28 Texas order Class I differential at Dallas. Thus, if the Dallas Class I differential were reduced by 20 cents, the handler proposed that the Zone 1A location adjustment be reduced to minus 15 cents.

The handlers also proposed location adjustment changes for Zones 2 and 4 of the Texas marketing area to maintain an alignment of pricing with the Greater Louisiana order if the Texas order Class I differential were reduced by more than 20 cents. The handler proposed that for each one-cent drop of the Class I differential beyond 20 cents, the Zones 2 and 4 plus location adjustments should be increased by one cent. In addition, the handlers proposed that a new Zone 8A, consisting of the east Texas counties of Jefferson and Orange, be established if the Texas order Class I differential were reduced by more than 16 cents. For each one-cent drop beyond 16 cents, the Zone 8A plus location adjustment would be increased by one cent. Currently, Zone 8 (Houston) has a plus 54-cent location adjustment. Thus, the handlers maintain that with a price drop of more than 16 cents, a price increase would be necessary in the eastern portion of Zone 8 to align prices with those established under the adjacent Greater Louisiana order.

Borden, Inc., which operates a substantial number of regulated distributing plants located in Texas and New Mexico, supported the DPIT proposal to realign prices between New Mexico and Texas. Borden testified that the Class I differentials established by the 1985 Farm Bill placed Texas handlers at a severe disadvantage in competing for fluid milk sales in the Texas marketing area with the Gold Star plant at Clovis. Borden noted that the mandated differentials resulted in changing the Class I differential at Albuquerque from three cents more than Dallas to 93 cents less than Dallas and that the differential at Clovis changed from 12 cents less than Dallas to $1.08 less than Dallas. Furthermore, Borden maintains that the plant at Clovis has a significant additional advantage over plants located in the Texas marketing area south of Dallas. For example, Borden testified that the differential at Clovis was changed from 54 cents less to $1.50 less than the differential at San Antonio, and that the differential at Clovis was changed from 78 cents less to $1.74 less than the differential at Corpus Christi.

Borden maintains that these price differences are so great that they created an incentive for a handler to locate a plant at Clovis and distribute packaged milk into the Texas marketing area in competition with Texas plants. Borden contends that such an incentive for west to east movements of milk is contrary to the flow of national Federal order pricing. It claims that a 50-cent change in price alignment is the minimum amount that is necessary to limit the current misalignment, but that there appears to be no reason why the differential at Clovis should be any less than the $3.28 Class I differential that is applicable at Dallas. Borden testified that it had lost a number of fluid milk accounts, had been unable to obtain a number of new accounts, or had to reduce prices because of Gold Star's ability to offer a lower price based on its milk procurement cost advantage.

Dean Foods Co., which operates at least one distributing plant under each of the orders (except the Texas Panhandle order) involved in this proceeding, supported AMPT's proposal to increase the Class I price at Clovis by 15 cents. Dean contends that there never was a reason for a lower Class I price at Clovis than at Albuquerque. Dean testified that an attempt was made to correct the pricing problem at Clovis at the regional hearing that was held to make the location adjustment provisions conform with the mandated Class I differentials. Dean noted that at that time (1986) the plant was regulated under the Rio Grande Valley order and was operated by Safeway. Dean testified that Safeway's distribution was confined to a smaller area and was limited to its own stores. Dean testified that marketing conditions have changed in that Gold Star's sales are not limited to its own stores and that its distribution area is extensive, as evidenced by the plant's regulation under the Texas order.

Dean testified that with a 15-cent increase at Clovis, the Texas order Class I differential should be decreased by 15 cents, resulting in a 30-cent price decrease between Texas and New Mexico. Dean testified that a price reduction of more than 15 cents for the Texas order would disrupt the pricing alignment between the Texas order and other orders to the north and east.

Although Dean supported a 30-cent change in price alignment between New Mexico and Texas, Dean also supported

the proposed modification to include Amarillo, Clovis and Lubbock in the same price zone on the basis that handlers at such locations compete with each other for fluid milk sales. In addition, Dean offered a location adjustment modification at the hearing to provide for a minus 24-cent location adjustment for Zone 6 (San Angelo) of the Texas marketing area. Dean testified that such lower price for this westernmost portion of the Texas marketing area is consistent with the west to east alignment of pricing indicated by other proposals.

Scheppe-Foremost, which operates distributing plants under the Texas and Greater Louisiana orders, also testified to the misalignment of Class I prices between Clovis and Dallas that resulted from the Food Security Act of 1985. Although Schepps concurred with other handlers that the Texas order Class I price is too high, Scheppe testified that the Texas order Class I differential should not be decreased because such action would result in a misalignment of pricing between Class I prices at Dallas and Shreveport under the Texas and Greater Louisiana orders, respectively. Schepps testified that Class I prices should be the same at Dallas and Shreveport, which is currently the case, since its plant at Shreveport distributes in the Texas marketing area and because at least eight Texas plants distribute in the Greater Louisiana marketing area. Schepps maintained that such plants should not be given a competitive advantage over Greater Louisiana plants in selling fluid milk products in that marketing area because of a pricing problem between Texas and New Mexico.

Schepps testified that the pricing problem should be rectified by increasing the Class I price at Clovis by 28 cents. Schepps maintained that such a price increase is justified in view of the distance that milk is shipped to supply the Clovis plant versus the distance that milk is shipped to supply plants in El Paso. Schepps testified that the weighted average distance that milk is hauled to Clovis is about 40 miles further than the weighted average hauling distance to plants in El Paso. On this basis, Schepps concludes that with a 3.3-cent per ten-mile hauling rate, the Class I price at Clovis should be about 13 cents higher than the current Rio Grande Valley order Zone 1 differential of $2.35, or $2.48 per hundredweight.

The Kroger Company, which operates one distributing plant under the Texas order, supported a reduction of the difference in the Class I differentials between eastern New Mexico and the Texas order. However, Kroger opposed any significant decrease in the Texas order Class I differential that would disrupt the Class I price alignment between the Texas order and other orders to the north and east.

Dairymen Inc. (DI), a cooperative association that represents producers under the Greater Louisiana order and other orders in the Southeast, opposed any lowering of prices in east Texas that would disrupt the alignment of pricing with the Greater Louisiana order and markets further to the east. DI testified that any change in the eastern Texas pricing should be limited to the price differences that existed prior to the 1985 Farm Bill. DI testified that any changes beyond such differences (nine cents between Tyler and Shreveport and one cent between Beaumont and Lake Charles) could result in a need for further price adjustments in southeastern markets. In this regard, DI testified that there is no indication of any price alignment problems in the southeast and that current prices existing in the southeast are necessary to obtain adequate milk supplies.

Mid-America Dairymen, Inc., and Southern Milk Sales, cooperative associations that represent producers under the Texas and other orders, opposed any lowering of the Texas order Class I differential. The cooperatives testified that the basis for establishing prices under Federal orders should be limited to a consideration of the price levels necessary to attract a supply of raw milk to distributing plants. The cooperatives testified that on the basis of the 420-mile distance between Clovis and Dallas and a conservative bulk milk hauling cost of $1.65 per loaded mile, the cost of milk delivered to Dallas from Clovis is 36 cents more per hundredweight than the Dallas Class I differential. Thus, the cooperatives contend that there is no basis for lowering the Texas order Class I differential.

Farm Fresh, Inc., a handler who operates a distributing plant under the Southwest Plains order, filed a brief in opposition to proposals to lower the Texas order Class I differential. Farm Fresh contends that a lowering of the Texas price would disrupt the alignment of prices between the Texas order and other orders to the north and east. Farm Fresh contends that any such action would place Oklahoma handlers in a disadvantageous pricing position. Farm Fresh contends that plants to the north and east of Oklahoma would continue to have their prices reduced at 2.6 to 2.8 cents per 10 miles while Oklahoma plants would have a lesser price gradient to move packaged products south and west.

Gold Star Dairy, which operates a distributing plant at Little Rock under the Central Arkansas order in addition to the plant at Clovis, testified in opposition to the pricing proposals. Gold Star maintained that neither the price increase at Clovis nor the decrease to the Texas order Class I differential were justified. In fact, in its brief, Gold Star argued that the Clovis price should be reduced because of the production increases that have occurred in New Mexico while the Texas price should be increased because the market exhibits characteristics of a deficit market.

Gold Star testified that considerations involved in the acquisition of the Clovis plant included the proximity of the plant to New Mexico surplus production, the nature of its distribution system to supply distant warehouse customers, and the ability to serve such customers from a production area with transportation costs averaging about 3 cents per 10 miles for packaged milk, which is slightly less than bulk milk hauling costs. Nevertheless, Gold Star maintained that in no case are its transportation costs less than the current Federal order location adjustment allowances.

Gold Star testified that Class I prices under Federal orders are generally established on the basis of distance from major surplus milk producing areas to deficit markets. In this regard, Gold Star testified that the Class I price increases mandated by the 1985 Farm bill included Texas and Oklahoma, as well as other markets whose supply sources are directly or indirectly related to the surplus milk areas in Wisconsin. However, no increase was provided for New Mexico, which Gold Star contends was an apparent recognition of New Mexico as a secondary surplus production area for purposes of establishing minimum class prices under other orders.

In this regard, Gold Star testified that the price relationship between Clovis and Dallas is essentially the same as the price relationship between Springfield, Missouri, and Dallas. In addition, Gold Star contends that eastern New Mexico now represents a more efficient source of milk supplies for the Texas market than northern milk supplies in southeastern Missouri because farms in New Mexico are substantially larger than those in Missouri. Gold Star maintains that milk can be picked up at a single farm in New Mexico for shipment to Dallas plants and, thus, is a more efficient milk supply than milk

collected from a number of farms in Missouri for shipment to Dallas.

In view of the production increases in New Mexico, and in view of the large size of the farms, Gold Star maintains that New Mexico now represents an alternative source of milk for the Texas market and possibly the Southwest Plains market. Furthermore, Gold Star maintains that the competition for New Mexico supplies is not significant since there is evidence of a substantial surplus of production that is hauled to distant plants in Texas, Oklahoma and Kansas for manufacturing.

Gold Star also testified that the cost of hauling bulk milk from Clovis to a number of Texas locations is greater than the difference between the Class I prices at Clovis and these Texas locations. On the basis of a 3.5 cent per hundredweight hauling cost, Gold Star concludes that at all Texas locations, except San Angelo, hauling costs exceed the Federal order minimum price differences. With respect to a similar comparison between Roswell and Texas locations, Gold Star concludes that it is only at San Angelo where a significant misalignment of pricing exists. At all other locations, Gold Star contends, the amount of unrecovered transportation costs (hauling costs in excess of order price differences) would be intensified by the price change proposals. Basically, Gold Star contends that based on bulk milk hauling costs, there is no basis for either increasing the price at Clovis or decreasing the Texas order price at any location except possibly at San Angelo. Since hauling costs exceed order price differences, Gold Star concludes that there is no misalignment of prices or any indication that the pricing changes are necessary to compensate producers for the economic service that they provide to various handlers by delivering milk to plants at different locations for fluid use.

The pricing issues involved in this proceeding are essentially the same as those considered at a regional hearing held in 1988 on proposals to modify location adjustments to align prices among Federal order markets to conform with the Class I differentials mandated by the Food Security Act of 1985. Such officially noticed final decision (51 FR 40176) for the Texas and six other Federal order markets clearly sets forth the economic concept and basis for establishing an appropriate alignment of pricing within and among Federal order markets. Basically, the Class I price level in any market is constrained by the cost of milk in alternative markets plus the cost of hauling bulk milk from such alternative sources of supply. In effect, the regulated minimum price level in each market, in the long run, cannot significantly exceed the cost of milk from an alternative lower-price production area. Such an alignment recognizes economic alternatives and results in the lower-price area being a basing point from which price constraints in other markets are established.

Such decision also explains that adjustments to Class I and blend prices are necessary to reflect the various locations at which milk may be received from producers. Such adjustments reflect the cost of hauling milk from where it is produced to where it is needed for use in fluid milk products. Location adjustments reflect the cost of the economic service provided by producers to handlers at varying locations. The value of the service provided varies in terms of both distance and the cost of hauling bulk milk. The extent to which there is adequate compensation for the value of the services provided raises an issue of equity, both among producers and handlers.

In this context of Federal order pricing, the concept of price alignment involves a consideration of whether the price that applies at any plant or in any pricing zone is too high or too low relative to the prices that are established to attract milk to other locations. A resolution of the issue requires an identification of the primary production areas, the location of the processing plants, the alternative distances between production areas and plants, and the cost of hauling bulk milk.

As a further prelude to a resolution of the issue, it is necessary to point out that the issue of price alignment between New Mexico and Zone 6 of the Texas marketing area was also considered in the previously noticed final decision. On the basis of that hearing, a plus 25-cent location adjustment that applied in Zone 6 was eliminated to recognize a lower-cost alternative source of supply located to the west of San Angelo. A proposal to provide for a minus 25-cent location adjustment in Zone 6, however, was denied. Such denial was based on the fact that Zone 6 covers a large geographic area that extends from New Mexico on the west to Zone 3 of the Texas order on the east. Also, a distributing plant, which no longer exists, was located in the eastern part of Zone 6 in Brown County adjacent to the heavy milk-producing counties in the Stephensville, Texas, area. Thus, the decision concluded that any price change in Zone 6 was limited by the proximity of such plant to the heavy milk-producing area of the Texas market. Consequently, the decision concluded that the elimination of the plus 25-cent location adjustment was as much of a pricing change that could be made at that time to reflect the changed price relationship between west Texas and the Rio Grande Valley order.

It is further noted that a proposal to establish a plus 15-cent location adjustment in eastern New Mexico was also denied in the same decision. Such price increase was denied because it would have been totally inconsistent with the intent of Congress (which mandated no price change for the Rio Grande Valley order), the supply/demand relationship within the marketing area, and the pricing structure of the market. The decision noted that the pricing structure of the Rio Grande Valley order reflected the need for milk to move from eastern New Mexico to consumption centers in central New Mexico and El Paso.

It is also noted that a previous proposal by Dean Foods, Borden and MorningStar to hold a hearing to change the pricing structure of the Rio Grande Valley order was denied. The proposal would have increased the Class I differential in Zone III of the marketing area (Clovis) to $2.49 (the same level as Amarillo and Lubbock) and decreased the Zone 1 Class I differential (Albuquerque and El Paso) to $2.28. Such proposal was denied for consideration at a hearing since it would be inconsistent with the purpose of location adjustments in that it would increase the price in a surplus area and decrease the price in an area of somewhat deficit production. The denial indicates that a price increase in southeastern New Mexico would inhibit the movement of milk from that area to plants located to the east and west that rely on such production for their supplies of milk for fluid use.

The proposals to reconsider the pricing issues, particularly the handler proposals to realign prices between eastern New Mexico and Texas, are based on two changes in marketing conditions. The primary change and area of concern among Texas handlers is the distribution of fluid milk products into the Texas marketing area from the Clovis plant since Gold Star began operating the facility. The second change in marketing conditions is the increase in milk production that has occurred in the Texas marketing area. Handlers basically contend that the price level for the Texas market could stand to be reduced to some extent, to assist in rectifying the price alignment

problem, because of the increase in production that has occurred.

The handlers' position that a price reduction is justified for the Texas order because milk production has increased is somewhat in conflict with their position that milk prices should be increased in eastern New Mexico where milk production has also increased significantly. Milk production has increased in both Texas and New Mexico even though the Food Security Act of 1985 provided for no Class I price increase under the Rio Grande Valley order and a 96-cent increase under the Texas order. There is no information in the record of this proceeding to determine the extent to which price levels should be reduced, separate and apart from the price alignment issue, to establish a disincentive for milk production. A resolution of the price alignment issue, however, does require a 12-cent per hundredweight reduction of the Class I differential under the Texas order, as well as other pricing changes. In total, the pricing changes included herein will result in a lowering of returns to producers in the Texas and New Mexico areas. Although the price changes will lower returns to producers, and possibly production, such action is being taken for price alignment reasons and is not an attempt to determine the extent to which a disincentive for milk production may be necessary.

With respect to the price alignment issue, Texas handlers contend that they are not able to compete on an equitable basis with Gold Star for fluid milk sales in the Texas marketing area because of the substantially lower price that applies at Clovis relative to prices at Texas locations. They basically contend that prices are not uniform among competing handlers, as required by the Act, since the Clovis Class I price is $1.08 less than the base zone Texas price, with even greater price differences between Clovis and southern portions of the Texas marketing area.

In this regard, price uniformity among handlers does not mean that price levels must be the same at all plants that compete with each other for fluid milk sales. The Act specifically provides that prices shall be uniform as to all handlers, subject to a number of adjustments including the locations at which the delivery of milk is made to handlers. In order to have any meaning, such adjustments must be related to those prices that are necessary to attract raw milk to specific locations relative to other locations. Once a pricing structure is established to attract raw milk to where it is needed, handlers are then free to compete for sales in any area that they desire. This does not mean, however, that all handlers will have the same economic access to all sales areas.

The contention by handlers that price differences affect their ability to compete for sales is not, in itself, an appropriate basis for establishing location adjustments. As previously stated, location adjustments are based on those factors that are relevant to determining the prices that are necessary to attract raw milk to various plant locations. However, to the extent that location adjustments, or price differences, do not reflect the appropriate delivery incentives for producers, handlers may be unduly affected in either sales or procurement activities.

In this regard, there were a number of contentions expressed at the hearing and in briefs as to the possible reasons for which any one handler may lose, or may have lost, sales to other handlers. Sales of fluid milk products change hands continuously for any number of reasons. Price, quality, product line, plant and distribution efficiency, type of distribution, and any number of other interacting factors may be reasons for sales shifts among plants. A differentiation of the probable impact of these variables on sales, however, is not necessary to resolve an identified raw milk price alignment problem. A significant misalignment of pricing, because of an improper recognition of factors justifying price differences, is a basis for pricing changes. Proper price alignment is necessary to assure that inequitable raw milk prices are not a significant factor in affecting the competitive conditions among regulated handlers.

The difference in Class I prices between Clovis and Dallas is essentially the same as the current price difference between Springfield, Missouri, and Dallas. With the distances between Dallas and Clovis and between Dallas and Springfield being similar, the price differences reflect alignment rates of a little more than 2.5 cents per 10 miles. It is on this basis that Gold Star contends that the price level at Dallas is not out of line with the price level at Clovis. However, the Texas order provides for plus location adjustments for areas south of Dallas. Such higher prices in southern portions of the Texas marketing area are necessary to provide incentives and compensate producers for hauling milk from the major northern production area of the Texas market to deficit major consumption areas in the south, particularly Houston and San Antonio. As a result of the plus location adjustments to the south, as well as the east to west pricing that maintains the Texas order base zone price from Louisiana to New Mexico, it is in the southern and western portions of the Texas marketing area where prices are out of line with the eastern New Mexico price at Clovis. The magnitude of the problem is best illustrated by the $1.08 price drop at the New Mexico-Texas border. However, the actual degree of price misalignment is calculated by comparing the current Class I differential of $2.20 at Clovis plus the additional cost of hauling bulk milk from the Roswell production area to Texas locations with the current Texas order Class I differential at such locations.

The calculations to determine the necessary price alignment change are similar to those made by Gold Star. However, a hauling rate of 3.0 cents per 10 miles is used rather than the 3.5-cent rate used by Gold Star. The 3-cent rate is a conservative estimate of bulk milk hauling costs and is the same hauling rate used to establish the appropriate pricing differences between the major consumption centers of the Texas market. Testimony presented at the hearing with respect to actual hauling rates does not suggest that current bulk milk hauling costs are significantly different than those utilized to construct the Texas order pricing structure. Also, it is necessary to use a conservative hauling cost estimate to avoid the possibility of using overstated hauling costs that could provide incentives for uneconomic movements of milk for hauling profits. Furthermore, since the issue is one of alignment between New Mexico and Texas, it is appropriate to utilize the same hauling rate as reflected in the Texas market in the absence of testimony indicating a significantly different hauling cost.

In addition to using a lower hauling rate, the calculation procedure differs from Gold Star's procedure by using only the additional mileage that milk would have to be hauled to Texas locations from Roswell rather than being hauled to Clovis. Also, all mileages are those that are contained in the officially noticed Mileage Guide (Household Goods Carriers' Bureau, Mileage Guide No. 13, issued May 31, 1985).

Roswell represents a heavy milk-producing area from which milk is shipped to Clovis and Texas locations. As indicated under issue No. 1, milk production in eastern New Mexico is surplus to local needs and is currently shipped to plants regulated under five different Federal orders. Consequently, milk produced in the area is an actual

and potential source of supply for fluid milk plants in New Mexico and Texas.

Clovis represents the nearest outlet for Roswell production and the cost of hauling milk the 111 miles is paid by the dairy farmer suppliers. In order for prices to be properly aligned, and to attract Roswell production to other locations, the price level at any other location would have to approximate the Clovis price level plus the additional cost of hauling the milk the additional mileage to such location. If the constructed price (Roswell price of $2.20 plus hauling) is less than the current price level at any location, then the current price level is too high, or misaligned, relative to the Roswell supply area. If the constructed price is greater than the current price, then Roswell does not represent an economical source of supply.

The additional distances that milk would have to be hauled from Roswell to Texas locations are as follows: San Angelo, 194 miles; Dallas, 371 miles; Austin, 404 miles; San Antonio, 409 miles; and Corpus Christi, 551 miles. The additional hauling costs plus the $2.20 Clovis Class I differential would result in the following Class I differentials: San Angelo, $2.80; Dallas, $3.34; Austin, $3.43; San Antonio, $3.43; and Corpus Christi, $3.88.

The constructed Class I differential for Dallas exceeds the current Texas order Class I differential by six cents per hundredweight. At all other locations the constructed differentials are less than the Texas order Class I differentials by the following amounts: San Angelo, 48 cents; Austin, 15 cents; San Antonio, 27 cents; and Corpus Christi, six cents.

The preceding price differences illustrate that the price misalignment with Clovis is greatest in the southern and southwestern portions of the Texas marketing area. Obviously, the greatest price differences exist for those portions of the Texas marketing area that are nearest to the lower-priced eastern New Mexico supply area. The more distant areas in eastern Texas are more insulated from the lower-priced Roswell production area by distance and the associated hauling costs. This is also true with respect to the northern portion of the Texas market because of the lower value of milk in that area.

The focal point for determining the magnitude of the price alignment problem must rest with the price comparison between Clovis and San Antonio. San Antonio in Zone 9 is the third most heavily populated pricing zone in the Texas marketing area. Such zone, in conjunction with Zone 1 (Dallas) and Zone 8 (Houston), is a major pricing point within the entire pricing structure of the Texas marketing area. Each of these heavily populated areas relies on the heavy northern Texas production areas for their sources of milk. The price relationship between these three zones is designed to attract milk from northern areas and to compensate producers for the varying services they provide in shipping milk to plants in each of the pricing zones. The prices in all other zones, except Zone 6 (San Angelo) and Zones 10, 11 and 12 that are south of San Antonio, are based to some extent on the prices necessary to attract milk to plants in Zones 1, 8 and 9 from north Texas production areas. Consequently, the price relationship between eastern New Mexico and the Texas market should be reduced by 27 cents rather than the 50-cent change that was proposed by a number of handlers. Any price alignment change of less than 27 cents would not resolve the pricing problem between Clovis and San Antonio. On the other hand, a change of more than 27 cents (such as the 48-cent difference at San Angelo) would be excessive at San Antonio and at all other locations except San Angelo.

It is important to emphasize at this point that it would not be possible to restrict the pricing changes that are necessary to only the southern and western portions of the Texas marketing area. Any limitation of pricing changes to such areas of the Texas marketing area (which were not proposed except for San Angelo) would make no economic sense and would disrupt the pricing structure of the Texas order. For example, a 27-cent price change only at San Antonio, on the basis of the Roswell production area, would result in a price at San Antonio that would not be sufficient to attract a supply of milk from the nearer north Texas production area. The current plus 42-cent location adjustment at San Antonio under the Texas order is necessary to attract milk from and compensate producers in the Erath County area for shipping milk the extra distance to San Antonio rather than shipping milk to plants in the Dallas/Fort Worth area. Basically, a lower price limited to San Antonio would provide a pricing structure to attract milk from 320 miles away in Roswell rather than from 205 miles away in Erath County. Such a pricing structure would not promote hauling efficiencies. Consequently, the 27-cent price change between eastern New Mexico and the Texas market can only be accomplished through a combination of a price increase at Clovis and a price reduction for the Texas market by reducing the Base Zone Class I differential.

The Class I price at Clovis should be increased by 15 cents per hundredweight as proposed by AMPI. As a result of the increased volume of milk that is processed at the plant, the supply source for the Gold Star plant now extends to the Roswell production area. The higher price will compensate producers for a greater proportion of the hauling cost that they incur in shipping milk over the 111 miles from Roswell to Clovis. The expansion of the procurement area to obtain sufficient supplies of milk for the plant indicates that producers are providing a service of greater value to Gold Star than was previously provided by producers when sufficient supplies of milk were available nearer to Clovis than Roswell.

In this regard, there is some merit to the testimony presented by Schepps-Foremost which indicates that the weighted average hauling distance to supply Gold Star at Clovis is greater than the average hauling distances involved in supplying distributing plants at either Albuquerque or El Paso. On this basis, it would appear to be reasonable to conclude that the Class I price at Clovis should be higher, rather than lower, than the current price levels at either Albuquerque or El Paso.

Establishing a higher price at Clovis that would be about the same as the current price level at plants to the east would provide for no price difference to recognize the additional hauling costs incurred in shipping milk beyond Clovis to either Amarillo or Lubbock. There is currently a 29-cent higher Class I price at Amarillo and Lubbock than at Clovis. These cities are 104 and 65 miles further, respectively, from the Roswell supply area than is Clovis. Consequently, the argument by handlers to include the three cities in the same pricing zone because plants at these locations compete for fluid milk sales is irrelevant in view of the different distances that such cities are from the Roswell supply area. Milk in the Roswell production area continues to be necessary to supply the fluid milk needs at Lubbock, and to a lesser extent, Amarillo. Thus, the price increase at Clovis should be limited to 15 cents and the current price levels should be maintained at Amarillo and Lubbock to provide an additional 14 cents to cover a portion of the extra hauling cost to such locations. As a result, the proposal to reduce the Class I price at Amarillo and Lubbock is denied since a price reduction would be contrary to the west to east price increase to reflect additional hauling costs.

Although the Class I price should be increased at Clovis, such increase should not be applied to the three southeastern New Mexico counties of Chaves (Roswell), Eddy and Lea, as was proposed by AMPI. Although there are currently no fully regulated plants in these counties, the Roswell production area should not be included in the same pricing zone as Clovis. Since the principal issue is the additional price that is necessary to compensate for some of the hauling cost to Clovis, the production area should continue to be priced at a lower level. Thus, a minus 15-cent location adjustment should continue to apply in this area.

The proposal to lower the Class I price at El Paso by five cents per hundredweight also should not be adopted. The only reason presented by AMPI for such a reduction (as well as the reductions at Amarillo and Lubbock) was the objective to offset the price increase at Clovis. As previously stated, the objective of AMPI's pricing proposals for the merged order was to maintain about the same overall level of returns to dairy farmers as currently exists under the three separate orders. This objective will not be attained under the merged order. The only pricing change that is necessary is the price increase at Clovis to cover more of the hauling cost incurred in moving milk greater distances from Roswell to meet the fluid milk needs of the Clovis distributing plant. However, on a broader basis, overall returns to producers will be reduced in the Texas—New Mexico region because of the reduction to the Texas order Class I differential to reflect the price alignment problem.

The price increase at Clovis will result in all of the major distributing plants in New Mexico being subject to the same minimum order Class I price. Such pricing change recognizes that it is no longer necessary to maintain a pricing structure in New Mexico that encourages milk from the southeastern New Mexico production area to move south to El Paso or west to Albuquerque as well as to the east. Although the Roswell production area will be included in the lowest price zone and milk from that area will be able to be moved in all directions as needed, the pricing change recognizes the primary need for such milk to move north and east.

The prices that are necessary to compensate producers for hauling services that they provide to handlers has been considered in terms of differences in Class I prices that are paid by handlers. The location adjustments to Class I prices are the same adjustments that are applicable to blend prices that are payable to producers. However, an analysis of the differences in blend prices between orders at specific locations as calculated by Gold Star in considering whether location adjustment changes may be necessary was not relied on in this decision. As stated under a previous issue, the blend price that may result under the merged order is not known. Furthermore, a market's blend price is a measure of a market's supply/demand situation at a given point in time that is a response to any number of factors that affect the supply of and demand for milk and dairy products. A blend price comparison among markets which merely illustrates different varying supply/demand relationships among markets is not in itself a sufficient basis to modify or not modify location adjustments.

The merged New Mexico-West Texas order should not provide for any location adjustments on milk received at plants located outside the marketing area. As a result, it is also not necessary to provide for location adjustment credits for milk that may be transferred from supply plants to distributing plants for Class I use. Such credits, which are intended to prevent a lowering of returns to producers, are unnecessary because any milk received from distant sources would be priced at the same level as milk received in Zone 1 of the marketing area.

AMPI proposed that the location adjustments for distributing plants located outside the marketing area be equal to the differences between the merged order's Class I differential and the price established at the plant by the Federal order regulating milk marketing in the area of such plant. The concept of the proposal is that the prices that are established in other Federal orders are those prices that are necessary to attract sufficient supplies of milk to any plant location. Thus, the value of milk at any distant plant that may become regulated under the merged order should not change as a result of a regulatory change.

The Class I price level for the New Mexico-West Texas order is significantly lower than the Class I prices that are provided in all surrounding Federal milk orders. Consequently, the proposal would result in establishing plus location adjustments for milk received at plants that are located outside the marketing area. In this regard, AMPI suggested that such adjustments should be applied to distributing plants but not to supply plants or to milk that is diverted from the New Mexico-West Texas order to distant plants for surplus disposal. Establishing higher prices outside the marketing area would not provide an incentive for distant supply plants to ship milk to distributing plants for Class I use. Also, milk that may be diverted to distant plants would be worth more than milk received at plants in the marketing area for fluid use.

In view of the pricing structure in the region, it is not possible to establish a lower value of milk at distant locations relative to the marketing area and also recognize the greater value of milk established under surrounding Federal order markets. Consequently, no location adjustments should be established under the New Mexico-West Texas order for milk received at plants located outside the marketing area.

The Texas order Class I differential should be reduced by 12 cents, from $3.28 to $3.16 per hundredweight. The reduction is necessary to incorporate the 27-cent pricing change between eastern New Mexico and the Texas order. As previously stated, this pricing change is necessary to reflect an appropriate alignment of pricing between the orders on the basis of the alternative costs of hauling bulk milk from the Roswell production area to alternative plant outlets for fluid use. The 12-cent reduction would apply throughout the Texas marketing area and would result in Class I differential values of $3.16, $3.58, and $3.82 at San Angelo, San Antonio and Corpus Christi, respectively. At San Antonio, the focal point for determining the appropriate price alignment on the basis of the three cents per 10-mile bulk milk hauling cost, the $1.23 price difference between Clovis and San Antonio ($3.58–$2.35) would reflect an alignment rate of 2.46 cents per 10 miles over the 494 miles between the two locations. At Corpus Christi, the 12-cent price drop would reflect a 2.3-cent per 10-mile alignment rate with Clovis over the 636 miles. Thus, a constant price drop reflects a lesser alignment rate as distance from Clovis increases. Also, at San Angelo, the 81-cent price difference from Clovis would reflect a 2.79-cent per 10-mile alignment rate over the 282 miles from Clovis.

Because of its proximity to Roswell, an additional price reduction is necessary at San Angelo as proposed by Dean and as recognized by other hearing participants. As previously calculated, the additional cost of hauling bulk milk from Roswell to San Angelo versus hauling milk to Clovis results in a Class I differential value at San Angelo

that is 48 cents below the current Texas order Class I price at San Angelo. As a result of the 27-cent change in the price relationship between Clovis and the Texas market, a further reduction of 21 cents at San Angelo is necessary to reflect the appropriate value of milk delivered to San Angelo relative to the Roswell supply area.

It is noted that a 21-cent reduction at San Angelo will no longer result in a price that will be competitive to attract milk to San Angelo from the heavy milk-producing areas of the Texas marketing area around Erath County. Obviously, in order to attract milk from such an area that is east of San Angelo, the price at San Angelo would have to be higher, rather than lower, than prices that exist to the east of San Angelo. However, the application of a higher price, or even the application of the same price at San Angelo as at Dallas that currently applies, does not recognize the lower value of milk that is available to the west in New Mexico. It is the New Mexico supply of milk with its lower value that must be recognized in establishing the value of milk delivered to San Angelo.

It is also noted that Zone 6 of the Texas marketing area covers a large geographic area although only the San Angelo plant currently exists in the area. Consequently, the minus 21-cent location adjustment for Zone 6 that is necessary at the San Angelo location is not necessarily representative of the value of milk delivered to any other potential plant location in this zone.

As a result of lowering the Class I differential, the minus location adjustment for Zone 1A of the Texas marketing area should be changed to continue to reflect one-half of the difference between the Texas and Southwest Plains Class I differentials. Currently, the Texas order Class I differential is 51 cents greater than the Southwest Plains order Class I differential. As a result, the location adjustment for Zone 1A is minus 25 cents. With a 12-cent decrease to the Texas differential, the Zone 1A location adjustment should be reduced to minus 19 cents, about one-half of the established 39-cent difference between the Texas and Southwest Plains order Class I differentials. Such change will result in recognizing the north to south alignment of pricing between the two orders.

The 12-cent reduction of the differential does not require any changes to the location adjustments of the pricing zones in the eastern portion of the Texas marketing area that are adjacent to the Greater Louisiana marketing area. The 12-cent reduction in Zones 2 (Tyler), 4 (Lufkin), and 8 (Beaumont) of the Texas marketing area will not result in Class I prices that are out of line with the Class I prices established under the Greater Louisiana order at the relevant points of Shreveport and Lake Charles.

Currently, the Class I price at Tyler is the same as the Class I price at Shreveport, which is 95 miles east of Tyler. Prior to the 1986 increase to the Texas and Greater Louisiana orders, the price at Tyler was nine cents less than the price at Shreveport. Basically, lowering the Class I price at Tyler will reestablish the west to east pricing that previously existed and is not excessive over the mileage involved.

The price at Lufkin, which is south of Tyler and Shreveport, is currently 18 cents greater than the price at Shreveport and 22 cents less than the price at Lake Charles, which is further to the south. With the price reduction, the Lufkin price will be six cents greater than the Shreveport price and 34 cents less than the price at Lake Charles. The latter price difference is not excessive over the 140 miles between Lufkin and Lake Charles.

Currently, the price at Beaumont is four cents greater than the Lake Charles price and will be eight cents less than such price because of the reduced Class I differential. Such price difference is also not excessive over the 58 miles between the cities.

In addition to purely Class I price alignment considerations, there is no information in the record of this proceeding to indicate that prices need to be modified, or increased, in these eastern Texas locations as a result of decreasing the Texas order Class I differential. Current prices in these eastern zones are based on the additional bulk milk hauling costs that are incurred in shipping milk to such zones from the northern production areas of the Texas market. Since the prices in these zones will continue to have the same relationship with the Class I price at Dallas, there is no indication that price increases are necessary to compensate northern area producers for the additional service they provide to handlers in these zones relative to shipping milk to Dallas area plants.

As a result of the marketing area merger to form the New Mexico-West Texas order, conforming changes are necessary to the location adjustment provisions of the Texas and Southwest Plains orders. Both orders reference, by name and CFR Part number, the three separate orders included in the merger. Thus, the provisions are modified to recognize the merged order.

An additional modification to the Texas order location adjustment provisions is included to delete the reference to a number of counties in southwest Missouri. Such counties were included in the Southwest Plains marketing area after the Texas order was last amended to recognize the pricing of milk in such counties. Since the Texas order references the Southwest Plains marketing area, the listing of such counties in the Texas order is no longer necessary.

The Texas order is also modified by changing the minus 20-cent location adjustment for Bowie and Cass counties in Texas to minus 8 cents. Such modification reflects the 12-cent reduction to the Class I differential and continues to establish the same price in such counties that is recognized by the Central Arkansas and Southwest Plains orders. Such modification is consistent with the 12-cent location adjustment change that occurs in all those areas where the Texas order location adjustment is the difference between the Texas order Class I price and the Class I price established by another order. In addition, to reflect the 12-cent price drop, the Texas order location adjustment for Louisiana locations is modified to establish the plus location adjustments that are necessary to reflect the higher value of milk in Louisiana. Currently, no location adjustments are applied to Louisiana because the Class I price of milk at Shreveport and Dallas is the same.

Three additional nonsubstantive changes are included for the Southwest Plains order. Typographical errors in three different sections of the order are corrected.

Rulings on Proposed Findings and Conclusions

Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

A brief filed by Gold Star argues that little weight should be given to certain testimony presented by two witnesses representing MorningStar Foods, Inc., Hygeia Dairy Co., and Borden, Inc. Additionally, Gold Star argues that it

would be more appropriate to reverse rulings of the Administrative Law Judge and, thus, strike the testimony of the witnesses. In the event that such motions are not granted, Gold Star requests that the hearing be reopened or the record be supplemented with additional information obtained by Gold Star after the closing of the hearing.

All the testimony and information associated with Gold Star's requests relate to changes in sales outlets among regulated handlers, and the possible reasons for such shifts in outlets. In this regard, the decision concludes that changes in sales occur for any number of reasons. However, the extent to which sales shifts may or have occurred is of little importance to the extent that a misalignment of raw milk pricing is identified. The magnitude of the misalignment of pricing, in terms of the additional costs involved in hauling bulk milk from procurement areas to alternative outlets, is identified and rectified. The magnitude of the price alignment problem is a sufficient basis in itself to justify the pricing changes included herein. Basically, little weight need be given to the testimony concerning sales shifts among plants, and additional information concerning possible reasons, other than price, that may have caused changes in sales is not necessary. Consequently, the motion to reopen or supplement the record is denied. Also, no useful purpose would be served in reversing the rulings of the Administrative Law Judge. Such rulings were appropriate since testimony of regulated handlers concerning sales changes that may be a result of inequitable pricing is relevant to the issues considered at the hearing. However, the extent to which factors other than raw milk prices may be associated with sales shifts is not a matter that needs to be dealt with in this decision.

General Findings

The findings and determinations hereinafter set forth supplement those that were made when each of the aforesaid orders were first issued and when they were amended. The previous findings and determinations are hereby ratified and confirmed, except where they may conflict with those set forth herein.

(a) The tentative marketing agreements and the New Mexico-West Texas order (which merges and amends the Rio Grande Valley, Texas Panhandle, and Lubbock-Plainview, Texas, orders), and the Texas and Southwestern Plains orders as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in each of the aforesaid marketing areas, and the minimum prices specified in the tentative marketing agreements, the merged New Mexico-West Texas order, and in the Texas and Southwest Plains orders, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(c) The tentative marketing agreements, the merged New Mexico-West Texas order, and the Texas and Southwest Plains orders, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, marketing agreements upon which a hearing has been held;

(d) All milk and milk products handled by handlers, as defined in the tentative marketing agreements, the merged New Mexico-West Texas order, and in the Texas and Southwest Plains orders, as hereby proposed to be amended, are in the current of interstate commerce or directly burden, obstruct, or affect interstate commerce in milk or its products; and

(e) It is hereby found that for the merged New Mexico-West Texas order the necessary expense of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, as his pro rate share of such expense, 5 cents per hundredweight or such lesser amount as the Secretary may prescribe, with respect to milk specified in § 1138.85 of the aforesaid tentative marketing agreement and the New Mexico-West Texas order.

Recommended Marketing Agreements and Order Amending the Orders

The recommended marketing agreements are not included in this decision because the regulatory provisions thereof would be the same as those contained in the merged New Mexico-West Texas order and the Texas and Southwest Plains orders, as hereby proposed to be amended. The following order amending the orders regulating the handling of milk in the respective marketing areas of these orders is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out.

List of Subjects in 7 CFR Parts 1106, 1126, and 1138

Milk marketing orders.

The authority citation for 7 CFR parts 1106, 1126, and 1138 continues to read as follows:

Subpart—Order Regulating Handling

General Provisions

§ 1138.1 General Provisions.

The terms, definitions, and provisions in part 1000 of this chapter are hereby incorporated by reference and made a part of this order.

Definitions

§ 1138.2 New Mexico-West Texas marketing area.

The *New Mexico-West Texas marketing area*, hereinafter called the "marketing area", means all territory within the boundaries of the following counties, and all territory occupied by government (Municipal, State or Federal) reservations, installations, institutions, or other similar establishments if any part thereof is within any of the listed counties:

Zone 1: Following counties—Bernalillo, Catron, Cibola, Colfax, Curry, De Baca, Dona Ana, Grant, Guadalupe, Harding, Hidalgo, Lincoln, Los Alamos, Luna, McKinley, Mora, Otero, Quay, Rio Arriba, Roosevelt, Sandoval, San Miguel, Santa Fe, Sierra, Socorro, Taos, Torrance, Union and Valencia, all in the State of New Mexico, and El Paso in Texas.

Zone 2: Following counties—Archuleta, LaPlata and Montezuma in Colorado, and Chaves, Eddy, Lea and San Juan in New Mexico.

Zone 3: Following counties—Armstrong, Bailey, Briscoe, Carson, Castro, Childress, Cochran, Collingsworth, Cottle, Crosby, Dallam, Deaf Smith, Dickens, Donley, Floyd, Gaines, Garza, Gray, Hale, Hall, Hansford, Hartley, Hemphill, Hockley, Hutchinson, Lamb, Lipscomb, Lubbock, Lynn, Moore, Motley, Ochiltree, Oldham, Parmer, Potter, Randall, Roberts, Sherman, Swisher, Terry, Wheeler and Yoakum, all in the state of Texas.

§ 1138.3 Route disposition.

Route disposition means any delivery to a retail or wholesale outlet (except to a plant) either direct or through any distribution facility (including disposition from a plant store, vendor or vending machine) of any fluid milk product classified as Class I milk.

§ 1138.4 Plant.

Plant means the land, buildings, facilities and equipment constituting a single operating unit or establishment at which milk or milk products (including filled milk) are received, processed or packaged. Separate facilities used only as a reload point for transferring bulk milk from one tank truck to another or separate facilities used only as a distribution point for storing packaged fluid milk products in transit for route disposition shall not be a plant under this definition.

§ 1138.5 Distributing plant.

Distributing plant means any plant:

(a) Approved by a duly constituted regulatory agency for the handling of milk approved for fluid consumption.

(b) In which fluid milk products are processed or packaged; and

(c) From which there is route disposition in the marketing area during the month.

§ 1138.6 Supply plant.

Supply plant means a plant approved by a duly constituted regulatory agency for the handling of milk approved for fluid consumption from which fluid milk products are transferred to a distributing plant(s) during the month.

§ 1138.7 Pool plant.

Pool plant means:

(a) A distributing plant:

(1) From which during the month there is total route disposition (except filled milk) in an amount not less than 50 percent of the total quantity of fluid milk products (except filled milk) received at such plant, including producer milk diverted from the plant, and not less than 10 percent of such receipts are disposed of as fluid milk products on routes in the marketing area; or

(2) Located in the marketing area that qualifies pursuant to paragraph (a)(1) of this section so long as this order's Class I price applicable at such plant location is not less than an other order's Class I price applicable at the same location even though the plant may meet the pooling requirements of the other Federal order and have greater route disposition in the other marketing area than in the New Mexico-West Texas marketing area.

(b) A supply plant from which during the month not less than 50 percent of the total quantity of milk that is received from dairy farmers (including producer milk diverted from the plant pursuant to § 1138.13, but excluding milk diverted to such plant) and handlers described in § 1138.9(c) is transferred to plants described in paragraph (a) of this section, subject to the following:

(1) A supply plant that has qualified as a pool plant during each of the immediately preceding months of September through January shall continue to qualify in each of the following months of February through August.

(c) Any plant located in the marketing area that is operated by a cooperative association if pool plant status under this paragraph is requested by the cooperative association and 35 percent or more of the producer milk of members of the cooperative association (and any producer milk of nonmembers and members of another cooperative association which may be marketed by the cooperative association) is physically received during the month in the form of bulk fluid milk products at plants specified in paragraph (a) of this section either directly from farms or by transfer from supply plants operated by the cooperative association and from plants of the cooperative association for which pool plant status has been requested under this paragraph subject to the following conditions:

(1) The plant does not qualify as a pool plant under paragraph (a) or (b) of this section or under comparable provisions of another Federal order; and

(2) The plant is approved by a duly constituted regulatory agency for the handling of milk approved for fluid consumption in the marketing area.

(d) The shipping standards in paragraphs (b) and (c) of this section may be increased or decreased up to 10 percentage points by the Director of the Dairy Division if the Director finds such revision is necessary to obtain needed shipments or to prevent uneconomic shipments. Before making such a finding the Director shall investigate the need for revision, either at the Director's initiative or at the request of interested persons. If the investigation shows that a revision might be appropriate, the Director shall issue a notice stating that revision is being considered and inviting data, views, and arguments. If a plant

which would not otherwise qualify as a pool plant during the month qualifies as a pool plant because of a reduction in shipping standards pursuant to this paragraph, such plant shall be a nonpool plant for such month if the operator files a written request for nonpool plant status with the market administrator at the time the report is filed for such plant pursuant to § 1138.30.

(e) The term "Pool plant" shall not apply to the following plants:

(1) A producer-handler plant, a governmental agency plant, or an exempt plant.

(2) A distributing plant qualified pursuant to paragraph (a) (1) of this section which also meets the pooling requirements of another Federal order and from which there is a greater quantity of route disposition, except filled milk, during the month in such other Federal order marketing area than in this marketing area, except that if such plant was subject to all the provisions of this part in the immediately preceding month, it shall continue to be subject to all the provisions of this part until the third consecutive month in which a greater proportion of its route disposition, except filled milk, is made in such other marketing area unless, notwithstanding the provisions of this paragraph, it is regulated under such other order. On the basis of a written application made by the plant operator at least 15 days prior to the date for which a determination of the Secretary is to be effective, the Secretary may determine that the route disposition in the respective marketing areas to be used for purposes of this paragraph shall exclude (for a specified period of time) route disposition made under limited term contracts to governmental bases and institutions;

(3) A distributing plant qualified pursuant to paragraph (a) of this section which also meets the pooling requirements of another Federal order and from which there is a greater quantity of route disposition, except filled milk, during the month in this marketing area than in such other Federal order marketing area but which plant is, nevertheless, fully regulated under such other Federal order;

(4) A supply plant qualified pursuant to paragraph (b) of this section which also meets the pooling requirements of another Federal order and from which greater qualifying shipments are made during the month to plants regulated under such other order than are made to plants regulated under this part; or

(5) A plant qualified pursuant to paragraph (b) of this section which has automatic pooling status under another Federal order.

§ 1138.8 Nonpool plant.

Nonpool plant means any milk or filled milk receiving, manufacturing, or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) *Other order plant* means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) *Producer-handler plant* means a plant operated by a producer-handler as defined in any order (including this Part) issued pursuant to the Act.

(c) *Partially regulated distributing plant* means a distributing plant that does not qualify as a pool plant and is not an other order plant, a governmental agency plant, or a producer-handler plant.

(d) *Unregulated supply plant* means a nonpool plant, except an other order plant, a governmental agency plant, or a producer handler plant, from which fluid milk products are moved during the month to a pool plant qualified pursuant to § 1138.7.

(e) *Governmental agency plant* means a plant owned and operated by a governmental agency or establishment which processes or packages milk or filled milk that is distributed in the marketing area. Such plant shall be exempt from the pricing and pooling provisions of this order.

(f) *Exempt plant* means any plant that has monthly route disposition of 150,000 pounds or less that may be exempt from the pricing and pooling provisions of this order if the handler operating the plant files timely reports as specified by the market administrator and maintains adequate books and records that are made available to the market administrator which will enable determination of the exempt status of such plant.

§ 1138.9 Handler.

Handler means:

(a) Any person who operates a pool plant;

(b) Any cooperative association with respect to the milk of producers which it causes to be diverted pursuant to § 1138.13 for the account of such cooperative association;

(c) Any cooperative association with respect to milk that it receives for its account from the farm of a producer for delivery to a pool plant of another handler in a tank truck owned and operated by, or under the control of, such cooperative association, unless both the cooperative association and the operator of the pool plant notify the market administrator prior to the time that such milk is delivered to the pool plant that the plant operator will be the handler for such milk and will purchase such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples. Milk for which the cooperative association is the handler pursuant to this paragraph shall be deemed to have been received by the cooperative association at the location of the pool plant to which such milk is delivered;

(d) Any person who operates a partially regulated distributing plant;

(e) Any person who is a producer-handler or who operates a governmental agency or exempt plant; and

(f) Any person who operates an other order plant described in § 1138.7(e) or an unregulated supply plant.

§ 1138.10 Producer-handler.

Producer-handler means any person:

(a) Who processes and packages milk from his or her own farm's production;

(b) Who has route disposition within the marketing area consisting of any portion of such milk;

(c) Who receives no fluid milk products from other dairy farmers or from any source other than a pool plant and whose receipts from pool plants are not in excess of 11,000 pounds per month;

(d) Who disposes of no other source milk as Class I milk except by increasing the nonfat milk solids content of the fluid milk products received from own farm production or pool plants; and

(e) Who furnishes to the Market Administrator for verification, subject to review by the Secretary, evidence that the care and management of all the dairy animals and other resources necessary to produce the entire amount of fluid milk products handled (excluding receipts from pool plants) is the personal enterprise of and at the personal risk of such person and the operation of the processing and distribution business is the personal enterprise of and at the personal risk of the same person.

§ 1138.11 [Reserved]

§ 1138.12 Producer.

(a) Except as provided in paragraph (b) of this section, "producer" means any person who produces milk approved for fluid consumption by a duly constituted regulatory agency and whose milk is:

(1) Received at a pool plant or by a handler described in § 1138.9(c); or

(2) Diverted pursuant to § 1138.13 by a handler for such handler's account.

(b) "Producer" shall not include:

(1) A producer-handler as defined in any order (including this part) issued pursuant to the Act;

(2) A governmental agency that operates a plant exempt pursuant to § 1138.8(e) and a handler that operates an exempt plant pursuant to § 1138.8(f);

(3) Any person with respect to milk production that is diverted to a pool plant from an other order plant if the other order designates such person as a producer under that order and such milk is allocated to Class II or Class III utilization pursuant to § 1138.44(a)(8)(iii) and the corresponding step of § 1138.44(b); or

(4) Any person with respect to milk production that is reported as diverted to an other order plant if any portion of such person's milk so moved is assigned to Class I under the provisions of such other order.

§ 1138.13 Producer milk.

Producer milk means the skim milk and butterfat in milk from a producer that is:

(a) Received by the operator of a pool plant directly from such producer. Any milk picked up from the producer's farm tank in a tank truck owned and operated by, or under the control of, the operator of a pool plant but which is not received at a plant until the following month, shall be considered as having been received by the handler during the month in which it is picked up at the producer's farm and shall be priced at the location of the plant where it is physically received in the following month. This paragraph shall apply in like manner to milk received by the operator of a pool plant who, in accordance with § 1138.9(c), is the handler for such milk.

(b) Received by a handler described in § 1138.9(c).

(c) Diverted from a pool plant for the account of the handler operating such plant to another pool plant, without limit in any month. Such milk shall be priced at the location of the plant to which diverted.

(d) Diverted by the operator of a pool plant or by a cooperative association from a pool plant to a nonpool plant (other than a producer-handler plant), subject to the following conditions:

(1) In each of the months of September through January, milk of a producer shall not be eligible for diversion from a pool plant under this section unless at least one day's production from such producer is physically received at a pool plant during the month;

(2) The total quantity of milk diverted by a cooperative association in any month shall not exceed the total quantity of producer milk that the cooperative association caused to be delivered to and was physically received at pool plants during the month;

(3) The operator of a pool plant other than a cooperative association may divert any milk that is not under the control of a cooperative association that is diverting milk during the month pursuant to paragraph (d)(2) of this section. The total quantity of milk so diverted in any month shall not exceed the total quantity of milk that was physically received at pool plant(s) as producer milk for which the plant operator is the handler;

(4) Any milk diverted in excess of the limits prescribed in paragraphs (d) (2) and (3) of this section shall not be producer milk. In such event, the diverting handler may designate the dairy farmer deliveries that shall not be producer milk. If the handler fails to so designate, milk diverted on the last day of the month, then the second-to-last-day of the month, and so on, shall be excluded until all diversions in excess of the prescribed limits are accounted for;

(5) The quantity of milk diverted from a pool plant that would cause the pool plant to become a nonpool plant shall not be producer milk. Diversions in excess of the prescribed limit shall be prorated among the diverting handlers;

(6) If a dairy farmer loses producer status under this order (except as a result of temporary loss of approval from a duly constituted regulatory agency for the production of milk for fluid consumption), such dairy farmer's milk shall not be eligible for diversion until it has been physically received as producer milk at a pool plant; and

(7) Diverted milk shall be priced at the location of the plant to which diverted.

§ 1138.14 Other source milk.

Other source milk means all skim milk and butterfat contained in or represented by:

(a) Receipts of fluid milk products and bulk products specified in § 1138.40(b)(1) from any source other than producers, handlers described in § 1138.9(c), or pool plants;

(b) Receipts in packaged form from other plants of products specified in § 1138.40(b)(1);

(c) Products (other than fluid milk products, products specified in § 1138.40(b)(1), and products produced at the plant during the same month) from any source which are reprocessed, converted into, or combined with another product in the plant during the month; and

(d) Receipts of any milk product (other than a fluid milk product or a product specified in § 1138.40(b)(1) for which the handler fails to establish a disposition.

§ 1138.15 Fluid milk product.

(a) Except as provided in paragraph (b) of this section, "fluid milk product" means any of the following products in fluid or frozen form: Milk, skim milk, lowfat milk, milk drinks, buttermilk, filled milk, and milkshake and ice milk mixes containing less than 20 percent total solids, including any such products that are flavored, cultured, modified with added nonfat milk solids, concentrated (if in a consumer-type package), or reconstituted.

(b) The term "fluid milk product" shall not include:

(1) Evaporated or condensed milk (plain or sweetened), evaporated or condensed skim milk (plain or sweetened), formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers, any product that contains by weight less than 6.5 percent nonfat milk solids, and whey, and

(2) The quantity of skim milk in any modified product specified in paragraph (a) of this section that is in excess of the quantity of skim milk in an equal volume of an unmodified product of the same nature and butterfat content.

§ 1138.16 Fluid cream product.

Fluid cream product means cream (other than plastic cream or frozen cream), sour cream, or a mixture (including a cultured mixture) of cream and milk or skim milk containing 9 percent or more butterfat, with or without the addition of other ingredients.

§ 1138.17 Filled milk.

Filled milk means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted, or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers, or flavoring) resembles milk or any other fluid milk product, and contains less than 6 percent nonmilk fat (or oil).

§ 1138.18 Cooperative association.

Cooperative association means any cooperative marketing association of producers which the Secretary determines after application by the association:

(a) To be qualified under the provisions of the Act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act";

(b) To have full authority in the sale of milk of its members; and

(c) To be engaged in making collective sales or marketing milk or milk products for its members.

§ 1138.19 [Reserved]

§ 1138.20 Product prices.

The following product prices shall be used in calculating the basic Class II formula price pursuant to § 1138.51(a);

(a) *Butter price.* "Butter price" means the simple average, for the first 15 days of the month, of the daily prices per pound of Grade A (92-score) butter. The prices used shall be those of the Chicago Mercantile Exchange as reported and published weekly by the Dairy Division, Agricultural Marketing Service. The average shall be computed by the Director of the Dairy Division, using the price reported each week as the daily price for that day and for each following work-day until the next price is reported. A work-day is each Monday through Friday, except national holidays. For any week that the Exchange does not meet to establish a price, the price for the following week shall be the last price that was established.

(b) *Cheddar cheese price.* "Cheddar cheese price" means the simple average for the first 15 days of the month of the daily price per pound of cheddar cheese in 40-pound blocks. The price used shall be those of the National Cheese Exchange (Green Bay, WI), as reported and published weekly by the Dairy Division, Agricultural Marketing Service. The average price shall be computed by the Director of the Dairy Division, using the price reported each week as the daily price for that day and for each following work-day until the next price is reported. A work-day is each Monday through Friday except national holidays. For any week that the Exchange does not meet to establish a price, the price for the following week shall be the last price that was established.

(c) *Nonfat dry milk price.* "Nonfat dry milk price" means the simple average, for the first 15 days of the month, of the daily price per pound of nonfat dry milk, which average shall be computed by the Director of the Dairy Division as follows:

(1) The prices used shall be the prices (using the midpoint of any price range as one price) of high heat, low heat and Grade A nonfat dry milk, respectively, for the Central States production area, as reported and published weekly by the Dairy Division, Agricultural Marketing Service.

(2) For each week, determine the simple average of the prices reported for the three types of nonfat dry milk. Such average shall be the daily price for the day that such prices are reported and for each preceding work-day until the day such prices were previously reported. A work-day is each Monday through Friday except national holidays.

(3) Add the prices determined in paragraph (c)(2) of this section for the first 15 days of the month and divide by the number of days for which there is a daily price.

(d) *Edible whey price.* "Edible whey price" means the simple average, for the first 15 days of the month, of the daily prices per pound of edible whey powder (nonhygroscopic). The prices used shall be the prices (using the midpoint of any price range as one price) of edible whey powder for the Central States production area, as reported and published weekly by the Dairy Division, Agricultural Marketing Service. The average shall be computed by the Director of the Dairy Division, using the price reported each week as the daily price for that day and for each preceding work-day until the day such price was previously reported. A work-day is each Monday through Friday except national holidays.

Handler Reports

§ 1138.30 Reports of receipts and utilization.

On or before the 7th day after the end of each month, each handler shall report for such month to the market administrator, in the detail and on the forms prescribed by the market administrator, as follows:

(a) Each handler, with respect to each of such handler's pool plants, shall report the quantities of skim milk and butterfat contained in or represented by:

(1) Receipts of producer milk, including producer milk diverted by the handler from the pool plant to other plants;

(2) Receipts of milk from handlers described in § 1138.9(c);

(3) Receipts of fluid milk products and bulk fluid cream products from other pool plants;

(4) Receipts of other source milk.

(5) Inventories at the beginning and end of the month of fluid milk products and products specified in § 1138.40(b)(1); and

(6) The utilization or disposition of all milk, filled milk, and milk products required to be reported pursuant to this paragraph.

(b) Each handler operating a partially regulated distributing plant shall report with respect to such plant in the same manner as prescribed for reports required by paragraph (a) of this section. Receipts of milk that would have been producer milk if the plant had been fully regulated shall be reported in lieu of producer milk. Such report shall show also the quantity of any reconstituted skim milk in route disposition in the marketing area.

(c) Each handler described in § 1138.9 (b) and (c) shall report:

(1) The quantities of all skim milk and butterfat contained in receipts of milk from producers; and

(2) The utilization or disposition of all such receipts.

(d) Each handler not specified in paragraphs (a) through (c) of this section shall report for each of the handler's plants with respect to its receipts and utilization of milk, filled milk, and milk products in such manner as the market administrator may prescribe.

§ 1138.31 Payroll reports.

(a) On or before the 20th day after the end of each month, each handler described in § 1138.9 (a), (b) and (c) who pays producers pursuant to § 1138.73 shall report to the market administrator the following information with respect to the handler's partial and final payments for producer milk received during such month;

(1) The name and address of each producer;

(2) The amount paid each producer; and

(3) The dates such payments were made.

(b) On or before the 20th day after the end of the month, each handler operating a partially regulated distributing plant who elects to make payment pursuant to § 1138.76(b) shall report to the market administrator with respect to milk received from each dairy farmer who would have been a producer if the plant had been fully regulated the following information for such month;

(1) The name and address of each dairy farmer;

(2) The total pounds of milk received from each dairy farmer;

(3) The average butterfat content of such milk;

(4) The amount and nature of any deductions, as authorized in writing by the dairy farmer, from the payment for such milk; and

(5) The rate of payment per hundredweight and the net amount paid each dairy farmer.

§ 1138.32 Other reports.

(a) On or before the 21st day of each month, each handler described in § 1138.9(a) who is required pursuant to § 1138.71(c) to make payments to the market administrator for milk received from producers and cooperative associations shall report to the market administrator the following information

BEST COPY AVAILABLE

with respect to its receipts of milk during the first 15 days of the month:

(1) The name and address of each producer from whom milk was received;

(2) The total pounds of milk received from such producer;

(3) The amount and nature of any deductions, as authorized in writing by the producer, to be made from the partial payment for such milk;

(4) The total pounds of milk received from a handler described in § 1138.9(c); and

(5) The pounds of skim milk and butterfat in bulk fluid milk products received from a pool plant operated by a cooperative association.

(b) On or before the 7th day after the end of each month, each handler described in § 1138.9 (a), (b) and (c) shall report to the market administrator the following information with respect to its receipts of milk during such month.

(1) The name and address of each producer from whom milk was received;

(2) The total pounds of producer milk received from such producer, its average butterfat content and the total pounds of milk diverted to each plant that is not a pool plant;

(3) Except in the case of producer milk for which a cooperative association is collecting payments, the amount and nature of any deductions, as authorized in writing by the producer, to be made from the final payment for such milk;

(4) The total pounds of skim and butterfat received from a handler described in § 1138.9(c) and

(5) The pounds of skim milk and butterfat in bulk fluid milk products received from a pool plant operated by a cooperative association.

(c) On or before the reporting dates specified in paragraphs (a) and (b) of this section, each cooperative association that operates a pool plant from which bulk fluid milk products were transferred to pool plants of other handlers within the time periods described in paragraphs (a) and (b) of this section shall report to each such pool plant operator and to the market administrator the name and location of the transferor-plant and the total pounds and butterfat content of the bulk fluid milk products transferred from the plant.

(d) In addition to the reports required pursuant to paragraphs (a) through (c) of this section and § 1138.30 and § 1138.31, each handler shall report such other information as the market administrator deems necessary to verify or establish such handler's obligation under the order.

(3) Each handler other than a cooperative association who causes milk to be diverted shall, prior to such diversion, report to the market administrator his intention to divert such milk, the proposed date or dates of such diversion, and the plant to which such milk is to be diverted.

Classification of Milk

§ 1138.40 Classes of utilization.

Except as provided in § 1138.42, all skim milk and butterfat required to be reported by a handler pursuant to § 1138.30 shall be classified as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid milk product, except as otherwise provided in paragraphs (b) and (c) of this section; and

(2) Not specifically accounted for as Class II or Class III milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid cream product, eggnog, yogurt, and any product containing 6 percent or more nonmilk fat (or oil) that resembles a fluid cream product, eggnog, or yogurt, except as otherwise provided in paragraph (c) of this section;

(2) In packaged inventory at the end of the month of the products specified in paragraph (b)(1) of this section;

(3) In bulk fluid milk products and bulk fluid cream products disposed of to any commercial food processing establishment (other than a milk or filled milk plant) at which food products (other than milk products and filled milk) are processed and from which there is no disposition of fluid milk products or fluid cream products other than those received in consumer-type packages; and

(4) Used to produce:

(i) Cottage cheese, lowfat cottage cheese, and dry curd cottage cheese;

(ii) Milkshake and ice milk mixes (or bases) containing 20 percent or more total solids, frozen desserts, and frozen dessert mixes;

(iii) Any concentrated milk product in bulk, fluid form other than that specified in paragraph (c)(1)(iv) of this section;

(iv) Plastic cream, frozen cream, and anhydrous milkfat;

(v) Custard, puddings, and pancake mixes; and

(vi) Formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers.

(c) *Class III milk.* Class III milk shall be all skim milk and butterfat:

(1) Used to produce:

(i) Cheese (other than cottage cheese, lowfat cottage cheese, and dry curd cottage cheese);

(ii) Butter;

(iii) Any milk product in dry form;

(iv) Any concentrated milk product in bulk, fluid form that is used to produce a Class III product;

(v) Evaporated or condensed milk (plain or sweetened) in a consumer-type package and evaporated or condensed skim milk (plain or sweetened) in a consumer-type package; and

(vi) Any product not otherwise specified in this section.

(2) In inventory at the end of the month of fluid milk products in bulk or packaged form and products specified in paragraph (b)(1) of this section in bulk form;

(3) In fluid milk products and products specified in paragraph (b)(1) of this section that are disposed of by a handler for animal feed;

(4) In fluid milk products and products specified in paragraph (b)(1) of this section that are dumped by a handler if the market administrator is notified of such dumping in advance and is given the opportunity to verify such disposition.

(5) In skim milk in any modified fluid milk product that is in excess of the quantity of skim milk in such product that was included within the fluid milk product definition pursuant to § 1138.15; and

(6) In shrinkage assigned pursuant to § 1138.41(a) to the receipts specified in § 1138.41(a)(2) and in shrinkage specified in § 1138.41(b) and (c).

§ 1138.41 Shrinkage.

For purposes of classifying all skim milk and butterfat to be reported by a handler pursuant to § 1138.30, the market administrator shall determine the following:

(a) The pro rata assignment of shrinkage of skim milk and butterfat, respectively, at each pool plant to the respective quantities of skim milk and butterfat;

(1) In the receipts specified in paragraphs (b)(1) through (6) of this section on which shrinkage is allowed pursuant to such paragraph; and

(2) In other source milk not specified in paragraph (b)(1) through (6) of this section which was received in the form of a bulk fluid milk product or a bulk fluid cream product;

(b) The shrinkage of skim milk and butterfat, respectively, assigned pursuant to paragraph (a) of this section to the receipts specified in paragraph (a)(1) of this section that is not in excess of:

(1) Two percent of the skim milk and butterfat, respectively, in producer milk (excluding milk diverted by the plant operator to another plant);

(2) Plus 1.5 percent of the skim milk and butterfat, respectively, in milk received from a handler described in § 1138.9(c) and in milk diverted to such plant from another pool plant, except that, in either case, if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be 2 percent;

(3) Plus 0.5 percent of the skim milk and butterfat, respectively, in producer milk diverted from such plant by the plant operator to another plant, except that if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be zero;

(4) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other pool plants;

(5) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other order plants, excluding the quantity for which Class II or Class III classification is requested by the operators of both plants;

(6) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received from unregulated supply plants, excluding the quantity for which Class II or Class III classification is requested by the handler; and

(7) Less 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products transferred to other plants that is not in excess of the respective amounts of skim milk and butterfat to which percentages are applied in paragraphs (b))(1), (2), (4), (5), and (6) of this section; and

(c) The quantity of skim milk and butterfat, respectively, in shrinkage of milk from producers for which a cooperative association is the handler pursuant to § 1138.9(b) or (c), but not in excess of 0.5 percent of the skim milk and butterfat, respectively, in such milk. If the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this paragraph for the cooperative association shall be zero.

§ 1138.43 Classification of transfers and diversions.

(a) *Transfers and diversions to pool plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or a bulk fluid cream product from a pool plant to another pool plant shall be classified as Class I milk unless the operators of both plants request the same classification in another class. In either case, the classification of such transfers or diversions shall be subject to the following conditions:

(1) The skim milk or butterfat classified in each class shall be limited to the amount of skim milk and butterfat, respectively, remaining in such class at the transferee-plant or divertee-plant after the computations pursuant to § 1138.44(a)(12) and the corresponding step of § 1138.44(b);

(2) If the transferor-plant or divertor-plant received during the month other source milk to be allocated pursuant to § 1138.44(a)(7) or the corresponding step of § 1138.44(b), the skim milk or butterfat so transferred or diverted shall be classified so as to allocate the least possible Class I utilization to such other source milk; and

(3) If the transferor-handler or divertor-handler received during the month other source milk to be allocated pursuant to § 1138.44(a)(11) or (12) or the corresponding step of § 1138.44(b), the skim milk or butterfat so transferred or diverted, up to the total of the skim milk and butterfat, respectively, in such receipts of other source milk, shall not be classified as Class I milk to a greater extent than would be the case if the other source milk had been received at the transferee-plant or divertee-plant.

(b) *Transfers and diversions to other order plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or bulk fluid cream product from a pool plant to an other order plant shall be classified in the following manner. Such classification shall apply only to the skim milk or butterfat that is in excess of any receipts at the pool plant from the other order plant of skim milk and butterfat, respectively, in fluid milk products and bulk fluid cream products, respectively, that are in the same category as described in paragraph (b)(1), (2), or (3) of this section:

(1) If transferred as packaged fluid milk products, classification shall be in the classes to which allocated as a fluid milk product under the other order;

(2) If transferred in bulk form, classification shall be in the classes to which allocated under the other order (including allocation under the conditions set forth in paragraph (b)(3) of this section);

(3) If the operators of both plants so request in their reports of receipts and utilization filed with their respective market administrators, transfers or diversions in bulk form shall be classified as Class II or Class III milk to the extent of such utilization available for such classification pursuant to the allocation provisions of the other order;

(4) If information concerning the class to which such transfers or diversions were allocated under the other order is not available to the market administrator for the purpose of establishing classification under this paragraph, classification shall be as Class I subject to adjustment when such information is available.

(5) For purposes of this paragraph, if the other order provides for a different number of classes of utilization than is provided for under this part, skim milk or butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I milk, and skim milk or butterfat allocated to the other classes shall be classified as Class III milk; and

(6) If the form in which any fluid milk product that is transferred to an other order plant is not defined as a fluid milk product under such other order, classification under this paragraph shall be in accordance with the provisions of § 1138.40.

(c) *Transfers to producer-handlers and transfers and diversions to exempt plants and governmental agency plants.* Skim milk or butterfat transferred in the following forms from a pool plant to a producer-handler under this or any other Federal order or transferred or diverted from a pool plant to an exempt plant or and a governmental agency plant shall be classified:

(1) As Class I milk, if so moved in the form of a fluid milk product; and

(2) In accordance with the utilization assigned to it by the market administrator, if transferred in the form of a bulk fluid cream product. For this purpose the transferee's utilization of skim milk and butterfat in each class, in series beginning with Class III, shall be assigned to the extent possible to its receipt of skim milk and butterfat, respectively, in bulk fluid cream products, pro rata to each source.

(d) *Transfers and diversions to other nonpool plants.* Skim milk or butterfat transferred or diverted in the following forms from a pool plant to a nonpool plant that is not an other order plant, a producer-handler plant, an exempt handler plant, or a governmental agency plant shall be classified:

(1) As Class I milk, if transferred in the form of a packaged fluid milk product; and

(2) As Class I milk, if transferred or diverted in the form of a bulk fluid milk product or a bulk fluid cream product, unless the following conditions apply:

(i) If the conditions described in paragraph (d)(2)(i)(a) and (b) of this section are met, transfers or diversions in bulk form shall be classified on the basis of the assignment of the nonpool plant's utilization to its receipts as set forth in paragraphs (d)(2)(ii) through (viii) of this section:

(*a*) The transferor-handler or divertor-handler claims such classification in his report of receipts and utilization filed pursuant to § 1138.30 for the month within which such transaction occurred; and

(*b*) The nonpool plant operator maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available for verification purposes if requested by the market administrator.

(ii) Route disposition in the marketing area of each Federal milk order from the nonpool plant and transfers of packaged fluid milk products from such nonpool plant to plants fully regulated thereunder shall be assigned to the extent possible in the following sequence:

(*a*) Pro rata to receipts of packaged fluid milk products at such nonpool plant from pool plants;

(*b*) Pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from other order plants;

(*c*) Pro rata to receipts of bulk fluid milk products at such nonpool plant from pool plants; and

(*d*) Pro rata to any remaining unassigned receipts of bulk fluid milk products at such nonpool plant from other order plants;

(iii) Any remaining Class I disposition of packaged fluid milk products from the nonpool plant shall be assigned to the extent possible pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from pool plants and other order plants;

(iv) Transfers of bulk fluid milk products from the nonpool plant to a plant fully regulated under any Federal milk order, to the extent that such transfers to the regulated plant exceed receipts of fluid milk products from such plant and are allocated to Class I at the transferee-plant, shall be assigned to the extent possible in the following sequence:

(*a*) Pro rata to receipts of fluid milk products at such nonpool plant from pool plants; and

(*b*) Pro rata to any remaining unassigned receipts of fluid milk products at such nonpool plant from other order plants;

(v) Any remaining unassigned Class I disposition from the nonpool plant shall be assigned to the extent possible in the following sequence:

(*a*) To such nonpool plant's receipts from dairy farmers who the market administrator determines constitute regular sources of Grade A milk for such nonpool plant; and

(*b*) To such nonpool plant's receipts of Grade A milk from plants not fully regulated under any Federal milk order which the market administrator determines constitute regular sources of Grade A milk for such nonpool plant;

(vi) Any remaining unassigned receipts of bulk fluid milk products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class I utilization, then to Class III utilization, and then to Class II utilization at such nonpool plant;

(vii) Receipts of bulk fluid cream products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class III utilization then to any remaining Class II utilization, and then to Class I utilization at such nonpool plant; and

(viii) In determining the nonpool plant's utilization for purposes of this subparagraph, any fluid milk products and bulk fluid cream products transferred from such nonpool plant to a plant not fully regulated under any Federal milk order shall be classified on the basis of the second plant's utilization using the same assignment priorities at the second plant that are set forth in this subparagraph.

(e) *Transfers by a handler described in § 1138.9(c) to pool plants.* Skim milk and butterfat transferred in the form of bulk milk by a handler described in § 1138.9(c) to another handler's pool plant shall be classified pursuant to § 1138.44 pro rata with producer milk received at the transferee-handler's plant and the value thereof at the class prices shall be included in the pool plant handler's value of milk pursuant to § 1138.60.

§ 1138.43 General classification rules.

In determining the classification of producer milk pursuant to § 1138.44, the following rules shall apply:

(a) Each month the market administrator shall correct for mathematical and other obvious errors all reports filed pursuant to § 1138.30 and shall compute separately for each pool plant, and for each cooperative association with respect to milk for which it is the handler pursuant to § 1138.9(b) or (c) that was not received at a pool plant, the pounds of skim milk and butterfat, respectively, in each class in accordance with §§ 1138.40, 1138.41 and 1138.42. The combined pounds of skim milk and butterfat so determined in each Class for a handler described in § 1138.9(b) or (c) shall be such handler's classification of producer milk;

(b) If any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk in such product that are to be considered under this part as used or disposed of by the handler shall be an amount equivalent to the nonfat milk solids contained in such product plus all of the water originally associated with such solids; and

(c) The classification of producer milk for which a cooperative association is the handler pursuant to § 1138.9(b) or (c) shall be determined separately from the operations of any pool plant operated by such cooperative association.

§ 1138.44 Classification of producer milk.

For each month the market administrator shall determine for each handler described in § 1138.9(a) for each pool plant of the handler separately the classification of producer milk and milk received from a handler described in § 1138.9(c), by allocating the handler's receipts of skim milk and butterfat to the utilization of such receipts by such handler as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class III the pounds of skim milk in shrinkage specified in § 1138.41(b);

(2) Subtract from the total pounds of skim milk in Class I the pounds of skim milk in receipts of packaged fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in fluid milk products received in packaged form from an other order plant, except that to be subtracted

pursuant to paragraph (a)(7)(vi) of this section, as follows:

(i) From Class III milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts.

(4) Subtract from the pounds of skim milk in Class II the pounds of skim milk in products specified in § 1138.40(b)(1) that were received in packaged form from other plants, but not in excess of the pounds of skim milk remaining in Class II;

(5) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in products specified in § 1138.40(b)(1) that were in inventory at the beginning of the month in packaged form, but not in excess of the pounds of skim milk remaining in Class II. This paragraph shall apply only if the pool plant was subject to the provisions of this paragraph or comparable provisions of another Federal milk order in the immediately preceding month;

(6) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in other source milk (except that received in the form of a fluid milk product or a fluid cream product) that is used to produce, or added to, any product specified in § 1138.40(b), but not in excess of the pounds of skim milk remaining in Class II;

(7) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in each of the following:

(i) Other source milk (except that received in the form of a fluid milk product) and, if paragraph (a)(5) of this section applies, packaged inventory at the beginning of the month of products specified in § 1138.40(b)(1) that was not subtracted pursuant to paragraph (a)(4), (5) and (6) of this section;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established;

(iii) Receipts of fluid milk products from unidentified sources;

(iv) Receipts of fluid milk products from a producer-handler as defined under this or any other Federal milk order and from a governmental agency plant and an exempt plant;

(v) Receipts of reconstituted skim milk in filled milk from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2) of this section;

(vi) Receipts of reconstituted skim milk in filled milk from an other order plant that is regulated under any Federal milk order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor-plant; and

(vii) Receipts of fluid milk products from a person described in § 1138.12(b)(5);

(8) Subtract in the order specified below from the pounds of skim milk remaining in Class II and Class III, in sequence beginning with Class III:

(i) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraphs (a)(2) and (7)(v) of this section for which the handler requests a classification other than Class I, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(ii) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraphs (a)(2), (7)(v), and (8)(i) of this section which are in excess of the pounds of skim milk determined pursuant to paragraphs (a)(8)(ii)(*a*) through (*c*) of this section. Should the pounds of skim milk to be subtracted from Class II and Class III combined exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount;

(*a*) Multiply by 1.25 the sum of the pounds of skim milk remaining in Class I at this allocation step at all pool plants of the handler (excluding any duplication of Class I utilization resulting from reported Class I transfers between pool plants of the handler);

(*b*) Subtract from the above result the sum of the pounds of skim milk in receipts at all pool plants of the handler of producer milk, milk from a handler described in § 1138.9(c), fluid milk products from pool plants of other handlers, and bulk fluid milk products from other order plants that were not subtracted pursuant to paragraph (a)(7)(vi) of this section; and

(*c*) Multiply any plus quantity resulting above by the percentage that the receipts of skim milk in fluid milk products from unregulated supply plants that remain at this pool plant is of all such receipts remaining at this allocation step at all pool plants of the handler; and

(iii) The pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a)(7)(vi) of this section, if Class II or Class III classification is requested by the operator of the other order plant and the handler, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(9) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in fluid milk products and products specified in § 1138.40(b)(1) in inventory at the beginning of the month that were not subtracted pursuant to paragraphs (a)(5) and (7)(i) of this section;

(10) Add to the remaining pounds of skim milk in Class III the pounds of skim milk subtracted pursuant to paragraph (a)(1) of this section;

(11) Subject to the provisions of paragraphs (a)(11)(i) and (ii) of this section, subtract from the pounds of skim milk remaining in each class at the plant, pro rata to the total pounds of skim milk remaining in Class I and in Class II and Class III combined at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler), with the quantity pro-rated to Class II and Class III combined being subtracted first from Class III and then from Class II, the pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraphs (a)(2), (7)(v), and (8)(i) and (ii) of this section and that were not offset by transfers or diversions of fluid milk products to the same unregulated supply plant from which fluid milk products to be allocated at this step were received;

(i) Should the pounds of skim milk to be subtracted from Class II and Class III combined pursuant to this subparagraph exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining

in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(ii) Should the pounds of skim milk to be subtracted from Class I pursuant to this subparagraph exceed the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount, beginning with the nearest plant at which Class I utilization is available;

(12) Subtract in the manner specified below from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraphs (a)(7)(vi) and (8)(iii) of this section:

(i) Subject to the provisions of paragraphs (a)(12)(ii), (iii), and (iv) of this section, such subtraction shall be pro rata to the pounds of skim milk in Class I and in Class II and Class III combined, with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, with respect to whichever of the following quantities represents the lower proportion of Class I milk:

(*a*) The estimated utilization of skim milk of all handlers in each class as announced for the month pursuant to § 1138.45(a); or

(*b*) The total pounds of skim milk remaining in each class at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler);

(ii) Should the proration pursuant to paragraph (a)(12)(i) of this section result in the total pounds of skim milk at all pool plants of the handler that are to be subtracted at this allocation step from Class II and Class III combined exceeding the pounds of skim milk remaining in Class II and Class III at all such plants, the pounds of such excess shall be subtracted from the pounds of skim milk remaining in Class I after such proration at the pool plants at which such other source milk was received;

(iii) Except as provided in paragraph (a)(12)(ii) of this section, should the computations pursuant to paragraph (a)(12)(i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class II and Class III combined that exceeds the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(iv) Except as provided in paragraph (a)(12)(ii) of this section, should the computations pursuant to paragraph (a)(12)(i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class I that exceeds the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount beginning with the nearest plant at which Class I utilization is available;

(13) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products and bulk fluid cream products from another pool plant according to the classification of such product pursuant to § 1138.42(a); and

(14) If the total pounds of skim milk remaining in all classes exceed the pounds of skim milk in producer milk and milk received from a handler described in § 1138.9(c), subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class III. Any amount so subtracted shall be known as "overage";

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) The quantity of producer milk and milk received from a handler described in § 1138.9(c) in each class shall be the combined pounds of skim milk and butterfat remaining in each class after the computations pursuant to paragraph (a)(14) of this section and the corresponding step of paragraph (b) of this section.

§ 1138.48 Market Administrator's reports and announcements concerning classification.

The market administrator shall make the following reports and announcements concerning classification:

(a) Whenever required for the purpose of allocating receipts from other order plants pursuant to § 1138.44(a)(12) and the corresponding step of § 1138.44(b), estimate and publicly announce the utilization (to the nearest whole percentage) in each class during the month of skim milk and butterfat, respectively, in producer milk of all handlers. Such estimate shall be based upon the most current available data and shall be final for such purpose.

(b) Report to the market administrator of the other order, as soon as possible after the report of receipts and utilization for the month is received from a handler who has received fluid milk products or bulk fluid cream products from an other order plant, the class to which such receipts are allocated pursuant to § 1138.44 on the basis of such report, and thereafter, any change in such allocation required to correct errors disclosed in the verification of such report.

(c) Furnish to each handler operating a pool plant who has shipped fluid milk products or bulk fluid cream products to an other order plant the class to which shipments were allocated by the market administrator of the other order on the basis of the report by the receiving handler, and, as necessary, any changes in such allocation arising from the verification of such report.

(d) On or before the 12th day after the end of each month, report to each cooperative association which so requests, the amount and class utilization of milk received by each handler from producers whose milk is being marketed by such cooperative association. For the purpose of this report, the milk caused to be so delivered by a cooperative association shall be pro-rated to each class in the proportion that the total receipts of producer milk by such handler were used in each class.

§ 1138.50 Class prices.

Subject to the provisions of § 1138.53, the class prices for the month per hundredweight of milk shall be as follows:

(a) *Class I price.* The Class I price shall be the basic formula price for the second preceding month plus $2.35.

(b) *Class II price.* The Class II price shall be computed by the Director of the Dairy Division and transmitted to the market administrator on or before the 15th day of the preceding month. The Class II price shall be the basic Class II formula price computed pursuant to § 1138.52 for the month plus the amount that the value computed pursuant to paragraph (b)(1) of this section exceeds the value computed pursuant to paragraph (b)(2) of this section, plus any amount by which the basic formula price for the second preceding month, adjusted pursuant to paragraphs (b)(1) and (b)(2) of this section, was less than the Class III price for the second preceding month.

(1) Determine for the most recent 12-month period the simple average (rounded to the nearest cent) of the basic formula prices computed pursuant to § 1138.51 and add 10 cents; and

(2) Determine for the same 12-month period as specified in paragraph (b)(1) of this section the simple average (rounded to the nearest cent) of the basic Class II formula prices computed pursuant to § 1138.52.

(c) *Class III price.* The Class III price shall be the basic formula price for the month.

§ 1138.51 Basic formula price.

The "basic formula price" shall be the average price per hundredweight for manufacturing grade milk f.o.b. plants in Minnesota and Wisconsin as reported by the Department for the month, adjusted to a 3.5 percent butterfat basis and rounded to the nearest cent. For such adjustment, the butterfat differential (rounded to the nearest one-tenth cent) per one-tenth percent butterfat shall be 0.12 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month.

§ 1138.52 Basic Class II formula price.

The "basic Class II formula price" for the month shall be the basic formula price determined pursuant to § 1138.51 for the second preceding month plus or minus the amount computed pursuant to paragraphs (a) through (d) of this section:

(a) The gross values per hundredweight of milk used to manufacture cheddar cheese and butter-nonfat dry milk shall be computed, using price data determined pursuant to § 1138.20 and yield factors in effect under the Dairy Price Support Program authorized by the Agricultural Act of 1949, as amended, for the first 15 days of the preceding month and, separately, for the first 15 days of the second preceding month as follows:

(1) The gross value of milk used to manufacture cheddar cheese shall be the sum of the following computations:

(i) Multiply the cheddar cheese price by the yield factor used under the Price Support Program for cheddar cheese;

(ii) Multiply the butter price by the yield factor used under the Price Support Program for determining the butterfat component of the whey value in the cheese price computation; and

(iii) Subtract from the edible whey price the processing cost used under the Price Support Program for edible whey and multiply any positive difference by the yield factor used under the Price Support Program for edible whey.

(2) The gross value of milk used to manufacture butter-nonfat dry milk shall be the sum of the following computations:

(i) Multiply the butter price by the yield factor used under the Price Support Program for butter; and

(ii) Multiply the nonfat dry milk price by the yield factor used under the Price Support Program for nonfat dry milk.

(b) Determine the amounts by which the gross value per hundredweight of milk used to manufacture cheddar cheese and the gross value per hundredweight of milk used to manufacture butter-nonfat dry milk for the first 15 days of the preceding month exceed or are less than the respective gross values for the first 15 days of the second preceding month.

(c) Compute weighting factors to be applied to the changes in gross values determined pursuant to paragraph (b) of this section by determining the relative proportion that the data included in each of the following subparagraphs is of the total of the data represented in paragraphs (c)(1) and (2) of this section:

(1) Combine the total American cheese production for the States of Minnesota and Wisconsin, as reported by the National Agricultural Statistics Service of the Department for the third preceding month, and divide by the yield factor used under the Price Support Program for cheddar cheese to determine the quantity of milk used in the production of American cheddar cheese; and

(2) Combine the total nonfat dry milk production for the States of Minnesota and Wisconsin, as reported by the National Agricultural Statistics Service of the Department for the third preceding month, and divide by the yield factor used under the Price Support Program for nonfat dry milk to determine the quantity of milk used in the production of butter-nonfat dry milk.

(d) Compute a weighted average of the changes in gross values per hundredweight of milk determined pursuant to paragraph (b) of this section in accordance with the relative proportions of milk determined pursuant to paragraph (c) of this section.

§ 1138.53 Plant location adjustments for handlers.

For milk received at a plant from producers or a handler described in § 1138.9(c) and which is classified as Class I milk, the price specified in § 1138.50(a) shall be adjusted by the amount stated in paragraph (a) of this section for the location of such plant:

(a) For a plant located within one of the zones set forth in § 1138.2, the adjustment shall be as follows:

Zone	Adjustment per hundredweight
Zone 1	No adjustment.
Zone 2	Minus 16 cents.
Zone 3	Plus 14 cents.

(b) The Class I price applicable to other source milk shall be adjusted at the rates set forth in paragraph (a) of this section.

§ 1138.54 Announcement of class prices.

The market administrator shall announce publicly on or before the fifth day of each month the Class I price for the following month, the Class III price for the preceding month, and on or before the 15th day of each month the Class II price for the following month computed pursuant to § 1138.50(b).

§ 1138.55 Equivalent price.

If for any reason a price or pricing constituent required by this part for computing class prices or for other purposes is not available as prescribed in this part, the market administrator shall use a price or pricing constituent determined by the Secretary to be equivalent to the price or pricing constituent that is required.

Uniform Price

§ 1138.60 Handler's value of milk for computing uniform price.

For the purpose of computing the uniform price, the market administrator shall determine for each month the value of milk of each handler with respect to each of his pool plants and of each handler described in § 1138.9 (b) and (c) with respect to milk that was not received at a pool plant as follows:

(a) Multiply the pounds of producer milk and milk received from a handler described in § 1138.9(c) that were classified in each class pursuant to §§ 1138.43(a) and 1138.44(c) by the applicable class prices, and add the resulting amounts;

(b) Add the amounts obtained from multiplying the pounds of overage subtracted from each class pursuant to § 1138.44(a)(14) and the corresponding step of § 1138.44(b) by the respective class prices, as adjusted by the butterfat differential specified in § 1138.74, that are applicable at the location of the pool plant;

(c) Add the amount obtained from multiplying the difference between the Class III price for the preceding month and the Class I Price applicable at the location of the pool plant or the Class II price, as the case may be, for the current month by the hundredweight of skim milk and butterfat subtracted from Class I and Class II pursuant to § 1138.44(a)(9) and the corresponding step of § 1138.44(b);

(d) And the amount obtained from multiplying the difference between the Class I price applicable at the location of the pool plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1138.44(a)(7)(i) through (iv) and (vii) and the corresponding step of § 1138.44(b), excluding receipts of bulk fluid cream products from an other order plant;

(e) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the transferor-plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1138.44(a)(7)(v) and (vi) and the corresponding step of 1138.44(b);

(f) Add the amount obtained from multiplying the Class I price applicable at the location of the nearest unregulated supply plants from which an equivalent volume was received by the pounds of skim milk and butterfat subtracted from Class I pursuant to § 1138.44(a)(11) and the corresponding step of § 1138.44(b), excluding such skim milk and butterfat in receipts of bulk fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order; and

(g) Subtract for a handler described in § 1138.9(c) the amount obtained from multiplying the Class III price for the preceding month by the hundredweight of skim milk and butterfat contained in inventory at the beginning of the month that was delivered to another handler's pool plant during the month.

§ 1138.61 Computation of uniform price.

The market administrator shall compute for each month the uniform price per hundredweight for milk of 3.5 percent butterfat content as follows:

(a) Combine into one total the values computed pursuant to § 1138.60 for all handlers who filed the reports prescribed in § 1138.30 for the month and who made the payments pursuant to § 1138.71 for the preceding month;

(b) Add not less than one-half of the unobligated balance in the producer-settlement fund;

(c) Add the aggregate of all minus location adjustments and subtract the aggregate of all plus location adjustments computed pursuant to § 1138.75;

(d) Divide the resulting amount by the sum of the following for all handlers included in the computations;

(1) The total hundredweight of producer milk; and

(2) The total hundredweight for which a value is computed pursuant to § 1138.60(f); and

(e) Subtract not more than 5 cents. The result shall be the "uniform price" for milk received from producers.

§ 1138.62 Announcement of uniform price and butterfat differential.

The market administrator shall announce publicly on or before:

(a) The fifth day after the end of each month the butterfat differential for such month; and

(b) The 12th day after the end of each month the applicable uniform price pursuant to § 1138.61 for such month.

Payments for Milk

§ 1138.70 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1138.71, 1138.76 and 1138.77 and from which he shall make all payments pursuant to §§ 1138.72 and 1138.77, except that payments to a cooperative association pursuant to § 1138.72 shall be offset by any payments due from such cooperative association pursuant to § 1138.71 that have not been received by the market administrator.

§ 1138.71 Payments to the producer-settlement fund.

(a) Subject to paragraph (d) of this section, each handler shall pay to the market administrator on or before the 14th day after the end of the month the amount, if any, by which the amount specified in paragraph (a)(1) of this section exceeds the amount specified in paragraph (a)(2) of this section:

(1) The total value of milk of the handler for such month as determined pursuant to § 1138.60.

(2) The sum of:

(i) The value at the uniform price, as adjusted pursuant to § 1138.75, of such handler's receipts of producer milk and milk received from handlers pursuant to § 1138.9(c). In the case of a cooperative association which is a handler, less the amount due from other handlers pursuant to § 1138.73(d), exclusive of differential butterfat values; and

(ii) The value at the uniform price applicable at the location of the plant from which received of other source milk for which a value is computed pursuant to § 1138.60(f).

(b) Subject to paragraph (d) of this section, each person who operated a plant that was regulated during such month under an order providing for individual-handler pooling shall pay to the market administrator on or before the 25th day after the end of each month an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk in route disposition from such plant in the marketing area which was allocated to Class I at such plant. If there is such route disposition from such plant in marketing areas regulated by two or more marketwide pool orders, the reconstituted skim milk allocated to Class I shall be prorated to each order according to such route disposition in each marketing area; and

(2) Compute the value of the reconstituted skim milk assigned in paragraph (b)(1) of this section to route disposition in this marketing area by multiplying the quantity of such skim milk by the difference between the Class I price under this part that is applicable at the location of the other order plant (but not to be less than the Class III price) and the Class III price.

(c) Any handler who the market administrator determines was more than 3 days late in making any payment obligation under Part 1138 shall pay to the market administrator the amount the handler would have otherwise been required to pay to producers and cooperative associations pursuant to § 1138.73. Payment shall be made to the market administrator on or before the day prior to the dates specified in § 1138.73 and such payments shall continue until the handler has met all payment obligations for 3 consecutive months.

(d) The following conditions shall apply with respect to payments prescribed in paragraphs (a), (b) and (c) of this section:

(1) Payments to the market administrator shall be deemed not to have been made until such payments have been received by the market administrator.

(2) If the date by which payments must be received by the market administrator falls on a Saturday or Sunday or any day that is a national holiday, payment shall not be due until the next day on which the market administrator's office is open for public business.

(3) Payments due the market administrator from a cooperative association handler may be offset by payments determined by the market administrator to be due the cooperative association pursuant to § 1138.73 (b) and (d).

§ 1138.72 Payments from the producer-settlement fund.

(a) On or before the 15th day after the end of each month the market administrator shall pay to each handler except one making payment pursuant to § 1138.71(c) the amount, if any, by which the amount computed pursuant to § 1138.71(a)(2) exceeds the amount computed pursuant to § 1138.71(a)(1).

(b) If the market administrator received payment from a handler(s) pursuant to § 1138.71(c), he shall distribute such amount plus any amount due such handler(s) pursuant to paragraph (a) of this section to producers and to cooperative associations in the same manner as provided in § 1138.73. In the event the handler fails to transmit the total amount due, the market administrator shall reduce uniformly the payments due to producers of such handler and complete such payments when the remaining amount is received.

(c) If at any time the balance in the producer-settlement fund is insufficient to make all payments pursuant to paragraph (a) of this section, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the appropriate funds are available.

§ 1138.73 Payments to producers and to cooperative associations.

(a) Except as provided in § 1138.71(c) and paragraphs (b), (d) and (f) of this section, each handler shall make payment to each producer from whom milk is received during the month as follows:

(1) On or before the last day of each month to each producer who did not discontinue shipping milk to such handler before the 23rd day of the month, an amount equal to not less than the previous month's uniform price (adjusted for location of such plant) multiplied by the hundredweight of milk received from such producer during the first 15 days of the month, less proper deductions authorized in writing by the producer, provided that the deductions do not exceed the value of the milk received during the partial payment period and the handler has paid such deductions to assignees by the date payment is otherwise due the producer.

(2) On or before the 17th day of the following month, an amount equal to not less than the appropriate uniform price adjusted by the butterfat differential and location adjustments to producers multiplied by the hundredweight of milk received from such producer during the month, subject to the following adjustments:

(i) Less payments made to such producer pursuant to paragraph (a)(1) of this section;

(ii) Less deductions for marketing services made pursuant to § 1138.86;

(iii) Plus or minus adjustments for errors made in previous payments made to such producer; and

(iv) Less proper deductions authorized in writing by such producer, provided that the deductions do not exceed the value of the milk received during the final payment period and the handler has paid such deductions to assignees by the date payment is otherwise due to the producer: *Provided*, That if by such date such handler had not received full payment from the market administrator pursuant to § 1138.72(a) for such month, he may reduce pro rata his payments to producers by not more than the amount of such underpayment. Payments to producer shall be completed thereafter not later than the date for making payments pursuant to this paragraph next following after the receipt of the balance due from the market administrator.

(b) Except as provided in paragraph (f) of this section, in the case of a cooperative association which the market administrator determines is authorized by those producers for whom it markets milk to collect payment for their milk and which has so requested any handler in writing, such handler other than one specified in § 1138.71(c) shall on or before the 2nd day prior to the date on which payments are due individual producers pay the cooperative association for milk received during the month from those producers for whom it markets milk as determined by the market administrator an amount equal to not less than the amount due such producers as determined pursuant to paragraph (a) of this section.

(c) In making payments to producers pursuant to paragraph (a) of this section, or to a cooperative association pursuant to paragraph (b) of this section, each handler shall furnish such producer or cooperative association with respect to each of the producers for whom it markets milk and from whom the handler received milk during the month, a written statement showing:

(1) The identity of the handler and the producer and the month to which the payment applies;

(2) The total pounds, and, with respect to final payments, the average butterfat content of the milk for which payment is being made;

(3) The minimum rate of payment required by the order and the rate of payment used if such rate is other than the applicable minimum rate;

(4) The amount and nature of any deductions from the amount otherwise due the producer; and

(5) The net amount of payment to the producer.

(d) Except as provided in § 1138.71(c) and paragraph (f) of this section, each handler pursuant to § 1138.9(a) who receives milk from a cooperative association as a handler pursuant to § 1138.9(c), including the milk of producers who are not members of such association, and who the market administrator determines have authorized such cooperative association to collect payment for their milk, shall pay such cooperative for such milk as follows:

(1) On or before the 2nd day prior to the last day of the month for milk received during the first 15 days of the month, not less than the applicable partial payment rate specified for such month in paragraph (a)(1) of this section; and

(2) On or before the 15th day of the following month for milk received during the month, not less than the uniform price as adjusted pursuant to § 1138.74 and § 1138.75, less any payments made pursuant to paragraph (a)(1) of this section.

(e) Except as provided in § 1138.71(c), each handler who received bulk fluid milk or bulk fluid cream products from a pool plant operated by a cooperative association shall pay the following amounts for such products to the cooperative association:

(1) On or before the 2nd day prior to the last day of each month, an amount determined by multiplying such receipts during the first 15 days of the month by the applicable partial payment rate

specified for such month in paragraph (a)(1) of this section. If the handler so elects, such price may be adjusted by the butterfat differential specified in § 1138.74 for the preceding month.

(2) On or before the 15th day after the end of each month, an amount determined by multiplying the quantity of such receipts during the month that was classified in each class pursuant to § 1138.42(a) by the applicable class price, as adjusted by the butterfat differential specified in § 1138.74, less any payments made by the handler pursuant to paragraph (e)(1) of this section for such month. For the purpose of such computation, the applicable Class I price shall be the Class I price applicable at the transferee plant including the applicable administrative assessment rate.

(f) If the application of § 1138.71(d)(2) results in a delay in payment by the market administrator to handlers, the payments prescribed in paragraphs (a), (b) and (d) of this section may be delayed by the same number of days.

(g) If the market administrator does not receive the full payment required of a handler pursuant to § 1138.71(c), he shall reduce uniformly per hundredweight the payments due producers and cooperative associations for their milk received by such handler by a total amount not in excess of the amount due from such handler. The market administrator shall complete such payments on or before the next date for making payments pursuant to this section following the date on which the remaining payment is received from such handler.

§ 1138.74 Butterfat differential.

For milk containing more or less than 3.5 percent butterfat, the uniform price shall be increased or decreased, respectively, for each one-tenth percent butterfat variation from 3.5 percent by a butterfat differential, rounded to the nearest one-tenth cent, which shall be 0.115 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month.

§ 1138.75 Plant location adjustments for producers and on nonpool milk.

(a) In making payments required pursuant to § 1138.73, the uniform price computed pursuant to § 1138.61 shall be adjusted by the amounts set forth in § 1138.53 according to the location of the plant where the milk being priced was received.

(b) For the purpose of computations pursuant to §§ 1138.71 and 1138.72, the uniform price shall be adjusted by the amount set forth in § 1138.53 that is applicable at the location of the nonpool plant from which the milk was received.

§ 1138.76 Payments by a handler operating a partially regulated distributing plant.

Each handler who operates a partially regulated distributing plant shall pay on or before the 25th day after the end of the month to the market administrator for the producer-settlement fund the amount computed pursuant to paragraph (a) of this section. If the handler submits pursuant to § 1138.30(b) and § 1138.31(b) the information necessary for making the computations, such handler may elect to pay in lieu of such payment the amount computed pursuant to paragraph (b) of this section:

(a) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the pounds of route disposition in the marketing area from the partially regulated distributing plant;

(2) Subtract the pounds of fluid milk products received at the partially regulated distributing plant:

(i) As Class I milk from pool plants and other order plants, except that subtracted under a similar provision of another Federal milk order; and

(ii) From another nonpool plant that is not an other order plant to the extent that an equivalent amount of fluid milk products disposed of to such nonpool plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract the pounds of reconstituted skim milk in route disposition in the marketing area from the partially regulated distributing plant;

(4) Multiply the remaining pounds by the difference between the Class I price and the uniform price, both prices to be applicable at the location of the partially regulated distributing plant; and

(5) Add the amount obtained from multiplying the pounds of reconstituted skim milk specified in paragraph (a)(3) of this section by the difference between the Class I price applicable at the location of the partially regulated distributing plant and the Class III price.

(b) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the value that would have been computed pursuant to § 1138.60 for the partially regulated distributing plant if the plant had been a pool plant, subject to the following modifications:

(i) Fluid milk products and bulk fluid cream products received at the partially regulated distributing plant from a pool plant or an other order plant shall be allocated at the partially regulated distributing plant to the same class in which such products were classified at the fully regulated plant;

(ii) Fluid milk products and bulk fluid cream products transferred from the partially regulated distributing plant to a pool plant or an other order plant shall be classified at the partially regulated distributing plant in the class to which allocated at the fully regulated plant. Such transfers shall be allocated to the extent possible to those receipts at the partially regulated distributing plant from pool plants and other order plants that are classified in the corresponding class pursuant to paragraph (b)(1)(i) of this section. Any such transfers remaining after the above allocation which are classified in Class I and for which a value is computed for the handler operating the partially regulated distributing plant pursuant to § 1138.60 shall be priced at the uniform price (or at the weighted average price if such is provided) of the respective order regulating the handling of milk at the transferee-plant, with such uniform price adjusted to the location of the nonpool plant (but not to be less than the lowest class price of the respective order), except that transfers of reconstituted skim milk in filled milk shall be priced at the lowest class price of the respective order; and

(iii) If the operator of the partially regulated distributing plant so requests, the value of milk determined pursuant to § 1138.60 for such handler shall include, in lieu of the value of other source milk specified in § 1138.60(f) less the value of such other source milk specified in § 1138.71(a)(2)(ii), a value of milk determined pursuant to § 1138.60 for each nonpool plant that is not an other order plant which serves as a supply plant for such partially regulated distributing plant by making shipments to the partially regulated distributing plant during the month equivalent to the requirements of § 1138.7(b) subject to the following conditions:

(*a*) The operator of the partially regulated distributing plant submits with its reports filed pursuant to §§ 1138.30(b) and 1138.31(b) similar reports for each such nonpool supply plant;

(*b*) The operator of such nonpool supply plant maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available if requested by the market administrator for verification purposes; and

(c) The value of milk determined pursuant to § 1138.60 for such nonpool supply plant shall be determined in the same manner prescribed for computing the obligation of such partially regulated distributing plant; and

(2) From the partially regulated distributing plant's value of milk computed pursuant to paragraph (b)(1) of this section, subtract:

(i) The gross payments by the operator of such partially regulated distributing plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1138.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated.

(ii) If paragraph (b)(1)(iii) of this section applies, the gross payments by the operator of such nonpool supply plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1138.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated; and

(iii) The payments by the operator of the partially regulated distributing plant to the producer-settlement fund of another order under which such plant is also a partially regulated distributing plant and like payments by the operator of the nonpool supply plant if paragraph (b)(1)(iii) of this section applies.

§ 1138.77 Adjustment of accounts.

Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses adjustments to be made, for any reason, which results in monies due the market administrator from such handler, the market administrator shall promptly notify such handler of any such amount due, and payment thereof shall be made on or before the next date for making payment set forth in the provision under which the error occurred. Any monies found to be due a handler from the market administrator shall be paid promptly to such handler, except that the market administrator shall offset any monies due a handler against monies due from such handler. Whenever verification by the market administrator of the payment by a handler to any producer or cooperative association for milk received by such handler discloses payment of less than is required pursuant to § 1138.73, the handler shall pay such balance due such producer or cooperative association not later than the time of making payment to producers or cooperative associations next following such disclosure.

§ 1138.78 Charges on overdue accounts.

Any unpaid obligation of a handler pursuant to §§ 1138.71, 1138.73, 1138.76, 1138.77, 1138.85, or 1138.86 shall be increased 1 percent beginning on the first day after the due date, and on the same day of each subsequent month until such obligation is paid, subject to the following conditions:

(a) The amounts payable pursuant to this section shall be computed monthly on each unpaid obligation, which shall include any unpaid charges previously computed pursuant to this section; and

(b) For the purpose of this section, any obligation that was determined at a date later than prescribed by the order because of a handler's failure to submit a report to the market administrator when due shall be considered to have been payable by the date it would have been due if the report had been filed when due.

(c) All monies collected pursuant to this section shall be paid to the administrative assessment fund maintained by the market administrator.

Administrative Assessment and Marketing Service Deduction

§ 1138.85 Assessment for order administration.

As each handler's pro rata share of the expense of administration of the order, each handler shall pay to the market administrator on or before the 15th day after the end of the month 5 cents per hundredweight or such lesser amount as the Secretary may prescribe with respect to:

(a) Receipts of producer milk (including such handler's own production) other than such receipts by a handler described in § 1138.9(c) that were delivered to pool plants of other handlers or held in inventory at the end of the month;

(b) Receipts from a handler described in § 1138.9(c);

(c) Other source milk allocated to Class I pursuant to § 1138.44(a)(7) and (11) and the corresponding steps of § 1138.44(b), except such other source milk that is excluded from the computation pursuant to § 1138.60 (d) and (f); and

(d) Route disposition from a partially regulated distributing plant in the marketing area that exceeds the skim milk and butterfat specified in § 1138.76(a)(2).

§ 1138.86 Deduction for marketing services.

(a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers pursuant to § 1138.73, shall deduct 6 cents per hundredweight, or such lesser amount as the Secretary may prescribe, with respect to the milk of such producer (except a handler's own farm production) for whom the marketing services set forth in this paragraph are not being performed by a cooperative association as determined by the Secretary. Each handler making such deductions shall pay the deductions to the market administrator on or before the 15th day after the end of the month. The monies shall be used by the market administrator to verify or establish weights, samples and tests of producer milk and provide producers with market information. The services shall be performed by the market administrator or an agent engaged by and responsible to the market administrator.

(b) In the case of producers for whom a cooperative association is actually performing the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deduction specified in paragraph (a) of this section, such deductions from the payments to be made to such producer as may be authorized by the membership agreement or marketing contract between such cooperative association and such producers, and on or before the 15th day after the end of each month, pay such deduction to the cooperative association rendering such services accompanied by a statement showing the quantity of milk for which such deduction was computed for each such producer.

PART 1126—MILK IN THE TEXAS MARKETING AREA

1. In § 1126.50, paragraph (a) is revised to read as follows:

§ 1126.50 Class prices.

* * * * *

(a) *Class I price.* The Class I price shall be the basic formula price for the second preceding month plus $3.10.

* * * * *

2. In § 1126.52, paragraph (a) is revised to read as follows:

§ 1126.52 Plant location adjustments for handlers.

(a) For milk received at a plant from producers or a handler described in § 1126.9(c) and which is classified as Class I milk without movement in bulk form to a pool distributing plant at which a higher Class I price applies, the price specified in § 1126.50(a) shall be adjusted by the amount stated in paragraphs (a) (1) through (8) of this section for the location of such plant;

(1) For a plant located within one of the zones set forth in § 1126.2, the adjustment shall be as follows:

	Adjustment per hundredweight
Zone 1	No adjustment.
Zone 1A	Minus 19 cents.
Zone 2	No adjustment.
Zone 3	Plus 15 cents.
Zone 4	Plus 18 cents.
Zone 5	Plus 20 cents.
Zone 6	Minus 21 cents.
Zone 7	Plus 30 cents.
Zone 8	Plus 34 cents.
Zone 9	Plus 42 cents.
Zone 10	Plus 53 cents.
Zone 11	Plus 66 cents.
Zone 12	Plus 75 cents.

(2) For a plant located in the New Mexico-West Texas marketing area, the minus adjustment shall be the difference between the applicable Class I price effective at such plant location under the New Mexico-West Texas order (part 1136) and the Class I price specified in § 1126.50(a).

(3) For a plant located in Bowie or Cass County, Texas, the adjustment shall be minus 8 cents.

(4) For a plant located in the State of Texas that is outside the designated pricing areas described in paragraphs (a)(1) through (3) of this section, the adjustment shall be the adjustment applicable at the nearer of Corpus Christi, San Angelo, or San Antonio, Texas, except that for a plant is located in the Texas counties of Brewster, Crane, Crockett, Culberson, Hudspeth, Irion, Jeff Davis, Loving, Pecos, Presidio, Reagan, Reeves, Terrell, Upton, Ward, and Winkler, the adjustment shall be minus 2.2 cents per hundredweight for each 10 miles or fraction thereof that such plant is located from the City Hall in San Angelo, Texas (based on the shortest hard-surfaced highway distance as determined by the Market Administrator.)

(5) For a plant located in the Southwest Plains marketing area or in Pulaski County, Missouri, the minus adjustment shall be the difference between the applicable Class I price effective under the Southwest Plains order (part 1106) and the Class I price specified in § 1126.50(a).

(6) For a plant located in the State of Arkansas, the minus adjustment shall be the difference between the applicable Class I price effective at such plant location under the Central Arkansas order (part 1108) and the Class I price specified in § 1126.50(a).

(7) For a plant located in the State of Louisiana, the plus adjustment shall be the difference between the applicable Class I price effective at such plant location under the Greater Louisiana order (part 1098) and the Class I price specified in § 1126.50(a).

(8) For a plant located outside the designated pricing areas described in paragraphs (a)(1) through (7) of this section, the adjustment shall be minus 2.2 cents per hundredweight for each 10 miles or fraction thereof that such plant is located from the City Hall in Dallas, Texas, (based on the shortest hard-surfaced highway distance as determined by the Market Administrator.)

* * * * *

PART 1106—MILK IN THE SOUTHWEST PLAINS MARKETING AREA

1. In § 1106.9(f), the reference to "§ 1106.7(e)" is changed to "§ 1106.7(f)."

2. In the preamble of § 1106.43, the reference to "§ 1160.44" is changed to "§ 1106.44."

3. In § 1106.44(a)(1), the reference to "§ 1106.4(b)" is changed to "§ 1106.41(b)."

4. Section 1106.52 is amended by changing the reference to "paragraphs (a)(1) through (9)" in the introductory text of paragraph (a) to "paragraphs (a)(1) through (7)", by removing paragraphs (a)(6) through (9) and adding new paragraphs (a)(6) and (7) to read as follows:

§ 1106.52 Plant location adjustments for handlers.

(a) * * *

(6) For a plant located in any of the following territory in the States of Texas, New Mexico and Colorado, the adjustments shall be as follows:

(i) In the Texas marketing area, the plus adjustment shall be the difference between the applicable Class I price effective at such plant location under the Texas order (Part 1126) and the Class I price specified in § 1106.50(a).

(ii) In Bowie or Cass Counties, Texas, the adjustment shall be plus 31 cents.

(iii) In any other Texas territory that is outside the marketing area of any Federal order, the adjustment shall be plus 2.25 cents per hundredweight for each 10 miles or fraction thereof that such plant is from the City Hall in Oklahoma City, Oklahoma, (based on the shortest hard-surfaced highway distance as determined by the Market Administrator.)

(iv) In the New Mexico-West Texas marketing area, the minus adjustment shall be the difference between the applicable Class I price effective at such plant location under the New Mexico-West Texas order (part 1136) and the Class I price specified in § 1106.50(a).

(v) In the Eastern Colorado marketing area or in the Colorado counties of Baca, Bent or Powers, the adjustment shall be the difference (plus or minus) between the applicable Class I price effective at such plant location under the Eastern Colorado order (part 1137) and the Class I price specified in § 1106.50(a).

(vi) In any other Colorado territory that is outside the designated pricing areas described in paragraphs (a)(6)(iv) and (v), the adjustment shall be minus 77 cents.

(7) For a plant located outside the designated pricing areas described in paragraphs (a)(1) through (6) of this section, the adjustment shall be minus 18 cents plus an additional reduction of 2.25 cents per hundredweight for each 10 miles or fraction thereof that such plant is located from the nearer of the City Hall in Tulsa or Ponca City, Oklahoma (based on the shortest hard-surfaced highway distance as determined by the Market Administrator.)

* * * * *

PARTS 1120 AND 1132—[REMOVED]

Parts 1120 and 1132 would be removed.

Signed at Washington, DC on: October 22, 1990.

Daniel Haley,

Administrator.

BILLING CODE 3410-02-M

DEPARTMENT OF THE INTERIOR

National Park Service

36 CFR Part 7

RIN 1024-AB56

Voyageurs National Park, MN Snowmobile Regulations;

AGENCY: National Park Service, Interior.

ACTION: Proposed rule.

SUMMARY: This proposed rulemaking will amend the current regulation by adding a section which will designate routes, portages and water surfaces open to snowmobile use. This addition is necessary to authorize snowmobile use within Voyageurs National Park. The intended effects are to provide for safe snowmobile use, to protect park resources, and to provide appropriate enjoyment to park users.

DATES: Written comments will be accepted through November 28, 1990.

ADDRESSES: Comments should be directed to: Superintendent, Voyageurs National Park, P.O. Box 50, International Falls, MN 56649.

FOR FURTHER INFORMATION CONTACT:
Chief Ranger, Voyageurs National Park, P.O. Box 50, International Falls, MN 56649. Telephone: 218 283-9821.

SUPPLEMENTARY INFORMATION:

Background

Title 36, Code of Federal Regulations (36 CFR), § 2.18(c) requires the promulgation of special regulations to authorize snowmobile use within areas of the National Park System.

These regulations are proposed by the National Park Service (NPS) to allow snowmobiling on designated lakes, land trails and safety portages within Voyageurs National Park. They reflect the legislative history and planning and public participation process summarized below.

Voyageurs National Park was authorized in 1971 and established in 1975. The park consists of approximately 219,128 acres of which 85,506 acres or 39 percent are water. The water portions of the park have long served as primary transportation routes, and motorized travel on the major lakes (Rainy, Kabetogama, Namakan and Sand Point) precedes the park's establishment. Today motorboats and snowmobiles are used both for recreation, and to provide year-round access to homes and vacation cabins in the adjacent region.

Overland snowmobile travel is also long established. The most popular overland snowmobile route existing today is the Chain of Lakes Trail located on the western half of the Kabetogama Peninsula. This twelve mile trail connects five interior lakes with Kabetogama Lake by a series of portages and abandoned logging roads.

"NPS Management Policies" and 36 CFR 2.18 state that snowmobiling will be limited to designated routes and frozen lake surfaces used by motorized vehicles during other seasons or as otherwise provided by Federal statute.

The legislation authorizing Voyageurs National Park (Pub. L. 91-681, as codified at 16 U.S.C. 160 *et seq.*) includes such a provision. Section 303 of the Act, 16 U.S.C. 160h, states: "The Secretary [of the Interior] may, when planning for development of the park, include appropriate provisions for winter sports, including the use of snowmobiles."

The park's 1980 "Master Plan" followed this direction by providing for the use of snowmobiles on lakes and traditionally used land routes.

In 1983 the park's initial wilderness study was completed and the resulting draft "Wilderness Recommendation" and accompanying "Environmental Impact Statement" (EIS) were submitted to the Department of Interior's Legislative Counsel on June 8, 1983. A second recommendation superseding the June 8, 1983 recommendation was transmitted on November 17, 1983. Neither the first nor the second recommendation was transmitted to the President or to the Congress. An update of the wilderness study is scheduled to commence in the fall of 1990.

In April, 1989 the park's "Trail Plan and Environmental Assessment" was completed. This document proposed the development of certain overland snowmobile trails with the understanding that these trails would not preclude further wilderness study and potential wilderness designation.

A "Special Regulations For Lake Surface Snowmobiling Environmental Assessment" was completed in 1990 and supported the master plan's recommendation to allow snowmobiling on Rainy, Kabetogama, Namakan and Sand Point lakes.

This proposed regulation intends to implement the above recommendations by authorizing snowmobile use on the frozen lake surfaces of the four major lakes, across associated safety portages, and on several short spur routes.

Snowmobile use would also be allowed on the Chain of Lakes Trail.

This proposed regulation would not authorize snowmobile use on the 26.0 mile Kabetogama Peninsula Trail recommended in the "Trail Plan".

The pending wilderness study will address the Kabetogama Peninsula Trail. Decisions concerning snowmobile use of the Chain of Lakes Trail and the proposed Kabetogama Peninsula Trail will be evaluated based on those recommendations and this regulation will be amended at the appropriate time to reflect those decisions.

In order to mitigate snowmobile impacts on critical wildlife habitat within the park, temporary closures of the lake surfaces may occur under the authority of § 1.5 of 36 CFR. Other mitigation measures to reduce the potential impacts of snowmobiles on the park's resources will also be implemented. These actions include continued monitoring and analysis by the resource management and research staffs of resource conditions and trends, and visitor use and behavior. Non-regulatory measures will be adopted, including marking and grooming of trails on the lake surfaces to route snowmobiles away from areas frequented by wolves and other wildlife.

Public Participation

The policy of the National Park Service is, whenever practicable, to afford the public an opportunity to participate in the rulemaking process. Accordingly, interested persons may submit written comments regarding this proposed rule to the address noted at the beginning of this rulemaking.

Extensive public involvement has also taken place through public review of the "Master Plan", the wilderness studies, and the "Trail Plan".

Drafting Information

The primary author of this rulemaking is Hugh Dougher, Park Ranger, Voyageurs National Park.

Paperwork Reduction Act

This rulemaking does not contain information collection requirements that require approval by the Office of Management and Budget under 44 U.S.C 3501 *et seq.*

Compliance With Other Laws

Pursuant to the National Environmental Policy Act, 42 U.S.C. Section 4332, the Service prepared a Draft Trail Plan and Environmental Assessment. The environmental assessment led to a Finding of No Significant Impact. Public input was provided during a series of public hearings. Extensive public comment, both oral and written, was received regarding the matter of snowmobile use.

The NPS has determined that this rulemaking is not a "major rule" within the meaning of E.O. 12291 ((46 FR 13193); Feb. 19, 1981). In accordance with the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, which became effective January 1, 1981, the Service has determined that the regulations proposed in the rulemaking will not have a significant economic effect on a substantial number of small entities, nor does it require a preparation of a regulatory analysis.

The Service has reviewed this rule as directed by Executive Order 12360, "Governmental Actions and Interference with Constitutionally Protected Property Rights," to determine if this rule has "policies that have taking implications." The Service has determined that this rule does not have taking implications because it allows an activity previously prohibited by Service regulations. This will allow winter access to private lands within and adjacent to the park which is otherwise prohibited.

List of Subjects in 36 CFR Part 7

National Parks, Reporting and recordkeeping requirements.

In consideration of the foregoing, it is proposed to amend 36 CFR chapter I, part 7 as follows:

PART 7—SPECIAL REGULATIONS, AREAS OF THE NATIONAL PARK SYSTEM

1. The authority citation continues to read as follows:

Authority: 16 U.S.C. 1,3,9a, 460(q), 462(k); Sec. 7.96 also issued under D.C. Code 8-137 (1981) and DC Code 40-721 (1981).

2. Section 7.33 is amended by adding paragraph (b) to read as follows:

§ 7.33 Voyageurs National Park.

* * * * *

(b) *Snowmobiles.* (1) The following lakes and trails within Voyageurs National Park are open to snowmobile use:

(i) The frozen waters of Rainy, Kabetogama, Namakan, Mukooda, Little Trout and Sand Point lakes.

(ii) The Moose River Railroad Grade from the park boundary north to Ash River, and then east to Moose Bay, Namakan Lake.

(iii) The portage trail between Grassy Bay and Little Trout Lake.

(iv) The Chain of Lakes Trail from its intersection with the Black Bay to Moose Bay portage, across Locator, War Club, Quill, Loiten, and Shoepack Lakes, to Kabetogama Lake.

(2) Snowmobile use is allowed across the following marked safety portages: Black Bay to Moose Bay, Lost Bay to Saginaw Bay, Laurins Bay to Kettle Falls, Squirrel Narrows, Squaw Narrows, Grassy Bay, Namakan Narrows, Swansons Bay, Mukooda Lake to Sand Point Lake (north), Mukooda Lake to Sand Point Lake (south), Mukooda Lake to Crane Lake, Tar Point, Kohler Bay, and Sullivan Bay to Kabetogama Lake.

(3) The Superintendent may determine yearly opening and closing dates for snowmobile use, and temporarily close trails or lake surfaces, taking into consideration public safety, wildlife management, weather, and park management objectives.

(4) Maps showing the designated routes are available at park headquarters and at ranger stations.

(5) Snowmobile use outside open designated routes and lake surfaces is prohibited.

Dated: October 1, 1990.

Scott Sewell,

Acting Assistant Secretary for Fish, Wildlife and Parks.

BILLING CODE 4310-70-M

36 CFR Part 62

National Natural Landmarks Program: Identification, Notification, Evaluation, Nomination and Designation of Nationally Significant Geological and Ecological Natural Areas as National Natural Landmarks

AGENCY: National Park Service, DOI.

ACTION: Advance Notice of Proposed Rulemaking; Request for Comments.

SUMMARY: The National Park Service (NPS) is requesting comments and suggestions regarding its intent to amend regulations governing the identification, notification, evaluation, nomination and designation of geological and ecological natural areas as National Natural Landmarks (NNLs). It has come to the NPS' attention that, in some cases, over the tenure of the National Natural Landmarks Program from 1962 forward, some resource identifications, onsite evaluations, nominations, and designations have been done without appropriate notification and/or consent of the legal landowners. To rectify this situation, amended regulations are required to specifically ensure that landowners are fully notified, are provided full Program disclosure and an understanding of the consequences relative to NNL designation, and have given their consent to having their property so considered. NPS believes full disclosure to willing landowners will be constructive and ensure that landowner rights are fully respected at all times. NPS seeks recommendations before amending the regulations. It is anticipated that proposed regulations will be published in the Federal Register for a 90-day public comment period commencing on or about November 1, 1990. Public hearings may also be held during this public comment period (*See* **SUPPLEMENTARY INFORMATION**" below).

DATES: Response to this notice is without expiration until the proposed rulemaking is published in the Federal Register.

ADDRESSES: Please mail written comments to Director, National Park Service (490), P.O. Box 37127, Washington, DC 20013-7127.

FOR FURTHER INFORMATION CONTACT: Anne Frondorf, Wildlife and Vegetation Division, National Park Service, Washington, DC (202) 343-6100.

SUPPLEMENTARY INFORMATION:

Comments

Interested persons are invited to submit comments concerning this Notice. Comments should refer to the docket number that appears in the heading of this document. All comments submitted in response to this Notice shall be made available for public inspection in the Natural Landmarks Program office, Wildlife and Vegetation Division, located in room 3319, 1100 L Street NW., Washington, DC between 9 a.m. and 4 p.m., Monday through Friday.

Public Hearings

To assist the NPS in gaining a more complete perspective of all Program associated problematic issues for prompt resolution and to provide adequate public input into the regulatory process, NPS anticipates the need for a series of public hearings. During the 90-day public comment period for the proposed regulations, the following localities are under consideration for public hearings: Boise, Idaho; Davis, California; Albuquerque, New Mexico; Denver, Colorado; Porter, Indiana; Bangor, Maine; Harrisburg, Pennsylvania; Washington, District of Columbia; and Tallahassee, Florida. Suggestions for alternative potential localities are requested from the public, although the total number of hearings shall not exceed nine (9).

Background

The Secretary of the Interior established the National Natural Landmarks Program in 1962 to identify and encourage the preservation of the full range of geological and ecological features that are determined to be among the most significant examples of the Nation's natural heritage. Potential natural landmarks are identified through studies conducted by the National Park Service and other sources, evaluated by expert natural scientists, and, if judged nationally significant, designated as landmarks by the Secretary of the Interior. Once a landmark is designated, it is included on the National Registry of Natural Landmarks, which currently lists 587 natural landmarks nationwide.

The National Natural Landmarks Program has been administered by NPS since May 18, 1962 with the exception of the period from January 25, 1978 to May 31, 1981, when it was administered by the Heritage Conservation and Recreation Service (HCRS). HCRS was abolished by Secretarial Order 3060 on May 31, 1981.

The act of designating an area as a natural landmark is not a land withdrawal. Landmark designation does not dictate the type or intensity of activity that may be undertaken on the subject real property involved. However, there may be State and/or local land use or land planning

implications of landmark designation and therefore designation may indirectly restrict some uses and compromise future changes of land usage. Landmark conservation is often made possible only through the long-term voluntary commitment of public and private owners to protect an area's outstanding natural values. The Department encourages owners and managers to protect the nationally significant values located on their properties. This cooperation is wholly voluntary. Landowners who agree to participate in the Program are expected to preserve the integrity of the natural values being recognized. Landowners are eligible to receive a certificate which recognizes the special status of their property. A bronze plaque may also be presented when considered appropriate for display at the landmark.

Federal agencies are responsible for considering National Natural Landmarks when assessing the effects of their actions on the environment under section 102(2)(C) of the National Environmental Policy Act of 1969 (83 Stat. 852; 42 U.S.C. 4321).

The National Registry of Natural Landmarks includes nationally significant geological and ecological features in 48 states, American Samoa, Guam, Puerto Rico, and the Virgin Islands. Of the 587 landmarks currently listed on the Registry, approximately one-half are administered solely by public agencies, i.e., Federal, State, county, or municipal governments. Nearly one-third are owned entirely by private parties. The remaining natural landmarks are owned or administered by a mixture of public and private owners. Because many natural landmarks are privately owned and/or not managed for public access, landowner permission must be obtained prior to visitation. Designation in no way infers any right of public access.

Discussion

Over the twenty-eight (28) year history of the Program, full sensitivity to landowner interests, including landowner notification and consent, has not always been demonstrated by the NPS. From 1962 through 1979, no program regulations existed. Existing program regulations (36 CFR part 62) were published in 1980. These regulations contain provisions for landowner notification, but do not explicitly address landowner consent. There are indications that some landowners may not have received appropriate notification. It is the intent of the NPS to publish a proposed rulemaking resulting in a final regulatory authority which shall ensure landowner rights are fully respected at all times. In addition, any changes in program regulations will be applied to all currently designated natural landmarks and other sites which have previously received onsite evaluations. Landowners will be provided with the opportunity to have the natural landmark designation removed from their properties. In addition, the NPS will propose, as part of this proposed rulemaking, that the National Park System Advisory Board will review any future natural landmark nominations and make recommendations to the Secretary as to their designation.

NPS believes amended regulations containing specific language on landowner notification and consent requirements, together with full Program disclosure, coupled with the development of a step-by-step internal Program procedures handbook to ensure uniform application of these regulations and the development of a landowner contact element in the Program, will serve to enhance the value of the Program for both the public and private sectors.

Additional Information Sources

Any person may write the NPS for National Natural Landmark Program documents including the "National Registry of Natural Landmarks," the current Program regulations (36 CFR part 62), and other general or specific Program materials. In addition, natural area theme studies, onsite evaluation reports, and other associated program documents are available by mail. By prior appointment, all Program documents remain available for public examination in Washington, DC and at the National Park Service's ten regional offices. The following list of National Natural Landmarks Program Regional Coordinators and direct contact information is provided for all interested persons:

Alaska Regional Office: Gary Vequist, NNL Coordinator, 2525 Gambell Street, Anchorage, Alaska 99503, (907) 257-2570

Midwest Regional Office: Michael Gallagher, NNL Coordinator, 1709 Jackson Street, Omaha, Nebraska 68102, (402) 221-3418

Pacific Northwest Regional Office: Gordon Atkins, NNL Coordinator, 83 S. King Street, Suite 212, Seattle, Washington 98104, (206) 442-2352

Western Regional Office: Gene Wehunt, NNL Coordinator, 450 Golden Gate Ave., Box 36063, San Francisco, California 94102, (415) 556-6560

Rocky Mountain Regional Office: Kay Salazar, NNL Coordinator, P.O. Box 25287, Denver, Colorado 80225, (303) 969-2850

Southwest Regional Office: Keith Yarborough, NNL Coordinator, P.O. Box 728, Santa Fe, New Mexico 87504, (505) 988-6570

Southeast Regional Office: Wallace Brittain, NNL Coordinator, 75 Spring Street, Atlanta, Georgia 30303, (404) 331-5536

Mid-Atlantic Regional Office: Pat Bentley, NNL Coordinator, 143 South Third Street, Philadelphia, Pennsylvania 19106, (215) 597-0011

North Atlantic Regional Office: Mary Foley, NNL Coordinator, 15 State Street, Boston, Massachusetts 02109, (617) 223-5129

National Capital Regional Office: Dick Hammerschlag, NNL Coordinator, 1100 Ohio Drive, SW, Washington, DC 20042, (202) 342-1443

Authority

Authority for the National Natural Landmarks Program is based on the Historic Sites Act of 1935 (49 Stat. 666, 16 U.S.C. 461 *et seq.*); and, section 2 of Reorganization Plan No. 3 of 1950 (64 Stat. 1262).

References

45 FR 81190, December 9, 1980. Redesignated at 46 FR 34329, July 1, 1981.

Additional Statutory Compliance Requirements

A determination will be made by the Department of the Interior whether or not this rulemaking is a major rule under the provisions of Executive Order 12291. If the Department determined this rulemaking is a major rule, a Regulatory Impact Analysis will be required. Regulations will also be constructed in compliance with the Administrative Procedures Act (5 U.S.C. 551 *et seq.*) and the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) which may require preparation of a Regulatory Flexibility Analysis. These regulations will also be constructed in full compliance with all provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). A determination also will be made on the necessity or lack thereof for preparation of an environmental assessment or an impact statement, as required by the National Environmental Policy Act of 1969 (42 U.S.C. 4321-4347). Major issues affecting landowners shall be fully addressed.

The preamble to the proposed regulations shall include a summary and a discussion of the comments received in response to this Notice.

Dated: October 12, 1990.

Scott Sewell,

Acting Assistant Secretary for Fish and Wildlife and Parks.

BILLING CODE 4310-70-M

FEDERAL MARITIME COMMISSION

46 CFR Part 502

[Docket No. 90-29]

Amendment to Rules of Practice and Procedure; Interest in Reparation Proceedings

AGENCY: Federal Maritime Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Federal Maritime Commission ("Commission" or "FMC") proposes to amend Rule 253 of its Rules of Practice and Procedure, 46 CFR 502.253, interest in reparation proceedings. The Rule currently limits payment of interest to proceedings involving misrating of cargo and arising under section 10(b) of the Shipping Act of 1984 and section 2 of the Intercoastal Shipping Act, 1933. The proposed amendment would make Rule 253 applicable to the computation of interest on awards of reparation granted under the Shipping Act of 1984 and the Shipping Act, 1916 on the basis of the average rate on six-month U.S. Treasury bills. Under the Intercoastal Shipping Act, 1933, interest would be computed on the average of the prime rate charged by major banks as published by the Board of Governors of the Federal Reserve System.

DATES: Comments due on or before November 28, 1990.

ADDRESSES: Send comments (original and fifteen copies) to: Joseph C. Polking, Secretary, Federal Maritime Commission, 1100 L Street, NW., Washington, DC 20573, (202) 523-5725.

FOR FURTHER INFORMATION CONTACT: Robert D. Bourgoin, General Counsel, Federal Maritime Commission, 1100 L Street, NW., Washington, DC 20573, (202) 523-5740.

SUPPLEMENTARY INFORMATION: Rule 253 of the FMC's Rules of Practice and Procedure, 46 CFR 502.253, governs the payment of interest on awards of reparation. It currently provides for the payment of interest "in cases involving the misrating of cargo and arising under section 10(b) of the Shipping Act of 1984 and section 2 of the Intercoastal Shipping Act, 1933." Interest is to be computed on the basis of the average monthly rates on six-month U.S. Treasury bills.

However, section 11(g) of the Shipping Act of 1984 ("1984 Act"), 46 U.S.C. app. 1710(g), contemplates awards of reparation not only for injuries caused by misrating but also for "actual injury" caused by any violation of the 1984 Act. Actual injury includes "the loss of interest at commercial rates compounded from the date of injury."

Further, section 22(a) of the Shipping Act, 1916, ("1916 Act") permits the Commission to direct full reparation to a complainant for any violation of the 1916 Act. 46 U.S.C. app. 821. It, however, contains no reference to the payment of interest on such awards.[1]

Section 2 of the Intercoastal Shipping Act, 1933 ("1933 Act"), 46 U.S.C. 844, referred to in Rule 253, prohibits the collection of freight charges different from the rates and charges on file with the Commission. In addition, section 3(c)(2) of the 1933 Act permits the Commission to order a refund of that portion of a general rate increase that is not just and reasonable and section 4 allows reparations for unjust or unreasonable rates. Under these situations, interest is to be "computed on the basis of the average of the prime rate charged by major banks, as published by the Board of Governors of the Federal Reserve System."[2]

Under the proposed rule, interest on awards of reparation for all violations of the 1984 Act and the 1916 Act would be computed on the basis of the average monthly rate on six-month U.S. Treasury bills. This is a continuation of the standard currently used only for reparations in misrating cases.[3] The Commission believes that this standard is particularly appropriate for all 1984 Act and 1916 Act cases for the reasons stated when it was originally adopted, *i.e.*, persons to whom reparations have been awarded would have had the additional funds to use or invest and should be compensated according to investment rates in money and capital markets. Docket No. 81-22, Interest in Reparation Proceedings, 20 S.R.R. 1511, 1514 (1981). After having chosen an investment rate rather than loan rate, the Commission there chose the short term T-Bill rate, because the uncertainty and the general short duration of overpayments made it unlikely that such funds could have been used for longer term investments. *Id.* When the Commission later adopted a rule to implement the 1984 Act, it again chose the T-Bill rate, but changed the method of calculating interest from simple to compound. Docket No. 84-17, Interest in Reparation Proceedings, 22 S.R.R. 1069 (1984). The Commission there stated that it intended to establish a benchmark interest rate that would produce a reasonable result for the reparations process. Although noting several alternative forms of investments, the Commission determined that monthly yields on six-month T-Bills produced a fair rate of interest. Interest in Reparation Proceedings, *supra*, 22 S.R.R. at 1071. In this regard, it should be noted that Congress has chosen a T-Bill rate for interest award on money judgments in civil cases in United States district courts. *See* 28 U.S.C. 1961(a).

In view of the specific statutory requirement, interest on refunds and reparation awards granted under the 1933 Act would be computed on the basis of the average of the prime rate charged by major banks, as published by the Board of Governors of the Federal Reserve System, during the period to which the reparation applies.

The Federal Maritime Commission has determined that this proposed rule is not a "major rule" as defined in Executive Order 12291, dated February 17, 1981, because it will not result in:

(1) An annual effect on the economy of $100 million or more;

(2) A major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or investment productivity, innovations, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The Federal Maritime Commission certifies, pursuant to section 605(b), of the Regulatory Flexibility Act, 5 U.S.C. 605(b) that this proposed rule, if adopted, will not have a significant economic impact on a substantial number of small entities, including small businesses, small organizational units or small governmental organizations.

The Paperwork Reduction Act, 44 U.S.C. 3501-3520, does not apply to this Notice of Proposed Rulemaking because the amendments to part 502 of title 46, Code, of Federal Regulations, do not impose any additional reporting or

---

[1] The Commission's policy has been to assess interest on reparation awards granted under section 22 of the 1916 Act. *See, e.g., Oakland Car Co.* v. *Great Lakes Transit Corp.*, 1 U.S.S.B.B. 208, 211 (1945); *United States Borax & Chemical Corporation* v. *Pacific Coast European Conference et al.*, 11 F.M.C. 451, 470 (1968), citing *L.& N.R.R.* v. *Sloss-Sheffield Co.*, 269 U.S. 217, 229 (1925), where the Court recognized the loss of interest on charges unlawfully collected as an element of damages.

[2] The 1933 Act was enacted as an amendment to the 1916 Act. Both presently apply to transportation by water in the U.S. domestic offshore trades.

[3] Due to a technical error made in the course of preparing final rules under the 1984 Act, this standard was inadvertently made applicable to only misrating of cargo cases.

record keeping requirements or change the information collection requirements which require the approval of the Office of Management and Budget.

List of Subjects in 46 CFR Part 502

Administrative practice and procedure.

PART 502—[AMENDED]

Therefore, pursuant to 5 U.S.C. 551, 553, 559, the Federal Maritime Commission proposes to amend part 502 of title 46 of the Code of Federal Regulations as follows:

1. The authority citation for part 502 continues to read as follows:

Authority: 5 U.S.C. 504, 551, 552, 553, 559; 12 U.S.C. 1141j(a); 13 U.S.C. 207; 26 U.S.C. 501(c)(3); 28 U.S.C. 2112(a); 46 U.S.C. app. 817, 820, 821, 826, 841a, 1114(b), 1705, 1707–1711, 1713–1716; E.O. 11222 of May 8, 1965 (30 FR 6469); and 21 U.S.C. 853a.

2. Section 502.253 is revised to read as follows:

§ 502.253 Interest in reparation proceedings.

Except as to applications for refund or waiver of freight charges under § 502.92 and claims which are settled by agreement of the parties, and absent fraud or misconduct of a party, interest granted on awards of reparation in complaint proceedings instituted under the Shipping Act of 1984, the Shipping Act, 1916, and the Intercoastal Shipping Act, 1933, will accrue from the date of injury to the date specified in the Commission order awarding reparations. Compounding will be daily from the date specified in the Commission order awarding reparation. Normally, the date specified within which payment must be made will be fifteen (15) days subsequent to the date of service of the Commission order.

(a) On awards of reparation granted under the Shipping Act of 1984, or the Shipping Act, 1916, interest shall be computed on the basis of the average monthly rate on six-month U.S. Treasury bills commencing with the rate for the month that the injury occurred and concluding with the latest available U.S. Treasury bill rate at the date of the Commission order awarding reparation. The monthly rates on six-month U.S. Treasury bills for the reparation period will be summed up and divided by the number of months for which interest rates are available in the reparation period to determine the average interest rate applicable during the period.

(b) On refunds ordered under section 3(c)(2) and awards of reparation granted under section 4 of the Intercoastal Shipping Act, 1933 interest shall be computed on the basis of the average of the prime rate charged by major banks, as published by the Board of Governors of the Federal Reserve System during the period to which the reparation applies. (Rule 253.)

By the Commission.

Joseph C. Polking,
Secretary.

BILLING CODE 6730-01-M

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 17

Endangered and Threatened Wildlife and Plants; Finding on the Petition Involving the Yacare Caiman, and Review of Status of Nile Crocodile (Ranched and Wild Populations) and Yacare Caiman

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of petition finding and initiation of status reviews.

SUMMARY: In this notice, the Service announces its finding on the substantiality of information presented in an earlier petition to downlist the yacare caiman (*Caiman crocodilus yacare*) from endangered to threatened under the provisions of the Endangered Species Act of 1973. The yacare has been listed as endangered since 1970 and is native to Argentina, Bolivia, Brazil and Paraguay.

The Service also announces a review of the status of the Nile crocodile (*Crocodylus niloticus*) in Africa, and the yacare caiman (*Caiman crocodilus yacare*) in South America. All populations of yacare and Nile crocodiles, except those populations of Nile crocodiles in Zimbabwe, are currently listed as endangered. Comments are also being sought on whether other subspecies of caiman (*Caiman crocodilus crocodilus* and *Caiman crocodilus fuscus*), and their manufactured product which closely resemble the yacare caiman, should be listed under the "similarity of appearance" provisions of the Endangered Species Act.

DATES: The finding announced in this notice was made on June 13, 1990. Comments and information on the status reviews may be submitted until February 26, 1991.

ADDRESSES: Comments, information, and questions should be submitted to the Chief, Office of Scientific Authority; Mail Stop: Room 725, Arlington Square; U.S. Fish and Wildlife Service; Washington, DC 20240. Comments and other information received will be available for public inspection, by appointment, from 8:00 a.m. to 4:00 p.m., Monday through Friday, in Room 750, 4401 North Fairfax Drive, Arlington, Virginia 22202.

FOR FURTHER INFORMATION CONTACT: Dr. Charles W. Dane, Chief, Office of Scientific Authority, at the above address (phone 703–358–1708 or FTS 921–1708).

SUPPLEMENTARY INFORMATION:

Finding

Section 4(b)(3) of the Endangered Species Act, as amended, requires that within 90 days of receipt of a petition to list, delist, or reclassify a species, or to revise a critical habitat designation, a finding be made on whether the petition presents substantial information indicating that the action may be warranted.

On March 15, 1988, the Service received a petition dated March 10, 1988, from Mr. Armand S. Bennett, President of Columbia Impex Corporation, requesting the reclassification of the yacare caiman (*Caiman crocodilus yacare*) from an endangered to a threatened status. The petition dealt chiefly with the problem of identification between the yacare caiman and the common caiman (*Caiman crocodilus crocodilus*), especially of the parts (flanks) that enter trade.

The Service reviewed the petition and concluded that it did not present substantial scientific or commercial information to indicate that a downlisting action was warranted.

Yacare Caiman

The Service is aware of the controversy associated with defining the range of *Caiman* species of southern South America, especially that of *Caiman crocodylus yacare*. To assist in the clarification of the status of the yacare caiman, the Secretariat of the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) in conjunction with the International Union for the Conservation of Nature and Natural Resources (IUCN) Crocodile Specialist Group undertook a 2-year survey (starting in late 1986 and early 1987) and conservation program for the crocodilians of the genus *Caiman* in Brazil, Bolivia, and Paraguay. These surveys were conducted under the auspices of CITES, and were carried out

by the IUCN/Crocodile Specialist Group, and the Governments of Brazil, Bolivia, and Paraguay. The Service furnished assistance in the form of funding to the CITES Secretariat and field staff for the Paraguay phase of the study. These surveys should provide data that will enable the Service to assess the present status of the yacare.

The yacare caiman (*Caiman crocodilus yacare*) is limited in distribution to the lowland areas and river systems of northeastern Argentina, southeastern and northern Bolivia, Paraguay, and the western regions of the States of Rondonia, Mato Grosso, and Mato Grosso do Sul of Brazil. These include the river systems of the Rio Paraguay, Mamore (also referred to as the Itenez in Bolivia) southward to the mouth of the Rio Parana. The race is not found in the drainage system of the Rio Solimoes and Amazon in northern and eastern Brazil (Brazitis *et al.* 1989).

Caiman crocodilus crocodilus occurs in the drainages and the basin of the Amazon River in French Guiana, Surinam, Guyana, Venezuela, eastern Ecuador, Colombia, Peru and Brazil. A narrow zone of integration exists between *C. c. yacare* and *C. c. crocodilus* which coincides with the northern border of Bolivia and Brazil in the State of Acre to the Rio Acre and Abuna, and northward to approximately Humaita on the Rio Madeira through the State of Amazonia (Brazitis 1985).

Caiman crocodilus fuscus occurs from Mexico through Central America to Columbia west of the Andes and along the coastal and western regions of Venezuela south through Ecuador to the northwestern border of Peru.

The yacare has been listed as endangered since 1970 and was placed in appendix II of CITES on July 1, 1975. The endangered listing halted all commercial imports of the species into the United States, except under permit for conservation purposes; the appendix II listing allows for regulated commercial trade elsewhere in the world. All commercial imports of yacare into the United States are prohibited under the Act even though shipments originating from range states are carrying apparently valid CITES export documents. All four of the originating countries have been closed to *yacare* export in recent years, thereby calling into question the validity of shipments to intermediary manufacturing countries.

To assist in the clarification of the status of the crocodilians of the genus *Caiman*, especially the yacare caiman, the CITES Secretariat, the IUCN-Crocodile Specialist Group, and the Governments of Brazil, Bolivia, and Paraguay, undertook a 2-year survey (1986–1988) to determine the present status of caimans in southern South America. The results of these surveys have been finalized and the reports (Brazitis et al. 1989, King and Videz Roca 1987, Scott et al. undated) have been filed with the CITES Secretariat. Draft copies have been provided to the Service.

Nile Crocodile

Historically, the Nile crocodile (*Crocodylus niloticus*) was widespread throughout Africa and even as far north as Syria, but presently, it is confined chiefly to the lower Nile, tropical and southern Africa, and Madagascar. In the 1950's and 1960's, it was eliminated throughout much of its range or populations were seriously reduced because of habitat alteration, hunting for the hide industry, or killing to eliminate a potential threat to humans, livestock, and the fishing industry.

The Nile crocodile was listed as endangered in the June 2, 1970, Federal Register notice (35 FR 8495) because of the widespread decline of the species. Since that time, a number of African countries have recognized the Nile crocodile as a valuable part of their natural heritage, both in terms of its ecological role and as a source of sustainable economic benefit if provided proper management, especially the ranching of animals, for a controlled harvest of skins.

In Africa today, some crocodile populations are increasing or have at least stabilized. In some areas, human development has increased available habitat through the creation of lakes and lagoons from damming swift-flowing rivers. Of those countries that have started ranching operations, Zimbabwe appears to have the best information on native populations. Other nations, particularly Malawi, Mozambique, and Zambia have expanded their data base on crocodilian populations in their countries.

In the June 17, 1987, Federal Register notice (52 FR 23148), the Service reclassified ranched populations of Nile crocodile in Zimbabwe from endangered to threatened. At the same time, the Service announced that existing information indicated that wild populations in Zimbabwe should also be reclassified from endangered to threatened, and issued a proposed rule to that effect (52 FR 23152). On September 30, 1988, the Service issued a final rule (53 FR 38451) reclassifying wild populations of Nile crocodiles in Zimbabwe from endangered to threatened.

In 1981, the Parties to CITES recognized that some populations of Appendix I species were less "endangered" than others and could benefit from controlled utilization. Criteria were presented for the transfer of ranched populations to appendix II (resolution Conf. 3.15). Since Zimbabwe had a well-developed ranching scheme and considerable data on the status of its wild populations, its ranching proposal was accepted by the CITES Parties in 1983.

In 1984, at a meeting in Brussels to discuss CITES implementation in Africa, the transfer of the Nile crocodile to appendix II and the difficulty of satisfying the Berne criteria were major issues of discussion. Not all African nations had ranching schemes at that time or intended to develop one. It was recognized that an alternative procedure was needed to allow the utilization of wild populations while information was being gathered to satisfy the rigorous criteria of resolution Conf. 1.2 (Berne criteria) or Conf. 3.15 (ranching). The outcome was the establishment of a quota system introduced at the fifth meeting of the Parties as resolution Conf. 5.21 in 1985. Under this procedure, Nile crocodile populations from nine African countries (Cameroon, Congo, Kenya, Madagascar, Malawi, Mozambique, Sudan, Tanzania, and Zambia), were transferred from appendix I to appendix II, subject to export quotas established by the Parties and described by the CITES Secretariat in the appendices. The population of Botswana was added in 1986 through a postal vote. In 1987, export quotas were continued for specimens from all ten countries. In October, 1987, the CITES Nile Crocodile Project was initiated by the CITES Secretariat in eastern and central Africa and Madagascar (Hutton 1989).

At the seventh meeting of the Conference of Parties to CITES (October 9–20, 1989), the transfer of additional populations of Nile crocodile from appendix I to appendix II, pursuant to resolution Conf. 3.15 on ranching, was approved, including those populations in Botswana, Malawi, Mozambique, and Zambia. Also at the seventh meeting of the Parties, the Party nations agreed to continue an export quota for Nile crocodiles, pursuant to resolution Conf. 5.21 and Conf. 7.14. However, the export quotas for Cameroon, Congo and Madagascar populations were set at zero for the present with the export of only captive-raised specimens allowed from Madagascar in 1991 and 1992, and a zero quota for Sudan in those years. The Parties also approved the transfer

of Nile crocodile populations in Ethiopia and Somalia from appendix I to appendix II pursuant to Conf. 5.21.

At the time of the transfer of these populations from appendix I to appendix II, information on the wild populations of Nile crocodile was incomplete. Since that time, at least some of the countries have developed better population status information and management programs. The Nile crocodile population in each country will be evaluated separately.

Requested Comments

In order to obtain additional information, the Service now solicits relevant data, comments, and publications dealing with the present status and distribution, biological information, and bioconservation measures of the Nile crocodile (both wild and ranched populations), and the yacare caiman.

With reference to the yacare, the Service is also interested in comments on the necessity and advisability of treating the subspecies *C. c. crocodilus* and *C. c. fuscus* (also listed in appendix II of CITES) as endangered or threatened due to its similarity of appearance to the listed *C. c. yacare*. Section 4(e) of the Act and 50 CFR 17.50 authorize such treatment in cases where a species which is not itself listed as endangered or threatened closely resembles a listed species, if it is determined that (1) this resemblance creates substantial difficulty for enforcement personnel in differentiating between the two species, (2) this difficulty causes an additional threat to the listed species, and (3) control of taking or trade in the similar species will substantially facilitate protection of the listed species. Any decision to undertake such controls would, of course, first depend on the results of the yacare status review.

Living yacare caiman are largely distinguishable from the common caiman and the brown caiman. However, portions of skins, hides and products manufactured from cut pieces of these taxa may be difficult or impossible to distinguish as to subspecies or identify.

Endangered and Threatened Wildlife and Plants; Finding on Petition to List the California Floater (Clam)

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of 90-day petition finding.

SUMMARY: The U.S. Fish and Wildlife Service announces a 90-day petition finding for a petition to amend the Lists of Endangered and Threatened Wildlife and Plants. The petition to list a clam, the California floater (*Anodonta californiensis*), does not present substantial information to indicate that listing the species as endangered or threatened is warranted.

DATES: The finding announced in this notice was made on September 18, 1990.

ADDRESSES: Information, comments, or questions regarding the petition may be submitted to the Field Supervisor, U.S. Fish and Wildlife Service, Ecological Services Field Office, 3616 West Thomas, Suite 6, Phoenix, Arizona 85019. The petition, petition finding, and supporting data are available for public inspection, by appointment, during normal business hours at the address listed above.

FOR FURTHER INFORMATION CONTACT: Sally Stefferud, Fish and Wildlife Biologist, at the above address (Telephone 602/379-4720, FTS 261-4720).

SUPPLEMENTARY INFORMATION:

Background

Section 4(b)(3)(A) of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*), requires that for any petition to revise the Lists of Endangered and Threatened Wildlife and Plants the Fish and Wildlife Service (Service) shall make a finding within 90 days of the date of receipt of the petition on whether the petition (a) presents substantial scientific or commercial information indicating that the petitioned action may be warranted, or (b) does not present substantial scientific or commercial information indicating that the petitioned action may be warranted. Such a 90-day finding is to be published promptly in the Federal Register.

A petition, dated December 20, 1989, from Thomas Hulen of the Pueblo Grande Museum in Phoenix, Arizona, was received by the Service on December 26, 1989. The petition requested the Service to list a clam, the California floater (*Anodonta californiensis*) as an endangered or threatened species.

The California floater is a freshwater mussel that is found in Pacific drainages of Washington, Oregon, California, Idaho, Nevada, Utah, and Arizona; southern British Columbia, Canada; and Chihuahua and possibly Sonora, Mexico. In its larval stage it is parasitic on the gills, fins, or barbels of fish. Whether the California floater is host-specific to a certain species or genus of fish is unknown. As an adult, the floater lives in sand and mud on stream bottoms. The life span is unknown, but closely related species live for 10 to 15 years.

Threats to the California floater come primarily from alteration and destruction of riverine habitats, including channelization, dredging, impoundment, erosion, siltation, water diversion, groundwater pumping, pollution, and watershed modifications. Status of the California floater may also be tied to a specific fish or group of fish that serve as hosts for the larval stage. Many of the native fishes within the range of the floater are depleted by habitat alteration and by competition and predation by non-native fishes introduced by humans either inadvertently or for various purposes. The proliferation of the introduced Asian clam (*Corbicula manilensis*) may also be adversely affecting the California floater through interspecific competition.

Information in the petition indicates that, although the California floater was apparently historically relatively widespread in Arizona, it is now restricted to only one area of the upper Black River in eastern Arizona and possibly in Chevelon Creek in north central Arizona. Historic populations in the Colorado River have been extirpated due to extensive modification of the habitat by dams, channelization, water diversion, and dredging. Other historic Arizona populations, such as those in the Santa Cruz and San Pedro Rivers, have been extirpated by the drying up of those rivers through water diversion, groundwater pumping, and watershed modification. Data also exist that indicate that populations of California floater have been extirpated in the area of Los Angeles, California, by channelization and other modifications of the habitat.

No data are available on the California floater in the majority of its range. The status of the species in British Columbia, Washington, Oregon, Idaho, Nevada, northern California, Utah, and Chihuahua is unknown. Although many of the streams in that range have been subject to various degrees of modification by humans, there is no information to support an assumption that the California floater has been substantially depleted or is subject to serious threats throughout all or a significant portion of its range. The Service has reviewed the best scientific and commercial information available on the California floater, and has determined that the petition did not present substantial information indicating that listing this species as endangered or threatened may be warranted.

The Service intends to add the California floater to the list of species considered to be candidates for Federal listing as a category 2 species. Category 2 species are those for which information now in possession of the Service indicates that proposing to list as endangered or threatened is possibly appropriate, but for which conclusive data on biological vulnerability and threats are not currently available to support a proposed rule.

The Service would appreciate any additional data, comments, and suggestions from the public, other concerned governmental agencies, the scientific community, industry, or any interested party concerning this species.

50 CFR Part 17

Endangered and Threatened Wildlife and Plants; Reopening of Comment Period and Public Hearing on Proposed Endangered Status for the Ouachita Rock-Pocketbook (*Arkansia wheeleri*)

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed rule; reopening of comment period and notice of public hearing.

SUMMARY: The U.S. Fish and Wildlife Service (Service) gives notice that a public hearing will be held and the comment period reopened on the proposed rule to list the Ouachita rock-pocketbook (*Arkansia wheeleri*) as an endangered species. The hearing and the reopening of the comment period will allow all interested parties to submit oral or written comments on the proposal.

DATES: The public hearing will be held from 7 p.m. to 11 p.m. on November 19, 1990, in Antlers, Oklahoma. The comment period for this proposal will be reopened on November 14, 1990, and will close on December 4, 1990. Comments must be received by the closing date. Any comments that are received after the closing date may not be considered in the final decision on this proposal.

ADDRESSES: The public hearing will be held at the Antlers Community Center, 200 S. High Street, Antlers, Oklahoma. Written comments and materials should be sent to the Field Supervisor, U.S. Fish and Wildlife Service, 222 S. Houston, suite A, Tulsa, Oklahoma 74127. Comments and materials received will be available for public inspection, by appointment, during normal business hours at the above address.

FOR FURTHER INFORMATION CONTACT: David Martinez, at the above address (918/581-7458 or FTS 745-7458).

SUPPLEMENTARY INFORMATION:

Background

The Ouachita rock-pocketbook is known to occur only in an approximately 80-mile reach of the Kiamichi River upstream from Hugo Reservoir in Oklahoma and a 5-mile segment of the Little River in southwestern Arkansas. The species is threatened by reservoir construction, water quality degradation, and possibly by invasion of the exotic Asiatic clam (*Corbicula fluminea*). A proposed rule to list this species as endangered was published in the Federal Register (55 FR 29665) on July 20, 1990.

Section 4(b)(5)(E) of the Endangered Species Act of 1973 (Act), as amended (16 U.S.C. 1531 et seq.), requires that a public hearing be held if it is requested within 45 days of the publication of a proposed rule. On August 24, 1990, the Service received a written request for a public hearing from Mr. Bill Rowton, City Manager, Antlers, Oklahoma.

The Service has scheduled this public hearing for November 19, 1990, from 7 p.m. to 11 p.m. in the Antlers Community Center, 200 S. High Street, Antlers, Oklahoma. Those parties wishing to make statements for the record should bring a copy of their statement to present to the Service at the start of the hearing. Oral statements may be limited in length, if the number of parties present at the hearing necessitates such a limitation. There are, however, no limits to the length of written comments or materials presented at the hearing or mailed to the Service. The comment period on the proposed rule originally closed on September 21, 1990. The Service is reopening the comment period from November 14, 1990, to December 4, 1990. Written comments should be submitted to the Service office listed in the **ADDRESSES** section above.

Vol. 55, No. 209
Monday, October 29, 1990

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

ADMINISTRATIVE CONFERENCE OF THE UNITED STATES

Committee on Judicial Review and Committee on Governmental Processes; Public Meetings and Notice of Proposed Recommendation

This notice of a committee meeting is given pursuant to the Federal Advisory Committee Act (Pub. L. No. 92-463). Attendance at each meeting is open to the interested public, but limited to the space available. Persons wishing to attend should notify the Office of the Chairman at least one day in advance. The committee chairman, if he deems it appropriate, may permit members of the public to present oral statements at the meeting. Any member of the public may file a written statement with the committee before, during, or after the meeting. Minutes of the meeting will be available on request.

Committee on Judicial Review

Date: Thursday, November 8, 1990.
Time: 2:00 p.m.
Location: Administrative Conference, 2120 L Street, NW., suite 500, Washington, DC (Library, 5th floor).
Contact: Mary Candace Fowler, 202-254-7020.
Agenda: The Committee will meet to discuss a draft report on licensing procedures and judicial review under the Export Administration Act, prepared by Professor Howard N. Fenton, of Ohio Northern University, Pettit College of Law.

Committee on Governmental Processes

Date: Friday, November 16, 1990.
Time: 2:30 p.m.
Location: Administrative Conference, 2120 L Street, NW., suite 500, Washington, DC (Library, 5th floor).
Contact: David M. Pritzker, 202-254-7020.
Agenda: The Administrative Conference's Committee on Governmental Processes has under consideration a draft recommendation on Federal agency practices for management of archival records. The proposed recomendation is based in part on a draft report by Professor Henry H. Perritt, Jr. of Villanova University School of Law. The draft recommendation is summarized in this notice. Copies of the full text of the draft recommendation and of the draft report are available from the Office of the Chairman of the Administrative Conference.

The Conference's Committee on Governmental Processes will meet on Friday, November 16, 1990, at 2:30 p.m., for further consideration of the draft recommendation. At that time, the committee will decide whether to approve a recommendation for consideration by the Administrative Conference at its Plenary Session scheduled for December 17 and 18, 1990. Comments should be sent to the address given above not later than November 13.

Summary of the Draft Recommendation

The draft recommendation takes the position that the evolution of Federal record management technology—from paper to electronic media, and through future changes in technology—should not alter existing law and policy applicable to records management. Agencies should be guided by the principle that the content of a record, not the format of its storage, should govern agency practice as to retention and accessibility.

The recommendation also calls attention to the problem of maintaining accessibility of records when the format or equipment used to create the records becomes obsolete. The National Archives and Records Administration is advised to take an active role in developing ways for government to modernize its record-keeping technology while mitigating potential problems. The Office of Management and Budget and the Department of Justice are urged to issue guidance on questions relating to the admissibility of electronic records as evidence and issues of reliability of documents including signature requirements.

Dated: October 25, 1990.
Jeffrey S. Lubbers,
Research Director.

BILLING CODE 6110-01-M

DEPARTMENT OF AGRICULTURE

Office of the Secretary

Determination of Total Amount and Quota Period for Tariff-Rate Quota for Certain Imported Sugars, Syrups, and Molasses

AGENCY: Office of the Secretary, USDA.
ACTION: Notice.

SUMMARY: This notice establishes the total amount of 1,725,000 metric tons, raw value, of sugars, syrups, and molasses that may be entered under subheadings 1701.11.01, 1701.12.01, 1701.91.21, 1701.99.01, 1702.90.31, 1806.10.41, and 2106.90.11 of the Harmonized Tariff Schedule of the United States (HTS) and establishes the period of October 1, 1990 through September 30, 1991 for the entry of such total amount of sugars, syrups, and molasses.

EFFECTIVE DATE: October 27, 1990.
ADDRESSES: Inquiries may be mailed or delivered to the Team Leader, Import Quota Programs, Foreign Agricultural Service, Room 6095, South Building, U.S. Department of Agriculture, Washington, DC 20250.
FOR FURTHER INFORMATION CONTACT: Cleveland Marsh (Team Leader, Import Quota Programs), 202-447-2916.
SUPPLEMENTARY INFORMATION: Presidential Proclamation No. 6179 of September 13, 1990, 55 FR 38293, converted the U.S. sugar import quota into a tariff-rate quota, effective October 1, 1990. Proclamation No. 6179 modified additional U.S. note 3 to chapter 17 of the HTS to provide, in paragraph (a)(i) as follows:

The total amount of sugars, syrups and molasses entered, or withdrawn from warehouse for consumption, under subheadings 1701.11.01, 1701.12.01, 1701.91.21, 1701.99.01, 1702.90.31, 1806.10.41, and 2106.90.11, during such period as shall be established by the Secretary of Agriculture (hereinafter referred to as "the Secretary"), shall not exceed in the aggregate an amount (expressed in terms of raw value) as shall be established by the Secretary. The Secretary shall determine such total amount as will give due consideration to the interests in the U.S. sugar market of domestic producers and materially affected contracting parties to the General Agreement on Tariffs and Trade. Such total amount shall consist of (1) a base quota amount, and (2) an amount reserved for the importation of specialty sugars as defined

by the United States Trade Representative, to be allocated by the United States Trade Representative in accordance with paragraph (b)(i) of this note.

These provisions of paragraph (a)(i) of additional U.S. note 3 to chapter 17 of the HTS, as modified by the President in Proclamation No. 6179, authorize the Secretary of Agriculture to establish a total amount (expressed in terms of raw value) for imports of sugars, syrups, and molasses that may be entered under the subheadings of the HTS subject to the lower tier of duties [1] of the tariff-rate quota and to establish the time period for entry of such total amount.

The Secretary is required to determine such total amount as will give due consideration to the interests in the U.S. sugar market of domestic producers and materially affected contracting parties to the General Agreement on Tariffs and Trade (GATT). The total amount, consisting of a base quota amount and an amount reserved for the importation of specialty sugars, is to be allocated by the United States Trade Representative (USTR) in accordance with paragraph (b)(i) of additional U.S. note 3 to chapter 17 of the HTS.

Notice

Notice is hereby given that I have determined, in accordance with paragraph (a) of additional U.S. note 3 to chapter 17 of the HTS, that a total amount of up to 1,725,000 metric tons, raw value, of sugars, syrups, and molasses described in subheadings 1701.11.01, 1701.12.01, 1701.91.21, 1701.99.01, 1702.90.31, 1806.10.41, and 2106.90.11 of the HTS may be entered or withdrawn from warehouse for consumption during the period from October 1, 1990 through September 30, 1991. I have further determined that the base quota amount is 1,718,308 metric tons, raw value; the amount reserved for the importation of specialty sugars is 1,815 metric tons, raw value; and 4,877 metric tons, raw value, are reserved as a quota adjustment amount to be allocated by the United States Trade Representative.

I have also determined that such total amount will give due consideration to the interests in the U.S. sugar market of domestic producers and materially affected contracting parties to the General Agreement on Tariffs and Trade.

Signed at Washington, DC, on October 19, 1990.

Jack C. Parnell,

Deputy Secretary of Agriculture.

[FR Doc. 90-25508 Filed 10-26-90; 8:45 am]

BILLING CODE 3410-10-M

[1] Pursuant to paragraph (a) of additional U.S. note 4 to chapter 17 of the HTS, as modified by the President in Proclamation No. 6179, the duty-free treatment accorded to the importation of sugars, syrups and molasses from the beneficiary countries of the Generalized System of Preferences (GSP) and Caribbean Basin Economic Recovery Act (CBERA), entered under the subheadings of the HTS subject to the lower tier of the tariff-rate quota, is limited to the quantities as established by the Secretary and allocated by the United States Trade Representative pursuant to paragraphs (a) and (b), respectively, of additional U.S. note 3 to chapter 17. Currently, imports of sugars, syrups, and molasses from all beneficiary countries for purposes of the GSP and CBERA, except Brazil, are eligible for duty free entry in amounts not exceeding those allocated by the United States Trade Representative pursuant to paragraph (b) of additional U.S. note 3 to chapter 17 of the HTS.

Agricultural Research Service

Intent To Grant an Exclusive License

AGENCY: Agricultural Research Service, USDA.

ACTION: Notice of intent.

SUMMARY: Notice is hereby given that the U.S. Department of Agriculture, Agricultural Research Service, intends to grant an exclusive license to Firesafe Products Corporation, New York, New York, on U.S. Patent Application Serial No. 07/366,702, "System for Producing Core/Wrap Yarn," filed June 15, 1989, and U.S. Patent Application Serial No. 07/469,120, "System for Producing Staple-Wrapped Core Yarn," filed January 24, 1990.

DATES: Comments must be received December 28, 1990.

ADDRESSES: Send comments to: USDA–ARS–Office of Cooperative Interactions, Beltsville Agricultural Research Center, Baltimore Boulevard, Building 005, Room 401–A, BARC–W, Beltsville, Maryland 20705.

FOR FURTHER INFORMATION CONTACT: M. Ann Whitehead of the Office of Cooperative Interactions at the Beltsville address given above; telephone: 301/344–2786, (FTS) 344–2786.

SUPPLEMENTARY INFORMATION: The USDA–ARS intends to grant to Firesafe Products Corporation a partially exclusive license to practice the aforementioned inventions. Notices of availability were given in the Federal Register on December 19, 1989, and July 23, 1990, respectively. Patent rights to these inventions are assigned to the United States of America as represented by the Secretary of Agriculture. It is in the public interest to so license these inventions as Firesafe Products Corporation, has submitted a complete and sufficient application for a license and is entering into a Cooperative Research and Development Agreement with the Agricultural Research Service providing for further development of the inventions.

The prospective exclusive license will be royalty-bearing and will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR 404.7 and will conform to the intent of 15 U.S.C. 3710a. The prospective exclusive license may be granted unless, within sixty days from the date of this published Notice, ARS receives written evidence and argument which establishes that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209, 37 CFR 404.7 and the intent 15 U.S.C. 209, 37 CFR 404.7 and the intent 15 U.S.C. 3710a.

William H. Tallent,

Assistant Administrator.

BILLING CODE 3410-05-M

Rural Electrification Administration

Holy Cross Electric Assoc., Inc.; Finding of No Significant Impact

AGENCY: Rural Electrification Administration, USDA.

ACTION: Finding of no significant impact relating to the construction of the Cooley Mesa Substation in Eagle County, Colorado.

SUMMARY: Notice is hereby given that the Rural Electrification Administration (REA), pursuant to the National Environmental Policy Act of 1969 (NEPA), as amended, the Council on Environmental Quality Regulations (40 CFR parts 1500–1508), and REA Environmental Policies and Procedures (7 CFR part 1794), has made a Finding of No Significant Impact (FONSI) with respect to the construction and operation of the Cooley Mesa Substation in Eagle County, Colorado.

FOR INFORMATION CONTACT: Mr. Martin G. Seipel, Director, Southwest Area—Electric, Rural Electrification Administration, Room 0207, Agriculture South Building, Washington, DC 20250, telephone: (202) 382–8448. Copies of the FONSI can be obtained from REA at the address provided above or at the office of Holy Cross Electric Association, Inc., 3799 Highway 82, P.O. Drawer 2150, Glenwood Springs, Colorado 81602.

SUPPLEMENTARY INFORMATION: REA, in accordance with its environmental policies and procedures, required that Holy Cross Electric Association, Inc. (Holy Cross) develop a Borrower's Environmental Report (BER) reflecting the potential impacts of the proposed facility. The BER, which includes input from Federal, State and local agencies,

has been adopted as REA's Environmental Assessment (EA) for the project in accordance with 7 CFR 1794.61. REA has concluded that the BER represents an accurate assessment of the environmental impacts of the project. The project will allow Holy Cross to meet its present and future needs in the area.

The Cooley Mesa Substation will be located on a site south of the Eagle County Airport. The property, already owned by Holy Cross, is in the NE 1/4, Section 10, Township 5 Sough, Range 85 West of the 6th P.M. and currently contains an existing warehouse and storage yard. The new substation will be a 230 kV to 25 kV facility which will require an additional 4.0 hectares (9.9 acres) of land to be disturbed. An existing 230 kV transmission line crosses the southern end of the site, so no transmission line extension is necessary.

Alternatives examined for the proposed project included the no action alternative and alternative sites. The alternative sites included construction of a 115/25 kV substation at the Wolcott Substation, construction of a 115/69/25 kV substation at the old Eagle 69 kV substation site and construction of a 115/25 kV substation at a site west of the proposed Cooley Mesa site. REA determined that the proposed project will meet Holy Cross's existing and future needs and will have no significant impact on the environment.

REA has concluded that its approval to allow Holy Cross to construct the proposed project does not constitute a major Federal action significantly affecting the quality of the human environment. Therefore, REA has reached a FONSI with respect to its action related to the project.

In accordance with REA Environmental Policies and Procedures, 7 CFR part 1794, Holy Cross published a notice and advertisement in the Vail Daily, the Avon Beaver Creek Times, the Vail Trail and the Eagle Valley Enterprise. The newspapers have a general circulation in Eagle County, Colorado. The notice described the project, announced the availability of the BER for review, how copies could be obtained and gave addresses where comments could be sent. The public was given at least 30 days to respond and submit comments. No responses were received by Holy Cross or REA.

As a result of its independent evaluation, REA concluded that approval to construct the proposed project will not constitute a major Federal action significantly affecting the quality of the human environment. REA hereby reaches a Finding of No Significant Impact with respect to the proposed project in accordance with 7 CFR part 1794.

Dated: October 19, 1990.

John H. Arnesen,

Assistant Administrator-Electric.

BILLING CODE 3410-15-M

DEPARTMENT OF COMMERCE

Agency Form Under Review by the Office of Management and Budget (OMB)

DOC has submitted to OMB for clearance the following proposal for collection of information under the provisons of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: Bureau of the Census.

Title: Service Annual Survey.

Form Number(s): B-500T, T1, T2, T3, T4, T5, T6, T7 B-500M, M1, M2.

Agency Approval Number: 0607-0422.

Type of Request: Revision of a currently approved collection.

Burden: 5,400 hours.

Number of Respondents: 21,000.

Avg Hours Per Response: 18 minutes.

Needs and Uses: The Service Annual Survey (SAS) is the only annual source of data on the dollar volume of receipts for various service industries. The Bureau of Economic Analysis uses SAS data in their preparation of the national income and product accounts, and their benchmark and annual input-output tables. The Bureau of Labor Statistics uses the data as input to their Producer Price Indexes and in developing productivity measurements. Other government agencies use the data for program planning and development. We are revising the SAS to enhance the data collected for some of the fastest growing activities. We are increasing the amount of data collected for computer and data processing services, management and consulting services, equipment rental and leasing services, automotive rental and leasing services, amusement parks, and offices of health practitioners. The enhanced data will allow us to produce more than just a single estimate (total receipts) for these industries to that data users can conduct a more in-depth analysis of changes in the service sector.

Affected Public: Businesses or other for-profit organizations, Non-profit institutions, Small businesses or organizations.

Frequency: Annually.

Respondent's Obligation: Mandatory.

OMB Desk Officer: Marshall Mills, 395-7340.

Copies of the above information collection proposal can be obtained by calling or writing Edward Michals, DOC Clearance Officer, (202) 377-3271, Department of Commerce, Room 5312, 14th and Constitution Avenue, NW., Washington, DC 20230.

Written comments and recommendations for the proposed information collection should be sent to Marshall Mills, OMB Desk Officer, Room 3208, New Executive Office Building, Washington, DC 20503.

Dated: October 24, 1990.

Edward Michals,

Departmental Clearance Officer, Office of Management and Organization.

BILLING CODE 3510-07-M

International Trade Administration

[C-333-401]

Cotton Shop Towels From Peru; Determination Not To Terminate Suspended Investigation

AGENCY: International Trade Administration/Import Administration, Department of Commerce.

ACTION: Notice of determination not to terminate suspended investigation.

SUMMARY: The Department of Commerce is notifying the public of its determination not to terminate the suspended countervailing duty investigation on cotton shop towels from Peru.

EFFECTIVE DATE: October 29, 1990.

FOR FURTHER INFORMATION CONTACT: Megan Pilarescia or Barbara Williams, Office of Agreements Compliance, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230; telephone: (202) 377-3793.

SUPPLEMENTARY INFORMATION:

Background

On September 4, 1990, the Department of Commerce ("the Department") published in the Federal Register (55 FR 35921) its notice of intent to terminate the suspended countervailing duty investigation on cotton shop towels from Peru (September 12, 1984, 49 FR 35835). The Department may terminate a suspended investigation if the Secretary concludes that the agreement is no longer of interest to interested parties. The Department has not received a request to conduct an administrative review of the agreement suspending the countervailing duty investigation on cotton shop towels from Peru for five consecutive annual anniversary months.

On September 12, 1990, the petitioner, Milliken & Company, objected to the

Department's intent to terminate this suspended investigation. Therefore, we no longer intend to terminate the suspended investigation.

This notice is in accordance with § 355.25(d)(4) of the Commerce Department's regulations.

Dated: October 23, 1990.

Joseph A. Spetrini,

Deputy Assistant Secretary for Compliance.

BILLING CODE 3510-DS-M

Bureau of the Census

Census Advisory Committees on the American Indian and Alaska Native Populations the Asian and Pacific Islander Populations the Black Population and the Hispanic Population for the 1990 Census; Public Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463 as amended by Public Law 94-409), we are giving notice of a joint meeting followed by separate and jointly held meetings (described below) of the CAC on the American Indian and Alaska Native Populations for the 1990 Census, the CAC on the Asian and Pacific Islander Populations for the 1990 Census, the CAC on the Black Population for the 1990 Census, and the CAC on the Hispanic Population for the 1990 Census. The join meeting will convene on November 8, 1990 at the Hyatt Regency (Crystal City), 2799 Jefferson Davis Highway, Arlington, Virginia 22202.

Each of these committees is composed of 12 members appointed by the Secretary of Commerce. They provide an organized and continuing channel of communication between the communities they represent and the Bureau of the Census on the problems and opportunities of the 1990 decennial census.

The Committees will draw on the knowledge and insight of their members to provide advice during the planning of the 1990 Census of Population and Housing on such elements as improving the accuracy of the population count, suggesting areas of research, recommending subject content and tabulations of particular use to the populations they represent, expanding the dissemination of census results among present and potential users of census data in their communities, and generally improving the usefulness of the census product.

The agenda for the November 8 combined meeting that will begin at 8:45 a.m. and end at 2 p.m. is: (1) Introductory remarks by the Director, Bureau of the Census; (2) 1990 decennial census update; (3) committee involvement in 1990 census activities; and (4) research conference on the undercounted populations.

The agendas for the four committees in their separate and jointly held meetings that will begin at 2 p.m. and adjourn at 5 p.m. on November 8 are as follows:

The CAC on the American Indian and Alaska Native Populations for the 1990 Census: (1) Election of chair-elect; (2) review of Census Bureau responses to Committee recommendations; (3) development and discussion of recommendations; and (4) closing session including (a) presentation of recommendations, (b) plans for the next meeting, and (c) comments by outside observers.

The CAC on the Asian and Pacific Islander Population for the 1990 Census: (1) Election of chair-elect; (2) review of Census Bureau responses to Committee recommendations; (3) development and discussion of recommendations; and (4) closing session including (a) presentation of recommendations, (b) plans for the next meeting, and (c) comments by observers.

The CAC on the Black Population: (1) Election of chair-elect; (2) review of Census Bureau responses to Committee recommendations; (3) development and discussion of recommendations; and (4) closing session including (a) presentation of recommendations, (b) plans for the next meeting, and (c) comments by outside observers.

The CAC on the Hispanic Population: (1) Election of chair-elect; (2) review of Census Bureau responses to Committee recommendations; (3) development and discussion of recommendations; and (4) closing session including (a) presentation of recommendations, (b) plans for the next meeting, and (c) comments by outside observers.

All meetings are open to the public, and a brief period is set aside for public comment and questions. Those persons with extensive questions or statements must submit them in writing to the Census Bureau official named below at lest 3 days before the meeting.

Persons wishing additional information regarding these meetings or who wish to submit written statements may contact Ms. Diana Harley, Decennial Planning Division, Bureau of the Census, Room 3541, Federal Building 3, Suitland, Maryland. (Mailing address: Washington, DC 20233). Telephone: (301) 763-4275.

Dated: October 23, 1990.

Barbara Everitt Bryant,

Director, Bureau of the Census.

BILLING CODE 3510-07-M

International Trade Administration

European Community Common Approach to Standards, Testing and Certification in 1992

AGENCY: International Trade Administration, Commerce.

ACTION: Notice and request for public comment.

SUMMARY: The first meeting of the Federal Advisory Committee on the European Community Common Approach to Standards, Testing and Certification in 1992 was held on October 10, 1990 from 10 a.m.-3:30 p.m. The meeting was held in the Herbert C. Hoover Building, room 3407, 14th and Constitution Avenue, NW., Washington, DC 20230. As part of the Committee's mandate to advise the Secretary of Commerce on EC standards-related activities, the Committee has identified the following key issues in the area of standards, testing and certification. The issue list will provide the basis for a comprehensive Committee report to the Secretary of Commerce by February, 1991.

DEADLINE FOR COMMENTS: Interested members of the public are invited to submit their comments to Charles Ludolph in the Office of European Community Affairs, Telephone (202) 377-5276; fax (202) 377-2155. The deadline for submission of comments is November 12, 1990.

ISSUE LIST:

Standards Issues

1. Regarding U.S. business access to EC standards development, what further action by government and the private sector is appropriate to advance U.S. access and interests?

2. What can the United States do to prompt the EC to establish mechanisms to clarify the relationship between products and EC product safety directives and between these directives and EC product standards?

3. What are the appropriate steps that U.S. business and government should undertake to raise awareness in the business community of the importance of international standards and international standards activities? What actions, if any, should be undertaken by government and industry to facilitate and/or accelerate implementation of

international standards in the United States?

4. In light of the EC initiatives, what can the USG and industry do to increase U.S. support for domestic and international standards activities, and to assure that the U.S. is adequately represented and participates effectively in international standards organizations that have a bearing on access to European markets?

5. What is the appropriate role of the Federal Government in international standards activities and how should this role be coordinated with that of the U.S. private sector standards community? What policies and principles should guide this coordination?

6. Are there uncertainties regarding the nature and timing of the transition period leading up to full implementation of the EC product standards program that affect U.S. business interests in regulated and non-regulated products, at the EC and national level? What should be done to alleviate this situation?

7. Should there be a focal point within the Federal Government on standards matters related to EC 1992 and if so what should be its scope?

8. What aspects of the recent "EC Green Paper on the Development of European Standardization and Action for Faster Technological Integration in Europe" does the Committee believe will help and hinder U.S. business interests and what is their advice to the Secretary on this proposal?

Testing and Certification Issues

1. How should the United States prepare to deal with the EC proposals to enter into negotiations for mutual recognition agreements for regulated product sectors, covering both public and private sector testing and certification systems? What are the acceptable conditions for concluding mutual recognition agreements on conformity assessment matters such as notified body status, subcontracting arrangements, and reciprocal recognition of certification marks? What objectives and cautions should guide the U.S. position?

2. What are the Committee's views and recommendations for the U.S. government on the appropriate conditions to attain access to the EC market for U.S. business regarding conformity assessment, *e.g.*, self-certification, third party testing, and third party certifications, quality [illegible], etc.?

3. What is the Committee's advice to the U.S. government on the appropriate makeup and approach of U.S. teams formed to advance U.S. interests with the EC for effective market access in conformity assessment, e.g., government only, private/public, private sector only?

4. In light of the developments in Europe, what adjustments, if any, should the United States consider in U.S. testing and certification practices to make them more compatible with those of the EC or other trading partners? What measures should be undertaken by industry or government to establish a mechanism for interfacing with EC testing and certification authorities, specifically organizations such as EOTC?

5. What is the Committee's advice to the U.S. government on the product liability implications for U.S. products marketed in Europe under the safety requirements implicit and explicit in the EC directives, standards, testing and certification systems?

6. What is the Committee's advice to the Secretary on the outreach programs the U.S. government should undertake to increase broad awareness in the general U.S. business community of the commercial and technical issues in the EC standards and conformity assessment initiatives?

7. What criteria should be used to determine competence of U.S. certification and accrediting bodies? Should the EC be encouraged to adopt the same criteria? If so, how should such recommendations be conveyed to the EC?

8. What are the Committee's conclusions on the potential problems created for U.S. business by the EC requirements for conforming to quality assurance standards, good manufacturing practices, and plant inspections? What actions should be taken by U.S. government and industry to respond to these requirements when implemented?

9. What are the appropriate steps that U.S. business and government should undertake to raise awareness in the business community of the importance of EC 1992 conformity assessment?

10. What is the most appropriate mechanism and process for coordinating the federal government role in international conformity assessment activities with the activities of the private sector?

Dated: October 24, 1990.

Charles M. Ludolph,

Director, Office of European Community Affairs.

BILLING CODE 3510-DA-M

National Oceanic and Atmospheric Administration

Marine Mammals; Permit Modifications; Norris et al.

AGENCY: National Marine Fisheries Service.

ACTION: *Permit Modification:* Modification No. 2 to Permit No. 603 issued to Dr. Kenneth S. Norris, Dr. Randall S. Wells, Mr. Jan S. Östman, Dr. William T. Doyle, and Ms. Ania Driscoll (P20H).

Notice is hereby given that pursuant to the provisions of § 216.33 (d) and (e) of the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR part 216), Scientific Research Permit No. 603 issued to Dr. Kenneth S. Norris, Dr. Randall S. Wells, Mr. Jan S. Östman, Dr. William T. Doyle, and Ms. Ania Driscoll, University of California, Institute of Marine Sciences, Long Marine Laboratory, 100 Shaffer Road, Santa Cruz, California 95060, on August 17, 1987, (52 FR 31799) and modified on June 13, 1990, (55 FR 25152), is further modified as follows:

Section B.6. is replaced by:

"6. The authority to conduct this research shall extend from the date of issuance through December 31, 1992."

This modification becomes effective on October 22, 1990.

Documents submitted in connection with the above application are available for review by appointment at the following offices:

Office of Protected Resources, National Marine Fisheries Service, 1335 East West Highway, room 7324, Silver Spring, MD 20910 (301/427-2289);

Director, Southwest Region, National Marine Fisheries Service, 300 South Ferry Street, Terminal Island, CA 90731 (213/514-6196); and

Administrator, Pacific Area Office, National Marine Fisheries Service, 2570 Dole Street, room 106, Honolulu, HI 96822-2396 (808/955-8831).

Dated: October 22, 1990.

Nancy Foster,

Director, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510-22-M

Endangered Marine Mammals; Request for Permit Modification

AGENCY: National Marine Fisheries Service, NOAA, DOC.

ACTION: Notice of correction for modification to Scientific Research Permit No. 675.

SUMMARY: This notice revises the third paragraph under the "Summary" section previously published in the Federal Register August 6, 1990 (55 FR 31872) as follows:

1. On page 31873, column 1, the first full paragraph is revised to read:

This proposed modification would allow for the collection of skin biopsy samples from a maximum of 200 gray whales (*Eschrichtius robustus*) 200 bowhead whales (*Balaena mysticetus*) and 100 blue whales (*Balaenoptera musculus*) in the territorial waters of the United States, and the importation of tissue samples collected from these species in territorial waters of other nations. This proposed modification would also authorize the export, from the United States to New Zealand, of biopsy samples of humpback, minke and southern right whales, collected under NMFS Permit No. 675.

Dated: October 22, 1990.

Nancy Foster,

Director, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510-22-M

Marine Mammals; Permit Issuance, Braham

AGENCY: National Marine Fisheries Service, NOAA, DOC.

ACTION: Issuance of Scientific Research Permit No. 717.

SUMMARY: On Tuesday, September 4, 1990, notice was published in the Federal Register (55 FR 35923) that an application (P77#44) had been filed by Dr. Howard W. Braham, Alaska Fisheries Science Center, NMFS, NOAA, National Marine Mammal Laboratory, 7600 Sand Point Way, NE. Bldg. 4, Seattle, WA 98115, to take up to 2,600 California sea lions, *(Zalophus californianus)* to continue population monitoring and assessment programs, including movements, migration, feeding ecology, and the impact of sea lions-fishery interactions, to be conducted on San Miguel Island, California, for a five-year period.

Notice is hereby given that on October 22, 1990, as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407), and Regulations Governing the Taking and Importing of Marine Mammals (50 CFR part 216), the National Marine Fisheries Service issued a Permit for the above activities subject to the Special Conditions set forth therein.

The permit is available for review by interested persons in the following offices:

Office of Protected Resources, National Marine Fisheries Service, 1335 East West Highway, room 7330, Silver Spring, Maryland 20910;

Director, Alaska Region, National Marine Fisheries Service, NOAA, 709 West 9th Street, Federal Bldg., Juneau, Alaska 99802;

Director, Northwest Region, National Marine Fisheries Service, NOAA, 7600 Sand Point Way, NE, BIN C15700, Seattle, Washington, 98115;

and

Director, Southwest Region, National Marine Fisheries Service, NOAA, 300 South Ferry Street, Terminal Island, California 90731–7415.

Dated: October 22, 1990.

Nancy Foster,

Director, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510-22-M

DEPARTMENT OF DEFENSE

Department of the Army

Availability of Final Environmental Impact Statement for the Fort Sheridan Base Closure

AGENCY: DOD, Army.

SUMMARY: Fort Sheridan was recommended for closure by the Defense Secretary's Commission on Base Realignment and Closure. The Commission specifically recommended the relocation of Headquarters, Fourth Army, and Headquarters, U.S. Army Recruiting Command to Fort Benjamin Harrison, IN; and the U.S. Army Recruiting Battalion, Chicago and the U.S. Army Recruiting Brigade, Midwest to leased space in Chicago. This document focuses upon the environmental and socioeconomic impacts and mitigations associated with the planned closure of Fort Sheridan and realignment activities at Fort Benjamin Harrison and Fort McCoy, WI.

No long-term adverse environmental effects at Fort Sheridan are expected as a result of realignment and closure implementation. The Department of Defense Office of Economic Adjustment is working with the local community to develop reuse alternatives to lessen the socioeconomic impacts. No adverse environmental or socioeconomic impacts are anticipated at either Fort Benjamin Harrison or Fort McCoy.

A copy of the Final EIS may be obtained by contacting Mr. Ray Haynes, (502) 582–5606, or writing to: Commander, U.S. Army Engineer District, Louisville; P.O. Box 59; Louisville, Kentucky 40201–0059.

Lewis D. Walker,

Deputy Assistant Secretary of the Army (Environment, Safety and Occupational Health), OASA (I,L&E).

BILLING CODE 3820-01-M

DEFENSE NUCLEAR FACILITIES SAFETY BOARD

Criteria for Judging the Adequacy of DOE Responses and Implementation Plans for DNFSB Recommendations

AGENCY: Defense Nuclear Facilities Safety Board.

ACTION: Notice of Board adoption of policy guidance.

SUMMARY: The Defense Nuclear Facilities Safety Board has unanimously adopted a policy statement which establishes the criteria that the Board will use for judging the adequacy of Department of Energy (DOE) responses to, and implementation plans for, Board recommendations.

FOR FURTHER INFORMATION CONTACT: Robert M. Andersen, General Counsel, Defense Nuclear Facilities Safety Board, 625 Indiana Avenue, NW., Suite 700, Washington, DC 20004, (202) 208-6387.

SUPPLEMENTARY INFORMATION: The Defense Nuclear Facilities Safety Board issues recommendations to the Secretary of the Department of Energy and to the President regarding public health and safety at DOE's defense nuclear facilities. The Board's enabling statute requires the Secretary of energy to either accept or reject Board recommendations and to subsequently develop implementation plans for those portions of Board recommendations which are accepted. The Board has now received DOE responses to six of the first seven recommendations made to the Secretary and has reviewed the first five implementation plans submitted by DOE.

This Defense Nuclear Facilities Safety Board Policy Statement (PS-1), the Board's first, will guide the board and its staff in evaluating the adequacy of DOE responses and implementation plans, as well as assist the Board in structuring appropriate follow-up action in the event a recommendation is not fully or adequately addressed in DOE's response and implementation plan. Furthermore, the statement formally identifies, for the benefit of DOE and the public, the Board's expectations regarding the elements the Board believes are necessary for an adequate response and implementation plan.

Policy Statement

Criteria for Judging the Adequacy of DOE Responses and Implementation Plans for DNFSB Recommendations

The Board's authorizing statute requires the Secretary of Energy to respond to each Board recommendation and to subsequently prepare an implementation plan for those portions of the recommendation that DOE accepts. The statute allows the Board to use its discretion and judgment in assessing the adequacy of DOE responses and implementation plans.

I. Evaluating DOE Responses

The statute requires the Secretary of Energy to "transmit his response to the Board within 45 days after the date of publication [in the Federal Register] * * * of the notice with respect to such recommendation or within such additional period, not to exceed 45 days, as the Board may grant." The Act anticipates responses which accept the Board's recommendations, and responses which reject the Board's recommendations, in whole or in part. As we have already learned from DOE's responses to the Board's first six recommendations, however, there is a whole range of possible written responses that the Board must prepared to deal with in the future.

For example, DOE may choose to rely upon a response letter which simply states that the Secretary agrees with or accepts a recommendation of the Board. Such action constitutes an unconditional acceptance of the Board's recommendation, and acquiesces in the Board's interpretation of the recommendation's terms and requirements. Any subsequent contradiction or retrenchment for the response's unconditional acceptance in the implementation plan will ordinarily be unacceptable to the Board. Therefore, it is far preferable to air any real differences that DOE may have with the recommendation in the response itself. Moreover, preliminary discussions between the Board, its staff, and DOE prior to the Secretary's issuance of a final response can avoid confusion, disputes, misunderstanding, and wasted effort later in the process.

It should be noted that a response which rejects portions of a recommendation may be an adequate response if, in the Board's judgment, sound reasons are given for rejecting the recommendation, and alternative means of protecting public health and safety are specified. On the other hand, an evasive, nonresponsive, ambiguous, or unclear response which is labeled an acceptance by DOE is not adequate. The Board recognizes that a flawed response, if left uncorrected, will only lead to further problems in the implementation plan.

The following types of DOE responses may be encountered by the Board:

1. A response which says it is an acceptance, but by its language or terms in fact rejects part of the recommendation.

2. Ambiguous responses that could be interpreted either as acceptance or rejection of the recommendation.

3. Failure to address certain issues.

4. Unqualified rejection of the entire recommendation.

5. Silence, or no response.

6. Unconditional acceptance of the entire recommendation consistent with the terms set by the Board.

Comparing DOE responses against this list of response types will assist the Board in sorting out actual DOE acceptances from rejections. A valid acceptance is filed in a timely manner and exhibits three key features: (1) an understanding of what is being asked or recommended; (2) a commitment by DOE to take action to meet the recommendation; and (3) specification of what DOE intends to do so that the Board can determine if all material terms of the recommendation will be met, rather than avoided.

DOE's response need not be detailed or long, provided the Board is satisfied that DOE understands what is being asked and intends to accomplish the recommended action in a timely manner. If a response satisfies the above three requirements, however, it need not present the details of how and when the recommendation will be met—that is the purpose of the implementation plan.

II. Evaluating DOE's Implementation Plan

As with responses, the statute, for the most part, gives the Board discretion to use its judgment in assessing the adequacy of implementation plans. The statutory language expresses one major substantive measure of an implementation plan's effectiveness, which is perhaps self-evident. Since the Secretary must ordinarily "carry out" and "complete" implementation in one year, it necessarily follows that the plan must schedule, and otherwise assure,

that action is taken to accomplish the recommendation. The statute also imposes two procedural requirements. First, the Secretary must "transmit the implementation plan to the Board within 90 days after the date" of the Secretary's final decision on the recommendation. If additional time is necessary to write the plan, the Secretary may take an additional 45 days, provided he submits the reasons for the delay to the appropriate congressional commmittees. Second, if the Secretary cannot carry out and complete the implementation plan within one year, he must report the reasons for the delay to the appropriate congressional committees.

The purpose of the implementation plan is to provide a basis and a schedule for assuring that accepted recommendations are accomplished.

A. Substantive Criteria

1. Does DOE understand the Board's recommendation?

DOE's responses give the first indication of whether or not the Board's recommendations have been communicated and understood. If a respose is adequate, the implementation plan should track the response in this regard and clearly demonstrate an understanding of the recomendation. If there is a clear restatement by DOE in the implementation plan of the recommendation's goals, or of the underlying issues or problems identified by the recommendation, the Board can then reasonably assume that its initial recommendation was understood. DOE, however, maintains latitude to implement recommendations in a wide variety of ways so long as the Board's recommendations are achieved. Ultimately, the totality of all the terms of the plan will exhibit the level of DOE's understanding and acceptance of the recommendation.

2. What does DOE intend to do to accomplish the recommendation?

A clear acceptance of the Board's recommendation in DOE's response is the initial indicator that DOE is committed to achieving the recommended action. On the other hand, if an initial implementation plan incorporates a response which does not signal DOE's intent to fully meet the recommendation, the Board has grounds for serious concern. A specific description of DOE's intended course of action, in the implementation plan itself, is the best indicator of whether DOE is committed to the accomplishment of the recommendation. Such a description can also resolve questions raised by ambiguous or unclear DOE responses, and clarify how DOE has chosen to interpret the recommendation.

If DOE's response meets the terms of the recommendation, and that response is incorporated in the implementation plan by reference, or restated, the Board has reason to believe that DOE intends to comply. That intent must be confirmed, however, by a full review of the details of how DOE plans to accomplish the recommendation.

3. What are DOE's baseline assumptions?

The depth and type of baseline assumptions can vary greatly depending on the recommendation. Most implementation plans will be based on engineering or technical assumptions. Some implementation plans, if not all, will embrace administrative and legislative assumptions also, i.e. compliance provided sufficient funds are appropriated. Important assumptions should be presented in the plan.

4. Has DOE adequately outlined its approach?

DOE's approach must be outlined in sufficient detail to enable the Board to independently assess the approach without doing the underlying work. The plan should address the questions of how the goals relating to safety will be achieved and maintained. The Board should be able to assess whether the approach is reasonable and achievable within the specified time period.

5. Has DOE adequately justified a course of action proposed in the implementation plan?

The plan should contain a sound evaluation of the problem first identified in the recommendation, including a root cause analysis (or summary thereof), so that it is clear why DOE is taking the proposed action. The causes of any technical problems should be identified, when appropriate, not just the administrative controls (or lack thereof) that allowed the situation to occur. Reasons should be given for agreeing with the recommendation, based on DOE's own analysis.

6. Has the plan truly called for completion or closure?

The plan should clearly provide a method for demonstrating completion or closure in a manner that can be easily verified by the Board.

B. Procedural Requirements

1. Has DOE submitted the plan to the Board in accordance with statutory deadlines?

2. Has DOE established a realistic and achievable schedule for completion?

Final deadlines, as well as intermediary milestones or checks and deliverables with measures of accomplishment, should be identified in the implementation plan.

3. Has DOE adequately provided for implementation course corrections or process change in appropriate cases?

Complex, long range plans must be flexible enough to accommodate change if necessary. A process should be defined for configuration management or change control so that the proposed action can be modified if additional information dictates, or changes in the assumptions occur.

4. Has DOE provided for quality assurance in appropriate cases?

The Board may require a plan to specify how the qualify of the proposed action will be assured. Quality issues include qualifications of people involved, internal checks on the implementation as the task is completed, final verification, independent oversight, and chain of custody on records, samples, other critical data and documentation.

5. Does the Plan provide for adequate reporting in appropriate cases?

A reporting scheme and schedule should be specified to assure the Board remains informed of the status of the progress and any new related issues that may appear.

John T. Conway,
Chairman.

Appendix—Transmittal Letter to the Secretary of Energy

October 19, 1990.

The Honorable James D. Watkins, Secretary of Energy, Washington, DC 20585

Ref: DNFSB Policy Statement No. 1: Criteria for Judging the Adequacy of DOE Responses and Implementation Plans

Dear Mr. Secretary: Enclosed please find policy criteria which the Board unanimously adopted for judging the adequacy of DOE responses and implementation plans for Board recommendations. We have previously circulated draft criteria with DOE staff responsible for preparing responses and implementation plans. The use of the criteria, together with the close cooperation of DOE and Board staff, have resulted in more complete and sound responses and implementation plans.

Sincerely,
John T. Conway,
Chairman.

BILLING CODE 6820-KD-M

DEPARTMENT OF EDUCATION

Office of Special Education and Rehabilitative Services; Request for Public Input on the Long-Range Plan of the National Institute on Disability and Rehabilitation Research

AGENCY: Department of Education.
ACTION: Notice of public hearing and request for comments.

SUMMARY: The National Institute on Disability and Rehabilitation Research (NIDRR) is authorized to support research and related activities to improve the lives of individuals with disabilities, and invites interested parties to present comments on research and dissemination needs and opportunities during the coming decade in all areas of disability, including but not limited to:

—Vocational rehabilitation services, including but not limited to, counseling, vocational evaluation, job placement, and case management;
—Supported employment for individuals who have mental retardation, mental illness, or physical or sensory disabilities;
—Independent living services;
—Community integration services and behavioral and social rehabilitation services;
—Rehabilitation service issues related to disability groups of low-incidence;
—Children and youth with disabilities and their families;
—Disability policy and demographics;
—Training for researchers, service providers, clinicians, and consumers;
—Technology for individuals with disabilities, including but not limited to, the development, evaluation, and distribution of appropriate technology;
—Knowledge dissemination and the utilization of research findings; and
—Physical restoration, medical rehabilitation, and long-term health care for individuals with disabilities.

The purpose of the hearing is to obtain ideas from the public on the content and direction of the next NIDRR Long-Range Plan.

NIDRR intends this to be the first of a series of hearings on this subject. Subsequent hearings concerning this subject will be held in various locations around the country.

MEETING INFORMATION: The public hearing is scheduled to be held on November 26–27, 1990 from 9:30 am to 3:30 pm at the General Services Administration (GSA) Auditorium, 18th and F Streets, NW., Washington, DC.

NIDRR encourages interested parties to attend the public meeting. Persons desiring to participate or seeking additional information should telephone Joyce Y. Caldwell at (202) 732–1187; deaf and hearing-impaired persons may call (202) 732–5316 for TDD services.

COMMENTS: For those who will not be able to attend the public hearing, NIDRR invites written comments.

ADDRESSES: Written comments should be addressed to Betty Jo Berland, Planning Officer, Division of Program Development, National Institute on Disability and Rehabilitation Research, Department of Education, 400 Maryland Avenue, SW., (Switzer Building, room 3422), Washington, DC 20202–2601.

FOR FURTHER INFORMATION CONTACT: Persons desiring to participate or seeking additional information should telephone (202) 732–1080; deaf and hearing-impaired persons may call (202) 732–5316 for TDD services.

Dated: October 24, 1990.
Robert R. Davila,
Assistant Secretary, Office of Special Education and Rehabilitative Services.

BILLING CODE 4000-01-M

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. RM87-17-000]

Natural Gas Data Collection System; Availability of Rate Filing Software and Revisions to the Instructions Relating to the Rate Filing Record Formats

Issued October 22, 1990.
AGENCY: Federal Energy Regulatory Commission, DOE.
ACTION: Notice of Availability of rate filing software and revisions to the instructions relating to the rate filing record formats.

SUMMARY: New software for data entry and edit-checking of the structured data file and revised software for generating a file containing a print image of the hardcopy rate filing is now available. This software has been developed for Commission use and to assist pipelines in complying with the electronic submission requirements for rate filings in accordance with Order Nos. 493 (53 FR 15,025 (Apr. 27, 1988)], 493–A (53 FR 30,027 (Aug. 10, 1988)), and 493–B (53 FR 49,652 (Dec. 9, 1988)).

Only a PC version of the software is available at this time. A mainframe version of the edit-check software and the hardcopy print software is in the final stage of development and should be available next month. Hardcopy print software is available for all schedules/statements except for Statement G (Schedules/Records RA29–RA39). The edit-checking software is being issued for validation of the edits performed. User suggestions and comments on potential improvements to the edit-check software are solicited. A User/Operations Manual for all modules and for PC and mainframe versions of the rate filing software is also available. This notice also identifies two minor revisions to the electronic reporting instructions for rate filings. An order form is attached for requesting the software on diskette.

DATES: The PC software and User/Operations Manual are available on October 22, 1990.

ADDRESSES: Request for the various software modules should be directed to: Reference and Information Center, Federal Energy Regulatory Commission, 941 North Capitol Street, NE., room 3308, Washington, DC 20426, (202) 208–1371.

FOR FURTHER INFORMATION CONTACT: For general information contact Bill Anderson at (202) 208–2221. For information related to the execution of the software contact Craig Hill at (202) 208–1222.

SUPPLEMENTARY INFORMATION: PC software is now available to provide for data entry and edit-checking of the structured data file for rate filings submitted in accordance with the instructions and record formats for rate filings as revised August 31, 1989, May 25, 1990 and updated with this notice. In addition, revised PC print software is available at this time, with the exception of software for printing Statement G (Schedules/Records RA29—RA39). Programs to produce a print image file containing the Statement G reports will be issued when completed later this year or early next year. Also the mainframe version of the rate filing edit-checking and hardcopy print software (excluding Statement G) will be available next month.

The User/Operations Manual is available in WordPerfect 5.0 and ASCII format. The software can be run on an IBM-compatible PC with at least 640K RAM and DOS 3.0 (or later version). The software is available on 3.5" (1.44MB) or 5.25" (1.2MB) double-sided, high density diskettes. The rate filing software consists of three separate packages for: Data entry, edit-check, and hardcopy

print. Each module is available in a separate package. The User/Operations Manual is also available in a separate package. The latest revisions to the instructions for the rate filing record formats are described in appendix A. Appendix B describes the directory of files for each package.

Each software module has been tested by staff. If problems occur relating to the software modules, the Commission staff encourages users to provide written comments as to the exact nature of the problem and submit them to Craig Hill, room 6106, Office of Pipeline and Producer Regulation, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426.

This notice is available through the Commission Issuance Posting System (CIPS), an electronic bulletin board service that provides access to formal documents issued by the Commission. CIPS is available at no charge to the user and may be accessed on a 24-hour basis using a personal computer with a modem by dialing (202) 208–1397. To access CIPS, set your communications software to use 300, 1200 or 2400 baud, full duplex, no parity, eight data bits and one stop bit. The notice will be available on CIPS for 30 days from the date of issuance of the notice.

In addition to publishing the text of this notice in the Federal Register, the Commission also provides all interested persons an opportunity to inspect or copy the contents of this notice during normal business hours in the Reference and Information Center (room 3308) at the Commission's headquarters, 941 North Capitol Street, NE., Washington, DC 20426.

The PC software packages are available from the Commission's copy contractor, LaDorn Systems Corporation ((202) 898–1151), located in room 3308, 941 North Capitol Street, NE., Washington, DC 20426. Persons requesting the software should fill out the attached Order Form. The software is available without charge. However, the Commission's copy contractor has a copy fee of $6.00 per 3.5" diskette and $5.00 per 5.25" diskette. The User/Operations Manual is also available in hardcopy at 20 cents per page.

Lois D. Cashell,

Secretary.

Appendix A—Revisions to the Instructions Relating to the Rate Filing Record Formats

1. Page 284, Exhibit G (Functionalization Codes). Delete the following codes: 70, 71, 72, 77, 78.

2. Page 284, Exhibit G (Functionalization Codes). Add a new code: Code=98, Total–Prime Account.

3. Page 286, Exhibit H (Rate Filings: Statements/Schedule Record Codes). Add the following codes:

	Code	Structured data record(s)	Statement/schedule and/or information to be reported
SLSR		Service List, Statement of Chief Accountant, Federal Register Notice, and Other Data.	
G–00	RA/29–39	Statement G	Gas Operating Revenues and Sales Volumes [All Standardized Reports].
G–29	RA/29	Statement G	Gas Operating Revenues and Sales Volumes.
G–30	RA/30	Statement G	Gas Operating Revenues and Sales Volumes—Field Sales, Jurisdictional Sales, Non-Jurisdictional Sales, and Other Sales.
G–31	RA/31	Statement G	Gas Operating Revenues and Sales Volumes—Total Jurisdictional, Non-Jurisdictional, Field, and Other Sales.
G–32	RA/32	Statement G	Gas Operating Revenues and Sales Volumes—Transportation of Gas for Others.
G–33	RA/33	Statement G	Gas Operating Revenues and Sales Volumes—Process Plant.
G–34	RA/34	Statement G	Gas Operating Revenues and Sales Volumes—Products Extracted.
G–35	RA/35	Statement G	Gas Operating Revenues and Sales Volumes—Incidental Sales.
G–36	RA/36	Statement G	Gas Operating Revenues and Sales Volumes—Other Gas Revenues.
G–37	RA/37	Statement G	Gas Operating Revenues and Sales Volumes—Rents.
G–38	RA/38	Statement G	Gas Operating Revenues and Sales Volumes—Liquids and Liquefiables—Details.
G–39	RA/39	Statement G	Gas Operating Revenues and Sales Volumes—Liquids and Liquefiables—Totals.

Appendix B—Directory of Files

Note: With regard to edit-checking and printing, the executable code to process RB records (schedule N) is incorporated within the executable code to process correlating RA records. For example, the source code for file REA02B11.EXE will process 'statement A' for RA02 records and 'statement N–G' for RB11 records.

[FR Doc. 90–25450 Filed 10–26–90; 8:45 am]
BILLING CODE 6717–01–M

[Docket No. RP91–9–000]

Florida Gas Transmission Co.; Petition for Limited Waiver of Tariff Provisions

October 22, 1990.

Taken notice that on October 18, 1990, Florida Gas Transmission Company (FGT), 1400 Smith Street, Houston, Texas 77002, filed in Docket No. RP91–9–000 a petition requesting authorization for waivers of Federal Energy Regulatory Commission policy and FGT's FERC Gas Tariff to the extent necessary to revise or replace delivery points under existing Service Agreements for firm, preferred, and interruptible transportation and sales service between FGT and Florida Power & Light Company, The City of Lakeland, Peoples Gas System, Inc., and St. Joe Natural Gas Company, and to permit these customers/shippers to maintain their existing priority in FGT's first-come, first-served queues.

FGT states that adding the delivery points on behalf of such customers will not violate the Commission's first-come, first-served principle because (i) the same end-users and/or the same customers would be served by the new delivery points; (ii) the additional delivery points are in the same geographic location as the customers or end-users; and (iii) the addition of any new delivery points will not interfere with FGT's ability to render firm service to any other customer. In each instance, the additional delivery points are necessary due to extenuating operational or other circumstances applicable to each customer.

Any person desiring to be heard or to protest to said petition should on or before October 29, 1990 file with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, a motion to intervene or protest in accordance with §§ 385.214 and 385.211 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene in accordance with the Commission's rules.

Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Lois D. Cashell,

Secretary.

[FR Doc. 90-25452 Filed 10-26-90; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. TC89-1-46-031 and RP88-186-014]

Kentucky West Virginia Gas Co.; Compliance of Filing

October 22, 1990.

Take notice that on October 17, 1990, Kentucky West Virginia Gas Company (Kentucky West), filed tariff sheets to clarify and correct previous compliance filings related to Commission orders issued on August 3, 1990 and September 7, 1990, in which the Commission approved settlements between the City Utilities Commission of Prestonsburg, Kentucky (Prestonsburg) and Kentucky West, and between the City of Paintsville, Kentucky (Paintsville) and Kentucky West, respectively.

The previous compliance filings were made on August 10, 1990 and September 12, 1990, and were accepted by letter orders issued on September 18, 1990, and October 2, 1990.

Kentucky West states that the tariff sheets as submitted do not reflect the actual monthly payment amounts for Prestonsburg and Paintsville due to the accumulation of interest on certain refunds, and that it was anticipated in the settlements that these actual figures would be substituted for an approximate amount after the settlements were approved by the Commission. Kentucky West also states that in the interest of uniformity, a similar charge must be made to the tariff sheets containing the Paintsville settlement to reflect the actual payment amounts to be paid by Paintsville.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with rules 214 and 211 of the Commission's Rules of Practice and Procedure (18 CFR 385.214, 385.211 (1990)). All such protests should be filed on or before October 30, 1990. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Persons that are already parties to this proceeding need not file a motion to intervene in this matter. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

ENVIRONMENTAL PROTECTION AGENCY

[FRL-3856-1]

Office of Research and Development

Ambient Air Monitoring Reference and Equivalent Methods Designation

Notice is hereby given that EPA, in accordance with 40 CFR part 53, has designated another equivalent method for the determination of ambient concentrations of particulate matter measured as PM_{10}. The new equivalent method is an automated method which utilizes a tapered element oscillating microbalance for the determination of mass concentrations of PM_{10}. The new designated method is identified as follows:

EQPM-1090-079, "Rupprecht & Patashnick TEOM® Series 1400 PM_{10} Monitor", consisting of the following components:

TEOM Sensor Unit
TEOM Control Unit
Sierra-Andersen Model 246b PM-10 Inlet (16.7 liter/min)
Flow Splitter
Teflon-Coated Glass Fiber Filter Cartridges

operated for 24-hour average measurements, with the total mass averaging time set at 300 seconds, the mass rate/mass concentration averaging time set at 300 seconds, the gate time set at 2 seconds, and with or without either of the following options:

Tripod
Outdoor Enclosure

This method is available from Rupprecht & Patashnick Co., Inc., 8 Corporate Circle, Albany, New York 12203. A notice of receipt of application for this method appeared in the Federal Register, Volume 55, July 10, 1990, page 28287.

Test monitors representative of this method have been tested by the applicant, in accordance with the test procedures specified in 40 CFR part 53. After reviewing the results of these tests and other information submitted by the applicant, EPA has determined, in accordance with part 53, that this method should be designated as an equivalent method. The information submitted by the applicant will be kept on file at EPA's Atmospheric Research and Exposure Assessment Laboratory, Research Triangle Park, North Carolina 27711, and will be available for inspection to the extent consistent with 40 CFR part 2 (EPA's regulations implementing the Freedom of Information Act).

As a designated equivalent method, this method is acceptable for use by states and other air monitoring agencies under requirements of 40 CFR part 58, Ambient Air Quality Surveillance. For such purposes, the method must be used in strict accordance with the operation or instruction manual associated with the method and subject to any limitations (*e.g.*, averaging time) specified in the applicable designation (see description of the method above). Users of this method should note that its equivalent method designation applies only to 24-hour average PM_{10} concentration measurements. The TEOM® Series 1400 PM-10 Monitor can also provide average PM_{10} measurements over other, shorter averaging periods, including one-half-hour averages. However, such shorter average concentration measurements may be less precise than the 24-hour measurements. Average measurements over periods shorter than 24 hours are not required for use in determining attainment under the air quality surveillance requirements of part 58 (although they may be useful for other purposes) and should not be reported under § 58.35 (NAMS data submittal).

Vendor modifications of a designated method used for purposes of part 58 are permitted only with prior approval of EPA, as provided in part 53. Provisions concerning modification of such methods by users are specified under § 2.8 of appendix C to 40 CFR part 58 (Modifications of Methods by Users).

Part 53 requres that sellers of designated methods comply with certain conditions. These conditions are given in 40 CFR 53.9 and are summarized below:

(1) A copy of the approved operation or instruction manual must accompany the PM_{10} monitor when it is delivered to the ultimate purchaser.

(2) The PM_{10} Monitor must not generate any unreasonable hazard to operators or to the environment.

(3) The PM_{10} monitor mus function within the limits of the performance specifications given in Table D-1 of part 53 for at least one year after delivery when maintained and operated in accordance with the operation manual.

(4) Any PM_{10} monitor offered for sale as an equivalent method must bear a label or sticker indicating that it has been designated as an equivalent method in accordance with part 53.

(5) An applicant who offers PM_{10} monitors for sale as equivalent methods is required to maintain a list of ultimate purchasers of such monitors and to notify them within 30 days if an equivalent method designation applicable to the monitor has been cancelled or if adjustment of the monitors is necesary under 40 CFR 53.11(b) to avoid a cancellation.

(6) An applicant who modifies a PM_{10} monitor previously designated as an equivalent method is not permitted to sell the monitor (as modified) as an equivalent method (although he may choose to sell it without such representation), nor to attach a label or sticker to the monitor (as modified) under the provisions described above, until he has received notice under 40 CFR 53.14(c) that the original designation or a new designation applies to the method as modified or until he has applied for and received notice under 50 CFR 53.8(b) of a new equivalent method determination for the monitor as modified.

Aside from occasional breakdowns or malfunctions, consistent or repeated noncompliance with any of these conditions should be reported to: Director, Atmospheric Research and Exposure Assessment Laboratory, Department E (MD–77), U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711.

Designation of this equivalent method will provide assistance to the states in establishing and operating their air quality surveillance systems under part 58. Technical questions concerning the method should be directed to the manufacturer. Additional information concerning this action may be obtained from Frank F. McElroy, Quality Assurance Division (MD–77), Atmospheric Research and Exposure Assessment Laboratory, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711, Telephone (919) 541–2622.

Erich W. Bretthauer,

Assistant Administrator for Research and Development.

[FR Doc. 90–25620 Filed 10–26–90; 8:45 am]

BILLING CODE 6560–50–M

[FRL–3855–5]

Mille Lacs Lake Confined Drift Aquifer, Minnesota Sole Source Aquifer Petition; Final Determination

AGENCY: U.S. Environmental Protection Agency.

ACTION: Notice of final determination.

SUMMARY: Notice is hereby given that, under section 1424(e) of the Safe Drinking Water Act, the U.S. Environmental Protection Agency (EPA) Region V Administrator has determined that the petitioned portion of the Confined Drive Aquifer within the Rum River and Mille Lacs Lake watersheds in east-central Minnesota, hereafter called the Mille Lacs Lake Confined Drift Aquifer (MLLCDA), is the sole or principal source of drinking water in the petitioned area and that this aquifer, if contaminated, would create a significant hazard to public health. As a result of this action, all Federal financially assisted projects constructed in the MLLCDA area and its recharge zone will be subject to EPA's review to insure that these projects are designed and constructed so that they do not create a significant hazard to public health.

DATES: Because the economic and regulatory impact of this action will be minimal, this determination will be effective as of the date it is signed by the Regional Administrator.

ADDRESSES: The data on which these findings are based are available to the public and may be inspected during normal business hours at the U.S. Environmental Protection Agency, Region V, Ground Water Protection Branch, 230 South Dearborn Street, 5WG–TUB8, Chicago, Illinois 60604.

FOR FURTHER INFORMATION CONTACT: Glenn Wittman, Ground Water Protection Branch, U.S. EPA, Region V, at 312/886–1503.

SUPPLEMENTARY INFORMATION:

I. Background

Section 1424(e) of the Safe Drinking Water Act (42 U.S.C., 300f, 300h–3(e), Pub. L. 93–523) states:

(e) If the Administrator determines, on his own initiative or upon petition, that an area has an aquifer which is the sole or principal drinking water source for the area and which, if contaminated, would create a significant hazard to public health, he shall publish notice of that determination in the Federal Register. After the publication of any such notice, no commitment for Federal financial assistance (through a grant, contract, loan guarantee, or otherwise) may be entered into for any project which the Administrator determines may contaminate such aquifer through a recharge zone so as to create a significant hazard to public health, but a commitment for Federal financial assistance may, if authorized under another provision of law, be entered into to plan or design the project to assure that it will not so contaminate the aquifer.

Effective March 9, 1987, authority to make a Sole Source Aquifer designation determination was delegated to the U.S. EPA Regional Administrators.

On February 21, 1989, EPA received a complete petition from the Mille Lacs Band of Chippewa Indians (the petitioner) to designate the MLLCDA as a Sole Source Aquifer. On June 14, 1989, EPA published a notice announcing a 30-day public comment period regarding the petition. Comments were received from three commenters, all of whom supported designation of the aquifer.

II. Basis for Determination

Among the factors to be considered by the U.S. EPA in connection with the designation of an aquifer under section 1424(e) are: (1) Whether the aquifer is the area's sole or principal source of drinking water, and (2) whether contamination of the aquifer would create a significant hazard to public health. On the basis of technical information available to EPA, the Regional Administrator has made the following findings which are the bases for the determination noted above:

1. The MLLCDA currently serves as the "sole source" of drinking water for approximately 6,500 residents of Mille Lacs and Aitkin Counties.

2. There is no existing alternative drinking water source of combination of sources which provides 50 percent or more of the drinking water to the designated area, nor is there any available, cost-effective, potential source capable of replacing the drinking water needs of the communities and individuals that presently relay on the aquifer.

3. The Mille Lacs Lake Confined Drift Aquifer is a confined aquifer that transmits water through unconsolidated glacial deposits. Its moderate to high permeability makes the MLLCDA vulnerable to contamination. Potential sources of contamination include, but are not limited to, leaking underground storage tanks and spills of hazardous materials. Should the ground water become contaminated, there could be a significant negative impact on drinking water quality and a consequent adverse effect on public health.

III. Description of the Mille Lacs Lake Confined Drift Aquifer: Hydrogeology; Use; Recharge; Boundaries

The MLLCDA was formed about 12,000 years ago during the most recent episode of glaciation of North American continent. This glacial activity left behind heterogeneous deposits of rocks, gravel, sand, silt, and clay (glacial drift). These deposits form the MLLCSA and range from 15 to 175 feet in thickness.

Total ground water withdrawal from public and private water supply wells tapping the MLLCDA is approximately

450,000 gallons per day. This resource is the most technically and economically feasible source of drinking water in the area. In fact, over 95 percent of the drinking water in the proposed designated area is drawn from the MLLCDA.

The MLLCDA is recharged primarily by precipitation infiltrating from the land surface. Available hydrogeological information indicates that the potentiometric surface of the aquifer is a subdued expression of the topography and suggests that there is a ground water divide, or hydralic boundary, within the aquifer that roughly corresponds to the watershed boundary of Mille Lacs Lake and the Rum River headwaters area. Maps of the boundaries are available from the U.S. EPA, Region V, Ground Water Protection Branch.

IV. Alternative Sources

The petitioner considered several alternatives to the MLLCDA to supply drinking water: An unconfined surificial sandy acquifer; fractured crystalline bedrock; and Mille Lacs Lake. The comparatively small, unconfined, surficial sandy acquifer lies largely outside the aquifer service area and is neither technically nor economically feasible as an alternative source. Fractured crystalline bedrock does not possess the hydrogeologic characteristics to enable it to yield sufficient water to replace the amount currently supplied by the confined drift aquifer. Mille Lacs Lake could supply sufficient water to the aquifer. Mille Lacs Lake could supply sufficient water to the aquifer service area, but the costs for water treatment and distribution system would exceed guidance thresholds. The petitioner conducted a cost analysis for development of Mille Lacs Lake as a potential alternative source. The cost analysis revealed that a lake water supply system would be too costly and exceed the guidance thresholds of 0.4–0.6 percent of the average annual income for the aquifer service area.

V. Information Utilized in the Determination

The information utilized in this determination includes the petition, published State and Federal reports, and various technical publications. The petition file is available to the public and may be inspected during normal business hours at the U.S. Environmental Protection Agency, Region V, Ground Water Protection Branch, 111 West Jackson Boulevard, 8th floor, Chicago, Illinois 60604.

VI. Project Review

EPA Region V is working with the Federal agencies that may in the future provide financial assistance to projects in the area of concern. Interagency procedures will be developed through which EPA will be notified of proposed commitments of funding by Federal agencies for projects and, where necessary, conduct an in-depth review, including soliciation of public comments where appropriate. Should the Administrator determine that a project may contaminate the aquifer through its recharge zone so as to create a significant hazard to public health, no commitment for Federal financial assistance may be made. However, a commitment for Federal financial assistance may, if authorized under another provision of law, be made to plan or design the project to assure that it will not contaminate the acquifer.

Although the project review process cannot be delegated, EPA will rely to the maximum extent possible on existing or future State and local control mechanisms to protect the ground water quality of the MLLCDA. Included in the review of any Federal financially assisted project will be coordination with State, Tribal, and local agencies. Their comments will be given full consideration, and the Federal review process will attempt to complement and support State, Tribal, and local ground water protection mechanisms.

VII. Summary of Public Comments

Three comments were received during the pubic comment period, and all were in support of designation.

VIII. Economic and Regulatory Impact

Under the provisions of the Regulatory Flexibility Act (RFA), 5 U.S.C. 605(b), I hereby certify that the attached rule will not have a significant impact on a substantial number of small entities. For purposes of this certification, "small entity" shall have the same meaning as given in section 601 of the RFA. This action is only applicable to the designated area of the Confined Drift Aquifer. The only affected entities will be those area-based businesses, organizations, or governmental jurisdictions that request Federal financial assistance for projects which have the potential to contaminate the aquifer so as to create a significant hazard to public health. EPA does not expect to review small isolated commitments of financial asistance on an individual basis, unless a cumulative impact on the aquifer is anticipated; accordingly, the number of affected small entities will be minimal.

For those small entities which are subject to review, the impact of today's action will not be significant. Most projects subject to this review will be preceded by a ground water impact assessment required under other Federal laws, such as the National Environmental Policy Act as amended, 42 U.S.C. 4321, *et seq.* Integration of those related review procedures with Sole Source Acquifer review will allow EPA and other Federal agencies to avoid delay or duplication of effort in approving financial assistance, thus minimizing any adverse effect on those small entities which are affected. Finally, today's action does not prevent grants of Federal financial assistance which may be available to any affected small entity in order to pay for the redesign of the project to assure protection of the aquifer.

Under Executive Order 12291, EPA must judge whether a regulation is "major" and, therefore, subject to the requirement of a Regulatory Impact Analysis. This regulation is not major because it will not have an annual effect of $100 million or more on the economy, will not cause any major increase in costs or prices, and will not have significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of United States enterprises to compete in domestic or export markets. Today's action provides for an in-depth review or ground water protection measures, incorporating State, Tribal, and local measures whenever possible, for only those projects which request Federal financial assistance.

Dated: September 28, 1990

Valdas V. Adamkus,

Regional Adinistrator.

BILLING CODE 6560-50-M

FEDERAL DEPOSIT INSURANCE CORPORATION

Information Collection Submitted to OMB for Review

AGENCY: Federal Deposit Insurance Corporation.

ACTION: Notice of information collection submitted to OMB for review and approval under the Paperwork Reduction Act of 1980.

SUMMARY: In accordance with requirements of the Paperwork Reduction Act of 1980 (44 U.S.C. chapter 35), the FDIC hereby gives notice that it

has submitted to the Office of Management and Budget a request for OMB review of the information collection system identified below.

Type of Review: Extension of expiration date without any change in substance or method of collection.

Title: Transfer agent registration and amendment form.

Form Number: TA–1.

OMB Number: 3064–0026.

Expiration Date of OMB Clearance: November 30, 1990.

Frequency of Response: On occasion.

Respondents: Insured nonmember banks.

Number of Respondents: 28.

Number of Responses Per Respondent: 1.

Total Annual Responses: 28.

Average Number of Hours Per Response: 0.83.

Total Annual Burden Hours: 23.

OMB Reviewer: Gary Waxman, (202) 395–7340, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Washington, DC 20503.

FDIC Contact: Steven F. Hanft, (202) 898–3907, Assistant Executive Secretary, Room F–400, Federal Deposit Insurance Corporation, 550 17th Street NW., Washington, DC 20429.

Comments: Comments on this collection of information are welcome and should be submitted on or before December 28, 1990.

ADDRESSES: A copy of the submission may be obtained by calling or writing the FDIC contact listed above. Comments regarding the submission should be addressed to both the OMB reviewer and the FDIC contact listed above.

SUPPLEMENTARY INFORMATION: The FDIC is requesting OMB approval to extend, for another three year period, the use of the form TA–1 by insured nonmember banks to register with the FDIC as transfer agents. Such registration is required by the Securities Exchange Act of 1934 and FDIC regulation 12 CFR part 341. The form is also used to amend a registration.

Dated: September 20, 1990.

Federal Deposit Insurance Corporation

Hoyle L. Robinson,

Executive Secretary.

FEDERAL MARITIME COMMISSION

Agreement(s) Filed; Jacksonville Port Authority, et al.

The Federal Maritime Commission hereby gives notice that the following agreement(s) has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and may request a copy of each agreement and the supporting statement at the Washington, DC Office of the Federal Maritime Commission, 1100 L Street, NW., room 10220. Interested parties may submit protests or comments on each agreement to the Secretary, Federal Maritime Commission, Washington, DC 20573, within 10 days after the date of the Federal Register in which this notice appears. The requirements for comments and protests are found in § 560.7 of title 46 of the Code of Federal Regulations. Interested persons should consult this section before communicating with the Commission regarding a pending agreement.

Any person filing a comment or protest with the Commission shall, at the same time, deliver a copy of that document to the person filing the agreement at the address shown below.

Agreement No.: 224–200431

Title: Jacksonville Port Authority/ Marine Transportation Services Sea Barge Group, Inc., Terminal Agreement.

Parties: Jacksonville Port Authority/ Marine Transportation Services Sea Barge Group, Inc., (MTSSBG).

Filing Party: Mr. Carl L. Timmer, General Traffic Manager, Jacksonville Port Authority, 2831 Talleyrand Avenue, Jacksonville, FL 32206.

Synopsis: The Agreement provides for: MTSSBG's lease of approximately 11 acres of land at an annual rental rate of $128,500; a container rate, including wharfage and terminal use, of $28 per loaded container, discharged or loaded; certain container crane rental charges; and a dockage charge of $2.71 per lineal foot of barges and vessels. MTSSBG guarantees a minimum of $350,000 in total revenues each lease year.

By Order of the Federal Maritime Commission.

Dated: October 23, 1990.

Joseph C. Polking,

Secretary.

BILLING CODE 6730–01–M

Agreement(s) Filed; Tampa Port Authority, et al.

The Federal Maritime Commission hereby gives notice of the filing of the following agreement(s) pursuant to section 5 of the Shipping Act of 1984.

Interested parties may inspect and obtain a copy of each agreement at the Washington, DC Office of the Federal Maritime Commission, Washington, DC 20573, within 10 days after the date of the Federal Register in which this notice appears. The requirements for comments are found in § 572.603 of title 46 of the Code of Federal Regulations. Interested persons should consult this section before communicating with the Commission regarding a pending agreement.

Agreement No: 224–200432

Title: Tampa Port Authority/ MacMillan Bloedel of America, Inc. Terminal Agreement.

Parties: Tampa Port Authority (Port), MacMillan Bloedel of America, Inc. (MBA)

Synopsis: The Agreement provides that the Port will assess MBA certain incentive wharfage rates based on a minimum annual guarantee of 25 million board feet of lumber.

Agreement No: 224–200430

Title: North Carolina State Ports Authority/Yangming Marine Transport Corporation Terminal Agreement.

Parties: North Carolina State Ports Authority, Yangming Marine Transport Corporation.

Synopsis: The Agreement provides Yangming wharfage incentive rates for annual volume of over 50,000 tons of cargo. The Agreement also provides certain reduced tariff rates for dockage, container handling, and crane rental, as well as certain guarantees for the availability of a berth and two container cranes. The Agreement's term is for two years and may be extended for one additional year.

Agreement No: 224–200429

Title: Port of Seattle/Stevedoring Services of America Terminal Agreement.

Parties: Port of Seattle (Port), Stevedoring Services of America (SSA).

Synopsis: The Agreement provides for SSA's 10-year lease of approximately 23 acres of land and preferential use of berthing area and two Port-owned container cranes at Terminals 42 and 37 in the City of Seattle, Washington. The Agreement supercedes the parties' existing 5-year agreement (Agreement NO. 224–011032).

Dated: October 23, 1990.

FEDERAL RESERVE SYSTEM

Agency Forms Under Review

October 23, 1990.

Background

Notice is hereby given of the submission of proposed information collection to the Office of Management and Budget (OMB) for its review and approval under the Paperwork Reduction Act (44 U.S.C. chapter 35) and under OMB regulations on Controlling Paperwork Burdens on the Public (5 CFR part 1320). A copy of the proposed information collection and supporting documents is available from the agency clearance officer listed in the notice. Any comments on the proposal should be sent to the OMB desk officer listed in the notice. OMB's usual practice is not to take any action on a proposed information collection until at least ten working days after notice in the Federal Register, but occasionally the public interest requires more rapid action.

FOR FURTHER INFORMATION CONTACT:
Federal Reserve Board Clearance Officer—Frederick Schroeder—Division of Research and Statistics, Board of Governors of the Federal

Reserve System, Washington, DC 20551 (202–452–3822).

OMB Desk Officer.—Gary Waxman—Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, room 3208, Washington, DC 20503 (202–395–7340).

Request for OMB approval to revise

Report title: Foreign Branch Report of Condition.

Agency form number: FFIEC 030.

OMB Docket number: 7100–0071.

Frequency: Annually, and quarterly for large branches and agencies.

Reporters: State member banks that have foreign branches and agencies.

Annual reporting hours: 522.

Estimated average hours per response: 3 hours.

Estimated number of respondents: 102 annual respondents, 18 quarterly respondents.

Small businesses are not affected.

General description of report: This information collection is mandatory (12 U.S.C. 321, 324, and 602) and is given confidential treatment (5 U.S.C. 552(b)(8)).

This annual report contains detailed asset and liability information for foreign branches and agencies of insured U.S. commercial banks and is required for regulatory and supervisory purposes. The information is used to analyze the foreign operations of U.S. commercial banks. The proposed revisions involve minor changes to the reporting form and instructions and a shift to quarterly reporting for large foreign branches.

Board of Governors of the Federal Reserve System, October 23, 1990.

William W. Wiles,

Secretary of the Board.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Care Financing Administration

Privacy Act of 1974; Computer Matching Program

AGENCY: Department of Health and Human Services (HHS) Health Care Financing Administration (HCFA).

ACTION: Notice of a Matching Program—HCFA's Health Insurance (HI) Master Record and information from four Railroad Retirement Board (RRB) Systems of Records.

SUMMARY: The Department of Health and Human Services is providing public notice that the RRB agrees to disclose information concerning Medicare eligible railroad retirees to HCFA.

The matching report set forth below is in compliance with the Computer Matching and Privacy Protection Act of 1988 (Pub. L. No. 100–503).

DATES: The match will begin 30 days after notice has been published in the Federal Register and agreements by the parties participating in the match have been submitted to Congress and the Office of Management and Budget, and shall remain in effect for a period not to exceed 18 months unless 90 days prior to the actual expiration date, the Data Integrity Boards (DIB) of HHS and the RRB find that the program will be conducted without change and each party certifies that the program has been conducted in compliance with the Matching Agreement. Under this finding, the respective DIBs may extend the Agreement for one additional year.

ADDRESSES: The public should address comments to Richard A. DeMeo, Privacy Act Officer, Office of Budget and Administration, Health Care Financing Administration, Room 108, Security Office Park Building, 7008 Security Boulevard, Baltimore, Maryland 21207. Comments will be available for inspection at this location.

FOR FURTHER INFORMATION CONTACT: William A. Grant, Division of Entitlement Requirements, Office of Program Operations Procedures, Bureau of Program Operations, Health Care Financing Administration, C–E–7 Meadows East Building, 6325 Security Boulevard, Baltimore, Maryland 21207, Telephone Number 301–966–6464.

SUPPLEMENTARY INFORMATION: The RRB information contains data from four RRB Systems of Records: Health Insurance and Supplementary Medicare Insurance Enrollment and Premium Payment System (RRB–20), Railroad Retirement, Survivor, and Pensioner Benefit System (RRB–22), Research Master Record for Survivor Beneficiaries under the Railroad Retirement Act (RRB–25), and Research Master Record for Retired Railroad Employees and their Dependents (RRB–26).

The RRB information is matched against the HI Master Record (HHS/HCFA/BPO No. 09–70–0502), which contains a record of each individual who is or has been entitled to health insurance benefits under title XVIII of the Social Security Act.

The purpose of the disclosure is to enable HCFA to identify possible railroad working aged in order to determine when Medicare should be the secondary payer after employer group health insurance. This disclsoure of information will ensure that HCFA has accurate information about possible railroad working aged. The RRB is the only source HCFA has for information about possible railroad working aged.

For the purposes of this match, "Working Aged" means Medicare beneficiaries aged 65 or over who are currently employed by employers of 20 or more employees or the spouses of currently employed individuals of any age. "Working Aged" also refers to those individuals under age 65 who are disabled and covered under large group health plans as an employee, an employer, an individual associated with the employer in a business relationship, or a member of a family of any of these individuals.

By identifying possible railroad working aged and determining if the railroad retiree has employer group health insurance, Medicare can become the secondary payer, thus paying only the portion of the payment not paid by the employee's group health insurance. This results in savings to the Medicare Trust Funds. Before the RRB may release the working aged information to HCFA, both agencies must sign a Matching Agreement that has been approved by each agency's DIB.

The results of the match are only used when a railroad retiree (or spouse) or disabled beneficiary or an appropriate person on his or her behalf submits a claim for reimbursement for Medicare covered services or supplies. If the railroad retiree (or spouse) or disabled beneficiary is identified as possible working aged, the railroad retiree (or spouse) or disabled beneficiary is contacted by HCFA to determine if he/she has employer group health insurance benefits. If he/she does have employer group health insurance benefits Medicare is the secondary payer to the employer group health insurance.

Set forth below is the information required by the Computer Matching and Privacy Protection Act of 1988. A copy of this notice has been provided to the Chairman of the Committee on Government Operation of the House of Representatives, the Chairman of the Committee on Governmental Affairs of the Senate and the Administrator of the Office of Information and Regulatory Affairs in the Office of Management and Budget.

Dated: October 9, 1990.

Gail R. Wilensky,

Administrator, Health Care Financing Administration.

Report of Computer Matching Program—HCFA and RRB

a. *Authority:* Section 1106(a) of the Social Security Act (42 U.S.C. 1306(a)), Section 1874(b) of the Social Security Act (42 U.S.C. 1395kk(b)), the Freedom of Information Act (5 U.S.C. 552), the Privacy Act of 1974 (5 U.S.C. 552a), as amended by the Computer Matching and Privacy Protection Act of 1988 (Pub. L. No. 100–503).

b. *Purpose and description:* The purpose of this disclosure is to enable HCFA to identify possible railroad working aged in order to determine when Medicare should be the secondary payer after employer group health insurance.

This information consists of name, HI number, gender, date of birth, Ledger Account File Code (for working aged code is S2), and Requester Identification (for working aged code is 02WA).

c. *Personal records to be matched:* HCFA will match the RRB information to the HI Master Record and annotate the beneficiary's record with the possible working aged indicator.

There are between 12,000–19,000 records matched each quarter.

d. *Period of match:* The RRB will electronically transmit the working aged information to HCFA via the Social Security Administration's (SSA) National Computer Center (NCC) quarterly. The information will be for continuous use by HCFA for a period not to exceed 18 months, unless 90 days prior to the actual expiration date, the DIBs of HHS and the RRB find that the program will be conducted without change and each party certifies that the program has been conducted in compliance with the Matching Agreement. Under this finding, the respective DIBs may extend the Agreement for one additional year.

e. *Safeguards:* Before the RRB information is released to HCFA, the RRB and HCFA must sign an Agreement to protect the confidentiality of the information received. The HHS DIB

approved the Agreement on August 16, 1990. The RRB DIB approved the Agreement on August 23, 1990.

Through an inter-agency agreement, SSA performs EDP functions for HCFA. SSA maintains HCFA's data under strict security at the NCC. If, at any time during the life of the Matching Agreement, the RRB wishes to make onsite inspections to ensure adequate safeguards are being maintained by HCFA or SSA, the procedures to obtain clearance to the NCC will be followed.

Access to the records matched and any records created by the match will be stored in areas that are physically safe from access by unauthorized persons during duty hours as well as non-duty hours or when not in use.

The records matched and any records created by the match will be processed under the immediate supervision and control of authorized personnel in a manner which will protect the confidentiality of the records and in such a way that unauthorized persons cannot retrieve any such records by computer, remote terminal or other means.

All personnel who will have access to the records matched and to any records created by the match will be advised of the confidential nature of the information, the safeguards required to protect the information and the civil and criminal sanctions for noncompliance contained in applicable Federal laws.

f. *Retention and disposition of records:* As a result of the matching program, any changes made to railroad retirees' records in the HI Master Record (possible working aged identifier) will be retained until determined (through development with the railroad retiree) to be incorrect.

BILLING CODE 4120-03-M

Health Resources and Services Administration

Program Announcement for Grants for Faculty Development in Family Medicine (Second Cycle)

The Health Resources and Services Administration (HRSA) announces that applications for a second solicitation for Fiscal Year 1991 for Grants for Faculty Development in Family Medicine are being accepted under the authority of section 786(a), title VII of the Public Health Service Act, Health Professions Reauthorization Act of 1988, (Title VI), Public Law 100-607.

Section 786(a) of the Public Health Service Act authorizes the award of grants to public or nonprofit private hospitals, schools of medicine or osteopathic medicine, or other public or private nonprofit entities to assist in meeting the cost of planning, developing and operating programs for the training of physicians who plan to teach in family medicine training programs. In addition, section 786(a) authorizes assistance in meeting the cost of supporting physicians who are trainees in such programs and who plan to teach in a family medicine training program.

The Administration's budget request for Fiscal Year 1991 does not include funding for this program. Applicants should be advised that this program announcement is a contingency action being taken to ensure that should funds become available for this purpose, they can be awarded in a timely fashion consistent with the needs of the programs as well as to provide for even distribution of funds throughout the fiscal year. This notice regarding applications does not reflect any change in this policy.

To receive support, programs must meet the requirements of regulations as set forth in 42 CFR part 57, subpart Q.

Change in Project Requirement

A final rule was published in the Federal Register of December 6, 1989 (54 FR 50373) which states that there has been one change in the project requirements since Fiscal Year 1990. The maximum length of stipend support for trainees has been extended from one calendar year to 24 cumulative months.

Review Criteria

The review of applications will take into consideration the following criteria:

(1) The degree to which the proposed project provides for the project requirements;

(2) The administrative and management ability of the applicant to carry out the proposed project in a cost-effective manner; and

(3) The potential of the project to continue on a self-sustaining basis.

In addition, the following mechanisms may be applied in determining the funding of approved applications.

(1) Funding preferences—funding of a specific category or group of approved applications ahead of other categories or groups of applications, such as competing continuations ahead of new projects.

(2) Funding priorities—favorable adjustment of review scores when applications meet specified objective criteria.

(3) Special considerations—enhancement of priority scores by merit reviewers based on the extent to which applicants address special areas of concern.

Funding Priorities for Fiscal Year 1991

The following funding priorities were established in Fiscal Year 1989 after public comment and the Administration is extending these priorities again in Fiscal Year 1991.

In determining the order of funding of approved applications, a funding priority will be given to:

(1) Projects which satisfactorily demonstrate enrollment of underrepresented minorities in proportion to or greater than their percentage in the general population or can document an increase in the number of underrepresented minorities (*i.e.* Black, Hispanic, and American Indian/Alaskan Native minority trainees).

(2) Applications designed to develop faculty competence for teaching ambulatory and inpatient case management of those with HIV infection-related diseases.

(3) Applications designed to develop faculty competence for teaching quality assurance/risk management activities: monitoring and evaluation of health care services and utilization of peer-developed guidelines and standards.

(4) Applications designed to develop faculty competence for teaching geriatric content and/or develop educational materials for teaching geriatric content to medical students, residents and practitioners.

Special Consideration

Special consideration will be given to applications demonstrating a commitment to family medicine.

Public Law 100-607, section 633(a), requires that for grants issued under sections 780, 784, 785 and 786 for Fiscal Year 1990 or subsequent fiscal years, the Secretary of Health and Human Services shall, not less than twice each fiscal year, issue solicitations for applications for such grants if amounts appropriated for such grants and remaining unobligated at the end of the first solicitation period, are sufficient with respect to issuing a second solicitation. Should a second cycle be necessary, the application deadline date will be approximately six months from the first deadline.

The second deadline date for receipt of applications is January 25, 1991. Applications shall be considered as meeting the deadline if they are either:

(1) Received on or before the deadline date, or

(2) Postmarked on or before the deadline date and received in time for submission to the independent review

group. A legibly dated receipt from a commercial carrier or U.S. Postal Service will be accepted in lieu of a postmark. Private metered postmarks shall not be acceptable as proof of timely mailing.

Applications received after the deadline date will be returned to the applicant.

Requests for application materials and questions regarding grants policy should be directed to: Grants Management Officer (D–15) Bureau of Health Professions, Health Resources and Services Administration, 5600 Fishers Lane, Room 8C–26, Rockville, Maryland 20857, Telephone: (301) 443–6880.

Completed applications should be forwarded to the Grants Management Officer at the above address.

The standard application form PHS 6025–1, HRSA Competing Training Grant Application, General Instructions and supplement for this program have been approved by the Office of Management and Budget under the Paperwork Reduction Act. The OMB clearance number is 0915–0060.

Should additional programmatic information be required please contact: Primary Care Medical Education Branch, Division of Medicine, Bureau of Health Professions, Health Resources and Services Administration, 5600 Fishers Lane, Room 4C–04, Rockville, Maryland 20857, Telephone: (301) 443–3674.

This program is listed at 13.895 in the Catalog of Federal Domestic Assistance. It is not subject to the provisions of Executive Order 12372, Intergovernmental Review of Federal Programs (as implemented through 45 CFR part 100).

Dated: September 18, 1990.

Robert G. Harmon,

Administrator.

BILLING CODE 4160-15-M

Program Announcement for Grants for Graduate Training in Family Medicine (Second Cycle)

The Health Resources and Services Administration (HRSA) announces that applications for a second solicitation for Fiscal Year 1991 Grants for Graduate Training in Family Medicine are being accepted under the authority of section 786(a), title VII of the Public Health Service Act, extended by the Health Professions Reauthorization Act of 1988, Public Law 100–607, title VI.

The Administration's budget request for Fiscal Year 1991 does not include funding for this program. Applicants should be advised that this program announcement is a contingency action being taken to ensure that should funds become available for this purpose, they can be awarded in a timely fashion consistent with the needs of the programs as well as provide for even distribution of funds throughout the fiscal year. This notice regarding applications does not reflect any change in this policy.

Section 786(a) of the Public Health Service Act authorizes the Secretary to award grants to public or nonprofit private hospitals, schools of medicine or osteopathic medicine or other public or private nonprofit entities to assist in meeting the costs of planning, developing and operating or participating in approved graduate training programs in the field of family medicine. In addition, section 786(a) authorizes assistance in meeting the cost of supporting trainees in such programs who plan to specialize or work in the practice of family medicine. To receive support, programs must meet the requirements of regulations as set forth in 42 CFR part 57, subpart Q.

Review Criteria

The review of applications will take into consideration the following criteria:

1. The degree to which the proposed project provides for the project requirements;

2. The administrative and management ability of the applicant to carry out the proposed project in a cost-effective manner; and

3. The potential of the project to continue on a self-sustaining basis.

In addition, the following mechanisms may be applied in determining the funding of approved applications:

1. Funding preferences—funding of a specific category or group of approved applications ahead of other categories or groups of applications, such as competing continuations ahead of new projects.

2. Funding priorities—favorable adjustment of review scores when applications meet specified objective criteria.

3. Special considerations—enhancement of priority scores by merit reviewers based on the extent to which applicants address special areas of concern.

Funding Priorities for Fiscal Year 1991

The following funding priorities were established in FY 1989 after public comment and the Administration is again extending these priorities in Fiscal Year 1991.

In determining the order of funding of approved applications a funding priority will be given to:

(1) Projects which satisfactorily demonstrate an enrollment of underrepresented minorities in proportion to or greater than their percentage in the general population or can document an increase in the number of underrepresented minorities (*i.e.*, Black, Hispanic and American Indian/Alaskan Native) over the average of the past three years in postgraduate year (PGY) trainees.

(2) Projects in which substantial training experience is in one or more of the following: a PHS Act, section 332 health manpower shortage area; PHS Act, section 329 migrant health center, PHS Act, section 330 community health center; PHS Act, section 781 funded Area Health Education Center, or State designated clinic/center serving an underserved population.

(3) Applications that demonstrate sufficient curricular time and offering devoted to assuring competence in the prevention, recognition and treatment of those with HIV infection-related diseases.

(4) Applications that demonstrate sufficient curricular time and offering devoted to assuring competence in quality assurance/risk management activities: monitoring and evaluation of health care services and utilization of peer-developed guidelines and standards.

(5) Applications proposing to provide substantial multidisciplinary geriatric training experiences in multiple ambulatory settings and inpatient and extended care facilities.

Requests for application materials and questions regarding grants policy should be directed to: Grants Management Officer (D–15), Bureau of Health Professions, Health Resources and Services Administration, 5600 Fishers Lane, Room 8C–26, Rockville, Maryland 20857, Telephone: (301) 443–6880.

Completed applications should be forwarded to the Grants Management Officer at the above address. If additional programmatic information is needed, please contact: Primary Care Medical Education Branch, Division of Medicine, Bureau of Health Professions, Health Resources and Services Administration, 5600 Fishers Lane, Room 4C–04, Rockville, Maryland 20857, Telephone: (301) 443–6820.

The standard application form PHS 6025–1, HRSA Competing Training Grant Application, General Instructions and supplement for this program have been approved by the Office of Management and Budget under the Paperwork Reduction Act. The OMB clearance number is 0915–0060.

Public Law 100–607, section 633(a), requires that for grants issued under sections 780, 784, 785 and 786 for Fiscal Year 1991 or subsequent fiscal years, the Secretary of Health and Human Services shall, not less than twice each fiscal year, issue solicitations for applications for such grants if amounts appropriated for such grants and remaining unobligated at the end of the first solicitation period, are sufficient with respect to issuing a second solicitation.

The second deadline date for receipt of applications is January 18, 1991. Applications shall be considered as meeting the deadline if they are either:

(1) Received on or before the deadline date, or

(2) Postmarked on or before the deadline and received in time for submission to the independent review group. A legibly dated receipt from a commercial carrier or U.S. Postal Service will be accepted in lieu of a postmark. Private metered postmarks shall not be acceptable as proof of timely mailing.

Applications received after the deadline will be returned to the applicant.

This program is listed at 13.379 in the Catalog of Federal Domestic Assistance. It is not subject to the provisions of Executive Order 12372, Intergovernmental Review of Federal Programs (as implemented through 45 CFR part 100).

Dated: September 18, 1990.

Robert G. Harmon,

Administrator.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[OR–030–01–4320–02; GP1–015]

Meeting, Vale District Grazing Advisory Board; Oregon

AGENCY: Vale District, Bureau of Land Management, Interior.

ACTION: Notice of meeting.

SUMMARY: Notice is given in accordance with Public Law 92–463 that a meeting of the Vale District Grazing Advisory Board will be held November 27, 1990.

The agenda of the meeting will include: Maintenance strategy for range improvement projects, Policy for grazing use of public lands if drought conditions persist, Maintenance of range improvement seedings, Update on plans and activities in the Trout Creek Mountains, Grazing Advisory Board elections, Long-range grazing issues, Range improvement projects for 1991, and Noxious weed control plans.

The meeting is open to the public. Interested persons may make oral statements to the Board or may file written statements for the Board's consideration. Anyone wishing to make oral statements may do so at 1:30 p.m. M.S.T. the day of the meeting.

Summary minutes of the Board's meeting will be maintained in the district office and will be available for public inspection, or personal copies may be purchased for the cost of duplication, within 30 days of the meeting.

DATES: The meeting will begin at 10 a.m. M.S.T. November 27, 1990.

ADDRESSES: The meeting will be held in the conference room of the Vale District Office, 100 Oregon Street, Vale, OR 97918.

FOR FURTHER INFORMATION CONTACT: Gerard Hubbard, Bureau of Land Management, Vale District, 100 Oregon Street, Vale, OR 97918, (Telephone 503 473–3144).

William C. Calkins,

District Manager.

BILLING CODE 4310–33–M

Fish and Wildlife Service

Meeting, Klamath Fishery Management Council; California

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of meeting.

SUMMARY: Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (5 U.S.C. App. I), this notice announces a meeting of the Klamath Fishery Management Council, established under the authority of the Klamath River Basin Fishery Resources Restoration Act (16 U.S.C. 460ss *et seq.*). The meeting is open to the public.

DATES: The Klamath Fishery Management Council will meet from 9:30 a.m. to 5 p.m. on Thursday, November 1, 1990; and from 8 a.m. to 3 p.m. on Friday, November 2, 1990.

PLACE: The meeting will be held in the conference room of the Red Lion Motor Inn, 1929 Fourth Street, Eureka, California.

FOR FURTHER INFORMATION CONTACT: Dr. Ronald A. Iverson, Project Leader, U.S. Fish and Wildlife Service, P.O. Box 1006 (1030 South Main), Yreka, California 96097–1006, telephone (916) 842–5763.

SUPPLEMENTARY INFORMATION: For background information on the Management Council, please refer to the notice of their initial meeting that appeared in the Federal Register on July 8, 1987 (52 FR 25639).

The Council will approve a public review draft of the long-range plan for management of harvest of Klamath anadromous fish stocks, completed at their meeting held October 2–4, 1990. The Council will also hear reports on 1990 fisheries, and will identify a process for reviewing plans for 1991 fisheries affecting Klamath basin anadromous stocks.

Dated: October 19, 1990.

Marvin L. Plenert,

Regional Director, U.S. Fish and Wildlife Service.

National Park Service

Women's Rights National Historical Park; Seneca Falls, NY; Public Review Period for Amendment to the 1986 General Management Plan

In accordance with the National Park Service Planning Guidelines in the preparation of General Management Plans, notice is hereby given that the National Park Service is amending the 1986 General Management Plan for Women's Rights National Historical Park. A Draft Amendment/ Environmental Assessment, which contains several alternatives addressing needs for interpretation, park operations, and maintenance, is available for review from the Superintendent beginning October 19, 1990. Comments on the draft document should be submitted in writing by November 19, 1990, to the Superintendent, Women's Rights National Historical Park, P.O. Box 70, Seneca Falls, New York 13148. The National Park Service prepares General Management Plans to provide adequate consideration of reasonable alternatives in advance of pursuing general management directions.

Dated: October 18, 1990.

Marie Rust,

Acting Regional Director.

BILLING CODE 4310-70-M

Interim Bison Management Plan, Environmental Assessment; Yellowstone Park, Wyoming

AGENCY: National Park Service, Interior.

ACTION: Notice of availability of Environmental Assessment.

SUMMARY: In accordance with the National Environmental Policy Act and National Park Service (NPS) regulations, an Environmental Assessment (EA) has been prepared to analyze the environmental impacts of proposed short-term, interim management actions for the control of bison exiting Yellowstone National Park. the short-term will cover actions during the winter of 1990–1991. Long-term planning for bison management is the subject of an Environmental Impact Statement process which was announced in the Federal Register on July 2, 1990. The short-term management actions to be evaluated will deal with the extent and involvement of the NPS in the control of bison; to prevent the spread of bison-carried brucella organism to domestic cattle outside the park, to reduce property damage, to increase human safety, and to further reduce entrenchment of migratory behavior of the northern bison herd. Three alternatives are considered in the EA; No Action Alternative (continue current management), Control of Bison Inside the Park, and Control of Bison Outside the Park (proposal).

DATES: Comments on the EA should be sent to the Superintendent, Yellowstone National Park, P.O. Box 168, Yellowstone National Park, Wyoming 82190, no later than November 28, 1990.

ADDRESSES: Copies of the EA are available from the Superintendent, Yellowstone National Park, P.O. Box 168, Yellowstone National Park, Wyoming 82190. Copies are also available for review in the Office of Public Affairs, room 155, National Park Service, Rocky Mountain Regional Office, 12795 W. Alameda Pkwy., Denver, Colorado 80225.

Dated: October 17, 1990.

Jack W. Neckels,

Acting Regional Director, Rocky Mountain Region.

BILLING CODE 4310-70-M

Massachusetts and Connecticut; Farmington River Study Committee; Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770, 5 U.S.C. App. 1 10), that a meeting of the Farmington River Study Committee will be held Thursday, November 8, 1990.

The Committee was established pursuant to Public Law 99-590. The purpose of the Committee is to consult with the Secretary of the Interior and to advise the Secretary in conducting the study of the Farmington River segments.

The meeting will convene at 7:30 p.m. at the Tolland Town Hall, Tolland, Massachusetts, for the following purpose:

1. A study overview;
2. Approval of minutes from September 13, 1990 meeting;
3. Reports from Subcommittees:
   A. Water Resources Subcommittee, including the status of instream flow study;
   B. River Conservation Planning and Public Involvement Subcommittee, including an update on local activity—town meetings, ordinances, etc., and the private land protection program;
5. Opportunity for public comment; and
6. Other business including the reappointment process and the next meeting dates and locations.

Interested persons may make oral/ written presentations to the Committee or file written statements. Such requests should be made to the official listed below prior to the meeting.

Further information concerning this meeting may be obtained from the Public Affairs Officer, National Park Service, North Atlantic Region, 15 State Street, Boston, MA 02109 (617) 223-5199.

Dated: October 19, 1990.

Marie Rust,

Acting Regional Director.

National Parks Service

Meetings; Subsistence Resource Commission

AGENCY: National Park Service, Interior.

ACTION: Subsistence Resource Commission meeting.

SUMMARY: The Superintendent of Gates of the Arctic National Park and Preserve and the Chairperson of the Subsistence Resource Commission for Gates of the Arctic National Park announce a forthcoming meeting of the Gates of the Arctic National Park Subsistence Resource Commission.

The following agenda items will be discussed:

(1) Introduction of commission members.
(2) Introduction of guests.
(3) Review of minutes from last meeting.
(4) Federal subsistence management status report.
(5) Draft hunting plan progress report/work session.
(6) Update on land exchange.
(7) Old and new business.

DATES: The meeting will begin at 9 a.m. on Wednesday, November 14, 1990, and conclude at 5 p.m. The meeting will reconvene at 9 a.m. on Thursday, November 15, 1990, and conclude at 5 p.m.

LOCATION: The meeting will be held at the Regency Hotel, 95 10th Avenue, Fairbanks, Alaska.

FOR FURTHER INFORMATION CONTACT: Roger Siglin, Superintendent, P.O. Box 74680, Fairbanks, Alaska 99707. Phone (907) 456-0281.

SUPPLEMENTARY INFORMATION: The Subsistence Resource Commission is authorized under title VIII, section 808, of the Alaska National Interest Lands Conservation Act, Public Law 96–487, and operates in accordance with the provisions of the Federal Advisory Committees Act.

Paul F. Haertel,

Acting Regional Director.

BILLING CODE 4310-70-M

National Park Service

Golden Gate National Recreation Area and Point Reyes National Seashore Advisory Commission; Meetings

Notice is hereby given in accordance with the Federal Advisory Committee Act that meetings of the Golden Gate National Recreation Area and Point Reyes National Seashore Advisory Commission will be held at 7:30 p.m. (PST) on Wednesday, November 14, 1990, at the Presidio NCO Club, Building 135, Presidio of San Francisco, California, and at 7:30 p.m. (PST) on Thursday, December 6, 1990 at the Tamalpais High School Student Center in Mill Valley, California.

The Advisory Commission was established by Public Law 92–589 to provide for the free exchange of ideas between the National Park Service and the public and to facilitate the solicitation of advice or other counsel from members of the public on problems pertinent to the National Park Service Systems in Marin, San Francisco and San Mateo Counties. Members of the Commission are as follows:

Mr. Richard Bartke, Chairman
Ms. Amy Meyer, Vice Chair
Mr. Ernest Ayala
Dr. Howard Cogswell
Brig. Gen. John Crowley, USA (ret)
Mr. Margot Patterson Doss
Mr. Neil D. Eisenberg
Mr. Jerry Friedman
Mr. Steve Jeong
Ms. Daphne Greene
Ms. Gimmy Park Li
Mr. Gary Pinkston
Mr. Merritt Robinson
Mr. R.H. Sciaroni
Mr. John J. Spring
Dr. Edgar Wayburn
Mr. Joseph Williams

The main agenda items at the November 14 public meeting will be presentation and public comment on revised Presidio Planning Guidelines, the planning process, and issues and concerns relating to the planning effort by the National Park Service for the Presidio of San Francisco when the U.S. Army vacates the areas under the Base Closure Act of 1988. Draft Presidio Planning Guidelines were presented at five public hearings around the Bay Area on May 15, May 22, May 29, May 31, and June 2, 1990. Those public hearings were the first of many such public meetings anticipated over the next two-three years on the National Park Service planning process for the Presidio.

The draft Presidio Planning Guidelines were published in the newsletter "Reveille" and made available for public review between April 30, 1990 and June 30, 1990. In addition, comments on the draft Planning Guidelines were received at various comunity and other presentations and from the San Francisco Committee of the GGNRA Advisory Commission. The revised Presidio Planning Guidelines based on the public comments received are to be published in the newsletter "Presidio Update".

The main agenda item at the December 6 public hearing will be public comment on the Staff Report on Trail Designations within the Marin County portion of the Golden Gate National Recreation Area.

The Environmental Assessment on Trail Designations was presented for public comment on Thursday, April 26, 1990 at the Redwood High School Auditorium in Larkspur. The Environmental Assessment addressed the impacts of four alternative trail use designations for Marin Headlands portion of the Golden Gate National Recreation Area (GGNRA), and one designation for the GGNRA lands between Muir Beach and Sir Francis Drake Boulevard in Marin County. During the summer of 1990, a series of focused workshops were held by the National Park Service to discuss the concerns of the equestrain, bike, and hiking communities related to the alternative designations described in the Environmental Assessment.

There has been a great deal of public input and discussion of the trail designations in GGNRA in the last three years. On January 7, 1988, the first draft trail use designation plan for GGNRA was presented at a meeting of the GGNRA Advisory Commission at Fort Mason in San Francisco. Subsequently, an Ad Hoc Trails Committee studied the proposed trail plans and provided further recommendations. Separate recommendations concerning bicycle trails were also provided to the park by representatives of the bicycling community.

The Code of Federal Regulations requires that park trails are closed to bicycles in each unit of the National Park System unless a written determination is made based on a finding that such use is consistent with the protection of the park's natural, scenic, and aesthetic values, safety considerations and management objectives, and will not disturb the park's wildlife or resources.

Also included at these meetings will be a Superintendent's Report.

These meetings are open to the public. Persons wishing to receive a copy of "Presidio Update" containing the Presidio Planning Guidelines should write to the Presidio Planning Office, Building 277, Crissy Field, GGNRA, Building 201, Fort Mason, San Francisco, California 94123 or telephone (415) 556–0600.

Persons wishing to receive the Staff Report for Trail Designations within the Golden Gate National Recreation Area should contact the Staff Assistant, Golden Gate National Recreation Area, Building 201, Fort Mason, San Francisco, California 94123 or telephone (415) 556–4484.

These meetings will be recorded for documentation and transcribed for dissemination. Minutes of the meetings will be available to the public after approval of the full Advisory Commission. Transcripts will be available for the November 14 public meeting after November 29, 1990 and for the December 6 public meeting after December 20, 1990. For copies of the minutes contact the Office of the Staff Assistant, Golden Gate National Recreation Area, Building 201, Fort Mason, San Francisco, California 94123.

Dated: October 19, 1990.

Lewis Albert,

Acting Regional Director, Western Region.

[FR Doc. 90–25474 Filed 10–26–90; 8:45 am]

BILLING CODE 4310-70-M

National Capital Region; Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the National Capital Memorial Commission will be held on Thursday, November 8, 1990, at 1:30 p.m., in the 10th Floor Conference Room at the National Capital Planning Commission, 1325 G Street, NW., Washington, DC.

The Commission was established by Public Law 99–652, for the purpose of advising the Secretary of the Interior or the Administrator of the General Services Administration, depending on

which agency has jurisdiction over the lands involved in the matter, or policy and procedures for establishment of [and proposals to establish] commemorative works in the District of Columbia or its environs, as well as such other matters concerning commemorative works in the Nation's Capital as it may deem appropriate. The Commission evaluates each memorial proposal and makes recommendations to the Secretary or the Administrator with respect to appropriateness, site location and design, and serves as an information focal point for those seeking to erect memorials on Federal land in Washington, DC, or its environs.

The members of the Commission are as follows:

James Ridenour, Chairman, Director, National Park Service, Washington, DC
George M. White, Architect of the Capitol, Washington, DC
Honorable Andrew J. Goodpaster, Chairman, American Battle Monuments Commission, Washington, DC
J. Carter Brown, Chairman, Commission of Fine Arts, Washington, DC
Glen Urquhart, Chairman, National Capital Planning Commission, Washington, DC
Honorable Marion S. Barry, Jr., Mayor of the District of Columbia, Washington, DC
Honorable John Alderson, Administrator, General Services Administration, Washington, DC
Honorable Frank Carlucci, Secretary of Defense, Washington, DC

The purpose of the meeting will be to review and take action on the following:

I. Korean War Veterans Memorial (Pub. L. 99–572, October 28, 1986)—Review of the revised design.

II. Memorial to George Mason (Pub. L. 101–358 August 10, 1990)—Area I designation.

Dated: October 13, 1990.

Ronald N. Wyss,

Acting Regional Director, National Capital Region.

BILLING CODE 4310-05-M

INTERNATIONAL TRADE COMMISSION

Peanuts; Request for Comments Concerning the Institution of a Section 22(d) Investigation

AGENCY: United States International Trade Commission.

ACTION: Request for comments regarding the proposed institution of an investigation under section 22(d) of the Agricultural Adjustment Act of 1933, as amended (7 U.S.C. 624) concerning the modification, removal, or suspension of the annual import restriction currently in effect on peanuts.

SUMMARY: The Commission invites comments from the public on whether changed circumstances exist sufficient to warrant the institution of an investigation pursuant to section 22(d) of the Agricultural Adjustment Act. The purpose of the proposed investigation would be to determine whether the annual import quota on peanuts may be modified, removed, or suspended without rendering or tending to render ineffective, or materially interfering with, any program or operation undertaken by the Department of Agriculture with respect to peanuts, or reducing substantially the amount of any product processed in the United States from peanuts.

FOR FURTHER INFORMATION CONTACT: Mary Trimble (202–252–1193), Office of Investigations, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436. Hearing-impaired individuals are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on 202–252–1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202–252–1000.

Background Information

On October 12, 1990, the Commission received a request for an expedited hearing and investigation under section 22(d) of the Agricultural Adjustment Act to remove entirely the restriction currently in effect on the importation of peanuts. In addition, an immediate suspension of the quota and an authorization of imports of 400 million pounds shelled basis was requested pending the outcome of the proposed investigation by the Commission. The request was filed by the Peanut Butter and Nut Processors Association, Potomac, MD, a national trade association of manufacturers of peanut butter, roasted and salted peanuts, peanut butter cracker sandwiches, and peanut bakery products.

As indicated in the following tabulation, although the forecasts for the Virginia-North Carolina and Southwest areas are currently relatively favorable, the projections for the Southeast area, which traditionally accounts for almost two-thirds of production for the U.S. market, indicate a 30 percent production decline from 1989. This leads to an overall U.S. production forecast that is down 16 percent from 1989.

[In millions of pounds, in-shell basis]

	1988	1989	1990 (indicated)
Southeast	2,694	2,635	1,858
Southwest	679	739	795
Virginia-N. Carolina	834	816	709
Total	3,231	3,990	3,359

SOURCE: Compiled from official statistics of the U.S. Department of Agriculture

The Association asserts that domestic peanut supply is currently very tight, primarily due to drought conditions in the Southeast producing area, and that

the supply situation is exacerbated by the following circumstances: (1) Susceptibility of crops to frost before harvesting; (2) the indication by the USDA that in several Southeast area states almost 20 percent of the peanut production are found to contain aflatoxin and not eligible for edible uses (the Association contends that based on the current projection of the loss expected to occur as a result of the amount of peanuts containing aflatoxin, there will be a 360 million pound shortfall due to the quality deficiency alone); (3) an estimated 400 million pound commitment by contract to foreign destinations; (4) the lack of a 1989 peanut crop carry forward as of the beginning of the current crop year; and (5) the congressionally mandated peanut program, which restricts the right to grow and market peanuts in the United States through a quota program.

According to those peanut processors whose comments are contained in the Association's request, the in-stock supply situation is varied. Some processors have indicated that no supplies are currently available, while others have indicated that they have contracted for supplies through March 1991, although actual delivery is not assured. Processors also indicate that due to the current shortage situation, the prices of peanuts have increased 50 to 100 percent over the prices of the 1989 crop.

The Association also cites the action taken in 1960 with the increased quota of 300 million pounds as being an instance of "too little and too late". It explains that the quota was filled well in advance of the July 31, 1961 cutoff date and orders arriving in June and early July 1961 were refused entry. In addition, the Association contends that "meaningful amounts" did not arrive until March 1961.

Written Comments Requested

The Commission requests comments concerning whether alleged changed circumstances are sufficient to warrant an institution of a section 22(d) investigation regarding modification, removal, or suspension of the quantitative import restriction on peanuts. In accordance with § 201.8 of the Commission's rules (19 CFR 201.8), the signed original and 14 copies of all written submissions must be filed with Secretary to the Commission, 500 E Street SW., Washington, DC 20436. All comments must be filed no later than 14 days after the date of publication of this notice in the **Federal Register**. Any person desiring to submit a document (or portion thereof) to the Commission in confidence must request business confidential treatment under § 201.6 of the Commission's rules (19 CFR 201.6). Such requests should be directed to the Secretary to the Commission and must include a full statement of the reasons why the Commission should grant such treatment. Each sheet must clearly be marked at the top "Confidential Business Information." The Commission will either accept the submission in confidence or return it. All nonconfidential submissions will be available for public inspection in the Office of the Secretary.

Copies of the request for a hearing and investigation and any other documents in this matter are available for public inspection during regular business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary to the Commission; telephone 202–252–1000.

By order of the Commission.

Issued: October 23, 1990.

Kenneth R. Mason,

Secretary.

BILLING CODE 7020–02–M

DEPARTMENT OF JUSTICE

Information Collections Under Review

October 24, 1990

The Office of Management and Budget (OMB) has been sent the following collection(s) of information proposals for review under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35) and the Paperwork Reduction Reauthorization Act since the last list was published.

Entries are grouped into submission categories, with each entry containing the following information:

(1) The title of the form/collection;

(2) The agency form number, if any, and the applicable component of the Department sponsoring the collection;

(3) How often the form must be filled out or the information is collected;

(4) Who will be asked or required to respond, as well as a brief abstract;

(5) An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond;

(6) An estimate of the total public burden (in hours) associated with the collection; and,

(7) An indication as to whether section 3504(h) of Public Law 96–511 applies.

Comments and/or suggestions regarding the item(s) contained in this notice, especially regarding the estimated public burden and associated response time, should be directed to the OMB reviewer, Mr. Edward H. Clarke, on (202) 395–7340 *and* to the Department of Justice's Clearance Officer, Mr. Larry E. Miesse, on (202) 514–4312.

If you anticipate commenting on a form/collection, but find that time to prepare such comments will prevent you from prompt submission, you should notify the OMB reviewer *and* the DOJ Clearance Officer of your intent as soon as possible.

Written comments regarding the burden estimate or any other aspect of the collection may be submitted to Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503, *and* to Mr. Larry E. Miesse, DOJ Clearance Officer, SPS/JMD/5031 CAB, Department of Justice, Washington, DC 20530.

Extension of Expiration Date of a Currently Approved Collection Without any Change in Substance or in Method of Collection

(1) *Certification of Satisfactory Pursuit.*

(2) I–699, Immigration and Naturalization Service.

(3) On occasion.

(4) Individuals or households, State or local governments, businesses or other for-profit, non-profit institutions, small businesses or organizations. In compliance with Public Law's 99–603 and 100–204, section 902 (specifically 8 CFR 245a.3(b)(10)(a)), the INS will use this form to verify that certified course provider has supplied the required instruction to temporary resident aliens.

(5) 250,000 estimated responses at .166 hours per response.

(6) 41,500 estimated annual public burden hours.

(7) Not applicable under 3504(h).

(1) *National Judical Reporting Program, Felony Sentence Report.*

(2) NJRP–1, Bureau of Justice Statistics.

(3) Biennially.

(4) State or local government. Used to conduct a continuing survey to enumerate and describe sentences of adult felons in general jurisdiction courts. Respondents are personnel in State and local general jurisdiction courts selected for sample.

(5) 100,000 annual respondents at .03485 hours per response.

(6) 3,485 estimated annual public burden hours.

(7) Not applicable under 3504(h).

(1) *Justice Assistance Data/Survey of Civil and Criminal Justice Activities.*

(2) CJ–6, CJ–23, Bureau of Justice Statistics.

(3) Biennially.

(4) State or local governments. This survey will collect data from State or local governments needed to comply with grant allocation procedures mandated by the Congress under the Justice Assistance Improvement Act of 1984, as amended by the Anti-Drug Act of 1988. These data will be used to administer the grant program and provide descriptive data to policymakers, planners and practitioners.

(5) 10,000 annual respondents at .475 hours per response.

(6) 4,750 estimated annual public burden hours.

(7) Not applicable under 3504(h).

Revisions of Currently Approved Collections

(1) *Application To Adjust Status From Temporary to Permanent Resident.*

(2) I-698, Immigration and Naturalization Service.

(3) One time only.

(4) Individuals or households. In compliance with Public Law's 99-603 and 100-204, section 902, the INS will accept and review applications from temporary resident aliens to adjust their status to permanent residence. This form will collect the necessary information to adjudicate the application and issue an alien registration card.

(5) 300,000 annual respondents at 1 hour per response.

(6) 300,000 estimated annual public burden hours.

(7) Not applicable under 3504(h).

(1) *Interagency Record of Individual Requesting Change/Adjustment to, or From, A or G Status or Requesting A or G Dependent Employment Authorization.*

(2) I-566, Immigration and Naturalization Service.

(3) On occasion.

(4) Individuals or households. This form facilitates processing applicants for benefits filed by diplomatic and international organizational personnel, or by persons requesting such status. The data assists the Department of State and the INS in exercising joint adjudicative responsibility in such matters, replacing the I-86 and previous edition I-566.

(5) 3,000 annual respondents at .25 hours per response.

(6) 750 estimated annual public burden hours.

(7) Not applicable under 3504(h).

(1) *Certification by Designating School Official.*

(2) I-538, Immigration and Naturalization Services.

(3) On occasion.

(4) Individuals or households, businesses or other for-profit, non-profit institutions. Form is provided for by Section 101(a)(15) of the Immigration and Nationality Act and is submitted by a nonimmigration student as a supporting document to an application for employment authorization, extension of stay, or school transfer.

(5) 150,000 annual respondents at .083 hours per response.

(6) 12,450 estimated annual public burden hours.

(7) Not applicable under 3504(h).

New Collection

(1) *Drug Use Information for Sensitive Positions.*

(2) DEA-500, Drug Enforcement Administration.

(3) On occasion.

(4) Individuals or households. Information is needed to determine any use of illicit drugs cited in the Controlled Substances Act of 1970, by an individual selected for a job vacancy, prior to employment.

(5) 2,000 annual respondents at .25 hours per response.

(6) 500 estimated annual public burden hours.

(7) Not applicable under 3504(h).

Larry E. Miesse,

Department Clearance Officer, U.S. Department of Justice.

BILLING CODE 4410-10-M

Lodging of Consent Decree; Ben Hardy, et al.

In accordance with Department policy, 28 CFR 50.7, notice is hereby given that on October 18, 1990, a proposed Consent Decree in *United States* v. *Ben Hardy, et al.*, was lodged with the United States District Court for the Western District of Kentucky. The complaint in this action seeks recovery of costs under Section 107 of the Comprehensive Environmental Response, Compensation and Liability Act, as amended by the Superfund Amendments and Reauthorization Act of 1986, Public Law 99-499, 42 U.S.C. 9607. This action concerns the Lee's Lane Landfill Superfund Site near Louisville, Kentucky.

Under the proposed Consent Decree, twenty-three of the twenty-six defendants will pay $2,459,290.00 to reimburse the Superfund for costs incurred by the United States in performing certain response actions at the Lee's Lane Landfill Superfund Site. The Decree reserves the right of the United States to recover future costs except, under certain circumstances, the first $500,000 incurred by the United States and/or the Commonwealth of Kentucky in conducting operation and maintenance activities, and to seek injunctive relief from the settling defendants. The United States will seek unreimbursed costs from defendants who are not signatories to the Consent Decree.

The Department of Justice will receive for a period of thirty (30) days from the date of this publication comments concerning the proposed Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, U.S. Department of Justice, P.O. Box 7611, Ben Franklin Station, Washington, DC 20044, and should refer to *United States* v. *Ben Hardy, et al.*, D.J. Ref. 90-11-3-215.

The proposed Consent Decree may be examined at any of the following offices: (1) The Office of the United States Attorney for the Western District of Kentucky, 10th Floor, Bank of Louisville Bldg., 510 West Broadway, Louisville, Kentucky (2) the U.S. Environmental Protection Agency, Region 4, 345 Courtland Street NE., Atlanta, Georgia; and (3) the Environmental Enforcement Section, Environment & Natural Resources Division, U.S. Department of Justice, 10th & Pennsylvania Avenue NW., Washington, DC. Copies of the proposed Decree may be obtained by mail from the Environmental Enforcement Section Document Center, 1333 F Street NW., suite 600, Washington, DC (Telephone: (202) 347-2072). Please enclose a check for $11.00 ($.25 per page reproduction charge) payable to "Consent Decree Library."

Barry M. Hartman,

Acting Assistant Attorney General, Environment & Natural Resources Division.

BILLING CODE 4410-01-M

DEPARTMENT OF LABOR

Employment and Training Administration

Investigations Regarding Certifications of Eligibility To Apply for Worker Adjustment Assistance

Petitions have been filed with the Secretary of Labor under section 221(a) of the Trade Act of 1974 ("the Act") and are identified in the appendix to this notice. Upon receipt of these petitions, the Director of the Office of Trade Adjustment Assistance, Employment and Training Administration, has

instituted investigations pursuant to section 221(a) of the Act.

The purpose of each of the investigations is to determine whether the workers are eligible to apply for adjustment assistance under title II, chapter 2, of the Act. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

The petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than November 8, 1990.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than November 8, 1990.

The petitions filed in this case are available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Employment and Training Administration, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, DC 20210.

Signed at Washington, DC, this 15th day of October 1990.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

BILLING CODE 4510-30-M

Employment Service Reform Initiative; Reopening and Extension of Comment Period

AGENCY: Employment and Training Administration, Labor.

ACTION: Notice; reopening and extension of comment period.

SUMMARY: On September 19, 1990 (55 FR 38636), the Employment and Training Administration (ETA) published in the **Federal Register** for notice and comment the Secretary's Employment Service (ES) Reform Initiative. The notice summarized the objectives of the Initiative and set forth the concerns which lie behind the Initiative. The ETA sought public comment, recommendations and/or suggestions in response to six specific questions about what the ES should be, whom the ES should serve, and how it can most effectively fulfill its mission.

ETA has received a number of comments requesting additional time to study and comment on the key issues, and has determined to reopen and extend the comment period through November 2, 1990.

DATES: The comment period on the ES Reform Initiative published at 55 FR 38636 (September 19, 1990) is reopened and extended and comments are invited to be received by November 2, 1990.

ADDRESSES: Comments shall be mailed to Roberts T. Jones, Assistant Secretary for Employment and Training, U.S. Department of Labor, 200 Constitution Avenue, NW., room N-4470, Washington, DC 20210, Attention: Robert A. Schaerfl, Director, U.S. Employment Service.

FOR FURTHER INFORMATION CONTACT: Robert A. Schaerfl, Director, U.S. Employment Service, Employment and Training Administration, Telephone: (202) 535-0157 (this is not a toll free number).

Signed at Washington, DC, this 15th day of October, 1990.

Roberts T. Jones,

Assistant Secretary for Employment and Training.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 90-98]

NASA Advisory Council (NAC), Space Science and Applications Advisory Committee (SSAAC); Space Station Science and Applications Advisory Subcommittee (SSSAAS); Meeting

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of meeting change.

FEDERAL REGISTER CITATION OF PREVIOUS ANNOUNCEMENT: 55 FR 41907, Notice Number 90-81, October 16, 1990.

PREVIOUSLY ANNOUNCED DATES, TIMES AND ADDRESS OF MEETING: October 29, 1990, 8:30 a.m. to 10 p.m.; October 30, 1990, 8 a.m. to 10 p.m.; and October 31, 1990, 8 a.m. to 2 p.m.; Greenbelt Marriott Hotel, 6400 Ivy Lane, Greenbelt, MD 20770.

CHANGES IN THE MEETING: Dates and times changed to November 28, 1990, 8:30 a.m. to 10 p.m.; November 29, 1990, 8 a.m. to 10 p.m.; and November 30, 1990, 8 a.m. to 2 p.m. Address changed to National Aeronautics and Space Administration, Room 226A, 600 Independence Avenue SW., Washington, DC 20546.

FOR FURTHER INFORMATION CONTACT: Mr. Robert C. Rhome, Code S, National Aeronautics and Space Administration, Washington, DC 20546 (202/453-1425).

Dated: October 24, 1990.

John W. Gaff,

Advisory Committee Management Officer, National Aeronautics and Space Administration.

[FR Doc. 90-25042 Filed 10-26-90; 8:45 am]

BILLING CODE 7510-01-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-346]

Toledo Edison Co.; The Cleveland Electric Illuminating Co., Environmental Assessment and Finding of no Significant Impact

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. NPF-3, issued to Toledo Edison Company and The Cleveland Electric Illuminating Company (the licensees), for operation of the Davis-Besse Nuclear Power Station, Unit No. 1 located in Ottawa County, Ohio.

Environmental Assessment

Identification of Proposed Action

The proposed amendment would add the Centerior Service Company as a licensee in the Facility Operating License for Davis-Besse Nuclear Power Station, Unit 1 (DBNPS).

The proposed addition would authorize both the Toledo Edison Company and Centerior Service Company to act as agent for the Cleveland Electric Illuminating Company, and have exclusive responsibility and control over the construction, operation and maintenance of the facility. It also specifies that the Toledo Edison nuclear organization reports to the existing Centerior Service Company.

The proposed action is in accordance with the licensee's application for amendment dated July 17, 1990.

The Need for the Proposed Action

The proposed changes are needed to reflect the reorganization of the Centerior Energy Corporation, its operating company subsidiaries—The Cleveland Electric Illuminating Company and The Toledo Edison Company, and its existing service company subsidiary—Centerior Service Company. These changes also define the reporting mechanism with regard to Davis-Besse Nuclear Power Station in the new organization.

Environmental Impacts of the Proposed Action

The proposed changes would add Centerior Service Company as a licensee in the Davis-Besse Facility Operating License. Under this reorganization, Toledo Edison's nuclear organization reports to Centerior Service Company. These two companies act as agents for the Cleveland Electric Illuminating Company and have exclusive responsibility and control over the construction, operation and maintenance of the Davis-Besse plant. There will be no changes to the facility, to the operations, maintenance, engineering, nuclear-related personnel or the environment as a result of the license amendment. Accordingly, the Commission concludes that this action would result in no radiological or non-radiological environmental impact.

The Notice of Consideration of Issuance of Amendment and Opportunity for Hearing in connection with this action was published in the Federal Register on September 10, 1990 (55 FR 36806). No request for hearing or petition for leave to intervene was filed following this notice.

Alternatives to the Proposed Action

Since the Commission concluded that the environmental effects of the proposed action are not significant, any alternative with equal or greater environmental impacts need not be evaluated.

The principal alternative would be to deny the requested amendment. This would not reduce the environmental impacts attributable to this facility and would result in the Facility Operating License not reflecting the latest organization and management chains involving Toledo Edison Company, Centerior Service Company and Davis-Besse Nuclear Power Station.

Alternative Use of Resources

This action does not involve the use of any resources not previously considered in the Final Environmental Statement related to operation of the Davis-Besse facility.

Agencies and Persons Consulted

The NRC staff reviewed the licensee's request and did not consult other agencies or persons.

Finding of no Significant Impact

The Commission has determined not to prepare an environmental impact statement for the proposed license amendment. Based upon the foregoing environmental assessment, we conclude that the proposed action will not have a significant effect on the quality of the human environment.

For further details with respect to this action, see the application for amendment dated July 17, 1990, which is available for public inspection at the Commission's Public Document Room, 2120 L Street, NW., Washington, DC and at the University of Toledo Library, Documents Department, 2801 Bancroft Avenue, Toledo, Ohio 43606.

Dated at Rockville, Maryland, this 23rd day of October 1990.

For the Nuclear Regulatory Commission.

John N. Hannon,

Director, Project Directorate III-3, Division of Reactor Projects—III, IV, V and Special Projects, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-M

SECURITIES AND EXCHANGE COMMISSION

Requests Under Review by Office of Management and Budget

Agency Clearance Officer: Kenneth A. Fogash (202) 272-2142.

Upon written request copy available from: Securities and Exchange Commission, Public Reference Branch, Washington, DC 20549–1002.

Extension, Rule 17f–2(d), File No. 270–36

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et.seq.*), the Securities and Exchange Commission has submitted for extension of OMB approval Rule 17f–2(d) [17 CFR 240.17f–2(d)] promulgated under the Securities Exchange Act of 1934 [15 U.S.C. 78 *et. seq.*], which generally requires covered entities or their designated examining authorities to keep fingerprint cards (or microfilm copies) together with criminal histories (if any) returned by the FBI to the entities. A total of 9,000 respondents produce an annual total of 7,500 burden hours in complying with rule 17f–2(d).

Direct general comments to Gary Waxman at the address below. Direct any comments concerning the accuracy of the estimated average burden hours for compliance with the Securities and Exchange Commission rules and forms to Kenneth A. Fogash, Deputy Executive Director, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549–0004 and Gary Waxman, Clearance Officer, Office of Management and Budget (Paperwork Reduction Project 3235–0028), Room 3208, New Executive Office Building, Washington, DC 20503.

October 23, 1990.

Margaret H. McFarland,

Deputy Secretary.

[FR Doc. 90–25515 Filed 10–25–90; 8:45 am]

BILLING CODE 8010–01–M

Self-Regulatory Organizations; Application for Unlisted Trading Privileges and of Opportunity for Hearing; Boston Stock Exchange, Inc.

October 23, 1990.

The above named national securities exchange has filed applications with the Securities and Exchange Commission ("Commission") pursuant to section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f–1 thereunder for unlisted trading privileges in the following security:

Nike, Inc.

Class B Common Stock, No Par Value
(File No. 7–6364)

This security is listed and registered on one or more other national securities exchange and is reported in the consolidated transaction reporting system.

Interested persons are invited to submit on or before November 14, 1990, written data, views and arguments concerning the above-referenced application. Persons desiring to make written comments should file three copies thereof with the Secretary of the Securities and Exchange Commission, 450 5th Street, NW., Washington, DC 20549. Following this opportunity for hearing, the Commission will approve the application if it finds, based upon all the information available to it, that the extensions of unlisted trading privileges pursuant to such applications are consistent with the maintenance of fair and orderly markets and the protection of investors.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Jonathan G. Katz,

Secretary.

[FR Doc. 90–25513 Filed 10–26–90; 8:45 am]

BILLING CODE 8010–01–M

[Rel. No. 34–28366; File No. SR–CBOE–90–20]

Self-Regulatory Organizations; Filing and Order Granting Accelerated Approval of Proposed Rule Change by the Chicago Board Options Exchange, Inc., Relating to the Extension of Eligibility Standards for OEX RAES

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"), 15 U.S.C. 78s(b)(1), notice is hereby given that on October 22, 1990, the Chicago Board Options Exchange, Inc. ("CBOE" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed ruled change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange has established eligibility requirements that market makers must meet in order to participate on the Exchange's Retail Automatic Execution System ("RAES") for options on the Standard and Poor's 100 Index ("OEX").[1] These eligibility requirements, that were approved by the Commission on a pilot basis, previously have been extended by the Commission.[2] In the current filing, the CBOE seeks a further extension, until April 22, 1991, of its eligibility standards for market makers to participate on RAES for OEX options.

The text of the Exchange's market maker eligibility requirements for OEX RAES is available at the Office of the Secretary, CBOE and at the Commission.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below and is set forth in sections A, B, and C below.

A. Self-Regulatory Organization's Statements of the Purpose of, and Statutory Basis, for the Proposed Rule Change

In October 1989, the Commission approved on a pilot basis a CBOE proposal to amend the Exchange's eligibility standards for individuals and groups to participate in RAES for OEX. The pilot program restricts RAES OEX participation to market makers who are members of the OEX or Standard & Poor's 500 Index Option ("SPX") trading crowds by requiring that an eligible market maker execute 50% of its market maker contracts for the preceding quarter in OEX or SPX, and execute 25% of these trades in person. A member must meet these requirements before the member may participate in RAES individually or as a member of a group and the Index Floor Procedure Committee ("IFPC") may bar, restrict or condition a group account's participation in RAES if any member of the group fails to meet OEX/SPX market maker requirements.

The pilot program also modifies the eligibility requirements for group accounts operating on RAES and imposes additional obligations on group accounts by prohibiting the "purchasing" of RAES rights from an OEX or SPX market maker and by requiring that all OEX/RAES group participants be afforded a reasonable

---

[1] The Commission approved the CBOE's current RAES eligibility standards on a six-month pilot basis on October 24, 1989. *See* Securities Exchange Act Rel. No. 27378 (October 24, 1989), 54 FR 46168 (order approving File SR–CBOE–87–22, Amendment No. 2).

[2] *See* Securities Exchange Act Rel. No. 27854 (April 27, 1990), 55 FR 18798.

participation in the group's profits and losses. In addition, no member may participate directly or indirectly in more than one OEX/RAES group, and a group may be managed only by a member of the group. The program also specifies the maximum number of allowable participants in any one RAES group account and clarifies the authority of the IFPC to limit group sizes.

Once a group account has been logged onto RAES, all members of the group are required to remain on RAES until the next monthly expiration. Group participants may be relieved of their RAES obligations only with the approval of the IFPC. In addition, the IFPC may impose a sign off fee of $500.00 per member when a group account improperly signs off RAES.

The pilot program also provides the IFPC with the additional authority to ensure adequate RAES participation in OEX by allowing the IFPC to require market makers who are members of the OEX trading crowd to log on RAES if the IFPC believes there is inadequate RAES participation in OEX, absent reasonable justification or excuse for non-participation. If RAES participation continues to be inadequate, the IFPC may request participation of all market makers whether or not they are members of the OEX trading crowd.

Since implementation of the pilot program, the Exchange has found that the pilot program's rules have resulted in adequate market maker participation in RAES, while limiting the system to those market makers necessary for its operation. In particular, since January 1990, the Exchange indicates that OEX RAES has accounted for 22% to 28% of the total monthly OEX customer business. The Exchange notes from January 1990 to September 1990, the average number of market makers signed on RAES for each month has ranged between 109 and 183 market makers.[3] Further, the Exchange notes that 14 group accounts, representing 100 market makers, have participated on OEX RAES during this period, with the remaining OEX RAES participants being individual market makers who have signed onto OEX RAES for their own account.

The CBOE notes that, since the establishment of the eligibility requirements, the Exchange's IFPC has had to take action against market maker groups and individuals regarding their participation on OEX RAES, but only on a limited basis. Specifically, the IFPC has brought action against two groups for improperly signing off OEX RAES. Pursuant to the new eligibility provisions, the IFPC also has taken action to suspend 48 individual market makers from OEX RAES for their failure to sign onto OEX RAES on Expiration Fridays. In each instance, the market maker was precluded from participating on OEX RAES for one month.

Additionally, the IFPC has removed 53 market makers from groups participating in OEX RAES because of their failure to meet the requirement that market makers participating on OEX RAES must execute 50% of their market maker contracts for the preceding quarter in OEX or SPX, and execute 25% of these trades in person. The Exchange notes, however, that 47 of these suspensions occurred in January 1990, the first month that the requirements were in effect.

Accordingly, the Exchange believes that the eligibility standards requirements for market makers to participate on OEX RAES have been very effective. Specifically, the Exchange believes that the level of market maker participation in OEX RAES since the adoption of the eligibility requirements has been adequate and these standards have helped the Exchange to maintain a fair and orderly OEX market and to protect investors by ensuring the continued availability of OEX RAES to public customers. Although some IFPC action has been necessary to enforce the new eligibility requirements, the Exchange feels that the RAES System has not encountered any significant problems due to the enforcement of the market maker eligibility standards. Therefore, the Exchange believes it is appropriate to extend the OEX RAES eligibility standards for an additional six months, until April 22, 1991.

The Exchange believes that the proposed rule change is consistent with section 6(b) of the Act in that it will facilitate transactions in securities and protect investors and the public interest. In particular, the Exchange believes that the proposed rule change furthers the objectives of section 6(b)(5) which provides, among other things, that the rules of the Exchange are to be designed to promote just and equitable principles of trade and to protect investors and the public interest.

B. Self-Regulatory Organizations Statement on Burden on Competition

The CBOE does not believe that the proposed rule change will impose any burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The Exchange requests that the proposed rule change be given accelerated effectiveness pursuant to section 19(b)(2) of the Act.

The Commission finds that the proposed rule change to extend the pilot program is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange, and, in particular, the requirements of section 6 thereunder.[4] In particular, the Commission finds that the extension of the pilot is consistent with section 6(b)(5) of the Act because the requirements are designed to strengthen the integrity of the RAES system for OEX options, thereby contributing to the maintenance of fair and orderly markets and the protection of investors. The presence of an adequate number of market makers helps the Exchange to maintain the continued availability of RAES for OEX and thus contribute to the effective execution of public investor orders at the best available prices. Although some market makers no longer participate in OEX RAES because they do not meet the eligibility requirements, the Commission believes that the level of market maker participation on OEX RAES since the adoption of the new eligibility requirements has been sufficient.[5] In addition, the Commission believes that the actions of the Exchange to enforce the new eligibility standards have strengthened the integrity of OEX RAES without jeopardizing its continued availability.

The Commission finds good cause for approving the proposed rule change prior to the thirtieth day after the date of publication of notice thereof in the **Federal Register** in order to permit the pilot program to continue uninterrupted. In addition, because there have been no adverse comments concerning the pilot program since its implementation and because of the importance of maintaining the quality and efficiency of the CBOE's markets, the Commission believes good cause exists to approve

[3] Specifically, the average number of market makers signed on OEX RAES for the months January 1990 to September 1990 have been 183, 109, 116, 138, 145, 180, 144, 139 and 132, respectively.

[4] 15 U.S.C. 78f(6) (1982).

[5] The Commission is reviewing the performance of the options markets during the market volatility of October 1989, and may have further recommendations for RAES based on that review.

the extension of the pilot program on an accelerated basis.[6]

V. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC 20549. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted by November 19, 1990.

It is therefore ordered, pursuant to section 19(b)(2) of the Act,[7] that the proposed rule change (SR–CBOE–90–25) relating to the extension of a pilot program is approved until April 22, 1991.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.[8]

Dated: October 23, 1990.

Margaret H. McFarland,

Deputy Secretary.

[Release No. 34-28667; File No. SR-NSCC-90-20]

Self-Regulatory Organizations; National Securities Clearing Corporation; Proposed Rule Change Relating to Changes in its Standard Letter of Credit Form

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"), 15 U.S.C. 78s(b)(1), notice is hereby given that on October 5, 1990, the National Securities Clearing Corporation ("NSCC") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which items have been prepared by NSCC. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The proposed rule change would revise NSCC's standard letter of credit form to clarify NSCC's right to pledge letters of credit deposited by clearing members to satisfy their clearing fund contribution requirements.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, NSCC included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. NSCC has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

NSCC wishes to revise the standard letter of credit form that it requires be used by approved banks issuing letters of credit on behalf of its members as clearing fund collateral. Based on discussions with its lead bank, NSCC believes that these changes will enhance its liquidity position by providing it, through an arrangement similar to that used by its affiliate, the Government Securities Clearing Corporation, with the ability to more readily pledge letter of credit collateral to meet temporary financing needs.

The basic change made will be to have the standard letter of credit state on its face that NSCC may transfer and assign to a bank transferee the right to draw the entire amount of the letter of credit upon presentation to the issuing bank of an executed transfer and assignment form. In order to ensure that the transfer and pledge of letter of credit collateral does not impair a member's rights to its clearing fund collateral, as set forth in NSCC's rules, the bank transferee will, by agreement with NSCC, be able to draw down on the letter of credit only under certain limited circumstances; essentially, the circumstances are if requested by NSCC or if NSCC defaults on its borrowing obligation that is secured by the letter of credit. As a further protection, the revised letter of credit will expressly provide that the bank transferee would not be able to assign or transfer the letter of credit except to transfer it back to NSCC.

In conjunction with ensuring that the standard letter of credit is readily transferable and to remove any pre-conditions that would raise question as to such, the letter of credit will be revised to delete the requirement that NSCC at the time of a drawdown must present to the issuing bank a signed statement certifying, in effect, that the amount of the drawdown does not exceed the amount necessary to satisfy the member's liabilities to NSCC after first applying to such liabilities clearing fund assets in the form of cash and securities and that the member has failed to meet an obligation to NSCC that permits such drawdown.

The proposed changes will help ensure the ability of NSCC to meet its temporary liquidity needs and, thus, are consistent with the requirements of section 17A of the Act and the rules and regulations thereunder.

B. Self-Regulatory Organization's Statement on Burden on Competition

NSCC does not believe that the proposed rule change will have an impact or impose a burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

Comments on the proposed changes have not yet been solicited or received. Members will be notified of the rule filing, and comments will be solicited by an Important Notice. NSCC will notify the Securities and Exchange Commission of any written comments received by NSCC.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the Federal Register or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents; the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statement with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC 20549.

Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to file number (SR–NSCC–90–20) and should be submitted by November 19, 1990.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Dated: October 23, 1990.

Margaret H. McFarland,

Deputy Secretary.

[FR Doc. 90–25511 Filed 10–26–90; 8:45 am]

BILLING CODE 8010-01-M

[Rel. No. 34-28804; File No. SR-NYSE-90-49]

Self-Regulatory Organizations; Filing and Order Granting Accelerated Approval of Proposed Rule Change by New York Stock Exchange, Inc., Relating to Extension of the Effectiveness of Auxiliary Closing Procedures for Expiration Fridays for an Additional Year

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"), 15 U.S.C. 78s(b)(1), notice is hereby given that on October 9, 1990 the New York Stock Exchange, Inc. ("NYSE" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange seeks to extend the pilot program for auxiliary closing procedures utilized on "expiration Fridays" for market-on-close ("MOC") orders associated with the expiration and settlement of stock index futures, stock index options, and options on stock index futures.[1]

II. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item III below and is set forth in sections A, B, and C below.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

(a) Purpose

Since September 1988, the Exchange has utilized auxiliary closing procedures on days when stock index futures, stock index options and options on stock index futures (collectively, "derivative instruments") expire or settle concurrently. Since November, 1988, the Exchange has used these auxiliary closing procedures for each monthly expiration Friday. These procedures currently require the entry by 3 p.m. of all MOC orders in positions relating to any strategy involving any index derivative product.[2] The procedures also require the specialist to make public MOC order imbalances of 50,000 shares or more in the so-called pilot stocks[3] as soon as possible after 3 p.m. and then again after 3:30 p.m. Any MOC orders entered after 3 p.m. must offset a published imbalance.

The Commission granted approval of the pilot period for these closing procedures discussed above in Release No. 34-26408, and renewed the extension of the pilot in Release No. 34-27448, dated November 16, 1989.[4] At the time these procedures were filed, the Exchange had hoped that during the pilot year all options and futures markets would base the settlement price of their derivative products on opening, rather than on closing, Exchange prices.

As the settlement price of certain derivative products continues to be based on closing NYSE prices, the Exchange believes it is appropriate to extend the pilot program for auxiliary closing procedures on expiration Fridays for another year. These procedures have proven to be an effective means of reducing some of the excess market volatility which may result from entering MOC orders related to trading strategies involving index derivative products. Accordingly, the Exchange is seeking at this time to continue to use these procedures on expiration Fridays.

The Exchange continues to believe, however, that concerns about excess market volatility that may be associated with the expiration or settlement of derivative index products would be most appropriately addressed if the expiration or settlement value of all such products were based on the NYSE opening rather than the closing price on the last business day prior to the expiration or settlement of the product.

(b) Statutory Basis

The statutory basis under the Act for this proposed rule change is section 6(b)(5), which requires that the rules of the Exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and, in general, to protect investors and the public interest.

B. Self-Regulatory Organizations's Statement on Burden on Competition

The Exchange does not believe that the proposed rule changes will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement of Comments on the Proposed Rule Change Received from Members, Participants or Others

The Exchange has neither solicited nor received written comments on the proposed rule change.

III. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street NW., Washington, DC 20549. Copies of such filing will also be available for inspection and copying at the principal office of the NYSE. All submissions should refer to File No. SR-HYSE-90-49 and should be submitted by November 19, 1990.

---

[1] These procedures were approved by the Commission on a pilot basis for a one year period beginning in November, 1988 and extending through October, 1989, and then were extended for an additional year through October, 1990. *See* Securities Exchange Act Releases No. 26293 (November 17, 1988), 53 FR 47809; No. 26408 (December 29, 1988), 54 FR 343 (approving File No. SR-NYSE-88-37); and No. 27448 (November 16, 1989), 54 FR 48343 (approving File No. SR-NYSE-89-39).

[2] The cut-off time for the pilot program was changed from 3:30 to 3:00 in Securities Exchange Act Rel. No. 27040 (July 17, 1989), 54 FR 30808 (approving File No. SR-NYSE-89-11).

[3] The expiration Friday procedures apply to 82 pilot stocks on a list consisting of the 50 highest-weighted Standard & Poor's 500 index stocks, based on market values, and any of the 20 Major Market Index stocks not among the 50 highest-weighted stocks.

[4] *See* note 1, *supra*.

IV. Commission's Findings and Order Granting Accelerated Approval of Proposed Rule Change

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange, and, in particular, the requirements of Section 6 [5] and the rules and regulations thereunder. The MOC procedures described herein have been utilized on previous quarterly expirations dating back to September 1986 and on monthly expirations on a pilot basis since November 1988.[6] These procedures were part of efforts by the Commission and the self-regulatory organizations to address stock market volatility associated with the expiration of index derivative products traded in conjunction with stocks as part of index derivative instrument trading strategies. By requiring early submission of MOC orders and disseminating imbalances, the NYSE has been better able to attract contra-side interest to help alleviate imbalances caused by the liquidation of stock positions related to index derivative product trading strategies. As long as some index derivative products continue to expire based on closing stock prices on expiration Fridays, the Commission agrees with the NYSE that such procedures are necessary to provide a mechanism to handle the huge imbalances that can be engendered by firms unwinding index derivative related positions.

The Commission finds good cause for approving the proposed rule change prior to the thirtieth day after the date of publication of notice of filing thereof. This will permit the pilot program to continue on an uninterrupted basis, and will allow the Exchange to apprise interested parties of the pilot program extension in advance of the November, 1990 expiration. In addition, the procedures proposed here are the identical procedures utilized by the NYSE on earlier expirations, and are intended to reduce excessive market volatility at the close.[7]

It is therefore ordered, pursuant to section 19(b)(2) of the Act,[8] that the proposed rule change is approved for a one-year period ending on October 31, 1991.

For the Commission, by Division of Market Regulation, pursuant to delegated authority.[9]

Dated: October 22, 1990.

[FR Doc. 90-25457 Filed 10-26-90; 8:45 am]
BILLING CODE 8010-01-M

[Release No. 34-28345; File No. SR-PHLX 90-28]

Self-Regulatory Organizations; Proposed Rule Change by the Philadelphia Stock Exchange, Inc. Relating to Proposed Amendments to Options Floor Procedure Advices B-4 and F-5

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"), 15 U.S.C. 78s(b)(1), notice is hereby given that on October 2, 1990, the Philadelphia Stock Exchange, Inc. ("PHLX" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The PHLX, pursuant to Rule 19b-4 of the Act, hereby proposes to amend two of its Floor Procedure Advices promulgated under PHLX Rule 970. The text of the proposed advices—B-4 and F-5—is attached hereto, as Exhibit A, with additions in italics and deletions bracketed.

II. Self-Regulatory Organization's Statement of the Purpose of and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statements of the Purpose of, and Statutory Basis for the Proposed Rule Change

The proposed rule change relates to two housekeeping changes to existing Exchange Options Floor Procedure Advices ("OFPA" or "Advice"). Accordingly, no changes are being made to any Advice fine schedule.

The first change relates to OFPA B-4 regarding trading from off-floor. The amendments would assure that the Advice is consistent with recent proposed amendments to the Exchange's options party and priority rule, Rule 1014. (*See* SR-PHLX-90-20 and OFPA B-6 for equity options, *see also* SR-PHLX-90-21 and OFPA B-7 for foreign currency options). For example, the amendments would delete material found in the last substantive text paragraph of the advice, which is clearly now to be covered by Rule 1014 as well as its related amendments and floor procedure advices.

Secondly, the amendments clarify the meaning of OFPA F-5 relating to changes or corrections to material terms of a cleared trade. A change in a material term of the transaction will now include a change in designation from customer to firm participation. Additionally, the amendments indicate that the signature of an Exchange surveillance staff member on a correction sheet submission only acknowledges a party to the trade's absence in reviewing and signing the sheet.

The proposed rule change is based on section 6(b)(5) of the Act in that it is designed to further promote the mechanism of a free and open market and to protect investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The PHLX does not believe that the proposed rule change will impose any burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the Federal Register or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such

longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or,

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC 20549. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to File No. SR–PHLX–90–28 and should be submitted by November 19, 1990.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

Dated: October 22, 1990.

Margaret H. McFarland,

Deputy Secretary.

Exhibit A

B–4 [Trading from Off-Floor]

PHLX ROTs Entering Orders from On-Floor and Off-Floor for Execution on the Exchange

[A Registered Options Trader] *An ROT* may not enter from off the floor opening orders for his market maker account[. A Registered Options Trader may only], *but may* enter from off the floor *or on the floor* opening *or closing* orders for *his* [their] customer account. *An ROT may enter from off the floor closing orders for either his market maker or customer account.*

[A Registered Options Trader may enter] *An ROT who enters an order* from off the floor [closing orders for either his market maker or customer account.] *must advise the person receiving the order that it is an order for an ROT and must state whether the order is opening or closing and whether it is for a customer or market maker account.*

[For purposes of priority and parity, an order which is placed from off the floor by a Registered Options Trader who has been on the floor on the same day is to be treated as an on-floor order by the Registered Options Trader. If this order is an opening order, it must yeild to other customer orders.]

[A Registered Options Trader who enters an order from off the floor must tell his phone clerk whether such order is opening or closing and whether it is for a customer or market maker account.]

While on the floor, [a Registered Options Trader] *an ROT* may [enter Good-til-Cancelled ("GTC" orders] *place opening orders for his market maker account* with a Floor Broker or with *a* [the] Specialist which [would, if executed open a position in his market maker account, and such orders] may *then* be excuted [for the market maker account] even if the [Registered Options Trader] *ROT* has left the floor *prior to its execution.*

[If Registered Options Trader] *An ROT may cancel* from off-the-floor *opening or closing orders for his market maker or customer accounts but if he wishes to* effect[s] a change in the terms of an *opening* order (e.g., security, price, volume, series, class *or contingencies*) [which was initiated while he was on the floor,] *from off the floor* such changed order must be executed in his customer account.

[A Registered Options Trader] *An ROT* shall not give discretion to a Floor Broker and shall not give a Floor Broker "not held" orders. With respect to delta orders placed with a Floor Broker for the account of [a Registered Options Trader] *an ROT*, such orders may only be placed as day orders and must have the applicable delta legibly recorded on both the broker's floor ticket and the [Registered Options Trader's] *ROT's* record of the order.

[A Registered Options Trader who is closing a position, whether for his market maker or customer account, is on parity with all off-floor orders including those of Registered Options Traders who are also closing their positions. A Registered Options Trader who is on the floor may for his customer account execute closing transactions without utilizing a Floor Broker.]

See generally Rule 1014 and particularly Commentaries .08, .09, .10, [.12] and .15 thereof and Rule 1065, Commentary .01

Fine Schedule: B–4

1st Occurrence: $250.000
2nd Occurrence: $500.00
3rd and Thereafter: Sanction is discretionary with Business Conduct Committee.

* * * * *

F–5 Changes or Corrections to Material Terms of a Cleared Trade

All correction sheet submissions which change material terms of a transaction (security, price, volume, series, class *and customer to firm participations*) must be signed by all parties to the transaction and by a representative of the specialist unit [and/or assigned surveillance staff]. *Also if one of the parties to the transaction is not present at a time such matter is being resolved, a signature by surveillance staff is required to acknowledge the contra side's absence. The surveillance signature in any such case does not relieve any party to the trade of liability in connection with the change.*

Fine Schedule: F–5

1st Occurrence: $50.00
2nd and Thereafter: $60.00

See generally rule 1054.

Self-Regulatory Organizations; Applications for Unlisted Trading Privileges and of Opportunity for Hearing; Philadelphia Stock Exchange, Inc.

October 23, 1990.

The above named national securities exchange has filed applications with the Securities and Exchange Commission ("Commission") pursuant to section 12(f)(1)(B) of the Securities Exchange Act of 1934 and rule 12f–1 thereunder for unlisted trading privileges in the following securities:

American Waste Services, Inc.
Class A Common Stock, No Par Value (File No. 7–6348)
Cadence Design Systems, Inc.
Common Stock, $.01 Par Value (File No. 7–6349)
Diagnostek, Inc.
Common Stock, $0.01 Par Value (File No. 7–6350)
Dycom Industries, Inc.
Common Stock, $.33⅓ Par Value (File No. 7–6351)
Emerging Mexico Fund, Inc.
Common Stock, $0.10 Par Value (File No. 7–6352)
Old Republic International Corporation
Common Stock, $1 Par Value (File No. 7–6353)
Preferred Health Care, Ltd.
Common Stock, $0.01 Par Value (File No. 7–6354)
Nike, Inc.
Class B Common Stock, No Par Value (File No. 7–6355)
Templeton Value Fund, Inc.
Common Stock, $0.01 Par Value (File No. 7–6356)
AIM Strategic Income Fund, Inc.
Common Stock, $0.001 Par Value (File No. 7–6357)
MFS Income Opportunity Trust
Shares of Beneficial Interest, No Par Value (File No. 7–6358)
Templeton Global Utilities, Inc.
Common Stock, $0.01 Par Value (File No. 7–6359)
Florida Public Utilities Company
Common Stock, $1.50 Par Value (File No. 7–6360)

These securities are listed and registered on one or more other national securities exchange and are reported in the consolidated transaction reporting system.

Interested persons are invited to submit on or before November 14, 1990, written data, views and arguments concerning the above-referenced application. Persons desiring to make written comments should file three copies thereof with the Secretary of the Securities and Exchange Commission, 450 5th Street NW., Washington, DC 20549. Following this opportunity for hearing, the Commission will approve the application if it finds, based upon all the information available to it, that the extensions of unlisted trading privileges pursuant to such applications are consistent with the maintenance of fair and orderly markets and the protection of investors.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Jonathan G. Katz,

Secretary.

[FR Doc. 90-25455 Filed 10-26-90; 8:45 am]

BILLING CODE 8010-01-M

[File No. 1-6722]

Issuer Delisting; Application To Withdraw From Listing and Registration (GACC Holding Company, 13¼% Senior Extendable Reset Notes; 14½% Senior Notes)

October 23, 1990.

GACC Holding Company ("Company") has filed an application with the Securities and Exchange Commission ("Commission") pursuant to section 12(d) of the Securities Exchange Act of 1934 and rule 12d2-2(d) promulgated thereunder to withdraw the above specified securities from listing and registration on the Cincinnati Stock Exchange ("CSE") and the Pacific Stock Exchange, Inc. ("PSE")

The reasons alleged in the application for withdrawing these securities from listing and registration include the following:

The reason for initially listing the above-described securities for trading on the CSE and/or PSE was to create and maintain a market which would provide an accurate and reliable market price for the issues. Because there has been little or no recent exchange trading activity on any of the above issues, the need to list them for trading on the CSE and/or PSE no longer exists.

Any interested person may, on or before November 14, 1990, submit by letter to the Secretary of the Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549, facts bearing upon whether the application has been made in accordance with the rules of the CSE and/or PSE and what terms, if any, should be imposed by the Commission for the protection of investors. The Commission, based on the information submitted to it, will issue an order granting the application after the date mentioned above, unless the Commission determines to order a hearing on the matter.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Jonathan G. Katz,

Secretary.

BILLING CODE 8010-01-M

[File No. 1-8263]

Issuer Delisting; Application To Withdraw From Listing and Registration (Great American Communications Co., 14¾% Senior Subordinated Debentures; 11% Senior Debentures)

October 23, 1990.

Great American Communications Company ("Company") has filed an application with the Securities and Exchange Commission ("Commission") pursuant to section 12(d) of the Securities Exchange Act of 1934 and rule 12d2-2(d) promulgated thereunder to withdraw the 11% Senior Debentures from listing and registration on the Cincinnati Stock Exchange ("CSE") and the 14-3/8% Senior Subordinated Debentures from the CSE and the Pacific Stock Exchange, Inc. ("PSE").

The reasons alleged in the application for withdrawing these securities from listing and registration include the following:

The reason for initially listing the above-described securities for trading on the CSE and/or PSE was to create and maintain a market which would provide an accurate and reliable market price for the issues. Because there has been little or no recent exchange trading activity on any of the above issues, the need to list them for trading on the CSE and/or PSE no longer exists.

Any interested person may, on or before November 14, 1990, submit by letter to the Secretary of the Securities and Exchange Commission, 450 Fifth Street NW., Washington, DC 20549, facts bearing upon whether the application has been made in accordance with the rules of the CSE and/or PSE and what terms, if any, should be imposed by the Commission for the protection of investors. The Commission, based on the information submitted to it, will issue an order granting the application after the date mentioned above, unless the Commission determines to order a hearing on the matter.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Jonathan G. Katz,

Secretary.

BILLING CODE 8010-01-M

[Release No. IC-17814; 812-7340]

Select Cash Management Fund Inc.

October 23, 1990

AGENCY: Securities and Exchange Commission ("SEC").

ACTION: Notice of application for deregistration under the Investment Company Act of 1940 (the "1940 Act").

APPLICANT: Select Cash Management Fund, Inc.

RELEVANT 1940 ACT SECTION: Section 8(f).

SUMMARY OF APPLICATION: Applicant seeks an order declaring that it has ceased to be an investment company.

FILING DATE: The application on Form N-8F was filed on August 31, 1990.

HEARING OR NOTIFICATION OF HEARING: An order granting the application will be issued unless the SEC orders a hearing. Interested persons may request a hearing by writing to the SEC's Secretary and serving Applicant with a copy of the request, personally or by mail. Hearing requrest should be received by the SEC by 5:30 p.m. on November 19, 1990 and should be accompanied by proof of service on Applicant in the form of an affidavit or, for lawyers, a certificate of service. Hearing requests should state the nature of the writer's interest, the reason for the request, and the issues contested. Persons may request notification of a hearing by writing to the SEC's Secretary.

ADDRESSES: Secretary, SEC, 450 Fifth Street, NW., Washington, DC 20549. Applicant, 20 Washington Avenue South, Minneapolis, Minnesota 55401.

FOR FURTHER INFORMATION CONTACT: L. Bryce Stovell, Staff Attorney, at (202) 504-2272, or Heidi Stam, Assistant Chief, Office of Insurance Products and Legal Compliance (Division of Investment Management) at (202) 272-2060.

SUPPLEMENTARY INFORMATION: Following is a summary of the application. The complete application may be obtained for a fee from either the SEC's Public Reference Branch or

the SEC's commercial copier at (800) 231-3282 (in Maryland (301) 258-4300).

Applicant's Representations

1. Applicant is a Minnesota corporation and an open-end diversified management company registered under the 1940 Act. Prior to Applicant's liquidation, securities of Applicant were sold directly to and held exclusively by Northwestern National Life Insurance Company ("NWNL"), and the Sub-Accounts of two separate accounts of NWNL, i.e., the NWNL Select Variable Account and the NWNL Select Life Account (collectively, the "Variable Accounts"). The Variable Accounts are registered under the 1940 Act as unit investment trusts and were established by NWNL to fund certain variable annuity contracts and variable life insurance policies issued by NWNL (collectively, the "Contracts" or "Contract").

2. On December 4, 1981, Applicant filed a registration statement pursuant to section 8(b) of the 1940 Act. On the same date, Applicant registered an unlimited number of shares of Common Stock, having no designated par value, on Form N-1 (File No. 2-75184) under the Securities Act of 1933. The Registration Statement, as amended, became effective on February 1, 1982. On the same date, Applicant commenced the initial offering of its securities to NWNL and the Variable Accounts.

3. On December 20, 1989, the Board of Directors of Applicant unanimously (a) concurred in the recommendation of NWNL, Applicant's principal shareholder, to implement a substitution of investment options for Contract owners and recommended approval of such substitution by Applicant's shareholders, i.e., NWNL and the Variable Accounts, (b) resolved that, contingent upon shareholder approval of such substitution and receipt of approval of such substitution by the SEC, Applicant be liquidated and dissolved pursuant to Minnesota law, and (c) resolved that, if Applicant proceeds with such liquidation and dissolution, Applicant shall file with the SEC an application to deregister Applicant pursuant to section 8(f) of the 1940 Act.

4. On March 14, 1990, Applicant's shareholders voted their shares in accordance with the instructions of the Contract owners, as agreed, and approved the substitution. On April 27, 1990, the SEC staff responded to a no-action request by Applicant, indicating that the staff would not recommend enforcement action if the substitution was effected in the manner described by Applicant.

5. A share redemption and the substitution occurred on May 18, 1990. On that date Applicant sold $6,475,758 of its portfolio securities, constituting the bulk of its assets. Applicant used these proceeds to redeem its shares held by the Variable Accounts, leaving NWNL as Applicant's sole shareholder. The Variable Accounts then used the proceeds of the share redemption to purchase shares of the Money Market Portfolio of the Variable Insurance Products Fund (the "Fund") in order to perform the substitution. The substitution, in turn, was effected on a simple relative net asset value basis with no change in the amount of any Contract owner's accumulated value or in the dollar value of his investment in the relevant Variable Account. The accumulated values of Contract owners were transferred from the Sub-Account of each Variable Account that held shares of Applicant to the Sub-Account of each Variable Account that acquired shares of the Fund.

6. On June 13, 1990, NWNL implemented the December 20, 1989 resolution of Applicant's Board of Directors by approving a proposal to liquidate and dissolve Applicant (the "Plan") under Minnesota law.

7. Applicant now retains no property except $100 cash. Such cash will not be invested in securities. NWNL, Applicant's sole shareholder, owns 100 shares of Applicant's stock valued at $1 of net asset value per share. When the Plan is completed Applicant will distribute any cash that remains to NWNL and dissolve. NWNL and Washington Square Capital, Inc., Applicant's investment adviser and a subsidiary of NWNL, are paying all expenses associated with Applicant's liquidation and dissolution.

8. Applicant has not transferred any of its assets to a separate trust the beneficiaries of which were or are shareholders of Applicant. Applicant is not a party to any litigation or administrative proceeding, and is not engaged, nor does it propose to engage, in any business activities other than those necessary to wind up its affairs, in accordance with the Plan. Applicant will file its Articles of Dissolution under state law after the relief requested herein has been granted.

For the Commission, by the Division of Investment Management, under delegated authority.

Margaret H. McFarland,

Deputy Secretary.

BILLING CODE 4710-10-M

DEPARTMENT OF THE TREASURY

[Department Circular—Public Debt Series—No. 29-90]

Treasury Notes of October 31, 1992, Series AF–1992

Washington, October 18, 1990.

1. Invitation for Tenders

1.1. The Secretary of the Treasury, under the authority of chapter 31 of title 31, United States Code, invites tenders for approximately $12,000,000,000 of United States securities, designated Treasury Notes of October 31, 1992, Series AF–1992 (CUSIP No. 912827 ZL 9), hereafter referred to as Notes. The Notes will be sold at auction, with bidding on the basis of yield. Payment will be required at the price equivalent of the yield of each accepted bid. The interest rate on the Notes and the price equivalent of each accepted bid will be determined in the manner described below. Additional amounts of the Notes may be issued to Federal Reserve Banks for their own account in exchange for maturing Treasury securities. Additional amounts of the Notes may also be issued at the average price to Federal Reserve Banks, as agents for foreign and international monetary authorities.

2. Description of Securities

2.1. The Notes will be dated October 31, 1990, and will accrue interest from that date, payable on a semiannual basis on April 30, 1991, and each subsequent 6 months on October 31 and April 30 through the date that the principal becomes payable. They will mature October 31, 1992, and will not be subject to call for redemption prior to maturity. In the event any payment date is a Saturday, Sunday, or other nonbusiness day, the amount due will be payable (without additional interest) on the next business day.

2.2. The Notes are subject to all taxes imposed under the Internal Revenue Code of 1954. The Notes are exempt from all taxation now or hereafter imposed on the obligation or interest thereof by any State, any possession of the United States, or any local taxing authority, except as provided in 31 U.S.C. 3124.

2.3. The Notes will be acceptable to secure deposits of Federal public monies. They will not be acceptable in payment of Federal taxes.

2.4. The Notes will be issued only in book-entry form in a minimum amount of $5,000 and in multiples of that amount. They will not be issued in registered definitive or in bearer form.

2.5. The Department of the Treasury's general regulations governing United States securities, *i.e.*, Department of the Treasury Circular No. 300, current revision (31 CFR part 306), as to the extent applicable to marketable securities issued in book-entry form, and the regulations governing book-entry Treasury Bonds, Notes, and Bills, as adopted and published as a final rule to govern securities held in the TREASURY DIRECT Book-Entry Securities System in Department of the Treasury Circular, Public Debt Series, No. 2–86 (31 CFR part 357), apply to the Notes offered in this circular.

3. Sale Procedures

3.1. Tenders will be received at Federal Reserve Banks and Branches and at the Bureau of the Public Debt, Washington, DC 20239–1500, prior to 1 p.m., Eastern Daylight Saving time, Wednesday, October 24, 1990. Noncompetitive tenders as defined below will be considered timely if postmarked no later than Tuesday, October 23, 1990, and received no later than Wednesday, October 31, 1990.

3.2. The par amount of Notes bid for must be stated on each tender. The minimum bid is $5,000, and larger bids must be in multiples of that amount. Competitive tenders must also show the yield desired, expressed in terms of an annual yield with two decimals, e.g., 7.10%. Fractions may not be used. Noncompetitive tenders must show the term "noncompetitive" on the tender form in lieu of a specified yield.

3.3. A single bidder, as defined in Treasury's single bidder guidelines, shall not submit noncompetitive tenders totaling more than $1,000,000. A noncompetitive bidder may not have entered into an agreement, nor make an agreement to purchase or sell or otherwise dispose of any noncompetitive awards of this issue prior to the deadline for receipt of tenders.

3.4. Commercial banks, which for this purpose are defined as banks accepting demand deposits, and primary dealers, which for this purpose are defined as dealers who make primary markets in Government securities and are on the list of reporting dealers published by the Federal Reserve Bank of New York, may submit tenders for accounts of customers if the names of the customers and the amount for each customer are furnished. Others are permitted to submit tenders only for their own account.

3.5. Tenders for their own account will be received without deposit from commercial banks and other banking institutions; primary dealers, as defined above; Federally-insured savings and loan associations; States, and their political subdivisions or instrumentalities; public pension and retirement and other public funds; international organizations in which the United States holds membership; foreign central banks and foreign states; and Federal Reserve Banks. Tenders from all others must be accompanied by full payment for the amount of Notes applied for, or by a guarantee from a commercial bank or a primary dealer of 5 percent of the par amount applied for.

3.6. Immediately after the deadline for receipt of tenders, tenders will be opened, followed by a public announcement of the amount and yield range of accepted bids. Subject to the reservations expressed in section 4, noncompetitive tenders will be accepted in full, and then competitive tenders will be accepted, starting with those at the lowest yields, through successively higher yields to the extent required to attain the amount offered. Tenders at the highest accepted yield will be prorated if necessary. After the determination is made as to which tenders are accepted, an interest rate will be established, at a ⅛ of one percent increment, which results in an equivalent average accepted price close to 100.000 and a lowest accepted price above the original issue discount limit of 99.500. That stated rate of interest will be paid on all of the Notes. Based on such interest rate, the price on each competitive tender allotted will be determined and each successful competitive bidder will be required to pay the price equivalent to the yield bid. Those submitting noncompetitive tenders will pay the price equivalent to the weighted average yield of accepted competitive tenders. Price calculations will be carried to three decimal places on the basis of price per hundred, e.g., 99.923, and the determinations of the Secretary of the Treasury shall be final. If the amount of noncompetitive tenders received would absorb all or most of the offering, competitive tenders will be accepted in an amount sufficient to provide a fair determination of the yield. Tenders received from Federal Reserve Banks will be accepted at the price equivalent to the weighted average yield of accepted competitive tenders.

3.7. Competitive bidders will be advised of the acceptance of their bids. Those submitting noncompetitive tenders will be notified only if the tender is not accepted in full, or when the price at the average yielded is over par.

4. Reservations

4.1. The Secretary of the Treasury expressly reserves the right to accept or

reject any or all tenders in whole or in part, to allot more or less than the amount of Notes specified in section 1, and to make different percentage allotments to various classes of applicants when the Secretary considers it in the public interest. The Secretary's action under this Section is final.

5. Payment and Delivery

5.1. Settlement for the Notes allotted must be made at the Federal Reserve Bank or Branch or at the Bureau of the Public Debt, wherever the tender was submitted. Settlement on Notes allotted to institutional investors and to others whose tenders are accompanied by a guarantee as provided in section 3.5. must be made or completed on or before Wednesday, October 31, 1990. Payment in full must accompany tenders submitted by all other investors. Payment must be in cash; in other funds immediately available to the Treasury; in Treasury bills, notes, or bonds maturing on or before the settlement date but which are not overdue as defined in the general regulations governing United States securities; or by check drawn to the order of the institution to which the tender was submitted, which must be received from institutional investors no later than Monday, October 29, 1990. When payment has been submitted with the tender and the purchase price of the Notes allotted is over par, settlement for the premium must be completed timely, as specified above. When payment has been submitted with the tender and the purchase price is under par, the discount will be remitted to the bidder.

5.2. In every case where full payment has not been completed on time, an amount of up to 5 percent of the par amount of Notes allotted shall, at the discretion of the Secretary of the Treasury, be forfeited to the United States.

5.3. Registered definitive securities tendered in payment for the Notes allotted and to be held in Treasury Direct are not required to be assigned if the inscription on the registered definitive security is identical to the registration of the note being purchased. In any such case, the tender form used to place the Notes allotted in Treasury Direct must be completed to show all the information required thereon, or the Treasury Direct account number previously obtained.

6. General Provisions

6.1. As fiscal agents of the United States, Federal Reserve Banks are authorized, as directed by the Secretary of the Treasury, to receive tenders, to make allotments, to issue such notices as may be necessary, to receive payment for, and to issue, maintain, service, and make payment on the Notes.

6.2. The Secretary of the Treasury may, at any time, supplement or amend provisions of this circular if such supplements or amendments do not adversely affect existing rights of holders of the Notes. Public announcement of such changes will be promptly provided.

6.3. The Notes issued under this circular shall be obligations of the United States, and therefore, the faith of the United States Government is pledged to pay, in legal tender, principal and interest on the Notes.

Marcus W. Page,

Acting Fiscal Assistant Secretary.

BILLING CODE 4830-01-M

Office of Thrift Supervision

[No. 90-572]

Adoption of Privacy Act Systems of Records

AGENCY: Office of Thrift Supervision, Treasury

ACTION: Adoption of Privacy Act Systems of Records.

SUMMARY: The Office of Thrift Supervision (Office), a bureau of the Department of the Treasury, is publishing this notice to notify all interested parties that pursuant to section 552a(e)(4) of the Privacy Act (5 U.S.C. 552a(e)(4)), the Director of the Office hereby adopts the Privacy Act systems of records of the Office's predecessor agency, the Federal Home Loan Bank Board.

A complete list of the systems of the Federal Home Loan Bank Board can be found in the Privacy Act Issuances, 1987 Compilation, Volume IV, at pages 329–337.

EFFECTIVE DATE: October 29, 1990.

FOR FURTHER INFORMATION CONTACT: Karen F. Bibbs, (202) 416–2636, Congressional Relations and Communications, Office of Thrift Supervision, 1700 G Street NW., Washington, DC 20552.

SUPPLEMENTARY INFORMATION: The Financial Institutions Reform, Recovery and Enforcement Act of 1989 (FIRREA), Pub. L. 101–73, 103 Stat. 183, enacted August 9, 1989, established the Office of Thrift Supervision (Office) as an office within the Department of the Treasury which will perform those functions formerly performed by the Federal Home Loan Bank Board (Bank Board) in its own right and as operating head of the Federal Home Loan Bank System and the Federal Savings and Loan Insurance Corporation that have been transferred to it by the FIRREA. Pursuant to the FIRREA, all rules, regulations, resolutions, (including delegations), orders, directives, decisions, systems of records, and other determinations of the Bank Board and the Federal Savings and Loan Insurance Corporation promulgated under or implementing the Privacy Act, and not transferred to the Federal Deposit Insurance Corporation or the Federal Housing Finance Board, which were in force and effect on the day prior to enactment of FIRREA, remain in effect and enforceable by the Office, until such time as modified, canceled, or repealed by the Office. *See* FIRREA, Title III, section 301 amending subsection 3(e) of the Home Owners' Loan Act of 1933, and Title IV, sections 401(f), 401(g), 401(h).

The Office anticipates adopting and publishing in the **Federal Register** all changes to the Bank Board's Privacy Act regulations and Privacy Act systems of records necessary for the Office to carry out the provisions of the FIRREA and all other laws within the jurisdiction of the Office.

Dated: October 22, 1990.

Linda M. Combs,

Assistant Secretary of the Treasury (Management).

Advisory Commission on the Future Structure of Veterans Health Care; Meeting

The Department of Veterans Affairs gives notice under Public Law 92–463 that a meeting of the Commission on the Future Structure of Veterans Health Care will be held on December 11 and 21, 1990. The session will be held between 8 a.m. and 5 p.m. on December 11, and 8:30 a.m. and 1 p.m. on December 12, at the Hyatt Regency Tampa Hotel, Two Tampa City Center, Regency Rooms 5 and 6, Tampa, Florida. The Commission's purpose is to review the missions and programs of the VA's health care facilities to determine whether changes in services, programs, or missions at individual facilities are needed, with a focus on providing care to eligible veterans in 2010. The agenda for the meeting will include presentations to the Commission by various VA and non-VA officials as well as working sessions for the Commissioners to discuss, study, and analyze specific critical VA health care issues. The meeting will be open to the public up to the seating capacity of the room. Interested persons may file written statements with the Commission before or within 10 days after the close of the meeting for inclusion in the official hearing transcript.

Persons wanting to file written statements or wanting additional information regarding the meeting should contact Mr. Robert Moran, Commission on the Future Structure of Veterans Health Care, Techworld Plaza, 800 K Street, NW., P.O. Box 88, Washington, DC 20001, telephone (202) 633–7079.

Dated: October 23, 1990.

By Direction of the Secretary.

Sylvia Chavez Long,

Committee Management Officer.

BILLING CODE 8320–01–M

Advisory Committee on Readjustment Problems of Vietnam Veterans; Meeting

The Department of Veterans Affairs (VA) gives notice under Public Law 92–463 that a meeting of the Advisory Committee on Readjustment Problems of Vietnam Veterans will be held November 16, 1990. This is a regularly scheduled meeting for the purpose of reviewing VA and other relevant services to Vietnam veterans, to review Committee work in progress and to formulate Committee recommendations and objectives. This meeting will be held in the VA Central Office, Omar Bradley Conference Room, 810 Vermont Avenue, NW., Washington, DC 20420.

The meeting on November 16 will begin at 8:30 a.m. and conclude at 4:30 p.m. The agenda for this meeting will consist of a Committee executive session involving discussion and planning regarding the work in progress of three subcommittees. The major subcommittee topic areas include revision of the Committee charter to encompass the readjustment of all war veterans, provision and coordination of transition management services for the readjustment of recently separated military personnel, and coordination of compensation and treatment for war-related post-traumatic stress disorder. This meeting will be preceded by three separate, concurrent subcommittee meetings to finalize respective findings and conclusions for presentation to the full Committee during the November 16 meeting. This meeting will be open to the public to the seating capacity of the room. Due to limited seating capacity of the room, those who plan to attend or who have questions concerning the

meeting should contact Arthur S. Blank, Jr., M.D. Director, Readjustment Counseling Service, Department of Veterans Affairs, (phone number: 202–233–3317/3303).

Dated: October 23, 1990.

By Direction of the Secretary.

Sylvia Chavez Long,

Committee Management Officer.

Office of Thrift Supervision

12 CFR Part 564

[No. 90-1466]

RIN 1550-AA24

Real Estate Appraisals

Correction

In rule document 90-19892 beginning on page 34532 in the issue of Thursday, August 23, 1990, make the following corrections:

§ 564.8 [Corrected]

On page 34450, in the first column, in the last line of § 564.8(c)(2), "§ 546.6" should read "§ 564.6", and in the second line of § 564.8(d), "§ 546.4" should read "564.4.

LIST OF PUBLIC LAWS

Last List October 25, 1990

This is a continuing list of public bills from the current session of Congress which have become Federal laws. It may be used in conjunction with "PLUS" (Public Laws Update Service) on 523-6641. The text of laws is not published in the Federal Register but may be ordered in individual pamphlet form (referred to as "slip laws") from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402 (phone 202-275-3030).

H.R. 3767/Pub. L. 101-452

Chehalis River Basin Fishery Resources Study and Restoration Act of 1990. (Oct. 24, 1990; 104 Stat. 1054; 4 pages) Price: $1.00

H.R. 4371/Pub. L. 101-453

Cash Management Improvement Act of 1990. (Oct. 24, 1990; 104 Stat. 1058; 5 pages) Price: $1.00

H. 3617/Pub. L. 101-454

Eisenhower Exchange Fellowship Act of 1990. (Oct. 24, 1990; 104 Stat. 1063; 4 pages) Price: $1.00

S. 2540/Pub. L. 101-455

To authorize the Board of Regents of the Smithsonian Institution to plan, design, construct, and equip space in the East Court of the National Museum of Natural History building, and for other purposes. (Oct. 24, 1990; 104 Stat. 1067; 1 page) Price: $1.00

S. 3046/Pub. L. 101-456

To redesignate the Federal building located at 1 Bowling Green in New York, New York, as the "Alexander Hamilton United States Custom House". (Oct. 24, 1990; 104 Stat. 1068; 1 page) Price: $1.00

S. 3127/Pub. L. 101-457

To designate the Department of Veterans Affairs Medical Center in Albany, New York, as the "Samuel S. Stratton Department of Veterans Affairs Medical Center". (Oct. 24, 1990; 104 Stat. 1069; 1 page) Price: $1.00

S.J. Res. 342/Pub. L. 101-458

Designating October 1990 as "Ending Hunger Month". (Oct. 24, 1990; 104 Stat. 1070; 1 page) Price: $1.00

S.J. Res. 346/Pub. L. 101-459

To designate October 20 through 28, 1990, as "National Red Ribbon Week for a Drug-Free America". (Oct. 24, 1990; 104 Stat. 1071; 3 pages) Price: $1.00

S.J. Res. 349/Pub. L. 101-460

Designating October 1990 as "Italian-American Heritage and Culture Month". (Oct. 24, 1990; 104 Stat. 1074; 1 page) Price: $1.00

H.J. Res. 681/Pub. L. 101-461

Making further continuing appropriations for the fiscal year 1991, and for other purposes. (Oct. 25, 1990; 104 Stat. 1075; 4 pages) Price: $1.00

CFR CHECKLIST

This checklist, prepared by the Office of the Federal Register, is published weekly. It is arranged in the order of CFR titles, prices, and revision dates.

An asterisk (*) precedes each entry that has been issued since last week and which is now available for sale at the Government Printing Office.

A checklist of current CFR volumes comprising a complete CFR set, also appears in the latest issue of the LSA (List of CFR Sections Affected), which is revised monthly.

The annual rate for subscription to all revised volumes is $620.00 domestic, $155.00 additional for foreign mailing.

Order from Superintendent of Documents, Government Printing Office, Washington, DC 20402. Charge orders (VISA, MasterCard, or GPO Deposit Account) may be telephoned to the GPO order desk at (202) 783-3238 from 8:00 a.m. to 4:00 p.m. eastern time, Monday—Friday (except holidays).

Title	Price	Revision Date
Individual copies	2.00	1990

[1] Because Title 3 is an annual compilation, this volume and all previous volumes should be retained as a permanent reference source.

[2] No amendments to this volume were promulgated during the period Jan. 1, 1987 to Dec. 31, 1989. The CFR volume issued January 1, 1987, should be retained.

[3] No amendments to this volume were promulgated during the period Apr. 1, 1989 to Mar. 30, 1990. The CFR volume issued April 1, 1989, should be retained.

[4] No amendments to this volume were promulgated during the period July 1, 1989 to June 30, 1990. The CFR volume issued July 1, 1989, should be retained.

[5] The July 1, 1985 edition of 32 CFR Parts 1–189 contains a note only for Parts 1–39 inclusive. For the full text of the Defense Acquisition Regulations in Parts 1–39, consult the three CFR volumes issued as of July 1, 1984, containing those parts.

[6] The July 1, 1985 edition of 41 CFR Chapters 1–100 contains a note only for Chapters 1 to 49 inclusive. For the full text of procurement regulations in Chapters 1 to 49, consult the eleven CFR volumes issued as of July 1, 1984 containing those chapters.

Guide to Record Retention Requirements

in the Code of Federal Regulations (CFR)

GUIDE: Revised January 1, 1989
SUPPLEMENT: Revised January 1, 1990

The GUIDE and the SUPPLEMENT should be used together. This useful reference tool, compiled from agency regulations, is designed to assist anyone with Federal recordkeeping obligations.

The various abstracts in the GUIDE tell the user (1) what records must be kept, (2) who must keep them, and (3) how long they must be kept.

The GUIDE is formatted and numbered to parallel the CODE OF FEDERAL REGULATIONS (CFR) for uniformity of citation and easy reference to the source document.

Compiled by the Office of the Federal Register, National Archives and Records Administration.

Order from Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402–9325.

Public Laws

are now available for the 101st Congress, 2nd Session, 1990

Pamphlet prints of public laws, often referred to as slip laws, are the initial publication of Federal laws upon enactment and are printed as soon as possible after approval by the President. Legislative history references appear on each law. Subscription service includes all public laws, issued irregularly upon enactment, for the 101st Congress, 2nd Session, 1990.

(Individual laws also may be purchased from the Superintendent of Documents, Washington, DC 20402-9328. Prices vary. See Reader Aids Section of the Federal Register for announcements of newly enacted laws and prices).

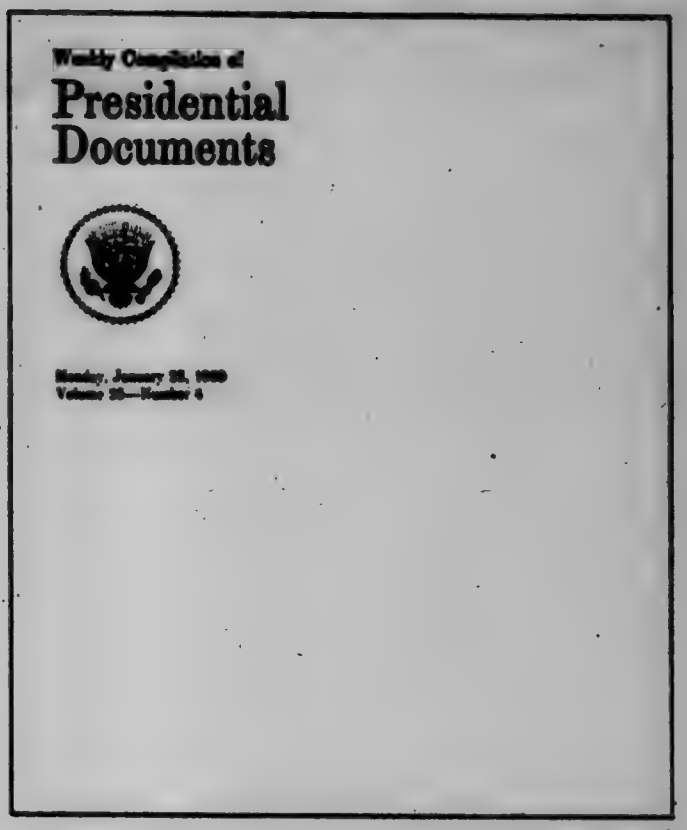
The authentic text behind the news . . .

The Weekly Compilation of **Presidential Documents**

Administration of George Bush



This unique service provides up-to-date information on Presidential policies and announcements. It contains the full text of the President's public speeches, statements, messages to Congress, news conferences, personnel appointments and nominations, and other Presidential materials released by the White House.

The Weekly Compilation carries a Monday dateline and covers materials released during the preceding week. Each issue contains an Index of Contents and a Cumulative Index to Prior Issues.

Separate Indexes are published periodically. Other features include lists of acts approved by the President, nominations submitted to the Senate, a checklist of White House press releases, and a digest of other Presidential activities and White House announcements.

Published by the Office of the Federal Register, National Archives and Records Administration.

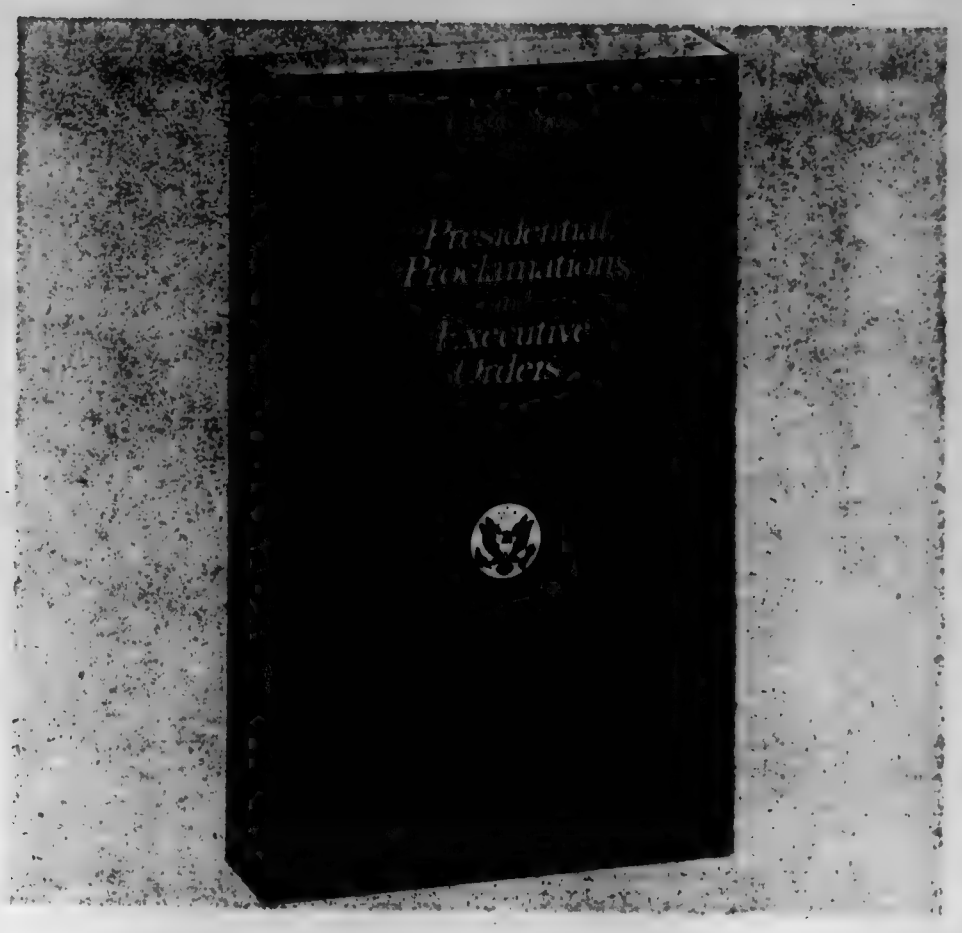
New edition .... Order now !



For those of you who must keep informed about Presidential Proclamations and Executive Orders, there is a convenient reference source that will make researching these documents much easier.

Arranged by subject matter, this edition of the *Codification* contains proclamations and Executive orders that were issued or amended during the period April 13, 1945, through January 20, 1989, and which have a continuing effect on the public. For those documents that have been affected by other proclamations or Executive orders, the codified text presents the amended version. Therefore, a reader can use the *Codification* to determine the latest text of a document without having to "reconstruct" it through extensive research.

Special features include a comprehensive index and a table listing each proclamation and Executive order issued during the 1945–1989 period—along with any amendments—an indication of its current status, and, where applicable, its location in this volume.

The Federal Register

Regulations appear as agency documents which are published daily in the Federal Register and codified annually in the Code of Federal Regulations

The Federal Register, published daily, is the official publication for notifying the public of proposed and final regulations. It is the tool for you to use to participate in the rulemaking process by commenting on the proposed regulations. And it keeps you up to date on the Federal regulations currently in effect.

Mailed monthly as part of a Federal Register subscription are: the LSA (List of CFR Sections Affected) which leads users of the Code of Federal Regulations to amendatory actions published in the daily Federal Register; and the cumulative Federal Register Index.

The Code of Federal Regulations (CFR) comprising approximately 199 volumes contains the annual codification of the final regulations printed in the Federal Register. Each of the 50 titles is updated annually.

Individual copies are separately priced. A price list of current CFR volumes appears both in the Federal Register each Monday and the monthly LSA (List of CFR Sections Affected). Price inquiries may be made to the Superintendent of Documents, or the Office of the Federal Register.

Regulatory Information Service Center

Introduction to the Unified Agenda of Federal Regulations

REGULATORY INFORMATION SERVICE CENTER

Unified Agenda of Federal Regulations

AGENCY: Regulatory Information Service Center.

ACTION: Introduction to the Unified Agenda of Federal Regulations.

SUMMARY: The Regulatory Flexibility Act (5 U.S.C. 602) requires that agencies publish semiannual regulatory agendas describing regulatory actions they are developing. Executive Order 12291 and OMB Bulletins implementing section 5 of the Executive order establish minimum standards for executive agencies' agendas, including specific types of information for each entry and publication in a uniform format. In addition, the Office of Federal Procurement Policy Act Amendments of 1988 (41 U.S.C. 402) require the development and semiannual publication of a report on procurement regulations. The Unified Agenda helps fulfill that requirement. All Federal regulatory agencies have chosen to publish their regulatory agendas as part of this Unified Agenda of Federal Regulations.

The following separate parts in this issue of the Federal Register are the agency agendas, which together comprise the October 1990 edition of the semiannual Unified Agenda of Federal Regulations.

ADDRESS: Regulatory Information Service Center, Suite 500, 750 17th Street, NW., Washington, DC 20006.

FOR FURTHER INFORMATION CONTACT: For further information about specific regulatory actions, please refer to the Agency Contact listed for each entry. To provide comment on or to obtain further information about the Unified Agenda of Federal Regulations, contact: Mark G. Schoenberg, Executive Director, (202) 634-6222, or Margaret M. Donohoe, Project Director, (202) 634-6220.

INDEX TO THE UNIFIED AGENDA OF FEDERAL REGULATIONS

Subject Index 45539

INTRODUCTION TO THE UNIFIED AGENDA OF FEDERAL REGULATIONS

About the Unified Agenda

The Regulatory Information Service Center (the Center) compiles the Unified Agenda of Federal Regulations for the Office of Information and Regulatory Affairs, Office of Management and Budget (OMB). The Center provides information about Federal regulatory activity to the President and his Executive Office, the Congress, agency managers, and the public.

The Office of Information and Regulatory Affairs is responsible for overseeing the Federal Government's regulatory, paperwork, and information-management activities and for implementing Executive Orders 12291 "Federal Regulation" (46 FR 13193; 3 CFR 1981 Comp., p. 127) and 12498 "Regulatory Planning Process" (50 FR 1036; 3 CFR 1985 Comp., p. 323). Under E.O. 12498, OMB publishes the Regulatory Program of the United States Government each year.

The Regulatory Program is a policy document and a management tool that sets forth the priorities of the agency head and of the President regarding the Significant Regulatory Actions (SRAs) that will be conducted during the program year to which it pertains.

The Regulatory Program and the Unified Agenda differ in several ways. The Unified Agenda includes more regulatory actions, because it covers all Federal agencies that issue regulations and includes almost all the rulemakings they have under development. The Regulatory Program includes fewer than half of those agencies and contains only the most significant of all the regulatory actions that each of those agencies plans to undertake. The Regulatory Program, however, describes each entry more thoroughly than the Unified Agenda.

The regulatory actions described in the **Regulatory Program of the United States Government** are included in this Agenda. In general, the Regulation Identifier Number (RIN) for the action is the same for both publications; however, occasionally, several Agenda entries are combined into one Program entry, and a new RIN is assigned to that entry in the Program.

The Unified Agenda provides uniform reporting of data on regulatory activities under development throughout the Federal Government. This edition of the Unified Agenda includes 60 regulatory agendas from all Federal departments, agencies, and commissions that publish agendas. The National Capital Planning Commission has published a regulatory agenda in the past but has nothing to report for this edition of the Unified Agenda. Agencies of the United States Congress are not included.

Beginning with the October 1989 edition, the Agenda has helped fulfill the statutory requirement that the Office of Federal Procurement Policy (OFPP) publish a **Procurement Regulatory Activity Report** as required by the Office of Federal Procurement Policy Act Amendments of 1988 (102 Stat. 4055; 41 U.S.C. 402). In their agendas, agencies indicate which regulatory actions are procurement-related, as well as whether or not there is a statutory requirement or a paperwork burden associated with the procurement-related actions. This procurement information will be used by OFPP to produce its report.

The Unified Agenda is produced through a computer system designed and maintained by the Center with the advice and assistance of the Government Printing Office. The system was designed to save agencies time and money by automating the preparation and printing of their agendas in a uniform format and to make the Agenda easier to use. In order to further facilitate producing the Agenda, many agencies currently use computer terminals at their offices to enter agenda information into the Center's computer system.

The Agenda contains a Subject Index based on the **Federal Register Thesaurus of Indexing Terms** to help the reader locate entries from various agencies that may affect a particular area of interest. The index also contains cross references to assist the reader's search. The numbers in the index refer to the sequence numbers that appear before the title of each entry in the Agenda. All entries are numbered sequentially from the beginning to the end of the Agenda.

For each agency that requested it, the Center provided a computer-produced Table of Contents that appears after the preamble of the agency's agenda. The agency Tables of Contents help readers locate quickly those entries within an agency that may be of most interest to them.

All agendas contain uniform data elements -- regulation title, significance, legal authority, CFR citation, legal deadline, abstract, timetable, small entities affected, government levels affected, agency contact, and a unique Regulation Identifier Number. Agencies also include any additional information they consider important. If any of the data elements is not included, the agency either did not report the information or may provide an explanation in its preamble. For further information, please contact the individual agency.

Congress generally authorizes a single Federal agency to implement, through regulation, a specific policy objective. Sometimes, however, a statute may require that several agencies issue regulations to accomplish a policy objective. In such cases, the agencies, working with a central coordinator, jointly publish the documents issued in the course of the rulemaking proceeding. These proceedings are referred to as Governmentwide common rules.

In this edition of the Unified Agenda, three Governmentwide common rules are reported by the agencies participating in their development. They are:

- Implementation of the Drug-Free Workplace Act of 1988
- New Restrictions on Lobbying
- Protection of Human Subjects

Agencies participating in the development of these common rules have reported them in their individual parts of the Unified Agenda.

The **Unified Agenda of Federal Regulations** is published in April and October of each year. We welcome comments on this edition and suggestions for improving future ones.

How to Use the Unified Agenda

Each agency agenda appears as a separate part in this edition of the **Federal Register**. The parts are organized alphabetically in four groups: Cabinet departments, other executive agencies, joint authorities, and independent agencies. Departments are divided into agencies, which may in turn be divided into subagencies.

Each agency begins its agenda with a preamble providing information specific to its agenda. Each agency lists its rules in four groups:

1. Prerule Stage -- actions agencies will undertake in the next 12 months to determine whether or how to initiate rulemaking. Such actions occur prior to a Notice of Proposed Rulemaking (NPRM) and may include Advance Notices of Proposed Rulemaking (ANPRMs) and reviews of existing regulations.

2. Proposed Rule Stage -- actions for which agencies plan to publish a NPRM as the next step in their rulemaking process or for which the closing date of the NPRM comment period is the next step.

3. Final Rule Stage -- actions for which agencies plan to publish a final rule or an interim final rule or to take other final action as the next step in their rulemaking process.

4. Completed Actions -- actions or reviews the agency completed or withdrew since publishing its last agenda. This section also includes items that were begun and completed between issues of the Unified Agenda.

An agency may use a subheading to identify regulations that it has grouped according to a particular topic. When these subheadings are used, they appear above the title of the first regulation in the group.

A bullet (●) preceding an entry indicates that the entry appears in the Agenda for the first time.

The Agenda Sequence Number preceding the title of each entry identifies the location of the entry in this edition of the Agenda. The same number is used in the index to enable readers to

find entries on specific subjects. Those agencies that chose to provide a Table of Contents at the beginning of their agendas also use the sequence number in their Table of Contents. Sequence numbers should help readers easily locate items of most interest to them, either by agency or by subject.

The regulatory activities included in the agency agendas are those currently planned for the next 12 months. The agendas do not include regulations excluded from review under E.O. 12291, such as those concerning military or foreign affairs functions and regulations related to internal agency management.

Entries describing regulations in the Agenda should contain, at a minimum, the following information:

- Title of the Regulation.
- Significance -- an indication of the significance of the entry that appears when:
  a. The action is included in the Regulatory Program of the United States Government for the 1990 program year, or
  b. The agency otherwise considers the action a priority.

The Significance heading appears only if the entry is a significant action.

- Legal Authority -- the section(s) of the United States Code (U.S.C.) or Public Law (P.L.) or the Executive order (E.O.) that authorize(s) the regulatory action. Agencies may provide common name references to laws in addition to U.S.C. or P.L. references.
- CFR Citation -- the section(s) of the Code of Federal Regulations that affects or will be affected by the action.
- Legal Deadline -- an indication of whether the rule is subject to a statutory or judicial deadline; the date of that deadline; and whether the deadline pertains to an NPRM, a Final Action, or some "Other" action.
- Abstract -- a description of the problem the regulation will address; the need for a Federal solution; and, to the extent available, the alternatives that the agency is considering to address the problem and the potential costs and benefits of the action.
- Timetable -- the dates and citations (if available) for all past stages and at least the next future stage of rulemaking. If a date appears in this section as 00/00/00, it means the date of the action is presently undetermined. Similarly, 10/00/90 means the agency can predict the month and year the action will take place but not the day it will occur.
- Small Entities Affected -- indicates whether the rule is expected to have a significant economic impact on a substantial number of "small entities" as defined by the Regulatory Flexibility Act (5 U.S.C. 601) and, if so, whether the small entities are businesses, governmental jurisdictions, and/or organizations.
- Government Levels Affected -- indicates whether the rule is expected to affect levels of government and, if so, whether the governments are local, State, and/or Federal.
- Agency Contact -- the name, title, address, and phone number of a person in the agency who is knowledgeable about the regulation.
- Procurement-Related Actions -- in the Additional Information section, a statement identifying procurement-related actions and indicating whether there is a statutory requirement for the action and whether or not there is a paperwork burden associated with the action.

Some agencies have provided other optional information at their discretion.

Data Limitations

Agencies prepared entries for this edition of the Unified Agenda to give the public notice of their plans to review, propose, and issue regulations. They have tried to predict their activities over the next 12 months as accurately as possible, but dates and schedules are subject to change. Agencies may withdraw some of the regulations now under development, and they may issue or propose other regulations not included in their agendas. Agency actions in the rulemaking process may occur before or after the dates they have listed. The Agenda does not create a legal obligation on agencies to adhere to schedules within it or to confine their regulatory activities to those regulations that appear in it. The information in this edition is accurate as of August 24, 1990, in the judgment of the submitting agencies, except as otherwise noted in individual agency preambles. Where applicable, individual actions will be subject to review for compliance with Executive Order 12291, the Regulatory Flexibility Act, the OFPP Act, and the Paperwork Reduction Act at appropriate points in the regulatory process.

List of Abbreviations

The following abbreviations appear throughout this edition of the Agenda:

ANPRM -- An Advance Notice of Proposed Rulemaking is a preliminary notice that an agency is considering a regulatory action. The agency issues an ANPRM before it develops a detailed proposed rule. The ANPRM describes the general area that may be subject to regulation and usually asks for public comment on the issues and options being discussed. An ANPRM is issued only when an agency believes it needs to gather more information before proceeding to a notice of proposed rulemaking.

CFR -- The Code of Federal Regulations is an annual codification of the general and permanent regulations published in the Federal Register by the departments and agencies of the Federal Government. The Code is divided into 50 titles and each title covers a broad area subject to Federal regulation. The CFR is keyed to and kept up-to-date by the daily issues of the Federal Register.

EO -- An Executive order is a directive from the President to an executive agency issued under constitutional or statutory authority. Executive orders are published in the Federal Register and in title 3 of the Code of Federal Regulations.

FR -- The Federal Register is a daily Federal Government publication that provides a uniform system for publishing Presidential documents, all proposed and final regulations, notices of meetings, and other official documents issued by Federal departments and agencies.

FY -- The Federal fiscal year runs from October 1 to September 30.

NPRM -- A Notice of Proposed Rulemaking is the document an agency issues and publishes in the Federal Register that describes and solicits public comments on a proposed regulatory action. Under the Administrative Procedure Act, an NPRM must include, at a minimum:

- A statement of the time, place, and nature of the public rulemaking proceeding;
- A reference to the legal authority under which the rule is proposed; and
- Either the terms or substance of the proposed rule or a description of the subjects and issues involved.

PL -- A Public Law is a law passed by Congress and signed by the President or enacted over his veto. It has general applicability, as opposed to a private law that applies only to those persons or entities specifically designated. Public laws are numbered in sequence throughout the 2-year life of each Congress; for example, PL 97-17 would

be the 17th public law of the 97th Congress.

RFA -- A Regulatory Flexibility Analysis (RFA) describes the impact of a proposed rule on small entities as required by the Regulatory Flexibility Act (5 U.S.C. 601). An RFA describes why the agency is considering the action; the objectives of and legal basis for the proposed rule; an estimate of the number of small entities that could be affected and the compliance requirements they would have to fulfill; any other duplicative, overlapping, or conflicting Federal rules; and alternatives to the proposed action. When required, an initial RFA accompanies an NPRM, and a final RFA accompanies a final rule.

RIA -- A Regulatory Impact Analysis is required by E.O. 12291 for all major rules and other regulations designated by the Office of Management and Budget. An RIA is prepared to determine whether a proposed regulatory action meets the requirements of section 2 of E.O. 12291; namely, that it:

- Be based on adequate information concerning the need for and consequences of the action;
- Not be undertaken unless the potential benefits outweigh the potential costs to society;
- Maximize net benefits to society;
- Entail the least net cost to society of the alternatives considered; and
- Take into account the condition of particular affected industries, the national economy, and contemplated future regulatory actions.

RIN -- The Regulation Identifier Number is assigned by the Regulatory Information Service Center to identify each regulatory action listed in the Agenda.

USC -- The United States Code is a consolidation and codification of all general and permanent laws of the United States. The USC is divided into 50 titles and each title covers a broad area of Federal law.

Information About Additional Copies

Additional copies of this edition of the **Federal Register** are available from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, (202) 783-3238.

Copies of individual agency agendas may be available directly from the agency. Please contact the particular agency for further information.

41 CFR, Ch. 4

Semiannual Regulatory Agenda; October 1990

AGENCY: Office of the Secretary, USDA.

ACTION: Semiannual regulatory agenda.

SUMMARY: This agenda provides summary descriptions of major and nonmajor regulations being developed in agencies of the U.S. Department of Agriculture in conformance with Executive Order 12291, Federal Regulation. The agenda also describes regulations affecting small entities as required by section 602 of the Regulatory Flexibility Act, Pub. L. 96-354.

USDA has attempted to list all regulations and regulatory reviews pending at the time of publication, except for minor and routine or repetitive actions, but some may have been inadvertently missed. There is no legal significance to the omission of an item from this listing. Also, the dates shown for the steps of each action are estimated and are not commitments to act on or by the date shown.

FOR FURTHER INFORMATION CONTACT: For further information on any specific entry shown in this agenda, please contact the person listed for that action.

Requests for copies of the agenda should include a self-addressed, stamped envelope and be directed to: Regulatory Agenda, OBPA, Office of the Secretary, Room 147-E, Administration Building, U.S. Department of Agriculture, Washington, DC 20250, (202) 382-1272.

Dated: August 24, 1990.

Jacquelyn C. Patterson,

Chief, Regulatory & Legislative Staff.

Agricultural Marketing Service—Prerule Stage

6. PROPOSED NEW MARKETING AGREEMENT AND ORDER FOR SEEDLESS EUROPEAN CUCUMBERS

Significance: Agency Priority

Legal Authority: 7 USC 601 to 674 Agricultural Marketing Agreement Act of 1937

CFR Citation: 7 CFR 988, (New)

Legal Deadline: None

Abstract: To establish minimum quality standards, container requirements and market promotion. The proposal was submitted by the Greenhouse Vegetable Growers Association. The proposed agreement and order would promote the quality and pack of seedless European cucumbers in the marketplace. In addition, it would enable the establishment of production research and marketing research and development activities to improve production practices and increase the consumption of seedless European cucumbers. The program would be financed by assessments levied on seedless European cucumber handlers. The assessment rate would be recommended by the committee and approved by the Secretary.

10. ● FEDERAL POLICY FOR THE PROTECTION OF HUMAN SUBJECTS

Significance: Regulatory Program

Legal Authority: 5 USC 301; 42 USC 289; 42 USC 300v-1(b)

CFR Citation: 7 CFR 1c

Legal Deadline: None

Abstract: This final rule will add USDA regulations for the protection of human subjects at Title 7 CFR Part 1c to incorporate changes developed by the Interagency Human Subjects Coordinating Committee, Federal Coordinating Council on Science Engineering and Technology (FCCSET). The Committee drafted a common rule for Federal departments and agencies conducting or supporting research involving human subjects which was based on the HHS regulations. This effort was in response to a key recommendation of the President's Commission for the Study of Ethical Problems in Medicine and Biomedical and Behavioral Research in the First Biennial Report in 1981.

11. ● STANDARDS FOR APPROVAL OF WAREHOUSES FOR COTTON OR COTTON LINTERS—BOND REQUIREMENTS FOR STATE OF SOUTH CAROLINA OPERATED WAREHOUSES

Legal Authority: 15 USC 714(b) to 714(c); CCC Charter Act, Sec 4 and 5

CFR Citation: 07 CFR 1427.1085(c)

Legal Deadline: None

Abstract: The State of South Carolina has changed its warehouse law to a licensing law and no longer operates warehouses. This action would remove from the Standards the exception to the bond requirements for warehouses operated by the State of South Carolina Department of Agriculture. No cost to the Government is expected.

12. 1989 CROP PEANUTS NATIONAL POUNDAGE QUOTA

Significance: Agency Priority

Legal Authority: 7 USC 1358; The Agricultural Adjustment Act of 1938, Sec 358, as amended

CFR Citation: None

Legal Deadline: Final, Statutory, December 15, 1989.

Abstract: The objective of this action is to balance supply with demand at levels that assure stable supplies for domestic use and assure producers a stable income. This action is required by legislation, which provides a formula for computing the national quota. The quota must equal the amount estimated to be devoted to domestic edible, seed, and related uses, and may not be less than 1.1 million tons. A net cost of $1 million is expected.

13. 1990 CROP HONEY PRICE SUPPORT PROGRAM

Significance: Agency Priority

Legal Authority: 7 USC 1446(b); The Agricultural Act of 1949, as amended, Sec 207(b)

CFR Citation: 7 CFR 1434.26; 7 CFR 1434.27

Legal Deadline: None

Abstract: Legislation requires that 1990-crop honey be supported at 95 percent of the 1989 level, or $0.5402 per pound. This price support level must be further reduced by $0.0025 per pound under the provisions of the Omnibus Budget Reconciliation Act of 1987. Legislation also provides the Secretary with the discretion to allow loan repayment at a rate below the support level. The objective of a lower repayment rate is to (1) minimize loan forfeitures, (2) avoid excessive stocks, (3) reduce Federal storage costs, and (4) maintain the competitiveness of U.S. honey in domestic and export markets. Determinations to be made are (1) the type of support to offer (loans, purchases, or loans and purchases), and (2) implementation of the lower repayment provision. Federal outlays are expected to be less than $60 million if the lower repayment provision is adopted.

14. 1990 PRICE SUPPORT LEVELS FOR FIVE KINDS OF TOBACCO

Legal Authority: 7 USC 1445; The Agricultural Act of 1949, Sec 106, as amended

CFR Citation: None

Legal Deadline: None

Abstract: To stabilize prices for five kinds of tobacco and comply with statutory requirements, price support levels are set by statutory formula, based on a prices paid index. The Secretary may lower the price support level at the request of producer associations. Increases may be limited to 65 percent of the formula increase. This price support program is expected to result in net Federal receipts of approximately $16 million in FY 1990.

RIN: 0560-AB64

15. 1990 CROP MARKETING QUOTAS AND ACREAGE ALLOTMENTS FOR FIVE KINDS OF TOBACCO

Legal Authority: 7 USC 1312(a) et seq; The Agricultural Adjustment Act of 1938, Sec 312, as amended

CFR Citation: None

Legal Deadline: Final, Statutory, March 1, 1990.

Abstract: Marketing quotas and acreage allotments are required by legislation for these five kinds of tobacco. The purpose of quotas and allotments is to balance supply with demand at levels that assure stable supplies for domestic and export use at prices that are fair to producers. Marketing quota and acreage allotment determinations are based on 10-year average marketings adjusted for trends to yield optimal supplies.

The marketing quota and allotment program is expected to result in net Federal receipts of approximately $15 million in FY 1990.

19. 1991 CROP BURLEY TOBACCO MARKETING QUOTAS AND PRICE SUPPORT LEVEL

Significance: Agency Priority

Legal Authority: 7 USC 1314; The Agricultural Adjustment Act of 1938, as amended, Sec 314; 7 USC 1445; The Agricultural Act of 1949, as amended, Sec 106

CFR Citation: None

Legal Deadline: Final, Statutory, February 1, 1991.

Abstract: Burley marketing quotas and price support are required by legislation. The purpose of quotas and price support is to balance supply with demand at levels assuring stable supplies for domestic and export use at prices that are fair to producers. The national quota is based on manufacturer's intentions to purchase tobacco, 3-year average exports, an adjustment to maintain loan stocks, and a discretionary adjustment of plus or minus 3 percent. The price level is based on a formula that weights average market prices (2/3) and changes in cost of production (1/3), plus discretion to limit any increase to 65 percent of the formula increase. The expected cost to USDA is about $2 million.

29. ● MILK PRICE SUPPORT PROGRAM—FY 1991 REDUCTION IN PRICE RECEIVED BY PRODUCERS

Significance: Regulatory Program

Legal Authority: 7 USC 1446; The Agricultural Adjustment Act of 1949, Sec 201(d)(2)(F); Balanced Budget & Emergency Deficit Control Act, 1985, Sec 252

CFR Citation: 7 CFR 1430.349 to 1430.351

Legal Deadline: None

Abstract: Legislation requires that FY 91 outlays under the Milk Price Support Program be reduced by an 8.8 cent per hundredweight reduction in the price received by producers on all milk produced in the United States and marketed for commercial use. The reduction will be achieved through an assessment on producers. This action adopts the same procedures and regulations that applied to the FY 90 sequester-related reduction that took place during the period 1/1/90 through 1/31/90. USDA outlays will be reduced by at least $130 million through assessments.

40. IMPORTATION OF NURSERY STOCK, PLANTS, ROOTS, BULBS, SEEDS, AND OTHER PLANT PRODUCTS- PHASE I

Significance: Agency Priority

Legal Authority: 7 USC 150dd to 150ff; 7 USC 154; 7 USC 155; 7 USC 157; 7 USC 159; 7 USC 160; 7 USC 162; 7 USC 164a

CFR Citation: 7 CFR 319.37

Legal Deadline: None

Abstract: To prevent the introduction of plant pests and diseases, Plant Protection and Quarantine (PPQ) prohibits or restricts the importation of living plants, roots, bulbs, seeds, and related articles. PPQ is updating the lists of prohibited and restricted articles and is revising the regulatory requirements for importation of various articles. These revisions will allow the importation of certain living plants and related articles under appropriate regulatory controls, and will prohibit the importation of other living plants and related articles.

41. EXOTIC NEWCASTLE DISEASE IN ALL BIRDS AND POULTRY; PSITTACOSIS AND ORNITHOSIS IN POULTRY

Significance: Regulatory Program

Legal Authority: 21 USC 111 to 113; 21 USC 115; 21 USC 117; 21 USC 120; 21 USC 123 to 126; 21 USC 134b; 21 USC 134f

CFR Citation: 9 CFR 82

Legal Deadline: None

Abstract: Exotic Newcastle Disease (also known as viscerotropic velogenic Newcastle disease and as VVND) and psittacosis or ornithosis (now generally referred to as chlamydiosis) are communicable diseases of birds and poultry. The spread of these diseases in the United States could have serious consequences for the United States poultry industry. A review of the Department's regulations to prevent the interstate spread of these diseases indicates the need for a complete revision to make the regulations more effective and to increase compliance with them.

42. ANIMALS DESTROYED BECAUSE OF SCRAPIE

Significance: Regulatory Program

Legal Authority: 21 USC 111; 21 USC 114; 21 USC 114a; 21 USC 134a; 21 USC 134b; 21 USC 134c; 21 USC 134d; 21 USC 134e; 21 USC 134f; 21 USC 134g; 21 USC 134h

CFR Citation: 9 CFR 54

Legal Deadline: None

Abstract: Under the Scrapie Eradication Program and the regulations in 9 CFR Part 54, indemnity for an animal destroyed because of scrapie, a highly transmissible and fatal disease of the central nervous system of sheep and goats, is paid to its owner at fair market value, not to exceed $300 per head. Under the present program, indemnities are paid for affected and bloodline animals only. There is no diagnostic test for the disease and no treatment. The existing Scrapie Eradication Program is not federally mandated and depends upon state efforts and funds, industry cooperation, and reporting by flock owners. APHIS is considering the regulatory option of negotiated rulemaking in order to develop a program which will satisfy animal health needs, industry needs, and State and Federal governmental needs.

43. IMPORTED FIRE ANT

Significance: Regulatory Program

Legal Authority: 7 USC 150bb; 7 USC 150dd; 7 USC 150ee; 7 USC 150ff; 7 USC 161 to 162; 7 USC 164 to 167

CFR Citation: 7 CFR 301

Legal Deadline: None

Abstract: The Department is proposing to revise "Subpart--Imported Fire Ant," which contains quarantine and interstate movement regulations for the containment and control of this destructive plant pest. Executive Order 12291 and Department Regulation 1512-1 require that agencies initiate reviews of currently effective rules to bring about the goal of reduction of regulatory burdens and to minimize impacts on small entities. The proposed rule is part of the scheduled review of "Subpart--Imported Fire Ant" to meet regulatory review requirements. Revising the regulations would make them easier to understand, thereby increasing compliance and the effectiveness of the regulations in preventing the interstate spread of the imported fire ant.

44. IMPORTATION OF CERTAIN ANIMALS AND POULTRY AND CERTAIN ANIMAL AND POULTRY PRODUCTS—COMMUNICABLE ANIMAL DISEASES

Significance: Agency Priority

Legal Authority: 7 USC 1622; 19 USC 1306; 21 USC 102 to 105; 21 USC 111; 21 USC 134a; 21 USC 134b; 21 USC 134c; 21 USC 134d; 21 USC 134f; 21 USC 135; 31 USC 9701

CFR Citation: 9 CFR 92

Legal Deadline: None

Abstract: The Department currently regulates the importation of certain animals and animal products to prevent the introduction of communicable animal diseases into the United States. With certain exceptions, most animals imported into the United States must be quarantined upon arrival at facilities operated by the Federal Government; only sheep, birds, and horses may be quarantined in privately-operated facilities. Some importers have expressed interest, however, in importing ruminants and swine, other than sheep, in greater numbers per shipment than can be handled at existing Federal facilities. The Department is considering amending the regulations to allow all species of domesticated ruminants and swine, from countries free of certain serious diseases, to be quarantined upon arrival in the United States at privately operated facilities.

45. NOTICE OF INTENT TO REGULATE HORSES AND FARM ANIMALS AND ACTIVITIES INVOLVING THESE ANIMALS UNDER THE ANIMAL WELFARE ACT, ADVANCE NOTICE OF PROPOSED RULEMAKING

Significance: Agency Priority

Legal Authority: 7 USC 2131 to 2157

CFR Citation: 9 CFR 1; 9 CFR 2; 9 CFR 3

Legal Deadline: None

Abstract: The Department is authorized to regulate the treatment of certain horses and other farm animals under the Animal Welfare Act (the Act). Under the Act, the Department is authorized to regulate the treatment of horses used for research purposes, and is authorized to regulate the treatment of other farm animals, unless those animals are used or intended for use as food or fiber, for breeding management or production efficiency, or for improving the quality of food fiber. As a matter of policy, however, the Department has not been regulating such horses and other farm animals. However, because of the increasing use of these animals for research purposes, the Department is giving notice of its intent to regulate such animals, and is requesting comments on standards to be developed for the inclusion of these animals under the regulations. These actions will help ensure that the animals are treated humanely, in accord with the Act.

46. NATIONAL ENVIRONMENTAL POLICY ACT IMPLEMENTING REGULATIONS

Significance: Regulatory Program

Legal Authority: 40 USC 4321

CFR Citation: 7 CFR 372 (New)

Legal Deadline: None

Abstract: The National Environmental Policy Act (NEPA) (42 USC 4321, et. seq.) and the regulations promulgated by the Council on Environmental Quality (CEQ) (40 CFR 1500 et. seq.) require that every Federal Agency establish procedures to implement NEPA. The proposed APHIS NEPA Implementing Regulations have been developed to ensured compliance with NEPA and are consistent with the Regulations of CEQ for Implementing the Procedural Provisions of NEPA (40 CFR 1500-1509) and the USDA Regulations for Implementing NEPA (7 CFR lb). These Agency-specific regulations will enable APHIS decision makers to reach decisions in which environmental concerns are fully reviewed and will ensure timely public involvement in the NEPA process. The regulations will identify Agency actions, requirements, guidance, and references for completion of environmental assessments, and environmental reviews. The new APHIS NEPA Implementing Regulations will supersede the previous issues, APHIS Guidelines for Implementing NEPA Procedures (44 FR 50381-50384 and 44 FR 51272-51274), upon publication of the final rule.

47. CYCLICAL REVIEW OF 9 CFR PART 92, PHASE II

Significance: Regulatory Program

Legal Authority: 7 USC 1622; 19 USC 1306; 21 USC 102; 21 USC 103; 21 USC 104; 21 USC 105; 21 USC 111; 21 USC 134a; 21 USC 134b; 21 USC 134c; 21 USC 134d; 21 USC 134f; 21 USC 135; 31 USC 9701

CFR Citation: 9 CFR 92

Legal Deadline: None

Abstract: The Department intends to reorganize and revise the regulations in 9 CFR Part 92, which, among other things, govern the importation into the United States of certain animals and poultry, and certain animal and poultry products. Executive Order 12291 and Departmental Regulation 1512-1 require that agencies periodically review current regulations. The Cyclical Review of Part 92 is such a review. Reorganizing and revising the regulations in Part 92 would make them easier to understand, thereby increasing compliance and the effectiveness of the regulations in preventing the introduction into the United States of various diseases of livestock and poultry.

The Department is conducting this Cyclical Review in several phases. Phase II is a revision of a portion of the existing regulations. Later phases will consist of revisions of other portions of the existing regulations.

48. IMPORTATION OF CERTAIN ANIMAL EMBRYOS

Significance: Agency Priority

Legal Authority: 21 USC 103; 21 USC 104; 21 USC 105; 21 USC 111; 21 USC 134a; 21 USC 134b; 21 USC 134c; 21 USC 134d; 21 USC 134f

CFR Citation: 9 CFR 98

Legal Deadline: None

Abstract: The Department regulates the importation of certain animals, animal products, and animal embryos, to prevent the introduction of communicable animal diseases into the United States. Under the current regulations, cattle embryos may not be imported into the United States from countries where rinderpest or foot-and-mouth disease exists. This limits the importation of cattle germplasm to live animals and semen. Live cattle from countries where rinderpest or foot-and-mouth disease exist may be imported through the Harry S. Truman Animal Import Center; importations of animal semen do not provide complete genetics. The Department is considering amending the regulations to establish conditions under which cattle embryos could be imported from countries where rinderpest or foot-and-mouth disease exists.

50. RUMINANTS AND SWINE IMPORTED FROM FOOT-AND-MOUTH-DISEASE COUNTRIES

Significance: Agency Priority

Legal Authority: 7 USC 1622; 19 USC 1306; 21 USC 102 to 105; 21 USC 111; 21 USC 134a to 134d; 21 USC 134f; 21 USC 135; 31 USC 9701

CFR Citation: 9 CFR 92

Legal Deadline: None

Abstract: Current regulations prohibit, with certain limited exceptions, the importation of ruminants and swine from countries where foot-and-mouth disease (FMD) exists. However, the regulations are unclear with respect to the application of this prohibition to animals that originate in an FMD country but are moved to a FMD-free country and are then offered for importation into the United States. Veterinary Services is developing regulations to clarify import restrictions for these situations.

52. HORSE PROTECTION INSPECTION GUIDELINES

Significance: Agency Priority

Legal Authority: 15 USC 1823 to 1825; 15 USC 1828; 44 USC 3506

CFR Citation: 9 CFR 11

Legal Deadline: None

Abstract: Horses whose treatment is regulated under the Horse Protection Act are subject to inspection by licensed Designated Qualified Persons (DQP's). As part of the licensing process, DQP's are trained in procedures for examining a horse prior to exhibition. However, the regulations in 9 CFR Part 11 do not contain detailed procedures for conducting inspections. In order to ensure a uniform and adequate inspection of all horses examined by DQP's, the Department is proposing to add such detailed procedures to the regulations. Setting forth these procedures will enable DQP's to better protect horses through more thorough and uniform inspections.

53. IMPORTATION OF HORSES FROM COUNTRIES AFFECTED WITH CONTAGIOUS EQUINE METRITIS

Significance: Agency Priority

Legal Authority: 7 USC 1622; 19 USC 1306; 21 USC 102 to 105; 21 USC 111; 21 USC 134a to 134d; 21 USC 134f; 21 USC 135; 31 USC 9701

CFR Citation: 9 CFR 92

Legal Deadline: None

Abstract: The regulations covering importation of horses from countries affected with Contagious Equine Metritis (CEM) contain requirements for testing and treating horses in the country of origin. Some of the requirements are duplicative of requirements in the United States. Also, the removal of the clitoral sinuses, required of some mares in the country of origin, could be done in the United States without increasing disease risks. The Department is proposing to amend the regulations to eliminate unnecessary testing and treatment in the country of origin and to allow clitoral sinusectomies to be carried out in the United States. These amendments would eliminate unnecessary restrictions from the regulations, while continuing to ensure that CEM is not introduced into the United States. Also, the regulations do not provide criteria for the approval of laboratories in the United States for CEM culturing and testing. The Department is proposing to add such criteria. Such criteria would help ensure that CEM culturing and testing in the United States is being done accurately.

55. IMPORTATION OF CERTAIN ANIMALS AND POULTRY AND CERTAIN ANIMAL AND POULTRY PRODUCTS—PREVENTION OF POULTRY DISEASES

Significance: Agency Priority

Legal Authority: 7 USC 1622; 19 USC 1306; 21 USC 102 to 105; 21 USC 111; 21 USC 134a to 134d; 21 USC 134f; 21 USC 135; 31 USC 9701

CFR Citation: 9 CFR 92

Legal Deadline: None

Abstract: The Department currently regulates the importation of poultry and poultry products, including eggs for hatching, to prevent the introduction of certain poultry diseases into the United States. These regulations need to be revised to add restrictions to prevent the introduction of Salmonella enteritidis, serotype enteritidis, phage-type 4 (referred to below as S. enteritidis, phage-type 4), a virulent type of Salmonella that has not been detected in poultry flocks in the United States. Canada is the only country other than the United States in which poultry flocks are recognized as being free of S. enteritidis, phage-type 4. Because poultry and poultry eggs for hatching are being imported from countries where this organism is considered to exist, the Department needs to take prompt action to prevent

USDA—APHIS

Final Rule Stage

its introduction into the United States. Safeguards under consideration include testing of individual poultry of the flock of origin in the country of origin, and testing and inspection during quarantine in the United States.

Legal Deadline: None

Abstract: USDA/CSRS is in the process of developing Research Guidelines for the Planned Introduction into the Environment of Organisms with Modified Hereditary Traits. USDA plans to publish these research guidelines for public comment including several public meeting across the country. The Department's current intent is to use these research guidelines as an internal policy instrument to assist agricultural researchers and USDA research funding agencies in satisfying their obligations under the National Environmental Policy Act.

64. PROPERTY MANAGEMENT

Legal Authority: 7 USC 1989; 42 USC 1480; 5 USC 301; 7 CFR 2.23; 7 CFR 2.70

CFR Citation: 7 CFR 1955

Legal Deadline: None

Abstract: Create a new Subpart D to cover liquidation of Single Family Housing (SFH) loans, and management and sale of SFH inventory property; and revise existing Subparts A, B, and C to have them apply to all programs other than SFH. Costs to create new subpart and revise and/or amend existing ones is minimal and would enhance all programs' ability to revise and/or amend the regulations with reduced clearances and provide personnel with clearer and simpler regulations to follow and implement. Will avoid "tie-up" of the regulations for one program subject to changes mandated by legislation or court order for another program, such as SFH changes being held up subject to Farmer Program changes being completed as has frequently been the case.

66. RECAPTURE OF SECTION 502 RURAL HOUSING SUBSIDY

Significance: Agency Priority

Legal Authority: 42 USC 1480; 5 USC 301; 7 CFR 2.23; 7 CFR 2.70

CFR Citation: 7 CFR 1951 Subpart I

Legal Deadline: None

Abstract: The Farmers Home Administration (FmHA) proposes to revise the regulation for the recapture of subsidy granted on Section 502 Rural Housing Loans. This action is necessary because of an accounting system change resulting from the September 1987 congressionally mandated rural housing asset sale. The intended effect of this action is to adjust the formula to coincide with the revised method of applying monthly subsidy to interest credit accounts. In addition, this action will also shorten and simplify the recapture process.

68. SECURITY SERVICING FOR MULTIPLE HOUSING LOANS

Legal Authority: 42 USC 1480

CFR Citation: 7 CFR 1930; 7 CFR 1944; 7 CFR 1965; 7 CFR 1956, Subpart B

Legal Deadline: None

Abstract: This regulation is being revised to provide clarification on the processing differences between membership changes and transfers, to broaden the ability to consolidate and reamortize loans, to clarify actions to be taken during a bankruptcy, and to clarify and discuss the classification of problem loans and their resolution, along with other minor revisions. These revisions are needed so as to provide more complete guidance to field staff and borrowers on the topics discussed above. Potential costs consist of administrative time involved with Agency personnel drafting and completing regulation. No alternatives were identified as being appropriate to address the several problems being corrected with this regulation. Regulations to broaden the ability to consolidate and reamortize loans were issued for prior rulemaking (FR Vol. 54 Nbr. 248) on December 28, 1989 with public comments accepted through February 26, 1990. Regulations governing multi-housing debt settlements were published for prior rulemaking (FR Vol. 54 Nbr. 133) on July 18, 1989 and the public comment period has closed.

72. SECONDARY MARKET FOR FARMER PROGRAM LOANS

Significance: Regulatory Program

Legal Authority: 7 USC 1988 Consolidated Farm and Rural Devel. Act (amendment); PL 100-233 Sec 711 Agricultural Credit Act of 1987

CFR Citation: 7 CFR 1980

Legal Deadline: Final, Statutory, July 6, 1988.
PL 100-233, Sec 711, states: "Within 180 days after the date of the enactment of this Act, the Secretary shall develop and promulgate final regulations to implement this section (cont)

Abstract: Legislation mandates that the Secretary develop procedures to facilitate, administrate and promote secondary market operations for FmHA guaranteed farm loans. It is suggested that the Secretary, directly or through a market maker, provide for the pooling of guaranteed loans and the issuance and sale of certificates backed by those loan pools. Through this procedure, secondary market activities could be promoted and expanded, thereby increasing the supply of loan money in rural areas to allow rural banks to increase their lending activity to farmers, rural businessmen and residents. Obtaining the services of a private agent to act as a central registry and fiscal agent is the favored alternative expected to successfully meet the legislative mandate. Another alternative considered is establishing an in-house capability to track the sale of guaranteed loans and trans'e: payments as required, but this option would require substantial personnel and other Agency resources and would prove extremely expensive.

Legal Authority: 42 USC 1484; 42 USC 1486

CFR Citation: 7 CFR 1944, Subpart D

Legal Deadline: None

Abstract: The Farmers Home Administration (FmHA) proposes to amend its Farm Labor Housing regulations. This action is in response to the general public and FmHA staff requests for clarification of the Farm Labor Housing regulations. The intended effect is to provide more comprehensive guidance to applicants when applying for farm labor housing loans and grants: (1) make certain paragraphs consistent with other related parts and other housing regulations; (2) redefine terminology to ensure appropriate implementation of

USDA—FmHA — Proposed Rule Stage

program eligibility standards: (3) incorporate provision of the Housing and Urban Recovery Act of 1983; housing amendments of 1984, 85 and 86; and (4) provide direction to FmHA State and District Office personnel through separate processing instructions.

77. FARMER PROGRAM LOANS

Significance: Regulatory Program

Legal Authority: 7 USC 1989

CFR Citation: 7 CFR 1980

Legal Deadline: None

Abstract: The problem is the need to reduce the Government's cost of providing financial assistance to Farmer Programs Borrowers. Lenders and Loan applicants prefer that applicants use the insured loan programs rather than the guaranteed programs due to the lower interest rates on insured loans. This regulation will provide for a government subsidy to lenders for interest rates for guaranteed Farmer Programs loans so the borrower will be paying interest rates for guaranteed loans that is similar to insured loans. This should provide an incentive for using the guaranteed loan program. The potential cost to the Government will be reduced as the Government will only pay a lender up to 90 percent of the losses on loans and only part of the interest rate rather than loaning a borrower the full amount of the loan and paying an investor the full cost of the Government borrowing the money for an insured loan. The benefit is that the borrower will be paying an interest rate for guaranteed loans that is comparable to that for insured loans, the lender will receive the subsidy for the lower interest rate, and the Government (cont)

78. CONSERVATION EASEMENTS ON INVENTORY PROPERTY

Significance: Regulatory Program

Legal Authority: 7 USC 1989

CFR Citation: 7 CFR 1951; 7 CFR 1955

Legal Deadline: None

Abstract: Present regulations require the Agency to place conservation easements on inventory farm property. Previous owner and operators have the option of leasing back or buying back such property from inventory. This regulation revision will allow these parties to lease or buy these properties back with limited easements. There should be little cost involved for the Government as the value of the easement is reflected in the lease or sale value of the property. It is estimated that less than seven percent of the inventory farm property is involved. The benefit is that the previous owner/operator will receive the property back in a similar condition as when it was taken into inventory, and the Federal Government will be taking affirmative action to reduce wetland loss.

79. CIVIL RIGHTS COMPLIANCE REQUIREMENTS - 1940-D

Significance: Agency Priority

Legal Authority: 7 USC 1989; 42 USC 1840; 5 USC 301; 16 USC 3844; 40 USC 442; 42 USC 2942; EO 11246

CFR Citation: 7 CFR 15; 7 CFR 2.23; 7 CFR 2.70

Legal Deadline: None

Abstract: Will effectuate a comprehensive civil rights regulation implementing the following laws: The Equal Credit Opportunity Act (ECOA), Title VIII of the Civil Rights Act of 1968, as amended by the Fair Housing Amendments Act of 1988 (The Fair Housing Act), Title VI of the Civil Rights Act of 1964 (Title VI) Section 504 of the Rehabilitation Act of 1973 (Section 504), The Age Discrimination Act of 1975, and Executive Order 11246.

The revised regulations will provide detailed guidelines for field officers for improved enforcement and compliance with these laws which heavily impact FmHA's programs. Mechanisms for monitoring compliance by field officers and recipients of FmHA's financial assistance at all levels will decrease the Agency's vulnerability due to noncompliance with recently enacted civil rights legislation.

Legal Deadline: None

Abstract: Revision to incorporate provisions of Housing and Community Development Act of 1987 (PL 100-242) regarding the definition of "Domestic Farmworker," that determine the eligibility of such farmworkers to occupy housing financed under the Farm Labor Housing Program. Revisions also incorporate provisions of Omnibus McKinney Homeless Assistance Act of 1988 (PL 100-628) to permit other than farmworker occupancy when no demand by such persons.

88. PROCESSING AND SERVICING FMHA ASSISTANCE TO EMPLOYEES, RELATIVES AND ASSOCIATES

Legal Authority: 7 USC 1988, Sec 336b

CFR Citation: 7 CFR 1900 Subpart D

Legal Deadline: None

Abstract: FmHA Instruction 2045-BB, Employee Responsibilities and Conduct (available in any FmHA office), requires the maintenance of high standards of honesty, integrity, and impartiality by employees. Within the limitations of that instruction and specific program restrictions, FmHA employees, family members, close relatives and other associates are eligible to receive certain types of FmHA loan and grant assistance. To assure that employee conduct is above reproach, any processing, approval, servicing or review activity is conducted only by authorized FmHA employees who (1) are not themselves the recipient; (2) are not family members or close relatives of the recipient; (3) do not have an immediate working relationship with the recipient, the employee related to the recipient, or the employee who would normally conduct the activity; or (4) do not have a business or close personal relationship with the recipient, the employee related to the recipient or the employee who would normally conduct the activity. Nothing in this instruction takes precedence over individual program requirements or restrictions.

89. ADVERSE DECISIONS AND ADMINISTRATIVE APPEALS FMHA INSTRUCTION 1900-B

Significance: Agency Priority

Legal Authority: 7 USC 1989; 42 USC 1480; 5 USC 301; 7 CFR 270

CFR Citation: 7 CFR 1900 Subpart B

Legal Deadline: Final, Statutory, July 1, 1987.
The Agency was required to implement the Act within 150 days of its enactment on January 6, 1988.

Abstract: The Agency proposes to amend FmHA instruction 1900-B, "Adverse Decisions and Administrative Appeals" to provide for multi-party appeal hearings for denials of leaseback/buyback and homestead protection rights and the sale of suitable farmland to eligible applicants. No other alternatives are available since this action is necessary as a result of Section 611 of the Agricultural Credit Act of 1987, and will be published as an interim rule with comment period.

96. DISASTER ASSISTANCE FOR RURAL BUSINESS ENTERPRISES

Significance: Agency Priority

Legal Authority: 7 USC 1989 Consolidated Farm and Rural Development Act; PL 101-82, Sec 401

CFR Citation: 7 CFR 1980

Legal Deadline: None

Abstract: Section 401 of the Disaster Assistance Act of 1989 mandated that the Secretary of Agriculture guarantee loans made by private sector lenders to rural business entities which experienced losses or financial distress as the direct or indirect result of drought, freeze, storm, earthquake, excessive moisture or related conditions occurring in 1988 or 1989. The refinancing of existing loans, hotels, motels, tourist and recreation facilities and certain agricultural production are eligible purposes for guaranteed loans. FmHA modified its existing Business and Industry (B & I) guaranteed loan program to implement the Disaster Assistance Act of 1989, using B & I rules as to eligibility, application, loan making and loan servicing except where the statute requires otherwise.

153. FEES FOR FEDERAL AFLATOXIN TESTING AND FALLING NUMBER DETERMINATION SERVICES

Legal Authority: 7 USC 1621 et seq

CFR Citation: 7 CFR 68

Legal Deadline: None

Abstract: The Federal Grain Inspection Service (FGIS or Service) proposes to establish an hourly rate and laboratory fee for a new type of aflatoxin test performed under the Agricultural Marketing Act of 1946 (AMA). In addition, FGIS proposes to establish a unit fee for the aflatoxin test kit. The unit fee will be assessed in addition to the hourly rate when the test is performed at the point of service. The laboratory fee, assessed when the test is performed at the FGIS Commodity and Testing Laboratory in Beltsville, Maryland, will include the test and the aflatoxin test kit. FGIS is also proposing to increase the hourly rate and laboratory fee for falling number determination services. These proposed fees are intended to recover as nearly as practicable, projected operating costs, which include related supervisory and administrative costs, and to maintain reasonable operating reserves. The unit fee for the aflatoxin test kit will cover, as nearly as possible the cost of each test kit used in the aflatoxin tests.

154. REGULATIONS UNDER THE UNITED STATES GRAIN STANDARDS ACT; REG. REVIEW

Legal Authority: 7 USC 71 to 87

CFR Citation: 7 CFR 800

Legal Deadline: None

Abstract: Under the requirements of Executive Order 12291 to periodically review all existing regulations, and USDA Departmental Regulation 1512-1 to conduct each such review within a five year timeframe, the Federal Grain Inspection Service will review its General Regulations under the United States Grain Standards Act. To simplify and promote a better understanding of policies and procedures, FGIS will be proposing changes to the regulations. Alternatives will be considered after receipt of public comments.

Legal Deadline: None

Abstract: Based upon recommendations of the Grain Quality Workshops (which includes representatives from different segments of the industry, government, and academia), and from the National Grain Sorghum Producers Association as well other sources of information, FGIS will propose changes to the sorghum standards. Changes will be proposed to offer end-users the best possible information from which to determine end-product yield and quality, and facilitate the marketing of sorghum. Alternatives will be considered after evaluation of public comments.

156. UNITED STATES STANDARDS FOR RICE

Legal Authority: 7 USC 1621 to 1627

CFR Citation: 7 CFR 68.201 to 68.316

Legal Deadline: None

Abstract: Waxy varieties of rice being grown in the United States are being downgraded under current rice standards because of their chalky characteristic. In the current market for this rice, the chalky characteristic is not a detriment. The Federal Grain Inspection Service will propose establishment of a subclass for this short grain rice to facilitate its marketing. Alternatives will be considered after receipt of public comments.

158. UNITED STATES STANDARDS FOR SOYBEANS

Legal Authority: 7 USC 75a; 7 USC 76

CFR Citation: 7 CFR 810

Legal Deadline: None

Abstract: According to the requirements of Executive Order 12291 and Departmental Regulation 1512-1 regarding periodic reviews of existing regulations, the Federal Grain Inspection Service will review the United States Standards for Soybeans. Public comment will be requested on various aspects of the Standards including tolerances, grading limits, definitions, language clarity and other potential improvements.

160. FEES FOR RICE INSPECTION AND LABORATORY TEST SERVICES

Legal Authority: 7 USC 1621 et seq

CFR Citation: 7 CFR 68

Legal Deadline: None

Abstract: FGIS proposes to increase fees for rice inspection services performed under the Agricultural Marketing Act of 1946, and revise the laboratory test fee schedule for commodities by adding new tests to the fee schedule and eliminating others that are no longer being performed. Additionally, it is being proposed to establish a unit fee per hundred weight (cwt) for all rice inspection services performed on lots at rest at export locations, e.g. condition examination of sacked rice at a dockside warehouse.

Legal Authority: PL 100-435, Sec 603

CFR Citation: 7 CFR 275

Legal Deadline: NPRM, Statutory, October 1, 1985.
Retroactive for Fiscal Year 1985 Quality Control payment error rate liability claims.

Abstract: This regulatory action is required because the Hunger Prevention Act of 1988 (PL 100-435) revised the Food Stamp Act of 1977, as amended, specifying that Food Stamp Program quality control (QC) payment error rate (PER) liability appeals by State agencies be conducted by Administrative Law Judges. The use of Administrative Law Judges replaces the current appeal process which is conducted by the State Food Stamp Appeals Board. This regulation will delineate the procedures to be followed in these QC appeals. (88-011)

168. MISCELLANEOUS QC PROVISIONS OF HUNGER PREVENTION ACT OF 1988

Significance: Agency Priority

Legal Authority: PL 100-435, Sec 602; PL 100-435, Sec 604(1)

CFR Citation: 7 CFR 275

Legal Deadline: NPRM, Statutory, October 1, 1988.

Most of the changes are retroactive for Fiscal Year 1988 Quality Control payment error rate liability claims.

Abstract: This regulatory action is required because the Hunger Prevention Act of 1988 (PL 100-435) modified the Food Stamp Program quality control (QC) system provisions of the Food Stamp Act of 1977, as amended. Section 602 requires that State agencies be charged interest on unpaid QC payment error rate (PER) liability claims from the date the billing is received by the State agency, unless the State agency appeals the billing. If the State agency appeals, interest will begin to accrue from the date of the appeal decision or 2 years from the date the billing is received by the State agency, whichever is earlier. Section 604 revised the provisions for paying State agencies enhanced administrative funds for low PERs. It also revises the threshold for State agencies' liabilities for excessive payment error rates. Finally, it provides that PER liability claims will be assessed based on a State agency's total allotments issued, rather than as a percentage of administrative costs. [89-021]

169. SPECIAL SUPPLEMENTAL FOOD PROGRAM FOR WOMEN, INFANTS AND CHILDREN (WIC): FOOD DELIVERY SYSTEMS

Significance: Agency Priority

Legal Authority: 42 USC 1786

CFR Citation: 7 CFR 246

Legal Deadline: None

Abstract: The proposed food delivery regulations will strengthen and improve vendor management and food instrument accountability. Vendor management areas addressed include: selection, training, high-risk identification and monitoring, sanctions, and appeals. Among the additional areas covered are: dual participation, food instrument reconciliation, and food instrument security. The proposed changes are being made in response to a recent audit by the Office of the Inspector General, and program deficiencies identified through management evaluations and ongoing contact with State agencies. This regulation will control potential program vendor and participant abuse and result in more efficient use of program funds.

170. OUTCOME-BASED PERFORMANCE STANDARDS FOR FOOD STAMP EMPLOYMENT AND TRAINING PROGRAMS

Significance: Regulatory Program

Legal Authority: PL 100-435

CFR Citation: 7 CFR 271; 7 CFR 273

Legal Deadline: Final, Statutory, April 1, 1991.

The new performance standards as required by regulations must be implemented by States by April 1, 1991.

Abstract: The Hunger Prevention Act of 1988 mandates that the U.S. Department of Agriculture change the basis of its performance standards for Food Stamp Employment and Training programs from process-based to outcome-based measures. The new standards must be implemented by April 1991. Consequently, the Food Stamp regulations must be revised to reflect the new measurement criteria for performance and the methodology for computing the new standards.

Proposed Rule Stage

Legal Deadline: Final, Statutory, July 1, 1990.

Abstract: Public Law 101-147 requires the Secretary to develop a unified accountability system to ensure local compliance with National Lunch Program requirements. Under this proposed rule, Regional Offices are required to conduct management evaluations of each State agency's administration of the program. State agencies are required to conduct supervisory assistance reviews of all large SFAs at least once during a 3 year review cycle and of all small SFA's at least once during a 5 year review cycle. Follow-up reviews are required of all large SFA's exceeding a review threshold and of 25% of the small SFA's exceeding the threshold. Regional Offices may assist State agencies in the conduct of any review or the Regional Office may conduct a review in the place of the State agency. Reviews conducted by the Regional Office in accordance with the provisions of the proposed supervisory assistance review requirements, will be counted toward the SA review requirements.

A number of alternatives exist within the framework envisioned in this proposal. CND expects the request for comments to elicit a number of alternatives which may improve the proposed (cont)

Legal Deadline: Other, Statutory, October 1, 1988.
Deadline for interim final rule

Abstract: This rule establishes procedures for State agencies to use to participate in the Systematic Alien Verification for Entitlements (SAVE) system. As required by IRCA, the Immigration and Naturalization Service (INS) implemented this system. IRCA requires the Food Stamp Program (FSP) and certain other entitlement programs to use SAVE to verify the immigration status of aliens applying for benefits. The rule also provides guidelines for Federal reimbursement of administrative costs. In addition the rule implements nondiscretionary provisions of IRCA requiring all household members to attest to their citizenship or alien status and certain requirements relating to documentation of alien status. 176. EMPLOYMENT AND TRAINING REQUIREMENTS - NONDISCRETIONARY PROVISIONS FROM THE HUNGER PREVENTION ACT OF 1988

Significance: Agency Priority

Legal Authority: PL 100-435

CFR Citation: 7 CFR 272; 7 CFR 273

Legal Deadline: Other, Statutory. Sec. 404(c) of PL 100-435 is effective July 1, 1989. The Remaining provisions are effective October 1, 1988.

Abstract: This interim rule amends Food Stamp Program regulations to implement certain provisions of the Hunger Prevention Act of 1988, Public Law 100-435, 102 Stat.1645 (1988). These provisions are intended to improve the operation of the Food Stamp Employment and Training (E&T) Program by: (1) a clarification that educational programs or activities to improve basic skills or employability are allowable food stamp E&T activities; (2) the establishment of a conciliation procedure to resolve disputes involving participation in the E&T Program; (3) increasing the reimbursement for dependent care costs under the E&T Program to up to $160 per dependent per month; (4) the exclusion of any payment made to and E&T participant for work related expenses or for dependent care from consideration as income under the Food Stamp Program; (5) a clarification that Federal funds made available to a State agency for an educational component cannot be used to supplant non-Federal funds for existing services and activities that promote the purposes of that component;(cont)

177. SPECIAL SUPPLEMENTAL FOOD PROGRAM FOR WOMEN, INFANTS AND CHILDREN NON-DISCRETIONARY FUNDING RULE

Significance: Agency Priority

Legal Authority: 42 USC 1786

CFR Citation: 7 CFR 246

Legal Deadline: Final, Statutory, October 1, 1989.
The law made these provisions effective October 1, 1989.

Abstract: This regulation would set forth the major revisions to the funds allocation process brought about by Public Law 101-147. The objective of

USDA—FNS

Final Rule Stage

this action is to provide guidelines for the allocation of funds, including changes in the administrative funding structure, breastfeeding targets, and conversion of food funds to administrative funds.

The revised funding structure eliminates the 20 percent limit on administrative and program services funds. Instead, administrative and program services funding will be determined based on a national administrative grant per person. In addition, State agencies must spend at least $8 million for breastfeeding promotion in addition to the current 1/6 nutrition education requirement. For those State agencies that achieve participation increases above the federal projected level through acceptable measures such as cost containment, curtailment of vendor abuse, and breastfeeding promotion activities, conversion of food funds to cover administrative expenses is authorized. Finally any State agency using a cost containment measure may temporarily borrow 1st quarter funds to pay 4th quarter expenses.(cont)

180. AUTOMATIC EXPIRATION SYSTEM FOR APPROVED LABELS

Legal Authority: 21 USC 451 et seq; 21 USC 601 et seq

CFR Citation: 9 CFR 317; 9 CFR 381

Legal Deadline: None

Abstract: This advanced notice of proposed rulemaking would solicit comments and information from the public regarding the need for a system whereby industry labels will have an automatic expiration date upon approval. The information is requested to determine whether approved labels that are no longer in use should remain in the data base and also determine whether this information will benefit both the public and the Agency by improving our responsiveness to label inquiries and enforcement of changes in labeling regulations.

181. PROCESSING, DISTRIBUTION, STORAGE, AND RETAIL HANDLING OF READY- TO-EAT, UNCURED, PERISHABLE MEAT AND POULTRY PRODUCTS PACKAGED IN SEALED CONTAINERS

Significance: Agency Priority

Legal Authority: 21 USC 451 et seq; 21 USC 601 et seq

CFR Citation: 9 CFR 308; 9 CFR 318; 9 CFR 320; 9 CFR 381

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat and poultry products inspection regulations to establish new requirements governing ready-to-eat, uncured, perishable meat and poultry products that are packed in sealed containers bearing a "Perishable, Keep Refrigerated," or similar label

USDA—FSIS — Prerule Stage

statement. Examples of such products include, but are not limited to, soups, sauces, pastas, salads, and entrees.

182. NON-RESIDUE LABELING CLAIMS ABOUT ANIMAL PRODUCTION PRACTICES

Legal Authority: 21 USC 451 et seq; 21 USC 601 et seq

CFR Citation: 9 CFR 317; 9 CFR 381

Legal Deadline: None

Abstract: This advanced notice of proposed rulemaking would seek information and solicit comments from the public regarding the use of labeling claims on meat and poultry products reflecting various animal production practices; e.g., "raised in fresh air and the sunshine," "grass fed," and "drinks pure spring water." Although some animal production claims have been permitted to be made on labels of meat and poultry products, FSIS is concerned that substantiating documentation currently required may not be sufficient to adequately support some of these claims. This action is taken to determine what kinds of claims should be permitted, what level of verification is necessary, and how and by whom such verification should be conducted.

183. REQUIREMENTS FOR PARTIALLY DEFATTED MEAT PRODUCTS

Significance: Regulatory Program

Legal Authority: 21 USC 601 et seq

CFR Citation: 9 CFR 318; 9 CFR 319

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat inspection regulations to establish standards of identity and composition, and temperature and handling requirements for partially defatted meat products. This action would also allow for use of these products in a greater number of meat food products at higher use levels, and would assure accurate labeling to prevent commercial misrepresentation of such products.

187. CERTAIN PRODUCTS WITH MEAT INGREDIENTS—EXEMPTIONS FROM DEFINITION OF A "MEAT FOOD PRODUCT"

Legal Authority: 21 USC 601 et seq

CFR Citation: 9 CFR 301; 9 CFR 303

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat inspection regulations to exclude specific products and classes of products containing meat, meat byproducts, and/or meat food products from the definition "meat food product" and thereby would exempt these products from Federal inspection. The proposal identifies two broad conditions for exemption: (1) products containing 3 percent or less of raw meat or other portion of any carcass, or less than 2 percent of cooked meat or other portion of any carcass, and (2) products that historically have not been considered by consumers as products of the meat food industry. This proposal would replace current informal standards for exemptions with formal, codified exemptions.

188. ADDITIONAL TRICHINA DETECTION METHODS

Legal Authority: 21 USC 601 et seq

CFR Citation: 9 CFR 318

Legal Deadline: None

Abstract: This proposed rule would amend the regulations to permit use of an approved method for examining swine for evidence of trichinosis. The Food Safety and Inspection Service (FSIS) has been petitioned by a manufacturer of serological tests to amend the Federal meat inspection regulations to approve the use of immunoassays for the examination of swine for evidence of trichinosis infection. FSIS has reviewed the performance of the petitioner's assay in a laboratory where sera prepared by the Agency were tested by a precisely defined procedure and has concluded that immunoassays can effectively detect evidence of trichinosis in swine.

190. REQUIREMENTS FOR THE PRODUCTION OF FERMENTED SAUSAGE

Legal Authority: 21 USC 601 et seq

CFR Citation: 9 CFR 318; 9 CFR 320

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat inspection regulations to establish specific requirements concerning processing procedures used in the production of semi-dry and dry fermented sausages. Currently, the Agency has only general requirements concerning the processing procedures for these products. This proposal will provide that a manufacturer of semi-dry and/or dry fermented sausages use either a model good manufacturing practice (GMP) procedure with specified or described critical control points, process control limits, and monitoring activities; or an approved processing procedure from a processing authority who would define the critical control points, process control limits, and monitoring activities for each processing procedure. In addition, the proposal requires that all processes for semi-dry and/or dry fermented sausages comply with a set of validation criteria to assure the product is not adulterated. The proposed rule provides the necessary processing requirements to assure that the production of fermented meat food products does not result in adulterated products.

191. USE OF VARIOUS BINDERS IN CURED PORK PRODUCTS

Legal Authority: 21 USC 601 et seq

CFR Citation: 9 CFR 318; 9 CFR 319

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat inspection regulations to permit the use of food starch modified and other binders as water retention agents in cured pork products. FSIS has been petitioned by the Corn Refiners Association, Inc., Washington, DC, for the approval of food starch modified at a rate not to exceed 2 percent to enable ham processors to formulate products which will better meet the needs of consumers and food service operators. FSIS is amending the regulations to add this binder to the table of approved substances as requested by the petitioner. FSIS is also amending the regulations to add several other binders for use as water retention agents in cured pork products.

200. PROCESSING REQUIREMENTS FOR DRIED READY-TO-EAT MEAT AND POULTRY PRODUCTS

Legal Authority: 21 USC 451 et seq; 21 USC 601 et seq

CFR Citation: 9 CFR 318; 9 CFR 381

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat and poultry products inspection regulations to require establishments to treat certain dried, ready-to-eat meat and poultry products to eliminate microbial contamination. Past food-poisoning outbreaks from dried meat products confirm that present processing requirements do not assure that the finished product is free from contamination by salmonellae. Treatment would assure the destruction of infectious disease bacteria, such as Salmonella, often present on the raw ingredients. The proposed rule would cover all dried ready-to-eat meat and poultry products except fermented sausages and dry cured hams and pork shoulders treated by one of the processing methods in section 318.10(c)(3) (ii), (iii), or (iv) of the Federal meat inspection regulations. The required treatment would either be a lethal heating step, a combination curing and heating process, or an alternate processing method which establishments have shown to be effective. The proposed rule would also contain provisions to prevent contamination of treated product by direct or indirect contact with untreated product.

201. ANTE-MORTEM INSPECTION OF DISABLED ANIMALS ON TRANSPORT VEHICLES

Legal Authority: 21 USC 601 et seq

CFR Citation: 9 CFR 309; 9 CFR 320

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat inspection regulations to permit an alternate method of ante-mortem inspection of disabled animals. This method would allow a transport vehicle to be an extension of an official establishment's premises for purposes of ante-mortem inspection of disabled animal(s) that

are within the vehicle. FSIS received a request from the Western States Meat Association, Oakland, California, to allow ante-mortem inspection of disabled animals to be performed on a transport vehicle. This proposed rule would (1) specify establishment responsibilities for maintaining control over the transport vehicle, for providing proper ante-mortem inspection facilities, for complying with the veterinary disposition, and for providing assistance to the veterinary Medical Officer when performing the ante-mortem inspection; (2) prescribe the facility requirements needed for safe ante-mortem inspection of disabled animals; and (3) provide the requirements for the written request for this inspection.

203. EXEMPTION FROM "EQUAL TO" REQUIREMENTS

Significance: Agency Priority

Legal Authority: 21 USC 451 et seq; 21 USC 601 et seq

CFR Citation: 9 CFR 327; 9 CFR 381

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat and poultry products inspection regulations to provide administrative procedures whereby a foreign country may petition FSIS to be exempted from certain specified inspection requirements. FSIS has received several requests for exemption from specific regulations and procedures to assure that the foreign inspection program will maintain its eligibility to export product to the United States. Present meat and poultry products inspection regulations do not contain a procedure that advises how such requests should be made. Exemption requests are received in various forms and with a variety of information included, and as a result unnecessary time and effort is expended to develop an exemption request in the proper form for consideration. This action will provide a procedure for the submission of exemption requests from countries exporting product to the United States and to permit a timely Agency response.

205. POULTRY POST-MORTEM INSPECTION SYSTEM

Significance: Agency Priority

Legal Authority: 21 USC 451 et seq

CFR Citation: 9 CFR 381

Legal Deadline: None

Abstract: This proposed rule would amend the poultry products inspection regulations to merge the requirements for the new turkey inspection system, new line speed inspection system,

USDA—FSIS

Proposed Rule Stage

streamlined inspection system and traditional inspection into two mandatory methods to be known as poultry post-mortem inspection system (PPMIS) and poultry post-mortem inspection system quality control (PPMIS-QC). The finished product standards for carcasses and giblets would be amended to include all classes of poultry. This proposal would describe the facility requirements necessary to implement this new system nationally, and would establish national presentation standards and line speeds for each class of poultry.

206. EXPORT CERTIFICATION PROCEDURES

Legal Authority: 21 USC 601 et seq; 21 USC 451 et seq

CFR Citation: 9 CFR 322; 9 CFR 381

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat and poultry products inspection regulations to provide export certification of all meat and poultry products exported to foreign countries. Domestic inspectors certify that the product is USDA inspected and passed, and that all foreign requirements have been met. In 1988, the Agency conducted a pilot test to determine the feasibility of streamlining export certification procedures by centralizing controls; utilizing contemporary communications technology; establishing plant review criteria; and modifying stamping requirements. The export certification project, of which the pilot was a part, continues in 1990. FSIS will review the current regulations and determine what, if any, changes should be considered from the outcome of this project.

207. PEST CONTROL IN OFFICIAL ESTABLISHMENTS

Legal Authority: 21 USC 451 et seq; 21 USC 601 et seq

CFR Citation: 9 CFR 308; 9 CFR 381

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat and poultry products inspection regulations to provide consistency of existing provisions and ensure enforceability of the requirements for controlling pests such as flies, rodents, insects, and vermin in official establishments. In the past, establishments used pesticides as the primary means of controlling pests. Presently, establishments rely on the use of primary controls to prevent pests from entering an establishment; that is, they use such techniques as preventive construction, maintenance and sanitation. This action would also provide uniform requirements for both meat and poultry products regarding the use of the words "pesticides" and "poison," and the use of other chemical compounds as a means for eliminating or controlling pests in official establishments.

209. LABELING REQUIREMENTS FOR PACKAGED PRODUCTS WHICH REQUIRE SPECIAL HANDLING TO MAINTAIN THEIR WHOLESOME CONDITION

Legal Authority: 21 USC 451 et seq; 21 USC 601 et seq

CFR Citation: 9 CFR 317; 9 CFR 381

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat and poultry products inspection regulations to promote consistent labeling requirements within the meat and poultry industry. This action would establish a uniform, standardized label statement and logo system for packaged products that could pose a safety hazard if subjected to temperature abuse.

212. ADDITIONAL METHODS FOR DESTROYING TRICHINAE; PROSCIUTTO

Legal Authority: 21 USC 601 et seq

CFR Citation: 9 CFR 318

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat inspection regulations to permit the use of additional methods for destroying trichinae for prosciutto. The Food Safety and Inspection Service evaluated reports of tests performed to determine an acceptable method of treatment for destroying trichinae in prosciutto hams. The regulation would be amended to permit establishments to use a minimum time and temperature combination in conjunction with a minimum brine concentration. In addition, this regulations would add a trichinae destruction treatment method for dry-cured sausage.

218. ● POULTRY PRODUCTS CONTAINING PORK; TRICHINA TREATMENT

Legal Authority: 21 USC 451 et seq

CFR Citation: 9 CFR 381

Legal Deadline: None

Abstract: This proposed rule would amend the poultry products inspection regulations to provide that poultry products containing pork as an ingredient must comply with all applicable provisions of section 318.10 of the Federal meat inspection regulations regarding trichinae, including the provisions regarding whether or not treatment for the destruction of trichinae is necessary for certain products and under certain circumstances. FSIS was petitioned by Olsson, Frank, and Weeda, Washington, DC. The petitioners stated that there are inconsistencies between the meat and poultry products inspection regulations. As a result of the inconsistencies, some meat products containing pork, in certain specific and under specified conditions, may be exempt from trichinae treatment requirements. The regulations do not contain similar exemptions for poultry products.

219. ● AMENABILITY OF SPECIFIC EXOTIC SPECIES UNDER THE FEDERAL MEAT INSPECTION ACT AND THE POULTRY PRODUCTS INSPECTION ACT

Significance: Agency Priority

Legal Authority: 21 USC 451 et seq; 21 USC 601 et seq

CFR Citation: 9 CFR 318; 9 CFR 381

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat and poultry products inspection regulations to provide criteria and procedures for determining the amenability of certain exotic animals and birds to inspection requirements under the Federal Meat Inspection Act (FMIA) and the Poultry Products Inspection Act (PPIA). Because of increasing use of formerly wild species as animals raised for food purposes (e.g., wild turkeys), the hunting of feral animals otherwise covered under the Act (e.g., wild boars), and use of biotechnology techniques to create genetic variations of traditional species (e.g., "Beefalo"), the Agency is increasingly in need of a framework for deciding when a specific food animal is subject to inspection laws. As a result of recent petitions concerning a variety of animal and bird species, FSIS would amend the regulations to provide criteria and procedures for determining in a consistent and equitable manner the amenability of specific animals or birds to the FMIA and PPIA.

220. ● REMOVAL OF PACKAGING LIMITATIONS ON IMPORTED GROUND OR COMMINUTED MEATS

Significance: Agency Priority

Legal Authority: 21 USC 601 et seq

CFR Citation: 9 CFR 327

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat inspection regulations by eliminating the prohibition against importation of individual meat pieces or trimmings smaller than 2-inch cubes or pieces comparable in size. FSIS was petitioned by Alsmeyer Food Consulting, Potomac, Maryland (on behalf of Melville Developments, Ltd., Papakura, New Zealand), to allow importation of ground lamb in labeled containers of five and 25 pounds. This action will allow ground or comminuted meats, chopped steaks, meat patties, meat loaves, sectioned and formed or ground and formed meat products and products or similar type to be imported in labeled containers of any size.

222. CATTLE POST-MORTEM INSPECTION PROCEDURES AND STAFFING PROCEDURES

Significance: Regulatory Program

Legal Authority: 21 USC 601 et seq

CFR Citation: 9 CFR 307; 9 CFR 310

Legal Deadline: None

Abstract: This rule will improve post-mortem inspection procedures for cattle in establishments currently using three or more line inspectors. To keep pace with technological advances, streamline procedures, focus resources on critical areas, and hold establishments accountable for their actions, the Agency wants to modernize its inspection procedures while still assuring that only wholesome products enter commerce. It is anticipated that the meat industry will experience a net gain if this system of inspection is implemented in spite of the initial costs of facility modifications which may be necessary in some establishments. Savings to the industry as a whole should occur because of increased productivity and reduced overtime.

USDA—FSIS

Final Rule Stage

Abstract: This rule will make Federal and State weights and measures procedures and techniques more consistent, objective and equitable. USDA will adopt the National Bureau of Standards Handbooks 133 and 44 as its standards. This amendment will recognize a fixed amount of acceptable moisture loss by product. This will replace the term "reasonable variation." Moreover the amendment will grant concurrent jurisdiction to State and local authorities to enforce net weight labeling of federally inspected meat and poultry products within their geographic area. The amendment will promote uniform treatment of moisture loss and weights and measures standards as well as encourage and enable greater State and local participation.

229. PROCESSING PROCEDURES AND COOKING INSTRUCTIONS FOR COOKED, UNCURED MEAT PATTIES

Legal Authority: 21 USC 451 et seq; 21 USC 601 et seq

CFR Citation: 9 CFR 318; 9 CFR 381

Legal Deadline: None

Abstract: This rule will provide processors of fully and partially cooked, and char-marked, uncured meat patties with specific manufacturing, handling, and labeling requirements for these products to reduce the potential for incidents of food-borne, pathogen-caused illness from consumption of inadequately cooked, uncured meat patties. This rule will also establish (1) holding temperature and time requirements for raw meat used for cooked, uncured meat patties; (2) internal temperature and time combination processing requirements for fully and partially-cooked, uncured meat patties which are char-marked with heat but remain raw; (3) a requirement that a cooking instruction be placed on the label of partially-cooked and char-marked, uncured patties, instructing the final preparer to cook the patties to a well done state (a minimum internal meat temperature of 160 degrees Fahrenheit); and (4) requirements to assure that fully-cooked, uncured meat patties are not contaminated after cooking. This action will prevent instances of illness from the consumption of such patties.

230. PFF FOR TURKEY HAM

Legal Authority: 21 USC 451 et seq

CFR Citation: 9 CFR 381

Legal Deadline: None

Abstract: This rule will amend the poultry products inspection regulations to permit the use of added water in turkey ham. The new standard provides for several categories of products that are delineated according to the protein content on a fat-free basis. FSIS was petitioned by the National Turkey Federation, Reston, Virginia, to establish protein fat-free values for turkey ham to promote product standardization and permit producers of turkey ham to compete more equitably with pork producers. This rule will replace the current provision which limits the amount of added water and other substances contained in turkey ham products by requiring the weight of the finished product to be no more than the original weight of the turkey thigh meat used prior to curing.

231. IMPORTATION OF LIVESTOCK CARCASSES WITH TISSUES REMOVED

Legal Authority: 21 USC 601 et seq

CFR Citation: 9 CFR 327

Legal Deadline: None

Abstract: This rule will amend the Federal meat inspection regulations to remove the requirements prohibiting the importation into the United States of carcasses or parts of carcasses of livestock from which the pleura, peritoneum, body or portal lymph nodes are removed. These carcasses or parts would be imported based on the eligibility of the exporting countries, and whether they are wholesome, not adulterated and properly marked and/or labeled. This action is in response to a petition submitted by Cloverdale Foods Company, Minot, North Dakota.

RIN: 0583-AA85

232. IMPORTED CANADIAN PRODUCT; PROVISION FOR "STREAMLINED" INSPECTION PROCEDURES; EXEMPTION FROM OFFICIAL MARK OF INSPECTION

Significance: Agency Priority

Legal Authority: 21 USC 451 et seq; 21 USC 601 et seq

CFR Citation: 9 CFR 327; 9 CFR 381

Legal Deadline: None

Abstract: This rule will amend the Federal meat and poultry products inspection regulations to provide "streamlined" inspection procedures for the reinspection of Canadian meat and poultry products and by exempting Canadian meat and poultry products offered for importation from the requirement that such product and/or containers of product be marked with the official mark of inspection once they are passed for entry into the United States. These actions stemmed from the Canada-United States Free Trade Agreement Implementation Act of 1988, Pub. L. 100-449. These actions specifically responded to one goal of the Agreement whereby both countries are charged with liberalizing agriculture trade practices by seeking ways to eliminate technical or procedural requirements which now may serve to impede trade in agricultural products.

234. POLICY FOR DIFFERENTIATING BETWEEN CALVES AND ADULT CATTLE

Significance: Agency Priority

Legal Authority: 21 USC 601 et seq

CFR Citation: 9 CFR 309; 9 CFR 310

Legal Deadline: None

Abstract: This rule will amend the Federal meat inspection regulations to define the term "calf" for inspection purposes, as a young bovine animal whose weight does not exceed 750 pounds live, or whose dressed carcass weight does not exceed 450 pounds with the hide on, or 425 pounds with the hide removed. In addition, the rule will provide that certain indicators of maturity, such as teeth and bone formation be used in conjunction with weight to determine if the animal is a "calf."

235. ● IMPORTED PRODUCT: FURTHER IMPLEMENTATION OF U.S. CANADA FREE-TRADE AGREEMENT

Significance: Agency Priority

Legal Authority: 21 USC 601 et seq; 21 USC 451 et seq

CFR Citation: 9 CFR 312; 9 CFR 322; 9 CFR 327; 9 CFR 381

Legal Deadline: None

Abstract: This rule will amend the Federal meat and poultry products inspection regulations by exempting (1) Canadian meat and poultry products intended to be imported into the United States from product reinspection by U.S. import inspectors; (2) Canada from various requirements applicable to other countries desiring to obtain and or maintain their eligibility to export product to the U.S. and (3) USDA officials from certain review activities. This rule will provide for the use of a new export stamp to be applied to product destined for Canada and would provide new procedures applicable to U.S. establishments exporting product to Canada and to Canadian establishment exporting product to the U.S. on a one-year experimental basis.

240. TYPES AND QUANTITIES OF AGRICULTURAL COMMODITIES AVAILABLE FOR DONATION OVERSEAS UNDER SECTION 416(B) OF THE AGRICULTURAL ACT OF 1949 FOR EACH FISCAL YEAR

Legal Authority: PL 99-027 Food Security Act of 1985

CFR Citation: Not applicable

Legal Deadline: None

Abstract: For FY 1988: The "Food Security Improvements Act of 1986" amended the Food Security Act of 1985, as amended, to require an estimate of Commodity Credit Corporation stocks to be made available under Section 416(b) in FY 1988 by kind of commodity and quantity of each kind of commodity. The Food Security Act, as amended, requires that this estimate be published in the Federal Register.

For future FY's: The Food Security Act of 1985, as amended, requires the above estimate be made and published in the Federal Register before the beginning of each fiscal year. (FAS 88-009)

Legal Authority: 16 USC 472; 16 USC 551

CFR Citation: 36 CFR 292, Subpart B

Legal Deadline: None

Abstract: The rules at 36 CFR 292, Subpart B govern joint administration of the Shasta and Clair Engle-Lewiston units of the National Recreation Area by the Forest Service and the Bureau of Reclamation. The rules also set forth standards for defining compatible private land uses within the National Recreation Area to govern decisions by local zoning authorities, or in the absence of such authorities, decisions on land uses by the Secretary of Agriculture. The review has focused on experience under the rules and whether they still serve the public interest in ensuring that development and management of the NRA meet congressional intent.

247. SPECIAL AREAS

Legal Authority: 16 USC 551; 16 USC 472

CFR Citation: 36 CFR 294.1

Legal Deadline: None

Abstract: The agency has undertaken a review of its existing regulations at 36 CFR 294.1 that provide for the setting aside of areas of National Forests, other than Wilderness or wild areas, which should be managed principally for recreation. The rule establishes five classes for areas that may or may not be designated by the Chief of the Forest Service and the Secretary of Agriculture; describes examples of the types of areas that might be set aside; and provides for clearly marking these areas on the ground. Areas classified under this section are set apart and reserved for public recreation use and such classification constitutes a formal closing of the area to any use or occupancy inconsistent with the classification. The review is completed and notice of the results of that review will be published soon.

248. SUSPENSION AND DEBARMENT OF TIMBER PURCHASERS, 36 CFR 223, SUBPART C

Significance: Agency Priority

Legal Authority: PL 94-588, Sec 14; 16 USC 472a

CFR Citation: 36 CFR 223, Subpart C

Legal Deadline: None

Abstract: Currently, suspension and debarment of timber purchasers means the debarred entity is prevented from bidding or being awarded Forest Service timber sale contracts. Recently, suspended and/or debarred purchasers have been serving as subcontractors on Forest Service timber sale contracts, or acting as purchaser's representatives to receive notices and to take action on contracts. This has the effect of negating the suspension/debarment action, which is to protect the Government. The rule will be revised to prevent suspended and/or debarred purchasers from serving as subcontractors or purchaser representatives.

249. FINANCIAL SECURITY OF NATIONAL FOREST SYSTEM TIMBER SALE CONTRACTS

Legal Authority: 16 USC 472a; 16 USC 618

CFR Citation: 36 CFR 223.52; 36 CFR 223.80

Legal Deadline: None

Abstract: The Federal Timber Sale Contract Payment Modification Act directs the Forest Service to require purchasers to make down payments and periodic payments on timber sales. The objective of these requirements is to discourage speculative bidding on National Forest System timber sales. A rule published 10/11/85 at 50 FR 41408 requires cash down payments and a midpoint payment. However, to fully comply with the Act, additional rules are required. This rule will identify the requirements for down payments and periodic payments. Based on comments received the agency has decided to issue a new proposed rule.

250. GRAZING AND LIVESTOCK USE

Legal Authority: 7 USC 1011; 16 USC 472; 16 USC 551; 16 USC 572; 16 USC 580g; 16 USC 580h; 16 USC 580l; 16 USC 1600 et seq; 31 USC 9701; 43 USC 1901 to 1903; 43 USC 1751; 43 USC 1752

CFR Citation: 36 CFR 222, Subpart A

Legal Deadline: None

Abstract: This rulemaking seeks to remove outdated provisions, to incorporate policies and procedures issued in the Forest Service directive system, and to revise the remaining regulations making them clearer and easier for the public and Agency personnel to use. The proposed regulations (1) clarify the definitions of excess livestock and unauthorized use rate; (2) remove the rule for grazing advisory boards; (3) establish requirements or procedures for minimum permit size, eligibility related to compliance with permit terms, permits for livestock use in vegetation management, valuing range improvements when livestock grazing is eliminated, charging a fee for processing actions initiated or caused by a permittee or applicant, and association meeting frequency of a least 1 every 12 months; (4) incorporate currently used policies and procedures for escrow waivers, associated member grievances, permit cancellation or suspension for excess use, charges for excess use, running a child's livestock under a parent's permit, requests for information for evaluating grazing applications and action on apparent violations of permit terms. 251. SPECIAL-USE APPLICATIONS AND ADMINISTRATION OF SPECIAL-USE AUTHORIZATIONS

Significance: Regulatory Program

Legal Authority: 43 USC 1764; 31 USC 483a; 30 USC 181 Mineral Leasing Act; 16 USC 551

CFR Citation: 36 CFR 251, Subpart B

Legal Deadline: None

Abstract: The objective of this rulemaking is to conform the rule to the requirements of 3 laws approved since the regulation was revised in 1980. These laws include special provisions for authorizing irrigation and livestock watering facilities constructed prior to 1976, electrical and telephone facilities financed pursuant to the Rural Electrification Act of 1936, and special uses in Alaska. In addition, the proposed rulemaking will clarify applicant responsibilities for providing data and studies needed to process a special use application and will provide for the advanced payment of land use rental fees for longer time periods, including the life of the special use authorization. That portion of this action relating to collection of reimbursable costs for processing special use applications is being deferred and will be addressed as a new action in a future agenda. For other changes affecting special use applications and authorization of special uses, see Agenda entry RIN 0596-AA20.

252. PROHIBITION ON MECHANICAL TRANSPORT AND OTHER ACTIVITIES IN WILDERNESS

Legal Authority: 16 USC 113 to 136; 16 USC 528 to 531; 16 USC 577 to 577c; 16 USC 1133

CFR Citation: 36 CFR 293.6(a); 36 CFR 251

Legal Deadline: None

Abstract: Except where specifically provided for, the Wilderness Act (16 USC 1133) prohibits both motorized equipment and mechanical transport. Mechanical transport includes devices such as bicycles, hang gliders, wheeled carts, and other items designed to carry people or supplies and powered by either "nonliving" or "living" power sources. The objective of this action is to clarify the definition of mechanical transport in 36 CFR 293.6(a) and to make corollary revisions in the prohibitions applicable to wilderness use, including prohibiting competitive events and expanding the definition of aircraft to include hang gliders, parachutes and parasail. 253. LAND EXCHANGES

Significance: Agency Priority

Legal Authority: 16 USC 485; 16 USC 486; 16 USC 516; 7 USC 1011; 16 USC 555a; 43 USC 1715; 43 USC 1716 102 Stat 1086

CFR Citation: 36 CFR 254, Subpart A

Legal Deadline: Final, Statutory, August 20, 1989.

Abstract: Changes in existing regulations are needed to implement provisions of the Federal Land Exchange Facilitation Act of August 20, 1988, as well as to correct errors, delete obsolete portions, update to reflect current authorities, and clarify ambiguities. Upon consideration of public comment and further coordination with the Bureau of Land Management which is also developing rules to implement the act, the agency has decided to issue a new proposed rule.

254. LEASABLE MINERALS OTHER THAN OIL AND GAS

Significance: Regulatory Program

Legal Authority: 16 USC 473 to 475; 16 USC 477 to 482; 16 USC 551; 16 USC 528 to 531; 90 Stat. 2949 as amended

CFR Citation: 36 CFR 228, Subparts F to H (New)

Legal Deadline: None

Abstract: These subparts will set forth the rules by which the Forest Service will process and respond to proposals received from the Department of the Interior (DOI) for the issuance of mineral licenses, prospecting permits and leases, and for the approval of operating plans. The Forest Service has no regulations at this time which have resulted in inconsistent and untimely responses to the DOI. The only other alternative considered is not to promulgate regulations. Public costs are insignificant but public benefits could be substantial in that proposals should be processed more efficiently.

256. APPLICATION PROCEDURES AND FEES FOR HYDROELECTRIC USES ON NATIONAL FOREST SYSTEM LANDS

Legal Authority: 16 USC 551; 43 USC 1761

CFR Citation: 36 CFR 251.54; 36 CFR 251.57

Legal Deadline: None

Abstract: Regulations are needed to reduce confusion regarding the role of the Forest Service in permitting hydroelectric uses on National Forest System lands. The objective of the rules will be to establish procedures, compatible with the procedures of the Federal Energy Regulatory Commission (FERC) for obtaining various approvals and involvement of the Forest Service in a timely manner.

In addition, the rules will establish a fee system for hydroelectric uses as required by Title V, Section 501 of the Federal Land Policy and Management Act of 1976. A Notice of Proposed Policy was published 6/8/84 and comments were received. The proposed rule will take those comments into account.

258. LOCATABLE MINERALS

Significance: Agency Priority

Legal Authority: 16 USC 478; 16 USC 551; 43 USC 1701 et seq

CFR Citation: 36 CFR 228, Subpart A

Legal Deadline: None

Abstract: Since the regulations were promulgated in 1974, certain legal requirements have changed due to the provisions of the Wilderness Act and recent court decisions; some sections of the regulations no longer apply and revisions and updating are necessary. Major changes proposed will specifically address the requirements for wilderness operations and, secondly, will clarify the mechanism for administering locatable mineral activities not conducted on mining claims but which are nevertheless authorized by the 1872 mining law.

257. 36 CFR 271—USE OF "SMOKEY BEAR" SYMBOL

Legal Authority: 18 USC 711

CFR Citation: 36 CFR 271

Legal Deadline: None

Abstract: The regulations govern how the name or image of "Smokey Bear" may be used, who may authorize the use of "Smokey Bear" and the use of official campaign materials, commercial licensing, and the association with the State Foresters and the Advertising Council. This review will focus on licensing and especially exclusive licenses and will consider counterpart regulations in Part 272-Use of "Woodsy Owl" Symbol as a possible approach.

258. NATIONAL FOREST PROHIBITIONS; LAW ENFORCEMENT SUPPORT ACTIVITIES

Legal Authority: 16 USC 472; 16 USC 551; 16 USC 683; 7 USC 1011(f); 16 USC 1246(e); 16 USC 1133(c) to 1133(d)(1); 16 USC 559(a)

CFR Citation: 36 CFR 261; 36 CFR 262

Legal Deadline: None

Abstract: These rules at 36 CFR Part 261 declare the range of unacceptable public behavior when visiting or using National Forest System lands. Among topics covered are prohibitions on setting campfires in certain areas, unlawful cutting of trees, and other unlawful uses of resources and property of the National Forest System. Violations of these prohibitions carry legal penalties. The rules at 36 CFR Part 262 address impoundment of property and rewards for information leading to arrest.

Review has examined the adequacy of the rules for administration of the National Forest System and whether changes in conditions, laws, or other factors require revision. The agency has completed its review and is now preparing a proposed rule to revise the prohibitions.

259. REVISE SMALL TRACTS ACT REGULATIONS

Significance: Agency Priority

Legal Authority: 16 USC 521(c) to 521(l)

CFR Citation: 36 CFR 254, "Subpart C"

Legal Deadline: None

Abstract: Implementation of the agency's Small Tracts regulations has revealed an inadvertent inconsistency between the regulations at 36 CFR 254.35(f) and 254.41(a) and the legislative history of the Small Tracts Act of January 12, 1983. The regulations imply that the disposal of mineral fractions by sale can only be made in response to an application from an abutting landowner, thus discouraging the conveyance by sale to the public. The Act clearly authorizes sale of mineral fractions to the public through public sale, as well as individual applications, provided that certain conditions are met. The revisions will clarify the application of the Act to ensure that both individual applications and public sale are permissible means of disposing of qualifying tracts.

260. REVISE RULES GOVERNING SPECIAL USES OF NATIONAL FOREST SYSTEM LANDS AND RESOURCES AT 36 CFR 251 TO REMOVE AMBIGUITIES REGARDING FIRST AMENDMENT RIGHTS

Significance: Agency Priority

Legal Authority: 16 USC 472; 16 USC 551; 16 USC 1134; 16 USC 3210; 30 USC 185; 43 USC 1740; 43 USC 1761 to 1771

CFR Citation: 36 CFR 251 Subpart A; 36 CFR 251 Subpart B; 36 CFR 251 Subpart E (New); 36 CFR 251 Subpart F (New)

Legal Deadline: None

Abstract: A Federal District Court has ruled that existing regulations discriminate against groups who wish to gather on National Forests to exercise their first amendment rights of assembly and free speech. The proposed rule will seek to remove ambiguities regarding these first amendment rights.

The agency is reviewing the rules of other Federal land managing agencies for possible approaches and is considering establishing separate rules for authorizing short-term, noncommercial uses of National Forests.

There will be no additional costs as a result of the proposed rule change. The benefit will be that the Forest Service will be able to adequately regulate large group use on the National Forests in a manner that ensures protection of the public health and safety and National Forest resources.

262. HELL'S CANYON NATIONAL RECREATION AREA—PRIVATE LANDS

Legal Authority: PL 94-199, Sec 10(a)

CFR Citation: 36 CFR 292, Subpart E (New)

Legal Deadline: None

Abstract: The Forest Service proposes to issue regulations concerning use of private lands in the Hell's Canyon National Recreation Area (HCNRA) on the Oregon - Idaho border, as required in PL 94-199. The intended effect of this action is to establish standards for use and development of privately owned lands within the HCNRA.

The standards are intended to achieve the following management objectives for the Recreation Area: (1) The conservation and continuance of forest land for forest uses and farm land for farm uses; (2) The maintenance and protection of the free flowing nature of rivers within the HCNRA; (3) Conservation of scenic, wilderness, cultural, scientific, and other values contributing to the public benefit; (4) Preservation, especially in the area

USDA—FS

263. SOLID WASTE DISPOSAL POLICY

Significance: Regulatory Program

Legal Authority: 16 USC 497; 43 USC 1701

CFR Citation: None

Legal Deadline: None

Abstract: Solid waste disposal sites (sanitary landfills) on National Forest System lands present the potential for resource degradation, hazardous waste dumping, and future liability. A proposal for solid waste disposal is being developed to reflect changes which have occurred as a result of the Resource and Conservation Recovery Act, the Comprehensive Environmental Response, Compensation, and Liability Act, and an increased knowledge of solid waste disposal. The proposal would prohibit the authorization of new sites and provide for the phase out of existing sites. During the phase out period, authorizations would be amended to provide resource protection and limit the Government's potential liability. Adoption of this policy would reduce administrative costs associated with administration of solid waste disposal sites, limit future liability, and protect the resources on National Forest System lands. The proposal would impact 110 sites currently authorized.

264. IRREVOCABLE LETTER OF CREDIT

Significance: Agency Priority

Legal Authority: 16 USC 472a; 16 USC 528 to 531; 16 USC 1600 et seq; 12 USC 1 et seq

CFR Citation: None

Legal Deadline: None

Abstract: In a 1987 court decision, a letter of credit issued in lieu of surety bond was found to be unenforceable because the person who signed the letter of credit did not have authority to do so and because the bank had violated State law in regard to limits of liability. Others were invalid because they exceeded the expiration date. To remedy this problem, the Forest Service is proposing to issue Handbook directions that will require the bank president to certify as to the authority of the person signing the letter of credit and the conformance with State and Federal statutes. An automatic extension of the expiration date would also be required.

265. DISPOSAL OF QUARTZ MINERALS ON THE OUACHITA NATIONAL FOREST

Legal Authority: PL 100-446, Sec 323; 30 USC 601, 603

CFR Citation: 36 CFR 228 Subpart C

Legal Deadline: None

Abstract: This regulation is a direct response to the direction in Section 323 of Public Law 100-446 which classified quartz mineral on the Ouachita National Forest in Arkansas as no longer subject to location under the General Mining Law of 1872. These materials are now to be managed in the same manner as common varieties of mineral materials under regulations prescribed by the Secretary of Agriculture. Publication of this proposal is being delayed until publication of the final rule defining common variety mineral materials (RIN No. 0596-AA44)

266. FEDERAL CAVE RESOURCES PROTECTION

Significance: Agency Priority

Legal Authority: PL 100-691

CFR Citation: 36 CFR 290 Subpart A (New)

Legal Deadline: Final, Statutory, August 18, 1989.

Abstract: These regulations will implement the Federal Cave Resources Protection Act of 1988, which requires that the rules define what is a significant cave for purposes of this

Act. The Act also requires that the rules address an inventory of cave resources, provide for confidentiality of information concerning the nature and location of caves on Federal land, and permits for collection and removal of cave resources. The regulations are being developed in concert with agencies of the U.S. Department of the Interior as required by the act.

267. PRE-AWARD INFORMATION REQUIREMENTS

Legal Authority: 16 USC 472(a); 16 USC 618

CFR Citation: 36 CFR 223.101

Legal Deadline: None

Abstract: Recently, as the number of timber sale defaults have increased, the number of debarred purchasers have increased, and the Government has initiated a policy of only doing business with responsible parties, it is becoming commonplace for bidders to form new affiliates in order to continue to be awarded Forest Service timber sale contracts. Unless the bidder voluntarily identifies affiliates, the Agency must make the determination through a time consuming process prior to award, prior to determining if double downpayment rules apply, and prior to taking debarment action. This rule would require bidders to disclose, prior to award of sales, all affiliates, and to certify that none are suspended or debarred. Filing false claims would be cause for contract cancellation and debarment action.

268. FOREST SERVICE WILDERNESS MANAGEMENT POLICY

Significance: Agency Priority

Legal Authority: 16 USC 1121; 16 USC 1131 to 1136 Wilderness Act

CFR Citation: None

Legal Deadline: None

Abstract: Revisions to Chapter 2320, Forest Service Manual (FSM), are proposed to remove barriers to implementation of the National Recreation Strategy. Also includes revisions needed to be consistent with 36 CFR 261, 293 (see RIN 0596-1139). Changes will include guidance on access by people with disabilities, expanded policy on controlling insect and disease outbreaks, amending prohibited activities to include competitive events and use of hang gliders, parachutes and parasails as aircraft. The policy will incorporate Congressional Grazing Guidelines, provide more specific direction for wildlife and fish management, and will also include guidance on structures, cultural resources, research and law enforcement in wilderness.

270. RECREATION RESIDENCE AUTHORIZATION POLICY

Significance: Agency Priority

Legal Authority: 16 USC 497

CFR Citation: 36 CFR 251

Legal Deadline: None

Abstract: The policy for administering recreation residences on National Forest lands was adopted August 16, 1988 (53 FR 30924) and subsequently appealed under the administrative appeal process (36 CFR 211.18). In rendering his decision on the appeal the Assistant Secretary of Agriculture for Natural Resources and Environment suspended certain provisions related to tenure and the offering of in-lieu sites; designated the remaining features interim policy; and directed the Chief of the Forest Service to review and

BEST COPY AVAILABLE

reconsider the entire policy (54 FR 23498; June 1, 1989). The policy is being reconsidered and alternatives are being developed. The purpose of the policy is to improve the administration of recreation residence permits and implement a revised fee schedule that obtains fair market value for the use. The policy affects about 15,800 permittees.

271. FEE POLICY FOR RESERVOIRS

Significance: Agency Priority

Legal Authority: 43 USC 1764

CFR Citation: None

Legal Deadline: None

Abstract: The Forest Service proposes to change the policy and procedure for determining the land use rental fees for dams and reservoirs located on National Forests lands that are authorized by special use authorizations. This would eliminate the need for individual appraisals of reservoir areas and would reduce the cost of administering the special use permits. The fees would be comparable to the fees charged by the Federal Energy Regulatory Commission for reservoirs on Federal lands. There would be no change in the fee waiver policy for reservoirs. Reservoirs that are currently exempt by law from payment of land use rental fees would not be affected by the proposed change in policy.

273. EXPANDED USE OF PROSPECTING PERMITS AND PREFERENCE RIGHT SALES FOR MINERAL MATERIALS

Legal Authority: 30 USC 601 et seq

CFR Citation: 36 CFR 228, Subpart C

Legal Deadline: None

Abstract: Currently rules pertaining to prospecting permits and preference right negotiated sales apply only to minerals on acquired National Forest lands. This limitation is felt to encourage parties to locate mining claims on other National Forest lands under the mining laws of 1872, when it would be more appropriate to apply for a sale of mineral materials. This proposed rule would expand the use of prospecting permits to other National Forest System lands and responds to a recent change in the definition of mineral materials and clarification of those minerals that are subject to mining claims and those that are subject to sale.

274. INTERVENTION IN APPEALS

Significance: Agency Priority

Legal Authority: 16 USC 551; 16 USC 472

CFR Citation: 36 CFR 217

Legal Deadline: None

Abstract: The current rule at 36 CFR Part 217 provides for a streamlined intervention process. Intervention is granted if requested within 20 days of the filing of a notice of appeal. If request is timely, intervenors have an additional 30 days after receiving a copy of the Notice of Appeal from the Reviewing Officer to file comments on issues raised in the Notice of Appeal. Three problems have surfaced with this process: the definition of "filing"; timeframes available for requesting intervention; and the actual comments that intervenors are to submit. The agency will propose a revision of the appeal rules problems.

275. ◆ CLARIFICATION AND REVISION OF APPEALABLE DECISIONS UNDER 36 CFR PART 251, SUBPART C

Legal Authority: 16 USC 472; 16 USC 551

CFR Citation: 36 CFR 251 Subpart C

Legal Deadline: None

Abstract: The current rules at 36 CFR Part 251 Subpart C provide appeal procedures for holders of or certain applicants for land use and occupancy authorizations. Experience under this rule indicates a need to revise the rule as to purpose and scope and appealable decision. Questions have arisen on whether terms and conditions of the permit and routine administration of the permit by the Forest Service appealable. In addition, the rule is silent on administrative review of decisions regarding recomputation of timber volume shares for small timber purchasers and decisions related to determination for the need for structural changes in a market area under the small Business Timber Set Aside program. This rulemaking will seek to address the problems.

276. ◆ IMPROVING FINANCIAL SECURITY OF TIMBER SALE CONTRACTS

Significance: Agency Priority

Legal Authority: 16 USC 472a

CFR Citation: 36 CFR 223.49

Legal Deadline: None

Abstract: The Forest Service proposes to strengthen the government's contract financial position by: the elimination of the $500,000 performance bond ceiling; increasing the bid guarantee to 10 percent of the advertised value; assessing damages for contract repudiation based on resale value; and conditions. In addition, the Forest Service is proposing to increase the amount of contract security to deter speculative bidding, decrease the potential for contract defaulting, and provide additional guarantee for payment in the event of default damage claims. Following notice and comment, these changes will be issued in the form of instruction to agency contracting officers in the Forest Service Directive System.

277. ◆ OIL AND GAS LEASING SURFACE USE OPERATIONS

Legal Authority: 16 USC 478; 30 USC 226; 30 USC 352

CFR Citation: 36 CFR 228 Subpart E

Legal Deadline: None

Abstract: Operations on Federal oil and gas Leases on National Forest System lands must comply with 36 CFR Part 228, Subpart E, and regulations of the Secretary of the Interior. This proposed rulemaking will establish guidelines for operators in preparing surface use plans of operations. Development of the rule is specified at 36 CFR 228.105 (a)(1) and (2). The rule is being developed in consultation with the Bureau of Land Management.

278. ◆ LAND AND RESOURCE MANAGEMENT PLANNING

Significance: Agency Priority

Legal Authority: 16 USC 1600 et seq; 5 USC 301

CFR Citation: 36 CFR 219

Legal Deadline: None

Abstract: This rulemaking will revise the regulations governing forest land and resource management planning to reflect agency experience in preparing initial forest plans as required by the National Forest Management Act. The rule will articulate and clarify the forest planning and decisionmaking process, propose ways to streamline plan revision, and, in general, adjust and fine tune the rule and its requirements to make the planning process more realistic, meaningful, and efficient.

278. ● GOVERNMENT CANCELLATION OF TIMBER SALE CONTRACTS

Significance: Agency Priority

Legal Authority: 16 USC 551

CFR Citation: 36 CFR 223.40; 36 CFR 223.116

Legal Deadline: None

Abstract: Current regulations governing cancellation of National Forest timber sale contracts do not adequately protect the Government's financial interests in the event the Forest Service is forced to cancel contracts due to events beyond its control arising from compliance with environmental statutes. This rulemaking would remove an unworkable compensation of damages formula, remove limits applicable to length of contract term, and establish a termination for environmental protection clause in timber sale contracts, a standard in most Federal procurement contracts.

280. ● FEDERAL TIMBER EXPORT AND SUBSTITUTION RESTRICTIONS

Significance: Agency Priority

Legal Authority: 16 USC 620 thru 620j

CFR Citation: 36 CFR Part 223, Subpart D

Legal Deadline: Final, Statutory, May 20, 1991.

Abstract: These rule are necessary to carry out the restrictions placed on the export of unprocessed timber from Federal lands and the restrictions on the direct and indirect purchasing of Federal logs to be used in substitution for the export of unprocessed timber originating from private lands. The rules are mandated by the Forest Resources Conservation and Shortage Relief Act of August 20, 1990. The Act calls for various rules to be issued. The agency anticipates several rulemakings to achieve implementation of the act.

281. ● USE OF SMOKEY BEAR SYMBOL

Legal Authority: 66 Stat 92; 18 USC 711

CFR Citation: 36 CFR 271

Legal Deadline: None

Abstract: The agency has recently completed a review of the existing rules governing permissible uses of the "Smokey Bear," symbol by nonfederal entities. The review indicates a need to improve the licensing requirements to better assure that the symbol is used in ways appropriate to its purpose. Consideration is being given to adopting the same licensing requirements as those in 36 CFR Part 272 to license Woodsy Owl materials.

284. CONSERVATION OF FISH, WILDLIFE, AND THEIR HABITATS; CHUGACH NATIONAL FOREST, ALASKA

Legal Authority: PL 96-487 Title V

CFR Citation: 36 CFR 241, (New)

Legal Deadline: None

Abstract: December 2, 1980, the Alaska National Interest Lands Conservation Act was signed into law. Section 501 (b) of the law requires that the Secretary of Agriculture promulgate regulations for the conservation of fish and wildlife and their habitats on the Chugach National Forest. The general National Forest System regulations and other existing laws governing management of National Forest System lands are applicable except as supplemented by these regulations or amended by the ANILCA, August 17, 1984. The new Chugach National Forest land management plan was appealed by 17 appellants. The settlement agreement specifies that subject to valid existing rights, the Forest Service will not allow timber harvest, road construction, surface occupancy for mineral leasing prior to publication of final regulations or completion of management area analysis for the Copper River Management Area. There are no alternatives to development of these regulations.

285. DEFINITION OF COMMON VARIETY MINERAL MATERIALS

Legal Authority: 30 USC 601 to 604; 16 USC 477; 16 USC 520; 7 USC 1010; 30 USC 192c; 16 USC 508b; 66 Stat. 285; 16 USC 521a; 23 USC 101 et seq; 16 USC 539a, Sec 502

CFR Citation: 36 CFR 228, Subpart C

Legal Deadline: None

Abstract: Whether a mineral deposit is a "common variety" determines whether or not it can be disposed of or sold by the Government under the 1947 Mineral Materials Act. Judicial and administrative interpretations defining common variety characterization determinations can only be made in court. Rulings in common variety cases are generally unpredictable, and the costs to both the Government and miner are high.

After a review of the legislative history of the 1955 Surface Resources Act, which defined common varieties, it is clear that Congress did not intend for certain minerals to be locatable under the Mining Laws; however, a failure to explicitly define the "common variety" term has led to misinterpretation and actions contrary to the original intent of the law. This action will amend 36 CFR Part 228, Subpart C to clarify this confusing classification situation.

286. INDIAN ALLOTMENTS ON NATIONAL FOREST SYSTEM LANDS

Significance: Agency Priority

Legal Authority: 16 USC 472; 16 USC 551; 16 USC 1603; 43 USC 1740; 25 USC 337

CFR Citation: 36 CFR 254, Subpart D (New)

Legal Deadline: None

Abstract: Objectives are to set forth Forest Service procedures and role in the regulation of Indian allotments on National Forest System land. The Indian Allotment Act, as amended, authorizes the Secretary of the Interior to make allotments of National Forest System lands to Indians for homesteading and agricultural and grazing purposes. The Forest Service has relied upon USDA rules and procedures at 43 CFR 2533 to govern its involvement in Indian allotment cases. Recent litigation and a decision by the Interior Board of Land Appeals indicate the need for the Forest Service to set forth its own regulations when the Forest Service determines that lands are not chiefly valuable for agricultural and grazing purposes. The only alternative is not to issue regulations. This is unacceptable since it leaves the Agency vulnerable to future IBLA appeals cases as well as future litigation.

287. PROHIBITIONS; FOSSIL COLLECTING

Legal Authority: 16 USC 551

CFR Citation: 36 CFR 261

Legal Deadline: None

Abstract: In response to comments from the scientific and academic communities and in keeping with the recommendations of the National Academy of Sciences "Report on Guidelines for Paleontological Collecting," the Forest Service is clarifying its regulations concerning fossil collecting on National Forest System lands. The language on "paleontological resources" is being moved to a separate paragraph and the requirement for permits is being limited specifically to quarrying for fossils and for commercial activities. The no-action alternative would be to leave the regulation of paleontological resources the same as for archeological resources, with permits needed for all activities. Since there is no evidence of widespread problems, the permit process imposes unnecessary burdens on the casual collector and creates added paperwork for the Forest officer to manage.

288. SURETY BOND FORM REVISION

Significance: Agency Priority

Legal Authority: 31 USC 9301 to 9309; 31 USC 223 to 225

CFR Citation: None

Legal Deadline: None

Abstract: Following a period of high-priced timber sales bid prior to 1982, the Forest Service experienced a number of contract defaults on these sales. Subsequently, the Forest Service has had difficulty collecting from some sureties on the bonds guaranteeing performance on these sales. As part of a financial security initiative affecting future sales, the Forest Service is proposing to revise the payment and performance bonds to clarify surety's obligation in regard to what is being guaranteed, when payment is due in case of default, what additional charges will be assessed if payment is not made when due and when collection action may be suspended. Other alternatives include eliminating surety bonds as a form of security, reducing surety guarantee to mid-point and periodic payment and retention of current bond forms. Upon adoption the final revised bond forms will be issued for use by Forest Service Contracting and Fiscal Officers for future timber sale contracts.

290. HELLS CANYON NATIONAL RECREATION AREA—USE OF NATIONAL FOREST LANDS

Significance: Agency Priority

Legal Authority: 16 USC 460(gg); Hells Canyon National Recreation Area

CFR Citation: 36 CFR 292 F (New)

Legal Deadline: None

Abstract: In Oregon Natural Resources Council v. Lyng, the 9th Circuit Court of Appeals ruled that the Secretary must promulgate regulations as required by the Hells Canyon National Recreation Act (HCNRA), governing federal and private land uses in the HCNRA. The Department had argued that such rules were discretionary and the agency's comprehensive management plan for the NRA, which was prepared as required by the Act, was sufficient to guide management of the area. As a result of the court's ruling, the risk of litigation to halt ongoing activities, particularly timber sales, is high.

USDA—FS

Final Rule Stage

Accordingly, there is an urgent need to promulgate an interim rule governing management of the federal lands in the HCNRA. While many existing regulations governing National Forest System lands, remain applicable to the Hells Canyon NRA, pending projects and plans are vulnerable to continued litigation until final rules are effective. An interim rule is the most expeditious way to effect rules. Public comment will be invited on the interim rule and will be considered in development of the final rule. (cont)

291. GIVING NOTICE OF DECISIONS SUBJECT TO APPEAL

Significance: Agency Priority

Legal Authority: 16 USC 551; 16 USC 472

CFR Citation: 36 CFR 217

Legal Deadline: None

Abstract: This rule would require Deciding Officers to give notice of decisions in newspapers of general circulation or, in some cases, the Federal Register. The appeal filing period would begin the day after the notice is published. The rulemaking would also clarify grounds for dismissal of an appeal without a decision on the merits, make clear that dismissal decisions are subject to discretionary review at a higher level, and require appellants to submit 2 copies of a notice of appeal when the notice is 10 pages or longer, and delay implementation of a decision for 7 days following publication of legal notice.

292. ● CONTRIBUTIONS TO THE NATIONAL COMMISSION ON WILDFIRE DISASTERS

Legal Authority: 16 USC 551

CFR Citation: 36 CFR 200

Legal Deadline: None

Abstract: Public Law 101-286 authorized the establishment of a National Commission on Wildfire Disaster, funding for which is to be raised by contribution. The act requires the Secretary of Agriculture to promulgate regulations to "assure that the aggregate amount of contributions from any one person, group of entity shall not exceed 10 percent of the total amount of funds that will be contributed to the commission." The Commission must meet by November 1990 and the act requires the Commission to dissolve 90 days from issuance of its report on December 13, 1991. Therefore, an Interim Rule will be needed to guide handling of contributions of funds to support the Committee's work by the time the Committee meets.

303. ● GOVERNMENTWIDE REQUIREMENTS FOR DRUG FREE WORK PLACE (GRANTS)

Significance: Regulatory Program

Legal Authority: PL 100-690; 5 USC 301

CFR Citation: 7 CFR 3017

Legal Deadline: None

Abstract: This rule implements the Drug-Free Workplace Act of 1988 that requires grantees to certify that they will maintain a drug-free workplace or conduct grant activity that will be drug-free.

304. ● DEBT COLLECTION

Significance: Agency Priority

Legal Authority: 31 USC 3701; 31 USC 3711; 31 USC 3716 to 3719; 31 USC 3728

CFR Citation: 7 CFR 1; 7 CFR 3

Legal Deadline: None

Abstract: Establishes the final regulations to implement the statutory provisions of the Debt Collection Act of 1982 (Public Law 97-365). The Debt Collection Act authorizes the Federal Government to collect delinquent debts owed it by means of administrative offsets; charging interest and penalties on overdue debts; contracting for private collection services and disclosing information on delinquent debts to credit reporting agencies and the Internal Revenue Service.

305. GENERAL BONDING REGULATIONS

Legal Authority: 7 USC 222; 7 USC 228

CFR Citation: 9 CFR 201.27; 9 CFR 201.28; 9 CFR 201.33; 9 CFR 201.35

Legal Deadline: None

Abstract: The proposed changes in the regulations would reduce the time for filing bond claims from 120 days to 60 days and the waiting period for filing suit to recover under a bond from 180 to 120 days. The proposal would also consolidate the regulations to provide uniform requirements for all bonds and bond equivalents required under the Packers and Stockyards Act.

311. REA REQUIREMENTS FOR ENGINEERING AND ECONOMIC SUPPORT REQUESTS FOR LOANS AND LOAN GUARANTEES FOR NEW GENERATION AND RELATED TRANSMISSION FACILITIES

Significance: Regulatory Program

Legal Authority: 7 USC 901 et seq; PL 99-591

CFR Citation: 7 CFR 1712.200 to 1712.211

Legal Deadline: None

Abstract: This regulation formalizes requirements that REA borrowers seek out economical proposals for new generation resources from the traditional sources (such as investor owned utilities and governmental power organizations and joint use with other utilities) as an integral part of new capacity resource planning requirements.

The regulation will also require that REA financed borrowers adequately consider the availability of power from Independent Power Producers.

Semiannual Agenda of Regulations

AGENCY: Office of the Secretary, Commerce.

ACTION: October 1990 regulatory agenda.

SUMMARY: In compliance with Executive Order (E.O.) 12291, entitled "Federal Regulation," and the Regulatory Flexibility Act (Pub. L. 96-354), the Department of Commerce in April and October of each year publishes in the Federal Register an agenda of the rulemaking actions covered by section 1 of E.O. 12291 that the Department plans to conduct or review over the next 12 months. Rulemaking actions are grouped according to prerulemaking, proposed rules, final rules, and rulemaking actions completed since the April 1990 agenda. The purpose of the agenda is to provide information to the public on regulations currently under review, being proposed, or issued by the Department. The agenda is intended to facilitate comments and views by interested members of the public.

The Department's October 1990 regulatory agenda includes regulatory activities that are expected to be conducted during the period October 1, 1990, through September 30, 1991.

FOR FURTHER INFORMATION CONTACT:

Specific: For additional information about specific regulatory actions listed in the agenda, contact the individual identified as the contact person.

General: Comments or inquiries of a general nature about the agenda should be directed to Michael A. Levitt, Assistant General Counsel for Legislation and Regulation, U.S. Department of Commerce, Washington, DC 20230, telephone: (202) 377-8843.

SUPPLEMENTARY INFORMATION: E.O. 12291 requires all executive agencies to publish semiannually an agenda of those regulations that are under consideration pursuant to this Order. By memorandum of July 2, 1990, the Office of Management and Budget (OMB) issued guidelines and procedures for the preparation and publication of the October 1990 Unified Agenda of Federal Regulations. E.O. 12291 and the OMB guidelines require that each agency's agenda report the following information on non-exempt regulatory activities being conducted or planned to be conducted by the agency during the 12-month period succeeding publication: The title of the regulation; the name, title, address, and phone number of an agency person who is knowledgeable about the regulation; whether the action is expected to have a significant economic impact on a substantial number of small entities and whether it will affect levels of government; the section(s) of the Code of Federal Regulations which will affect or be affected by the action; the section of the United States Code, Public Law, or Executive Order that authorizes the action; an indication of whether or not the entry is a significant regulatory action included in the Administration's Regulatory Program and if the agency considers it a priority action; an abstract describing the problem the regulation addresses, alternatives to the regulation being considered, and potential costs and benefits of the action; legal deadline, if any and; a timetable of dates and, if available, Federal Register citations for past stages of the action. In addition, OMB requires that procurement-related regulatory actions include additional information on all actions that are covered by section 22 of the Office of Federal Procurement Policy Act Amendments of 1988 and all other actions that will result in a change or addition to the Federal Aquisition Regulation System. This procurement-related information is listed under ADDITIONAL INFORMATION and will be used by the Office of Federal Procurement Policy in preparing the "Procurement Regulatory Activity Report."

The Regulatory Flexibility Act requires agencies to prepare a regulatory flexibility analysis where there is a positive finding that a rule will have a significant economic impact on a substantial number of small entities. E.O. 12291 requires agencies to prepare a regulatory impact analysis for any regulation considered to be a "major rule" as defined in the order.

Explanation of Information Contained in the Agenda

Within the Department, the Office of the Secretary and various operating units may issue regulations. Operating units, such as the Economic Development Administration, the Bureau of Export Administration, the International Trade Administration, the National Institute of Standards and Technology (NIST), the National Oceanic and Atmospheric Administration (NOAA), and the Patent and Trademark Office, issue the greatest share of the Department's regulations.

A large number of regulatory actions reported in the agenda are proposed or final Federal Information Processing Standards (FIPS) issued by NIST under Public Law 100-235. FIPS consist of standards and guidelines to improve Federal Government use and management of computers and information technology. The standards, while often of great use to industry and the public, apply only to the Federal Government. In developing the standards and guidelines and in providing technical guidance and coordination to Federal agencies, NIST works closely with private industry standard-setting organizations.

Another large number of regulatory actions reported in the agenda deal with fishery management programs of NOAA's National Marine Fisheries Service (NMFS). To avoid repetition of programs and definitions, as well as to provide some understanding of the technical and institutional elements of the NMFS programs, a section on "Explanation of Information Contained in NMFS Regulatory Entries" is provided below.

Explanation of Information Contained in NMFS Regulatory Entries

The Magnuson Fishery Conservation and Management Act of 1976 (16 U.S.C. 1801 *et seq.*) (Act) governs the management of fisheries within the Exclusive Economic Zone (EEZ). The EEZ refers to those waters from the outer edge of the State boundaries, generally 3 nautical miles, to a distance of 200 nautical miles. Fishery Management Plans (FMPs) are to be prepared for fisheries which require conservation and management measures. Regulations implementing

DOC

these FMPs regulate domestic fishing and foreign fishing where permitted. Foreign fishing can be conducted in a fishery for which there is no FMP only if a preliminary fishery management plan has been issued to govern that foreign fishing. Under the Act, eight Regional Fishery Management Councils (Councils) prepare FMPs or amendments to FMPs for fisheries within their respective areas. In the development of such plans or amendments and their implementing regulations, the Councils are required by law to conduct public hearings on the draft plans and to consider the use of alternative means of regulating.

The Council's process for developing FMPs and amendments makes it difficult for NMFS to determine the significance of some regulatory actions under consideration at the time the semiannual regulatory agenda is published. Frequently, NMFS does not have specific plan objectives or alternatives for management, since the Councils may not have approved or submitted plans to the Secretary of Commerce for review, adoption, and implementation.

The DOC October 1990 regulatory agenda follows.

Dated: August 21, 1990.

Wendell L. Willkie, II,

General Counsel.

Office of the Secretary—Proposed Rule Stage

Sequence Number	Title	Regulation Identifier Number
325	Contract Clauses and Solicitation Provisions for the Commerce Automated Solicitation System	0690-AA06
326	Source Evaluation Procedures and Miscellaneous Revisions to the Commerce Acquisition Regulation	0690-AA13

Office of the Secretary—Final Rule Stage

Sequence Number	Title	Regulation Identifier Number
327	Program Fraud Civil Remedies	0690-AA14
328	Protection of Human Subjects	0690-AA17

Bureau of Economic Analysis—Proposed Rule Stage

Sequence Number	Title	Regulation Identifier Number
329	Increase in Exemption Level of the BE-11, Annual Survey of U.S. Direct Investment Abroad	0691-AA16
330	Benchmark Survey of Selected Services Transactions with Unaffiliated Foreign Persons—1991	0691-AA17

Bureau of the Census—Proposed Rule Stage

Sequence Number	Title	Regulation Identifier Number
331	Revision of Foreign Trade Statistics Regulations	0607-AA10

Bureau of the Census—Final Rule Stage

Sequence Number	Title	Regulation Identifier Number
332	Elimination of Requirement for Shipper's Export Declarations for Certain Exports to Canada	0607-AA14

DOC

Bureau of the Census—Completed Actions

Sequence Number	Title	Regulation Identifier Number
333	Foreign Trade Statistics Regulations (FTSR)	0607-AA12

Economic Development Administration—Final Rule Stage

Sequence Number	Title	Regulation Identifier Number
334	General Requirements for Financial Assistance—Design, Construction of Buildings to Accommodate the Physically Handicapped	0610-AA05
335	General Requirements for Financial Assistance: Employment of Expediters or Administrative Employees; Compensation of Persons Engaged by or on Behalf of Applicants	0610-AA18
336	Overall Economic Development Program; Public Works and Development Facilities Program	0610-AA19
337	Sale of Loans and Loan Guarantees to the Private Sector	0610-AA31
338	General Requirements for Financial Assistance—Nonrelocation	0610-AA32
339	Protection of EDA's Interest in Facilities Acquired, Built, or Improved with EDA Grant Funds	0610-AA35
340	Adjustment Grants—Revolving Loan Funds	0610-AA37
341	Economic Development Districts, District Organization; Civil Rights Requirements	0610-AA38
342	Public Works - Industrial Parks and Sites	0610-AA40
343	Public Works and Development Facilities Programs - Grant Disbursements	0610-AA42
344	General Requirements for Financial Assistance - Electric and Gas Facilities	0610-AA43
345	Overall Economic Development Program - Progress Report	0610-AA44
346	Environmental Requirements	0610-AA45

Economic Development Administration—Completed Actions

Sequence Number	Title	Regulation Identifier Number
347	Economic Development Administration: Property Management Standards	0610-AA07
348	Area Designation—Special Impact Areas	0610-AA39

General Administration—Proposed Rule Stage

Sequence Number	Title	Regulation Identifier Number
349	Nonprocurement Debarment and Suspension	0605-AA02

General Administration—Final Rule Stage

Sequence Number	Title	Regulation Identifier Number
350	Uniform Administrative Requirements for Grants and Cooperative Agreements	0605-AA04
351	New Restrictions on Lobbying	0605-AA06
352	Audit Requirements for Institutions of Higher Education and Other Nonprofit Organizations	0605-AA07

DEPARTMENT OF COMMERCE (DOC)
Office of the Secretary (OS)

Proposed Rule Stage

325. CONTRACT CLAUSES AND SOLICITATION PROVISIONS FOR THE COMMERCE AUTOMATED SOLICITATION SYSTEM

Legal Authority: 41 USC 251 et seq; PL 98-369; PL 98-577

CFR Citation: 48 CFR 1 to 53

Legal Deadline: None

Abstract: The Department of Commerce is currently reviewing standardized contract clauses and solicitation provisions for inclusion in a planned departmentwide automated solicitation system. A proposed amendment to the Commerce Acquisition Regulation (CAR) would illustrate and incorporate these standardized clauses and provisions. This should ultimately be less burdensome to Department contractors and potential contractors, since the clauses and provisions would be used uniformly throughout the Department.

Timetable:

Action	Date	FR Cite

Next Action Undetermined

Small Entities Affected: Undetermined

Government Levels Affected: Undetermined

Additional Information: This is a procurement-related action for which there is no statutory requirement. There is no paperwork burden associated with this action.

CFR Citation: 48 CFR 1 to 53

Legal Deadline: None

Abstract: The proposed amendment will revise the CAR to incorporate references to the Department's Acquisition Manual chapter on formal source selection procedures and will also add agency procedures in those areas of the CAR where the FAR specifies that agency procedures are required. In addition, the proposed amendment will update the CAR to conform with the latest policies and procedures of the FAR.

325. INCREASE IN EXEMPTION LEVEL OF THE BE-11, ANNUAL SURVEY OF U.S. DIRECT INVESTMENT ABROAD

Legal Authority: 22 USC 3101 to 3108; Int'l Investment & Trade in Svcs. Survey Act

CFR Citation: 15 CFR 806

Legal Deadline: None

Abstract: This action will raise the overall exemption level for the BE-11 Annual Survey of U.S. Direct Investment Abroad, and for reporting individual foreign affiliates on Forms BE-11B and BE-11C in that survey, from $10 million to $15 million. The purpose of the action is to bring the exemption level into conformance with that for Form BE-10B(LF) for reporting foreign affiliates in the Benchmark Survey of U.S. Direct Investment Abroad--1989. In addition, the action will require filing, in one or more annual surveys between benchmark surveys, Form BE-11C for nonbank foreign affiliates owned at least 10 percent, but less than 20 percent, by the U.S. reporter and for which total assets, sales, or net income exceeds $100 million. Some reporting between benchmark surveys by large, 10-20 percent-owned foreign affiliates is needed to support reliable estimates for the universe of all foreign affiliates.

330. ● BENCHMARK SURVEY OF SELECTED SERVICES TRANSACTIONS WITH UNAFFILIATED FOREIGN PERSONS—1991

Significance: Agency Priority

Legal Authority: 22 USC 3101 to 3108; Int'l Investment & Trade in Svcs. Survey Act

CFR Citation: 15 CFR 801

Legal Deadline: None

Abstract: This action will replace the existing rule 15 CFR 801.10 with a new rule to provide for the conduct of the BE-20, Benchmark Survey of Selected Services Transactions with Unaffiliated Foreigners -- 1991, as required by the International Investment and Trade in Services Survey Act, 22 USC 3101 to 3108 (see especially Sec. 4(a)(5) of the Act). The existing rule covers a similar survey for 1986, which has been completed and which the 1991 survey will update. For 1991, the exemption level criteria, which provided inadequate coverage of certain types of services transactions in 1986, will be re-examined.

331. REVISION OF FOREIGN TRADE STATISTICS REGULATIONS

Significance: Regulatory Program

Legal Authority: 13 USC 301 to 307

CFR Citation: 15 CFR 30.1 to 30.92

Legal Deadline: None

Abstract: Review of 15 CFR 30 for changes to conform with the new statistical classification (harmonized system for imports and exports). This review will combine elements of housekeeping changes, updating obsolete information, clarification, bringing the system into line with harmonization (including metric measurements), and conformance of reporting with current practices. There should be no added burden or costs placed on the public because no additional information is required, nor new reporting requirements.

The benefits of these changes will be: allowing direct comparisons between U.S. imports and exports, enabling comparisons between trade balances of the United States and of our major trading partners.

With the passage of the Omnibus Trade and Competitiveness Act of 1988 there is no alternative to making these changes in order to conform to the legislation.

Additionally, Section 30.54 will be revised to raise the exemption from Shipper's Export Declaration filing requirements for exports by mail from [illegible] to $2,500.

332. ● ELIMINATION OF REQUIREMENT FOR SHIPPER'S EXPORT DECLARATIONS FOR CERTAIN EXPORTS TO CANADA

Legal Authority: 13 USC 301 to 307

CFR Citation: 15 CFR 30.1 to 30.99

Legal Deadline: None

Abstract: We propose to amend the Foreign Trade Statistics Regulations to eliminate the requirements for Shipper's Export Declarations for most direct exports originating in the United States where the country of ultimate destination is Canada. This change will cause a significant reduction in paperwork and costs to U.S. exporters and to the Federal Government.

Completed Actions

333. FOREIGN TRADE STATISTICS REGULATIONS (FTSR)

Legal Authority: 13 USC 301 to 307

CFR Citation: 15 CFR 30.55(h)

Legal Deadline: None

Abstract: We have amended the Foreign Trade Statistics Regulations (FTSR) to raise the present exemption for filing Shipper's Export Declarations (SEDs) for qualified shipments destined to Canada, Country Groups T or V, Puerto Rico, or the Virgin Islands of the United States from $1,000 to $2,500. The exemption for shipments through the U.S. Postal Service will remain at $500.

This action will reduce the reporting burden on U.S. exporters as well as reduce the costs of processing the foreign trade statistics. The number of SEDs filed will be reduced by over 1.5 million per year with minimal loss of data.

339. PROTECTION OF EDA'S INTEREST IN FACILITIES ACQUIRED, BUILT, OR IMPROVED WITH EDA GRANT FUNDS

Significance: Regulatory Program

Legal Authority: 42 USC 3211; Department of Commerce Organization Order 10-4, as amended

CFR Citation: 13 CFR 314

Legal Deadline: None

Abstract: EDA intends to initiate regulatory action to protect its interests by enabling EDA to expend funds to care for property acquired by virtue of its lien interest in property purchased or improved with EDA grant funds, including liquidation, litigation, or any other necessary action. The proposed regulatory action is contingent upon legislation being enacted which authorizes EDA to expend funds and take other actions to protect its ownership rights in property purchased or improved with EDA grant funds.

348. AREA DESIGNATION—SPECIAL IMPACT AREAS

Legal Authority: 42 USC 3211; Department of Commerce Organization Order 10-4, as amended

CFR Citation: 13 CFR 302

Legal Deadline: None

Abstract: EDA is deleting its 12-month annual average unemployment rate based upon the calendar year, for Special Impact Area (SIA) designation. Under the current calendar year qualifier, it would be possible that an area's qualifying calendar 1987 average rate could be used in support of its SIA designation as late as February 1989 regardless of a subsequently available, nonqualifying 12-month (noncalendar) rate. This could happen since 1988 calendar year average rates for areas will not be computed by State employment security agencies until February 1989, and EDA will not receive such data until March 1989.

352. ● AUDIT REQUIREMENTS FOR INSTITUTIONS OF HIGHER EDUCATION AND OTHER NONPROFIT ORGANIZATIONS

Legal Authority: 5 USC 301

CFR Citation: 15 CFR 29(b)

Legal Deadline: None

Abstract: The rule implements Office of Management and Budget guidance provided in Circular A-133, "Audits of Institutions of Higher Education and Other Nonprofit Organizations." The rule establishes audit requirements for institutions of higher education and other nonprofit organizations that receive Federal assistance, and defines the Department's responsibilities for implementing and monitoring these requirements.

Legal Authority: 19 USC 81a et seq Foreign-Trade Zones Act of 1934

CFR Citation: 15 CFR 400

Legal Deadline: None

Abstract: Revision of the regulation is needed to administer the Foreign-Trade Zones Act of 1934, as amended, to provide for the establishment, operation, and maintenance of foreign-trade zones in ports of entry of the United States. At the time the ANPRM was published the emphasis was on changing the rules to provide improved guidance to the public on procedures and criteria followed in making decisions concerning special-purpose subzones and operations detrimental to the public interest. Since that time, it has been decided to propose revisions to the entire 15 CFR 400 in order to update the language and conform it to current CFR format.

Significance: Regulatory Program

Legal Authority: 19 USC 1671 et seq; 19 USC 1673 et seq

CFR Citation: 19 CFR 300 to 399

Legal Deadline: None

Abstract: Revisions to the current antidumping duty and countervailing duty regulations are needed on an expedited basis in order to conform those regulations to certain statutory amendments made by the Omnibus Trade and Competitiveness Act of 1988. Those amendments deal with (1) downstream product monitoring; (2) consultations with the International Trade Commission on certain scope rulings; (3) procedures for administrative protective orders; (4) correction of ministerial errors; and (5) effective dates. The revisions will enable the Department to apply the new statutory provisions in an orderly and efficient basis.

358. PROCEDURES AND RULES FOR IMPLEMENTING ARTICLE 1904 OF THE UNITED STATES-CANADA FREE TRADE AGREEMENT

Significance: Regulatory Program

Legal Authority: 19 USC 1516a; 19 USC 1677f(d); PL 100-449, Title IV

CFR Citation: 19 CFR 356

Legal Deadline: None

Abstract: Chapter 19 of the U.S.-Canada Free Trade Agreement established a system under which final antidumping and countervailing duty determinations of both the United States and Canada are subject to review by independent binational panels. The legislation implementing the Agreement authorized the Department to issue regulations necessary to implement Chapter 19. Regulations are necessary to establish procedures concerning notice of intent to seek judicial review, requests for panel review, notice of receipt by Canada of class or kind determinations, continued suspension of liquidation pending panel review, release of business proprietary and privileged information under protective order during a panel review, and sanctions for violations of such protective orders. The interim rule became effective January 1, 1989, the date the Agreement entered into force.

361. ALLOCATION OF APPAREL TARIFF-RATE QUOTA UNDER THE U.S.-CANADA FREE TRADE AGREEMENT

Legal Authority: PL 100-449, Section 202(g); U.S.-Canada Free Trade Agreement Implementation Act of 1988

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: The U.S.-Canada FTA reduces tariffs on textile and apparel products considered to be of U.S. or Canadian origin under the "rules of origin" established by the Agreement. Generally, apparel made in the U.S. or Canada from fabric sourced in a third country will not be considered to be of U.S. or Canadian origin for FTA purposes. Goods which do not qualify for the FTA rate will be subject to the regular most-favored-nation (MFN) rate. However, the FTA also establishes an annual tariff-rate quota (TRQ) under which a limited quantity of apparel products that do not meet the FTA's rules of origin will still be entitled to the FTA duty. As Canadian tariffs on U.S. apparel exports decline, U.S. apparel firms should have a growing incentive to export to Canada, but will need some predictability as to which duty their goods will be subject to.

Unless the Department implements an allocation system, we may find that U.S. firms will either face the chaos of an annual rush to the border to ensure their share of the TRQ or will ignore a lucrative export market to avoid the uncertainties of the TRQ.

362. ● REVISION AND REFORMATTING OF COMMODITY CONTROL LIST

Significance: Agency Priority

Legal Authority: 50 USC app 2401 et seq

CFR Citation: 15 CFR 799.1, Sup. 1

Legal Deadline: None

Abstract: The Commodity Control List is based on the Multinational Industrial List, agreed to by the 17 member nations of the Coordinating Committee (COCOM). COCOM has agreed to replace the Industrial List with a totally new "Core List," developed de novo by the end of CY 1990. The Core List will be arranged and numbered differently. Since the CCL is now based on the Industrial List Numbering System, the entire CCL will have to be reformatted to adapt to the new system. Since the Core List will not be available until early 1991, BXA may not be able to integrate U.S. unilateral export controls into a new list until that time. Ultimately, the new list will incorporate format changes to make it easier to use. While exporters will have to make major changes in their systems to adjust to a totally new control list, they should also benefit from a tighter, more specific list and an improved format that will simplify the process of determining export controls on their products.

363. REVISIONS TO SHORT SUPPLY REGULATIONS

Legal Authority: 50 USC app 2401 et seq; PL 99-64; 42 USC app 2401 et seq; 10 USC 7420 et seq; 43 USC 1354; 30 USC 185; EO 11912; EO 12214; EO 12002; PL 100-418

CFR Citation: 15 CFR 771; 15 CFR 777; 15 CFR 799

Legal Deadline: None

Abstract: On July 12, 1985, the Export Administration Amendments Act of 1985 (PL 99-64) extended and amended the Export Administration Act of 1979 (50 USC app 2401, et seq.)(EAA). Certain changes were made to the Short Supply provisions of section 7 of the EAA. Accordingly, revision of the Short Supply provisions (15 CFR 777) and related licensing requirements (15 CFR 771 and 799) of the Export Administration Regulations (15 CFR 730-799) is necessary. An interim final rule was issued which included (1) elimination of the validated licensing requirement for exports of refined petroleum products so as to permit their export with certain restrictions under a general license; (2) a new definition of "crude oil" for purposes of the regulation; and (3) certain technical and housekeeping changes. There are no

DOC—BY4 Final Rule Stage

costs associated with this action which would promote the export of decontrolled products. The Export Administration was made a Bureau in October 1987. The Export Administration Regulations were thereafter transferred from 15 CFR 368-399 to 15 CFR 730-799. Furthermore, the Export Administration Act of 1979 was amended on August 23, 1988, by the Omnibus Trade and Competitiveness [cont]

364. DEFENSE PRIORITIES AND ALLOCATIONS SYSTEM (DPAS)

Legal Authority: 50 USC 2061 et seq; EO 10480

CFR Citation: 15 CFR 700

Legal Deadline: None

Abstract: The Defense Priorities and Allocations System (DPAS) implements the priorities and allocations authority of Title I of the Defense Production Act of 1950, as amended. The DPAS was published as a final rule on July 30, 1984. Based on the findings and recommendations of an interagency sponsored study concerning the controlled materials program, and comments from both defense agency and industry users, this proposed rule would amend the DPAS to remove the controlled materials provisions and make certain revisions to its procedural requirements. These amendments will have no costs associated with them, would reduce the regulatory and information reporting burden on industry and make the DPAS more effective and efficient, and would result in cost savings for defense contractors.

365. DEFINITION OF SUPERCOMPUTER

Legal Authority: 50 USC app 2401; PL 96-72; PL 97-145; PL 99-64; PL 100-418; EO 12525

CFR Citation: 15 CFR 776

Legal Deadline: NPRM, Statutory, November 21, 1989.

Abstract: This proposed rule amends the EAR to provide a definition for the term "supercomputer." Section 5(a)(6) of the Export Administration Act, as amended by the 1988 Trade Act, requires that a definition be included in the EAR. An earlier proposed rule on this subject was published in the Federal Register on 12/5/88. Having considered the comments on that rule as well as other comments from industry, the Department of Commerce has developed a revised definition. Because of the variety of differing opinions that the Commerce Department has received on this issue it intends to solicit additional comments on the revised definition before issuing a final rule. Therefore, the Department published a second proposed rule with request for comments.

366. AMENDMENT OF VALIDATED LICENSE CONTROLS ON MAGNETICALLY ENHANCED SPUTTERING EQUIPMENT

Legal Authority: 50 USC app 2401 et seq; PL 96-72; PL 97-145; PL 100-418; PL 99-64; PL 95-223; PL 99-440; EO 12525; EO 12532; EO 12571

CFR Citation: 15 CFR 799

Legal Deadline: None

Abstract: On June 24, 1987, the President issued a national security override for a finding of foreign availability for certain types of sputtering equipment controlled under ECCN 1355A of the Commodity Control List. As a result of this override, export controls on the equipment were maintained pending the conclusion of negotiations with the source country to eliminate the foreign availability. The statutorily authorized 18-month negotiating period expired on December 24, 1988, with the source country agreeing to eliminate foreign availability for sputtering equipment until May 31, 1989. The source country has since agreed to eliminate foreign availability for certain types of sputtering equipment for an additional period. This rule amends ECCN 1355A by decontrolling to free world destinations that sputtering equipment that the source country has not agreed to control, and by maintaining controls on that equipment for which foreign availability has been eliminated.

367. EXPORTS FROM ABROAD OF FOREIGN PRODUCTS INCORPORATING U.S.-ORIGIN PARTS AND COMPONENTS

Significance: Regulatory Program

Legal Authority: 50 USC app 2401; PL 96-72; PL 97-145; PL 99-64; PL 100-418; EO 12525

CFR Citation: 15 CFR 776

Legal Deadline: None

Abstract: In accordance with section 5(a)(A) of the EAA, as amended by the 1988 Trade Act, this rule revises section 776.12 of the EAR to reduce export and reexport controls on U.S.-origin parts and components incorporated in foreign-made products. Under section 776.12 prior authorization is not required when U.S.-origin content comprises 25 percent or less and the foreign-made product is exported to a country listed in Supplements 2 and 3 to Part 773, i.e., countries cooperating in nuclear non-proliferation policy. This interim rule revises section 776.12 to apply the 25 percent exemption to all destinations, except the embargoed countries. The 10 percent exemption, but not the dollar value limitation, is continued for these proscribed destinations. The rule also exempts from control foreign-made products incorporating U.S.-origin content consisting of low level technology specifically designated on the Commodity Control List.

Legal Authority: 50 USC app 2401 et seq; PL 97-145; PL 99-64; PL 100-418; EO 12525

CFR Citation: 15 CFR 769

Legal Deadline: None

Abstract: The Department proposes to revise the foreign boycott provisions of the Export Administration Regulations. The revisions would clarify the application of: (1) the intent provision to the reporting requirement; (2) the jurisdictional requirements relating to the implementation of letters of credit; (3) the furnishing information prohibitions to information about the nationality of directors and about blacklisted persons; (4) the shipping requirement exception to refusals to use blacklisted vessels; and (5) the import and shipping document exception to information about the nationality of carriers and residence of manufacturers or suppliers. The revisions are intended to clarify areas of confusion. In addition, the proposal would remove many references and provisions dealing with effective dates and grace periods that are no longer applicable.

Legal Deadline: None

Abstract: General License GTE authorizes temporary exports for certain purposes such as exhibition, demonstration, inspection and testing, and requires prompt return to the country of export. This proposed rule would redesignate that license as General License G-TEMP and amend it by removing the registration requirement and by establishing guidelines for the use of the general license. One effect of removing the registration requirement would be that parties abroad who were not eligible to register under the former General License GTE would be able to use G-TEMP as authorization for a permissive reexport in accordance with the appropriate provisions of the regulations.

Legal Deadline: None

Abstract: This rule will amend the Export Administration Regulations to reduce licensing requirements on intra-COCOM trade. This rule will create a new Country Group R to include all COCOM member countries. This rule will also revise validated license requirements for most export control commodity numbers ending in the code letter "A". This rule will create a new General license designated GTC (certain Shipments to Third Countries).

373. SHIPPER'S EXPORT DECLARATION; REMOVAL OF REQUIREMENT THAT SEPARATE DECLARATIONS MUST BE FILED FOR GENERAL LICENSE AND VALIDATED LICENSE COMMODITIES IN THE SAME SHIPMENT

Legal Authority: 50 USC app 2401 et seq; PL 96-72; PL 97-145; PL 99-64; PL 100-418; PL 95-223; PL 99-440; EO 12525; EO 12532; EO 12571

CFR Citation: 15 CFR 786

Legal Deadline: None

Abstract: Section 786.3(h) of the Export Administration Regulations contains certain requirements for listing commodities on the Shipper's Export Declaration (SED). Previously, section 786.3(h)(1) contained a general prohibition against combining general license commodities with validated license commodities on the same SED. This interim rule will amend section 786.3(h) to permit general license commodities and validated license commodities to be listed on the SED. The rule also will revise section 786.3(h) to clarify that the commodities that may be listed on the same SED must be included in one shipment on board a single carrier and must be from the same exporter to the same consignee.

374. REVISION OF GENERAL LICENSE GIFT

Legal Authority: 50 USC app 2401 et seq; PL 96-72; PL 97-145; PL 99-64; PL 100-145; PL 95-223; PL 99-440; EO 12525; EO 12532; EO 12571

CFR Citation: 15 CFR 771

Legal Deadline: None

Abstract: The Bureau of Export Administration is revising section 771.18 of the Export Administration Regulations (15 CFR Parts 768-799), which contains provisions on the applicability of General License GIFT for exports from the United States. General License GIFT authorizes export of parcels from U.S. individuals or charitable organizations overseas. General License GIFT is modified to allow no more than one gift parcel from the same donor to the same donee in any one month. Currently, one parcel may be shipped each week. This change is intended to assure that the license is utilized in conformity with its intended purpose, namely the donative provision of gifts between individuals. Specific authorization to exceed this limit may be granted on a case-by-case basis to meet compelling humanitarian concerns (e.g., gifts of medicine to relatives). The Bureau of Export Administration will grant case-by-case exemptions through issuance of a validated license. For clarity, new text is added on appropriateness of items as gifts.

Legal Deadline: None

Abstract: The Bureau of Export Administration is amending the Export Administration Regulations (EAR) (15 CFR Parts 730-799) to reduce licensing requirements on trade with the German Democratic Republic. This action is taken following an agreement reached in COCOM in response to steps taken by the Federal Republic of Germany and the German Democratic Republic toward unification. This rule creates a new General License designated to allow a significant number of items listed on the Commodity Control List (CCL) (15 CFR 799.1, Supplement No. 1) under Export Control Commodity Numbers ending in the code letter "A" ("A" level commodities), as well as certain technical data and software, to be exported to the German Democratic Republic without a validated license.

350. ● CONVERSION TO THE METRIC SYSTEM

Legal Authority: PL 100-418

CFR Citation: 15 CFR 730 to 799

Legal Deadline: None

Abstract: The Bureau of Export Administration is amending the Export Administration Regulations to convert units of weight and measure to the metric system. This brings BXA into compliance with the 1988 Omnibus Trade and Competitiveness Act, which amends the Metric Conversion Act of 1975 to authorize the conversion of the weights and measures of "all U.S. trade and commerce" and all Federal agencies to the metric system. It also reflects the current situation of international trade, which is conducted (almost) exclusively in the metric system.

351. REVISION OF FOREIGN AVAILABILITY REGULATIONS

Significance: Regulatory Program

Legal Authority: 50 USC app 2401 et seq; PL 96-72; PL 97-145; PL 99-64; PL 100-418; PL 95-223; PL 99-440; EO 12525; EO 12532; EO 12571

CFR Citation: 15 CFR 791

Legal Deadline: None

Abstract: Part 791 of the Export Administration Regulations (EAR) establishes the procedures and criteria for initiating and reviewing claims of foreign availability on items controlled for national security purposes. With this notice the Department is proposing to revise Part 791 of the EAR. The revision of the foreign availability regulations is necessary because of legislative changes to the program by the "Trade Act" of 1988, and OFA's own experiences with the program. It is expected that this revision will improve the Foreign Availability process and the effectiveness of the program thereby enhancing national security and improving U.S. competitiveness.

384. REMOVAL OF GENERAL LICENSE G-FTZ; EXPORTS OF PETROLEUM COMMODITIES FROM U.S. FOREIGN-TRADE ZONES AND FROM GUAM

Legal Authority: 50 USC 2401; PL 96-72; PL 99-64; PL 100-418; PL 95-223; PL 99-440; EO 12525; EO 12532; EO 12571

CFR Citation: 15 CFR 771; 15 CFR 774; 15 CFR 777

Legal Deadline: None
Published 06/25/90

Abstract: This rule will remove section 771.7 "General license G-FTZ; exports of petroleum commodities from U.S. foreign-trade zones and from Guam." In 1985 the Department eliminated the validated license requirement for petroleum product exports, unless the products were derived from the NPRC. Because petroleum exports from foreign trade zones and Guam now can be sent under section 771.18 "General license G-NNR; shipments of certain Non-Naval reserve petroleum commodities", General license G-FTZ is unnecessary.

385. GUIDELINES FOR EXPORT TRANSACTIONS INVOLVING CHEMICAL PROCESSING EQUIPMENT

Legal Authority: 50 USC 2401

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: U.S. foreign policy opposes the proliferation and use of chemical weapons. Similar controls, however, have not been imposed on the chemical processing equipment that can be used to produce chemical weapon precursors. Despite the absence of controls, the Department of Commerce encourages U.S. industry to be aware of suspicious business transactions involving chemical processing equipment. This advisory note will set guidelines to enable suppliers of such equipment to identify suspicious transactions and react accordingly.

CFR Citation: 15 CFR 787

Legal Deadline: None

Abstract: On March 6, 1989, the Bureau of Export Administration published a proposed rule that would amend the EAR by adding a new section 787.15 addressing voluntary self-disclosure of export violations. After reviewing the comments on the proposed rule, BXA will issue this rule in final form that adds new section 787.15 "Voluntary Self-Disclosure" into the EAR. Section 787.15 sets forth the following: the intent of the new section; limitations under which this new section is applicable; how to provide voluntarily self-disclosed information to the Office of Export Enforcement; the range of actions OEE could take in response to the received information; criteria used to determine OEE's action; and treatment of unlawfully exported commodities after voluntary self-disclosure.

Completed Actions

Abstract: The Bureau of Export Administration is raising the dollar value limit for exemption from the Shipper's Export Declaration (SED) filing requirement for non-mail shipments from $1500 to $2500. This change is being made in accordance with the Bureau of the Census' final rule amending the Foreign Trade Statistics Regulations. This is intended to relieve the processing burden of the Bureau of the Census, which currently receives over 800,000 SED's per month. It is also expected to reduce the exporter's administrative burden by increasing the number of shipments exempt from special documentation requirements.

400. FIPS FOR IRDS SERVICES INTERFACE

Legal Authority: PL 100-235

CFR Citation: None

Legal Deadline: None

Abstract: This standard will adopt a draft proposed American National Standard for an Information Resource Dictionary System Services Interface. The standard is an extension of FIPS PUB 156, which adopts ANSI X3.138-1988. The Services Interface addresses the additional need for a programmatic interface through which software external to the IRDS can populate, access, and maintain the contents of an IRDS dictionary and its schema.

404. FIPS FOR C PROGRAMMING LANGUAGE

Legal Authority: PL 100-235

CFR Citation: None

Legal Deadline: None

Abstract: This standard will adopt an American National Standard (X3.159-1989) which defines the syntax of the C programming language and the semantics for its interpretation. The standard will be used by implementors as the reference authority in developing compilers, interpreters or forms of high level language processors and by other computer professionals who need to know the precise syntactic and semantic rules of the standard. Use of this standard will promote the portability of programs between different systems, and will enable organizations to more fully utilize staff training and skills.

422. ● AMENDMENT 18 TO THE FISHERY MANAGEMENT PLAN FOR THE BERING SEA AND ALEUTIAN ISLANDS AND AMENDMENT 23 TO THE FMP FOR GROUNDFISH OF THE GULF OF ALASKA

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 611; 50 CFR 672; 50 CFR 675

Legal Deadline: NPRM, Statutory. Final, Statutory.

DOC—NOAA

Prerule Stage

NPRM 15 days and final action 110 days after receipt from the fishery management council.

Abstract: These amendments would prevent entry of additional fishing and/or processing vessels into groundfish fisheries in the Gulf of Alaska, Aleutian Islands, and Bering Sea management areas.

424. FEDERAL CONSISTENCY WITH APPROVED COASTAL ZONE MANAGEMENT PROGRAMS

Significance: Regulatory Program

Legal Authority: 16 USC 1456 Coastal Zone Management Act of 1972

CFR Citation: 15 CFR 930

Legal Deadline: None

Abstract: On January 11, 1984, the U.S. Supreme Court issued its decision in Secretary of the Interior et al. v. California et al. No. 82-1326. The Court held that the sale of Outer Continental Shelf (OCS) oil and gas leases is not an activity "directly affecting" the Coastal Zone Management Act of 1972, as amended (CZMA), and therefore, that a consistency determination is not required under that section before such sales may be made. Section 307(c)(1) required that Federal agencies conducting or supporting activities "directly affecting the coastal zone" must conduct or support those activities in a manner which is consistent to the maximum extent practicable with federally approved State coastal zone management programs. NOAA engaged in rulemaking to revise certain CZMA regulations as a result of the Supreme Court decision. NOAA removed those references which identify OCS lease sales as activities covered by the Section 307(c)(1) requirements.

Decision Whether To Proceed With Rulemaking	10/31/90	

Small Entities Affected: None

Government Levels Affected: None

Sectors Affected: Multiple

Additional Information: NOAA issued a final rule August 31, 1985, making the changes required by the Supreme Court decision, and decided to undertake a comprehensive study of the Federal consistency process. The Draft Study issued April 1985 will assist NOAA in evaluating the need for and consequences of further revision of the Federal consistency regulations. Further revision has been deferred pending review of public comment on the April study, and amendments to the CZMA enacted in 1986. In addition, the CZMA will be reauthorized soon, and amendments to the CZMA may result, which would require further regulatory revision. Based on this review, NOAA will evaluate the need for, and consequences of further revision of the regulations.

427. AMENDMENT 1 TO THE SWORDFISH FMP

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt. Act

CFR Citation: 50 CFR 630

Legal Deadline: NPRM, Statutory. Final, Statutory.
NPRM 15 days and final action 110 days after receipt from the fishery management council.

Abstract: This amendment will: (1) set a total allowable catch (TAC) for the U.S. fishery in 1991; (2) prohibit directed swordfishing until the TAC projected for the upcoming year exceeds projected catch by at least 10 percent; (3) prohibit use of lightsticks until directed fishery is reopened; (4) allocate TAC to the bycatch fishery in a manner encouraging vessels to pay for and carry observers; (5) prohibit nighttime longlining after the TAC is reached; (6) prohibit imports of swordfish after the quota is taken and the U.S. fishery is closed; (7) allow a small recreational fishery; (8) set a control date of August 16, 1990; (9) prohibit drift entanglement gillnet fishing for swordfish; and (10) add a definition of "overfishing." Objectives are to: (1) rebuild spawning stock to a level associated with F0.1 fishing mortality, (2) begin stabilizing or reducing number of fishery participants, (3) increase yield per recruit by shifting mortality to larger fish, and (4) encourage complementary international management regimes.

428. AMENDMENT 4 TO THE PACIFIC COAST GROUNDFISH FISHERY MANAGEMENT PLAN

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt. Act

CFR Citation: 50 CFR 663; 50 CFR 611.70

Legal Deadline: NPRM, Statutory. Final, Statutory.
NPRM 15 days and final action 110 days after receipt from the Pacific Fishery Management Council.

Abstract: Amendment 4 will restructure and update the Pacific Coast Groundfish FMP to make it a more useful and timely document. It also will consider providing the flexibility to address a wider range of problems. The major issues in Amendment 4 will examine quota management, the application of "optimum yield", the ability to impose management measures for social and economic reasons (as long as the resource will not be jeopardized), deletion of the 30 percent lid on annual in-season increases to ABC and OY, ways to expedite the experimental fishing permit process, and the review and adoption of state regulations.

436. REGULATORY AMENDMENT TO THE FISHERY MANAGEMENT PLAN FOR ATLANTIC BILLFISH

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt. Act

CFR Citation: 50 CFR 644

Legal Deadline: None

Abstract: This regulatory amendment will change the regulations implementing the Fishery Management Plan for Atlantic Billfish (FMP) to: (1) broaden the definitions of "dealer" and "billfish" for the limited purposes of ascertaining the eligibility for sale of a billfish possessed by a dealer or processor; (2) clarify the scope of the regulations; and (3) prohibit the removal at sea of the head, fins or bill from a billfish. Purposes of the regulatory amendment are to: (1) ensure that a billfish from its management unit is not purchased, bartered, traded or sold in any State; (2) express clearly the FMP's intent; and (3) enhance enforceability of the regulations.

437. AMENDMENT 4 TO THE FISHERY MANAGEMENT PLAN FOR THE NORTHEAST MULTISPECIES FISHERY

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt. Act

DOC—NOAA

Proposed Rule Stage

CFR Citation: 50 CFR 651

Legal Deadline: NPRM, Statutory. Final, Statutory.
NPRM 15 days and final action 110 days after receipt from the fishery management council.

Abstract: Amendment 4 measures will provide tighter controls for some of the Gulf of Maine's small-mesh fisheries because of their high discard rates of cod, haddock, pollock, and flounders. Management measures will include: (1) replacing the exempted fisheries program with an experimental fishery; (2) limiting the shrimp fishery to January, February, and March; (3) including silver hake, red hake, and ocean pout as regulated species with the appropriate management measures; (4) implementing a minimum mesh size of 2 1/2 inches in areas outside the regulated mesh area; (5) establishing a Cultivator Shoals whiting fishery; and (6) establishing a seasonal closure in the Nantucket Lightship Area.

436. AMENDMENT 6 TO THE NORTHERN ANCHOVY FISHERY MANAGEMENT PLAN

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 652

Legal Deadline: NPRM, Statutory. Final, Statutory.
NPRM 15 days and final action 110 days after receipt from the fishery management council.

Abstract: The Pacific Fishery Management Council will amend the Fishery Management Plan for Northern Anchovy to modify establishment of quotas from a spawning stock biomass basis to a total standing stock biomass basis. Because unusual environmental conditions can result in large standing stocks with low recruitment/spawning, the reduction fishery can be shut down in the midst of abundant standing stocks. In order to account for such situations, the Council will amend the procedures for determination of harvest allocations. The amendment will also add an overfishing definition.

441. DEPLETION OF THE COASTAL-MIGRATORY STOCK OF BOTTLENOSE DOLPHINS IN THE U.S. MID-ATLANTIC

Significance: Agency Priority

DOC—NOAA

Proposed Rule Stage

Legal Authority: 16 USC 1361 et seq Marine Mammal Protection Act; 16 USC 1383b

CFR Citation: 50 CFR 216.15

Legal Deadline: None

Abstract: Based on a review of the best available information on the status of the coastal-migratory stock of bottlenose dolphins in the U.S. Mid-Atlantic, the National Marine Fisheries Service (NOAA Fisheries) is considering the publication of a proposed rule designating this population stock as depleted under the Marine Mammal Protection Act (MMPA). This action is required by the MMPA when a species or population stock falls below its optimum sustainable population (OSP). If this population stock is designated as depleted, the MMPA requires the application of certain additional restrictions on taking and importation, and the preparation and implementation of a conservation plan to restore the stock to OSP. NOAA Fisheries is also requesting any additional scientific information on this action that may be available from interested parties, as required by the MMPA Amendments of 1988.

Legal Authority: 16 USC 1361 et seq, Marine Mammal Protection Act

CFR Citation: 50 CFR 216

Legal Deadline: None

Abstract: The National Marine Fisheries Service is conducting the first comprehensive examination of its permit program for scientific research and public display since the passage of the Marine Mammal Protection Act in 1972 and issuance of permit regulations in 1974 (15 CFR 216). The review encompasses all aspects of permit program policy, procedures, and management concerning marine mammals under the authority of the Marine Mammal Protection Act of 1972, 16 USC 1361 et seq., and the Endangered Species Act, 16 USC 1531 et seq. At the conclusion of this permit program review the National Marine Fisheries Service will issue proposed revised regulations governing permits for the taking and importing of marine mammals for scientific research and public display.

CFR Citation: 50 CFR 678

Legal Deadline: NPRM, Statutory. NPRM 15 days after the beginning of a 60-day period for fishery management council's consideration and comment on the Secretarial Plan.

Abstract: The Secretarial Fishery Management Plan establishes a new management program intended to: (1) prevent overfishing of Atlantic Ocean sharks; (2) encourage management of sharks throughout their range; (3) establish a data collection research, and fishery monitoring program; (4) prohibit the practice of "finning"; and (5) optimize benefits and minimize wastes of shark resources. Proposed measures include: (1) an annual commercial quota; (2) a recreational bag limit; (3) prohibition on "finning" and requirement that fins be landed in proportion to carcass weight; (4) commercial fishing and dealer permits; (5) prohibition on sale of recreational catch; (6) reporting of catch and effort information by commercial vessels and landing and price information by dealers; (7) an annual fishing year beginning July 1 of each year; and (8) a requirement for all fisherman to cut the fishing line for all sharks not taken as part of the quota or bag limit.

455. APPROACHING MARINE MAMMALS

Legal Authority: 16 USC 1540(f); 16 USC 1361

CFR Citation: 50 CFR 216

Legal Deadline: None

Abstract: This rule will establish a minimum distance for approaches to marine mammals by humans, vessels, aircraft, and thrillcraft. These regulations are considered necessary because of the increasing popularity of whale watching and similar activities. Guidelines have not been effective in protecting marine mammals from this growing industry and from individuals wishing to view these animals too closely. An interim regulation regarding approaching humpback whales in Hawaii is working far better than previously used guidelines.

456. REGULATIONS GOVERNING U.S. FISHING IN COLUMBIAN TREATY WATERS

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 605

Legal Deadline: None

Abstract: This rule will govern fishing by U.S. vessels in certain waters of the Caribbean Sea covered by a treaty between the United States and Colombia. Owners and operators of vessels fishing in treaty waters will be required to: (1) obtain certificates and permits; (2) report by radio entry and departure from treaty waters; (3) report catch and effort information; and (4) identify their vessels by displaying the official number. These regulations will also: (1) prohibit use of factory vessels, monofilament gillnets, tanks and airhoses, poisons, and explosives; (2) close the treaty waters of Quito Sueno to harvest or possession of conch; (3) close the treaty waters of Serrana and Roncador to harvest or possession of conch from July 1 to Sept. 30 each year; (4) set minimum size for conch; (5) prohibit retention or removal of eggs from berried spiny lobsters; (6) establish a minimum size limit for spiny and smoothtail lobsters; and (7) require lobster or fish traps to have biodegradable escape panels.

458. AMENDMENT 5 TO THE FISHERY MANAGEMENT PLAN FOR THE NORTHEAST MULTISPECIES FISHERY

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 651

Legal Deadline: NPRM, Statutory. Final, Statutory.
NPRM 15 days and final action 110 days after receipt from the New England Fishery Management Council.

Abstract: Amendment 5 to the Northeast Multispecies Fishery Management Plan will establish significantly tighter effort controls to allow rebuilding of groundfish stocks. This amendment will address the percent maximum spawning potential targets established by the FMP as defining overfishing. The timeframe and rebuilding strategy to achieve targets will be established by Amendment 5. Emphasis will be on an overall reduction of fishing effort.

459. ● FEEDING WILD POPULATIONS OF MARINE MAMMALS

Legal Authority: 16 USC 1361

CFR Citation: 50 CFR 216

Legal Deadline: None

Abstract: The regulations would amend the definition of "take" to include feeding marine mammals in the wild. A "take" is prohibited under the Marine Mammal Protection Act unless an exception is made. NMFS concludes that feeding marine mammal species in the wild may significantly change their behavior by disrupting normal feeding patterns.

483. ● DISPOSITION OF STRANDED OR DISTRESSED ENDANGERED OR THREATENED SPECIES OF FISH AND WILDLIFE

Legal Authority: 16 USC 1531 et seq Endangered Species Act of 1973

CFR Citation: 50 CFR 222

Legal Deadline: None

Abstract: Under the provisions of the Marine Mammal Protection Act (16 USC 1361 et seq.), NOAA has set up Marine Mammal Stranding Networks to rescue live stranded marine mammals and to salvage tissues from dead stranded marine mammals for scientific research. Federal and State officials and individuals specifically authorized for such activities currently respond to such strandings. Some marine mammal species are also listed as endangered or threatened under the Endangered Species Act. The U.S. Fish and Wildlife Service has promulgated regulations allowing such activities for endangered species under their jurisdiction (50 CFR 1721(c)(3) and (4)), but NOAA has not promulgated similar regulations for species under their jurisdiction, and the authority to rescue or salvage such species is nebulous. A rule will be proposed to clarify this authority.

485. ● REGULATIONS GOVERNING THE TAKE OF MARINE MAMMALS INCIDENTAL TO LAUNCHES OF THE TITAN IV SPACE VEHICLE—AIR FORCE

Legal Authority: 16 USC 1371(a)(5)

CFR Citation: 50 CFR 228

Legal Deadline: None

Abstract: NMFS has received a request from the Department of the Air Force for a take of marine mammals incidental to launches of the Titan IV space vehicle from Vandenberg Air Force Base, CA over the next 5 years. Under section 101 (a)(5) of the Marine Mammal Protection Act, NMFS can authorize an incidental take if certain findings are made, and if regulations are issued that require monitoring and reporting.

467. ● REGULATORY AMENDMENT TO THE AMERICAN LOBSTER FISHERY MANAGEMENT PLAN

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 649

Legal Deadline: None

Abstract: This amendment would (1) specify the size, location, and material that must be used for escape vents in lobster traps and (2) define the term "V-notch."

468. ● AMENDMENT 1 TO THE FISHERY MANAGEMENT PLAN FOR PELAGIC FISHERIES OF THE WESTERN PACIFIC REGION

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 685

Legal Deadline: NPRM, Statutory. Final, Statutory.
NPRM 15 days and final action 110 days after receipt from the fishery management council.

Abstract: This amendment would establish permit and reporting requirements for operators of domestic longline vessels.

471. ● AMENDMENT 4 TO THE FISHERY MANAGEMENT PLAN FOR THE SNAPPER-GROUPER FISHERY OF THE SOUTH ATLANTIC

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 646

Legal Deadline: NPRM, Statutory. Final, Statutory.
NPRM 15 days and final action 110 days after receipt from the fishery management council.

Abstract: This amendment would address growth overfishing of species in the management unit and may include such measures as size limits, area closures, and gear restrictions.

Timetable:

472. ● AMENDMENT 5 TO THE FISHERY MANAGEMENT PLAN FOR THE SNAPPER-GROUPER FISHERY OF THE SOUTH ATLANTIC

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 646

Legal Deadline: NPRM, Statutory. Final, Statutory.
NPRM 15 days and final action 110 days after receipt from the fishery management council.

Abstract: This amendment would add wreckfish to the management unit of the FMP, define overfishing for wreckfish, establish a fishing year, establish a quota, and implement other measures to protect the wreckfish resource. It would also establish a control date for participation in the fishery.

473. ● REGULATORY AMENDMENT TO THE FISHERY MANAGEMENT PLAN FOR THE SHRIMP FISHERY OF THE GULF OF MEXICO

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 658

Legal Deadline: None

Abstract: This amendment would modify, temporarily, the boundary of the Tortugas Shrimp Sanctuary to reduce the area closed to trawl fishing. This would enable fishermen to harvest marketable-sized shrimp during specified periods from three small areas that would otherwise be closed.

475. ● REGULATORY AMENDMENT FOR RED SNAPPER-GULF OF MEXICO REEF FISH FISHERY MANAGEMENT PLAN

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 641

Legal Deadline: Other, Statutory.
Existing regulations at 50 CFR part 641 require annual adjustment of management measures by January 1 of each year to accomplish goals of the FMP.

Abstract: This regulatory amendment, under the annual adjustment of management measures framework of Amendment 1, would modify measures to allow for the rebuilding of red snapper stocks in the Gulf of Mexico reef fish fishery. The regulatory amendment is expected to reduce the

DOC—NOAA

Proposed Rule Stage

commercial quota for red snapper in 1991, reduce bag limits for red snapper in 1991, and may modify the red snapper minimum size limit.

476. ● AMENDMENT 6 TO THE PACIFIC COAST GROUNDFISH FISHERY MANAGEMENT PLAN

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 611; 50 CFR 663

Legal Deadline: NPRM, Statutory. Final, Statutory.
NPRM 15 days and final action 110 days after receipt from the Pacific Fishery Management Council.

Abstract: Amendment 6 would institute a license limitation program ("limited entry") for the Pacific Coast groundfish fishery. Only vessels with groundfish trawl gear, longlines, or fish pots would be required to have permits to use the gear. Permits would be transferable. Control dates for participation were previously established as July 11, 1984, through August 1, 1988.

478. ● GROUNDFISH OF THE GULF OF ALASKA AND GROUNDFISH OF THE BERING SEA AND ALEUTIAN ISLANDS: REGULATORY AMENDMENT—REQUIREMENTS FOR OBSERVER COVERAGE; RELEASE OF DATA ON PSC BYCATCH RATES

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 611; 50 CFR 672; 50 CFR 675

Legal Deadline: None

Abstract: Establishes equitable standards for requiring observers on fishing vessels and processors, revises the definition of an "observer trip," and provides authority to release to the public data concerning the rates at which an individual vessel is catching or receiving prohibited species.

479. ● GROUNDFISH OF THE GULF OF ALASKA AND GROUNDFISH OF THE BERING SEA AND ALEUTIAN ISLANDS: REGULATORY AMENDMENT—AUTHORITY FOR REQUIRING DAILY CATCH REPORTS AND CHECK-IN AND CHECK-OUT REPORTS

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 672; 50 CFR 675

Legal Deadline: None

Abstract: Provides authority for National Marine Fisheries Service to require vessels of the United States to report daily catches of groundfish and prohibited species when the Director, Alaska Region, requests that they do so. Also provides authority for National Marine Fisheries Service to require vessels of the United States to check in and check out of regulatory areas in the Gulf of Alaska and the Bering Sea/Aleutian Islands management areas.

491. ● GROUNDFISH OF THE GULF OF ALASKA; REGULATORY AMENDMENT—SABLEFISH HOOK-AND-LINE FISHERY

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 672

Legal Deadline: None

Abstract: Pending Council approval, the hook-and-line fishery for sablefish would be opened on May 1, June 1, or July 1. The hook-and-line fishery for sablefish in the Gulf of Alaska would be closed if the same fishery in the Eastern Regulatory Area is closed before July 1. After July 1, regulatory areas other than the eastern gulf would be reopened to hook-and-line fishing for sablefish.

493. NATIONAL SEA GRANT PROGRAM FUNDING REGULATIONS

Legal Authority: 33 USC 1123 (d)(7); 33 USC 1125; 33 USC 1127

CFR Citation: 15 CFR 917.2 (Revision); 15 CFR 917.11 (Revision); 15 CFR 917.20 (Revision); 15 CFR 917.21 (Revision); 15 CFR 917.22 (Revision); 15 CFR 917.30 (Revision)

Legal Deadline: Final, Statutory, December 28, 1988.
Applies only to revision of 15 CFR 917.20 to 917.22.

Abstract: Amendments to the Sea Grant Act require updating of implementing regulations to include:

Replace the "National Needs" program with a "strategic research program," essentially to focus on a more limited number of priority research areas;

Include two types of fellowships not previously recognized by statute and set forth selection procedures;

To update the international program in view of the broader geographic areas and activities authorized;

To provide more specific support for graduate education and interdisciplinary research in marine affairs.

There are no alternatives. Statutory amendments explicitly or implicitly require conforming amendments to the funding regulations. There are no costs involved.

494. LICENSING OF PRIVATE REMOTE SENSING SPACE SYSTEMS

Significance: Regulatory Program

Legal Authority: 15 USC 4244

CFR Citation: 15 CFR 960

Legal Deadline: None

Abstract: NOAA has agreed to amend its regulations for licensing private remote sensing space systems in response to a petition by news organizations. Petitioners seek clearer definition of when a license might be restricted because of national security. NOAA will consider ways to provide clarity to reassure potential applicants but will not consider the specific standard proposed by the media, which was rejected during the original rulemaking.

NATIONAL MARINE FISHERIES SERVICE

495. PROCESSED FISHERY PRODUCTS, PROCESSED PRODUCTS THEREOF & CERTAIN OTHER PROCESSED FOOD PRODUCTS: U.S. STANDARDS FOR GRADES OF FROZEN FISH BLOCKS & PRODUCTS MADE THEREFROM, ETC

Legal Authority: 7 USC 1621 to 1630 Agricultural Marketing Act of 1946

CFR Citation: 50 CFR 264A

Legal Deadline: None

Abstract: The revised rule will expand the coverage of established voluntary standards for grades of fishery products to include new products made from fish blocks. The standards will take into account new technology and equipment. These standards will be used in a voluntary program of fishery products inspection and certification by the NMFS. Industry has shown a high level of interest and support for the revisions.

496. U.S. GENERAL STANDARDS FOR GRADES OF SHRIMP

Legal Authority: 7 USC 1621 to 1630 Agricultural Marketing Act of 1946

CFR Citation: 50 CFR 265A

Legal Deadline: None

Abstract: The final rule will establish general quality grading standards for all non-breaded forms of fresh or frozen shrimp. These grading standards will provide for the systematic differentiation of the quality of shrimp into categories -- U.S. Grades A, B and Substandard. The proposed standards will be applied to all commercial species of fresh or frozen shrimp in raw or cooked states in all non-breaded market forms. The adoption of grading standards is expected to facilitate trade in shrimp of all commercial species, as consumers will be able to select shrimp on the basis of identified quality. Industry has shown great interest in and support for the standards.

497. REGULATIONS ON STRIPED BASS IN EXCLUSIVE ECONOMIC ZONE OFF NORTH EAST ATLANTIC COAST

Legal Authority: PL 100-589; 16 USC 1801 et seq; 16 USC 1851

CFR Citation: 50 CFR 630

Legal Deadline: None

Abstract: Section 6 of the Atlantic Striped Bass Conservation Act requires the Secretary of Commerce to implement regulations on striped bass fishing in the Exclusive Economic Zone. Such regulations are to be consistent with the national standards of the Magnuson Act and complement regulations on striped bass in State waters. Comments were obtained on alternative regulations from various entities through an ANPRM. NOAA is pursuing implementation of regulations that would prohibit the harvest of striped bass from the EEZ and prohibit possession of striped bass while fishing in the EEZ.

496. ENDANGERED FISH AND WILDLIFE; APPROACHING HUMPBACK WHALES IN HAWAIIAN WATERS

Legal Authority: 16 USC 1382(a); 16 USC 1540(f)

CFR Citation: 50 CFR 222.31

Legal Deadline: None

Abstract: This rule will establish as regulation a previously published Notice of Interpretation regarding minimum distances that should be maintained in the presence of humpback whales in Hawaii. Establishing a 100-yard perimeter around any of the whales while in the Hawaiian Exclusive Zone as a regulation is considered necessary given a large increase in vessel traffic and other water use activities in areas where this species historically occurs. In response to comments received in the public record, NOAA is defining two specific sites as cow/calf areas in which an approach closer than 300 yards is prohibited. This addition creates a new subsection to the rule.

499. AMENDMENT 3 TO THE HIGH SEAS SALMON FISHERY OFF THE COAST OF ALASKA EAST OF 175 E. LONGITUDE

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt. Act

CFR Citation: 50 CFR 674

Legal Deadline: NPRM, Statutory. Final, Statutory.
NPRM 15 days and final action 110 days after receipt from the fishery management council.

Abstract: This amendment will (1) update the FMP by revising sections containing biological information and catch statistics and correcting minor errors, (2) add sections considering fish habitat and vessel safety, (3) defer regulation of commercial and recreational fisheries in the EEZ off Alaska to the State, (4) continue to allow sport salmon fishing throughout the management area, (5) retain the ban on salmon fishing with nets in both West and East management areas, (6) retain the ban on commercial salmon fishing in the West Area, (7) continue to allow hand-troll and power-troll salmon fishing in the East Area, (8) provide for annual harvest levels or optimum yields to be established by the Pacific Salmon Commission, and (9) provide for extending the FMP to the EEZ west of 175 degrees east longitude should the International Convention for the High Seas Fisheries of the North Pacific Ocean be terminated.

505. SUSPENSION FOR 180 DAYS OF VESSEL REGISTRATION FOR SABLEFISH HOOK-AND-LINE FISHERY IN THE GULF OF ALASKA

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 672

Legal Deadline: None

Abstract: This rule would repeal the requirements for vessel registration in the sablefish hook-and-line fishery in the Gulf of Alaska. The regulation at 50 CFR 672.6 was useful in prior years for the management of the sablefish fishery. Now, catches by the fleet during the fishing season can be estimated since the number of vessels in the sablefish fleet has stabilized.

506. LIST WINTER-RUN CHINOOK SALMON OF THE SACRAMENTO RIVER AS A THREATENED SPECIES UNDER THE ENDANGERED SPECIES ACT

Legal Authority: 16 USC 1533

CFR Citation: 50 CFR 226; 50 CFR 227

Legal Deadline: None

Abstract: NMFS proposes to list the Sacramento River Winter-run Chinook salmon as threatened under provisions of the Endangered Species Act. Between 1967 and 1985, the run declined from a 3-year mean run size of about 84,000 fish to a mean run size of less than 3,000 fish. However, the 1989 run was only 500 fish. Currently, the species is listed on an emergency interim basis, which expires April 4, 1990. Portions of the Sacramento River will be designated as critical habitat.

507. © PROHIBITION OF THE USE OF EXPLOSIVES IN THE YELLOWFIN TUNA-DOLPHIN FISHERY

Legal Authority: 16 USC 1361 et seq

CFR Citation: 50 CFR 216.24(d)(2)(vii)(E)

Legal Deadline: Final, Statutory, April 1, 1990.

Abstract: In 1988, Congress amended the Marine Mammal Protection Act to prohibit the use of explosive devices in tuna purse seine operations that involve marine mammals. An exception from this prohibition was that Class C explosive pest control devices, approved by the Department of Transportation, could continue to be used when marine mammals are present. An interim final rule in this regard was published in the FR (54 FR 411) and became effective January 1, 1989. Continued unrestricted use of the Class C explosive pest control devices was made contingent upon the outcome of a study mandated by Congress and undertaken by NMFS. The MMPA requires the Secretary to prescribe regulations to prohibit or restrict the use of Class C explosives by April 1, 1990, unless the Secretary, based upon the the study, determines "...that the use of such devices does not result in physical impairment or increased mortality of marine mammals." Such a study was conducted by NMFS and the results were reviewed by experts in a workshop. The workshop participants determined that physical injuries to dolphins were caused by Class C explosives that were detonated within 0.5 meters of the animal. (cont)

508. LISTING OF STELLER SEA LIONS AS THREATENED UNDER THE ENDANGERED SPECIES ACT

Significance: Regulatory Program

Legal Authority: 16 USC 1531 et seq, Endangered Species Act

CFR Citation: 50 CFR 227

Legal Deadline: None

Abstract: The Endangered Species Act (ESA) requires that a species or population be listed as "threatened" when it is likely to become an endangered species, i.e., is in danger of extinction within the foreseeable future throughout all or a significant portion of its range. A survey of Northern Sea Lion abundance from the Central Aleutian Islands to the Central Gulf of Alaska conducted by the National Marine Fisheries Service (NMFS) in June-July 1989 shows a precipitous decline in numbers (63 percent) since 1985. Compared to estimates in 1960, overall abundance declined in the study area by 82 percent. There are about 53,000 adult and juvenile Northern Sea Lions in Alaskan waters. NMFS is adding Northern Sea Lions west of 141 W longitude in Alaska to the list of threatened species contained in 50 CFR 227.4. Further regulatory action may be required to identify critical habitat needs and conservation measures to prevent further declines. This regulatory action is mandated by statute and should result in the recovery of Northern Sea Lion populations to previous levels.

515. ● PROCEDURE FOR SETTING QUOTAS ON REMOVAL OF ATLANTIC BOTTLENOSE DOLPHINS FROM THE WATERS OF THE GULF OF MEXICO AND FLORIDA'S EAST COAST

Legal Authority: 16 USC 1361

CFR Citation: 50 CFR 216

Legal Deadline: None

Abstract: Regulations will establish a procedure for setting and revising quotas to govern the removal of Atlantic bottlenose dolphins (Tursiops truncatus) from the Gulf of Mexico and Florida east coast. Regulations will be supported by an EIS that will provide a comprehensive review of the status of stocks of bottlenose dolphins in the southeast region and the validity of the 2 percent rule for determining the allowable take to the extent reliable data is available. These regulations and quotas will take into account other types of taking such as those that may occur incidentally to commercial fisheries.

522. REGULATIONS GOVERNING THE TAKING AND IMPORTING OF MARINE MAMMALS; IMPORTATION OF YELLOWFIN TUNA

Significance: Regulatory Program

Legal Authority: 16 USC 1361 et seq Marine Mammal Protection Act of 1972

CFR Citation: 50 CFR 216.24

Legal Deadline: None

Abstract: U.S. tuna purse seine fishermen operating in the eastern tropical Pacific have been subject to certain restrictions relating to the take of marine mammals, whereas other nations fishing in a similar manner that export tuna to the U.S. often do not impose similar constraints on their own industry. Therefore, the Marine Mammal Protection Act of 1972 was amended to require all such nations, prior to being allowed to import tuna, to provide documentary evidence that they have adopted a program governing the incidental taking of marine mammals that is comparable to that of the U.S. and that the average rate of incidental take in the fishery is comparable to that of the U.S. These regulations will implement this requirement.

524. ENDANGERED FISH OR WILDLIFE; PERMITS FOR THE INCIDENTAL TAKING OF ENDANGERED MARINE SPECIES

Legal Authority: 16 USC 1531 et seq Endangered Species Act of 1973

CFR Citation: 50 CFR 222

Legal Deadline: None

Abstract: The proposed regulations implement Section 10(a)(1)(B) of the Endangered Species Act, as amended (ESA). The proposal provides, under limited circumstances, for issuance of permits allowing the incidental taking of endangered species. The proposal applies to certain Federal permit or license holders and to private entities or State or local governments whose actions are not otherwise subject to Federal involvement or control. Prior to the 1982 amendments to the ESA, the taking of endangered species was prohibited except for scientific research or to enhance the propagation or survival of the species. Permits issued under the proposed regulations would allow permit holders to conduct their activities without risk of prosecution for the incidental take of species authorized by such permits.

525. U.S. STANDARDS FOR GRADES OF FISH FILLETS

Significance: Agency Priority

Legal Authority: 7 USC 1621 to 1630 Agricultural Marketing Act of 1946

DOC—NOAA

Completed Actions

CFR Citation: 50 CFR 258; 50 CFR 257

Legal Deadline: None

Abstract: This revised rule will expand the coverage of established voluntary standards for grades of fish fillets to include a new market form or style of fillet in which bones are not removed. This style of fillet has become more familiar in the marketplace, resulting in the industry requesting the amendment. Responses to a previous request for comments indicate a national interest in this style of presentation. The amendment will allow this market form, bearing FDA's recommended labeling, to be inspected and reflect the U.S. Grade A mark.

526. AMENDMENT 8 TO THE FISHERY MANAGEMENT PLAN FOR THE ATLANTIC SURF CLAM AND OCEAN QUAHOG FISHERIES

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt. Act

CFR Citation: 50 CFR 652

Legal Deadline: NPRM, Statutory. Final, Statutory.
NPRM 15 days and final action 110 days after receipt from the Mid-Atlantic Fishery Management Council.

Abstract: Amendment 8 addresses current regulatory restraints on industry designed to conserve the resource. The FMP objectives are modified to promote economic stability, simplify regulations, and to allow more operational flexibility for the industry. The rule implementing Amendment 8: (1) replaces the effort limitation system with an annual transferable individual allocation system (allocations initially issued to vessels) in the surf clam and ocean quahog fisheries; (2) removes effort limitations in all areas; (3) combines the Mid-Atlantic, Nantucket Shoals, and Georges Bank Areas to reinstitute common management of the fishery coastwide; (4) and revises the surf clam minimum size limit provision allowing for annual suspension of the size limit.

527. REGULATORY AMENDMENT-IMPLEMENTATION OF CONDITIONALLY APPROVED MEASURES UNDER AMENDMENT 1 TO THE SPINY AND SLIPPER LOBSTER FMP IN THE GULF OF MEXICO AND SOUTH ATLANTIC - PERMITS, BAG LIMITS

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt. Act

CFR Citation: 50 CFR 640

Legal Deadline: None

Abstract: This rule will (1) require a permit to harvest spiny lobsters in the Exclusive Economic Zone (EEZ) in quantities in excess of the bag limits or to sell spiny lobsters in or from the EEZ, (2) require a permit to wring tails from spiny lobsters in or from the EEZ, and (3) establish a recreational bag limit for spiny lobsters in the EEZ.

528. REGULATORY AMENDMENT TO THE FISHERY MANAGEMENT PLAN FOR THE ATLANTIC SWORDFISH FISHERY

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt. Act

CFR Citation: 50 CFR 630

Legal Deadline: None

Abstract: This regulatory amendment will modify the present data collection system to require 100 percent mandatory dealer reporting of landings and price for swordfish and incidental species caught in the domestic swordfish fishery. This information is required to determine total fishery landings, fishing effort, and biological data (e.g., size of population, age classes) for stock assessment purposes. The regulatory amendment also will (1) clarify the scope of the regulations; (2) modify the requirements and procedures for obtaining a vessel permit; and (3) modify procedures for submitting daily fishing records. The amendment is intended to (1) obtain more timely and accurate data on swordfish and incidentally caught species) landings, value, and size composition of the catch; (2) improve stock assessment capabilities; (3) ensure accountability for information submitted on permit applications; (4) ensure timeliness of information submitted on fishing records; and (5)

clarify the intent of the existing regulations.

529. BLUEFISH FISHERY MANAGEMENT PLAN

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt. Act

CFR Citation: 50 CFR 628

Legal Deadline: NPRM, Statutory. Final, Statutory.
NPRM 15 days and final action 110 days after receipt from the fishery management council.

Abstract: This FMP was prepared jointly by the Mid-Atlantic Fishery Management Council and the Atlantic States Marine Fisheries Commission to promote conservation of Atlantic bluefish. The FMP will provide uniform management throughout the Atlantic Exclusive Economic Zone from the eastern coast of Florida to Maine. It is expected that complementary measures will be implemented coastwide. In the commercial fishery these measures will require a permit for sale of bluefish and a 20-percent allocation limit and in the recreational fishery a possession limit of ten bluefish per fisherman. The FMP also defines overfishing for bluefish.

531. REGULATIONS GOVERNING THE TAKING OF SMALL NUMBERS OF MARINE MAMMALS INCIDENTALLY TO OIL AND GAS EXPLORATION IN THE BEAUFORT AND CHUKCHI SEAS

Legal Authority: 16 USC 1371(a)(5)

CFR Citation: 50 CFR 228

Legal Deadline: None

Abstract: Section 101(a)(5) of the Marine Mammal Protection Act directs the Secretary to allow, on request by U.S. citizens who engage in a specified activity (other than commercial fishing) in a specified geographical region, the incidental take of small numbers of marine mammals. The agency must find that the taking will have a negligible impact on the species or stocks, and will not have an unmitigable adverse impact on the availability of the species for subsistence uses. The Service received a request from 6 oil companies for a take of marine mammals incidental to oil exploration in the Beaufort and Chukchi Seas. These regulations allow a take if certain conditions are met including requirements for monitoring and reporting and a prohibition on taking in the spring lead system used by bowhead whales in the Chukchi Sea. These regulations allow the oil companies to proceed with energy exploration while protecting marine mammals.

536. RESUBMITTED PART OF AMENDMENT 3 TO THE FISHERY MANAGEMENT PLAN FOR COASTAL MIGRATORY PELAGIC RESOURCES OF THE GULF OF MEXICO AND SOUTH ATLANTIC

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt. Act

CFR Citation: 50 CFR 642

Legal Deadline: NPRM, Statutory. Final, Statutory.
NPRM 15 days and final action 75 days after receipt from the fishery management council.

Abstract: This rule prohibits the use in the Exclusive Economic Zone of drift gillnets for Atlantic migratory group king mackerel and for all other coastal migratory pelagic fish from the Virginia/North Carolina Border to the U.S./Mexico border. The rule also establishes a procedure whereby the use of purse seines and runaround gillnets for the Atlantic migratory group king mackerel may be prohibited when and if that group is determined to be overfished. This prohibition would take effect only if, in the opinion of the Gulf of Mexico and South Atlantic Fishery Management Councils, the commercial allocation could be harvested by other authorized gear.

538. ESTABLISHMENT OF ALLOCATIVE MANAGEMENT MEASURES FOR THE PACIFIC HALIBUT FISHERY IN THE PRIBILOF ISLANDS

Legal Authority: 5 UST 5; TIAS 2900; 16 USC 773 to 773K

CFR Citation: 50 CFR 301

Legal Deadline: None

Abstract: This rule would implement certain allocative measures governing fishing for halibut in Regulatory Area 4C around the Pribilof Islands, as recommended by the North Pacific Fishery Management Council. The primary purpose and intended effect of this action is to enhance economic development of the Pacific halibut fishery carried out by persons who live on either of the Pribilof Islands or operate primarily in Regulatory Area 4C.

539. AMENDMENT 2 GULF OF MEXICO REEF FISH FISHERY MANAGEMENT PLAN

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 641

Legal Deadline: NPRM, Statutory. Final, Statutory.
NPRM 15 days and final action 110 days after receipt from the Gulf of Mexico Fishery Management Council.

Abstract: Amendment 2 would prohibit the harvest and possession of jewfish within the exclusive economic zone of the Gulf of Mexico. The intent of Amendment 2 to the Gulf of Mexico Reef Fish Fishery Management Plan is to protect jewfish from apparent overfishing and allow for stock rebuilding.

549. ADMINISTRATION OF A UNIFORM PATENT POLICY WITH RESPECT TO DOMESTIC RIGHTS IN INVENTIONS MADE BY GOVERNMENT EMPLOYEES

Significance: Agency Priority

Legal Authority: EO 10096; EO 10930; 35 USC 207 to 208; 15 USC 3701 et seq

CFR Citation: 37 CFR 100

Legal Deadline: None

Abstract: PL 99-502 amended the Stevenson-Wydler Innovation Act of 1980 by establishing a number of procedures to encourage the development of technologies by laboratories owned or operated by the Federal Government, to facilitate the transfer of such technologies to the public, and to promote cooperation between these laboratories and the private sector.

Executive Order 10096 would be amended with regard to the Government's rights to ownership of inventions created in laboratories owned or operated by the Federal Government. A revised version of the Executive order might be prepared and regulations would be developed to implement the amendments effected by PL 99-502.

This action will not increase Federal costs. In the short run it will encourage private sector collaboration to assist work done in Federal laboratories by appropriated funds, and in the long run increased commercialization of patents and inventions will increase tax revenues.

551. METRIC CONVERSION POLICY FOR FEDERAL AGENCIES

Significance: Regulatory Program

Legal Authority: 15 USC 205a et seq Metric Conversion Act

CFR Citation: 15 CFR 19 Subpart B (Revised)

Legal Deadline: Other, Statutory, September 30, 1992.
15 USC 205(1) (as amended by sec. 5164 of PL 100-418) calls for the Comptroller General to review the implementation of the amended policy and report his finding to Congress along (cont)

Abstract: The CFR must be updated to reflect the new Federal policy, as amended by the 1988 Trade Act (PL 100-48), regarding Federal use of the metric system in its procurements, grants and other business-related activities, and the impact on State and local governments and the private sector of this transition. No alternatives are being considered.

The costs to the Federal Government cannot be accurately estimated, but will include the cost of redoing some regulations and publications, costs associated with orienting employees and contractors to use of the metric system and some share of contractor costs for converting. The benefits will be the greater marketability of U.S. products which will improve our competitive posture in world markets and thereby improve U.S. trade balances.

DEPARTMENT OF DEFENSE (DOD)

DEPARTMENT OF DEFENSE

Office of the Secretary

32 CFR Chs. I, V, VI, and VII

33 CFR Ch. II

36 CFR Ch. III

Improving Government Regulations; Semiannual Agenda of Regulations

AGENCY: Office of the Secretary, DoD.

ACTION: Publication of the consolidated semiannual agenda of DoD regulatory documents.

SUMMARY: The Department of Defense is publishing this consolidated semiannual agenda of regulatory documents, including those that are procurement-related, for public information and comments under Executive Order 12291 "Federal Regulation" and the Office of Federal Procurement Policy Act of 1988 (102 Stat. 4055; 41 U.S.C. 402). This agenda incorporates the objective and criteria, when applicable, of the regulatory reform program under E.O. 12291, the Federal Procurement Policy Act, and other regulatory programs. It contains DoD issuances initiated by DoD components that may have economic and environmental impact on State, local, public, or private interests under the criteria of E.O. 12291. Although most DoD issuances listed in the agenda are of negligible public impact, their nature may be of public interest and, therefore, are published to provide notice of rulemaking and an opportunity for public participation in the internal DoD rulemaking process.

This agenda updates the report published on April 23, 1990, and includes regulations expected to be issued and under review over the next 12 months. The procurement-related agenda items included in this publication will also be used by the Office of Federal Procurement Policy to publish a "Procurement Regulatory Activity Report" as required by the Office of Federal Procurement Policy Act Amendments of 1988.

The next agenda is scheduled to be published in April 1991. In addition to this agenda, DoD components also publish rulemaking notices pertaining to their specific statutory administration requirements as required.

FOR FURTHER INFORMATION CONTACT: For information concerning the overall DoD regulatory improvement program and for general semiannual agenda information, contact Mr. William P. Pearce, telephone 703-746-0933, or write to Directorate for Information Operations and Reports, Washington Headquarters Services, 1215 Jefferson Davis Highway, Suite 1204, Arlington, Virginia 22202-4302.

For questions of a legal nature concerning the agenda and its statutory requirements or obligations, contact the Office of the General Counsel, DoD, Washington, DC 20301, or call 703-697-2714.

For general information on Office of the Secretary regulations, contact Mrs. Patricia H. Means, Directives Division, Directorate for Correspondence and Directives, Washington Headquarters Services; telephone 703-697-4111. For general information on the procurement-related agenda items, contact Mr. Owen L. Green III, telephone 703-697-7266, or write to the Defense Acquisition Regulatory System, Pentagon, Room 3D139, Washington, DC 20301-3062.

For general information on Department of the Army regulations, contact Mr. Kenneth L. Denton, telephone 703-325-6297, or write to Commander, U.S. Army Publications and Printing Command, ATTN: ASQZ-PGS, Room 1420, Hoffman I, Alexandria, Virginia 22331-0302.

For general information on Department of the Navy regulations, contact Ms. Alcinda P. Wenberg, telephone 703-692-5307, or write to Department of the Navy, Deputy Assistant Secretary of the Navy (Information Resources Management) (DASN (IRM)), 2211 Jefferson Davis Highway, CP5, Room 334, Arlington, Virginia 22202.

For general information on Department of the Air Force regulations, contact Ms. Patsy J. Conner, telephone 703-614-3527, or write to Department of the Air Force, SAF/AAIA, Pentagon, Washington, DC 20330-1000.

For specific agenda items, contact the appropriate individual indicated in each DoD component report.

SUPPLEMENTARY INFORMATION: This consolidated agenda is composed of the regulatory status reports, including procurement-related regulatory status reports from the Office of the Secretary of Defense and the Departments of the Army, Navy, and Air Force. Included also in this agenda is the regulatory report from the U.S. Army Corps of Engineers, whose civil works functions fall under the reporting requirements of E.O. 12291. Their agenda will reflect these requirements with follow-on reporting actions taken as necessary.

DoD issuances range from DoD Directives (reflecting departmental policy) to implementing instructions and regulations (largely internal and used to implement directives). The OSD agenda section contains the primary directives under which DoD components promulgate their implementing regulations.

To ease identification and to clarify the differences among the variety of issuances reported, they are identified by their DoD internal numbering system, which denotes component level of authority and type of issuance, in addition to the required CFR number.

In addition, this agenda, although published under the reporting requirements of E.O. 12291, will continue to be the DoD single source reporting vehicle, which will identify issuances that are currently applicable under the various regulatory reform programs in progress. Therefore, when applicable, DoD components will identify those rules which come under the criteria of the:

a. Regulatory Flexibility Act;

b. Paperwork Reduction Act;

c. GATT International Trade Agreement; and

d. Office of Federal Procurement Policy Act Amendments of 1988.

These DoD issuances, which are directly applicable under these statutes, will be identified in the agenda and their action status indicated. Generally, the reports in this agenda will contain four sections: (1) Prerule stage; (2) proposed rule stage; (3) final rule stage; and (4) completed actions.

Although not a regulatory agency, the Department of Defense will continue to participate in regulatory initiatives designed to reduce the economic costs and unnecessary environmental burdens upon the public. Comments and recommendations are invited on the rules reported and should be addressed to the DoD component representatives identified in each section.

DOD

Although sensitive to the needs of the public and regulatory reform, the Department of Defense reserves the right to exercise the exemptions and flexibility permitted in its rulemaking process in order to proceed with its overall defense-oriented mission.

Note: The publishing of this agenda does not waive the applicability of the military affairs exemption in section 553 of title 5 and section 1 of E.O. 12291.

Dated: August 23, 1990.

D.O. Cooke,

Director, Administration and Management.

Office of the Secretary (OS)

552. CONTRACTOR ADP SOFTWARE COSTS (DAR CASE 87-061)

Legal Authority: 5 USC 301; 10 USC 2202

CFR Citation: 48 CFR 231

Legal Deadline: None

Abstract: Modify the DOD FAR Supplement to implement a suggestion by the Defense Logistics Agency to describe how to treat and evaluate contractors' ADP costs.

Timetable:

Action	Date	FR Cite
Case Opened	09/21/89	
Next Action Undetermined		

Small Entities Affected: Undetermined

Government Levels Affected: Federal

Additional Information: This is a procurement-related action for which there is no statutory requirement. There is no paperwork burden associated with this action.

Agency Contact: Owen Green, Procurement Analyst, Department of Defense, Office of the Secretary, Defense Acquisition Regulatory System, Room 3D139, Pentagon, Washington, DC 20301-3062, 703 697-7266

RIN: 0790-AC07

553. EXEMPTIONS FROM COST OR PRICING DATA (DAR CASE 89-064D)

Legal Authority: 5 USC 301; 10 USC 2202

CFR Citation: 48 CFR 246

Legal Deadline: None

Abstract: Modify the DOD FAR Supplement to implement a suggestion from the Office of the Secretary of Defense to ensure that contractors do not face possible loss of exemptions only because the amount of previous sales of the same type of items exceeds established regulatory thresholds.

Timetable:

Action	Date	FR Cite
Case Opened	06/20/89	
Next Action Undetermined		

Small Entities Affected: Undetermined

576. CONFIDENTIALITY OF MEDICAL QUALITY ASSURANCE (QA) RECORDS (DOD DIRECTIVE 6040.37)

Legal Authority: 10 USC 1101; 5 USC 301

CFR Citation: 32 CFR 285a

Legal Deadline: None

Abstract: In 1987, Congress provided confidentiality for medical quality assurance documents in the DoD Authorization Act, recognizing that confidentiality is important to prevent public disclosure of facts and opinions that might cause harm to participants in the process of quality assurance activities. At the same time, allowance is made for disclosure of specified information when required for authorized quality monitoring, patient safety, or administrative functions. This proposed rule adheres closely to the specific provisions of the statute.

839. REGULATORY PROGRAMS OF THE CORPS OF ENGINEERS, PART 325, APPENDIX D—ENDANGERED SPECIES COUNTERPART REGULATIONS

Legal Authority: 33 USC 401; 33 USC 403; 33 USC 1344; 33 USC 1413

CFR Citation: 33 CFR 325, App D

Legal Deadline: None

Abstract: Procedures for the protection of endangered species in the regulatory program of the Corps of Engineers. Because of the increased emphasis being placed on endangered species by the Federal and State resource agencies, the Corps identified a need to provide more definitive guidance on implementing the Endangered Species Act (ESA) in its regulatory program. The Corps is now developing counterpart regulations with the Department of Interior. The regulations will basically bring together various guidance used in the past by both the Corps and DOI. The regulations will include guidance on how the ESA Amendments impact applicants for Federal permits.

840. NATIONWIDE PERMIT PROGRAM

Significance: Regulatory Program

Legal Authority: 33 USC 401; 33 USC 403; 33 USC 1344; 33 USC 1413

CFR Citation: 33 CFR 330

Legal Deadline: None

Abstract: The Corps intends to propose revisions to 33 CFR 330. The intent of the proposed revisions will be to simplify and clarify the nationwide permit program of the Corps. The nationwide permit program is designed to authorize projects that have minimal impacts with little or no paperwork or delay. Section 330 of the regulation has

DOD—COE — Proposed Rule Stage

become so complex that this goal is no longer being met.

641. PART 325, PROCESSING DEPARTMENT OF THE ARMY PERMITS

Significance: Agency Priority

Legal Authority: 33 USC 401 et seq; 33 USC 1344; 33 USC 1413

CFR Citation: 33 CFR 325.1(f)

Legal Deadline: None

Abstract: This regulation will provide for an increase in the fees charged by the Corps of Engineers for Department of the Army permits issued pursuant to section 10 of the River and Harbor Act of 1899, section 404 of the Clean Water Act, and section 103 of the Marine Protection Research and Sanctuaries Act. This action is being taken after an evaluation of the current fee structure by the Department of Defense Inspector General determined that the fee amounts had not been changed for a significant time. The regulation change will also restructure the fees from "permit fees" to nonrefundable application fees.

643. SHORELINE MANAGEMENT FEES AT CIVIL WORKS PROJECTS

Legal Authority: 16 USC 460d

CFR Citation: 36 CFR 327

Legal Deadline: None

Abstract: The Corps intends to propose a revision to 36 CFR 327. The intent of the proposed revision is to supersede the Shoreline Management Fee Schedule set forth in the Lakeshore Management Regulation dated December 13, 1974. Shoreline management fees are charged to individuals receiving permits for minor private exclusive use privileges. The proposed revision will increase the cost of shoreline management permits to current and future permit holders. This action is necessary to enable the Federal Government to recover a greater portion of the actual cost of issuing shoreline management permits.

Department of Education

Semiannual Regulatory Agenda

DEPARTMENT OF EDUCATION (ED)

DEPARTMENT OF EDUCATION

Office of the Secretary

34 CFR Subtitles A and B

Unified Agenda of Federal Regulations

AGENCY: Office of the Secretary, Education.

ACTION: Publication of the semiannual agenda of Federal regulations.

SUMMARY: The Secretary of Education publishes a semiannual agenda of Federal regulations in accordance with guidance issued by the Office of Management and Budget (OMB) issued under the authority of section 6(b) of Executive Order 12291 (Federal Regulations). The purpose of the agenda is to encourage more effective public participation in the regulatory process by giving the public early information about pending regulatory activities.

FOR FURTHER INFORMATION CONTACT: Questions or comments related to specific regulations listed in this agenda should be directed to Kenneth C. Depew, Acting Director, Division of Regulations Management, Office of the General Counsel, Department of Education, Room 2131, FOB-6, 400 Maryland Avenue SW., Washington, DC 20202-2241; telephone: (202) 401-2887.

SUPPLEMENTARY INFORMATION: Executive Order 12291, dated February 17, 1981, and the Regulatory Flexibility Act, Pub. L. 96-354, enacted September 19, 1980, require the Department of Education to publish, in October and April of each year, (1) an agenda of regulations that the Department expects to issue and (2) currently effective regulations that are under review. The agenda includes both notices of proposed rulemaking (NPRMs) currently being drafted and pending final regulations.

Under the authority of Executive Order 12291, OMB has issued guidance prescribing the content and structure of the Unified Agenda of Federal Regulations. The Unified Agenda will be issued semiannually and will cover the succeeding 12 months from the date of publication.

For each set of regulations listed, the Agenda provides the title of the document, the type of document, a citation of any rulemaking or other action taken since publication of the most recent Agenda, and planned dates of future rulemaking. In addition, the Agenda provides the following information:

- An abstract, which includes a description of the problem to be addressed, any principal alternatives being considered, and potential costs and benefits of the action.
- An indication of whether the planned action is likely to have significant economic impact on a substantial number of small entities as defined by the Regulatory Flexibility Act (5 U.S.C. 601(b)).
- A reference to where a reader can find the current regulations in the Code of Federal Regulations.
- A citation of legal authority.
- The name, address, and telephone number of the contact person at the Department from whom a reader can obtain additional information regarding the planned action.
- An indication if the action is priority and the criteria used in determining the priority status.

If the "Abstract" section of an entry refers readers to the preamble, it means that amendments to those particular regulations would be designed (1) to effect regulatory relief, including reducing paperwork and compliance burdens, improving cost effectiveness, and to the extent possible, vesting greater discretion in State and local agencies; and (2) if necessary, to clarify and simplify requirements governing that program.

The Department will review all regulations to be promulgated to ensure that they reflect the principles set forth in the joint statement issued by the President and the Nation's Governors developed during the course of the Education Summit held on September 27-28, 1989, in Charlottesville, Virginia. Particular attention will be given to increasing flexibility at the State and local levels in the use of Federal funds in return for greater accountability for increasing the levels of education and training under the Department's programs.

This publication in the **Federal Register** does not impose any binding obligation on the Department with regard to any specific item on the agenda. Regulatory action in addition to the items listed is not precluded. Dates of future regulatory action are subject to revision in subsequent agendas.

Dated: August 24, 1990.

Edward C. Stringer,

General Counsel.

RIN: 1880–AA45

653. UNIFORM ADMINISTRATIVE REQUIREMENTS FOR GRANTS AND COOPERATIVE AGREEMENTS

Legal Authority: 20 USC 1221e-3(a)(1)

CFR Citation: 34 CFR 074; 34 CFR 080

Legal Deadline: None

Abstract: These regulations remove Part 80 and revise Part 74 to establish certain government-wide administrative requirements for grants and cooperative agreements to State and local governments, institutions of higher education, hospitals, and nonprofit and commercial organizations. These regulations are based on an OMB proposal to combine OMB Circulars A-102 (Grants and Cooperative Agreements with State and Local Governments) and A-110 (Grants and Cooperative Agreements with Institutions of Higher Education, Hospitals and Other Nonprofit Organizations) into a single, unified grants management circular. The revised circular, for the first time, also applies these administrative requirements to commercial organizations that receive grants or cooperative agreements.

681. TECHNICAL AMENDMENTS TO PROGRAM REGULATIONS

Legal Authority: 20 USC 1221e-3(a)(1)

CFR Citation: 34 CFR 080

Legal Deadline: None

Abstract: On November 4, 1988, the Department published an NPRM proposing to establish certain governmentwide administrative requirements for grants and cooperative agreements to State and local governments, institutions of higher education, hospitals, and non-profit and commercial organizations. The regulations would appear in a revised 34 CFR Part 74. These amendments to program regulations specify the extent to which the revised Part 74 regulations apply to the programs of the Department. The regulations also specify statutorily required deviations to the revised Part 74 regulations.

Semiannual Regulatory Agenda

DEPARTMENT OF ENERGY (DOE)

DEPARTMENT OF ENERGY

48 CFR Chs. 2, 10, and X

48 CFR Ch. 9

Regulatory Agenda

AGENCY: Department of Energy.

ACTION: October 1990 regulatory agenda.

SUMMARY: In order to make government more responsive to the citizens of the United States and to assist in fulfilling the President's commitment to lessen regulatory burdens, the Department of Energy (DOE) is publishing this Regulatory Agenda of: (i) Rulemakings currently in progress and rulemakings which currently are expected to begin during the coming year; (ii) any existing rules which are being reviewed within DOE to determine whether modifications should be proposed based upon experience; and (iii) rulemakings and rule reviews which have been completed since publication of the last Regulatory Agenda in April 1990. This Regulatory Agenda also contains information on any rulemakings which are likely to have a significant economic impact on a substantial number of small entities, and it contains additional data on procurement-related actions.

FOR FURTHER INFORMATION CONTACT:

General: For further information on the Regulatory Agenda in general, please contact: Theodore ("Ted") Wilson, DOE, Room 8A-141, Forrestal Building, 1000 Independence Avenue SW., Washington, DC 20585, (202) 586-9507.

Specific: For further information about any particular item on the Regulatory Agenda, please contact the individual listed under that item.

SUPPLEMENTARY INFORMATION:

Covered agencies publish regulatory agendas under Executive Order 12291 in April and October of each year. Under the Executive order, the Office of Management and Budget (OMB) sets standards and procedures for the preparation of these agendas. Regulatory agendas are important to efforts to reduce the burdens of existing and future regulations, to increase agency accountability for regulatory actions, to provide for Presidential oversight of the regulatory process, to minimize duplication and conflict of regulations, and to insure well-reasoned regulations. DOE has made considerable progress in these efforts.

Executive Order 12291 provides that the regulatory agenda may be incorporated with the "regulatory flexibility agenda" required under the Regulatory Flexibility Act, 5 U.S.C. 602 *et seq.* The regulatory flexibility agenda must cover any rule which the agency expects to propose or promulgate which is "likely to have a significant economic impact on a substantial number of small entities." Its information requirements are similar to those of the Executive order. The regulatory flexibility agenda required under 5 U.S.C. 602(a) is incorporated in today's notice.

The Office of Federal Procurement Policy Act Amendments of 1988, 41 U.S.C. 402, require publication twice a year of a "Procurement Regulatory Activity Report." As determined by OMB, agency information is now in the agenda for use by the Office of Federal Procurement Policy (OFPP) in producing these reports.

Entries appended to this notice reflect the status of activities as of approximately August 15, 1990. They are divided into categories first by subagency and then according to their stage of rulemaking action: Prerule, proposed rulemaking, final rulemaking, or completed action.

Appended entries contain the following information: (1) The organizational unit responsible for the regulation; (2) the Regulation Indentifier Number (RIN) assigned by OMB/OIRA; (3) title; (4) significance (that is, whether the regulation appears in the Regulatory Program, prepared annually under Executive Order 12498, and if it does not, whether it is nevertheless a DOE priority); (5) the name, title, address, and telephone number of a person who is knowledgeable about the regulation; (6) effects on small business (that is, whether the action is likely to have a significant economic impact on a substantial number of "small entities" as defined by the Regulatory Flexibility Act) and effects on Federal, State, and local governments; (7) CFR citation (that is, the portion of the Code of Federal Regulations that will be affected); (8) legal authority (that is, a citation to the section of the United States Code (USC), Public Law (PL), or Executive order (EO) that authorizes the regulatory action); (9) abstract (that is, a description of the problem the regulation will address, the regulatory approach under consideration, the alternatives being considered for addressing the problem, and the potential costs and benefits of the action); (10) legal deadline (that is, the statutory or judicial deadline, if any); and (11) timetable (that is, the dates and citations, if applicable, for all past stages and, generally, the date for at least the next stage of the rulemaking). The timetable for completed actions (that is, regulations completed or withdrawn and reviews completed since the preceding Regulatory Agenda) gives the completion date and the citation, if appropriate.

For each procurement-related regulatory action, additional information is provided in the Additional Information data element (Block A): (1) A statement that the action is procurement-related; (2) whether there is a statutory requirement for the action; and (3) whether there is a paperwork burden associated with the action.

Recent organizational changes have affected the designations of some of the individual entries. The Secretary has approved reorganization of the functions of the Assistant Secretary, Management and Administration (MA), and established three successor organizations: (1) Office of Procurement and Assistance Management (PR); (2) Office of Financial Management and Controller (CR); and (3) Office of Administration and Human Resource Management (AD). Of the three offices, PR is involved in the largest number of rulemakings. Of the MA rules carried forward from the prior Regulatory Agenda, PR is the primary office for all but one, which is being developed by CR.

Accordingly, effective with this Regulatory Agenda, the heading "Management and Administration" is changed to "Procurement and Assistance Management." Any AD and CR rules will be listed under "Departmental and Others," a general heading under which rules of several DOE components are carried.

A draft of this Regulatory Agenda has been transmitted to the Chief Counsel for Advocacy of the Small Business Administration for comment, if any, pursuant to 5 U.S.C. 602(b).

DOE

DOE's next Regulatory Agenda will be published in April 1991.

Issued in Washington, DC, on September 10, 1990.

Stephen A. Wakefield,

General Counsel.

Conservation and Renewable Energy—Prerule Stage

Sequence Number	Title	Regulation Identifier Number
699	Energy Efficiency Standards for Water Heaters, Pool Heaters, Direct Heating Equipment, Mobile Home Furnaces, Kitchen Ranges & Ovens, Room Air Conditioners, Fluorescent Lamp Ballasts, (cont)	1904-AA28

Conservation and Renewable Energy—Proposed Rule Stage

Sequence Number	Title	Regulation Identifier Number
700	Energy Conservation Performance Standards for New Buildings; Subpart B - Voluntary Performance Standards for New Non-Federal Residential Buildings	1904-AA24
701	Equivalent Petroleum-Based Fuel Economy Calculation for Electric Vehicles	1904-AA49

Conservation and Renewable Energy—Final Rule Stage

Sequence Number	Title	Regulation Identifier Number
702	Federal Energy Management and Planning Programs; Methodology and Procedures for Life Cycle Costing Analyses	1904-AA06
703	Energy Conservation Performance Standards for New Buildings; Subpart A - Commercial and Multi-Family High Rise Residential Buildings	1904-AA08
704	Energy Efficiency Test Procedures for Water Heaters	1904-AA12
705	Energy Conservation Performance Standards for New Buildings; Subpart C - Mandatory Performance Standards for New Federal Residential Buildings	1904-AA27
706	Energy Conservation Standards for Water Heaters; Technical Amendments	1904-AA36
707	Energy-Efficiency Standards for Dishwashers, Clothes Washers and Clothes Dryers	1904-AA37
708	Test Procedures for Fluorescent Lamp Ballasts, Humidifiers, and Dehumidifiers	1904-AA39
709	Grants Appeals Procedures, SECP Weatherization Assistance, Grants for Schools and Hospitals and Buildings Owned by Units of Local Government, and the Energy Extension Service	1904-AA41

Defense Programs—Proposed Rule Stage

Sequence Number	Title	Regulation Identifier Number
710	Criteria and Procedures for Determining Eligibility for Access to Classified Matter or Significant Quantities of Special Nuclear Material; Substance Abuse Testing	1992-AA13
711	Personnel Assurance Program: Substance Abuse Program	1992-AA14

DOE

Defense Programs—Final Rule Stage

Sequence Number	Title	Regulation Identifier Number
712	Criteria and Procedures for Determining Eligibility for Access to Classified Matter or Significant Quantities of Special Nuclear Material; Q Access Authorization	1992-AA11

Departmental and Others—Proposed Rule Stage

Sequence Number	Title	Regulation Identifier Number
713	Standard Contract for Disposal of Spent Nuclear Fuel and/or High-Level Radioactive Waste; Amendments	1901-AA18
714	Electric Power System Permits and Reports; Applications; Administrative Procedures and Sanctions	1901-AA19
715	Compliance with the National Environmental Policy Act	1901-AA20
716	Collection of Claims Owed the United States	1901-AA21
717	Procedures for Implementing the Equal Access to Justice Act in Energy Board of Contract Appeals Proceedings	1901-AA22

Departmental and Others—Final Rule Stage

Sequence Number	Title	Regulation Identifier Number
718	Annotation of Land Records; Uranium Mill Tailing Remedial Action Program	1901-AA12
719	Model Federal Policy for Protection of Human Research Subjects	1901-AA13
720	Permits for Access to Restricted Data: Atomic Vapor Laser Isotope Separation (U-AVLIS) Uranium Enrichment	1901-AA23
721	Notice of Interpretation and Procedures Implementing Sections 116(c)(3) and (b)(4) (Payment-Equal-to-Taxes .PETT. Provisions) of the Nuclear Waste Policy Act of 1982, as Amended	1901-AA24

Departmental and Others—Completed Actions

Prerule Stage

696. ENERGY EFFICIENCY STANDARDS FOR WATER HEATERS, POOL HEATERS, DIRECT HEATING EQUIPMENT, MOBILE HOME FURNACES, KITCHEN RANGES & OVENS, ROOM AIR CONDITIONERS, FLUORESCENT LAMP BALLASTS, (CONT)

Significance: Regulatory Program

Legal Authority: 42 USC 6295

CFR Citation: 10 CFR 430.32

Legal Deadline: Final, Statutory, January 1, 1992.
EPCA requires DOE determinations on need to amend Federal appliance standards in a period from 7/1/89 to 1/1/94. The statute requires completion of a second reanalysis of all (cont)

Abstract: The Energy Policy and Conservation Act (EPCA), as amended, establishes initial energy-efficiency standard levels for most types of major appliances and generally requires DOE to undergo two subsequent rulemakings, at specified times, to determine whether the extant standard for a covered product should be amended. These products are: refrigerators, refrigerator-freezers, and freezers; room air conditioners; central air conditioners and central air conditioning heat pumps; water heaters; pool heaters; direct heating equipment; furnaces; dishwashers; clothes washers; clothes dryers; kitchen ranges and ovens; and fluorescent lamp ballasts. Other appliances, including television sets, may be regulated by the Department. This rulemaking will review the statutory standards for water heaters; pool heaters; kitchen ranges and ovens; room air conditioners; direct heating equipment; mobile home furnaces; and fluorescent lamp ballasts to determine whether those levels need to be amended. In addition, television sets will be examined to determine whether conservation standards are justified.

700. ENERGY CONSERVATION PERFORMANCE STANDARDS FOR NEW BUILDINGS; SUBPART B - VOLUNTARY PERFORMANCE STANDARDS FOR NEW NON-FEDERAL RESIDENTIAL BUILDINGS

Legal Authority: 42 USC 6831 et seq

CFR Citation: 10 CFR 435

Legal Deadline: Final, Statutory, October 1993.

Abstract: Title III of the Energy Conservation and Production Act, as amended, requires the development and promulgation of energy performance standards for new buildings. In order to comply with this requirement, DOE currently is developing Subpart B, interim voluntary standards for new non-Federal residential buildings. DOE is required to conduct demonstrations of interim standards and report its findings to Congress, prior to the development and promulgation of final standards.

701. EQUIVALENT PETROLEUM-BASED FUEL ECONOMY CALCULATION FOR ELECTRIC VEHICLES

Legal Authority: PL 96-185, Sec 18; PL 94-413, Sec 13(c); PL 94-163, Sec 503(a)(3)

CFR Citation: 10 CFR 474

Legal Deadline: None

Abstract: The final rule on the inclusion of electric vehicles in the Corporate Average Fuel Economy (CAFE) program was issued by DOE on April 15, 1981. It established a methodology for determining the equivalent petroleum-based fuel economy of electric vehicles so that they could be included in a manufacturer's overall CAFE program. This methodology was based on several factors including the energy efficiency of the vehicle, the efficiency of electricity generation and transmission, the fuels used to generate electricity, and the driving patterns of electric vehicles. At this time, DOE is proposing updating the factors in this methodology that are necessary for calculating the CAFE credits for electric vehicles.

702. FEDERAL ENERGY MANAGEMENT AND PLANNING PROGRAMS; METHODOLOGY AND PROCEDURES FOR LIFE CYCLE COSTING ANALYSES

Legal Authority: 42 USC 8255; PL 95-619, Sec 545; PL 99-509, Sec 3301; EO 11912; EO 12003; PL 99-509; PL 100-615

CFR Citation: 10 CFR 436

Legal Deadline: None

Abstract: Under the National Energy Conservation Policy Act, as amended, DOE has promulgated regulations establishing a methodology for estimating and comparing the life cycle costs of Federal buildings and for determining life cycle cost effectiveness. The Energy Security Act required that the regulations provide for the use of marginal energy costs in the life cycle cost analyses. DOE sought legislative revisions to authorize use of average energy costs rather than marginal costs. Appropriate legislative relief came with the Omnibus Budget Reconciliation Act of 1986. The current rulemaking would update base year prices and energy cost escalation rates based on current average energy cost projections. It would also eliminate the need for Federal Register publication of future annual updates so long as there is no significant change in the method for making average energy cost projections. In addition, the Federal Energy Management Improvement Act of 1988 requires the Secretary of Energy to establish the discount rate for life cycle costing. The current rulemaking would include the methodology by which the discount rate will be established.

703. ENERGY CONSERVATION PERFORMANCE STANDARDS FOR NEW BUILDINGS; SUBPART A - COMMERCIAL AND MULTI-FAMILY HIGH RISE RESIDENTIAL BUILDINGS

Legal Authority: 42 USC 6831 et seq

CFR Citation: 10 CFR 435

Legal Deadline: Final, Statutory, October 1983.

Abstract: Title III of the Energy Conservation and Production Act, as amended, requires the development and promulgation of energy performance standards for new buildings. In order to comply with this requirement, DOE has promulgated Subpart A interim standards for commercial buildings and multi-family high rise buildings. The standards are mandatory for the Federal sector and voluntary for all others. DOE is conducting demonstrations of interim standards and is required to report its findings to Congress, prior to the development and promulgation of final standards.

704. ENERGY EFFICIENCY TEST PROCEDURES FOR WATER HEATERS

Legal Authority: 42 USC 6293

CFR Citation: 10 CFR 430.22

Legal Deadline: None

Abstract: Final test procedures for 13 types of appliances were established during 1978. The test procedures form the basis of manufacturers' representations on the Federal Trade Commission's EnergyGuide label. In February 1984, DOE proposed to establish test procedures for heat pump water heaters and to eliminate the need for the test procedure waiver granted to A.O. Smith for its water heater with a thermal compensatory dip tube. Based on the comments received pursuant to the February 8, 1984 NPRM, the Department prepared a new NPRM published March 13, 1987. This NPRM proposed a single test procedure to cover gas, oil and electric water heaters as well as heat pump water heaters, and extended the test procedures to cover instantaneous type water heaters. In addition to the A.O. Smith matter, the rulemaking would eliminate the need for the test procedure waivers granted Bock Corp., Ford Products and Lochinvar Corp. for their high mass oil-fired water heaters.

706. ENERGY CONSERVATION STANDARDS FOR WATER HEATERS; TECHNICAL AMENDMENTS

Legal Authority: 42 USC 6292

CFR Citation: 10 CFR 430.32

Legal Deadline: None

Abstract: This action would be a technical amendment, based on water heater test procedure changes in progress (see 1904-AA12), of the statutory standard for water heaters contained in the National Appliance Energy Conservation Act of 1987 (NAECA), as amended. This amendment could change the way the standard level is measured, but would not change the level of the minimum energy conservation standard itself. NAECA requires amendment of the applicable standard if the Secretary determines that an amended test procedure will alter the measured efficiency of the standard. This technical amendment of the standard is to be completed concurrently with the rulemaking with respect to the amended test procedure.

707. ENERGY-EFFICIENCY STANDARDS FOR DISHWASHERS, CLOTHES WASHERS AND CLOTHES DRYERS

Significance: Regulatory Program

Legal Authority: 42 USC 6295

CFR Citation: 10 CFR 430.32

Legal Deadline: Other, Statutory. EPCA requires DOE determinations on need to amend Federal appliance standards in a period from 7/1/89 to 1/1/94. The statute requires completion of a second reanalysis of all (cont)

Abstract: The Energy Policy and Conservation Act (EPCA), as amended, extensively amends the Department's statutory authorities and responsibilities regarding energy efficiency standards for major household appliances. EPCA establishes initial energy-efficiency standard levels for most types of major appliances and generally requires DOE to undergo two subsequent rulemakings, at specified times, to determine whether the extant standard for a covered product should be amended. These products are: refrigerators, refrigerator-freezers, and freezers; room air conditioners; central air conditioners and central air conditioning heat pumps; water heaters; pool heaters; direct heating equipment; furnaces; dishwashers; clothes washers; clothes dryers; kitchen ranges and ovens; and fluorescent lamp ballasts. Other appliances, including television sets, may be regulated by the Department essentially as provided for in prior law. This rulemaking will review the statutory standards for dishwashers, clothes washers and clothes dryers to determine whether those levels need to be amended.

Significance: Agency Priority

Legal Authority: 42 USC 2284aa Atomic Energy Act of 1954, Sec. 11aa; 42 USC 2201 Atomic Energy Act of 1954, Sec. 161

CFR Citation: 10 CFR 710

Legal Deadline: None

Abstract: The DOE Personnel Security Assurance Program (PSAP), 10 CFR Part 710, was created in order to assure the reliability of individuals in PSAP positions, defined in section 710.50(a). This action would establish a provision for testing for alcohol use in cases of occurrence or reasonable suspicion. The alcohol testing provision would be applicable to individuals who are DOE employees or job applicants and other persons designated for access to Restricted Data, significant quantities of special nuclear material, or national security information. This action also would establish guidelines for DOE contractors for testing for possible use of illegal drugs and abuse of alcohol by their PSAP-cleared employees and applicants for PSAP positions. These guidelines will constitute a baseline PSAP substance abuse testing component. (With respect to drug testing, DOE employees already are subject to the Federal drug-free workplace program.)

712. CRITERIA AND PROCEDURES FOR DETERMINING ELIGIBILITY FOR ACCESS TO CLASSIFIED MATTER OR SIGNIFICANT QUANTITIES OF SPECIAL NUCLEAR MATERIAL; Q ACCESS AUTHORIZATION

Significance: Agency Priority

Legal Authority: 42 USC 2284aa Atomic Energy Act of 1954, Sec 11aa; 42 USC 2201 Atomic Energy Act of 1954, Sec 161; 10 CFR 710

CFR Citation: 10 CFR 710

Legal Deadline: None

Abstract: The protection of certain of the Department's security interests, with the potential, if misused, of causing unacceptable damage to the national security, requires the implementation of a program designed to assure that individuals occupying positions affording access to certain material, facilities, and programs meet the highest standards of reliability. This action would establish a Q(R) access authorization for individuals applying for or currently holding a position identified as a Personnel Security Assurance Program (PSAP) position. The security clearance determination would, through a system of continuous evaluation, identify those individuals whose judgment may be impaired by physical and/or emotional disorders, the use of controlled substances, or the use of alcohol habitually to excess.

713. STANDARD CONTRACT FOR DISPOSAL OF SPENT NUCLEAR FUEL AND/OR HIGH-LEVEL RADIOACTIVE WASTE; AMENDMENTS

Significance: Agency Priority

Legal Authority: 42 USC 10222

CFR Citation: 10 CFR 961 (Revision)

Legal Deadline: None

Abstract: On April 18, 1983, the Department of Energy (DOE) published a rule which established the Standard Contract for Disposal of Spent Nuclear Fuel and/or High-Level Radioactive Waste (standard disposal contract) to be used by the DOE in furnishing disposal services to the owners or generators of spent nuclear fuel and/or high-level radioactive waste (48 FR 16590). On March 17, 1989, the U.S. Court of Appeals for the District of Columbia (Consolidated Edison Co. et al. v. DOE, No. 88-1194) ruled that the ongoing 1.0 mill per kilowatt hour (1M/KWH) fee in DOE's standard disposal contract should be based on nuclear electricity actually sold rather than net generation of electricity as adopted in the amended final rule of September 17, 1987 (52 FR 35356). This notice publishes for comment amendments to Article I.13, Article VIII.A.1 and B.1, and Appendix G of the standard disposal contract to be consistent with the court's ruling. This amendment is expected to reduce revenues from the ongoing fee about seven percent.

716. COLLECTION OF CLAIMS OWED THE UNITED STATES

Legal Authority: 31 USC 3701 to 3719; PL 97-365; 31 USC 3720A; PL 98-369

CFR Citation: 10 CFR 1015

Legal Deadline: None

Abstract: The Department of Energy (DOE) Debt Collection Regulations (10 CFR 1015) are being updated to include provisions of the revised Office of Management and Budget Circular A-129 and to implement the Federal Tax Refund Offset Program. This update supports the objective of 10 CFR 1015, which establishes the overall regulations under which DOE collects claims owed to the United States including the implementation of the Federal Claims Collection Act (31 USC 3701-3719) as amended by the Debt Collection Act of 1982 (PL 97-365). DOE's Debt Collection Regulations also incorporate the Federal Claims Collection Standards (4 CFR 101-105) published jointly by the Department of Justice and the General Accounting Office. The preamble to the Federal Claims Collection Standards states that each Federal agency is required to develop its own implementing regulations based on and consistent with these standards. The Debt Collection Act specifies that each agency must prescribe regulations on certain aspects of the debt collection process. Furthermore, the Department of Treasury's Regulations (26 CFR 301.6402) which implement the Deficit Reduction Act of 1984 (31 USC 3720A) (cont)

Legal Authority: PL 97-425

CFR Citation: Not applicable

Legal Deadline: None

Abstract: The Department of Energy (DOE), Office of Civilian Radioactive Waste Management published for comment its proposed interpretation and procedures for certain of the payments- equal-to-taxes (PETT) provisions of the Nuclear Waste Policy Act of 1982, as amended (42 U.S.C. 10101 note)(The Act). The Act provides that DOE will make these payments to eligible States, units of local government, and Indian Tribes for activities related to siting, development, and operation of a high-level radioactive waste and spent-fuel repository, and any monitored retrievable storage facility. The jurisdictions are eligible for payments equivalent to the amount they would receive if authorized to tax the Federal site characterization activities at such site. Following its review of the comments received, DOE will publish a final notice setting forth DOE's interpretation of certain PETT provisions of the Act applicable during the current site characterization phase of the nuclear waste repository program, in addition to a general description of the procedures DOE anticipates utilizing to implement the PETT provisions.

Significance: Agency Priority

Legal Authority: 42 USC 2201b et seq; Atomic Energy Act and Energy Reorganization Act, as amended

CFR Citation: 10 CFR 707

Legal Deadline: None

Abstract: Will establish comprehensive substance abuse prevention policy and program at DOE-owned or -leased operations consistent with DOE responsibility to protect public health and safety and national security. Regulation will address alcohol and drug testing requirements, educational and training programs, drug counseling and rehabilitation, confidentiality and protection of privacy of employees. Costs incurred will affect cost reimbursement type contracts for managing, operating, constructing, and servicing DOE facilities and certain other contractors and subcontractors. Benefits will be in establishing reasonable level of consistency among contractor programs and resultant cost to the Government and in reducing risk of unacceptable damage to security, environment, health and safety of employees and the public.

RIN: 1991–AA65

735. PUBLICIZING FEDERAL SUPPORT IN RECIPIENT PROCUREMENT SOLICITATIONS (GRANTS)

Legal Authority: PL 101-136, Sec 623; Treasury, Postal Service & Gen. Govt. Appropriations Act, 1990

CFR Citation: 10 CFR 600

Legal Deadline: None

Abstract: The regulation would provide guidance on implementation of section 623 of the Treasury, Postal Service and General Government Appropriations Act, 1990. Section 623 requires information in procurement solicitations of assistance recipients about the amount and percent of Federal funds involved in the procurement. The law applies to procurements in excess of $500,000.

736. DEPARTMENT OF ENERGY ACQUISITION REGULATION CONTRACTOR ACCOUNTABILITY

Legal Authority: 42 USC 2201, sec 644; 42 USC 7254, sec 205(c)

CFR Citation: 48 CFR 970

Legal Deadline: None

Abstract: To combine 2 prior proposals. Action 1991-AA70 regarding fee schedules has been combined with this action to improve management and operating (M&O) contractor accountability. This revised rule is to modify the Department of Energy Acquisition Regulation (DEAR) relating to the allowability of costs and expenses incurred and to the structure and amount of award fee available under prospective contracts with profit-making management and operating (M&O) contractors.
